Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Philip G. Arneson	Sparta, WI	Attorney	Indefinite from December 15, 1985
Joseph P. Day	Woburn, MA	Attorney	Indefinite from December 24, 1985
Kenneth H. Dillard	Nashville, TN	Certified Public Accountant	Indefinite from December 31, 1985
LeRoy Hodge	Hamilton, NY	Attorney	Indefinite from December 10, 1985
Frank S. Lukuch	Barberton, OH	Certified Public Accountant	Indefinite from December 4, 1985
W. Stephen McConnell	Tampa, FL	Certified Public Accountant	Indefinite from December 26, 1985
Nathan Rich	Wilmington, DE	Certified Public Accountant	Indefinite from December 1, 1985
Walter E. Shettlemore	Long Beach, MS	Certified Public Accountant	Indefinite from December 20, 1985

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.451-3, amended.	Accounting for long-term contracts	1986-6 I.R.B. 55	Mar. 7, 1986
26 CFR 31.3508-1, 31.3509-1, 1.6041A-1, added.	Treatment of real estate agents and direct sellers; determination of employer liability for certain employment taxes	1986-6 I.R.B. 46	Mar. 10, 1986
26 CFR 1.6041-3, amended.	Information reporting of allowances or reimbursements for travel expenses of public employees	1986-7 I.R.B. 26	Mar. 10, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.
C—Individual.
C.B.—Cumulative Bulletin.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

INCOME TAX

Rev. Rul. 86-31, page 4.

Prizes and awards; NASA awards. The Service will not follow the decision in *Jones v. Commissioner*, 743 F.2d 1429 (9th Cir. 1984) relating to the taxability of NASA awards, but will continue to follow the decision in *Rogallo v. United States*, 475 F.2d (4th Cir. 1973) and Rev. Rul. 69-129, 1969-1 C.B. 35.

Rev. Rul. 86-32, page 16.

Trusts; reversionary interest; determination of life expectancy. Actuarial tables are adopted for determining life expectancy for purposes of section 673 of the Code for transfers to a trust occurring after November 30, 1983.

Rev. Rul. 86-33, page 17.

Controlled foreign corporations; Subpart F income; dividend distribution within same chain of foreign corporations. For purposes of calculating the limitation on subpart F income under section 952(c) of the Code, a controlled foreign corporation (CFC) that receives a dividend distribution from another CFC within the same chain of ownership is required to increase its earnings and profits for the tax year by the amount of the distribution.

Rev. Rul. 86-34, page 20.

Federal short-term, mid-term, and long-term rates. For purposes of section 1274(d) of the Code, relating to certain transactions in which a debt instrument is issued for property, a table sets forth the applicable federal short-term, mid-term, and long-term rates for March 1986.

T.D. 8069, page 4.

Amendments to the regulations under sections 167, 170, 2055, and 2522 of the Code relate to contributions not in trust of partial interests in property for conservation purposes.

LR-198-82, page 30.

Proposed amendments to the regulations under section 6031 of the Code relate to partnership returns.

EMPLOYEE PLANS

Notice 86-3, page 21.

The Service has established guidelines for granting partial relief from the sanctions for failure to satisfy the requirements of section 401(a) of the Code in the case of certain employee plans that were not timely amended to comply with the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), the Tax Reform Act of 1984 (TRA), or the Retirement Equity Act of 1984 (REA).

EE-95-84, page 25.

Proposed amendments to the regulations under sections 401 and 411 of the Code relate to certain restrictions on an employee's right to receive alternative forms of benefit under qualified plans.

ESTATE & GIFT TAXES

T.D. 8069, page 4.

Amendments to the regulations under sections 167, 170, 2055, 2522 of the Code relate to contributions not in trust of partial interests in property for conservation purposes.

ADMINISTRATIVE

Rev. Proc. 86-12, page 21.

Rulings; partnership issues. Guidance is provided for taxpayers requesting rulings concerning certain partnership issues on which the Service has previously declined to rule. Rev. Proc. 86-1 modified.

Announcement 86-22, page 34.

Guidance is provided concerning information reporting rules under sections 1275 and 6049 of the Code for issuers of publicity offered original issue discount (OID) debt instruments and for brokers and other middlemen who hold interest in those debt instruments as nominees.

Announcement 86-24, page 35.

Instructions for 1985 Form 2106, Employee Business Expenses, are incomplete for taxpayers who choose an alternative ACRS method for vehicles.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

READEX FICHE best copy available

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 74.—Prizes and Awards

26 CFR 1.74-1: Prizes and awards.

Prizes and awards; NASA awards. The Service will not follow the decision in *Jones v. Commissioner*, 743 F.2d 1429 (9th Cir. 1984) relating to the taxability of NASA awards, but will continue to follow the decision in *Rogallo v. United States*, 475 F.2d (4th Cir. 1973) and Rev. Rul. 69-129, 1969-1 C.B. 35.

Rev. Rul. 86-31

The Internal Revenue Service will not follow the decision in *Jones v. Commissioner*, 743 F.2d 1429 (9th Cir. 1984). That case concerned an award made to the taxpayer by the National Aeronautics and Space Act of 1958, 42 U.S.C. section 2458 (1982). The opinion held that the award was a prize or award excludable from gross income under section 74(b) of the Internal Revenue Code. Rather, the Service will continue to follow the analysis of the law published in Rev. Rul. 69-129, 1969-1 C.B. 35. Rev. Rul. 69-129 holds that awards made under 42 U.S.C. section 2458 are not made primarily in recognition of achievement within the meaning of section 74(b) of the Code, but are made to reward contributions to NASA by employees and others that advance the goals and interests of NASA. As such, these awards are includible in the gross incomes of the recipients. Rev. Rul. 69-129 was upheld in *Rogallo v. United States*, 475 F.2d 1 (4th Cir. 1973), and remains the position of the Service.

In addition, the Service will continue to follow section 1.74-1(b) of the Income Tax Regulations. That provision states that section 74(b) of the Code does not exclude from gross income prizes or awards from an employer to an employee in recognition of some achievement in connection with the employee's employment.

Section 170.—Charitable, Etc., Contributions and Gifts

26 CFR 1.170A-14: Qualified conservation contributions.
(Also Sections 2055, 2522; 20.2055-2, 25.2522(c)-3.)

T.D. 8069

TITLE 26—INTERNAL REVENUE.—CHAPTER 1 SUBCHAPTER A, SUBCHAPTER B, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 20—ESTATE TAX; ESTATES OF DECEDENTS DYING AFTER AUGUST 16, 1954; PART 25—GIFT TAX; GIFTS MADE AFTER DECEMBER 31, 1954; PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Qualified Conservation Contributions

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final Regulations.

SUMMARY: This document contains final regulations relating to contributions not in trust of partial interests in property for conservation purposes. Changes to the applicable law made by the Temporary Tax Provisions, Extension [Pub. L. 96-541, 1980-2 C.B. 596] and the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1] are reflected in this document. These regulations provide necessary guidance to the public for compliance with the law and affect donors and donees of qualified conservation contributions.

DATES: Except as otherwise provided in §1.170A-14(g)(4)(ii), the regulations are effective for contributions made on or after December 18, 1980.

FOR FURTHER INFORMATION CONTACT: Ada S. Rousso of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR.T), Telephone 202-566-3287 (not a toll free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On May 23, 1983, the FEDERAL REGISTER (48 FR 22940) [LR-200-76, 1983-1 C.B. 910] published proposed amendments to the Income Tax Regulations (26 CFR Part 1) and Estate and Gift Tax Regulations (26 CFR Parts 20 and 25) under section 170(h), 2055 and 2522 of the Internal Revenue Code of 1954 (Code). The amendments were proposed to conform the regulations to section 6 of the Temporary Tax Provisions, Extension (P.L. 96-541, 96 Stat. 3206). [1980-2 C.B. 596, 598]. A public hearing was held on September 15, 1983. Subsequent to the hearing, section 170(h)(5) of the Code was amended by section 1035(a) of the Tax Reform Act of 1984 (P.L. 98-369, 98 Stat. 1042) [1984-3. C.B. (Vol. 1) 1, 550]. On December 10, 1984, the Service issued a news release (IR-84-125) reminding taxpayers claiming deductions for donations of conservation easements that such deductions are limited to the fair market value of the easement at the time of the contribution. The news release further indicated that if the donation of the easement does not decrease the value of the property on which the easement is granted, the fair market value of the easement, and thus, the deduction, is zero.

After consideration of all comments regarding the proposed amendments and of the revision made by the Tax Reform Act of 1984, those amendments are adopted as revised by this Treasury decision.

SUMMARY OF COMMENTS

Qualified Contribution of Entire Interest of Donor Other Than Qualified Mineral Interest

In response to many comments regarding the donation of an entire interest of the donor other than a qualified mineral interest, proposed §1.170A-14(b) has been revised to provide that section 170(h) will not disallow a deduction for a conservation contribution where the donor has previously transferred a portion of the entire interest unless the donor has purposefully reduced his interest before the contribution is made, for example, by transferring a portion to a related person in order to retain control of more than a qualified mineral interest.

Access

The final regulations have been revised to clarify the extent of public access required for each type of qualified conservation contribution under section 170(h). Thus, in order to qualify for a deduction under section 170(h), donations of property to preserve land areas for outdoor recreation by or for the education of the general public, for the preservation of a view, for the preservation of land pursuant to a governmental conservation policy, or for the preservation of historic structures or land areas must provide for either physical or visual access. Examples have been included to clarify the public access requirement in specific circumstances.

Inconsistent Use

Section 1.170A-14(e)(2) provides that a deduction will not be allowed if a contribution would accomplish one of the enumerated conservation purposes but would permit impairment of other enumerated conservation interests. However, inconsistent use of the property is permitted if that use is necessary for the protection of the conservation interests that are the subject of the contribution. Commenters felt that the proposed regulations were not specific enough regarding permitted inconsistent uses. Therefore, the final regulations have been revised to include examples of certain uses that are not prohibited if, under the circumstances, they do not impair significant conservation interests. See §1.170A-14(e)(2).

Third Party Mineral Rights

The proposed regulations provided that the interest in property that is retained by the donor (and the donor's successor in interest) must be subject to legally enforceable restrictions that will prevent uses of the retained interest inconsistent with the conservation purposes of the donation. In addition, there was a prohibition against any method of mining on property that is the subject of a gift that would be inconsistent with the conservation purposes of the donation. Furthermore, a contribution was disallowed if at any time there may be surface mining on the property.

Many comments were received requesting relief from this rule because in many areas of the country, the mineral rights are not and may never have been owned by the donor; thus the donor can not ensure that a third party owner of the mineral rights will not engage in surface mining on the property that is the subject of the gift.

Subsequent to publication of the proposed regulations, section 1035(a) of the Tax Reform Act of 1984 amended section 170(h)(5)(B) (relating to surface mining) to provide an exception to the general rule precluding a deduction for a conservation contribution if there is any likelihood of surface mining occurring at any time on the property to which the contribution relates. For conservation contributions made after July 18, 1984, the general rule with respect to surface mining will not apply to preclude a deduction if the surface estate and mineral interests were separated before June 13, 1976, remain so separated up to and including the time of the gift, and the probability of surface mining occurring on the property is so remote as to be negligible. Factors that may be considered in determining if the probability of surface mining is so remote as to be neglible are provided in the final regulations. In addition, the regulations provide that no deduction for a conservation contribution of the surface estate is permitted under this exception if the present owner is related to the owner of the surface estate at the time of the gift. Finally, these regulations clarify that any person may retain the mineral interest so long as the donor can guarantee observance of the restrictions to protect the conservation interests. See §1.170A-14(g)(4) and the example thereunder.

Preservation of Open Space

In general, the staute provides that a donation of real property to preserve open space for conservation purposes (including farmland and forestland) will qualify as a deductible contribution if either of two tests are met: (1) The preservation must be pursuant to a clearly delineated governmental policy and must yield a significant public benefit, or (2) the preservation must be for the scenic enjoyment of the general public and must yield a significant public benefit. In connection with the first test, the final regulations retain the "sliding scale" approach adopted in the proposed regulations which is used to establish a relationship between the two requirements. Thus, although the requirements of governmental policy and public benefit must be met independently, the more specific the governmental policy with respect to a particular site to be protected, the more likely the governmental decision, by itself, will tend to establish the significant public benefit associated with the donation.

Commenters felt the regulations did not sufficiently clarify the standards under which deductions are allowed for the preservation of open space. Many of the comments received suggested revisions in the final regulations to provide donors with procedural "safe harbors" to avoid uncertainty regarding the deductibility of their donations. Commentators believed that without safe harbors, donors either will have to bear the expense of seeking advance rulings, or will risk additional tax liability if their deductions are later disallowed. Generally, the commenters suggested the following:

(1) A declaration by a unit of government identifying a particular property as worthy of protection should meet the clearly delineated governmental policy test and thus be sufficient to eliminate the need to meet the significant public benefit test.

(2) Acceptance of a donation by a unit of government (federal, state or local) or a duly constituted commission of such unit of government, should establish both a clearly delineated governmental policy and significant public benefit.

(3) A sliding scale approach should be extended to the relationship between scenic enjoyment of the general public and significant public benefit. Thus, the more scenic the view and the more people who see it, the more it tends to confer a significant public benefit.

(4) The regulations should encourage donations of farmland for agricultural uses by expanding references to the preservation of farmland to uses other than just the preservation of farmland pursuant to a state program for flood prevention and control. See §1.170A-14(d)(4)(iv)(B). Commenters believed the reference was misleading because it implied that such is the only use for which there can be a deductible donation of farmland.

(5) Acceptance of a donation by a qualified conservation organization should be conclusive evidence of deductibility. Because the Internal Revenue Service lacks the expertise to make the subjective determinations of "significant public benefit" and "scenic enjoyment", that responsibility should be delegated to either a private organization or to another governmental agency with acknowledged expertise in

this area.

In general, the rules in the proposed regulations relating to open space easements have been retained in the final regulations. However, in response to the comments, some clarifications have been made regarding such easements. First, the fact that a unit of government has identified a particular property as worthy of protection does not by itself show the existence of a clearly delineated governmental policy, and thus, the significant public benefit associated with the donation must be independently demonstrated. Second, when there is a rigorous review of a donation by a unit of government or a duly constituted commission of a unit of government, the acceptance of a donation by such unit or commission of government tends to establish the clearly delineated governmental policy. An example of a rigorous review process has been included in the final regulations. The more specific the governmental policy with respect to a particular site to be protected, the more likely it is that the governmental decision to accept the donation will tend, by itself, to establish the significant public benefit associated with the donation. A degree of certainty is available to donors in jurisdictions that have clearly articulated preservation policies, but as with any subjective test, there must ultimately be some exercise of judgment and responsibility by both donors and donees. Third, the terms "significant public benefit" and "scenic enjoyment" necessarily require a case-by-case factual determination and hence cannot be defined precisely. The list of factors included at §1.170A-14(d)(4)(iv) with respect to "significant public benefit" and §1.170A-14(d)(4)(ii) with respect to "scenic enjoyment" are intended to be illustrative, rather than all-inclusive. In a particular case, other facts and circumstances may be relevant. Fourth, the regulations clarify that farmland, as recognized by the statute, is merely a category of open space that must meet either of the two prescribed tests in order to be a deductible contribution. Finally, acceptance of a donation by a qualified organization is not conclusive evidence of the deductibility of a donation. The Internal Revenue Service has the responsibility for making final determinations as to the deductibility of donations. That responsibility cannot be delegated to a private organization or to another governmental agency, although the Service accords substantial weight to the determinations of qualified organizations and governmental agencies in its decision-making process.

Donations of Mortgaged Property

Section 170(h)(5) provides that the conservation purposes of the donation must be protected in perpetuity. The proposed regulations did not specifically address how this requirement applies to mortgaged property.

In response to comments received, the final regulations clarify that when a contribution of mortgaged property is made to a qualified organization, the mortgagee must subordinate its rights under the mortgage to the right of the qualified organization to enforce the conservation purposes of the gift in perpetuity. However, since certain donees, unaware of this clarification, accepted (or will have accepted) contributions of mortgaged property prior to February 12, 1986, without requiring subordination of the mortgagee's rights in the property, a donor will be allowed a deduction for such a contribution provided that the donor can demonstrate that the conservation purposes of the gift are protected in perpetuity absent subordination.

Valuation

Section 1.170A-14(h)(3)(i) of the final regulations has been revised to indicate that increases in the value of any property owned by the donor or a related person—not just contiguous property—resulting from the granting of a perpetual conservation restriction must be taken into account in determining the amount of the deduction.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although a notice of proposed rulemaking which solicited public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of these regulations is Ada S. Rousso of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1, 20, 25, and 602 are amended as follows:

Paragraph 1. The authority for Part 1 continues to read in part: 26 U.S.C. 7805. * * *

§1.167(a)-5 [Amended]

Par. 2. Section 1.167(a)-5 is amended by adding at the end thereof the following new sentence: "For the adjustment to the basis of a structure in the case of a donation of a qualified conservation contribution under section 170(h), see §1.170A-14(h)(3)(iii)."

Par. 3. Section 1.170A-7 is amended as follows:

a. The first sentence of paragraph (b)(1)(ii) is revised to begin with the phrase "With respect to contributions made on or before December 17, 1980,".

b. Paragraph (b)(1)(ii) is revised by adding at the end the following new sentence: "For the deductibility of a qualified conservation contribution, see §1.170A.-14".

c. A new paragraph (b)(5) is added immediately after paragraph (b)(4), as set forth below.

d. The first sentence of paragraph (c) is revised to begin with the phrase "Except as provided in §1.170A-14."

e. Paragraph (e) is revised as set forth below.

§1.170A-7 Contributions not in trust of partial interests in property.

* * * * *

(b) *Contributions of certain partial interests in property for which a deduction is allowed.** * *

(5) *Qualified conservation contribution.* A deduction is allowed under section 170 for the value of a qualified conservation contribution. For the definition of a qualified conservation contribution. See §1.170A-14

* * * * *

(e) *Effective date.* This section applies only to contributions made after July 31, 1969. The deduction allowable under §1.170A-7(b)(1)(ii) shall be available only for contributions made on or before December 17, 1980. Except as otherwise provided in §1.170A-14(g)(4)(ii) the deduction allowable under §1.170A-7(b)(5) shall be available for contributions made on or after December 18, 1980.

Par. 4. A new §1.170A-14 is added after §1.170A-13T to read as set forth below.

§1.170A-14 Qualified conservation contributions.

(a) *Qualified conservation contributions.* A deduction under section 170 is generally not allowed for a charitable contribution of any interest in property that consists of less than the donor's entire interest in the property other than certain transfers in trust (see §1.170A-6 relating to charitable contributions in trust and §1.170A-7 relating to contributions not in trust of partial interests in property). However, a deduction may be allowed under section 170(f)(3)(B)(iii) for the value of a qualified conservation contribution if the requirements of this section are met. A qualified conservation contribution is the contribution of a qualified real property interest to a qualified organization exclusively for conservation purposes. To be eligible for a deduction under this section, the conservation purpose must be protected in perpetuity.

(b) *Qualified real property interest*—(1) *Entire interest of donor other than qualified mineral interest.* (i) The entire interest of the donor other than a qualified mineral interest is a qualified real property interest. A qualified mineral interest is the donor's interest in subsurface oil, gas, or other minerals and the right of access to such minerals.

(ii) A real property interest shall not be treated as an entire interest other than a qualified mineral interest by reason of section 170(h)(2)(A) and this paragraph (b)(1) if the property in which the donor's interest exists was divided prior to the contribution in order to enable the donor to retain control of more than a qualified mineral interest or to reduce the real property interest donated. See Treasury regulations §1.170A-7(a)(2)(i). An entire interest in real property may consist of an undivided interest in the property. But see section 170(h)(5)(A) and the regulations thereunder (relating to the requirement that the conservation purpose which is the subject of the donation must be protected in perpetuity). Minor interests, such as rights-of-way, that will not interfere with the conservation purposes of the donation, may be transferred prior to the conservation contribution without affecting the treatment of a property interest as a qualified real property interest under this paragraph (b)(1).

(2) *Perpetual conservation restriction.* A perpetual conservation restriction is a qualified real property interest. A "perpetual conservation restriction" is a restriction granted in perpetuity on the use which may be made of real property—including, an easement or other interest in real property that under state law has attributes similar to an easement (e.g., a restrictive covenant or equitable servitude). For purposes of this section, the terms "easement", "conservation restriction", and "perpetual conservation restriction" have the same meaning. The definition of "perpetual conservation restriction" under this paragraph (b)(2) is not intended to preclude the deductibility of a donation of affirmative rights to use a land or water area under §1.170A-13(d)(2). Any rights reserved by the donor in the donation of a perpetual conservation restriction must conform to the requirements of this section. See *e.g.*, paragraph (d)(4)(ii), (d)(5)(i), (e)(3), and (g)(4) of this section.

(c) *Qualified organization*—(1) *Eligible donee.* To be considered an eligible donee under this section, an organization must be a qualified organization, have a commitment to protect the conservation purposes of the donation, and have the resources to enforce the restrictions. A conservation group organized or operated primarily or substantially for one of the conservation purposes specified in section 170(h)(4)(A) will be considered to have the commitment required by the preceding sentence. A qualified organization need not set aside funds, to enforce the restrictions that are the subject of the contribution. For purposes of this section, the term "qualified organization" means:

(i) A governmental unit described in section 170(b)(1)(A)(v);

(ii) An organization described in section 170(b)(1)(A)(vi);

(iii) A charitable organization described in section 501(c)(3) that meets the public support test of 509(a)(2);

(iv) A charitable organization described in section 501(c)(3) that meets the requirements of section 509(a)(3) and is controlled by an organization described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

(2) *Transfers by donee.* A deduction shall be allowed for a contribution under this section only if in the instrument of conveyance the donor prohibits the donee from subsequently transferring the easement (or, in the case of a remainder interest or the reservation of a qualified mineral interest, the property), whether or not for consideration, unless the donee organization, as a condition of the subsequent transfer, requires that the conservation purposes which the contribution was originally intended to advance continue to be carried out. Moreover, subsequent transfers must be restricted to organizations qualifying, at the time of the subsequent transfer, as an eligible donee under paragraph (c)(1) of this section. When a later unexpected change in the conditions surrounding the property that is the subject of a donation under paragraph (b)(1), (2), or (3) of this section makes impossible or impractical the continued use of the property for conservation purposes, the requirement of this paragraph will be met if the property is sold or exchanged and any proceeds are used by the donee organization in a manner consistent with the conservation purposes of the original contribution. In the case of a donation under paragraph (b)(3) of this section to which the preceding sentence

applies, see also paragraph (g)(5)(ii) of this section.

(d) *Conservation purposes*—(1) *In general.* For purposes of section 170(h) and this section, the term "conservation purposes" means—

(i) The preservation of land areas for outdoor recreation by, or the education of, the general public, within the meaning of paragraph (d)(2) of this section.

(ii) The protection of a relatively natural habitat of fish, wildlife, or plants, or similar ecosystem, within the meaning of paragraph (d)(3) of this section.

(iii) The preservation of certain open space (including farmland and forest land) within the meaning of paragraph (d)(4) of this section, or

(iv) The preservation of a historically important land area or a certified historic structure, within the meaning of paragraph (d)(5) of this section.

(2) *Recreation or education*—(i) *In general.* The donation of a qualified real property interest to preserve land areas for the outdoor recreation of the general public or for the education of the general public will meet the conservation purposes test of this section. Thus, conservation purposes would include, for example, the preservation of a water area for the use of the public for boating or fishing, or a nature or hiking trail for the use of the public.

(ii) *Access.* The preservation of land areas for recreation or education will not meet the test of this section unless the recreation or education is for the substantial and regular use of the general public.

(3) *Protection of environmental system*—(i) *In general.* The donation of a qualified real property interest to protect a significant relatively natural habitat in which a fish, wildlife, or plant community, or similar ecosystem normally lives will meet the conservation purposes test of this section. The fact that the habitat or environment has been altered to some extent by human actrivity will not result in a deduction being denied under this section if the fish, wildlife, or plants continue to exist there in a relatively natural state. For example, the preservation of a lake formed by a man made dam or a salt pond formed by a man-made dike would meet the conservation purposes test if the lake or pond were a nature feeding area for a wildlife community that included rare, endangered, or threatened native species.

(ii) *Significant habitat or ecosystem.* Significant habitats and ecosystems include, but are not limited to, habitats for rare, endangered, or threatened species of animal, fish, or plants; natural areas that represent high quality examples of a terrestrial community or aquatic community, such as islands that are undeveloped or not intensely developed where the coastal ecosystem is relatively intact; and natural areas which are included in or which contribute to, the ecological viability of a local, state, or national park, nature preserve, wildlife refuge, wilderness area, or other similar conservation area.

(iii) *Access.* Limitations on public access to property that is the subject of a donation under this paragraph (d)(3) shall not render the donation nondeductible. For example, a restriction on all public access to the habitat of a threatened native animal species protected by a donation under this paragraph (d)(3) would not cause the donation to be nondeductible.

(4) *Preservation of open space*—(i) *In general.* The donation of a qualified real property interest to preserve open space (including farmland and forest land) will meet the conservation purposes test of this section if such preservation is—

(A) Pursuant to a clearly delineated Federal, state, or local governmental conservation and will yield a significant public benefit, or

(B) For the scenic enjoyment of the general public and will yield a significant public benefit.

An open space easement donated on or after December 18, 1980, must meet the requirements of 170(h) in order to be deductible.

(ii) *Scenic enjoyment*—(A) *Factors.* A contribution made for the preservation of open space may be for the scenic enjoyment of the general public. Preservation of land may be for the scenic enjoyment of the general public if development of the property would impair the scenic character of the local rural or urban landscape or would interfere with a scenic panorama that can be enjoyed from a park, nature preserve, road, waterbody, trail, or historic structure or land area, and such area or transportation way is open to, or utilized by, the public. "Scenic enoyment" will be evaluated by considering all pertinent facts and circumstances germane to the contribution. Regional variations in topography, geology, biology, and cultural and economic conditions require flexibility in the application of this test, but do not lessen the burden on the taxpayer to demonstrate the scenic characteristics of a donation under this paragraph. The application of a particular objective factor to help define a view as "scenic" in one setting may in fact be entirely inappropriate in another setting. Among the factors to be considered are:

(1) The compatibility of the land use with other land in the vicinity;

(2) The degree of contrast and variety provided by the visual scene;

(3) The openness of the land (which would be a more significant factor in an urban or densely populated setting or in a heavily wooded area);

(4) Relief from urban closeness;

(5) The harmonious variety of shapes and textures;

(6) The degree to which the land use maintains the scale and character of the urban landscape to preserve open space, visual enjoyment, and sunlight for the surrounding area:

(7) The consistency of the proposed scenic view with a methodical state scenic identification program, such as a state landscape inventory; and

(8) The consistency of the proposed scenic view with a regional or local landscape inventory made pursuant to a sufficiently rigorous review process, especially if the donation is endorsed by an appropriate state or local governmental agency.

(B) *Access.* To satisfy the requirement of scenic enjoyment by the general public, visual (rather than physical) access to or across the property by the general public sufficient. Under the terms of an open space easement on scenic property, the entire property need not be visible to the public for a donation to qualify under this section, although the public benefit from the donation may be insufficient to quality for a deduction if only a small portion of the property is visible to the public.

(iii) *Governmental conservation policy*—(A) *In general.* The requirement that the preservation of open space be pursuant to a clearly delineated Federal, state, or local governmental policy is intended to protect the types of property identified by representatives of the general public as worthy of preservation or conservation. A general declaration of conservation goals by a single official or legislative body is not sufficient. However, a governmental conservation policy need not be a certification program that identifies particular lots or small parcels of individually owned property. This requirement will be met by donations that further a specific, identified conservation project, such as the preservation of land within a state or local landmark district that is locally recognized as being significant to that district; the preservation of a wild or scenic river, the preservation of farmland pursuant to a state program for flood prevention and control; or the protection of the scenic, ecological, or historic character of land that is contiguous to, or an integral part of, the surroundings of existing recreation or conservation sites. For example, the donation of a perpetual conservation restriction to a qualified organization pursuant to a formal resolution or certification by a local governmental agency established under state law specifically identifying the subject property as worthy of protection for conservation purposes will meet the requirement of this paragraph. A program need not be funded to satisfy this requirement, but the program must involve a significant commitment by the government with respect to the conservation project. For example, a governmental program according preferential tax assessment or preferential zoning for certain property deemed worthy of protection for conservation purposes would constitute a significant commitment by the government.

(B) *Effect of acceptance by governmental agency.* Acceptance of an easement by an agency of the Federal Government or by an agency of a state or local government (or by a commission, authority, or similar body duly constituted by the state or local government and acting on behalf of the state or local government) tends to establish the requisite clearly delineated governmental policy, although such acceptance, without more, is not sufficient. The more rigorous the review process by the governmental agency, the more the acceptance of the easement tends to establish the requisite clearly delineated governmental policy. For example, in a state where the legislature has established an Environmental Trust to accept gifts to the state which meet certain conservation purposes and to submit the gifts to a review that requires the approval of the state's highest officials, acceptance of a gift by the Trust tends to establish the requisite clearly delineated governmental policy. However, if the Trust merely accepts such gifts without a review process, the requisite clearly delineated governmental policy is not established.

(C) *Access.* A limitation on public access to property subject to a donation under this paragraph (d)(4)(iii) shall not render the deduction nondeductible unless the conservation purpose of the donation would be undermined or frustrated without public access. For example, a donation pursuant to a governmental policy to protect the scenic character of land near a river requires visual access to the same extent as would a donation under paragraph (d)(4)(ii) of this section.

(iv) *Significant public benefit*—(A) *Factors.* all contributions made for the preservation of open space must yield a significant public benefit. Public benefit will be evaluated by considering all pertinent facts and circumstances germane to the contribution. Factors germane to the evaluation of public benefit from one contribution may be irrelevant in determining public benefit from another contribution. No single factor will necessarily be determinative. Among the factors to be considered are:

(1) The uniqueness of the property to the area;

(2) The intensity of land development in the vicinity of the property (both existing development and foreseeable trends of development);

(3) The consistency of the proposed open space use with public programs (whether Federal, state or local) for conservation in the region, including programs for outdoor recreation, irrigation or water supply protection, water quality maintenance or enhancement, flood prevention and control, erosion control, shoreline protection, and protection of land areas included in, or related to, a government approved master plan or land management area;

(4) The consistency of the proposed open space use with existing private conservation programs in the area, as evidenced by other land, protected by easement or fee ownership by organizations referred to in §1.170A-14(c)(1), in close proximity to the property;

(5) The likelihood that development of the property would lead to or contribute to degradation of the scenic, natural, or historic character of the area:

(6) The opportunity for the general public to use the property or to appreciate its scenic values;

(7) The importance of the property in preserving a local or regional landscape or resource that attracts tourism or commerce to the area;

(8) The likelihood that the donee will acquire equally desirable and valuable substitute property or property rights;

(9) The cost to the donee of enforcing the terms of the conservation restriction;

(10) The population density in the area of the property; and

(11) The consistency of the proposed open space use with a legislatively mandated program identifying particular parcels of land for future protection.

(B) *Illustrations.* The preservation of an ordinary tract of land would not in and of itself yield a significant public benefit, but the preservation of ordinary land areas in conjunction with other factors that demonstrate significant public benefit or the preservation of a unique land area for public enjoyment would yield a significant public benefit. For example, the preservation of a vacant downtown lot would not by itself yield a significant public benefit, but the preservation of the downtown lot as a public garden would, absent countervailing factors, yield a significant public benefit. The following are other examples of contributions which would, absent countervailing factors, yield a significant public benefit: the preservation of farmland pursuant to a state program for flood prevention and control; the preservation of a unique natural land formation for the enjoyment of the general public; the preservation of woodland along a public highway pursuant to a government program to preserve the appearance of the area so as to maintain the scenic view from the highway; and the preservation of a stretch of undeveloped property located between a public highway and the ocean in order to maintain the scenic ocean view from the highway.

(v) *Limitation.* A deduction will not

be allowed for the preservation of open space under section 170(h)(4)(A)(iii), if the terms of the easement permit a degree of intrusion or future development that would interfere with the essential scenic quality of the land or with the governmental conservation policy that is being furthered by the donation. See §1.170A-14(e)(2) for rules relating to inconsistent use.

(vi) *Relationship of requirements*—(A) *Clearly delineated governmental policy and significant public benefit.* Although the requirements of "clearly delineated governmental policy" and "significant public benefit" must be met independently, for purposes of this section the two requirements may also be related. The more specific the governmental policy with respect to the particular site to be protected, the more likely the governmental decision, by itself, will tend to establish the significant public benefit associated with the donation. For example, while a statute in State X permitting preferential assessment for farmland is, by definition, governmental policy, it is distinguishable from a state statute, accompanied by appropriations, naming the X River as a valuable resource and articulating the legislative policy that the X River and the relatively natural quality of its surrounding be protected. On these facts, an open space easement on farmland in State X would have to demonstrate additional factors to establish "significant public benefit." The specificity of the legislative mandate to protect the X River, however, would by itself tend to establish the significant public benefit associated with an open space easement on land fronting the X River.

(B) *Scienic enjoyment and significant public benefit.* With respect to the relationship between the requirements of "scenic enjoyment" and "significant public benefit," since the degrees of scenic enjoyment offered by a variety of open space easements are subjective and not as easily delineated as are increasingly specific levels of governmental policy, the significant public benefit of preserving a scenic view must be independently established in all cases.

(C) *Donations may satisfy more than one test.* In some cases, open space easements may be both for scenic enjoyment and pursuant to a clearly delineated governmental policy. For example, the preservation of a particular scenic view identified as part of a scenic landscape inventory by a rigorous governmental review process will meet the tests of both paragraphs (d)(4)(i)(A) and (d)(4)(i)(B) of this section.

(5) *Historic preservation*—(i) *In general.* The donation of a qualified real property interest to preserve an historically important land area or a certified historic structure will meet the conservation purposes test of this section. When restrictions to preserve a building or land area within a registered historic district permit future development on the site, a deduction will be allowed under this section only if the terms of the restrictions require that such development conform with appropriate local, state, or Federal standards for construction or rehabilitation within the district. See also §1.170A-14(h)(3)(ii).

(ii) *Historically important land area.* The term "historically important land area" includes:

(A) An independently significant land area including any related historic resources (for example, an archaeological site or a Civil War battlefield with related monuments, bridges, cannons, or houses) that meets the National Register Criteria for Evaluation in 36 CFR 60.4 (Pub. L. 89-665, 80 Stat. 915);

(B) Any land area within a registered historic district including any buildings on the land area that can reasonably be considered as contributing to the significance of the district; and

(C) Any land area (including related historic resources) adjacent to a property listed individually in the National Register of Historic Places (but not within a registered historic district) in a case where the physical or environmental features of the land area contribute to the historic or cultural integrity of the property.

(iii) *Certified historic structure—Definition.* The term "certified historic structure," for purposes of this section, means any building, structure or land area which is—

(A) listed in the National Register, or

(B) located in a registered historic district (as defined in section 48(g)(3)(B)) and is certified by the Secretary of the Interior (pursuant to 36 CFR 67.4) to the Secretary of the Treasury as being of historic significance to the district.

A "structure" for purposes of this section means any structure, whether or not it is depreciable. Accordingly easements on private residences may qualify under this section. In addition, a structure would be considered to be a certified historic structure if it were certified either at the time the transfer was made or at the due date (including extensions) for filing the donor's return for the taxable year in which the contribution was made.

(iv) *Access.* (A) In order for a conservation contribution described in section 170(h)(4)(A)(iv) and this paragraph (d)(5) to be deductible, some visual public access to the donated property is required. In the case of an historically important land area, the entire property need not be visible to the public for a donation to qualify under this section. However, the public benefit from the donation may be insufficient to qualify for a deduction if only a small portion of the property is so visible. Where the historic land area or certified historic structure which is the subject of the donation is not visible from a public way (*e.g.*, the structure is hidden from view by a wall or shrubbery, the structure is too far from the public way, or interior characteristics and features of the structure are the subject of the easement), the terms of the easement must be such that the general public is given the opportunity on a regular basis to view the characteristics and features of the property which are preserved by the easement to the extent consistent with the nature and condition of the property.

(B) Factors to be considered in determining the type and amount of public access required under paragraph (d)(5)(iv)(A) of this section include the historical significance of the donated property, the nature of the features that are the subject of the easement, the remoteness or accessibility of the site of the donated property, the possibility of physical hazards to the public visiting the property (for example, an unoccupied structure in a dilapidated condition), the extent to which public access would be an unreasonable intrusion on any privacy interests of individuals living on the property, the degree to which public access would impair the preservation interests which are the subject of the donation, and the availability of opportunities for the public to view the property by means other than visits to the site.

(C) The amount of access afforded the public by the donation of an easement shall be determined with reference to the amount of access permitted by the terms of the easement which are established by the donor, rather than the amount of access actually provided by the donee organization. However, if the donor is aware of any facts indicating that the amount of access that the donee organization will provide is significantly less than the amount of access permitted under the terms of the easement, then the amount of access afforded the public shall be determined with reference to this lesser amount.

(v) *Examples*. The provisions of paragraph (d)(5)(iv) of this section may be illustrated by the following examples:

Example (1). A and his family live in a house in a certified historic district in the State of X. The entire house, including its interior, has architectural features representing classic Victorian period architecture. A donates an exterior and interior easement on the property to a qualified organization but continues to live in the house with his family. A's house is surrounded by a high stone wall which obscures the public's view of it from the street. Pursuant to the terms of the easement, the house may be opened to the public from 10:00 a.m. to 4:00 p.m. on one Sunday in May and one Sunday in November each year for house and garden tours. These tours are to be under the supervision of the donee and open to members of the general public upon payment of a small fee. In addition, under the terms of the easement, the donee organization is given the right to photograph the interior and exterior of the house and distribute such photographs to magazines, newsletters, or other publicly available publications. The terms of the easement also permit persons affiliated with educational organizations, professional architectural associations, and historical societies to make an appointment through the donee organization to study the property. The donor is not aware of any facts indicating that the public access to be provided by the donee organization will be significantly less than that permitted by the terms of the easement. The 2 opportunities for public visits per year, when combined with the ability of the general public to view the architectural characteristics and features that are the subject of the easement through photographs, the opportunity for scholarly study of the property, and the fact that the house is used as an occupied residence, will enable the donation to satisfy the requirement of public access.

Example (2). B owns an unoccupied farmhouse built in the 1840's and located on a property that is adjacent to a Civil War battlefield. During the Civil War the farmhouse was used as quarters for Union troops. The battlefield is visited year round by the general public. The condition of the farmhouse is such that the safety of visitors will not be jeopardized and opening it to the public will not result in significant deterioration. The farmhouse is not visible from the battlefield or any public way. It is accessible only by way of a private road owned by B. B donates a conservation easement on the farmhouse to a qualified organization. The terms of the easement provide that the donee organization may open the property (via B's road) to the general public on four weekends each year from 8:30 a.m. to 4:00 p.m. The donation does not meet the public access requirement because the farmhouse is safe, unoccupied, and easily accessible to the general public who have come to the site to visit Civil War historic land areas (and related resources), but will only be open to the public on four weekends each year. However, the donation would meet the public access requirement if the terms of the easement permitted the donee organization to open the property to the public every other weekend during the year and the donor is not aware of any facts indicating that the donee organization will provide significantly less access than that permitted.

(e) *Exclusively for conservation purposes*. (i) *In general*. To meet the requirements of this section, a donation must be exclusively for conservation purposes. See paragraphs (c)(1) and (g)(1) through (g)(6)(ii) of this section. A deduction will not be denied under this section when incidental benefit inures to the donor merely as a result of conservation restrictions limiting the uses to which the donor's property may be put.

(2) *Inconsistent use*. Except as provided in paragraph (e)(4) of this section, a deduction will not be allowed if the contribution would accomplish one of the enumerated conservation purposes but would permit destruction of other significant conservation interests. For example, the preservation of farmland pursuant to a State program for flood prevention and control would not qualify under paragraph (d)(4) of this section if under the terms of the contribution a significant naturally occurring ecosystem could be injured or destroyed by the use of pesticides in the operation of the farm. However, this requirement is not intended to prohibit uses of the property, such as selective timber harvesting or selective farming if, under the circumstances, those uses do not impair significant conservation interests.

(3) *Inconsistent use permitted*. A use that is destructive of conservation interests will be permitted only if such use is necessary for the protection of the conservation interests that are the subject of the contribution. For example, a deduction for the donation of an easement to preserve an archaeological site that is listed on the National Register of Historic Places will not be disallowed if site excavation consistent with sound archaeological practices may impair a scenic view of which the land is a part. A donor may continue a pre-existing use of the property that does not conflict with the conservation purposes of the gift.

(f) *Examples*. The provisions of this section relating to conservation purposes may be illustrated by the following examples.

Example (1). State S contains many large tract forests that are desirable recreation and scenic areas for the general public. The forests' scenic values attract millions of people to the State. However, due to the increasing intensity of land development in State S, the continued existence of forestland parcels greater than 45 acres is threatened. J grants a perpetual easement on a 100-acre parcel of forestland that is part of one of the State's scenic areas to a qualifying organization. The easement imposes restrictions on the use of the parcel for the purpose of maintaining its scenic values. The restrictions include a requirement that the parcel be maintained forever as open space devoted exclusively to conservation purposes and wildlife protection, and that there be no commercial, industrial, residential, or other development use of such parcel. The law of State S recognizes a limited public right to enter private land, particularly for recreational pursuits, unless such land is posted or the landowner objects. The easement specifically restricts the landowner from posting the parcel, or from objecting thereby maintaining public access to the parcel according to the custom of the State. J's parcel provides the opportunity for the public to enjoy the use of the property and appreciate its scenic values. Accordingly, J's donation qualifies for a deduction under this section.

Example (2). A qualified conservation organization owns Greenacre in fee as a nature preserve. Greenacre contains a high quality example of a tall grass prairie ecoystem. Farmacre, an operating farm, adjoins Greenacre and is a compatible buffer to the nature preserve. Conversion of Farmacre to a more intense use, such as a housing development, would adversely affect the continued use of Greenacre as a nature preserve because of human traffic generated by the development. The owner of Farmacre donates an easement preventing any future development on Farmacre to the qualified conservation organization for conservation purposes. Normal agricultural uses will be allowed on Farmacre. Accordingly, the donation qualifies for a deduction under this section.

Example (3). H owns Greenacre, a 900-acre parcel of woodland, rolling pasture, and orchards on the crest of a mountain. All of Greenacre is clearly visible from a nearby national park. Because of the strict enforcement of an applicable zoning plan, the highest and best use of Greenacre is as a subdivision of 40-acre tracts. H wishes to donate a scenic easement on Greenacre to a qualifying conservation organization, but H would like to reserve the right to subdivide Greenacre into 90-acre parcels with no more than one single-family home allowable on each parcel. Random building on the property, even as little as one home for each 90 acres, would destroy the scenic character of the view. Accordingly, no deducation would be allowable under this section.

Example (4). Assume the same facts as in *example (3)*, except that not all of Greenacre is visible from the park and the deed of easement allows for limited cluster development of no more than five nine-acre clusters (with four houses on each cluster) located in areas generally not visible from the national park and subject to site and building plan approval by the donee organization in order to preserve the scenic view from the park. The donor and the donee have already identified sites where limited cluster development would not be visible from the park or would not impair the view. Owners of homes in the clusters will not have any rights which respect to the surrounding Greenacre property that are not also available to the general public. Accordingly, the donation qualifies for a deduction under this section.

Example (5). In order to protect State S's declining open space that is suited for agricultural use from increasing development pressure that has led to a marked decline in such open space, the Legislature of State S passed a statute authorizing the purchase of "agricultural land development rights" on open acreage. Agricultural land development rights allow the State to place agricultural preservation restrictions on land designated as worthy of protection in order to preserve open space and farm resources. Agricultural preservation restrictions prohibit or limit construction or placement of buildings except those used for agricultural purposes or dwellings used for family living by the farmer and his family and employees; removal of mineral substances in any manner that adversely affects the land's agricultural potential; or other uses determinental to retention of the land for agricultural use. Money has been appropriated for this program and some landowners have in fact sold their "agricultural land development rights" to State S. K owns and operates a small" dairy farm in State S located in an area designated by the Legislature as worthy of protection. K desires to preserve his farm for agricultural purposes in perpetuity. Rather than selling the development rights to State S. K grants to a qualified organization an agricultural preservation restriction on his property in the form of a conservation easement. K reserves to himself, his heirs and assigns the right to manage the farm consistent with sound agricultural and management practices. The preservation of K's land is pursuant to a clearly delineated governmental policy of preserving open space available for agricultural use, and will yield a significant public benefit by preserving open space against increasing development pressures. Accordingly, a deduction is allowed under this section.

(g) *Enforceable in perpetuity*—(1) *In general.* In the case of any donation under this section, any interest in the property retained by the donor (and the donor's successors in interest) must be subject to legally enforceable restrictions (for example, by recordation in the land records of the jurisdiction in which the property is located) that will prevent uses of the retained interest inconsistent with the conservation purposes of the donation. In the case of a contribution of a remainder interest, the contributrion will not qualify if the tenants, whether they are tenants for life or a term of years, can use the property in a manner that diminishes the conservation values which are intended to be protected by the contribution.

(2) Protection of a conservation purpose in case of donation of property subject to a mortgage. In the case of conservation contributions made after February 13, 1986, no deduction will be permitted under this section for an interest in property which is subject to a mortgage unless the mortgagee subordinates its rights in the property to the right of the qualified organization to enforce the conservation purposes of the gift in perpetuity. For conservation contributions made prior to February 14, 1986, the requirement of section 170(h)(5)(A) is satisfied in the case of mortgaged property (with respect to which the mortgagee has not subordinated its rights) only if the donor can demonstrate that the conservation purpose is protected in perpetuity without subordination of the mortgagee's right.

(3) *Remote future event.* A deduction shall not be disallowed under section 170(f)(3)(B)(iii) and this section merely because the interest which passes to, or is vested in, the donee organization may be defeated by the performance of some act or the happening of some event, if on the date of the gift it appears that the possibility that such act or event will occur is so remote as to be negligible. See paragraph (e) of §1.170A-1. For example, a state's statutory requirement that use restrictions must be rerecorded every 30 years to remain enforceable shall not, by itself, render an easement nonperpetual.

(4) *Retention of qualified mineral interest*—(i) *In general.* Except as otherwise provided in paragraph (g)(4)(ii) of this section, the requirements of this section are not met and no deduction shall be allowed in the case of a contribution of any interest when there is a retention by any person of qualified mineral interest (as defined in paragraph (b)(1)(i) of this section) if at any time there may be extractions or removal of minerals by any surface mining method. Moreover, in the case of a qualified mineral interest gift, the requirement that the conservation purposes be protected in perpetuity is not satisfied if any method of mining that is inconsistent with the particular conservation purposes of a contribution is permitted at any time. See also §1.170A-14(e)(2). However, a deduction under this section will not be denied in the case of certain methods of mining that may have limited, localized impact on the real property but that are not irremediably destructive of significant conservation interests. For example, a deduction will not be denied in a case where production facilities are concealed or compatible with existing topography and landscape and when surface alteration is to be restored to its orginal state.

(ii) *Exception for qualified conservation contributions after July 1984.* (A) A contribution made after July 18, 1984, of a qualified real property interest described in section 170(h)(2)(A) shall not be disqualified under the first sentence of paragraph (g)(4)(i) of this section if the following requirements are satisfied.

(1) The ownership of the surface estate and mineral interest were separated before June 13, 1976, and remain so separated up to and including the time of the contribution.

(2) The present owner of the mineral interest is not a person whose relationship to the owner of the surface estate is described at the time of the contribution in section 267(b) or section 707(b), and

(3) The probability of extraction or removal of minerals by any surface mining method is so remote as to be negligible.

Whether the probability of extraction or removal of minerals by surface mining is so remote as to be negligible is a question of fact and is to be made on a case by case basis. Relevant factors to be considered in determining if the probability of extraction or removal of minerals by surface mining is so remote as to be negligible include: geological, geophysical or economic data showing the absence of mineral reserves on the property, or the lack of commercial feasibility at the time of the contribution of surface mining the mineral interest.

(B) If the ownership of the surface estate and mineral interest first became separated after June 12, 1976, no deduction is permitted for a contribution under this section unless surface mining on the property is completely prohibited.

(iii) Examples. The provisions of paragraph (g)(4)(i)and (ii) of this section may be illustrated by the following examples:

Example (1). K owns 5,000 acre of bottomland hardwood property along a major watershed system in the southern part of the United States. Agencies within the Department of the Interior have determined that southern bottomland hardwoods are a rapidly diminishing resource and a critical ecosystem in the south because of the intense pressure to cut the trees and convert the land to agricultural use. These agencies have further determined (and have indicated in correspondence with K) that bottomland hardwoods provide a superb habitat for numerous species and play an important role in controlling floods and in purifying rivers. K donates to a qualified organization his entire interest in this property other than his interest in the gas and oil deposits that have been identified under K's property. K covenants and can ensure that, although drilling for gas and oil on the property may have some temporary localized impact on the real property, the drilling will not interfere with the overall conservation purpose of the gift, which is to protect the unique bottomland hardwood ecosystem. Accordingly, the donation qualifies for a deduction under this section.

Example (2). Assume the same facts as in example (1), except that in 1979, K sells the mineral interest to A, an unrelated person, in an arm's-length transaction, subject to a recorded prohibition on the removal of any minerals by any surface mining method and a recorded prohibition against any mining technique that will harm the bottomland hardwood ecosystem. After the sale to A, K donates a qualified real property interest to a qualified organization to protect the bottomland hardwood ecosystem. Since at the time of the transfer, surface mining and any mining technique that will harm the bottomland hardwood ecosystem are completely prohibited, the donation qualifies for a deduction under this section.

(5) *Protection of conservation purpose where taxpayer reserves certain rights,* (i) *Documentation.* In the case of a donation made after February 13, 1986, of any qualified real property interest when the donor reserves rights the exercise of which may impair the conservation interests associated with the property, for a deduction to be allowable under this section the donor must make available to the donee, prior to the time the donation is made, documentation sufficient to establish the condition of the property at the time of the gift. Such documentation is designed to protect the conservation interests associated with the property, which although protected in perpetuity by the easement, could be adversely affected by the exercise of the reserved rights. Such documentation may include:

(A) The appropriate survey maps from the United States Geological Survey, showing the property line and other contiguous or nearby protected areas;

(B) A map of the area drawn to scale showing all existing man-made improvements or incursions (such as roads, buildings, fences, or gravel pits), vegetation and identification of flora and fauna (including, for example, rare species locations, animal breeding and roosting areas, and migration routes), land use history (including present uses and recent past disturbances), and distinct natural features (such) as large trees and aquatic areas);

(C) An aerial photograph of the property at an appropriate scale taken as close as possible to the date the donation is made; and

(D) On-site photographs taken at appropriate locations on the property. If the terms of the donation contain restrictions with regard to a particular natural resource to be protected, such as water quality or air quality, the condition of the resource at or near the time of the gift must be established. The documentation, including the maps and photographs, must be accompanied by a statement signed by the donor and a representative of the donee clearly referencing the documentation and in substance saying "The natural resources inventory is an accurate representation of (the protected property) at the time of the transfer".

(ii) *Donee's right to inspection and legal remedies.* In the case of any donation referred to in paragraph (g)(5)(i) of this section, the donor must agree to notify the donee, in writing, before exercising any reserved right, *e.g.*, the right to extract certain minerals which may have an adverse impact on the conservation interests associated with the qualified real property interest. The terms of the donation must provide a right of the donee to enter the property at reasonable times for the purpose of inspecting the property to determine if there is compliance with the terms of the donation. Additionally, the terms of the donation must provide a right of the donee to enforce the conservation restrictions by appropriate legal proceedings, including but not limited to, the right to require the restoration of the property to its condition at the time of the donation.

(6) *Extinguishment. (i) In general.* If a subsequent unexpected change in the conditions surrounding the property that is the subject of a donation under this paragraph can make impossible or impractical the continued use of the property for conservation purposes, the conservation purpose can nonetheless be treated as protected in perpetuity if the restrictions are extinguished by judicial proceeding and all of the donee's proceeds (determined under paragraph (g)(6)(ii) of this section) from a subsequent sale or exchange of the property are used by the donee organization in a manner consistent with the conservation purposes of the original contribution.

(ii) *Proceeds.* In case of donation made after February 13, 1986, for a deduction to be allowed under this section, at the time of the gift the donor must agree that the donation of the perpetual conservation restriction gives rise to a property right, immediately vested in the donee organization, with a fair market value that is at least equal to the proportionate value that the perpetual conservation restriction at the time of the gift, bears to the value of the property as a whole at that time. See §1.170A-14(h)(3)(iii) relating to the allocation of basis. For purposes of this paragraph (g)(6)(ii), that proportionate value of the donee's property rights shall remain constant. Accordingly, when a change in conditions give rise to the extinguishment of a perpetual conservation restriction under paragraph (g)(6)(i) of this section, the donee organization, on a subsequent sale, exchange, or involuntary conversion of the subject property, must be entitled to a portion of the proceeds at least equal to that proportionate value of the perpetual conservation restriction, unless state law provides that the donor is entitled to the full proceeds from the conversion without regard to the terms of the prior perpetual conservation restriction.

(h) *Valuation*—(1) *Entire interest of donor other than qualified mineral interest.* The value of the contribution under section 170 in the case of a contribution of a taxpayer's entire interest in property other than a qualified mineral interest is the fair market value of the surface rights in the property contributed. The value of the contribution shall be computed without regard to the mineral rights. See paragraph (h)(4), *example (1)*, of this section.

(2) *Remainder interest in real property.* In the case of a contribution of any remainder interest in real property, section 170(f)(4) provides that in determining the value of such interest for purposes of section 170, depreciation and depletion of such property shall be taken into account. See §1.170A-12. In the case of the contribution of a remainder interest for conservation purposes, the current fair market value of the property (against which the limitations of §1.170A-12 are applied) must take into account any pre-existing or contemporaneously recorded rights limiting, for conservation purposes, the use to which the subject property may be put.

(3) *Perpetual conservation restriction*—(1) *In general.* The value of the contribution under section 170 in the case of a charitable contribution of a perpetual conservation restriction is the fair market value of the perpetual conservation restriction at the time of the contribution. See §1.170A-7(c). If there is a substantial record of sale of easements comparable to the donated easement (such as purchases pursuant to a governmental program), the fair market value of the donated easement is based on the sales prices of such comparable easements. If no substantial record of market-place sales is available to use as a meaningful or valid comparison, as a general rule (but not necessarily in all cases) the fair market value of a perpetual conservation restriction is equal to the difference between the fair market value of the property it encumbers before the granting of the restriction and the fair market value of the encumbered property after the granting of the restriction. The amount of the deduction in the case of a charitable contribution of a perpetual conservation restriction covering a portion of the contiguous property owned by a donor and the donor's family (as defined in section 267 (c)(4)) is the difference between the fair market value of the entire contiguous parcel of property before and after the granting of the restriction. If the granting of a perpetual conservation restriction after January 14, 1986, has the effect of increasing the value of any other property owned by the donor or a related person, the amount of the deduction for the conservation contribution shall be reduced by the amount of the increase in the value of the other property, whether or not such property is contiguous. If, as a result of the donation of a perpetual conservation restriction, the donor or a related person receives, or can reasonably expect to receive, financial or economic benefits that are greater than those that will inure to the general public from the transfer, no deduction is allowable under this section. However, if the donor or a related person receives, or can reasonably expect to receive, a financial or economic benefit that is substantial, but it is clearly shown that the benefit is less than the amount of the transfer, then a deduction under this section is allowable for the excess of the amount transferred over the amount of the financial or economic benefit received or reasonably expected to be received by the donor or the related person. For purposes of this paragraph (h)(3)(i), related person shall have the same meaning as in either section 267(b) or section 707(b). (See *example (10)* of paragraph (h)(4) of this section.)

(ii) Fair market value of property before and after restriction. If before and after valuation is used, the fair market value of the property before contribution of the conservation restriction must take into account not only the current use of the property but also an objective assessment of how immediate or remote the likelihood is that the property, absent the restriction, would in fact be developed, as well as any effect from zoning, conservation, or historic preservation laws that already restrict the property's potential highest and best use. Further, there may be instances where the grant of a conservation restriction may have no material effect on the value of the property or may in fact serve to enhance, rather than reduce, the value of property. In such instances no deduction would be allowable. In the case of a conservation restriction that allows for any development, however limited, on the property to be protected, the fair market value of the property after contribution of the restriction must take into account the effect of the development. In the case of a conservation easement such as an easement on a certified historic structure, the fair market value of the property after contribution of the restriction must take into account the amount of access permitted by the terms of the easement. Additionally, if before and after valuation is used, an appraisal of the property after contribution of the restriction must take into account the effect of restrictions that will result in a reduction of the potential fair market value represented by highest and best use but will, nevertheless, permit uses of the property that will increase its fair market value above that represented by the property's current use. The value of a perpetual conservation restriction shall not be reduced by reason of the existence of restrictions on transfer designed solely to ensure that the conservation restriction will be dedicated to conservation purposes. See §1.170A-14(c)(3).

(iii) *Allocation of basis.* In the case of the donation of a qualified real property interest for conservation purposes, the basis of the property retained by the donor must be adjusted by the elimination of that part of the total basis of the property that is properly allocable to the qualified real property interest granted. The amount of the basis that is allocable to the qualified real property interest shall bear the same ratio to the total basis of the property as the fair market value of the qualified real property interest bears to the fair market value of the property before the granting of the qualified real property interest. When a taxpayer donates to a qualifying conservation organization an easement on a structure with respect to which deductions are taken for depreciation, the reduction required by this paragraph (h)(3)(ii) in the basis of the property retained by the taxpayer must be allocated between the structure and the underlying land.

(4) *Examples.* The provisions of this section may be illustrated by the following examples. In examples illustrating the value or deductibility of donations, the applicable restrictions and limitations of §1.170A-4, with respect to reduction in amount of charitable contributions of certain appreciated property, and §1.170A-8, with respect to limitations on charitable deductions by individuals, must also be taken into account.

Example (1). A owns Goldacre, a property adjacent to a state park. A wants to donate Goldacre to the state to be used as part of the park, but A wants to reserve a qualified mineral interest in the property, to exploit currently and to devise at death. The fair market value of the surface rights in Goldacre is $200,000 and the fair market value of the mineral rights is $100,000. In order to ensure that the quality of the park will not be degraded, restrictions must be imposed on the right to extract the minerals that reduce the fair market value of the mineral rights to $80,000. Under this section, the value of the contribution is $200,000 (the value of the surface rights).

Example (2). In 1984, B, who is 62, donates a remainder interest in Greenacre to a qualifying organization for conservation purposes. Greenacre is a tract of 200 acres of undeveloped woodland that is valued at $200,000 at its highest and best use. Under §1.170A-12(b), the value of a remainder interest in real property following one life is determined under §25.2512-5 of the Gift Tax Regulations. (See §25.2512-9 with respect to the valuation of annuities life estates, terms for years, remainders, and reversions transferred after December 31, 1970 and before December 1, 1983. With respect to the valuation of annuities, life estates, terms for years, remainders, and reversions transferred before January 1, 1971, see T.D. 6334, 23 FR 8904, November 15, 1958 [1958-2 C.B. 627], as amended by T.D. 7077, 35 FR 18464, December 4, 1970). [1970-2 C.B. 183] Accordingly, the value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is $55,996 ($200,000 × .27998).

Example (3). Assume the same facts as in example (2), except that Greenacre is B's 200-acre estate with a home built during the colonial period. Some of the acreage around the home is cleared; the balance of Greenacre, except for access roads, is wooded and undeveloped. See section 170(f)(3)(B)(i). However, B would like Greenacre to be maintained in its current state after his death, so he donates a remainder interest in Greenacre to a qualifying organization for conservation purposes pursuant to section 170(f)(3)(B)(iii) and (h)(2)(B). At the time of the gift the land has a value of $200,000 and the house has a value of $100,000. The value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is computed pursuant to §1.170A-12. See §1.170A-12(b)(3).

Example (4). Assume the same facts as in example (2), except that at age 62 instead of donating a remainder interest B donates an easement in Greenacre to a qualifying organization for conservation purposes. The fair market value of Greenacre after the donation is reduced to $110,000. Accordingly, the value of the easement, and thus the amount eligible for a deduction under section 170(f), is $90,000 ($200,000 less $110,000).

Example (5). Assume the same facts as in example (4), and assume that three years later, at age 65, B decides to donate a remainder interest in Greenacre to a qualifying organization for conservation purposes. Increasing real estate values in the area have raised the fair market value of Greenacre (subject to the easement) to $130,000. Accordingly, the value of the remainder interest, and thus the amount eligible for a deduction under section 170(f), is $41,639 ($130,000 ×.32030).

Example (6). Assume the same facts as in example (2), except that at the time of the donation of a remainder interest in Greenacre, B also donates an easement to a different qualifying organization for conservation purposes. Based on all the facts and circumstances, the value of the easement is determined to be $100,000. Therefore, the value of the property after the easement is $100,000 and the value of the remainder interest and thus the amount eligible for deduction under section 170(f), is $27,998 ($100,000 ×.27998).

Example (7). C owns Greenacre, a 200-acre estate containing a house built during the colonial period. At its highest and best use, for home development, the fair market value of Greenacre is $300,000. C donates an easement (to maintain the house and Greenacre in their current state) to a qualifying organization for conservation purposes. The fair market value of Greenacre after the donation is reduced to $125,000. Accordingly, the value of the easement and the amount eligible for a deduction under section 170(f) is $175,000 ($300,000 less $125,000).

Example (8) Assume the same facts as in example (7) and assume that three years later, C decides to donate a remainder interest in Greenacre to a qualifying organization for conservation purposes. Increasing real estate values in the area have raised the fair market value of Greenacre to $180,000. Assume that because of the perpetual easement prohibiting any development of the land, the value of the house is $120,000 and the value of the land is $60,000. The value of the remainder interest, and thus the amount eligible for an income tax deduction under section 170(f), is computed pursuant to §1.170A-12. See §1.170A-12(b)(3).

Example (9) D owns a property with a basis of $20,000 and a fair market value of $80,000. D donates to a qualifying organization an easement for conservation purposes that is determined under this section to have a fair market value of $60,000. The amount of basis allocable to the easement is $15,000 ($60,000/$80,000 = $15,000/$20,000). Accordingly, the basis of the property is reduced to $5,000 ($20,000 minus $15,000).

Example (10). E owns 10 one-acre lots that are currently woods and parkland. The fair market value of each of E's lots is $15,000 and the basis of each lot is $3,000. E grants to the county a perpetual easement for conservation purposes to use and maintain eight of the acres as a public park and to restrict any future development on those eight acres. As a result of the restrictions, the value of the eight acres is reduced to $1,000 an acre. However, by perpetually restricting development on this portion of the land, E has ensured that the two remaining acres will always be bordered by parkland, thus increasing their fair market value to $22,500 each. If the eight acres represented all of E's land, the fair market value of the easement would be $112,000, an amount equal to the fair market value of the land before the granting of the easement (8 × $15,000 = $120,000) minus the fair market value of the encumbered land after the granting of the easement (8 × $1,000 = $8,000). However, because the easement only covered a portion of the taxpayer's contiguous land, the amount of the deduction under section 170 is reduced to $97,000 ($150,000 – $53,000), that is, the difference between the fair market value of the entire tract of land before ($150,000) and after (8 × $1,000) + (2 × $22,500)) the granting of the easement.

Example (11). Assume the same facts as in *example (10)*. Since the easement covers a portion of E's land, only the basis of that portion is adjusted. Therefore, the amount of basis allocable to the easement is $22,400 ((8 × $3,000) × ($112,000 $120,000)). Accordingly, the basis of the eight acres encumbered by the easement is reduced to $1,600 ($24,000 – $22,400), or $200 for each acre. The basis of the two remaining acres is not affected by the donation.

Example (12). F owns and uses as professional offices a two-story building that lies within a registered historic district. F's building is an outstanding example of period architecture with a fair market value of $125,000. Restricted to its current use, which is the highest and best use of the property without making changes to the facade, the building and lot would have a fair market value of $100,000, of which $80,000 would be allocable to the building and $20,000 would be allocable to the lot. F's basis in the property is $50,000, of which $40,000 is allocable to the building and $10,000 is allocable to the lot. F's neighborhood is a mix of residential and commercial uses, and it is possible that F (or another owner) could enlarge the building for more extensive commercial use, which is its highest and bes use. However, this would require changes to the facade. F would like to donate to a qualifying preservation organization an easement restricting any changes to the facade and promising to maintain the facade in perpetuity. The donation would qualify for a deduction under this section. The fair market value of the easement is $25,000 (the fair market value of the property before the easement, $125,000, minus the fair market value of the property after the easement, $100,000). Pursuant to §1.170A-14 (h)(3)(iii), the basis allocable to the easement is $10,000 and the basis of the underlying property (building and lot) is reduced to $40,000.

(i) *Substantiation requirement.* If a taxpayer makes a qualified conservation contribution and claims a deduction, the taxpayer must maintain written records of the fair market value of the underlying property before and after the donation and the conservation purpose furthered by the donation and such information shall be stated in the taxpayer's income tax return if required by the return or its instructions. See also §1.170A-13T(c) (relating to substantiation requirements for deductions in excess of $5,000 for charitable contributions made after 1984), and section 6659 (relating to additions to tax in the case of valuation overstatements).

(j) *Effective date*. Except as otherwise provided in §1.170A-14(g)(4)(ii), this section applies only to contributions made on or after December 18, 1980.

PART 20—[AMENDED]

Par. 5. The authority for Part 20 continues to read in part:

26 U.S.C. 7805. * * *

Par. 6. Paragraph (e)(2) of §20.2055-2 is amended as follows:

a. The sixth sentence of paragraph (e)(2)(i) is revised to read: "However, except as provided in paragraphs (e)(2)(ii), (iii), and (iv) of this section, for purposes of this subdivision a charitable contribution of an interest in property not in trust where the decedent transfers some specific rights to one party and transfers other substantial rights to another party will not be considered a contribution of an undivided portion of the decedent's entire interest in property".

b. The seventh sentence of paragraph (e)(2)(i) is revised to read: "A bequest to charity made on or before December 17, 1960, of an open space easement in gross in perpetuity shall be considered the transfer to charity of an undivided portion of the decedent's entire interest in the property".

c. Paragraphs (e)(2)(iv), (e)(2)(v), a (e)(2)(vi) are redesignated (e)(2)(v), (e)(2)(vi), and (e)(2)(vii), respectively.

d. A new paragraph (e)(2)(iv) is inserted after paragraph (e)(2)(iii) to read as set forth below.

§20.2055-2 Transfers not exclusively for charitable purposes.

* * * * *

(e) *Limitations applicable to decedents dying after December 31, 1969.* * **

(2) *Deductible interests.* * **

(iv) *Qualified conservation contribution.* The charitable interest is a qualified conservation contribution. For the definition of a qualified conservation contribution, see §1.170A-14.

Part 25—[AMENDED]

Par. 7. The authority for Part 25 continues to read in part:

26 U.S.C. 7805. * * *

Par. 8. Paragraph (c)(2) of §25.2522(c)-3 is amended as follows:

a. The sixth sentence of paragraph (c)(2)(i) is revised to read: "However, except as provided in paragraphs (e)(2)(ii), (iii), and (iv) of this section, for purposes of this subdivision a charitable contribution of an interest in property not in trust where the decedent transfers some specific rights to one party and transfers other substantial rights to another party will not be considered a contribution of an undivided portion of the decent's entire interest in property".

b. The eighth sentence of paragraph (c)(2)(i) is revised to read: "A gift to charity made on or before December 17, 1980, of an open space easement in gross in perpetuity shall be considered the transfer to charity of an undivided portion of the donor's entire interest in property.".

c. Paragraphs (c)(2)(iv), (c)(2)(v), and (c)(2)(vi) are redesignated (c)(2)(v), (c)(2)(vi), and (c)(2)(vii), respectively.

d. A new paragraph (c)(2)(iv) is inserted after paragraph (c)(2)(iii), to read as set forth below.

§25.2522(c)-3 Transfers not exclusively for charitable, etc., purposes in the case of gifts made after July 31, 1969.

* * * * *

(c) *Transfers of partial interest in property.* * **

(2) *Deductible interest.* * **

(iv) *Qualified conservation contribution.* The charitable interest is a qualified conservation contribution. For the definition of a qualified conservation contribution, see §1.170A-14.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 9. The authority for Part 602 continues to read in part:

26 U.S.C. 7805. * * *

Par. 10. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.170A-14 . . . 1545–0763."

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

Approved December 20, 1985
RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on January 13, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 14, 1986, 51 F.R. 1496, and corrected in the issue of the Federal Register for February 13, 1986, 51 F.R. 5322)

Section 312.—Effect on Earnings and Profits

26 CFR 1.312-8: Effect on earnings and profits of receipt of tax-free distributions requiring adjustment of basis of stock.

For purposes of calculating the limitation on Subpart F income under section 952(c) of the Code, a CFC that receives a dividend distribution from another CFC within the same chain of ownership is required to increase its earnings and profits. See Rev. Rul. 86-33, page 17.

Section 467.—Certain Payments for the Use of Property or Services

Federal short-term, mid-term and long-term rates are set forth for the month of March 1986. See Rev. Rul. 86-34, page 20.

Section 483.—Interest on Certain Deferred Payments

Federal short-term, mid-term and long-term rates are set forth for the month of March 1986. See Rev. Rul. 86-34, page 20.

Section 673. Reversionary Interests

26 CFR 1.673(a)-1: Reversionary interests; income payable to beneficiaries other than certain charitable organizations; general rule.

Trusts; reversionery interests; determination of life expectancy. Actuarial tables are adopted for determining life expectancy for purposes of section 673 of the Code for transfers to a trust occuring after November 30, 1983.

Rev. Rul. 86-32

ISSUE

For transfers occurring after November 30, 1983, to a trust that reverts to the grantor upon a person's death, what are the appropriate actuarial tables to determine whether a portion of the trust will revert within ten years for purposes of section 673(a) of the Internal Revenue Code?

FACTS

On December 1,1984, the date of *A*'s 73rd birthday, *A* transferred certain property to an irrevocable trust. The trust instrument directs the trustee to pay the income of the trust to other persons during the life of *A* and, on the death of *A*, to distribute the corpus of the trust to *A*'s estate.

LAW AND ANALYSIS

Section 673(a) of the Code provides that the grantor shall be treated as the owner of any portion of a trust in which the grantor has a reversionary interest in either the corpus or the income therefrom if, as of the inception of that portion of the trust, the interest will or may reasonably be expected to take effect in possession or enjoyment within

10 years commencing with the date of the transfer of that portion of the trust.

Section 1.673(a)-1(c) of the Income Tax Regulations provides that if the reversionary interest in any portion of a trust is to take effect on or after the death of the grantor (or any person other than the person to whom the income is payable), the trantor is treated under section 673(a) of the Code as the owner of that portion if the life expectancy of the grantor (or the person other than the person to whom the income is payable) is less than 10 years on the date of transfer of the portion. The grantor is not treated as the owner if the life expectancy of the measuring life is 10 years or longer.

For transfers occurring after November 30, 1983, the appropriate actuarial table is determining life expectancy is Table 1 of United States Life Tables: 1969-1971, published by the Department of Health, Education, and Welfare, Public Health Service. *See*, T.D. 7955, 1984-1 C.B. 40, which revises actuarial tables used for valuation purposes in various regulations. Table 1 of United States Life Tables was used to derive the actuarial tables in T.D. 7955. Table 1 eliminates the distinction between male and female mortality and is, thus, gender neutral.

Column (7) of Table 1 states the life expectancy of persons of given ages. At age 73, a person has a life expectancy of 10.34 years. At the age of 74, life expectancy is 9.82 years. To apply the table, the age of the measuring life should be taken at the person's age at the birthday nearest to the date of the transfer. For example, a grantor 73 years and six months old or more on the date of a transfer to a trust has a life expectancy of no more than 9.82 years as of the date of transfer.

On December 1, 1984, the date of the transfer of property to the trust, *A* has a life expectancy of 10 years or more (10.34 years). Accordingly, *A* is not treated, under section 673(a) of the Code, as the owner of the corpus of the trust that will revert to *A*'s estate upon *A*'s death.

HOLDING

For transfers occurring after November 30, 1983, Table 1 of United States Life Tables: 1969-1971 is the appropriate actuarial table to determine whether a portion of a trust that reverts to the grantor upon a person's death will revert within ten years for purposes of section 673(a) of the Code.

EFFECTIVE DATE

The revenue ruling is effective for transfers occurring after November 30, 1983, which is the general effective date of T.D. 7955.

For transfers occurring after December 31, 1970, and on or before November 30, 1983, see Rev. Rul. 73-251, 1973-1 C.B. 324. For transfers occurring on or before December 31, 1970, see Rev. Rul. 58-567, 1958-2 C.B. 365.

Section 701.—Partners, Not Partnership, Subject To Tax

26 CFR 1.701-1: Partners, not partnerships, subject to tax.

The Service will now entertain ruling requests concerning certain partnership issues in areas in which the Service has heretofore declined to rule. See Rev. Proc. 86-12, page 21.

Section 951.—Amounts Included in Gross Income of United States Shareholders

26 CFR 1.951-1: Amounts included in gross income of United States shareholders.

For purposes of calculating the limitation on Subpart F income under section 952(c) of the Code, a CFC that receives a dividend distribution from another CFC within the same chain of ownership is required to increase its earnings and profits. See Rev. Rul. 86-33, below.

Section 952.—Subpart F Income Defined

26 CFR 1.952-1: Subpart F income defined. (Also Sections 312, 951, 954, 958, 964; 1.312-1, 1.951-1, 1.954-1, 1.958-1, 1.964-1.)

Controlled foreign corporations; Subpart F income; dividend distribution within same chain of foreign corporations. For purposes of calculating the limitation on subpart F income under section 952(c) of the Code, a controlled foreign corporation (CFC) that receives a dividend distribution from another CFC within the same chain of ownership is required to increase its earnings and profits for the tax year by the amount of the distribution.

Rev. Rul. 86-33

ISSUE

If a controlled foreign corporation (CFC) receives a dividend distribution from another CFC within the same chain of foreign corporations, is the recipient CFC required to increase its earnings and profits for the tax year by the amount of the distribution for purposes of calculating the limitation on subpart F income under section 952(c) of the Internal Revenue Code?

FACTS

Z, a domestic corporation, wholly owns *P*, a foreign corporation. *P* is principally a holding company and wholly owns two foreign corporations, *S-1* and *S-2*. *S-1* and *S-2* are engaged in foreign commerce through shipping operations. *P*, *S-1*, and *S-2* are CFCs within the meaning of section 957(a) of the Code for the entire 1984 calendar year. For purposes of section 952(d), *P*, *S-1*, and *S-2* form a "chain of foreign corporations," as described in section 1.952-1(d)(2)(ii) of the Income Tax Regulations, because *P* is owned directly by *Z* and *S-1* and *S-2* are considered as being owned by *Z* under section 958(a). Such a chain is also called a "chain of ownership."

For the year 1984, *P* has foreign personnel holding company income (FPHCI), as defined in section 954(c) of the Code, consisting of interest and dividends of 5*x* dollars and has foreign base company shipping income (FBCSI), as defined in section 945(f), of 2*x* dollars. During 1985 *S-1* has FBCSI of 8*x* dollars, and *S-2* has an operating loss of 40*x* dollars. *S-1*'s pre-1984 accumulated earnings and profits (all of which are attributable to FBCSI) are 100*x* dollars, and, because of the application of section 954(b)(2), this amount has not been previously taxed. Similarly, by application of section 954(b)(2), *S-1*'s FBCSI of 8*x* dollars and *P*'s FBCSI of 2*x* dollars will be excluded from FBCSI.

Prior to the end of 1984, *S-1* distributed all of its current and accumulated earnings and profits (108*x* dollars) to *P*. For 1984, *Z* elected to include *P* and *S-1* in a "related group" pursuant to section 955(b)(2) of the Code and section 1.955A-3 of the regulations. Pursuant to section 1.955A-3(c)(1), because the dividend that *P* received from *S-1* is attributable entirely to FBCSI, *P* excluded that dividend from *P*'s gross income for purposes of determining *P*'s foreign base company income within the meaning of section 954.

LAW AND ANALYSIS

Section 951(a)(1)(A)(i) of the Code provides that if a foreign corporation is a CFC for an uninterrupted period of 30 days or more during any tax year of the corporation, a United States shareholder that owns stock in the corporation on the last day which is in the year and on which the corporation is a CFC shall include in gross income, for the United States shareholder's tax year in which or with which the tax year of the corporation ends, the shareholder's pro rata share of the corporation's subpart F income. The types of income that comprise subpart F income are described in sections 952 through 954. Subpart F income includes foreign base company income, which in turn includes FPHCI and FBCSI.

Section 952(c) of the Code provides generally that the subpart F income of any CFC for any tax year shall not exceed the earnings and profits of such corporation for such year reduced by an amount that reflects the deficits in earnings and profits for prior years.

With respect to section 952(c) of the Code, section 1.952-1(c) of the regulations provides as follows:

> (1) *In general.* A United States shareholder's pro rata share of a controlled foreign corporation's subpart F income for any tax year shall not exceed such shareholder's pro rata share of the earnings and profits (as defined in section 964(a) and §1.964-1) of such corporation for such tax year, computed as of the close of such tax year without diminution by reason of any distributions made during such tax year, minus the sum of—
>
> (i) The amount, if any, by which such shareholder's pro rata share of—
>
> (a) The sum of such corporation's deficits in earnings and profits for prior tax years beginning after December 31, 1962, plus
>
> (b) The sum of such corporation's deficits in earnings and profits for tax years beginning after December 31, 1959, and before January 1, 1963 (reduced by the sum of the earnings and profits (as so defined) of such corporation for any of such tax years) exceeds
>
> (c) The sum of such corporation's earnings and profits for prior tax years beginning after December 31, 1962, which, with respect to such shareholder, are allocated to other earnings and profits under section 959(c)(3) and §1.959-3; and
>
> (ii) Such shareholder's pro rata share of any deficits in earnings and profits of other foreign corporations for a tax year beginning after December 31, 1962, which are attributable to stock of such other foreign corporations owned by such shareholder within the meaning of section 958(a) and which, in accordance with section 952(d) of [§1.952-1(d)], are taken into account as a reduction in the controlled foreign corporation's earnings and profits for such tax year.
>
> For purposes of applying [§1.952-1(c)(1)], the reduction (if any) provided by [§1.952-1(c)(1)(i)] in a United States shareholder's pro rata share of the earnings and profits of a controlled foreign corporation shall be taken into account before the reduction provided by [§1.952-1(c)(1)(ii)]. See section 952(c).

Section 952(d) of the Code provides a special rule for the reduction of earnings and profits in the case of indirect ownership.

With respect to section 952(d) of the Code, section 1.952-1(d) of the regulations provides as follows:

> (1) *In general.* For purposes of [§1.952-1(c)(1)(ii)], if—
>
> (i) A United States shareholder owns (within the meaning of section 958(a)) stock in two or more foreign corporations in a chain of foreign corporations (as defined in [§1.952-1(d)(2)(ii)]), and
>
> (ii) Any of the corporations in such chain has a deficit in earnings and profits for a tax year beginning after December 31, 1962,
>
> then, with respect to such shareholder and only for purposes of determining the limitation on subpart F income under [§1.952-1(c)], the earnings and profits for the tax year of each such foreign corporation which is a controlled foreign corporation shall, in accordance with the rules of [§1.952-1(d)(2)], be reduced to take into account any deficit in earnings and profits referred to in [§1.952-1(d)(2)(ii)]. See section 952(d).
>
> (2) *Special rules.* For purposes of this paragraph—
>
> . . .
>
> (ii) "Chain" defined. A chain of foreign corporations shall, with respect to the United States shareholder, include—
>
> (a) Any foreign corporation in which such shareholder owns (within the meaning of section 958(a)(1)(A)) stock, but only to the extent of the stock so owned, and
>
> (b) All foreign corporations in which such shareholder owns (within the meaning of section 958(a)(2)) stock, but only to the extent of the stock so owned by reason of such shareholder's ownership of the stock referred to in [§1.952-1(d)(2)(ii)(a)].
>
> (iii) Allocation of deficit. If one or more foreign corporations (whether or not a controlled foreign corporation) includible in a chain of foreign corporations has a deficit in earnings and profits (determined under section 964(a) and §1.964-1) for the tax year, the amount of deficit taken into account under section 952(d) with respect to a United States shareholder in such chain as a reduction in earnings and profits for the tax year of a controlled foreign corporation includible in such chain shall be an amount which bears the same ratio to such shareholder's pro rata share of the total deficit in earnings and profits for the tax year of all includible foreign corporations as such shareholder's pro rata share of the earnings and profits (determined under [§1.952-1(c)] but without regard to the provisions of §[1.952-1(c)(1)(ii)]) for the tax year of such includible controlled foreign corporation bears to such shareholder's pro rata share of the total earnings and profits (as so determined under [§1.952-1(c)]) for the tax year of all includible controlled foreign corporations. The amount of deficit taken into account under [§1.952-1(d)(2)(iii)] with respect to any controlled foreign corporation includible in a chain of foreign corporations shall not exceed the United States shareholder's pro rata share of the controlled foreign corporation's earnings and profits for the tax year.

The rule in the paragraph quoted immediately above is sometimes called the "chain deficit rule."

Section 958(a)(1) of the Code provides that, as a general rule, "stock owned" means stock owned directly and stock owned by applying section 958(a)(2). Section 958(a)(2) provides that stock owned, directly or indirectly, by or for a foreign corporation is considered as being owned proportionately by its shareholders. Stock considered to be owned by a person by reason of the application of section 958(a)(2) is, for purposes of applying that section, treated as actually owned by such person.

Section 964(a) of the Code provides that, except as provided in section 312(k)(4), for purposes of subpart F the earnings and profits of any foreign corporation, and the deficit in earnings and profits of any foreign corporation, for any taxable year, shall be determined according to rules substantially similar to those applicable to domestic corporations, under regulations prescribed by the Secretary.

Section 1.964-1(a) of the regulations provides that for purposes of section 951 through 964, the earnings and profits (or deficit in earnings and profits) of a foreign corporation for its tax year shall be computed substantially as if such corporation were a domestic corporation.

Section 312(f)(2) of the Code provides that where a corporation receives a distribution from a second corporation which (under the law applicable to the year in which the distribution was made) was not a taxable dividend to the shareholders of the second corporation, the amount of such distribution shall not increase the earnings and profits of the first corporation in the following two circumstances. First, there is no increase in respect of the part of such distribution which (under the law) is directly applied in reduction of the basis of the stock in respect of which the distribution was made. Second, there is no increase if (under such law) the distribution causes the basis of the stock in respect of which the distribution was made to be allocated between such stock and the property received.

As noted above, section 1.952-1(c)(1) of the regulations provides that a United States shareholder's pro rata share of a CFC's subpart F income for any tax year shall not exceed the shareholder's pro rata share of the earnings and profits, as defined in section 964(a) of the Code and section 1.964-1, of such corporation for such tax year, computed as of the close of such tax year without diminution by reason of any distributions made during such tax year. Section 964(a) and section 1.964-1(a) provide the general rule that the earnings and profits of a foreign corporation shall be computed substantially as if such corporation were a domestic corporation. A domestic corporation's earnings and profits for any tax year include the amount of any distributions received from its subsidiaries. The fact that the dividend distribution is not taxed to the recipient corporation does not preclude the distribution from increasing the recipient's earnings and profits except in situations that are described in section 312(f)(2) and that require an adjustment or allocation of basis. There is no indication in the instant case that the distribution from *S-1* to *P* will be directly applied to reduce *P*'s basis in the *S-1* stock, and thus section 312(f)(2) is not applicable.

Examples 2 and 3 under section 1.952-1(d)(3) of the regulations illustrate how the earnings and profits of a CFC for the tax year are computed under the chain deficit rule. These examples state that the earnings and profits are determined "without regard to distributions" for the tax year.

In these examples, the phrase "without regard to distributions" refers to distributions of a dividend in the tax year by the CFC whose earnings and profits are at issue and not to distributions received by that CFC. The phrase "without regard to distributions" in these examples simply reflects the fact that dividend distributions made by a CFC for the tax year do not affect the CFC's earnings and profits for that tax year for purposes of the limitation in section 952(c) on subpart F income. Section 1.952-1(c)(1) of the regulations. Also, section 316(a)(2) of the Code provides that a dividend is any distribution of property made by a corporation to its shareholders out of its earnings and profits for the tax year (computed as of the close of the tax year without diminution by reason of any distributions made during the tax year), without regard to the amount of the earnings and profits at the time the distribution was made. See also section 1.952-1(c)(3), example (1)(d), which illustrates that in determining the subpart F income limitation under section 952(c), the earnings and profits of a CFC for the tax year include dividend distributions received by the CFC during the tax year from another CFC within the same chain of ownership. Example 1(d) indicates that although the earnings and profits of a CFC for the tax year are determined "without diminution for any distributions made during such year," the earnings and profits of the CFC, nevertheless, are increased by dividends received from another CFC within the same chain of ownership during the year.

Accordingly, the dividend distribution received by *P* from *S-1* in 1984 increases *P*'s earnings and profits for 1984 by the amount of the dividend (108*x* dollars), and the chain deficit rule of section 952(d) of the Code applies only after *P*'s earnings and profits for 1984 are increased to reflect the dividend *P* received from *S-1* in that year. Pursuant to the chain deficit rule, *P*'s earnings and profits are reduced by the amount of *S-2*'s deficit in earnings and profits for the year (40*x* dollars). After the reduction, *P* has sufficient earnings and profits so that the 5*x* dollars of FPHCI are subpart F income includible in the 1984 gross income of Z.

HOLDING

For purposes of calculating the limitation on subpart F income under section 952(c) of the Code, a CFC that receives a dividend distribution from another CFC within the same chain of ownership is required to increase its earnings and profits. The earnings and profits are to be increased for the tax year in which the dividend is received and are to be increased by the amount of the dividend distribution.

Section 954.—Foreign Base Company Income

26 CFR 1.954-1: Foreign base company income; taxable years beginning after December 31, 1975.

For purposes of calculating the limitation on Subpart F income under section 952(c) of the Code, a CFC that receives a dividend distribution from another CFC within the same chain of ownership is required to increase its earnings and profits. See Rev. Rul. 86-33, page 17.

Section 958.—Rules for Determining Stock Ownership

26 CFR 1.958-1: Direct and indirect ownership of stock.

For purposes of calculating the limitation on Subpart F income under section 952(c) of the Code, a CFC that receives a dividend distribution from another CFC within the same chain of ownership is required to increase its earnings and profits. See Rev. Rul. 86-33, page 17.

Section 964.—Miscellaneous Provisions

26 CFR 1.964-1: Determination of the earnings and profits of a foreign corporation.

For purposes of calculating the limitation on Subpart F income under section 952(c) of the Code, a CFC that receives a dividend distribution from aonther CFC within the same chain of ownership is required to increase its earnings and profits. See Rev. Rul. 86-33, page 17.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 467, 483.)

Rev. Rul. 86-34

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of March 1986 are as follows:

	Period for Compounding			
	Annual	Semiannual	Quarterly	Monthly
Short-Term				
AFR	8.06%	7.90%	7.82%	7.77%
110% AFR	8.88%	8.69%	8.60%	8.54%
120% AFR	9.70%	9.48%	9.37%	9.30%
Mid-Term				
AFR	8.92%	8.73%	8.64%	8.58%
110% AFR	9.83%	9.60%	9.49%	9.41%
120% AFR	10.75%	10.48%	10.35%	10.26%
Long-Term				
AFR	9.55%	9.33%	9.22%	9.15%
110% AFR	10.52%	10.26%	10.13%	10.05%
120% AFR	11.51%	11.20%	11.05%	10.95%

Section 2055.—Transfer for Public, Charitable, and Religious Uses

26 CFR 20.2055-2: Transfers not exclusively for charitable purposes.

Deduction for qualified conservation contributions. See T.D. 8069, page 4.

Section 2522.—Charitable and Similar Gifts

26 CFR 25.2522(c)-3: Transfers not exclusively for charitable, etc., purposes in the case of gifts made after July 31, 1969.

Deduction for qualified conservation contributions. See T.D. 8069, page 4.

Section 7701.—Definitions

26 CFR 301.7701-3: Partnerships.

The Service will now entertain ruling requests concerning certain partnership issues in areas in which the Service has heretofore declined to rule. See Rev. Proc. 86-12, page 21.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.201: Rulings and determination letters.
(Also Part I, Sections 701, 7701; 1.701-1, 301.7701-3.)

Rev. Proc. 86-12

SECTION 1. PURPOSE

The purpose of this revenue procedure is to provide guidance to taxpayers concerning the preparation of ruling requests involving certain partnership issues.

SEC. 2. BACKGROUND

Subchapter K of the Internal Revenue Code, sections 701 through 761, sets forth the rules concerning the federal income tax treatment of partners and partnerships. Section 7701(a)(2) of the Code defines the term "partnership," and section 301.7701-2 and 301.7701-3 of the Procedure and Administration Regulations set forth the standards that must be satisfied for an organization to be classified as a partnership.

The Internal Revenue Service recently has reviewed its practice concerning the issuance of letter rulings on partnership issues arising under subchapter K of the Code and partnership classification issues arising under sections 301.7701-2 and 301.7701-3 of the regulations. As a result of this review, the Service has determined that it will expand the scope of its rulings program with regard to these issues.

SEC. 3. SCOPE AND OBJECTIVE

.01 The Service presently considers ruling requests submitted by a newly formed organization concerning the classification of the organization as a partnership for federal income tax purposes and, if the organization is so classified, the Service also presently considers any partnership issues arising under subchapter K. If, however, the newly formed organization does not request a partnership classification ruling, but requests rulings only on partnership issues arising under subchapter K, the general practice of the Service has been not to rule in such circumstances.

The Service will now consider a ruling request concerning issues arising under subchapter K provided the newly formed organization declares in its ruling request that it is properly classified as a partnership for federal income tax purposes and that it will file federal income tax returns in a manner consistent with that declaration. When the Service issues a ruling concerning issues arising under subchapter K but does not issue a partnership classification ruling, the ruling will contain a proviso that no opinion is expressed concerning the organization's classification for federal income tax purposes.

.02 The Service presently considers ruling requests submitted by an existing organization (an organization that was formed in, and has filed a tax return for, a taxable year before the taxable year in which the ruling request is filed) concerning partnership issues arising under subchapter K, provided that the organization declares in its ruling request (1) that it is properly classified as a partnership for federal income tax purposes, (2) that it has, for prior taxable years, filed federal income tax returns in a manner consistent with that declaration, and (3) that it will continue so to file its federal income tax returns. When the Service issues a ruling to an existing organization concerning issues arising under subchapter K but has not previously issued a partnership classification ruling to the organization, the ruling contains a proviso that no opinion is expressed concerning the organization's classification for federal income tax purposes. The general practice of the Service has been not to issue partnership classification rulings to existing organizations. *See* Rev. Proc. 86-1, section 5.01, 1986-1 I.R.B. 6, 8-9.

The Service will now consider ruling requests concerning the classification of an existing organization as a partnership. A ruling issued in response to such a request will be effective prospectively.

SEC. 4. AREAS NOT COVERED BY THIS REVENUE PROCEDURE

This revenue procedure is not intended to modify Rev. Proc. 86-3, 1986-1 I.R.B. 26, which sets forth a list of matters upon which the Service generally will decline to rule. Furthermore, this revenue procedure is not intended to modify any part of Rev. Proc. 86-1, other than the next to the last sentence of section 5.01.

SEC. 5. INQUIRIES

Inquiries concerning this revenue procedure should be addressed to the Internal Revenue Service, Associate Chief Council (Technical), Attention CC:IND:I, Room 5016, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

SEC. 6. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 86-1 is modified.

SEC. 7. EFFECTIVE DATE

This revenue procedure applies to requests for rulings filed in the National Office after March 3, 1986.

Employee Plans Not Timely Amended—7805(b) Relief

Notice 86-3

The Internal Revenue Service has established procedures for granting partial relief from the sanctions for failure to satisfy the requirements of section 401(a) of the Internal Revenue Code in the case of certain employee plans that were not timely amended to comply with the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), Pub. L. 97-248, including the requirements listed in Notice 85-14, 1985-33 I.R.B. 16; the Tax Reform Act of 1984 (TRA), Pub. L. 98-369; or the Retirement Equity Act of 1984 (REA), Pub. L. 98-397.

ELIGIBILITY

These procedures will apply only to a plan for which the employer (1) was entitled, until the applicable compliance date by which the plan had to be amended to comply with TEFRA, TRA or REA, to rely for plan qualification purposes on a favorble determination letter; (2) had, on or before March 19, 1984, adopted a master or prototype plan for which a favorable post-ERISA opinion letter had been issued (that is, an opinion letter issued after the Employee Retirement Income Security Act of 1974 (ERISA) became effective with respect to the plan); and (3) had adopted, after March 19, 1984, a master or prototype plan for which a favorable post-ERISA opinion letter had been issued, provided that such master or prototype plan does not replace another plan or, if it does replace another plan, the plan replaced is one to which this notice applies. The procedures will apply where such plans were not amended to comply with TEFRA, TRA or REA (and for which determination letters, as necessary for reliance, were not requested) by the applicable compliance date.

Failure to comply with TEFRA, TRA or REA by the applicable compliance date results in a plan not being a qualified plan under section 401(a) of the Code for the plan year during which any such qualification requirement became effective for that plan. The compliance date for an individually designed plan (or a master or prototype plan first adopted by an employer after March 19, 1984, for which a determination letter was required for reliance but was not issued) is the last day of the plan year in which the qualification requirement becomes effective for that plan, except that, in the case of a "disqualifying provision" as defined in section 1.401(b)-1(b) of the Income Tax Regulations, the compliance date is the last day of the remedial amendment period as defined in section 1.401(b)-1(c). See Notice 85-5, 1985-1 C.B. 427; Notice 85-14, 1985-33 I.R.B. 16, and Announcement 85-128, 1985-35 I.R.B. 44. News Release IR-85-89, dated August 30, 1985, extended until November 1, 1985, the time for complying with the requirements of TEFRA, TRA and REA applicable to pension, profit-sharing, stock bonus, and annuity plans. This extension of time applied to all such plans whose compliance date was before November 1, 1985. The compliance date for a master or prototype plan adopted by an employer on or before March 19, 1984, to which the relief described in these procedures applies, is determined in accordance with section 12 of Rev. Proc. 84-23, 1984-1 C.B. 457.

CONDITIONS FOR GRANTING RELIEF

An employer who has a plan to which these procedures are applicable may obtain relief by executing the necessary plan amendments to comply retroactively with TEFRA, TRA and REA as of their respective effective dates and by taking appropriate action to adjust employees' rights and/or benefits so that such rights and/or benefits correspond to what they would have been had the plan or plans been amended timely. To take advantage of this procedure, the plan administrator must make the necessary amendments and request a determination letter with respect thereto no later than the last day of the eleventh month beginning after the applicable compliance date, if such date fell in November or December 1985; the last day of the tenth month beginning after the applicable compliance date, if such date fell in January or February 1986; or the last day of the ninth month beginning after the applicable compliance date, if such date fell in March 1986 or a later month.

If the plan administrator takes these actions, relief generally will be granted to the extent described below.

SCOPE OF RELIEF

The relief provided for in these procedures will have the following effects: (1) plan participants other than key employees, as defined below, will be treated in all respects, including the tax treatment of distributions and employee contributions, as though they were participants in a qualified plan during the entire noncompliance period as defined below; (2) the plan's assets and the income earned by such assets, including any amounts allocable to key employees that are not actually distributed to them but made available to them and otherwise taxable under section 72 of the Code pursuant to section 402(b), will continue to be treated as assets of a qualified plan during the noncompliance period; (3) if employer contributions are made in a taxable year which ends within or with a taxable year of the plan's trust for which the trust is not exempt under section 501(a) because of a failure to comply with TEFRA, TRA or REA, the allowable deduction for such contributions may be greater than the amount otherwise allowable under section 404(a)(5) for contributions made to a nonqualified plan; and (4) the amounts attributable to contributions in (3) above that are includible in the key employees' gross incomes may be less than the amounts otherwise includible.

The term "key employee" for purposes of these procedures has the same meaning as in section 416(i)(1) of the Code, but with the words "or any of the 4 preceding years" omitted and with "plan year" replaced by "noncompliance period." The term "noncompliance period" in this context means the period of plan years for which the plan failed to meet any of the qualification requirements of TEFRA, TRA or REA.

If relief is granted under these procedures, the allowable deduction under section 404(a) of the Code for employer contributions will be equal to the following amount, if greater than the amount otherwise allowable as a deduction under section 404(a)(5): the product of the "number-of-months factor" (defined below) multiplied by the lesser of (a) the amount contributed by the employer, or (b) the limitation under section 404(a)(1), (2), (3) or (9) that would apply if the plan were qualified.

The "number-of-months factor" is a percentage that is based on the number of months that have ended after the applicable compliance date and before the date a determination letter is requested for the required retroactive amendments, and is determined by reference to the following table:

NUMBER-OF-MONTHS FACTOR (%)

Month in which compliance date falls	Number of months that have ended after the compliance date and before the date of submission 1	2	3	4	5	6	7	8	9	10	11
Nov. 1985	95	90	85	80	70	60	50	40	30	20	10
Dec. 1985	95	90	85	75	65	55	45	35	25	15	5
Jan. 1986	95	90	80	70	60	50	40	30	20	10	
Feb. 1986	95	85	75	65	55	45	35	25	15	5	
Mar. 1986 or later	90	80	70	60	50	40	30	20	10		

In applying the number-of-months factor, the deductible amount is determined separately with respect to each taxable year of the employer affected

by the failure to timely amend the plan. Thus, the case of plans not timely amended to comply with TEFRA, TRA or REA, a separate product must be determined for each taxable year of the employer for which the plan is not qualified.

The following examples illustrate how the allowable deduction would be determined:

Example (1)

An employer whose taxable year is the calendar year contributed $120,000 in 1984 and $110,000 in 1985 to its employees' defined benefit plan for the plan and trust years 1984 and 1985, which are calendar years. The plan was not amended by the applicable compliance date, which was Nov. 1, 1985, to meet the qualification requirements under TEFRA that applied to it. The deductibility limitation under section 404(a)(1) of the Code that would have applied if the plan had not become disqualified is $100,000 for 1984 and $115,000 for 1985.

On Jan. 15, 1986, the employer requested a determination letter with respect to a proposed amendment.

Since two months have ended after the Nov. 1, 1985 compliance date and before the date of submission of the determination letter request, the number-of-months factor, from the above table, is 90 percent.

The amount deductible by the employer for 1984, if relief is granted, is $90,000, determined as follows:

(1) Limitation for 1984 under section 404(a)(1) of the Code if plan were qualified	$100,000
(2) Employer's contribution for 1984	$120,000
(3) Lesser of (1) or (2)	$100,000
(4) Number-of-months factor	90%
(5) (4) × (3)	$90,000
(6) Amount includible in participating employees' gross income under section 402(b) for 1984 and deductible by employer under section 404(a)(5), if relief is not granted	$0
(7) Amount deductible if relief is granted: greater of (5) or (6)	$90,000

The amount deductible for 1985 is $99,000, determined as follows:

(1) Limitation for 1985 under section 404(a)(1) if plan were qualified	$115,000
(2) Employer's contribution for 1985	$110,000
(3) Lesser of (1) or (2)	$110,000
(4) Number-of-months factor	90%
(5) (4) × (3)	$99,000
(6) Amount includible in participating employees' gross income under section 402(b) for 1985 and deductible by employer under section 404(a)(5), if relief is not granted	$0
(7) Amount deductible if relief is granted: greater of (5) or (6)	$99,000

The $30,000 for 1984 and $11,000 for 1985 are not deductible under section 404(a) of the Code for 1984 or 1985 and are treated as contributions to a nonqualified plan.

The results would be the same if the employer had executed the plan amendment just prior to submission to the Service of a determination letter request.

Example (2)

In 1985 an employer whose taxable year is a calendar year contributed $120,000 to its employees' profit-sharing plan for the plan and trust year ending Jan. 31, 1986. The plan had been timely amended to comply with TEFRA but was not amended by the applicable compliance date, which was Jan. 31, 1986, to meet the qualification requirements that applied to it under TRA and REA. The deductibility limitation under section 404(a)(3) of the Code that would have applied for 1985 if the plan had not become disqualified is $150,000. The amount that would be allowable as a deduction under section 404(a)(5) for 1985 as a contribution to a nonqualified plan is $120,000. Of the $120,000 amount, $100,000 is attributable to key employees and would, absent relief, be includible in the income of such employees.

The employer subsequently amends the plan to meet all of the applicable qualification requirements under TRA and REA, and also appropriately adjusts employees' and beneficiaries' rights and benefits. On Nov. 9, 1986, the employer requests a determination letter with respect to the amendment.

Since nine months have ended after the Jan. 31, 1986 compliance date and before the date of submission of the determination letter request, the number-of-months factor, from the above table, is 20 percent.

The amount deductible by the employer for 1985, if relief is granted, is $120,000, determined as follows:

(1) Limitation under section 404(a)(3) if plan were qualified	$150,000
(2) Employer's contribution	$120,000
(3) Lesser of (1) or (2)	$120,000
(4) Number-of-months factor	20%
(5) (4) × (3)	$24,000
(6) Amount includible in participating employees' gross income under section 402(b) and deductible by employer under section 404(a)(5), if relief is not granted	$120,000
(7) Amount deductible if relief is granted: greater of (5) or (6)	$120,000

If relief is granted under these procedures, the amounts that would otherwise be included in the gross incomes of key employees in accordance with section 83 of the Code pursuant to section 402(b) (amounts otherwise includible) may be reduced. In the case of employees of employers other than governmental entities or tax-exempt organizations, the total of the increases in amounts otherwise includible in the key employees' respective gross incomes resulting from the plan's disqualification will be limited to the excess, if any, of the amount deductible by the employer under section 404(a)(5), if relief is not granted, over the product of the number-of-months factor multiplied by the lesser of (a) the amount contributed by the employer, or (b) the limitation under section 404(a)(1), (2), (3) or (9) that would apply if the plan were qualified.

If the employer is a tax-exempt organization, the total of the increases in the amounts otherwise includible in the key employees' respective gross incomes resulting from the plan's disqualification will be limited to the product obtained by multiplying the excess of 100 percent over the number-of-months factor by the lesser of the amount contributed by the employer or the limitation under section 404(a) of the Code that would apply if the employer were a taxable entity and the plan were qualified. If the total of the additional amounts otherwise includible is less because relief is granted, such total will be allocated to the key employees in the same manner as illustrated below for other employers.

The following example, continuing Example (2) above, illustrates how the amount includible in the key employees' gross income would be determined under these procedures:

Example (2) (continued)

(5) (4) × (3)	$24,000
(6) Amount includible in participating employees' gross income under section 402(b) and deductible by employer under section 404(a)(5), if relief is not granted	$120,000
(6a) Portion of (6) attributable to key employees	$100,000
(7) Amount deductible by employer if relief is granted	$120,000
(8) Limit on total of amounts otherwise includible in key employees' gross income as result of plan's disqualification if relief is granted: excess of (7) over (5)	$96,000
(9) Amount includible in key employees' gross income: lesser of (6a) or (8)	$96,000

The total of the additional amounts otherwise includible if relief is granted ($96,000 in Example 2) will be allocated first to 5-percent owners within the meaning of section 416(i)(1)(B)(i) of the Code, in order of descending ownership interest. In the case of 5-percent owners with equal ownership interests, the aggregate amount allocable to such employees will be allocated to them in proportion to the respective increases in their otherwise includible

income if relief were not granted. Any remainder not allocated to 5-percent owners will be allocated to the other key employees in proportion to the respective increases in their amounts otherwise includible if relief were not granted.

The following examples illustrate how the additional amounts includible in the gross incomes of key employees would be allocated under these procedures where the total of the additional amounts is less than the total of the amounts otherwise includible because of this relief.

Example (3)

Assume there are 9 key employees having the ownership interests shown:

Key Employee	Ownership Interest	Addidtional Amounts Includible If Relief Not Granted	Additional Amounts Includible If Relief Granted
A	30%	$ 20,000	$20,000
B	18%	—	—
C	15%	18,000	18,000
D	10%	40,000	38,667(a)
E	10%	20,000	19,333(b)
F	8%	—	—
G	5%	500	—
Subtotals for 5-percent Owners		$ 98,500	$96,000
H	—	1,000	—
I	—	500	—
Totals		$100,000	$96,000

Allocation of additional amounts between 5-percent owners with identical ownership interests:

(a) $\frac{\$40,000}{60,000} \times \$58,000 = \$38,667$

(b) $\frac{\$20,000}{\$60,000} \times \$58,000 = \$19,333$

Example (4)

Assume there are 5 key employees having the ownership interests shown:

Key Employee	Ownership Interest	Additional Amounts Includible If Relief Not Granted	Additional Amounts Includible If Relief Granted
A	40%	$ 30,000	$30,000
B	40%	25,000	25,000
C	20%	20,000	20,000
Subtotals for 5-percent Owners		$ 75,000	$75,000
D	—	15,000	12,600(c)
E	—	10,000	8,400(d)
Totals		$100,000	$96,000

Allocation of additional amounts between key employees with less than a 5-percent ownership interest:

(c) $\frac{\$15,000}{\$25,000} \times \$21,000 = \$12,600$

(d) $\frac{\$10,000}{\$25,000} \times \$21,000 = \$8,400$

INSTRUCTIONS TO TAXPAYERS

Eligible employers who wish to obtain relief under this procedure must satisfy the "section 7805(b) request requirement" and the "determination letter follow-up requirement."

A plan will satisfy the section 7805(b) request requirement if, prior to the issuance of the determination letter, a letter is sent to the appropriate key district that (1) requests section 7805(b) treatment, (2) indicates the effective date and compliance date of TEFRA, TRA and REA with respect to the plan, and (3) states (a) the employer's taxable years in which deductions were claimed to which an adjustment to the deductible limit is made under the notice, (b) the due date of the return for each such year, (c) whether the return for such year was filed, and (d) the number-of-months factor from the table in this notice. Furthermore, the employer must agree to satisfy the "amended return requirement." An employer will satisfy the amended return requirement if the employer agrees to file with the Service (1) the employer's amended corporate, partnership or individual income tax return, as appropriate, to reflect any decrease in employer deductions under section 404 of the Internal Revenue Code resulting from the recomputation of allowable deductions under these procedures for all taxable years falling within the noncompliance period, and (2) information returns with respect to key employees who have includible income in any taxable year as a result of the plan's nonqualified status during the noncompliance period. Such returns will, of course, reflect the application of the section 7805(b) relief provided under these procedures. The amended return requirement applies only to the taxable year or years impacted by these procedures for which the applicable returns were actually filed or required to be filed prior to the issuance of the determination letter. Lastly, the employer must agree to reflect the changes required under the procedure for returns impacted thereby which were returns neither filed nor required to be filed by the date of issuance of the determination letter.

An employer will satisfy the determination letter follow-up requirement only if by the last day of the second month following issuance of the determination letter the employer files the amended returns necessary to satisfy the amended return requirement and send copies of such returns to the key district director. Failure of the employer to satisfy the section 7805(b) request requirement or the determination letter follow-up requirement will preclude the employer from obtaining 7805(b) treatment under these procedures.

If a request for section 7805(b) treatment is made, the key district will consider such section 7805(b) treatment concurrently but separately. If there are taxable years for which a return was due, the Service will not issue a section 7805(b) letter until the follow-up requirement has been satisfied. After the follow-up requirement has been satisfied, the Service will issue a letter granting section 7805(b) relief with respect to defects resulting from the plan's failure to amend to comply with TEFRA, TRA and REA, whichever is applicable.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Limitations on Alternative Benefits

EE-95-84

SUMMARY: This document contains proposed regulations relating to certain restrictions on an employee's right to receive alternative forms of benefit under qualified plans. They reflect changes made by the Retirement Equity Act of 1984 (REA) [Pub. L. 98-397; 1984-2 C.B. 433]. The regulations will generally affect sponsors of, and participants in, pension, profit-sharing and stock bonus plans, and they provide plan sponsors with guidance necessary to comply with the law.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 31, 1986. These regulations are proposed to be effective January 30, 1986, except as otherwise specified in these regulations.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (EE-95-84) Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Nancy J. Marks of the Employee Plans and Exempt Organizations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T). Telephone 202-566-3903 (not a toll-free number).

SUPPLEMENTARY INFORMATION:
BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 401 and 411 of the Internal Revenue Code of 1954 (Code). Generally, the proposed regulations under section 401(a)(4) clarify existing law. The proposed regulations under sections 401 and 411 conform the regulations to section 301 of the Retirement Equity Act of 1984 (REA) [Pub. 98-397, 1984-2 C.B. 433, 445]. The regulations are proposed to be issued under the authority of Code sections 411(d)(6) and 7805 (98 Stat. 1450, 68A Stat. 917; 26 U.S.C. 411(D)(6), 7805).

NONDISCRIMINATION REQUIREMENTS

SECTION 401(a)(4) of the Code provides that a qualified plan must provide either contributions or benefits that do not discriminate in favor of employees who are officers, shareholders or highly compensated (the prohibited group).

Rev. Rul. 85-59, 1985-1 C.B. 135, considered whether plans providing actuarilly equivalent forms of benefit that are subject to certain conditions (including a requirement that the trustee approve a participant's request to receive a single sum distribution) would satisfy section 401(a)(4). Rev. Rul. 85-59 held that these restrictions on a plan participant's ability to receive a single sum distribution may be discriminatory under section 401(a)(4).

The proposed regulations generally restate the position taken in Rev. Rul. 85-59. However, they provide that this position will be applied only prospectively with respect to existing conditional alternative forms of benefit. Thus, with respect to such benefits, Rev. Rul. 85-59 will not be applied until these regulations are effective.

REA REQUIREMENTS

Rev. Rul. 79-90, 1979-1 C.B. 155, held that a defined benefit pension plan violates the definitely determinable benefits requirement of section 401 and Treas. Reg. §1.401-1(b)(1)(i) unless, whenever the amount of any optional or early retirement benefit is to be determined on the basis of actuarial assumptions, such assumptions are specified in the plan in a manner that precludes employer discretion. For this purpose employer discretion includes discretion of the employer, plan administrator, fiduciary, actuary or other person.

Rev. Rul. 81-12, 1981-1 C.B. 228, considered whether plan amendments that changed actuarial factors directly or indirectly affected the computation of a participant's accrued benefit in a manner that violated section 411(d)(6) of the Code. Rev. Rul. 81-12 held that a change in actuarial factors that affects the calculation of a participant's optional or early retirement benefit is subject to the protective language of section 411(d)(6). Thus, a change in actuarial factors that could result in the decrease of a participant's accrued benefit, including an optional or early retirement benefit, would result in plan disqualification.

Section 401(a)(25) of the Code, added by section 301 of REA, affirms the Service's application (in Rev. Ruls. 79-90 and 81-12) of the section 401(a) definitely determinable benefit requirement. Section 401(a)(25) provides that a defined benefit plan shall not be treated as providing definitely determinable benefits unless any actuarial assumptions used to determine the amount of any benefit are specified in the plan in a way that precludes employer discretion.

Section 411(d)(6) of the Code, as amended by section 301 of REA, provides that, in general, a plan will not satisfy the requirements of this section if the accrued benefit of a participant is decreased by an amendment of the plan, other than an amendment described in section 412(c)(8), or section 4281 of the Employee Retirement Income Security Act of 1974 (ERISA) [Pub. L. 93-406, 1974-3 C.B. 1]. Section 411(d)(6) also provides that a plan amendment that has the effect of eliminating or reducing an early retirement benefit or, under certain conditions, a retirement-type subsidy or an optional form of benefit, with respect to benefits attributable to service before the amendment, shall be treated as impermissibly reducing accrued benefits. An exception is provided to the extent that such amendments are permitted under regulations promulgated by the Secretary under the grant of regulatory authority contained in section 411(d)(6).

The proposed regulations provide that the definitely determinable benefit requirement precludes a pension plan provision that allows employer consent or discretion with respect to the availability or payment of any alternative forms of benefit. The proposed regulations further provide that any qualified plan, including any profit-sharing or stock bonus plan that is not subject to the definitely determinable benefit requirement, may not contain these types of employer consent or discretion provisions. These provisions would effectively enable an employer to eliminate or reduce the availability of alternative forms of benefit without regard to the protection given to plan participants under section 411(d)(6) that such accrued benefits not be eliminated or reduced. However, the proposed regulations clarify that a qualified plan may condition the availability of an alternative form of benefit on satisfaction of objective and clearly ascertainable criteria specifically set forth in the plan, including, for example, the insurability of the employee or the existence of extreme financial need. The prohibition on employer consent or discretion is not violated where the employer reasonably and consistently applies such objective and clearly ascertainable criteria.

TITLE I OF ERISA

The proposed regulations under section 411 are also applicable to identical provisions of Title I. Thus, these requirements also apply to employee plans subject to Title I of ERISA. Under section 101 of Reorganization Plan No. 4 of 1978 [43 FR 47713], the Secretary of the Treasury has jurisdiction over the subject matter addressed in these regulations. Therefore, under section 104 of the Reorganization Plan, these regulations apply when the Secretary of Labor exercises authority under Title I of ERISA.

PLAN AMENDMENTS

Existing plans that contain alternative forms of benefit that are subject to consent or discretion provisions, or other conditions that discriminate, must be amended by the first day of the first plan year for which these regulations are effective, such amendments to be effective as of that day. These amendments must eliminate (a) employer discretion or consent provisions applicable to the availability of alternative forms of benefit, and (b) other conditions with respect to such alternative forms of benefit that discriminate. Alternatively, the plan must be amended to eliminate the alternative forms of benefit that are subject to such discretion or consent provisions or other conditions that discriminate. In addition, existing plans that contain conditions applicable to alternative forms of benefit that may reasonably be expected to discriminate may be amended either to eliminate such conditions or to eliminate the alternative forms of benefit subject to such conditions. Furthermore, plans may not be amended to add employer discretion or consent provision or other conditions that discriminate with respect to an alternative form of benefit.

EFFECTIVE DATES OF THIS REGULATION

Section 1.401(a)-4 of these regulations is generally proposed to be effective January 30, 1986, in the case of plans either adopted or made effective on or after that date. With respect to plans in existence (adopted and in effect) prior to January 30, 1986, the following effective dates are applicable. In the case of existing plans that are amended to add discriminatory provisions or conditions relating to the availability of an alternative from of benefit, of the type described herein, the regulation is proposed to be effective January 30, 1986, with respect to such alternative form of benefit. In the case of existing non-collectively bargained plans, the regulation is proposed to be effective for the second plan year commencing on or after January 30, 1986. For existing collectively bargained plans, the regulation is proposed to be effective for the earlier of (a) the third plan year commencing on or after January 30, 1986, or (b) the second plan year beginning after the expiration of the last of the collective bargaining agreements, in effect on January 30, 1986, pursuant to which the plan is maintained.

Section 1.411(d)-4 is proposed, except in the case of adoptions of certain master or prototype plans, to be effective August 1, 1986, in the case of plans either adopted or effective on or after that date. Employers who adopt a master or prototype plan for which a sponsor applied to the Service for an opinion letter on or before December 31, 1984, and for which a favorable opinion letter was received after that date are deemed to have existing plans for purposes of this regulation. However, such adopting employers who cease to be covered under such a master or prototype plan prior to the proposed applicable effective date for their plan will be treated as through they had a new plan as of the date they cease to be so covered.

With respect to existing plans, other than master or prototype plans that are deemed to be existing plans, the following effective dates are applicable. In the case of existing plans that are amended to add provisions or conditions relating to the availability of an alternative form of benefit, of the type described herein, the regulation is proposed to be effective the first day of the first month commencing on or after six months after January 30, 1986, with respect to such alternative form of benefit. In the case of existing non-collectively bargained plans, the regulations are proposed to be effective for the second plan year commencing on or after January 30, 1986. For existing collectively bargained plans, these regulations are proposed to be effective for the earlier of (a) the third plan year commencing on or after January 30, 1986, the second plan year beginning after the expiration of the last of the collective bargaining agreements, in effect on January 30, 1986, pursuant to which the plan is maintained. However, in the case of employers who adopt master or prototype plans that are deemed to be existing plans, the effective date will be the earlier of the second plan year commencing on or after January 30, 1986, or the first plan year commencing on or after January 30, 1987.

Taxpayers may rely on these proposed regulations for guidance pending the issuance of final regulations. The transitional rule provisions of these regulations, allowing plan amendments described above, are immediately effective. Thus, existing plans may make the plan amendments described above, thereby eliminating certain benefit alternatives, prior to the general effective date of these new rules.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

COMMENTS AND REQUESTS FOR PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations is Nancy J. Marks of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

Proposed Amendments to the Regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.411(d)-4 also issued under 26 U.S.C. 411(d)(6).

Par. 2. A new section 1.401(a)-4 is added immediately after §1.401(a)-3 to read as follows:

§1.401(a)-4 Limitations on availability of alternative forms of benefit.

Q-1: Does a pension, profit-sharing or stock bonus plan satisfy section 401(a)(4) if, in form or operation, the availability of an alternative form of benefit favors the prohibited group?

A-1: No. Section 401(a)(4) provides that a qualified plan must provide either contributions or benefits that do not discriminate in favor of employees who are officers, shareholders, or highly compensated (the prohibited group). When a plan provides for alternative forms of benefit, i.e., different forms of distribution commencing at the same time or the same form of distribution commencing at different times (see definition in §1.411(d)-4, Q&A-1), the availability of each of these alternative forms of benefit is subject to this nondiscrimination requirement. Thus, the availability of such alternative forms of benefit may not favor the prohibited group. For example, a plan may not condition the availability of a single sum optional benefit in a manner that favors the prohibited group. This is true whether or not the particular benefit option is the actuarial equivalent of any other form of benefit under the plan.

Q-2: How is it determined whether or not a plan conditions the availability of alternative forms of benefit in a manner that violates, or may reasonably be expected to violate, the nondiscrimination requirements of section 401(a)(4)?

A-2: This determination must be based on all the surrounding facts and circumstances of the employer maintaining the plan. However, a condition is discriminatory if the group of employees to whom the benefit is available does not satisfy either the seventy percent test of section 410(b)(1)(A) or the nondiscriminatory classification test of section 410(b)(1)(B). Thus, the availability of a particular alternative form of benefit will not be considered discriminatory if the benefit is available to seventy percent or more of all employees. If the seventy percent test is not satisfied, the condition limiting availability will be discriminatory if it results in more than a reasonable difference between (a) the ratio of prohibited group employees to whom a particular alternative form of benefit is available to all prohibited group employees and (b) the ratio of employees (other than prohibited group employees) to whom the same alternative form of benefit is available to all employees (other than prohibited group employees). A condition with respect to the availability of a particular alternative form of benefit may reasonably be expected to violate the nondiscrimination requirements of section 401(a)(4) if, under the applicable facts and circumstances, there is a reasonable expectation that the condition will result in the benefit not being available to a group of employees that meets the requirements of section 410(b)(1)(A) or (B) set forth above. The following examples are illustrative:

Example (1). A plan conditions the availability of a single sum benefit alternative by limiting it either to (a) employees earning $50,000 or more in the final year of employment, (b) employees who furnish evidence that they have a net worth above a certain specified amount, or (c) employees who present a letter from an accountant or attorney declaring that it is in the employee's best interest to receive a single sum distribution. Whether such conditions are permissible depends on all the facts and circumstances of the employer maintaining the plan. However, all three of these conditions may reasonably be expected to discriminate in favor of the prohibited group in operation because of the probability of a significant positive correlation between the ability to meet these requirements and membership in the prohibited group.

Example (2). A plan limits the availability of a single sum optional benefit to employees employed in one particular division of the employer's company. All the employees of the company are participants in the plan. The division currently employs individuals who represent a nondiscriminatory classification of that company's employees and is unlikely to cease employing such a nondiscriminatory classification in the future. This condition with respect to availability does not result in discrimination nor may it reasonably be expected to do so.

Q-3: May a pension, profit-sharing or stock bonus plan provide that the employer or some other person, other than the participant (and, where relevant, other than the participant's spouse), through withholding consent or otherwise exercising discretion, may deny a participant an alternative form of benefit for which the participant is otherwise eligible?

A-3: No. Even though in certain circumstances this type of provision may satisfy the nondiscrimination requirements of section 401(a)(4), the provision results in the failure of the plan to satisfy section 401(a), including the requirements set forth in sections 401(a)(25) and 411(d)(6). *See* §1.411(d)-4 Q&As 2-5. This result is true whether the consent or discretion in question is vested in the employer or in some other person. *See* §1.411(d)-4 Q&A-4. The applicable effective dates with respect to such rules relating to consent or discretion are set forth in §1.411(d)-4 Q&A-8.

Q-4: Will a plan provision violate section 401(a)(4) merely because it mandates a single sum distribution in the event that the present value of a participant's nonforfeitable accrued benefit is not more than $3,500?

A-4: No. A provision that mandates a single sum distribution if the present value of a participant's nonforfeitable accrued benefit is not more than $3,500 will be deemed not to be discriminatory under section 401(a)(4). This is an exception to the general principles of this section based on sections 411(a)(11) and 417(e).

Q-5: If a plan contains a provision with respect to the availability of alternative forms of benefit that discriminates or may reasonably be expected to discriminate, what acceptable alternatives exist for amending the plan without violating section 411(d)(6)?

A-5: (a) The following transitional rules apply for purposes of making necessary amendments to existing plans, as defined in Q&A-6 of this section, that contain conditions governing the availability of one or more alternative forms of benefit that violate the nondiscrimination requirements of section 401(a)(4) or may reasonably be expected to violate such requirements. These transitional rules are provided under the authority of section 411(d)(6), which allows the elimination of optional forms of benefits if permitted by regulations, and section 7805(b).

(b) If an existing plan conditions the availability of an alternative form of benefit in a manner that discriminates, the plan must be amended to eliminate such condition. Alternatively, the plan must be amended to eliminate the alternative form of benefit subject to such condition, including any early or late retirement benefit which is so conditioned. If an existing plan conditions the availability of an alternative form of benefit in a manner that may reasonably be expected to discriminate, the plan may be amended to either eliminate such condition or eliminate the alternative form of benefit subject to such condition.

(c) Any amendment permitted under paragraph (b) of this Q&A-5 to eliminate an alternative form of benefit must be made on or before the applicable effective date for the plan as determined under Q&A-6 of this section. Thus, after the applicable effective date, any amendment that eliminates an alternative form of benefit, whether or not such form of benefit is subject to conditions that discriminate or may reasonably be expected to discriminate, will violate the requirements of section 411(d)(6) to the extent that such alternative form of benefit is protected by section 411(d)(6).

Q-6: What are the effective dates for the rules in this section?

A-6: (a) *New plans*. This section is effective January 30, 1986, in the case of plans which are either adopted or made effective on or after such date. This effective date is applicable to such plans whether or not they are collectively bargained.

(b) *Existing plans*. Existing plans, for purposes of this section, are plans which are both adopted and in effect prior to January 30, 1986. Subject to the limitations in paragraph (c) of this Q&A-6, the following effective dates apply to existing plans for purposes of this section.

(1) *Non-collectively bargained plans*. In the case of existing non-collectively bargained plans, the regulation is effective for the first day of the second plan year commencing on or after January 30, 1986.

(2) *Collectively bargained plans*. In the case of existing collectively bargained plans, the regulation is effective for the first day of the earlier of (i) the third plan year commencing on or after January 30, 1986, or (ii) the second plan year beginning after the expiration of the last of the collective bargaining agreements, in effect on January 30, 1986, pursuant to which the plan is maintained. Extensions of a collective bargaining agreement, if ratified on or after January 30, 1986, are disregarded.

(c) The delayed effective dates in paragraph (b)(1) and (2) of this Q&A-6 for existing plans are only applicable with respect to an alternative form of benefit if (1) both the alternative form of benefit and the condition to which it is subject were adopted and in effect prior to January 30, 1986, and (2) the condition to which it is subject is either discriminatory or may reasonably be expected to discriminate. If the conditions in the preceding sentence are not satisfied with respect to a particular alternative form of benefit, then this section is effective with respect to such alternative form of benefit as if the plan were a new plan.

(d) The transitional rule provided in Q&A-5 of this section is effective January 30, 1986.

Par. 3. A new §1.411(d)-4 is added immediately after 1.411(d)-3T to read as follows:

§1.411(d)-4 Alternative forms of benefit.

Q-1: What is meant by "alternative forms of benefit" for purposes of this section?

A-1: This term encompasses the different forms of benefit payment available under a plan which provides that (a) a participant's benefits under the plan may be paid in more than one form (for example, life annuities, installment payments and single sum distributions), or (b) payment of a particular form of benefit may commence at some time earlier or later than the normal date for the commencement of such benefit. For example, a life annuity beginning at early retirement age and a life annuity beginning at normal retirement age are alternative forms of benefit for purposes of this section.

Q-2: May a pension, profit-sharing or stock bonus plan provide that the employer may, through withholding consent or otherwise exercising discretion, deny a participant an alternative form of benefit for which the participant is otherwise eligible?

A-2: No. Such a provision will violate the requirement of section 411(d)(6), which applies to accrued benefits of pension, profit-sharing and stock bonus plans, to the extent that the consent or discretion may be exercised with respect to an alternative form of benefit protected by section 411(d)(6). In addition, in the case of a pension plan, such a provision violates the "definitely determinable" requirement of section 401(a), which applies to any alternative form of benefit available to participants under the plan, not merely to accrued benefits under section 411(d)(6). *See* §1.401-1(b)(1)(i). However, see Q&A-5 of this section regarding the application of objective and clearly ascertainable conditions on the availability of an alternative form of benefit.

Q-3: Is the result in Q&A-2 of this section any different if the plan specifically limits the employer's exercise of discretion to choosing among alternative forms of benefit that can be demonstrated to be actuarially equivalent based on reasonable actuarial assumptions set forth in the plan?

A-3: No.

Q-4: Is the answer in Q&A-2 of this section any different if a plan permits the exercise of discretion by, or requires consent from, some person or persons other than the employer and the participant (and, where relevant, other than the participant's spouse)?

A-4: No. The term "employer" includes plan administrator, fiduciary, trustee, actuary and other persons for purposes of applying the rules of this section and §1.401(a)-4. Thus, provisions permitting any person, other than the participant (and, where relevant, other than the participant's spouse), to deny the participant an alternative form of benefit otherwise available to the participant under the plan, violate the requirements of sections 401(a), including sections 401(a)(25) and 411(d)(6).

Q-5: May a pension, profit-sharing or stock bonus plan condition the availability of an alternative form of benefit on objective criteria that are specifically set forth in the plan?

A-5: Yes. Such provisions do not violate the requirements of section 411(d)(6) provided the criteria are objective, ascertainable, clearly set forth in the plan and not subject to the employer's discretion. For example, a plan may deny a single sum optional benefit to participants for whom life insurance is not available at standard rates provided this provision is specifically set forth in the plan. As another example, a plan may provide that an otherwise permissible single sum distribution alternative, based on separation from service, may be available only in the event of extreme financial need, after taking into account the employee's other assets available to meet those needs, determined under standards specifically set forth in the plan. On the other hand, a plan may not condition the availability of alternative forms of benefit permitted under the plan on factors that are within the employer's discretion. For example, the availability of alternative forms of benefit in a defined benefit plan may not be conditioned on a determination with respect to the level of the plan's funded status because the amount of plan funding is within the employer's discretion.

Q-6: May a plan be amended to add a consent or discretion provision or other condition to an alternative form of benefit?

A-6: No. Adding a consent or discretion provision or other conditions with respect to the availability of an employee's accrued benefit in an alternative form of benefit that is within section 411(d)(6) effectively enables an employer to eliminate or reduce an employee's accrued benefit within the meaning of such section. However, an amendment of the type described in Q&A-5 of this section that adds one or more objective and clearly ascertainable conditions on the availability of an employee's accrued benefit in an alternative form of benefit may be made with respect to benefits accrued after the later of the effective date of the amendment or the date such amendments is adopted. Also, after the effective date of this section, with respect to a pension plan, consent or discretion provisions may not be added with respect to any alternative form of benefit.

Q-7: If a plan contains discretion or consent provisions which violate the requirements of section 401(a), including sections 401(a)(25) and 411(d)(6), and this section, what acceptable alternatives exist for amending the plan without violating the requirements of section 411(d)(6)?

A-7: (a) The following transitional rules apply for purposes of making necessary amendments to existing plans, as defined under the effective date provisions in Q&A-8 of this section, that contain discretion or consent provision with respect to the availability of alternative forms of benefit that violate the requirements of section 401(a), including sections 401(a)(25) and 411(d)(6), and this section. These transitional rules are provided under the authority of section 411(d)(6), which allows the elimination of optional forms of benefits if permitted by regulations, and section 7805(b).

(b) If an existing plan provides for employer consent or discretion with respect to the availability of an alternative form of benefit, the plan must be amended to eliminate such consent or discretion provision. Alternatively, the plan must be amended to discretion provision, including any early or late retirement benefit that is so conditioned.

(c) Any amendment permitted under paragraph (b) of this Q&A-7 to eliminate an alternative form of benefit must be made on or before the applicable effective date for the plan as determined under Q&A-8 of this section. Thus, after the applicable effective date, any amendment that eliminates an alternative form of accrued benefit, whether or not such form of benefit is subject to employer consent or discretion, will be a violation of section 411(d)(6).

Q-8: What are the effective dates for the rules in this section?

A-8: (a) *New plans*. This section is effective August 1, 1986, in the case of plans that are either adopted or made effective on or after such date. This effective date is applicable to such plans whether or not they are collectively bargained.

(b) *Existing plans*. Existing plans, for purposes of this section, are those plans, with the exception of certain plans which are adoptions of master or prototype plans, which are both adopted and in effect prior to August 1, 1986. Employers who adopt a master or prototype plan for which a sponsor applied to the Service for an opinion letter on or before December 31, 1984, and for which a favorable opinion letter was received after that date, will be deemed to have existing plans for purposes of this section. *See* sections 4.01 and 4.02 of Rev. Proc. 84-23, 1984-1 C.B. 457, 459, for the definitions of master and prototype plans. However, if such adopting employers cease to be covered under a plan which is an adoption of a master or prototype plan of the type described above, as a result of amendment of the plan or adoption of a new plan, prior to the effective date of this section with respect to their plan, then the effective date of such employers will be determined as though the plan were a new plan as of the date of such amendment or adoption of a new plan. Subject to the limitations in paragraph (c) of this Q&A-8, the following effective dates apply to existing plans for purposes of this section:

(1) *Non-collectively bargained plans*. In the case of existing plans other than collectively bargained plans this section is effective for the first day of the second plan year commencing on or after January 30, 1986.

(2) *Collectively bargained plans*. In the case of existing collectively bargained plans this section is effective for the first day of the earlier of (i) the

third plan year commencing on or after January 30, 1986, or (ii) the second plan year beginning after the expiration of the last of the collective bargaining agreements, in effect January 30, 1986, pursuant to which the plan is maintained. Extensions of a collective bargaining agreement, if ratified on or after August 1, 1986, are disregarded.

(3) *Master and prototype plans.* In the case of plans which are adoptions of master or prototype plans that are deemed to be existing plans under the provisions of this paragraph (b), the effective date will be the earlier of the second plan year commencing on or after January 30, 1986, or the first plan year commencing on or after January 30, 1987.

(c) The delayed effective dates in paragraph (b)(1) and (2) of this Q&A-8 for existing plans are only applicable with respect to an alternative form of benefit if both the alternative form of benefit and the consent of discretion provision or other condition to which it is subject are adopted and in effect prior to August 1, 1986. If the conditions set forth in this paragraph are not satisfied with respect to a particular alternative form of benefit, then this section is effective with respect to such alternative form of benefit as if the plan were a new plan.

(d) The transitional rule provided in Q&A-7 of this section is effective January 30, 1986.

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on January 29, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 30, 1986, 51 F.R. 3798)

Notice of Proposed Rulemaking
Return of Partnership Income
LR-198-82

SUMMARY: This document contains proposed amendments to the income tax regulations relating to partnership returns. The proposed regulations require partnerships to furnish certain return information to their partners and revise the exceptions to the partnership filing requirement. Changes to the applicable tax law were made by the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462]. The regulations would provide guidance for determining what information a partnership must furnish to its partners and when certain partnerships must file partnership returns.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 24, 1986. The regulations are proposed to be effective for partnership taxable years beginning after September 3, 1982. For exceptions to this effective date, see the text of the regulations.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (L-198-82), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Beverly A. Baughman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 6031 of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to sections 403 and 404 of the Tax Equity and Fiscal Responsibility Act of 1982 (96 Stat. 669) [Pub. L. 97-248, 1982-2 C.B. 462, 596].

INFORMATION TO BE FURNISHED TO PARTNERS

Before the enactment of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), a partnership required under section 6031 to file a partnership return was not required by statute to furnish information to its partners. TEFRA amended section 6031 to require the partnership to furnish to every person who was a partner in the partnership at any time during the taxable year a copy of the information on the partnership return to the extent required by regulations.

The proposed regulations require the partnership to give each partner a statement showing that partner's distributive share of partnership income, gain, loss, deduction or credit and, to the extent required under the instructions for the partnership return, any additional information from the partnership that is necessary to enable the partner to determine the correct income tax treatment of an item related to the partnership. For example, the partnership may be required to furnish the information on partnership liabilities necessary for purposes of determining the application of section 465 (relating to limitation of deductions to amount at risk) to partners with respect to partnership activities.

EXCEPTION TO FILING REQUIREMENT

Existing §1.6031-1 provides exceptions from the requirements that a partnership return be filed for two classes of partnerships: partnerships electing exclusion from the partnership provisions of the Code under section 761(a) and partnerships that neither carry on any business in the United States nor derive any income from sources within the United States. Section 404 of TEFRA in effect nullified these exceptions in any case in which the tax liability of any United States person is affected by items flowing from a partnership. That section, however, authorizes new regulations to provide exceptions from the filing requirement.

The proposed regulations would provide exceptions for partnerships making the election under section 761(a) and for certain foreign partnerships with no United States business or income. Every domestic partnership (except a partnership making the election under section 761(a) or an inactive one that in a given taxable year conducts no business and has no income or deductions from any sources whatsoever) would be required to file a return even if it has no United States business and no United States income.

The proposed regulations provide an exception from the filing requirement for a foreign partnership carrying on no business in the United States and deriving no income from sources within the United States unless United States persons hold a specified interest in the partnership. The proposed regulations require that a foreign partnership file a return for a taxable year if at any time during that taxable year an aggregate of 25 percent or more of any item of income, gain, loss, deduction or credit of the partnership for the taxable year is allocable to a United States person or persons. For purposes of these rules, interests held by a pass-thru partner (such as another partnership or trust) that is not a United States person are also treated as held by each indirect partner to the extent that the indirect partner holds an interest in the foreign partnership through that pass-thru partner.

The percentage interest of an indirect partner in a foreign partnership is determined by multiplying the percentage interest of the pass-thru partner in any item of income, gain, loss, deduction, or credit of the foreign partnership by (1) the percentage interest of the indirect partner in that item of income, gain, loss, deduction, or credit of the pass-thru partner, when the pass-thru partner is a partnership, and (2) the percentage of the indirect partner's actuarial interest in the trust or estate when the pass-thru partner is a trust or estate.

The Internal Revenue Service recognizes that the rule requiring that interests held by indirect partners be taken into account may cause concern among certain taxpayers because a foreign partnership may not know whether it has indirect partners, and it may be very difficult for that partnership to obtain such information. Additionally, the consequences of failing to meet the filing requirement can be harsh. Therefore, the Service would appreciate comments on this rule.

If a foreign partnership would not be required to file a partnership return but for the 25 percent rule discussed above, the draft regulations provide that the reporting requirements of paragraphs (a)(2) and (b) of proposed §1.6031-1, which relate to a specific partner or partners, apply only with respect to partners who are United States persons or pass-thru partners through which United States persons hold interests in the foreign partnership as indirect partners. Thus, although the foreign partnership must report, for example, all items of gross income and all allowable deductions, it need not report the distributive shares of its partners other than for its partners who are United States persons or pass-thru partners through which United States person are indirect partners.

The draft regulations exclude from the definition of United States person, with respect to any partnership, any individual who is a bona fide resident of Puerto Rico (which is treated as a possession for certain tax purposes), the Virgin Islands, Guam or any other United States possession if no item of the partnership is taken into account in determining the United States income tax obligation of the individual that is required to be paid to the United States Treasury.

IMPORTANCE OF FILING REQUIREMENT

If a partnership that is not a small partnership under section 6231(a)(1)(B) is required to file a return under section 6031 but fails to do so, the period of limitations on assessment of tax attributable to items of that partnership remains open indefinitely under section 6229(a).

EFFECTIVE DATES

These regulations are proposed to be effective with respect to partnership taxable years beginning after September 3, 1982. A partnership that would be exempt from the filing requirement under the existing regulations, however, will not be required to file a partnership return for any partnership taxable year ending on or before the 90th day after the date on which a Treasury decision on this subject appears in the FEDERAL REGISTER.

SPECIAL ANALYSIS

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required.

Pursuant to 5 U.S.C. 605(b), the Secretary of the Treasury has certified that the requirements of the Regulatory Flexibility Act do not apply to this notice of proposed rulemaking because the proposed regulations will not have a significant economic impact on a substantial number of small entities. The only partnerships that the proposed regulations would for the first time require to file partnership returns are foreign partnerships in which United States persons hold a substantial interest; few small entities hold interests in foreign partnerships. The information that the proposed regulations require a partnership to furnish to its partners is limited to the information that the partners need to determine their own tax liability.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be made available for public inspection and copying. A public hearing will be held upon written request of any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register. The collection of information requirements contained herein have been submitted for OMB review under the Paperwork Reduction Act, and comments on them should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments to OMB also send copies of the comments to the Service.

DRAFTING INFORMATION

The principal author of these proposed regulations is Beverely A. Baughman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations both on matters of substance and style.

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.6031-1 also issued under 26 U.S.C. 6031 and section 404 of the Tax Equity and Fiscal Responsibility Act of 1982 (96 Stat. 669) [Pub. L. 97-248, 1982-2 C.B. 462].

Par. 2. Section 1.6031-1 is revised to read as follows:

§1.6031-1. Return of partnership income.

(a) *In general*—(1) *Return required.* Except as otherwise provided in this section, every unincorporated organization, whether domestic or foreign, defined as a partnership in section 761(a), through or by means of which any business, financial operation, or venture is carried on, shall make a return for each taxable year on the form prescribed for the partnership return. For purposes of this section, an unincorporated organization will not be considered, within the meaning of section 761(a), to carry on a business, financial operation, or venture as a partnership in any taxable year in which the organization neither receives income nor incurs any expenditures treated as deductions or credits for federal income tax purposes. The return shall be made for the taxable year of the partnership, irrespective of the taxable years of the partners. For taxable years of a partnership and of a partner, see section 706 and §1.706-1. For signing of a partnership return, see §1.6063-1.

(2) *Content of return.* The return shall state specifically the items of partnership gross income and the deductions allowable by subtitle A of the Code and shall include the names and addresses of all the partners (as defined in section 7701(a)(2)) and the amount of the distributive shares of income, gain, loss, deduction, or credit allocated to each partner. Notwithstanding any exemption otherwise available under §401.6109-1(g), the return shall also include the identifying numbers of all the partners; provided, however, that any foreign partnership that would be exempted from the requirement to file a return under paragraph (d)(1) of this section but for the provisions of paragraph (d)(2)(i) of this section shall include in its return the identifying numbers of only those partners who are described in paragraph (d)(2)(iv). To the extent required by the form prescribed for the partnership return or by the instructions accompanying that form, the return shall also provide any additional information that may be necessary to determine the application to the partnership or the partners of particular provisions of subtitle A of the Code with respect to items related to the partnership. For example, the form may require information with respect to partnership liabilities for purposes of determining the application of section 465 (relating to limitation of deductions to amount at risk) to the partners with respect to partnership activities.

(3) *Special rule.* Except in the case of an unincorporated organization deemed to be excluded from the application of subchapter K in the manner described in §1.761-2(b)(2)(ii) for the first year of its existence, an unincorporated organization described in §1.761-2(a) shall file a partnership return for the first taxable year in which the participants by a formal agreement undertake to engage in joint operations or, in the absence of a formal agreement, for the first taxable year in which the participants with respect to the joint use of property jointly have income, or make or incur any expenditures treated as deductions or credits for Federal income tax purposes. Additionally, if an organization described in §1.761-2(a) (other than an unincorporated organization deemed to be excluded from the application of subchapter K in the manner described in §1.761-2(b)(2)(ii) for the first taxable year of its existence) does not elect under section 761 and the regulations thereunder to be excluded from the application of all the provisions of subchapter K of chapter 1 of the Code, it is required to file a return for each taxable year subsequent to its first taxable year in accordance with the requirements of this section until an election is made in accordance with §1.761-2(b)(2)(i). Where no annual accounting period has been adopted by an organization described in §1.761-2(a), its taxable year shall be the calendar year in accordance with section 441(g). For special rules in the case of an organization making the election for exclusion under section 761, see §1.761-2(b)(2)(i) and (c) and paragraph (c) of this section.

(b) *Information required to be provided to partners*—(1) *In general.* Any partnership required under paragraph (a)(1) of this section to file a partnership return for a taxable year shall furnish, on or before the day on which that return is filed, to every person who was a partner (as defined in section 7701(a)(2)) at any time during that taxable year a statement showing that person's distributive share of partnership income, gain, loss, deduction or credit. To the extent required by the form or the accompanying instructions, that statement shall also provide any additional information that may be necessary to determine the application to the partner of particular provisions of subtitle A of the Code with respect to items related to the partnership.

(2) *Information may be provided to agent.* If a partner has designated another person, such as an attorney or an investment advisor, as the partner's agent in dealing with the partnership, the partnership may provide the information referred to in paragraph (b)(1) of this section to that other person instead of the partner.

(3) *Penalties.* For penalties for failure to comply with the requirements of section 6031(b) and this paragraph (b), see section 6678(a)(3)(F).

(c) *Unincorporated organizations excluded from the application of subchapter K*—(1) *Wholly excluded*—(i) *Filing for the first year with respect to an election.* Any unincorporated organization with respect to which under section 761(a) an election to be excluded from all the provisions of subchapter K of chapter 1 of the Code has been made in the manner described in §1.761-2(b)(2)(i) shall file the form prescribed for the partnership return for the first year with respect to which such an election has been made. That return shall, in lieu of the information otherwise required, contain or be accompanied by the information required by §1.761-2(b)(2)(i).

(ii) *No requirement to file.* Except as otherwise provided in paragraph (c)(1)(i) of this section, an unincorporated organization which is wholly excluded from the application of subchapter K need not file a partnership return.

(1) *Partially excluded.* Any unincorporated organization excluded from the application of part of subchapter K of chapter 1 of the Code shall file a return on the form prescribed for the partnership return containing such information as the Commissioner may require. See section 761 and §1.761-2(c).

(d) *Foreign partnerships having no United States business*—(1) *General rule.* Except as otherwise provided in paragraph (d)(2), a foreign partnership that engages in no trade or business in the United States and derives no income from sources within the United States is not required to file a partnership return.

(2) *Special rule for certain foreign partnerships*—(1) *In general.* Notwithstanding paragraph (d)(1) of this section, a foreign partnership shall file a partnership return for a partnership taxable year if at any time during that year an aggregate of 25 percent or more of any item of income, gain, loss, deduction, or credit of the partnership is allocable to a United States person or persons.

(ii) *Interests held indirectly through pass-thru partners that are not United States persons.* If an interest in any item of income, gain, loss, deduction, or credit of a foreign partnership is held by a pass-thru partner that is not a United States person, then for purposes of this paragraph (d)(2) that interest shall be treated as held by each indirect partner to the extent that the indirect partner holds an interest in the foreign partnership through that pass-through partner. No person shall be treated as holding an interest in a foreign partnership by virtue of holding an interest in a pass-thru partner which is a United States person; the interest held by any such pass-thru partner shall be treated as an interest held by a United States person for purposes of this paragraph (d)(2).

(iii) *Determination of interest held by an indirect partner in a foreign partnership.* For purposes of paragraph (d)(2)(ii) of this section, the percentage interest of an indirect partner in a foreign partnership shall be determined by multiplying the percentage interest of the pass-thru partner in any item of income, gain, loss, deduction, or credit of the foreign partnership by—

(A) In the case of a pass-thru partner that is a partnership, the percentage interest of the indirect partner in that item of income, gain, loss, deduction, or credit of the pass-thru partner, or

(B) In the case of a pass-thru partner that is a trust or estate, the percentage of the indirect partner's actuarial interest in the trust or estate.

(iv) *Certain foreign partnerships.* In the case of a foreign partnership that would not be requred to file a partnership return but for the provisions of paragraph (d)(2)(i) of this section, those requirements of paragraphs (a)(2) and (b) of this section which relate to a specific partner or partners apply only with respect to partners who are United States persons or pass-thru partners through which United States persons held interests in the partnership as indirect partners. Thus, although the foreign partnership must report all items of gross income and all allowable deductions, it need not, for example, report the distributive share of its partners other than for its partners who are United States persons or pass-thru partners through which United States persons are indirect partners.

(v) *Examples.* The provisions of this paragraph (d)(2) may be illustrated by the following examples:

Example (1). L, a foreign partnership, engages in no trade or business in the United States and derives no income from sources within the United States. For taxable year 1985 all of L's income comes from investment activity and a retail business. Fifteen United States persons are partners in L. For 1985 each of these partners is allocated 2 percent of L's income from investment activities. Because United States persons are allocated 30 percent (15 × 2) of an item of L's income for taxable year 1985, L must file a partnership return for that year under section 6031 pursuant to paragraph (d)(2)(i) of this section. On that return L must include the information required with respect to partners under paragraph (a)(2) of this section only with respect to the fifteen partners who are United States persons. Similarly, L must furnish the statement required under paragraph (b)(1) of this section only to those fifteen partners.

Example (2). M, a foreign partnership, engages in no trade or business in the United States and derives no income from sources within the United States. All of M's income comes from investment activity. For M's taxable year 1985, 26 percent of M's income is allocable to N, a domestic partnership with three equal partners, one of whom is not a United States person. Because all of this 26 percent share is allocable to N as a pass-thru partner which is a United States person for purposes of applying paragraph (d)(2)(i) of this section, M is required to file a partnership return under section 6031 for its taxable year 1985.

Example (3). O, a foreign partnership, engages in no trade or business in the United States and derives no income from sources within the United States. All of O's income is from a retail business. For O's taxable year 1985, 20 percent of O's income is allocable to P, a partnership that is not a United States person. All of P's income is also from a retail business. A, a United States person, is a partner in P and 50 percent of P's income for 1985 is allocable to A. A's interest in O as an indirect partner through P is 10 percent (20% × 50%). A also holds a separate interest in O as a direct partner and 15 percent of O's income is allocable to A because of the separate interest. Because A in the aggregate is allocated 25 percent (10% + 15%) of O's income for purposes of applying paragraph (d)(2)(i) of this section, O is required to file a partnership return under section 6031 for its taxable year 1985.

(3) *Returns of information with respect to partnership required of partners who are United States persons.* If a United States person is a partner in a partnership described in paragraph (d)(1) of this section which is not required to file a partnership return, the district director or director of the service center may require that person to render such statements or provide such information as is necessary to show whether or not that person is liable for tax on income derived from that partnership. In addition, if an election in accordance with the provisions of section 703 (relating to elections affecting the computation of taxable income derived from a partnership) or section 761 (relating to the election to be excluded from the application of all or part of subchapter K, chapter 1 of the Code) is to be made by or for the partnership, a return on the form prescribed for the partnership return shall be filed for the partnership. See section 6063 and §1.6063-1, relating to the authority of a partner to sign a partnership return. The filing of one such return for a taxable year of the partnership by a partner who is a United States person shall constitute a filing for the partnership of a partnership return.

(4) *Exclusion for satellite organizations.* The return requirement of section 6031 and this section shall not apply to the International Telecommunications Satellite Organization, the International Maritime Satellite Organization, or any organization which is a successor of either of these organizations.

(5) *Meaning of terms*—(i) *pass-thru partner.* For the meaning of the term "pass-thru partner," see section 6231(a)(9).

(ii) *Indirect partner.* For the meaning of the term "indirect partner," see section 6231(a)(10).

(iii) *United States person*—(A) *In general.* For purposes of this section the term "United States person" has the meaning assigned to it by section 7701(a)(30) of the Code, except that with respect to any taxable year of a partnership the term does not include any individual who is a bona fide resident of the Commonwealth of Puerto Rico, the Virgin Islands, Guam or any other possession of the United States, if no item of income, gain, loss, deduction or credit of the partnership for the taxable year is taken into account in determining an income tax obligation of the individual under subtitle A of the Code that is required to be paid to the Treasury of the United States.

(B) *Example*. The provisions of this paragraph (d)(4)(iii) may be illustrated by the following example:

Example. S is a partnership organized in Denmark. C, an individual who is a citizen of the United States, is a bona fide resident of Guam and a partner in S. S and C use the calendar year as their taxable year. For 1985, C files his tax return with Guam pursuant to section 935. For purposes of applying this section to S for 1985, C is not considered to be a United States person.

(e) *Place and time for filing returns*—(1) *Place for filing*—(i) *Partnership with United States business or United States income*. The returns of partnerships engaged in trade or business, or having income from sources, within the United States shall be filed—

(A) With the service center for the internal revenue district in which the partnership has its principal office or principal place of business in the United States, or

(B) With the Philadelphia Service Center, Philadelphia, Pennsylvania 19255 if the partnership has no office or place of businesss in the United States.

(ii) *Partnership with no United States business and no United States income*. If a partnership engages in no trade or business in the United States and has no income from sources within the United States, but is required to file a return under paragraph (d)(2) of this section, it shall file its partnership return with the Philadelphia Service Center, Philadelphia, Pennsylvania 19255.

(iii) *Return filed under paragraph (d)(3)*. A partnership return filed under the authority of paragraph (d)(3) of this section shall be filed with the internal revenue officer with whom the partner who is a United States person files his separate income tax return.

(2) *Time for filing*. The return of a partnership shall be filed on or before the fifteenth day of the fourth month following the close of the taxable year of the partnership, except that the return of a partnership consisting entirely of nonresident aliens shall be filed on or before the fifteenth day of the sixth month following the close of the taxable year of the partnership.

(f) *Effective date*—(1) *In general*. This section applies with respect to partnership taxable years beginning after September 3, 1982. For partnership taxable years beginning before September 4, 1982, see 26 CFR 1.6031-1 (Rev. as of April 1, 1984).

(2) *Special rules*. If—

(i) The taxable year of a partnership ends on or before the 90th day after a Treasury decision on this subject appears in the Federal Register, and

(ii) The partnership would not be required to file a partnership return for that year if §1.6031-1 (Rev. as of April 1, 1984) were applied to the partnership for that year in place of paragraphs (a) through (e) of this section.

The partnership shall not be required to file a partnership return for that taxable year.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on January 22, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 23, 1986, 51 F.R. 3075)

Original Issue Discount Reporting Requirements

Announcement 86-22

This announcement concerns information reporting rules under sections 1275 and 6049 of the Internal Revenue Code for issuers of publicly offered original issue discount (OID) debt instruments and for brokers and other middlemen who hold interests in those debt instruments as nominees. The Internal Revenue Service expects to issue amendments to the Temporary Income Tax Regulations under section 1275(c)(2), published in the Federal Register on June 18, 1985. In addition, the Service expects to issue regulations under section 6049 of the Code. Taxpayers may rely on this announcement until such regulations are issued.

BACKGROUND

As added by section 41 of the Tax Reform Act of 1984 ("the 1984 Act"), 1984-3 (Vol. 1) C.B. 221, section 1275(c)(2) of the Code requires issuers of publicly offered debt instruments having OID to furnish the Secretary with certain information with respect to those debt instruments. This requirement also applies to persons who make a public offering of stripped bonds or coupons as if those persons were issuers of publicly offered debt instruments having OID.

On June 18, 1985, the Service issued section 1.1275-3T of the temporary regulations, which is applicable to debt instruments issued with OID after August 16, 1984. Section 1.1275-3T requires issuers of publicly offered debt instruments having OID to file with the Service the following information: 1) the name, address, and taxpayer identification number of the issuer; 2) the issue date, maturity date, and CUSIP number of the issue; 3) the amount of OID for the entire issue; 4) the issue price expressed as a percentage of the principal amount; 5) the stated redemption price at maturity of the entire issue, or of each debt instrument within the issue if in denominations of other than $1,000; 6) the stated interest rate and interest payment dates; 7) a description of the debt instrument or, in place of such description, a copy of the offering circular or prospectus; and 8) the method used in determining the amount of OID allocable to a short accrual period. The information is to be filed on new Form 8281, Information Return for Publicly Offered Original Issue Discount Instruments.

For debt instruments issued after May 31, 1985, Form 8281 is required to be filed on or before the thirtieth day after issuance of the debt instruments. Failure to file Form 8281 in a timely manner will result in a penalty, pursuant to section 6706(b) of the Code, equal to the lesser of $50,000 or 1% of the aggregate issue price of the issue.

Section 1.6049-5(c) of the Income Tax Regulations provides that in determining whether a debt instrument has OID and, if so, in determining the amount of OID includible in the income of the holder, a payor (other than the issuer of the debt instrument) may rely on the Service's publication of publicly traded OID debt instruments. That reliance is for purposes of complying with the reporting requirements under section 6049 of the Code.

SCOPE

This announcement applies to issuers of publicly offered debt instruments issued with OID after August 16, 1984, with respect to the filing of Form 8281 pursuant to section 1275(c)(2) of the Code. This announcement also applies to brokers and other middlemen who hold as nominees: (1) on or after June 1, 1986, certificates of deposit (CDs) which were sold by the broker or middleman (whether for the broker's account or as an agent for the issuer) to the owner, (2) on or after January 1, 1987, any certificates of deposit, (3) U.S. Treasury STRIPS, and (4) debt instruments that are backed by U.S. Treasury securities and that represent ownership interests in those securities for purposes of information reporting under section 6049 of the Code.

PROCEDURES

The following interim procedures shall apply until further guidance is issued:

1) Form 8281 is not required to be filed with respect to certificates of deposit (CDs) issued by banks or other financial institutions. However, financial institutions that issue CDs must file information returns and statements with respect to OID and interest on such CDs as prescribed by section 6049 and the regulations thereunder.

2) Form 8281 is not required to be filed with respect to CDs containing OID that are sold by brokers or other middlemen. Brokers and other middlemen who hold interests in these instruments as nominees must file information returns and statements with respect to OID and interest on such CDs as prescribed by section 6049 and the regulations thereunder.

3a) Form 8281 is not required to be filed by a person who makes a public offering of instruments that constitute stripped bonds or stripped coupons. These instruments include instruments issued under the Department of the Treasury's STRIPS program, and instruments that constitute ownership interests in U.S. Treasury securities.

b) Brokers and other middlemen who hold as nominees interests in instruments issued under the Treasury's STRIPS program or instruments that constitute ownership interests in stripped U.S. Treasury securities must file information returns and statements with respect to OID on such instruments as prescribed by section 6049 and the regulations thereunder. Publication 1212, List of Original Issue Discount Instruments, provides information with respect to such instruments. Brokers and other middlemen who hold such instruments as nominees may rely on this information for purposes of filing the information returns and statements required by section 6049.

REPORTING REQUIREMENTS

The following reporting requirements will be effective for calendar years beginning in 1986:

The regulations under section 6049 will be amended to provide that all brokers or middlemen holding a CD as a nominee on or after June 1, 1986, who sold such CD (whether for the broker's or middleman's account or as an agent of the issuer) to the owner (regardless of when sold), will be required to report OID with respect to such CDs.

The following reporting requirements will be effective for calendar years beginning in 1987:

The regulations under section 6049 will be amended to provide that all brokers and other middlemen who hold interests in CDs as nominees will be required to report OID with respect to such CDs.

Clarification of Instructions for the 1985 Form 2106

Announcement 86-24

The instructions for Form 2106, Employee Business Expenses, are incomplete for taxpayers who choose an alternative ACRS method for vehicles. The instructions for method 2, column (c) of Section (D) call for the entry of "SL" and the choice of 3, 5, or 12 years. The instructions for column (d) ask the taxpayer to divide column (b) by column (c) if Method 2 is used.

However, if Method 2 is used, only one-half of the depreciation otherwise allowable can be claimed in the first and last year a vehicle is used for business purposes. Therefore, the following should be added at the end of the second sentence in the column (d) instructions: "and if this is the first or last year a vehicle was used for business, divide the result by 2."

Incorrect Line Reference—1985 Form 5695

Announcement 86-25

Line 24 of the 1985 Form 5695, Residential Energy Credit, contains an incorrect reference to line 49 of the 1984 Form 1040. The reference should be to line 50 of the 1984 Form 1040 as follows: "Caution—Do not make an entry on this line if your 1984 Form 1040, line 50, showed an amount of more than zero."

Correction of 1985 Schedule D (Form 1040) Instructions

Announcement 86-26

The 1985 Schedule D (Form 1040) instructions under the heading "Investment Interest Deduction Adjustment" are incorrect.

The instructions for Step 1 should read "reduce line 20 of Form 4952 to" instead of "reduce line 20 of Form 4952 by".

The correction affects only those taxpayers who have an entry on line 20 of Form 4952 (Investment Interest Expense Deduction) and also an entry on line 21 of Schedule D (Form 1040) (or line 8 of Form 4798).

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Philip G. Arneson	Sparta, WI	Attorney	Indefinite from December 15, 1985
Joseph P. Day	Woburn, MA	Attorney	Indefinite from December 24, 1985
Kenneth H. Dillard	Nashville, TN	Certified Public Accountant	Indefinite from December 31, 1985
LeRoy Hodge	Hamilton, NY	Attorney	Indefinite from December 10, 1985
Frank S. Lukuch	Barberton, OH	Certified Public Accountant	Indefinite from December 4, 1985
W. Stephen McConnell	Tampa, FL	Certified Public Accountant	Indefinite from December 26, 1985
Nathan Rich	Wilmington, DE	Certified Public Accountant	Indefinite from December 1, 1985
Walter E. Shettlemore	Long Beach, MS	Certified Public Accountant	Indefinite from December 20, 1985
Dal H. Felkel	Kingstree, SC	Certified Public Accountant	Indefinite from January 31, 1986

Name	Address	Designation	Term of Suspension
John J. Matonis	Walnut, CA	Attorney	Indefinite from January 24, 1986
Joel A. Shor	Baltimore, MD	Certified Public Accountant	Five Months from December 15, 1985

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.451-3, amended.	Accounting for long-term contracts	1986-6 I.R.B. 55	Mar. 7, 1986
26 CFR 31.3508-1, 31.3509-1, 1.6041A-1, added.	Treatment of real estate agents and direct sellers; determination of employer liability for certain employment taxes	1986-6 I.R.B. 46	Mar. 10, 1986
26 CFR 1.6041-3, amended.	Information reporting of allowances or reimbursements for travel expenses of public employees	1986-7 I.R.B. 26	Mar. 10, 1986
26 CFR 1.228(h)(10)-1T, 1.1502-75T, added; 1.338-1T, 1.338-4T, amended.	Elections under section 338(h)(10)	1986-8 I.R.B. 35	Mar. 10, 1986
26 CFR 1.936-2, 1.936-3, 1.936-3A, added; 7.936-1, removed.	Qualified possession source investment income	1986-8 I.R.B. 33	Mar. 24, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86-35, page 4.
Accounting methods; hybrid method. A financial institution using the accrual method of accounting for all items of income and expense, except for interest income for commercial loans and mortgage loans, is not using a permissible method of accounting.

LR-3-77, page 14.
Proposed amendments to the regulations under sections 904 and 1502 of the Code relate to the recapture of foreign losses.

EXCISE TAXES

Rev. Rul. 86-36, page 4.
Communications; lease of teletypewriter terminal. Amounts paid by a lessee for the lease of a teletypewriter terminal are not subject to the communications tax imposed by section 4251 of the Code. Rev. Rul. 73-401 modified.

Rev. Rul. 86-37, page 5.
Obsolete rulings. Additional obsolete revenue procedures and revenue rulings are listed.

ADMINISTRATIVE

Rev. Proc. 86-13, page 7.
Forms; magnetic tape; Form W-4; reporting requirements. Requirements and conditions are set forth for submitting certain Forms W-4, Employee's Withholding Allowance Certificates, on magnetic tape instead of filing paper returns. Rev. Proc. 84-41 superseded.

Announcement 86-27, page 30.
Certain errors in Publication 510, Excise Taxes for 1986 (Revised October 1985) are corrected.

Announcement 86-28, page 30.
Publication 526, Rental Property, and Publication 17, Your Federal Income Tax, contain errors in examples relating to the reporting of rental income and expenses.

Announcement 86-33, page 30.
Rev. Rul. 86-33 is corrected.

Finding Lists begin on page 33.
Announcement of Suspensions on page 31.
Announcement of the Notice of Proposed Rulemaking on page 32.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 446.—General Rule for Methods of Accounting

26 CFR 1.446-1: General rule for methods of accounting.

Accounting methods; hybrid method. A financial institution using the accrual method of accounting for all items of income and expense, except for interest income from commercial loans and mortgage loans, is not using a permissible method of accounting.

Rev. Rul. 86-35

ISSUE

Is the taxpayer's method of accounting, which is a combination of the accrual and cash receipts and disbursements methods, a permissible method of accounting under section 446(c) of the Internal Revenue Code, under the circumstances described below?

FACTS

The taxpayer, a financial institution, has for several years consistently reported all items of income and expense on the accrual method of accounting except for interest income from commercial loans and mortgage loans, which is reported on the cash receipts and disbursements method.

LAW AND ANALYSIS

Section 446(b) of the Code provides that if no method of accounting has been regularly used by a taxpayer, or the method used does not clearly reflect income, the computation of taxable income shall be made under such method as, in the opinion of the Secretary, does clearly reflect income.

Section 446(c) of the Code enumerates methods of accounting taxpayers may use to compute taxable income. The use of these permissible methods is subject to the provisions of 446(b). That is, the accounting method used by a taxpayer must clearly reflect income. Such permissible methods are the cash receipts and disbursements method, the accrual method, any other method permitted under chapter 1 of the Code, and combinations of these methods permitted under the regulations.

Section 1.446-1(c)(1)(iv)(a) of the Income Tax Regulations provides that any combination of methods of accounting will be permitted if it clearly reflects income and is consistently used. A taxpayer using the accrual method of accounting with respect to purchases and sales may use the cash receipts and disbursements method in computing all other items of income and expense. However, a taxpayer who uses the cash receipts and disbursements method of accounting in computing gross income from a trade or business must use the cash receipts and disbursements method in computing expenses of such trade or business. Similarly, a taxpayer who uses the accrual method of accounting in computing business expenses must use the accrual method in computing items affecting gross income in such trade or business.

Rev. Rul. 75-171, 1975-1 C.B. 140, concerns a real estate developer who uses the accrual method of accounting for all items of income and expense except for lot sale contracts, which are reported on the installment method. The revenue ruling addresses the proper method of reporting the interest income attributable to the lot sale contracts. Rev. Rul. 75-171 concludes that the interest income must be reported on the accrual method because, under section 1.446-1(c)(1)(iv)(a) of the regulations, if the accrual method is used for deducting business expenses, then, in order to clearly reflect income, the accrual method must also be used for computing items affecting gross income.

The fact that the taxpayer consistently reported its income using the method described above does not mean that the method clearly reflects income. A failure to clearly reflect income over many years cannot be justified on grounds of tenure. *Coors v. Commissioner*, 60 T.C. 368, 395 (1973), *aff'd*, 519 F.2d 1280 (10th Cir. 1975), *cert. denied*, 423 U.S. 1087 (1976); *Madison Gas and Electric Company v. Commissioner*, 72 T.C. 521, 554 (1979), *aff'd on another issue*, 633 F.2d 512 (7th Cir. 1980).

In the present situation, the taxpayer uses the accrual method of accounting in computing business expenses for all its operations, including expenses relating to the mortgage and commercial loan operations. In order to clearly reflect its income, the taxpayer must report interest income from commercial loans and mortgage loans on the accrual method.

HOLDING

The taxpayer's method of accounting, which is a combination of the accrual and cash receipts and disbursements methods, is not a permissible method of accounting under section 446(c) of the Code.

Any change by the taxpayer from its present method of reporting interest income is a change in method of accounting subject to the provisions of sections 446 and 481 of the Code and the regulations thereunder.

This ruling is identified as a designated ruling pursuant to section 5.12(2) of Rev. Proc. 84-74, 1984-2 C.B. 736.

Requirements and conditions for submitting Forms W-4 on magnetic tape. See Rev. Proc. 86-13, page 7.

Section 4251.—Imposition of Tax

26 CFR 49.4251-1: Imposition of tax.
(Also Section 4252.)

Communications; lease of teletypewriter terminal. Amounts paid by a lessee for the lease of a teletypewriter terminal are not subject to the communications tax imposed by section 4251 of the Code. Rev. Rul. 73-401 modified.

Rev. Rul. 86-36

ISSUE

If amounts are paid for the leasing of a teletypewriter terminal, are those amounts subject to the communications excise tax imposed by section 4251 of the Internal Revenue Code?

LAW AND ANALYSIS

Section 4251 of the Code imposes a tax on amounts paid for communications services, including teletypewriter exchange service.

Section 4252(c) of the Code defines "teletypewriter exchange service" as access from a teletypewriter or other data station to the teletypewriter exchange system of which such station is a part, and the privilege of intercommunication by such station with substantially all persons having teletypewriter or other data stations constituting a part of the same teletypewriter exchange system, to which the subscriber is entitled upon payment of a charge or charges.

Rev. Rul. 73-401, 1973-2 C.B. 363, describes certain companies which sell and lease communications equipment, such as telephones, switchboards, teletypewriter machines, and related equipment, but which are not otherwise engaged in providing communications services. The equipment is sold or leased to customers who use the equipment in connection with telephone service or teletypewriter exchange service provided by communications companies unrelated to the companies selling or leasing the equipment. The revenue ruling holds, in part, that amounts paid to lease teletypewriter equipment for use in connection with a taxable communications service are taxable under section 4251 of the Code.

In *Trans-Lux Corporation v. United States*, 696 F.2d 963 (Fed. Cir. 1982), the court held that payments for the lease of a teletypewriter terminal are not subject to the federal communications tax of teletypewriter exchange service imposed by section 4251 of the Code. The payments are not subject to the tax because the lease of the terminal does not provide access to a teletypewriter exchange system on the privilege of intercommunication with all persons constituting a part of the same teletypewriter exchange system.

The Internal Revenue Service will follow the decision in *Trans-Lux Corporation* with regard to the taxation of amounts paid to lease teletypewriter terminals, whether such terminals are provided by a company that also provides a teletypewriter exchange service or by a company that does not provide such a service.

HOLDING

Amounts paid by a lessee for the lease of a teletypewriter terminal are not subject to the communications excise tax imposed by section 4251 of the Code.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 73-401 is modified.

Section 4252.—Definitions

Whether amounts paid for the leasing of the teletypewriter terminal are subject to the communications tax imposed by section 4251 of the Code. See Rev. Rul. 86-36, above.

Section 6001.—Notice or Regulations Requiring Records, Statements, and Special Returns

26 CFR 31.6001-5: Additional records in connection with collection of income tax at source of wages.

Requirements and conditions for submitting Forms W-4 on magnetic tape. See Rev. Proc. 86-13, page 7.

Section 6361.—General Rules [Collection of State Individual Income Taxes]

Requirements and conditions for submitting Forms W-4 on magnetic tape. See. Rev. Proc. 86-13. page 7.

Section 7805.—Rules and Regulations

26 CFR 301.7805-1: Rules and regulations.

Obsolete rulings. Additional obsoleted revenue procedures and revenue rulings are listed.

Rev. Rul. 86-37

The Internal Revenue Service periodically reviews rulings that were published in the Internal Revenue Bulletin. Although focused on rulings published after 1952, this review is consistent with the objectives of the program (announced by Rev. Proc. 67-6, 1967-1 C.B. 576) for the review of rulings published in the Internal Revenue Bulletin before 1953. That program sought to identify, and to include in published lists, those rulings which, although not specifically revoked or superseded, are not considered determinative with respect to future transactions. As a result of this review of post-1952 rulings, the Service published Rev. Rul. 69-227, 1969-1 C.B. 315, Rev. Rul. 72-622, 1972-2 C.B. 652, Rev. Rul. 74-624, 1974-2 C.B. 406, Rev. Rul. 76-315, 1976-2 C.B. 449, and Rev. Rul. 78-231, 1978-1 C.B. 450, which declared obsolete numerous rulings having primary application in the excise tax area.

Upon further review of rulings in the excise tax area, the additional rulings and procedures listed below, although not specifically revoked or superseded, have been found to be not determinative with respect to future transactions because the applicable statutory provisions have been changed. Accordingly, the rulings listed below are hereby declared to be obsolete.

Rev. Proc. No.	**C.B. Citation**
67-39	1967-2 C.B. 673
74-48	1974-2 C.B. 504
74-49	1974-2 C.B. 505

Rev. Rul. No.	**C.B. Citation**
99	1953-1 C.B. 461
54-319	1954-2 C.B. 398
54-415	1954-2 C.B. 428
55-650	1955-2 C.B. 497
55-651	1955-2 C.B. 497
58-114	1958-1 C.B. 424
58-522	1958-2 C.B. 860
63-41	1963-1 C.B. 348
63-42	1963-1 C.B. 348
63-43	1963-1 C.B. 349
68-257	1968-1 C.B. 508
68-588	1968-2 C.B. 563
68-613	1968-2 C.B. 562
68-614	1968-2 C.B. 562
68-615	1968-2 C.B. 565
68-627	1968-2 C.B. 564
68-628	1968-2 C.B. 117
71-259	1971-1 C.B. 369
72-220	1972-1 C.B. 365
72-482	1972-2 C.B. 589
73-132	1973-1 C.B. 450
73-216	1973-1 C.B. 468
73-291	1973-2 C.B. 368
74-124	1974-1 C.B. 320
75-219	1975-1 C.B. 358
77-178	1977-1 C.B. 43

The purpose of obsoleting the rulings listed above is to make clear that the rulings are not determinative with respect to future transactions. It is not the purpose of this revenue ruling to determine their applicability to past transactions.

Other rulings published after 1952 relating to excise tax matters will continue to be reviewed to ascertain those that are inapplicable to future transactions.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.602: Tax forms and instructions. (Also Part I, Sections 3402, 6001, 6361; 31.3402(b)-1, 31.3402(f)(5)-1, 31.3402(h)(4)-1, 31.3402(p)-1, 31.6001-5.)

Rev. Proc. 86-13

PART A—GENERAL

SECTION 1. PURPOSE

.01 The purpose of this revenue procedure is to update Rev. Proc. 84-41, 1984-1 C.B. 515, concerning the requirements and conditions for submitting certain Forms W-4, Employee's Withholding Allowance Certificates, on magnetic tape instead of filing paper returns. All employers are required to send to the Internal Revenue Service copies of all Forms W-4 submitted by their employees who claim the following:

(a) 15 or more withholding allowances, or

(b) exempt status and usually earn more than $200 a week at the time the Form W-4 was filed.

Form W-4 information may be filed on magnetic tape and sent monthly to IRS.

SEC. 2. NATURE OF CHANGES

The following changes have been included in this revenue procedure:

.01 Part A, Sec. 8 has been revised to show transfer of magnetic media processing from all service centers to the Internal Revenue Service National Computer Center in Martinsburg, WV, effective JANUARY 1, 1986. References to service center filing and magnetic media coordinators at the service centers have been corrected throughout.

.02 Part B, Sec. 1 has been revised to identify which types of tape files are compatible with current processing equipment.

.03 In Part B, Sec. 1.03 a requirement has been added that recording code information is to be shown on the external tape label.

.04 In Part B, the following fields have been deleted from the W-4 Magnetic Tape Record: Number of W-4's Submitted, previously in positions 159-163; Employer Name Line 3, previously in positions 249-283; Employer Name Line 4, previously in positions 284-318; and the field for "IRS USE," previously in positions 396-400. The record length has been shortened to a total of 320 positions, and the remaining fields have been renumbered accordingly. Maximum block size is now 3,200 characters.

.05 In Part B, under Description and Remarks for the Student Status Field in position 149 of the W-4 Magnetic Tape Record, the remarks have been revised to indicate that if student status is not claimed, or if there is no entry, a blank will be entered.

.06 In Part B, under Description and Remarks for the Allowances field in positions 150 and 151 of the W-4 Magnetic Tape Record, the remarks have been revised to indicate that if there is no entry, or if the employee claimed exempt status, blanks will be entered.

PLEASE ENSURE THAT YOUR PROGRAM IS UPDATED TO INCORPORATE THE ABOVE CHANGES.

SEC. 3. APPLICATION FOR MAGNETIC MEDIA REPORTING

.01 Tape reporting is not restricted to employers with the ability to submit all their information on magnetic tape; a combination of tape records and paper documents is acceptable as long as there is no duplication or omission of documents.

.02 Employers or transmitters who desire to file statements in the form of magnetic tape must file a letter of application on Form 4419, Application for Magnetic Media Reporting of Information Returns. See Part A, Sec. 8 for information on where to file.

The letter of request must contain the following:

(a) Name, address, and employer identification number of the person, organization, or entity making the request.

(b) Name, title, and telephone number of the person to contact regarding the request.

(c) Estimate of the number of Forms W-4 to be reported in tape format, and the number, if any, expected to be reported on copies of paper Forms W-4.

(d) Type and nature of equipment to be used to prepare the tape such as manufacturer and model of the mainframe and tape drives, tape width (½", ¾", etc.), density (characters per inch), recording code (BCD, Excess 3, Octal, etc.).

(e) Signature of the official responsible for the preparation and submission of Forms W-4 to the Service.

.03 The Service will act on applications and notify applicants of authorization to file or of disapproval within 30 days of receipt of an application. No magnetic tape returns may be filed with the Service until authorization to file is received.

.04 Only employers or transmitters using equipment which can produce tape files meeting the specifications in Part B, Sec. 1, will have their applications approved.

.05 In general, once authorization to file on magnetic tape has been granted, such approval will continue in effect in succeeding years, providing that the requirements of this revenue procedure are met and there are no equipment changes by the employer or transmitter. However, new applications are required whenever any of the following situations arise:

(a) If the users change from equipment producing compatible tapes.

(b) If the users submit tapes that are not listed as compatible.

(c) If the users discontinue tape reporting for one or more quarters then decide to resume this method of reporting.

SEC. 4. FILING DATES

.01 Magnetic tape reporting of Forms W-4 to the Service must be at least quarterly (monthly reporting is encouraged) following the quarter ending due dates below:

Period Covered	Due Date
Jan. 1 thru March 31	April 30
Apr. 1 thru June 30	July 31
July 1 thru Sept. 30	October 31
Oct. 1 thru Dec. 31	January 31

SEC. 5. FILING OF MAGNETIC MEDIA REPORTS

.01 Packaging, shipping, and mailing instructions will be provided by the Service to all approved filers within 45 days of the granting of approval. A magnetic tape reporting package, which includes all necessary transmittals and labels, will be mailed to all approved filers.

.02 Employers or transmitters may submit a portion of their Forms W-4 information on magnetic tape and the remainder on paper forms, provided there is NO DUPLICATE FILING. A cover letter that includes the employer's name, address, employer identification number, and number of Forms W-4 being submitted must accompany all paper Forms W-4 sent to the Service. Form 6466, Transmittal of Magnetic Tape of Form W-4, Employee's Withholding Allowance Certificate, must be used to transmit magnetic tape shipments.

.03 The affidavit that appears on Form 6466 for tape submission must be signed by the employer, the transmitter, service bureau, or disbursing agent who must:

(a) have the authority to sign the affidavit under an agency agreement (either oral, written, or implied) that is valid under State law; and

(b) have the responsibility (either oral, written, or implied) conferred on it by the employer to request taxpayer identification numbers of employees reported on magnetic tape or paper returns; and

(c) sign the affidavit and add the caption "For: (name of employer)."

.04 Although a duly authorized agent signs the affidavit, the employer is held responsible for the accuracy of Forms W-4 contained on magnetic tape.

.05 EMPLOYERS MUST SEND PAPER FORMS W-4 WITH THE REQUIRED COVER LETTER TO THE INTERNAL REVENUE SERVICE CENTER TO WHICH THEY FILE FORMS 941. Magnetic Media files must be submitted to the Internal Revenue Service National Computer Center in Martinsburg, WV, as prescribed in Part A, Sec. 8.

SEC. 6. PROCESSING OF MAGNETIC MEDIA STATEMENTS

.01 THE MAGNETIC TAPE SPECIFICATIONS CONTAINED IN PART B OF THE REVENUE PROCEDURE MUST BE STRICTLY ADHERED TO. If files are unprocessable, they will be returned to the filer for correction and resubmission of tapes or for submission of copies of paper Forms W-4. Corrected files must be submitted to the Service as soon as possible. If the delay will be more than two weeks, contact the magnetic media coordinator for instructions.

.02 The Service will process the information from the original tapes and will return the original tapes to the employer. Normally tapes will be returned either within three months after the quarterly due date for submission to the Service or within three months after actual receipt of acceptable tapes, whichever is later.

SEC. 7. EFFECT ON PAPER DOCUMENTS

.01 Magnetic tape reporting to the Service eliminates the need to submit copies of paper Forms W-4. However, employers must maintain the original Forms W-4 for their records.

.02 If part of the Forms W-4 are reported on magnetic tape and the remainder are reported on paper forms, those paper statements must be filed on the prescribed forms.

SEC. 8. ADDITIONAL INFORMATION

.01 Beginning JANUARY 1, 1986, magnetic media processing for all service centers will be centralized at the Internal Revenue Service National Computer Center in Martinsburg, WV. Functions previously performed by the magnetic media coordinators at the service centers will be performed at the National Computer Center.

.02 All magnetic media files forwarded on or after JANUARY 1, 1986, must be submitted to the Internal Revenue Service National Computer Center at the address shown below. In addition, all correspondence or contacts regarding magnetic media related forms, publications, information and applications for reporting on magnetic media must be directed to:

Magnetic Media Reporting
P.O. Box 1359
Internal Revenue Service
National Computer Center
Martinsburg, WV 25401-1359

.03 Only MAGNETIC MEDIA reporting is to be submitted to the National Computer Center. ALL PAPER FORMS W-4 WILL CONTINUE TO BE SENT TO THE APPROPRIATE SERVICE CENTER.

PART B—MAGNETIC TAPE SPECIFICATIONS

SECTION 1. GENERAL

.01 These specifications prescribe the required format and content of the records to be included in the file but not the methods or equipment to be used in their preparation. Usually, the Service will be able to process, without translation, any compatible tape file. To be compatible, a tape file must meet all of the following specifications:

(a) Type of tape—½ inch Mylar base, oxide coated

(b) Interrecord Gap—¾ inch

(c) Recording Code—9 track ASCII (American Standard Coded Information Interchange) with:

(1) Odd parity, and

(2) A density of 800, 1600, or 6250 BPI (bits per inch).

.02 Conversion facilities are currently available for the following tapes:

(a) Recording Code—9 track EBCDIC (Extended Binary Coded Decimal Interchange Code) with:

(1) Odd parity, and

(2) A density of 800, 1600, or 6250 BPI.

(b) Recording Code—7 track BCD (Binary Coded Decimal) with:

(1) Even or odd parity, and

(2) A density of 556 or 800 BPI.

.03 The employer or the transmitter must affix an external label to each tape with the following information:

(a) Name of transmitter

(b) Number of data records on that reel

(c) Recording Code (ASCII, EBCDIC or BCD)

(d) Density (556, 800, 1600, or 6250 BPI)

(e) Track (7 or 9)

(f) Parity (odd or even)

(g) Manufacturer and model of main frame and tape drives

(h) Sequence number of reel and total number of reels in the file (for example, 1 of 3, 2 of 4)

.04 All records, including Header and Trailer Labels (if used), must be transmitted at the same density.

.05 Do not submit an employee W-4 record without the required employer identification information. Every record must contain both employee and employer data.

SEC. 2. LABEL CONVENTIONS

.01 Header Labels, Trailer Labels,

Record Marks, and Tape Marks are all optional. They may be used as required by the transmitter's equipment or programming. If used they must conform to the following standards:

(a) Header Labels

(1) Transmitters may use standard headers, provided they begin with 1HDR, HDR1, VOL1 or VOL2.

(2) Header labels may not exceed 80 characters in length.

(b) Trailer Labels

(1) Standard trailer labels may be used provided that they begin with 1EOR, 1EOF, EOR1, or EOF1.

(2) Trailer labels may not exceed 80 characters in length.

(c) Record Marks

(1) Special character used to separate blocked records on tape.

(2) Can be written only at the end of a record or block.

(3) All records are of uniform length; therefore, record marks are not necessary on this file. However, if you choose to use record marks, for odd parity tapes, use BCD bit configuration of 011010—for even parity, use 111010.

(d) Tape Marks

(1) Used to signify the physical end of the recording on tape.

(2) Tape marks, if used, must be BCD configuration 001111 in even parity.

(3) May follow the header label and precede and/or follow the trailer label.

SEC. 3. RECORD LENGTH AND BLOCKING

.01 Tape records prescribed in the specifications may be blocked or unblocked, subject to the following:

(a) All data records are of a fixed length of 320 positions.

(b) All records may be blocked, except header and trailer labels.

(c) If blocking is used (more than one record per block), the desired blocking factor is ten records per block. At no time may a block contain more than 3,200 characters, but a smaller block size may be used if necessary. If sufficient records are not available for a full block, the remainder should be "padded" with 9s to fill all unused positions. Do not pad the block with blanks or create blank records.

RECORD NAME: W-4 MAGNETIC TAPE RECORD

Tape Position	Field Title	Length	Description and Remarks
1-9	Employee Social Security Number (SSN)	9	Required. Must be the valid 9-digit number assigned to the employee. DO NOT ENTER HYPHENS, ALPHA CHARACTERS, ALL 9s or ALL ZEROES.
10-44	Employee Name Line 1	35	Required. Enter the name of the employee whose SSN appears in tape positions 1-9. Enter the complete name in the following order: first name, middle name (if present), and surname. (Use initials for the first and middle names where necessary to insure that the entire employee surname fits in tape positions 10-44.) If fewer than 35 characters are required, left justify and fill unused positions with blanks. ALLOWABLE CHARACTERS ARE ALPHAS, HYPHENS, BLANKS, A MINIMUM OF ONE AND A MAXIMUM OF TWO CARETS (<). (1) A blank must be surrounded by alphas or continued to the end of the field (for example, ab̸ . . . b̸, ab̸a). (2) Hyphens must be surrounded by alphas and must never occur in the first position of a name unless immediately followed by a caret. A hyphen in the first position is to identify an employee with surname only. (3) A caret is used to define an internal name control. It must immediately precede the employee surname in place of the blank. A second caret is used to separate a suffix from the surname (for example, JOHN J.<BLACK; BILL<OAK<JR; AMY FERN<BROWN<DECD).
45-79	Employee Name Line 2	35	Optional. This line is designated for an "in care of" (℅) situation. Left justify and fill with blanks. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AMPERSANDS, HYPHENS, AND SLASHES. Note: Same exceptions as mentioned in employee name line 1. A percent sign (%) is not valid—use ℅ if necessary.

RECORD NAME: W-4 MAGNETIC TAPE RECORD—(Continued)

Tape Position	Field Title	Length	Description and Remarks
80-114	Employee Street Address	35	Required. Enter street address of employee. Left justify and fill unused positions with blanks. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AMPERSANDS, HYPHENS AND SLASHES. Position one is an alpha or numeric; hyphens and slashes are surrounded by alphas; ampersands are surrounded by blanks.
115-139	Employee City	25	Required. Enter city of employee. Left justify and fill unused positions with blanks. If foreign address, enter city and country. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AND HYPHENS. Position one is an alpha or numeric; hyphens are surrounded by alphas or numerics.
140-141	Employee State	2	Required. Enter the two character state code of employee—must be one of the following:

State	Code
Alabama	AL
Alaska	AK
Arizona	AZ
Arkansas	AR
California	CA
Colorado	CO
Connecticut	CT
Delaware	DE
District of Columbia	DC
Florida	FL
Georgia	GA
Guam	GU
Hawaii	HI
Idaho	ID
Illinois	IL
Indiana	IN
Iowa	IA
Kansas	KS
Kentucky	KY
Louisiana	LA
Maine	ME
Maryland	MD
Massachusetts	MA
Michigan	MI
Minnesota	MN
Mississippi	MS
Missouri	MO
Montana	MT
Nebraska	NE
Nevada	NV
New Hampshire	NH
New Jersey	NJ
New Mexico	NM
New York	NY
North Carolina	NC
North Dakota	ND
Ohio	OH
Oklahoma	OK

RECORD NAME: W-4 MAGNETIC TAPE RECORD—(Continued)

Tape Position	Field Title	Length	Description and Remarks	
			Oregon	OR
			Pennsylvania	PA
			Puerto Rico	PR
			Rhode Island	RI
			South Carolina	SC
			South Dakota	SD
			Tennessee	TN
			Texas	TX
			Utah	UT
			Vermont	VT
			Virgin Islands	VI
			Virginia	VA
			Washington	WA
			West Virginia	WV
			Wisconsin	WI
			Wyoming	WY
			Foreign Address	XX
142-146	Employee ZIP Code	5	Required. Enter ZIP Code of employee. Fill with blanks if unavailable. ALLOWABLE CHARACTERS ARE FIVE (5) NUMERICS OR FIVE (5) BLANKS. Enter first five (5) digits if more than five digits are present. Blank fill *only* if you are unable to ascertain the ZIP Code.	
147	Marital Status	1	Required. Enter appropriate code from the table below:	
			Marital Status Designated	Code
			Single	S
			Married	M
			Married, withhold at single rate	W
			No marital status designated	A
148	Exempt Status	1	Required. Enter "E" if employee claims exempt status; otherwise, blank.	
149	Student Status	1	Required. If full-time student status is claimed, enter the alpha "Y"; if not, or no entry, enter blank.	
150-151	Allowances	2	Required. Must be a two (2) digit numeric field corresponding to the number of allowances claimed by employee. (It is not necessary to file this W-4 with the Service if the number of allowances is less than fifteen (15) and exempt status is not claimed.) If no entry, or employee claimed exempt status, enter blanks. If entry is greater than 99, enter 99.	
152-158	Additional Amount of Withholding	7	Required. Enter numerics only. Enter the additional amount of withholding each pay period. Field is dollars and cents. Right justify and zero fill. Do not enter dollar signs, commas, decimal points, or negative numbers. If no entry, zero-fill.	
159-164	W-4 Date	6	Required. Enter date located on signature line of W-4. If no date entered, generate current system date. Format as MMDDYY where MM = 01-12, DD = 01-31, and YY = 82, 83, etc. Exempt Status W-4 (1983 and subsequent)—Compare "year effective date" on Line 6B to signature date. If year entered on Line 6B is later than signature date, use W-4 date as a 01/01 receipt for

			subsequent calendar year (e.g., Line 6B of Form W-4 shows an exempt status date of 1984 but signature date is 10/30/83, use 01/01/84 as Form W-4 date.)
165-173	Employer Identification Number	9	Required. The 9 digit number assigned to the employer by IRS. DO NOT ENTER HYPHENS, ALPHA CHARACTERS, ALL 9s or ALL ZEROES.
174-208	Employer Name Line 1	35	Required. Enter the name of the employer as it appears on your employment tax forms (e.g., Form 941). Any extraneous information must be deleted from this name line. Left justify and fill with blanks. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AMPERSANDS, HYPHENS AND SLASHES. Position one is an alpha or numeric; hyphens and slashes are surrounded by alphas—ampersands are surrounded by blanks.
209-243	Employer Name Line 2	35	Optional. If the employer name requires more space than is available in Employer Name Line 1, enter the remaining portion of the name in this field. Left justify and fill with blanks. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AMPERSANDS, HYPHENS, AND SLASHES. Position one is an alpha or numeric; hyphens and slashes are surrounded by alphas—ampersands are surrounded by blanks.
244-278	Employer Street Address	35	Required. Enter street address of employer. Left justify and fill unused positions with blanks. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AMPERSANDS, HYPHENS, AND SLASHES. Position one is an alpha or numeric; hyphens and slashes are surrounded by alphas—ampersands are surrounded by blanks.
279-303	Employer City	25	Required. Enter city of employer. Left justify and fill unused positions with blanks. If foreign address, enter city and country. ALLOWABLE CHARACTERS ARE ALPHAS, BLANKS, NUMERICS, AND HYPHENS. Position one is an alpha or numeric, hyphens are surrounded by alphas; blanks are surrounded by alphas or numerics or continued to the end of the field.
304-305	Employer State	2	Required. Enter State Code of Employer. Must be one of the state abbreviations shown above in the state abbreviation table for Employee State (Tape Positions 140-141).
306-310	Employer ZIP Code	5	Required. Enter ZIP Code of Employer. ALLOWABLE CHARACTERS ARE FIVE (5) NUMERICS OR FIVE (5) BLANKS. Enter first five (5) digits if more than five digits are present. Blank fill *only* if you are unable to ascertain Employer's ZIP Code.
311-315	Transmitter Control Code	5	Required. Enter 5-digit Transmitter Control Code (TCC) assigned by the Service.
316	"BLANK" Representation	1	Required. Enter character used to represent a blank.

RECORD NAME: W-4 MAGNETIC TAPE RECORD—(Continued)

Tape Position	Field Title	Length	Description and Remarks
317	"HYPHEN" Representation	1	Required. Enter character used to represent a hyphen.
318	"SLASH" Representation	1	Required. Enter character used to represent a slash.
319	"AMPERSAND" Representation	1	Required. Enter character used to represent an ampersand.
320	"CARET" Representation	1	Required. Enter character used to represent a caret.

Rev. Proc. 84-41 is superseded.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Recapture of Overall Foreign Losses

LR-3-77

SUMMARY: This document contains proposed regulations relating to the recapture of overall foreign losses. Changes to the applicable tax law were made by the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1]. These regulations provide the public with the guidance needed to comply with that Act and would affect all taxpayers receiving income from sources without the United States.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 25, 1986. The amendments are proposed to be effective in general for taxable years ending after December 31, 1975, except for the amendments under paragraph 2, which are proposed to be effective for taxable years for which the due date (without extensions) for filing returns is after [DATE THAT IS 30 DAYS AFTER THE DATE THESE REGULATIONS ARE PUBLISHED IN THE FEDERAL REGISTER AS FINAL REGULATIONS].

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-3-77), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Nerman D. Hubbard of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (LR-3-77), (202) 566-3289, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 904 (f) of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to section 1032 of the Tax Reform Act of 1976 (90 Stat. 1624) [Pub.L. 94-455, 1976-3 C.B. (Vol. 1) 1, 100] and are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917, 26 U.S.C. §7805). The amendments under paragraph 2 are also to be issued under the authority contained in section 1502 of the Internal Revenue Code (68A Stat. 637, 26 U.S.C. §1502).

STATUTORY PROVISIONS

In 1975, Congress enacted section 907 containing a separate overall foreign tax credit limitation for foreign oil related income. This new separate limitation (section 907(b)) required that foreign oil related income and expenses and deductions related thereto be kept separate from other types of foreign source taxable income and that the provisions of section 904 be applied separately to foreign oil related income. It thus prevented the averaging of taxes on foreign oil related income with taxes on other types of foreign source income and required foreign oil related losses to offset U.S. source income instead of other foreign source income. At the same time, Congress was also concerned about the potential double benefit of having foreign oil related losses offset U.S. source income in one year (as a result of the new limitation) and having the foreign tax credit reduce U.S. tax on foreign oil related income in a subsequent tax year. As a consequence, Congress provided for the recapture of foreign oil related losses under section 907(f).

Recognizing that the same double benefit could occur when non-oil related foreign source losses offset U.S. source income, Congress broadened its original recapture rule to cover other foreign source losses by enacting section 904(f) in the Tax Reform Act of 1976. It also consolidated all of the overall foreign loss recapture rules into section 904(f) by repealing section 907(f) and providing a separate definition of foreign oil related losses in section 904(f)(4).

Section 904(f) provides that a taxpayer that sustains an overall foreign loss in any taxable year beginning after December 31, 1975, or a foreign oil related loss in any taxable year ending after December 31, 1975 (and beginning before January 1, 1983), is required to recapture such loss in a succeeding taxable year in which it seeks the benefits of the foreign tax credit under section 901 or the Puerto Rico and possession tax credit under section 936. Recapture is accomplished by recharacterizing a portion of the taxpayer's foreign source taxable income as U.S. source income for purposes of the foreign tax credit limitation under section 904 and the allowable possession tax credit under section 936(a)(1). The effect of such recharacterization is a reduction in the taxpayer's foreign tax credit limitation or possession credit. Such reduction occurs annually until such time as the entire overall foreign loss has been recaptured.

EFFECT OF SEPARATE LIMITATIONS ON SECTION 904(f)

When Congress repealed section 907(f) and added the separate definition of a foreign oil related loss to section 904(f), it evidenced its intent that foreign oil related losses were to be determined separately without regard to other types of foreign source taxable income. It did not, however, enact a separate recapture provision for foreign oil related losses. This was unnecessary because the separate limitation for foreign oil related income under section 907(b) required the separate application of all the provisions of section 904, including 904(f), to foreign oil related income. Thus, a foreign oil related loss, as defined in section 904(f)(4) (prior to September 3, 1982), is to be recaptured by applying the recapture rules of section 904(f) separately to foreign oil related income.

Even if Congress had not included a separate definition of a foreign oil related loss in section 904(f)(4), the separate determination of foreign oil related losses and the recapture of such losses only out of foreign oil related income is consistent with the operative effect of the separate limitation for foreign oil related income. Such limitation required that foreign oil related income and expenses and deductions properly allocated and apportioned thereto be placed in a separate basket. The fact that the netting of foreign oil related income and expenses in the basket results in a loss does not change the fact that the foreign oil related basket must be kept separate from other baskets. Accordingly, foreign oil related losses are determined without regard to foreign source income or losses subject to another separate limitation. (The separate limitation for foreign oil related income was repealed in 1982; transitional rules are discussed below.)

Similarly, the separate limitations for certain interest income (section 904(d)(1)(A)), DISC dividend income (section 904(d)(1)(B)), foreign trade income (section 904(d)(1)(C)), distributions from a FSC (section 904(d)(1)(D)), and other foreign source income (section 904(d)(1)(E)), require a determination of taxable income (or loss) under each separate limitation without taking into consideration foreign source income and deductions subject to another separate limitation. In addition, section 936 requires a qualifying corporation to make separate determinations of its foreign taxable income from sources within a possession (income eligible for the section 936 credit) and other foreign source taxable income (income eligible for the section 901 credit). It thus creates another separate limitation.

As a consequence, for purposes of section 904(f), there are seven types of overall foreign losses, one under each of the above mentioned separate limitations. For instance, there can be an overall foreign "interest income" loss, an overall foreign "DISC dividend" loss, an overall "foreign trade income" loss, and overall "FSC distributions" loss, an overall "other" foreign loss, an overall foreign oil related loss, and an overall foreign "section 936" loss. For purposes of recapture it is necessary and consistent with the concept of the separate limitations that any overall foreign loss under a separate limitation be recaptured only out of foreign source taxable income subject to such separate limitation.

DETERMINATION OF OVERALL FOREIGN LOSSES

Section 1.904(f)-1(c) of the proposed regulations sets forth rules for determining a taxpayer's overall foreign losses in any taxable year. Generally, a taxpayer sustains an overall foreign loss in any taxable year in which its gross income from sources without the United States is exceeded by the sum of the deductions properly allocated or apportioned to such income. However, this is determined separately with respect to each of the seven separate limitations discussed above. For example, a taxpayer sustains an overall "other" foreign loss under the section 904(d)(1)(E) separate limitation in any taxable year in which its gross income subject to such separate limitation is exceeded by the sum of the deductions properly allocated and apportioned thereto. Thus, a taxpayer may have an overall foreign loss under its section 904(d)(1)(E) limitation in the same taxable year in which it has foreign DISC dividend income subject to the section 904(d)(1)(B) limitation which exceeds the sum of the deductions properly allocated or apportioned thereto.

THE OVERALL FOREIGN LOSS ACCOUNTS

A taxpayer sustaining any type of overall foreign loss is required under §1.904(f)-1(b) to establish an overall foreign loss account. A taxpayer is required to make additions and reductions to the account as specified in §1.904(f)-1(d) and (e). Generally, the amount of overall foreign loss sustained in the taxable year is added to the overall foreign loss account. In subsequent taxable years in which the loss is recaptured, the amount recaptured is subtracted from such account. Thus, the balance in an overall foreign loss account represents the amount of an overall foreign loss which is subject to recapture. Separate overall foreign loss accounts must be established for losses under each separate limitation.

"BENEFIT" RULE

Although a literal reading of the statute would require recapture of any overall foreign loss, these regulations adopt a tax benefit rule that limits recapture to those overall foreign losses which offset U.S. source income. Thus, in a taxable year in which the taxpayer has no U.S. source income, the exact amount of an overall foreign loss that will be subject to recapture can only be determined after application of the net operating loss deduction rules. To the extent that such foreign source net operating loss offsets foreign source taxable income in the year to which it is carried, there will be no recapture. The "benefit" concept is accomplished under §1.904(f)-1(d)(1) by providing that overall foreign losses are added to the overall foreign loss account only to the extent that they reduce U.S. source income. A similar "benefit" rule is provided for an overall foreign loss that is part of a net capital loss. As a result, an overall foreign capital loss is only recapturable to the extent it offsets U.S. source capital gain net income.

Paragraphs (d)(2) and (3) provide for further adjustments to the amount of overall foreign loss to be added to the applicable account if such amount includes net capital losses. A corporate taxpayer's foreign source net capital loss is reduced by the rate differential between the highest U.S. tax rate on ordinary income under section 11 and the U.S. tax on net capital gain under section 1201(a) before being added to the overall foreign loss account. A noncorporate taxpayer's foreign source net capital loss is reduced by the amount deducted from gross income under section 1202. These reductions are made in order to reflect the lower U.S. tax rate with respect to net capital gains, and thereby to take into account the actual benefit received by the taxpayer from foreign source capital losses that are subject to recapture.

EFFECT OF SECTION 904(b) ADJUSTMENTS ON TREATMENT OF FOREIGN CAPITAL LOSSES AS OVERALL FOREIGN LOSS

When a taxpayer's capital gain net income is reduced by foreign net capital losses, section 904(b) requires the numerator of the taxpayer's foreign tax credit limitation fraction to be reduced by the amount of the reduction in capital gain net income. To the extent that the reduction of capital gain net income is a reduction of U.S. source net capital gain, a further adjustment is made to the numerator of the foreign tax credit limitation fraction to reflect the tax rate differential between ordinary income and net capital gain. If these reductions of the numerator result in a reduction of foreign source taxable income (but not below zero), then, to that extent, the foreign capital loss is already being recaptured for purposes of the foreign tax credit, because the foreign tax credit limitation is already being reduced. Therefore, the amount of the foreign capital losses will not be treated as a recapturable overall foreign loss to the extent of the reduction of foreign source taxable income in the numerator of the foreign tax credit limitation fraction.

RECAPTURE OF OVERALL FOREIGN LOSSES

Section 1.904(f)-2 provides rules for determining the amount of an overall foreign loss subject to recapture in a given year, and for calculating the recapture. In general, the taxpayer is required to recapture a portion of any overall foreign loss equal to the lesser of the balance in the applicable overall foreign loss account or 50 percent of its foreign source taxable income subject to the separate limitation under which the loss arose. Recapture is accomplished by recharacterizing such foreign source taxable income as U.S. source income for purposes of the foreign tax credit limitation fraction. Section 1.904(f)-2(b) provides an ordering rule for determining the amount of a taxpayer's foreign source taxable income for purposes of recapture. Only the amount of foreign source income in the numerator of the foreign tax credit limitation fraction after making the adjustments required under section 904(a) and section 904(b) is subject to recapture. If this ordering rule were not applied, the overall foreign loss account would be reduced by recapturing amounts that were, in effect, already recaptured under other provisions, and thus should not be subject to recapture. Section 1.904 (f)-2(c)(2) provides that a taxpayer may elect to recapture a greater portion of any overall foreign loss than is required by statute. If the taxpayer has foreign source taxable income subject to a separate limitation other than the limitation under which the loss arose, such income is not taken into account in determining the amount of overall foreign loss to be recaptured in such year, nor is such other income subject to recharacterization. Therefore, a taxpayer's DISC dividend income subject to the section 904(d)(1)(B) limitation is not taken into account in determining how much of an overall foreign loss under the section 904(d)(1)(E) limitation is subject to recapture, nor is such income recharacterized for purposes ,of recapturing the section 904(d)(1)(E) overall foreign loss.

RELATIONSHIP OF RECAPTURE TO FOREIGN SOURCE CAPITAL GAIN

Foreign source capital gain net income is included in the foreign tax credit limitation fraction, and is therefore included in foreign source taxable income for purposes of recapture. The ordering rule for determining the amount of foreign source taxable income subject to recapture incorporates the section 904(b) adjustments for the tax rate differential between ordinary income and net capital gain. These adjustments have also been made in determining the amount of overall foreign loss that has been added to the applicable account. Thus, when recapture is applied to foreign source taxable income in the numerator of the limitation fraction, it applies to ordinary income and capital gain simultaneously.

DISPOSITION RULE

Section 1.904(f)-2(d) sets forth rules for recapturing an overall foreign loss in a taxable year in which a taxpayer disposes of property used predominantly outside of the United States in a trade or business. Under section 904(f)(3), a taxpayer making such a disposition is required to recapture an amount of any overall foreign loss equal to the lesser of the taxpayer's remaining overall foreign loss or 100 percent of the foreign source taxable income realized on such disposition.

The rules contained in §1.904(f)-2(d) apply regardless of whether or not the taxpayer actually recognized gain on such disposition. In the case of a disposition of property in which gain is recognized irrespective of §1.904(f)-2(d), paragraph (d)(3) provides that the general recapture rule of §1.904(f)-2(c) is applied prior to applying the special recapture rule for dispositions. If the taxpayer makes a disposition of property from which gain would otherwise not be recognized in that taxable year, §1.904(f)2(d)(4) provides that the taxpayer will be deemed to have recognized gain to the extent of the lesser of: (1) the balance in its overall foreign loss account (plus any overall foreign loss that is part of a net operating loss carryover from a prior year, or that would otherwise be part of a net operating loss for the year of the disposition), or (2) the excess of the fair market value of the property over its adjusted basis. The accelerated recapture rules of §1.904(f)–2(d) are applied first to dispositions in which gain is recognized irrespective of such section, and then to dispositions in which gain is deemed recognized by application of section 904(f)(3) and §1.904(f)-2(d)(4). The ordering rule of §1.904(f)-2(b) applies to determine the amount of gain which is deemed to be recognized, and which therefore will be recaptured. Since this ordering rule is applied before recapture, in some circumstances the application of section 904(b)(3) will recharacterize foreign source gain as U.S. source gain after it has been deemed to be recognized under section 904(f)(3) and §1.904(f)-2(d)(4), but before such gain can be recaptured under §1.904(f)-2(a). If this occurs in a case where the gain would not be recognized but for the application of section 904(f)(3), the overall foreign loss account will, nevertheless, be reduced by the amount of the gain deemed recognized even though the gain was not recharacterized by section 904(f).

Section 1.904(f)-2(d)(5) provides definitions of relevant terms.

SPECIAL RULES FOR NET OPERATING LOSS AND CAPITAL LOSS CARRYBACKS AND CARRYOVERS

Section 904(f)(2) defines an overall foreign loss as the amount by which the gross income for the taxable year from sources without the United States is exceeded by the deductions properly apportioned or allocated thereto. This definition includes not only amounts that reduce income from sources within the United States in the taxable year of the loss, but also amounts that, in carryback and carryover years, reduce income from sources both within and without the United States. Thus, under the statute, all such amounts are overall foreign losses in the loss year and are subject to recapture. In view of this, a foreign source loss that is part of a net operating loss deduction in a taxable year to which carried back or over should not be included in the determination of overall foreign loss for such year because it was included in the overall foreign loss for the year in which it arose. To prevent double counting of such a foreign source loss, section 904(f)(2)(A) specifically excludes net operating loss deductions from the determination of overall foreign losses in carryback or carryover years.

However, these proposed regulations take the position that a foreign source loss cannot be considered an overall foreign loss that is subject to recapture (and, therefore, included in the overall foreign loss account) unless it has reduced income from sources within the United States either in the loss year or in a carryback or carryover year. This position is more liberal than the rule under section 904(f)(2)(A), which would also reduce the foreign tax credit "benefit" in situations in which there has been no counter-vailing benefit to the taxpayer, i.e., the loss did not reduce its U.S. source income. To implement Congress' intent to prevent a double benefit in such a way as to avoid creating a detriment, these proposed regulations consider a foreign source loss to be an overall foreign loss (and thus added to the overall foreign loss account in the loss year) only to the extent that it has reduced U.S. source income in the loss year or in carryback years. Since the losses which are carried forward cannot be determined to have reduced U.S. source income until income in those years has been determined, the net operating loss rules must be applied. If the foreign source loss reduces U.S. source income in those carryforward years, it is added to the overall foreign loss account to that extent in those years. Section 1.904(f)-3 provides that net operating loss and net capital loss carrybacks and carryforwards from foreign source losses are first allocated to foreign source income, which does not give rise to overall foreign losses subject to recapture. This allocation is consistent with the rules applied in *Motors Insurance Corp. v. United States*, 530 F.2d 864 (Ct. Cl. 1976). To the extent that these losses exceed foreign source income in the year to which carried, they are allocated to U.S. source income in that year and are subject to recapture to the same extent as if they had reduced U.S. source income in the year in which they arose.

RECAPTURE OUT OF ACCUMULATION DISTRIBUTIONS OF A FOREIGN TRUST

Section 1.904(f)-4 provides rules for recapture of overall foreign losses out of accumulation distributions of a foreign trust. A taxpayer receiving accumulation distributions that are deemed distributed in preceding years under section 666 first applies the general recapture rules of §1.904(f)-2 to its other foreign source income, after which the amounts of foreign source taxable income deemed distributed in prior years are subject to recapture to the extent of 100 percent of such income or the remaining balance in the overall foreign loss account, if less. An exception from recapture is provided for income deemed distributed in a year for which the taxpayer elects under section 667(d)(1)(B) to deduct, rather than credit, foreign taxes deemed distributed with respect to accumulation distribution.

RECAPTURE OF FOREIGN LOSSES OF DOMESTIC TRUSTS

Section 1.904(f)-5 provides special rules for recapturing overall foreign losses of a domestic trust. In general, the rules of §§1.904(f)-1 through 1.904(f)-4 apply to domestic trusts, except that if foreign source taxable income subject to the separate limitation under which the trust's overall foreign loss arose is distributed to beneficiaries, a portion of the amount of the trust's loss to be recaptured in such year will be allocated to the beneficiaries receiving such income. The overall foreign loss of a trust so allocated to a beneficiary is recaptured by the beneficiary in the same year, in accordance with the rules of §1.904(f)-1 through §1.904(f)-4. If such trust distributes its income in whole or in part, paragraph (c) provides rules for apportioning the amount of the overall foreign loss subject to recapture in that taxable year between the trust and the beneficiaries.

REPEAL OF SEPARATE LIMITATION FOR FOREIGN OIL RELATED INCOME

Section 211 of the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462, 484] repealed the separate limitation for foreign oil related income contained in section 907(b). As a consequence, for taxable years beginning after December 31, 1982 there will no longer be a separate basket of foreign oil related income and no separately determined foreign oil related loss. Instead, foreign oil related income and deductions properly allocated and apportioned thereto are to be netted with other foreign source income subject to the section 904(d)(1)(E) limitation for purposes of determining the amount of foreign source taxable income or overall foreign loss under this limitation.

Section 211 of TEFRA also provided a transitional rule for recapture of pre-1983 foreign oil related and non-oil related losses out of post-1982 section 904(d)(1)(E) foreign source taxable income (which includes foreign oil related income). The transitional rule provides that a pre-1983 foreign source non-oil related loss may not be recaptured out of post-1982 foreign oil related income more rapidly than ratably over an 8-year period (or such shorter period as the taxpayer may select). Likewise, a pre-1983 foreign oil related loss may not be recaptured out of post-1982 non-oil related income more rapidly than ratably over an 8-year (or shorter) period. Section 1.904(f)-6 provides transitional rules for recapturing pre-1983 section 904(d)(1)(E) overall foreign losses and section 907(b) overall foreign losses (foreign oil related losses) out of taxable income subject to the section 904(d)(1)(E) limitation in taxable years beginning after December 31, 1982.

CONSOLIDATED OVERALL FOREIGN LOSSES

Section 1.1502-9(a) requires affiliated corporations filing consolidated returns to calculate their overall foreign losses on a consolidated basis and requires the establishment of consolidated overall foreign loss accounts. It also provides rules for allocating an overall foreign loss sustained by a member of the group in a separate return year or a separate return limitation year to a consolidated overall foreign loss account when such corporation joins in filing a consolidated return. Once the consolidated overall foreign losses have been determined, the rules contained in §1.904(f)-1 through 1.904(f)-6 are applied to recapture such losses. Section 1.1502-9(c) requires that individual members of an affiliated group keep separate notional loss accounts reflecting their portion of any consolidated overall foreign losses. Such notional accounts are reduced, when the consolidated overall foreign losses are recaptured, by the pro rata share (of the total amount recaptured) of each member that contributed to the consolidated overall foreign loss. Further, §1.1502-9 provides rules for allocating a portion of the balance in any consolidated overall foreign loss account to a member that leaves the group before such balance has been fully recaptured. This section also provides rules for recapturing an overall foreign loss that was incurred in a member's separate return limitation year. Such a loss is only recaptured to the extent of the foreign source taxable income of the member that incurred the loss. Finally, this section provides rules for recapturing a consolidated overall foreign loss in taxable years in which the excess loss account of a member is triggered.

Section 1.1502-9 of these proposed regulations provides for recapture of an overall foreign loss which arose in a separate return limitation year only from the separate foreign taxable income of the member of the consolidated group which incurred such overall foreign loss. The appropriateness of this position and whether there should be a recapture of such losses from the consolidated foreign taxable income, rather than solely from the separate foreign taxable income of the member of the consolidated group which sustained the loss will be considered in the final regulations. Taxpayers are invited to comment as to whether the rule in the proposed regulations is the correct one, or whether the alternative, which would recapture an overall foreign loss from a separate return limitation year from consolidated foreign taxable income, is the more appropriate rule.

DRAFTING INFORMATION

The principal author of these proposed regulations is David J. Dean formerly of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

The collection of information requirements contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on these requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on these requirements to OMB also send copies of those comments to the Service.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public comment procedural requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6). The Commissioner of Internal Revenue has determined that this proposed rule is not a major regulation as defined in Executive order 12291 and therefore a regulatory impact analysis is not required.

* * * *

Proposed amendments to the regulations.

Accordingly, the proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority of Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * * Sections 1.904 (f)-2 and 1.1502-9 are also issued under 26 U.S.C. 904(f)(3)(B) are 26 U.S.C. 1502. * * *

Par. 2. The following new sections are added immediately following §1.904(b)-4 to read as set forth below:

§1.904(f)-1 Overall foreign loss and the overall foreign loss account.

(a) *Overview of regulations.* In general, section 904(f) and these regulations apply to any taxpayer that sustains an overall foreign loss (as defined in paragraph (c)(1) of this section) in a taxable year beginning after December 31, 1975. There can be seven types of overall foreign losses: an overall foreign loss under each of the five separate limitations contained in section 904(d)(1), a foreign oil related loss under the section 907(b) limitation (for taxable years ending after December 31, 1975 and beginning before January 1, 1983), and an overall foreign loss with respect to income subject to section 936. Section 1.904(f)-1 provides rules for determining a taxpayer's overall foreign losses, for establishing overall foreign loss accounts, and for making additions to and reductions of such accounts for purposes of section 904(f). Section 1.904(f)-2 provides rules for recapturing the balance in any overall foreign loss account under the general recapture rule of section 904(f)(1) and under the special recapture rule of section 904(f)(3) when the taxpayer disposes of property used predominantly outside the United States in a trade or business. Section 1.904(f)-3 provides rules for allocating overall foreign losses that are part of net operating losses or net capital losses to foreign source income in years to which such losses are carried. Section 1.904(f)-4 provides rules for recapture out of an accumulation distribution of a foreign trust. Section 1.904(f)-5 provides rules for recapture of overall foreign losses of domestic trusts. Section 1,904(f)-6 provides a transitional rule for recapturing a taxpayer's pre-1983 overall foreign losses under the section 904(d)(1)(C) and section 907(b) limitations, prior to their amendment by TEFRA, out of taxable income subject to the section 904(d)(1)(E) limitation (and its predecessor) in taxable years beginning after December 31, 1982. See §1.1502-9 for rules concerning the application of these regulations to corporations filing consolidated returns.

(b) *Overall foreign loss accounts.* Any taxpayer that sustains an overall foreign loss must establish an account for such loss. Separate types of overall foreign losses must be kept in separate accounts. The balance in any overall foreign loss account represents the amount of such overall foreign loss subject to recapture by the taxpayer in a given year. From year to year, amounts may be added to or subtracted from the balance in such account as provided in paragraphs (d) and (e) of this section. The taxpayer must report the balance in its overall foreign loss accounts annually on a Form 1116 or 1118 which is filed after these regulations are published as final regulations. The balance in each account does not have to be attributed to the year or years in which the loss was incurred.

(c) *Determination of a taxpayer's overall foreign loss*—(1) *Overall foreign loss defined.* A taxpayer sustains an overall foreign loss in any taxable year in which its gross income from sources without the United States subject to a separate limitation (as defined in paragraph (c)(2) of this section) is exceeded by the sum of the deductions properly allocated and apportioned thereto. Such losses are to be determined separately in accordance with the principles of the separate limitations. Accordingly, income and deductions subject to a separate limitation are not to be netted with income and deductions subject to another separate limitation for purposes of determining the amount of an overall foreign loss. A taxpayer may, for example, have an overall foreign loss under the section 904(d)(1)(E) limitation in the same taxable year in which it has taxable income under the section 904(d)(1)(B) limitation.

(2) *Separate limitation defined.* For purposes of paragraph (c)(1) of this section and these regulations, the term separate limitation means any of the separate limitations under section 904(d)(1)(A), (B), (C), (D), and (E); the separate limitation for foreign oil related income under section 907(b) (for taxable years ending after December 31, 1975 and beginning before January 1, 1983); or the separate limitation for the Puerto Rico and possession tax credit under section 936.

(3) *Method of allocation and apportionment of deductions.* In determining its overall foreign loss the taxpayer shall allocate and apportion expenses, losses, and other deductions to the appropriate category of gross income in accordance with section 862(b) and §1.861-8 of the regulations. However, the following deductions shall not be taken into account:

(i) The amount of any net operating loss deduction for such year under section 172(a); and

(ii) The amount of any—

(A) Expropriation losses for such year (as defined in section 172(h), or

(B) Loss for such year which arises from fire, storm, shipwreck, or other casualty, or from theft,

to the extent such loss is not compensated for by insurance or otherwise.

(d) *Additions to the overall foreign loss account*—(1) *General rule.* A taxpayer's overall foreign loss as determined under paragraph (c) of this section shall be added to the applicable overall foreign loss account at the end of its taxable year to the extent that the overall foreign loss has reduced U.S. source income during the taxable year or during a year to which the loss has been carried back. For rules with respect to carryovers see paragraph (d)(4) of this section and §1.904(f)-3.

(2) *Overall foreign net capital loss.* An overall foreign net capital loss shall be added to the overall foreign loss account at the end of the taxable year to the extent that the foreign source capital loss has reduced U.S. source capital gain net income during the current taxable year and during the years to which the loss has been carried back, subject to the adjustments in paragraph (d)(3) of this section. For rules with respect to carryovers, see paragraph (d)(5) of this section and §1.904(f)-3.

(3) *Adjustments.* The amount of overall foreign loss determined in paragraph (d)(1) of this section and the amount of overall foreign net capital loss determined in paragraph (d)(2) of this section shall be subject to the following adjustments:

(i) *Adjustment due to reduction in foreign source income under section 904(b).* A taxpayer's overall foreign loss account shall not include any net capital loss from sources without the United States to the extent that the application of section 904(b) would result in a reduction of foreign source taxable income (but not below zero) for purposes of the numerator of the foreign tax credit limitation fraction.

(ii) *Adjustment to account for rate differential between ordinary income rate and capital gain rate.* Subject to the provisions of paragraph (d)(3)(i) of this section, if an overall foreign loss for a taxable year includes an overall foreign net capital loss, such amount shall be reduced as follows, in accordance with the provisions of section 904(b), before being added to the overall foreign loss account:

(A) In the case of a corporate taxpayer, to the extent that the U.S. source capital gain net income reduced by the foreign source net capital loss consists of U.S. source net capital gain, by an amount equal to the rate differential portion (as defined in section 904(b)(3)(F) of the Code and the regulations thereunder) of the U.S. source net capital gain; or

(B) In the case of a taxpayer other than a corporate taxpayer, by 50 percent (for taxable years beginning prior to January 1, 1979) or 60 percent (for taxable years beginning after December 31, 1978) of the taxpayer's U.S. source net capital gain that is offset by such foreign source net capital loss.

(iii) *Illustrations.* The provisions of this paragraph (d)(3) may be illustrated by the following examples, which assume that all foreign source income and losses are under the section 904(d)(1)(E) separate limitation.

Example (1). V corporation has $1000 of foreign source taxable income and $500 of foreign source net capital loss which has reduced $500 of U.S. source capital gain net income (none of which is net capital gain). Under section 904(b), the numerator of V Corporation's foreign tax credit limitation fraction is reduced by $500 (see §1.904(b)-1(a)(3)). Under paragraph (d)(3)(i) of this section, none of that $500 goes into its overall foreign loss account.

Example (2). W Corporation has $1000 of foreign source taxable income and $2000 of foreign source net capital loss, which has reduced $2000 of U.S. source capital gain net income (all of which is U.S. source net capital gain). Under section 904(b), $1000 of W Corporation's foreign source net capital loss has reduced foreign source income in the numerator of the foreign tax credit limitation fraction (reducing the numerator to zero). As in example (1), that $1000 will not be included in W Corporation's overall foreign loss account. The additional amount of foreign source net capital loss which reduced U.S. source capital gain net income must be added to the overall foreign loss account. Since the U.S. source capital gain net income which was reduced by the foreign source net capital loss was net capital gain, a rate differential adjustment must be made under paragraph (d)(3)(ii) of this section before adding the overall foreign net capital loss to the account. The overall foreign loss is, therefore, $217.40 determined as follows. Under section 1.904(b)-1(a)(3) the $2000 foreign source net capital loss which has reduced $2000 of U.S. source net capital gain has resulted in a reduction in the numerator of the foreign tax credit limitation fraction of $1217.40

$$\frac{46.28}{(\$2000 - 46 \ (\$2000))}$$

$1000 of the $1217.40 will result in a reduction of foreign source taxable income (but not below zero) for purposes of the numerator of the foreign tax credit limitation fraction and is not included in the overall foreign loss account. Therefore $217.40 is included in the overall foreign loss account.

(4) *Overall foreign losses of another taxpayer.* If any portion of any overall foreign loss of another taxpayer is allocated to the taxpayer in accordance with §1.904(f)-5 (relating to overall foreign losses of domestic trusts) or §1.1502-9 (relating to consolidated overall foreign losses), the taxpayer shall add such amount to its applicable overall foreign loss account.

(5) *Loss carryovers.* Subject to the adjustments under paragraph (d)(3) of this section, the taxpayer shall add to the overall foreign loss account—

(i) All net operating loss carryovers to the current taxable year to the extent that overall foreign losses included in the net operating loss carryovers have reduced U.S. source income for the taxable year, and

(ii) All capital loss carryovers to the current taxable year to the extent that foreign source capital loss carryovers have reduced U.S. source capital gain net income for the taxable year.

(e) *Reductions of the overall foreign loss accounts.* The taxpayer shall subtract the following amounts from its overall foreign loss accounts at the end of its taxable year in the following order, if applicable:

(1) *Pre-recapture reduction for amounts allocated to other taxpayers.* The amount of any type of overall foreign loss which is allocated to another taxpayer in accordance with §1.904(f)-5 (relating to overall foreign losses of domestic trusts) or §1.1502-9 (relating to consolidated overall foreign losses).

(2) *Reduction for amounts recaptured.* The amount of any type of overall foreign loss which is recaptured in such year in accordance with §§1.904(f)-2(c) (relating to recapture under section 904(f)(1)), 1.904(f)-2(d) (relating to recapture when the taxpayer disposes of certain properties under section 904(f)(3)), and 1.904(f)-4 (relating to recapture when the taxpayer receives an accumulation distribution from a foreign trust under section 904(f)(4)).

(f) *Illustrations.* The rules of this section may be illustrated by the following examples.

Example (1). X Corporation is a domestic corporation with foreign branch operations in country C. X Corporation's taxable income and (losses) for its taxable year 1979 are as follows:

U.S. source taxable income	$1,000
Foreign source taxable income (loss) subject to section 904(d)(1)(E)	($500)
Foreign oil related income (loss) subject to section 907(b)	$200

X Corporation has a section 904(d)(1)(E) overall foreign loss of $500 for 1979 in accordance with paragraph *(c)*(1) of this section. Since the section 904(d)(1)(E) overall foreign loss is not considered to offset income under any other separate limitation described in paragraph (c)(1) of this section, it therefore offsets $500 of U.S. source taxable income. This amount is added to X Corporation's section 904(d) (1)(E) overall foreign loss account at the end of 1979 in accordance with paragraph (d)(1) of this section.

Example (2). X Corporation is a domestic corporation with foreign branch operations in country C. For its taxable year 1980, X Corporation has a net operating loss of $1250, determined as follows:

U.S. source tax income (loss)	($250)
Foreign source taxable income (loss) subject to section 904(d)(1)(E)	($1000)

The only prior year to which the net operating loss can be carried under section 172 is 1977. For its taxable year 1977, X Corporation had the following taxable income:

U.S. source taxable income	$1,900
Foreign source taxable income subject to section 904(d)(1)(E)	$400

X Corporation has a section 904(d)(1)(E) overall foreign loss for 1980 of $1,000. X Corporation's overall foreign loss is part of a net operating loss of $1,250 for 1980. Since, in accordance with §1.904(f)-3(a), the foreign loss carried back to 1977 is first allocated to X Corporation's foreign source taxable income subject to the limitation under which the loss arose, the amount of overall foreign loss to be added to X Corporation's overall foreign loss account in 1980 is $600 under paragraph (d)(1) of this section after the foreign loss carryback is first applied to foreign source income of $400 (which does not result in an overall foreign loss that is subject to recapture).

Example (3). The facts are the same as in example (2), except that in 1977 X Corporation's U.S. source taxable income was zero. Nothing is added to X Corporation's overall foreign loss account at the end of 1980. X Corporation's income and deductions for 1981 are as follows:

U.S. source taxable income	$1,250
Foreign source taxable income subject to section 904(d)(1)(E)	$300

X Corporation has a net operating loss carryover of $850 ($1250-$400) to 1981. The $600 of foreign losses that are part of this net operating loss ($1000 of 1980 loss, minus $400 offset by foreign source income in the carryback year) are allocated to X Corporation's foreign source taxable income subject to the section 904(d)(1)(E) limitation in such year, in accordance with §1.904(f)-3, prior to reducing U.S. source income. Thus, $300 of the remaining $600 of foreign source net operating loss carryover is first applied to foreign source income in the carryover year, leaving $300 which offsets U.S. source income in the carryover year. Therefore, $300 is added to X Corporation's section 904(d)(1)(E) overall foreign loss account in 1981 in accordance with paragraph (d)(5)(i) of this section. Since the entire net operating loss carryforward was absorbed in 1981, there are no further additions to X Corporation's overall foreign loss account under paragraph (d) as a result of this loss.

Example (4). Z Corporation is a domestic corporation with foreign branch operations. For the taxable year 1981, Z Coporation's taxable income and (losses) are as follows:

U.S. source taxable ordinary income	$1000
U.S. source net capital gain	$460
Foreign source taxable ordinary income subject to section 904 (d)(1)(E)	$200
Foreign source net capital loss subject to section 904(d)(1)(E)	($800)

Z Corporation had no capital gain net income in any prior taxable year. Under paragraph (d)(2) and (3) of this section, the amount to be added to Z Corporation's section 904(d)(1)(E) overall foreign loss account is the excess of the amount which has reduced U.S. source capital gain net income for the taxable year ($460), adjusted for the rate differential because it has reduced U.S. source net capital gain ($460 × 28/46 = $280), over the amount which has reduced the numerator of Z Corporation's foreign tax credit limitation fraction under section 904(b)(2), which is $200. (The $200 amount is foreign source net capital loss that has reduced U.S. source net capital gain in the donominator of the fraction, but not exceeding the amount of foreign source income in the numerator before the section 904(b)(2) adjustment.) Thus, Z Corporation must add $80 (the excess of the $280 over $200) to its section 904(d)(1)(E) overall foreign loss account in 1981. It should be noted that an overall foreign loss can occur in the absence of foreign branch operations.

§1.904(f)-2 Recapture of overall foreign losses.

(a) *In general.* A taxpayer electing the benefits of sections 901 or 936 with respect to foreign source taxable income subject to a separate limitation under which the taxpayer has sustained an overall foreign loss shall be required to recapture such loss as provided in this section. Recapture is accomplished by treating as U.S. source income a portion of the taxpayer's foreign source taxable income subject to the limitation under which the loss arose. As a result, the taxpayer's foreign tax credit limitation (or section 936 credit) with respect to such income is decreased. Recapture continues until such time as the amount of foreign source taxable income recharacterized as U.S. source income equals the U.S. source income which was previously offset by the overall foreign loss. As provided in §1.904(f)-1(e)(2), the balance in a taxpayer's overall foreign loss account is reduced by the amount of loss recaptured. Recapture is only applied to the extent that it will produce a reduction in the foreign tax credit limitation or the section 936 credit. This is accomplished by applying recapture to foreign source taxable income in the numerator of the foreign tax credit limitation fraction only after applying the section 904(a) limitation and section 904(b) adjustments, as provided in paragraph (b) of this section.

(b) *Determination of taxable income from sources without the United States for purposes of recapture.* For purposes of determining the amount of an overall foreign loss subject to recapture, the taxpayer's taxable income from sources without the United States, as determined in the numerator of the foreign tax credit limitation fraction, shall be computed with respect to each of the separate limitations described in §1.904(f)-1(c)(2) in accordance with §1.904(f)-1(c)(1) and (3). This computation is made without taking into account foreign source taxable income (and deductions properly allocated and apportioned thereto) subject to another separate limitation. Before applying the recapture rules to such foreign source taxable income, the following provisions shall be applied to such income in the following order:

(1) Section 904(b)(3)(C) and the regulations thereunder shall be applied to treat certain foreign source gain as U.S. source gain;

(2) Section 904(b)(2) and the regulations thereunder shall be applied to make adjustments in the foreign tax credit limitation fraction for certain capital gains and losses; and

(3) Section 904(a) shall be applied to determine foreign source taxable income in the numerator of the foreign tax credit limitation fraction.

An overall foreign loss under a separate limitation shall only be recaptured by recharacterizing foreign source taxable income subject to the same separate limitation as U.S. source income, except as provided in §1.904(f)-6. However, for purposes of recapturing an overall foreign loss incurred before a corporation elected to use section 936, the possession source income of a section 936 corporation shall be used to recapture the previously incurred overall foreign loss.

(c) *Section 904(f)(1) recapture*—(1) *In general.* The amount of any overall foreign loss subject to recapture in a taxable year in which paragraph (a) of this section is applicable is the lesser of the balance in the applicable overall foreign loss account (after reduction of such account in accordance with §1.904 (f)-1(e)(1); or fifty percent of the taxpayer's foreign source taxable income subject to the limitation under which the loss arose, as determined under paragraph (b) of this section.

(2) *Election to recapture more of the overall foreign loss than is required under paragraph (c)(1).* A taxpayer may make a revocable election to recapture a greater portion of the balance in an overall foreign loss account than is required to be recaptured under paragraph (c)(1) of this section. A taxpayer may make such an election or amend an election by attaching a statement to its Form 1116 or 1118 for the taxable year for which the election is made. This statement must indicate the percentage of the taxpayer's foreign source taxable income that is being recharacterized as U.S. source income and the percentage of the balance in the overall foreign loss account that is being recaptured. The taxpayer may not elect to recapture an amount in excess of the taxpayer's foreign source taxable income subject to the same separate limitation as the loss after applying paragraph (b) of this section to such income.

(3) *Illustrations.* The rules of this paragraph (c) may be illustrated by the following examples, all of which assume a U.S. corporate tax rate of 50 percent unless otherwise stated.

Example (1) X Corporation is a domestic corporation which does business in the United States and abroad. On December 31, 1980, the balance in X Corporation's section 904(d)(1)(E) overall foreign loss account is $600. For 1981, X Corporation has U.S. source taxable income of $500 and foreign source taxable income subject to section 904(d)(1)(E) of $500. For 1981, X Corporation pays $200 in foreign taxes and elects section 901. Under paragraph (c)(1) of this section, X Corporation is required to recapture $250 (the lesser of $600 or 50 percent of $500) of its overall foreign loss. As a consequence, X Corporation's foreign tax credit limitation under section 904(d) (1)(E) is $250/$1000 × $500, or $125, instead of $500/$1000 × $500, or $250. The balance in X Corporation's section 904(d)(1)(E) overall foreign loss account is reduced by $250 in accordance with §1.904(f)-1(e)(2).

Example (2). The facts are the same as in example (1) except that X Corporation makes an election to recapture its overall foreign loss to the extent of 80 percent of its foreign source taxable income subject to the section 904(d)(1)(E) limitation (or $400) in accordance with paragraph (c)(2) of this section. As a result of recapture, X Corporation's foreign tax credit limitation under section 904(d)(1)(E) for 1981 is $100/$1000 × $500, or $50, instead of $500/$1000 × $500, or $250. X Corporation's overall foreign loss account is reduced by $400 in accordance with §1.904(f)-1(e)(2).

Example (3). The facts are the same as in example (1) except that X Corporation does not elect the benefits of section 901 or 936 in 1981 and deducts its foreign taxes paid in 1981. The balance in X Corporation's section 904(d)(1)(E) overall foreign loss account on December 31, 1981 is $600. There is no recapture of the overall foreign loss since X Corporation did not elect the foreign tax credit.

Example (4). The facts are the same as in example (1) except that in 1981, X Corporation also has $1,000 of foreign source DISC dividend income subject to section 904(d)(1)(B) which carries a foreign tax of $50. Under paragraph (c)(1) of this section the amount of X Corporation's section 904(d)(1)(E) overall foreign loss subject to recapture is $250 (the lesser of the balance in the overall foreign loss account or 50 percent of the foreign source taxable income subject to the section 904(d)(1)(E) limitation (which excludes taxable income subject to the separate limitation of section 904(d)(1)(B))). X Corporation's separate limitation under section 904(d)(1)(B) for DISC dividend income is $1000/$2000 × $1000, or $500. Its limitation under section 904(d)(1)(E) for other foreign source taxable income is $250/$2000 × $1000, or $125, instead of $500/$2000 × $1000, or $250. The balance in X Corporation's section 904(d)(1)(E) overall foreign loss account is reduced by $250 in accordance with §1.904(f)-1(e)(2).

Example (5). The facts are the same as in example (1) except that on December 31, 1980 X Corporation also has a balance in its section 907 (b) overall foreign loss account of $900. For 1981, X Corporation also has foreign source taxable income subject to the section 907(b) limitation of $800. As in example (1), X Corporation is required to recapture $250 of its section 904(d)(1)(E) overall foreign loss, and its section 904(d)(1)(E) foreign tax credit limitation is $250/$1800 × $900, or $125, instead of

$500/$1800 × $900, or $250. X Corporation is also required to recapture $400 of its section 907(b) overall foreign loss (the lesser of $900 or 50 percent of $800). X Corporation's foreign tax credit limitation under section 907(b) is $400/$1800 × $900, or $200, instead of $800/$1800 × $900, or $400. The balance in X Corporation's section 907(b) overall foreign loss account is reduced to $500 in accordance with §1.904(f)-1(e)(2).

Example (6). This example assumes a U.S. corporate tax rate of 46% (under section 11(b)) and an alternative rate of tax under section 1201(a) of 28%. W is a U.S. corporation that does business in the United States and abroad. On December 31, 1980, W has $350 in its section 904(d)(1)(E) overall foreign loss account. For 1981, W has $500 of U.S. source taxable income, and has foreign source income subject to section 904(d)(1)(E) as follows:

Foreign source taxable income other than net capital gain	$720
Foreign source net capital gain	$460

Under paragraph (b)(2) of this section, foreign source taxable income for purposes of recapture includes foreign source capital gain net income, reduced, under section 904(b)(2), byu the rate differential portion of foreign source net capital gain, which adjusts for the reduced tax rate for net capital gain under section 1201(a):

Foreign source capital gain net income	$460
Rate differential portion of foreign source net capital gain (18/46 of $460)	-180
Foreign source capital gain included in foreign source taxable income	$280

The total foreign source taxable income of W for purposes of recaputre in 1981 is $1000 ($720 + $280). Under paragraph (c)91) of this section, W is required to recapture $350 (the lesser of $250 or 50 percent of $1000), and W's section 904(d)(1)(E) overall foreign loss account is reduced to zero W's section 904(d)(1)(E) foreign tax credit limitation is $650/$1500 × $690, or $299, instead of $1000/$1500 × $690, or $460.

(d) *Recapture of overall foreign losses from dispositions under section 904(f)(3)*—(9) *In general.* If the taxpayer disposes of property used or held for use predominantly without the United States in a trade or business during a taxable year in which paragraph (a) of this section is applicable, its overall foreign loss shall be recaptured as provided in paragraphs (d)(2), (d)(3), and (d)(4) of this section. See paragraph (d)(5) of this section for definitions. For the purposes of this paragraph (d), gain recognized on the disposition of property that was used or held for use to generate foreign source taxable income subject to a separate limitation will be treated as foreign source gain subject to the same separate limitation.

(2) *Treatment of net capital gain.* If the gain from a disposition of property to which this paragraph (d) applies is treated as net capital gain, all references to such gain in paragraphs (d)(3) and (d)(4) of this section shall mean such gain as adjusted under paragraph (b) of this section. The amount by which the overall foreign loss account shall be reduced shall be determined from such adjusted gain.

(3) *Dispositions where gain is recognized irrespective of section 904(f)(3).* If the taxpayer recognized foreign source gain subject to a separate limitation on the disposition of property described in paragraph (d)(1) of this section, and there is a balance in the taxpayer's overall foreign loss account under such separate limitation after applying paragraph (c) of this section, an additional portion of such balance shall be recaptured in accordance with paragraphs (a) and (b) of this section. The amount recaptured shall be the lesser of such balance or 100 percent of the foreign source gain recognized on the disposition that was not previously recharacterized under this section. The amount of gain not previously recharacterized shall be determined by subtracting 50 percent (or the percentage recaptured under paragraph (c)(2) of this section) of the gain recognized on such disposition from the entire amount of such gain.

(4) *Dispositions in which gain is not otherwise recognized*—(i) *Recognition of gain to the extent of overall foreign loss.* If the taxpayer makes a disposition of property described in paragraph (d)(1) of this section in which any amount of gain otherwise would not be recognized in the year of the disposition, and such property was used or held for use to generate foreign source taxable income subject to a separate limitation under which the taxpayer had an overall foreign loss (including an overall foreign loss incurred in the year of the disposition), the taxpayer shall recognize foreign source taxable income in an amount equal to the lesser of:

(A) The sum of the balance in the applicable overall foreign loss account (but only after such balance has been increased by amounts added to the account for the year of the disposition or has been reduced by amounts recaptured for the year of the disposition under paragraph (c) and paragraph (d)(3) of this section) plus the amount of any overall foreign loss that would be part of a net operating loss for the year of the disposition if gain from the disposition were not recognized under section 904(f)(3), plus the amount of any overall foreign loss that would be part of a net operating loss for the year of the disposition if gain from the disposition were not recognized under section 904(f)(3), plus the amount of any overall foreign loss that is part of a net operating loss carryover from a prior year, or

(B) The excess of the fair market value of such property over the taxpayer's adjusted basis in such property.

The excess of the fair market value of such property over its adjusted basis shall be determined on an asset by asset basis. Losses from the disposition of an asset shall not be recognized. Any foreign source taxable income deemed received and recognized under this paragraph (d)(4)(i) will have the same character as if the property had been sold or exchanged in a taxable transaction.

(ii) *Basis adjustment.* The basis of the property received in an exchange to which this paragraph (d)(4) applies shall be increased by the amount of gain deemed recognized, in accordance with applicable sections of subchapters C (relating to corporate distributions and adjustments), K (relating to partners and partnerships), O (relating to gain or loss on disposition of property), and P (relating to capital gains and losses). If the property to which this paragraph (d)(4) applies was transferred by gift, the basis of such property in the hand of the donor immediately preceding such gift shall be increased by the amount of the gain deemed recognized.

(iii) *Recapture of overall foreign loss to the extent of amount deemed recognized.* The provisions of paragraphs (a) and (b) of this section shall be applied to the extent of 100% of the foreign source taxable income which is recognized under paragraph (d)(4)(i) of this section. However, amounts of foreign source gain that would not be recognized except by application of section 904(f)(3) and paragraph (d)(4)(i) of this section, and which are treated as U.S. source gain by application of section 904(b)(3)(C) and paragraph (b)(1) of this section, shall reduce the overall foreign loss account, subject to the adjustments described in paragraph (b)(2) of this section if such gain is net capital gain, notwithstanding the fact that such amounts were precluded from recapture by paragraph (a) of this section due to the ordering rules in paragraph (b) of this section.

(iv) *Priorities among dispositions in which gain is deemed to be recognized.* If the taxpayer makes more than one disposition to which this paragraph (d)(4) is applicable, the rules of this paragraph (d)(4) shall be applied to each disposition in succession starting with the disposition which occurred earliest, until the balance in the applicable overall foreign loss account is reduced to zero.

(5) *Definitions*—(i) *Disposition.* A disposition to which this paragraph (d) applies includes a sale (including a sale in a lease back transaction); exchange; distribution; gift; transfer upon the foreclosure of a security interest (but not a mere transfer of title to a creditor upon the creation of a security interest or to a debtor upon termination of a security interest); involuntary conversion; contribution to a partnership, trust, or corporation; transfer at death; or any other transfer of property whether or not gain or loss is recognized. However, a disposition to which this paragraph (d) applies does not include:

(A) A distribution or transfer of property to a domestic corporation described in section 381 (a) (provided that paragraph (d)(6) of this section applies), or

(B) A disposition of property which is not a material factor in the realization of income by the taxpayer (as defined in paragraph (d)(5)(iv) of this section).

(ii) *Property used in a trade or business.* Property is used in a trade or business if it is held for the principal purpose of promoting the present or future conduct of the trade or business. This generally includes property acquired and held in ordinary course of a trade or business or otherwise held in a direct relationship to a trade or business. In determining whether an asset is held in a direct relationship to a trade or business, principal consideration shall be given to whether the asset is used in the trade or business. Property will be treated as held in a direct relationship to a trade or business if the property was acquired with funds generated by that trade or business or if income generated from the asset is retained or reinvested in that trade or business. Property used in a trade or business may be tangible or intangible, real or personal property. It includes property, such as equipment, which is subject to an allowance for depreciation under section 167 or cost recovery under section 168. Property may be considered used in a trade or business even if it is a capital asset in the hands of the taxpayer. Stock of another corporation held only for investment purposes shall not be considered property used in a trade or business. However, stock acquired or held to assure a source of supply for the trade or business shall be considered property used in a trade or business. Stock in trade is generally not considered property used in a trade or business. However, when disposed of in a manner not in the ordinary course of a trade or business, stock in trade will be considered as property used in the trade or business.

(iii) *Property used predominantly outside the United States.* Property will be considered used predominantly outside the United States if for a 3-year period ending on the date of the disposition (or, if shorter, the period during which the property has been used in the trade or business) such property was located outside the United States more than 50 percent of the time. An aircraft, railroad rolling stock, vessel, motor vehicle, container, or other property used for transportation purposes is deemed to be used predominantly outside the United States if, during the 3-year (or shorter) period, either such property is located outside the United States more than 50 percent of the time or more than 50 percent of the miles traversed in the use of such property are traversed outside the United States.

(iv) *Property which is a material factor in the realization of income.* For the purposes of this section, property used in a trade or business will be considered a material factor in the realization of income unless the taxpayer establishes that it is not (or, if the taxpayer did not realize income from the trade or business in the taxable year, would not be expected to be) necessary to the realization of income by the taxpayer.

(6) *Carryover of overall foreign loss account in a corporate acquisition to which section 381(a) applies.* In the case of a distribution or transfer described in section 381(a), an overall foreign loss of the distributing or transferor corporation shall be treated as the overall foreign loss of the acquiring or transferee corporation as of the close of the date of the distribution or transfer. If the transferee corporation has an overall foreign loss account under the same separate limitation prior to the distribution or transfer, the balance in the transferor's account may be added to the transferee's account. If not, the transferee must establish a new overall foreign loss account. An overall foreign loss of the transferor will be treated as incurred by the transferee in a year prior to the year of the transfer.

(7) *Illustrations.* The rules of this paragraph (d) may be illustrated by the following examples which assume that the U.S. corporate tax rate is 50 percent (unless otherwise stated). For purposes of these examples, none of the foreign source gains are treated as net capital gains (unless so stated).

Example (1). X Corporation has a balance in its section 904(d)(1)(E) overall foreign loss account of $600 at the close of its taxable year ending December 31, 1980. In 1981, X Corporation sells assets used predominantly outside the United States in a trade or business and recognizes $1,000 of gain on the sale under section 1001. This gain is subject to the section 904(d)(1)(E) limitation. This sale is a disposition within the meaning of paragraph (d)(4)(i) of this section, and to which this paragraph (d) applies. X Corporation has no other foreign source taxable income in 1981 and has $1,000 of U.S. source taxable income. X Corporation is required to recapture $500 (the lesser of the balance in X's section 904(d)(1)(E) overall foreign loss account ($600) or 50 percent of $1000) of its overall foreign loss under paragraph (c) of this section. The balance of X Corporation's section 904(d)(1)(E) overall foreign loss account is reduced to $100 in accordance with §1.904(f)-1(e)(2). In addition, under paragraph (d)(3) of this section, X Corporation is required to recapture $100 (the lesser of the remaining balance in its section 904(d)(1)(E) overall foreign loss account ($100) or 100 percent of its foreign source taxable income recognized on such disposition that has not been previously recharacterized ($500)). The total amount recaptured is $600. X Corporation's section 904(d)(1)(E) foreign tax credit limitation for 1981 is $200 ($400/$2,000 × $1,000) instead of $500 ($1,000/$2,000 × $1,000). The balance of X Corporation's section 904(d)(1)(E) overall foreign loss account is reduced to zero in accordance with §1.904(f)-1(e)(2).

Example (2). On December 31, 1980, Y Corporation has a balance in its section 904(d)(1)(E) overall foreign loss account of $1,500. In 1981, Y corporation has $500 of U.S. source taxable income and $200 of foreign source taxable income subject to the section 904(d)(1)(E) limitation. Y Corporation's foreign source taxable income is from the sale of property used predominantly outside of the United States in a trade or business. This sale is a disposition to which this paragraph (d) is applicable. In 1981, Y Corporation also transferred property used predominantly outside of the United States in a trade or business to another corporation. Under section 351, no gain was recognized on this transfer. Such property had been used to generate foreign source taxable income subject to the section 904(d)(1)(E) limitation. The excess of the fair market value of the property transferred over the corporation's adjusted basis in such property was $2,000. In accordance with paragraph (c) of this section, Y Corporation is required to recapture $100 (the lesser of $1500, the amount in Y Corporation's overall foreign loss account, or 50 percent of $200, the amount of foreign source taxable income for the current year) of its section 904(d)(1)(E) overall foreign loss. Y Corporation is then required to recapture an additional $100 of its overall foreign loss under paragraph (d)(3) of this section out of gain recognized on the sale of assets which has not been previously recharacterized, since 100 percent of such gain is subject to recapture. The balance in Y Corporation's section 904(d)(1)(E) overall foreign loss account is reduced to $1,300 in accordance with §1.904(f)-1(e)(2). Y Corporation is then required to recognize $1,300 of foreign source taxable income on its section 351 transfer under paragraph (d)(4) of this section. Under paragraph (d)(4), 100 percent of the amount so recognized is treated as U.S. source taxable income, and Y Corporation's section 904(d)(1)(E) overall foreign loss account is reduced to zero. X Corporation's entire taxable income for 1981 is:

U.S. source taxable income	$ 500
Foreign source taxable income subject to section 904(d)(1)(E) that is recharacterized as U.S. source income by paragraphs (c) and (d)(e) of this section	$ 200
Gain recognized under section 904(f)(3) and paragraph (d)(4) of this section, and recharacterized as U.S. source income	$1,300
Total	$2,000

Y Corporation's section 904(d)(1)(E) foreign tax credit limitation for 1981 is O ($0/$2,000 × $1,000) instead of $100 ($200/$700 × $350).

Example (3). Z Corporation has a balance in its section 907(d) overall foreign loss (foreign oil related loss) account of $1,500 at the end of its taxable year 1980. In 1981, Z Corporation has $1,600 of foreign oil related income subject to the section 907(b) limitation and no U.S. source income. In addition, in 1981, Z Corporation makes two dispositions of property used predominantly outside the United States in a trade or business on which no gain was recognized. Such property generated foreign oil related income. The excess of the fair market value of the property transferred in the first disposition over the taxpayer's adjusted basis in such property is $575. The excess of the fair market value of the property transferred in the second disposition over the taxpayer's adjusted basis in such property is $1,000. Under paragraph (c) of this section, Z Corporation is required to recapture $800 (the lesser of 50 percent of its foreign oil related income of $1600 or the balance ($1500) in its section 907(b) overall foreign loss account) of its foreign oil related loss. In accordance with paragraph (d)(4)(i) and (iv) of this section, Z Corporation is required to recognize foreign oil related income in the amount of $575 on the first disposition and, since the foreign oil related loss account is now reduced by $1375 ($800 and $575 amounts previously recaptured), Z Corporation is required to recognize foreign oil related income in the amount of $125 on the second disposition. In accordance with paragraph (d)(4)(iii) of this section, the entire amount recognized is treated as U.S. source income. The balance in its section 907(b) overall foreign loss account is reduced to zero under §1.904(f)-1(e)(2). Z Corporation's foreign tax credit limitation under section 907(b) is $400 ($800/$2,300 × $1,150) instead of $800 ($1,600/$1,600 × $800). Z Corporation has $700 of U.S. source taxable income with respect to which no foreign tax credit is allowed.

Example (4). The facts are the same as in example (3), except that the gain from the two dispositions of property is treated as net capital gain and the U.S. corporation tax rate is assumed to be 46 percent. As in example (3), Z Corporation is required to recapture $800 of its foreign oil related loss from its ordinary foreign oil related income. In accordance with paragraph (d)(4)(i) and (iv) of this section, Z Corportion is first required to recognize foreign oil related income (which is net capital gain) on the first disposition in the amount of $575. Under paragraphs (b) and (d)(2) of this section, this net capital gain is adjusted by subtracting the rate differential portion of such gain from the total amount of such gain to determine the amount by which the foreign oil related loss account is reduced, which is $350 ($575 − ($575 × 18/46)). The balance remaining in Z Corporation's foreign oil related loss account after this step is $350. Therefore, this process will be repeated, in accordance with paragraph (d)(4)(iv) of this section, to recapture that remaining balance out of gain deemed recognized on the second disposition, resulting in reduction of the foreign oil related loss account to zero and net capital gain required to be recognized from the second disposition in the amount of $575, which must also be adjusted by subtracting the rate differential portion to determine the amount by which the foreign oil related loss account is reduced (which is $350). The $575 of net capital gain is also recharacterized as U.S. source net capital gain. Z Corporation's section 907(b) foreign tax credit limitation is the same as in example (3), and Z Corporation has an additional $1,150 ($575 + $575) of U.S. source net capital gain for which no credit is available.

§1.904(f)-3 Allocation of net operating losses and net capital losses.

(a) *Allocation of net operating loss carrybacks and carryovers attributable to overall foreign losses.* If the taxpayer sustains an overall foreign loss that is part of a net operating loss for the year, then, in carrying such net operating loss back or over in accordance with section 172, (or §§1.1502-21(b) and 1.1502-79(a)), the portion of the net operating loss attributable to an overall foreign loss shall be allocated to foreign source taxable income subject to the same separate limitation the carryback or carryover year. To the extent that such overall foreign loss exceeds foreign source taxable income subject to the same separate limitation in the year to which it is carried, it shall be allocated to the taxpayer's U.S. source income for such year and not to foreign source taxable income subject to another separate limitation. See §1.904(f)-1(d) for additions to the applicable overall foreign loss account to the extent that U.S. source taxable income is reduced in the taxable year to which the loss is carried.

(b) *Allocation of net capital loss carrybacks and carryovers attributable to overall foreign losses.* If the taxpayer sustains an overall foreign loss that is part of a net capital loss for the year, then in carrying the net capital loss back or over in accordance with section 1212 (or §1.1502-22 and 1.1502-79(b)), the portion of the net capital loss that is attributable to a foreign source capital loss shall be allocated to foreign source capital gain net income subject to the same separate limitation in the carryback or carryover year. To the extent that such foreign source capital loss exceeds foreign source capital gain net income subject to the same separate limitation in the year to which carried, it shall be allocated to U.S. source capital gain net income in such year and not to foreign source capital gain net income subject to another separate limitation. An overall foreign source net capital loss carried over to a later year in accordance with this paragraph (b) shall be taken into consideration in determining the taxpayer's overall foreign loss in the year to which carried and shall be added to the applicable loss account for such year in accordance with §1.904(f)-1(d).

§1.904(f)-4 Recapture of foreign losses out of accumulation distributions from a foreign trust.

(a) ***In general.*** If the taxpayer receives a distribution of foreign source taxable income that is treated under section 666 as having been distributed by a foreign trust in a preceding taxable year, a portion of the balance in the taxpayer's overall foreign loss account shall be subject to recapture under this section. The amount subject to recapture shall be an amount equal to the lesser of the balance in the taxpayer's overall foreign loss account (after applying §§1.904(f)-1, -2, -3, and -6 to the taxpayer's other income or loss in the current taxable year) or the entire amount of foreign source taxable income deemed distributed in a preceding year or years under section 666.

(b) *Effect of recapture on foreign tax credit limitation under section 667(d).* If paragraph (a) of this section is applicable, then in applying the separate limitation (in accordance with section 667(d)(1)(A) and (C)) to determine the amount of foreign taxes deemed distributed under section 666(b) and (c) that can be credited against the increase in tax in a computation year, a portion of the foreign source taxable income deemed distributed in such computation year shall be treated as U.S. source income. Such portion shall be determined by multiplying the amount of foreign source taxable income deemed distributed in the computation year by the fraction. The numerator of this fraction is the balance in the taxpayer's overall foreign loss account (after application of §§1.904(f)-1, -2, -3, and -6), and the denominator of the fraction is the entire amount of foreign source taxable income deemed distributed under section 666. However, the numerator of this fraction shall not exceed the denominator of the fraction.

(c) *No recapture if taxpayer chooses to deduct foreign taxes deemed distributed.* The provisions of this section shall not apply to the income deemed distributed in any computation year of a taxpayer making an election under section 667(d)(1)(B) to deduct foreign taxes deemed distributed under section 666(b) or (c) for such computation year.

(d) *Illustration.* The provisions of this section may be illustrated by the following example:

Example. X Corporation is a domestic corporation that has a balance of $10,000 in its overall foreign loss account on December 31, 1980. For its taxable year beginning January 1, 1981, X Corporation's only income is an accumulation distribution from a foreign trust of $20,000 of foreign source taxable income. Under section 666, the amount distributed and the foreign taxes paid on such amount ($4,000) are deemed distributed in 2 prior taxable years. In determining the partial tax on such distribution under section 667(b), the amount added to each computation year is $12,000 (the sum of the actual distribution plus the taxes deemed distributed ($24,000) divided by the number of accumulation years (2)). Of that amount, $5,000 ($10,000/$24,000 × $12,000) is treated as U.S. source taxable income in accordance with paragraph (b) of this section. X Corportion's separate foreign tax credit limitation against the increase in tax in each computation year is $7,000/$12,000 × $6,000 instead of $12,000/$12,000 × $6,000. X Corporation's overall foreign loss account is reduced to zero in accordance with paragraph (a) of this section.

§1.904(f)-5 Special rules for recapture of overall foreign losses of a domestic trust.

(a) *In general.* Except as provided in this section, the rules contained in §§1.904(f)-1, -2, -3, -4, and -6 apply to domestic trusts.

(b) *Recapture of trust's overall foreign loss.* In taxable years in which a trust has foreign source taxable income subject to a separate limitation under which the trust has an overall foreign loss, the balance in the trust's overall foreign loss account shall be recaptured as follows:

(1) *Trust accumulates income.* If the trust accumulates all of its foreign source taxable income subject to the limitation under which the loss arose, its overall foreign loss shall be recaptured out of such income in accordance with §§1.904(f)-1 -2, -3, -4, and -6.

(2) *Trust distributes income.* If the trust distributes all of its foreign source taxable income subject to the limitation under which the loss arose, the amount of the overall foreign loss that would be subject to recapture by the trust under paragraph (b)(1) of this section shall be allocated to the beneficiaries in proportion to the amount of such income which is distributed to each beneficiary over the total amount of such income.

(3) *Trust accumulates and distributes income.* If the trust accumulates part of its foreign source taxable income subject to the limitation under which the loss arose and distributes part of such income, the portion of the overall foreign loss that would be subject to recapture by the trust under paragraph (b)(1) of this section if the distributed income were accumulated shall be allocated to the beneficiaries receiving income distributions. The amount of overall foreign loss to be allocated to such beneficiaries shall be the same portion of the total amount of such overall foreign loss that would be subject to recapture as the amount of such income which is distributed to each beneficiary bears to the total amount of such income of the trust for such year. That portion of the overall foreign loss subject to recapture in such year that is not allocated to the beneficiaries in accordance with this paragraph (b)(3) shall be recaptured by the trust in accordance with §§1.904(f)-1, -2, -3, -4, and -6.

(c) *Amounts allocated to beneficiaries.* Amounts of a trust's overall foreign loss allocated to any beneficiary in accordance with paragraph (b)(2) or (3) of this section shall be added to the beneficiary's applicable overall foreign loss account and treated as an overall foreign loss of the beneficiary incurred in the taxable year preceding the year of such allocation. Such amounts shall be subject to recapture in accordance with §§1.904(f)-1, -2, -3, -4, and -6 out of foreign source taxable income subject to the same separate limitation which is distributed to the beneficiaries.

(d) *Section 904(f)(3) dispositions to which §1.904(f)-2(d)(4)(i) is applicable.* Foreign source taxable income recognized by a trust under §1.904(f)-2(d)(4) on a disposition of property used in a trade or business outside the United States shall be deemed to be accumulated by the trust. One hundred percent of such income shall be used to recapture the trust's overall foreign loss in accordance with §1.904(f)-2(d)(4).

(e) *Illustrations.* The provisions of this section are illustrated by the following examples:

Example (1). T, a domestic trust, has a balance of $2000 in its overall foreign loss account on December 31, 1979. For its taxable year ending on December 31, 1980, T has foreign source taxable income (subject to the same separate limitation as that under which the overall foreign loss was incurred) of $1600, all of which it accumulates. Under paragraph (b)(1) of this section, T is required to recapture $800 in 1980 (the lesser of the overall foreign loss or 50 percent of the foreign source taxable income). At the end of its 1980 taxable year, T has a balance of $1200 in its overall foreign loss account.

Example (2). The facts are the same as in example (1). In 1981, T has foreign source taxable income (subject to the same separate limitation) of $1000, which it distributes to its beneficiaries as follows: $500 to A, $250 to B, and $250 to C. Under paragraph (b)(1) of this section, T would have been required to recapture $500 of its overall foreign loss if it had accumulated all of such income. Therefore, under paragraph (b)(2) of this section, T must allocate $500 of its overall foreign loss to A, B, and C as follows: $250 to A ($500 × $500/$1000), $125 to B ($500 × $250/$1000), and $125 to C ($500 × $250/$1000). Under paragraph (c) of this section and §1.904(f)-1(d)(4), A, B, and C must add the amounts of overall foreign loss allocated to them from T to their overall foreign loss accounts and treat such amounts as overall foreign loss incurred in 1980. A, B, and C must then apply the rules of §1.904(f)-1, -2, -3, -4, and -6 to recapture their overall foreign losses. T's overall foreign loss account is reduced, in accordance with §1.904(f)-1(e)(1), by the $500 that is allocated to A, B, and C. At the end of 1981, T's overall foreign loss account has a balance of $700.

Example (3). the facts are the same as in example (2), except that in 1981 T's foreign source taxable income under the applicable separate limitation is $1500 instead of $1000, and T accumulates the additional $500. Under paragraph (b)(1) of this section, T would be required to recapture $750 of its overall foreign loss if it accumulated all of the $1500. Under paragraph (b)(3) of this section, T must allocate $500 of its overall foreign loss to A, B, and C as follows: $250 to A ($750 × $500/$1500) and $125 each to B and C ($750 × $250/$1500). T must also recapture $250 of its overall foreign loss, which is the portion of the amount subject to recapture in 1981 that is not allocated to the beneficiaries ($750 – $500 = $250). Under §1.904(f)-1(e)(1), T subtracts $500 from its overall foreign loss account, and under §1.904(f)-1(e)(2), T subtracts $250 from its overall foreign loss account, leaving a balance at the end of 1981 of $450.

§1.904(f)-6 Transitional rule for recapture of old section 907(b) and section 904(d)(1)(E) overall foreign losses incurred in taxable years beginning before January 1, 1983 from foreign source taxable income subject to the section 904(d)(1)(E) limitaiton in taxable years beginning after December 31, 1982.

(a) *General rule*. For taxable years beginning after December 31, 1982, foreign source taxable income subject to the section 904(d)(1)(E) limitation includes foreign oil related income (as defined in section 907(c)(2) prior to its amendment by section 211 of the Tax Equity and Fiscal Responsibility Act of 1982) [Pub. L. 97-248, 1982-2 C.B. 462, 484]. However, for purposes of recapturing section 904(d)(1)(E) overall foreign losses incurred in taxable years beginning before January 1, 1983 (pre-1983) out of foreign source taxable income subject to the section 904(d)(1)(E) limitation in taxable years beginning after December 31, 1982 (post-1982), the taxpayer shall make separate determinations of foreign oil related income and other section 904(d)(1)(E) income (as if the "old section 907(d)" separate limitation, under section 907(b) prior to its amendment by section 211 of the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462, 484], were still in effect), and shall apply the rules set forth in this section. The taxpayer shall maintain separate accounts for its pre-1983 old section 907(b), pre-1983 section 904(d)(1)(E), and post-1982 section 904(d)(1)(E) overall foreign losses. The taxpayer shall continue to maintain such separate accounts, make such separate determinations, and apply the rules of this section until the earlier of—

(1) Such time as the taxpayer's entire pre-1983 old section 907(b) and pre-1983 section 904(d)(1)(E) overall foreign losses have been recaptured, or

(2) The end of the taxpayer's eighth post-1982 taxable year, at which time the taxpayer shall add any remaining balance in its pre-1983 old section 907(b) and pre-1983 section 904(d)(1)(E) overall foreign loss accounts to its post-1982 section 904(d)(1)(E) overall foreign loss account,

after which time the taxpayer shall recapture all overall foreign losses as provided in §§1.904(f)-1 through -5.

(b) *Recapture of pre-1983 old section 907(b) and section 904(d)(1)(E) overall foreign losses from post-1982 income*. A taxpayer having a balance in a pre-1983 old section 907(b) or section 904(d)(1)(E) overall foreign loss account in a post-1982 taxable year shall recapture a portion of such overall foreign loss as follows:

(1) *Recapture from income subject to the same limitation*. The taxpayer shall first apply the rules of §§1.904(f)-1 through -5 to the taxpayer's separately determined foreign oil related income to recapture pre-1983 old section 907(b) overall foreign losses, and shall apply such rules to the taxpayer's separately determined section 904(d)(1)(E) income (exclusive of foreign oil related income) to recapture pre-1983 section 904(d)(1)(E) overall foreign losses.

(2) *Recapture from income subject to the other limitation*. The taxpayer shall next apply the rules of §§1.904(f)-1 through -5 to the taxpayer's separately determined foreign oil related income to recapture pre-1983 section 904(d)(1)(E) overall foreign losses, and shall apply such rules to the taxpayer's separately determined section 904 (d)(1)(E) income to recapture pre-1983 old section 907(b) overall foreign losses, but only to the extent that—

(i) The amount recaptured from such separately determined income under paragraph (b)(1) of this section is less than 50 percent (or such larger percentage as the taxpayer elects) of such separately determined income, and

(ii) The amount recaptured from such separately determined income under this paragraph (b)(2) does not exceed an amount equal to 12½ percent of the balance in the taxpayer's pre-1983 old section 907(b) or section 904(d)(1)(E) (as applicable) overall foreign loss account at the beginning of the taxpayer's first post-1982 taxable year, multiplied by the number of post-1982 taxable years (including the year to which this rule is being applied) which have elapsed, less the amount (if any) recaptured in prior post-1982 taxable years under this paragraph (b)(2) from such separately determined income.

The taxpayer may elect to recapture a pre-1983 overall foreign loss from post-1982 income subject to the section 904(d)(1)(E) limitation at a faster rate than is required by this paragraph (b)(2). This election shall be made in the same manner as an election to recapture more than 50 percent of income subject to recapture under section 904(f)(1), as provided in §1.904(f)-2(c)(2).

(c) *Coordination of recapture of pre-1983 and post-1982 overall foreign losses*. A taxpayer incurring a section 904(d)(1)(E) overall foreign loss in any post-1982 taxable year in which the taxpayer has a balance in a pre-1983 old section 907(b) or section 904(d)(1)(E) overall foreign loss account shall establish a separate overall foreign loss account for such loss. The taxpayer shall recapture its overall foreign losses in succeeding taxable years by first applying the rules of this section to recapture its pre-1983 overall foreign losses, and then applying the rules of §§1.904(f)-1 through -5 to recapture its post-1982 section 904(d)(1)(E) overall foreign loss. A post-1982 section 904(d)(1)(E) overall foreign loss may only be recaptured to the extent that the amount of foreign source taxable income recharacterized under paragraph (b) of this section is less than 50 percent (or such greater percentage as the taxpayer elects) of the taxpayer's total section 904(d)(1)(E) foreign source taxable income (including foreign oil related income) for such taxable year (except as required by section 904(f)(3)).

(d) *Illustrations*. The provisions of this section may be illustrated by the following examples:

Example (1). X Corporation is a U.S. corporation which has the calendar year as its taxable year. On December 31, 1982, X Corporation has a balance of $1,000 in its section 904(d)(1)(E) overall foreign loss account and does not have a balance in an old section 907(b) overall foreign loss account. For 1983, X Corporation has section 904(d)(1)(E) income of $1,200, which includes foreign oil related income of $1,000 and other section 904(d)(1)(E) income of $200. In 1983 X Corporation is required to recapture $225 of its pre-1983 section 904(d)(1)(E) overall foreign loss, computed as follows:

Amount recaptured under paragraph(b)(1) of this section $100

The amount recaptured from section 904(d)(1)(E) income exclusive of foreign oil related income is the lesser of $1,000 (the pre-1983 section 904(d)(1)(E) overall foreign loss) or 50 percent of $200 (the separately determined section 904(d)(1)(E) income exclusive of foreign oil related income).

Amount recaptured under paragraph (b)(2) of this section $125

The amount recaptured from foreign oil related income is the lesser of $900 (The remaining pre-1983 section 904(d)(1)(E) overall foreign loss after recapture under paragraph (b)(1) of this section) or 50 percent of $1,000 (the separately determined foreign oil related income), but is limited by paragraph (b)(2)(ii) of this section (12½ percent of $1,000 × 1) − $0, which is $125.

Total amount recaptured in 1983 ...... $225

Example (2). The facts are the same as in example (1), except that X Corporation has section 904(d)(1)(E) income of $50 for 1984 and $600 for 1985, all of which is foreign oil related income. X Corporation is required to recapture $25 in 1984 and $225 in 1985 of its pre-1983 section 904(d)(1)(E) overall foreign loss, computed as follows:

Amount recaptured under paragraph (b)(2) of this section in 1984 .... $ 25

The amount recaptured from foreign oil related income is the lesser of $775 (the remaining pre-1983 section 904(d)(1)(E) overall foreign loss) or 50 percent of $50 (the separately determined foreign oil related income). This amount is within the limitation of paragraph (b)(2)(ii) of this section, (12½ percent of $1,000 × 2) − $125, which is $125.

Amount recaptured under paragraph (b)(2) of this section in 1985 .... $225

The amount recaptured from foreign oil related income is the lesser of $750 (the remaining pre-1983 section 904(d)(1)(E) overall foreign loss) or 50 percent of $600 (the separately determined foreign oil related income), but is limited by paragraph (b)(2)(ii) of this section to (12½ percent of $1,000 × 3) − ($125 + $25), which is $225. ($125 is the amount recaptured in 1983 under paragraph (b)(2) of this section, and $25 is the amount recaptured in 1984 under paragraph (b)(2) of this section.)

Example (3). Y Corporation is a U.S. corporation which has the calendar year as its taxable year. On December 31, 1982, Y Corporation has a balance of $400 in its section 904(d)(1)(E) overall foreign loss account and does not have a balance in a section 907(b) overall foreign loss account. For 1983, Y Corporation has a section 904(d)(1)(E) overall foreign loss of $200. For 1984, Y Corporation has section 904(d)(1)(E) income of $1,200, all of which is foreign oil related income. In 1984 Y Corporation is required to recapture a total of $300 computed as follows:

Amount of pre-1983 overall foreign loss recaptured under paragraph (b)(2) of this section $100

The amount of pre-1983 section 904(d)(1)(E) overall foreign loss recaptured from foreign oil related income is the lesser of $400 (the loss) or 50 percent of $1,200 (the separately determined foreign oil related income), but is limited by paragraph (b)(2)(ii) of this section to (12½ percent of $400 × 2) − $0, which is $100.

Amount of post-1982 overall foreign loss recaptured under paragraph (c) of this section .... $ 200

The amount of post-1982 section 904(d)(1)(E) overall foreign loss recaptured is the amount computed under §1.904(f)-2(c)(1), which is the lesser of $200 (the post-1982 loss) or 50 percent of $1,200 (the income), but only to the extent that the amount of pre-1983 loss recaptured under paragraph (b) of this section is less than 50 percent of such income ((50 percent of $1,200) − $100 recaptured under paragraph (b) = $500).

Total amount recaptured in 1984 ...... $ 300

At the end of 1984, Y Corporation has a balance in its pre-1983 section 904(d)(1)(E) overall foreign loss account of $300, and has reduced its post-1982 section 904(d)(1)(E) overall foreign loss account to zero.

Example (4). Z Corporation is a U.S. corporation which has the calendar year as its taxable year. On December 31, 1982, Z Corporation has a balance of $400 in its section 904(d)(1)(E) overall foreign loss account and a balance of $1,000 in its old section 907(b) overall foreign loss account. For 1983, Z Corporation has section 904(d)(1)(E) income of $2,000, which includes foreign oil related income of $1,000 and other section 904(d)(1)(E) income of $1,000. Keeping these amounts separate for purposes of this section, Z Corporation is required to recapture a total of $1,000 in 1983, computed as follows:

Amount recaptured under paragraph (b)(1) of this section .... $ 900

The amount of pre-1983 old section 907(b) overall foreign loss recaptured from foreign oil related income, in accordance with §1.904(f)-2(c)(1), is the lesser of $1,000 (the old section 907(b) overall foreign loss) or 50 percent of $1,000 (the foreign oil related income), which is $500.

The amount of pre-1983 section 904(d)(1)(E) overall foreign loss recaptured from section 904(d)(1)(E) income exclusive of foreign oil related income, in accordance with §1.904(f)-2(c)(1), is the lesser of $400 (the section 904(d)(1)(E) overall foreign loss) or 50 percent of $1,000 (the section 904(d)(1)(E) income exclusive of foreign oil related income), which is $400.

Amount recaptured under paragraph (b)(2) of this section .... $ 100

The amount of pre-1983 old section 907(b) overall foreign loss recaptured from section 904(d)(1)(E) income exclusive of foreign oil related income is the lesser of $500 (the remaining balance in that loss account) or 50 percent of $1,000 (the section 904(d)(1)(E) income exclusive of foreign oil related income), but only to the extent that the amount recaptured from such income under paragraph (b)(1) of this section is less than 50 percent of such income, or $100 (50 percent of $1,000) − $400 recaptured due to section 904(d)(1)(E) overall foreign loss), and only up to the amount permitted by paragraph (b)(2)(ii) of this section, which is (12½ percent of $1,000 × 1) − $0 − $0, or $125.

Total amount recaptured in 1983 $1000

At the end of 1983, Z Corporation has reduced its pre-1983 section 904(d)(1)(E) overall foreign loss account to zero, and has a balance in its pre-1983 old section 907(b) overall foreign loss account of $400.

Par. 3. A new §1.1502-9 is added in the appropriate place to read as set forth below:

§1.1502-9 Application of overall foreign loss recapture rules to corporations filing consolidated returns.

(a) *In general*. An affiliated group of corporations filing a consolidated return sustains an overall foreign loss (a consolidated overall foreign loss) in any taxable year in which its gross income from sources without the United States subject to a separate limitation (as defined in §1.904(f)-1(c)(2)) is exceeded by the sum of the deductions properly allocated and apportioned thereto. The rules contained in §§1.904(f)-1 through 1.904(f)-6 are applicable to affiliated groups filing consolidated returns. This section provides special rules for applying those sections to such groups. Paragraph (b) provides rules for additions and subtractions of overall foreign losses to and from consolidated overall foreign loss accounts. Paragraph (c) requires that separate notional overall foreign loss accounts be kept for each member of the group that contributes to a consolidated overall foreign loss account and provides for allocation of overall foreign losses when a member leaves the group prior to recapture of the entire amount of such losses. Paragraph (d) provides rules for recapture of amounts in consolidated overall foreign loss accounts. Paragraph (e) provides special rules pertaining to section 904(f)(3) dispositions between members of a group. Paragraphs (b), (c), and (e) also contain special rules applying to overall foreign losses arising in separate return limitation years; the principles therein shall also apply to overall foreign losses where there has been a consolidated return change of ownership (as defined in §1.1502-1(g)).

(b) *Consolidated overall foreign loss accounts.* Any group sustaining an overall foreign loss (or acquiring a member having an overall foreign loss) must establish a consolidated overall foreign loss account for such loss, and amounts shall be added to and subtracted from such account as provided in §§1.904(f)-1 through 1.904(f)-6 and this section.

(1) *Additions to the consolidated overall foreign loss accounts*—(i) *Consolidated overall foreign losses.* Any consolidated overall foreign loss shall be added to the applicable consolidated overall foreign loss account for such separate limitation, to the extent that the overall foreign loss has reduced U.S. source income, in accordance with the rules of §§1.904(f)-1 and 1.904(f)-3.

(ii) *Overall foreign losses from separate return years.* If a corporation joins in the filing of a consolidated return in a taxable year in which such corporation has a balance in an overall foreign loss account from a prior separate return year that is not a separate return limitation year, such balance shall be added to the applicable consolidated overall foreign loss account in such year and treated as a consolidated overall foreign loss incurred in the previous year (and shall therefore be subject to recapture, in accordance with paragraph (d) of this section, beginning in the same year in which it is added to the consolidated overall foreign loss account).

(iii) *Overall foreign losses from separate return limitation years.* If a corporation joins in the filing of a consolidated return in a taxable year in which such corporation has a balance in an overall foreign loss account from a prior separate return limitation year, such balance shall be added to the applicable consolidated overall foreign loss account in such consolidated return year to the extent of consolidated foreign source taxable income subject to the same separate limitation (computed in accordance with §§1.904(f)-2(b) and 1.1502-4(d)(1)) minus such consolidated foreign source taxable income recomputed by excluding the items of income and deduction of such corporation (but not less than zero). The amount added to a consolidated overall foreign loss account in any taxable year under this paragraph (b)(1)(iii) shall be treated as a consolidated overall foreign loss in the previous year (and shall therefore be subject to recapture, in accordance with paragraph (d) of this section, beginning in the same year in which it is added to the consolidated overall foreign loss account).

(iv) *Overall foreign losses that are part of net operating losses or net capital losses carried over from a separate return limitation year.* Overall foreign losses that are part of a net operating loss or net capital loss carryover from a separate return limitation year of a member that is absorbed in a consolidated return year are treated as though they were added to an overall foreign loss account in a separate return limitation year of such member. See paragraph (c)(2) of this section for rules regarding the addition of such losses to the applicable overall foreign loss account of such member.

(2) *Reductions of the consolidated overall foreign loss accounts*—(i) *Amounts allocated to members leaving the group.* When a member leaves the group, each applicable consolidated overall foreign loss account shall be reduced by the amount allocated from such account to such member in accordance with paragraph (c)(3)(i) of this section.

(ii) *Amounts recaptured.* Each applicable consolidated overall foreign loss account shall be reduced by the amount of the overall foreign loss under the same separate limitation that is recaptured from consolidated income in accordance with §1.904(f)-2.

(c) *Allocation of overall foreign losses among members of an affiliated group*—(1) *Notional overall foreign loss accounts.* Separate notional overall foreign loss accounts shall be established for each member of a group that contributes to a consolidated overall foreign loss account. Additions to and reductions of such notional accounts shall be made when additions or reductions are made to consolidated overall foreign loss accounts in accordance with paragraph (b) of this section and §1.904(f)-1.

(i) *Additions to notional accounts*—(A) *Consolidated overall foreign losses.* When a consolidated overall foreign loss is added to a consolidated overall foreign loss account, each member shall add its pro rata share of the amount of such loss added to a consolidated overall foreign loss account to such member's notional overall foreign loss account. A member's pro rata share of the amount of such loss added to a consolidated overall foreign loss account for any taxable year is determined by multiplying such amount by a fraction. The numerator of this fraction is the amount by which the member's separate gross income for the taxable year from sources without the United States is exceeded by the sum of the deductions properly allocated and apportioned thereto (including such member's share of any consolidated net operating loss deduction and consolidated net capital loss carryovers and carrybacks to the taxable year), for each member with such deductions in excess of such income. The denominator of this fraction is the sum of the numerators of this fraction for all such members of the group.

(B) *Overall foreign losses from separate return years and separate return limitation years.* When an amount from a member's overall foreign loss account from a separate return year or separate return limitation year is added to a consolidated overall foreign loss account in accordance with paragraph (b)(1)(ii) or (iii) of this section,

such amount shall also be added to that member's notional overall foreign loss account for such separate limitation.

(ii) *Reductions of notional accounts.* When a consolidated overall foreign loss account is reduced by recapture, in accordance with paragraph (b)(2)(ii) of this section, each member of the group shall reduce its notional overall foreign loss account for such separate limitation by its pro rata share of the amount by which the consolidated overall foreign loss account is reduced. A member's pro rata share of the amount by which a consolidated overall foreign loss account is reduced is determined by multiplying such amount by a fraction, the numerator of which is the amount in such member's notional account under such separate limitation, and the denominator of which is the amount in the consolidated overall foreign loss account under such separate limitation before reduction for the amount recaptured for that taxable year.

(2) *Overall foreign losses that are part of net operating losses or net capital losses from separate return limitation years.* An overall foreign loss that is part of a net operating loss or net capital loss carryover from a separate return limitation year of a member that is absorbed in a consolidated return year shall be treated as an overall foreign loss of such member (rather than the group) and shall be added to such member's separate overall foreign loss account (for losses added to the member's overall foreign loss account under such separate limitation in prior separate return limitation years), to the extent it reduces U.S. source income, in accordance with §1.904(f)-1(d)(5). Such overall foreign losses shall be added to the appropriate consolidated overall foreign loss account in later years in accordance with paragraph (b)(1)(iii) of this section.

(3) *Allocation of overall foreign losses to a member leaving the group*—(i) *Consolidated overall foreign losses.* When a corporation ceases to be a member of an affiliated group filing consolidated returns, a portion of the balance in each applicable consolidated overall foreign loss account shall be allocated to such corporation. The amount allocated to such corporation shall be equal to the amount in such member's notional overall foreign loss account under the same separate limitation.

(ii) *Overall foreign losses from separate return limitation years.* When a corporation ceases to be a member of an affiliated group filing consolidated returns, it shall take with it the remaining portion of its separate overall foreign loss account for its overall foreign losses from separate return limitation years (including amounts added to such account under paragraph (c)(2) of this section) that has not been added to a consolidated overall foreign loss account under paragraph (b)(1)(iii) of this section.

(d) *Recapture of consolidated overall foreign losses.* The amount in any consolidated overall foreign loss account shall be recaptured under §§1.904(f)-1 through 1.904(f)-6 by recharacterizing consolidated foreign source taxable income subject to the limitation under which the loss arose as U.S. source taxable income. For purposes of recapture, consolidated foreign source taxable income subject to the limitation under which the loss arose shall be determined in accordance with §§1.904(f)-2 and 1.1502-4. Amounts in a member's excess loss account that are included in income under §1.1502-19 shall be subject to recapture to the extent that they are included in consolidated foreign source taxable income subject to the limitation under which the loss arose.

(e) *Dispositions of property between members of the same affiliated group during a consolidated return year*—(1) *Recapture of overall foreign loss from a separate return limitation year.* To the extent of any balance in a separate account for overall foreign losses from a separate return limitation year of a member (a "selling member") making a disposition of property to which section 904(f)(3)(A) applies to another member of the same affiliated group, no gain from such disposition shall be deferred under the rules of §1.1502-13(c).

(2) *Recapture of consolidated overall foreign loss not from a separate return limitation year.* Except as provided in paragraph (e)(1) of this section, the rules of §1.1502-13 with respect to deferral of gain shall apply to dispositions of property to which section 904(f)(3)(A) applies.

(f) *Illustrations.* The provisions of this section are illustrated by the following examples. All foreign source income or loss in these examples is subject to the section 904(d)(10(E) limitation.

Example (1). A, B, and C are the members of an affiliated group of corporations (as defined in section 1504), and all use the calendar year as their taxable year. For 1983, A, B, and C file a consolidated return. ABC has U.S. source income of $1000 and foreign source losses (overall foreign loss) of $400. In accordance with paragraph (b)(1)(i) of this section, ABC adds $400 to its consolidated overall foreign loss account at the end of 1983. For 1983, the separate foreign source taxable income (or loss) of A is $400, of B is ($200), and of C is ($600). Under paragraph (c)(1) of this section, B and C must establish separate notional overall foreign loss accounts. Under paragraph (c)(1)(i)(A) of this section, the amount added to each notional account is the pro rata share of the consolidated overall foreign loss of each member contributing to such loss. The pro rata share is determined by multiplying the consolidated loss by the member's proportionate share of the total foreign source losses of all members having such losses. B's foreign source loss is $200 and C's foreign source loss is $600, totalling $800. B must add $400 × 200/800, or $100, to its notional overall foreign loss account. C must add $400 × 600/800, or $300, to its notional overall foreign loss account.

Example (2). The facts are the same as in example (1). In 1984, ABC has consolidated foreign source taxable income of $200. Under paragraph (d) of this section and §1.904(f)-2, ABC is required to recapture $100 of the amount in its consolidated overall foreign loss account, which reduces that account by $100 under paragraph (b)(2)(ii) of this section. In accordance with paragraph (c)(1)(ii) of this section, B reduces its notional account by $100 × 100/400, or $25, and C reduces its notional account by $100 × 300/400, or $75. At the end of 1984 ABC has $300 in its consolidated overall foreign loss account, B has $75 in its notional account, and C has $225 in its notional account.

Example (3). D and E are members of an affiliated group and file separate returns using the calendar year as their taxable year for 1980. In 1980, D has an overall foreign loss of $200, which it adds to its overall foreign loss account, and E has no overall foreign losses. For 1981, D and E file a consolidated return, and DE must establish a consolidated overall foreign loss account, to which D's overall foreign loss from 1980 is added under paragraph (b)(1)(ii) of this section. D also adds the same amount to its notional account under paragraph (c)(1)(i) (B) of this section. In 1981, DE has consolidated foreign source taxable income of $300. Since the amount added to the consolidated overall foreign loss account in 1981 is treated as a consolidated overall foreign loss from 1980, DE must recapture $150 in 1981 under paragraph (d) of this section and §1.904(f)-2. DE's consolidated overall foreign loss account is reduced by $150 under paragraph (b)(2)(ii) of this section, and D's notional account is reduced by $150 under paragraph (c)(1)(ii) of this section, leaving balances of $50 in each of those accounts at the end of 1981.

Example (4). F and G are not members of an affiliated group in 1980, and G has an overall foreign loss of $200, which it adds to its overall foreign loss account. F has no overall foreign loss. On January 1, 1981, F acquires G, and FG files a consolidated return for the calendar year 1981. In 1981, F has no foreign source taxable income or loss, and G has $100 of foreign source taxable income. FG's consolidated foreign source taxable income, $100, minus such income without G's items of income and deduction, $0, is $100. Therefore $100 of G's overall foreign loss from its 1980 separate return limitation year is added to FG's consolidated overall foreign loss account under paragraph (b)(1)(iii) of this section, and the same amount is added to G's notional account under paragraph (c)(1)(i)(B) of this section. In accordance with paragraph (d) of this section and §1.904(f)-2, FG must recapture $50 of the balance in its consolidated overall foreign loss account in 1981 because the amount added from G's separate return limitation year is treated as a 1980 consolidated overall foreign loss. At the end of 1981, FG has a balance of $50 in its consolidated overall foreign loss account, G has $50 in its notional account, and G also has $100 remaining from its 1980 overall foreign loss that has not yet been added to the consolidated overall foreign loss account. On January 1, 1982, F sells G and G leaves the affiliated group. Under paragraph (c)(3)(i) of this section, $50 of the consolidated overall foreign loss account is allocated to G (an amount equal to the amount in G's notional account), and G also takes with it the balance in its overall foreign loss account from 1980 (its prior separate return limitation year) that has not been added to the consolidated account. The FG consolidated overall foreign loss account is reduced by $50 (to zero) and G has $150 of overall foreign loss in its overall foreign loss account.

Example (5). (i) In 1982 corporation H has U.S. source income of $300 and foreign source losses of $500, resulting in a net operating loss of $200 and a balance in H's overall foreign loss account at the end of 1982 of $300.

(ii) On January 1, 1983, H is acquired by J, and for the calendar year 1983 JH files a consolidated return. JH has consolidated taxable income of $700 in 1983, including a consolidated net operating loss deduction of $100. This net operating loss deduction is $100 of H's $200 net operating loss from 1982 (a separate return limitation year), which is limited by §1.1502-21(c). For 1983, H has separate taxable income of $100, comprised of $100 of U.S. source taxable income and zero foreign source taxable income, and J has separate taxable income of $700, comprised of $700 of U.S. source taxable income and zero foreign source taxable income. Under paragraph (c)(2) of this section, H adds $100 to its separate overall foreign loss account, since that amount of its net operating loss has reduced U.S. source income. H has $400 in its separate overall foreign loss account at the end of 1983, none of which has been added to a consolidated overall foreign loss account.

Example (5). (i) In 1982 corporation H has U.S. source income of $300 and foreign source losses of $500, resulting in a net operating loss of $200 and a balance in H's overall foreign loss account at the end of 1982 of $300.

(ii) On January 1, 1983, H is acquired by J, and for the calendar year 1983 JH files a consolidated return. JH has consolidated taxable income of $700 in 1983, including a consolidated net operating loss deduction of $100. This net operating loss deduction is $100 of H's $200 net operating loss from 1982 (a separate return limitation year), which is limited by §1.1502-21(c). For 1983, H has separate taxable income of $100, comprised of $100 of U.S. source taxable income and zero foreign source taxable income, and J has separate taxable income of $700, comprised of $700 of U.S. source taxable income and zero foreign source taxable income. Under paragraph (c)(2) of this section, H adds $100 to its separate overall foreign loss account, since that amount of its net operating loss has reduced U.S. source income. H has $400 in its separate overall foreign loss account at the end of 1983, none of which overall foreign loss account at the end of 1983, none of which has been added to a consolidated overall foreign loss account.

(iii) In 1984, H has separate taxable income of $400, comprised of $100 of U.S. source taxable income and $300 of foreign source taxable income. J has separate taxable income of $900, comprised of $700 of U.S. source taxable income and $200 of the foreign source taxable income. JH has consolidated taxable income of $1200, which includes $100 of consolidated net operating loss deduction from H's 1982 net operating loss. Since this net operating loss deduction is allocated to foreign source income, it does not reduce U.S. source income and will not be added to an overall foreign loss account. Under paragraph (b)(1)(iii) of this section, $200 from H's overall foreign loss is added to the consolidated overall foreign loss account computed as follows:

Consolidated foreign source taxable income	$ 400
Consolidated foreign source taxable income recomputed by excluding H's foreign source income and deductions	−200
Amount from H's separate return limitation year overall foreign loss account added to the consolidated overall foreign loss accodnt	$ 200

This amount is subject to recapture beginning in the same taxable year, as it is treated as a consolidated overall foreign loss incurred in a previous year. Therefore, under paragraph (d) of this section and §1.904(f)-2, JH also recaptures this $200, reducing the consolidated overall foreign loss account to zero. H has $200 remaining in its separate overall foreign loss account at the end of 1984.

(iv) In 1985, H has separate taxable income of $400, comprised of $100 of U.S. source taxable income and $300 of foreign source taxable income J has separate taxable income of $300 comprised of $600 of U.S. source taxable income and $300 of foreign source losses. JH has consolidated taxable income of $700, all of which is U.S. source. Under paragraph (b)(1)(iii) of this section, the remaining $200 from H's separate overall foreign loss is added to the consolidated overall foreign loss account, computed as follows:

Consolidated foreign source taxable income	$ 0
Consolidated foreign source taxable income recomputed by excluding H's foreign source income and deductions	(− 300)
Amount from H's separate return limitation year overall foreign loss account that may be added to the consolidated overall foreign loss account	$ 300

Thus, the entire $200 balance of H's separate overall foreign loss is added to the consolidated overall foreign loss account, and, under paragraph (c)(1)(i)(B) of this section, the same amount is added to H's notional account. While this amount is subject to recapture beginning in the same taxable year, JH has no consolidated foreign source taxable income in 1985, so no overall foreign loss is recaptured.

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on January 23, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 24, 1986, 51 F.R. 3193)

Correction to Publication 510

Announcement 86-27

Publication 510, *Excise Taxes for 1986* (Revised October 1985), contains several errors. On page 7, under the heading "Articles not subject to tax," the phrase "unless there has been a bead-to-bead recapping or retreading," should be deleted from the paragraph beginning "Recapped or retreaded tires." On page 7, in the paragraph under "Fuel Economy," the name of Form 6197 should be "Gas Guzzler Tax." In the second full paragraph on page 8, the tax rate should be *4½* cents per gallon.

Correction to Publications 527 and 17

Announcement 86-28

Publication 527, Rental Property (Rev. Nov. 85), contains an error in Example 1 on page 7. The townhouse in the example should be depreciated over an 18-year recovery period, not the 15-year recovery period shown. Correct depreciation on the townhouse is $5,850 ($65,000 × 9%). Therefore, total depreciation on the rental property is $5,914, and the net rental loss for the townhouse is $4,411.

This error also appears on page 55 of Publication 17, Your Federal Income Tax (Rev. Nov. 85).

Correction to Rev. Rul. 86-33

Announcement 86-33

Rev. Rul. 86-33, 1986-9 I.R.B. 17, contains an error in the last line of the second paragraph under FACTS. The acronym "FBCSI" should be replaced by "foreign base company income."

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Dal H. Felkel	Kingstree, SC	Certified Public Accountant	Indefinite from January 31, 1986
John J. Matonis	Walnut, CA	Attorney	Indefinite from January 24, 1986
Joel A. Shor	Baltimore, MD	Certified Public Accountant	Five Months from December 15, 1985
Patrick H. Diamond	New York, NY	Attorney & Certified Public Accountant	Indefinite from February 10, 1986
Folger P. Gifford	Cold Spring Harbor, NY	Certified Public Accountant	Indefinite from February 11, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

T.D. 8071, page 4.

Amendments to the regulations under section 166 of the Code relate to the treatment of reserves for certain guaranteed debt obligations.

T.D. 8072, page 7.

LR-191-82, page 28.

Temporary and proposed regulations under section 338 of the Code relate to the determination of the basis of assets of a target corporation. In addition, existing temporary regulations relating to miscellaneous matters under section 338 are amended.

EXEMPT ORGANIZATIONS

Announcement 86-29, page 28.

A list is given of organizations now classified as private foundations.

ESTATE TAX

Rev. Rul. 86-38, page 22.

State death tax paid in installments. When an estate elects to pay the federal estate tax in installments and also elects to pay state death taxes in annual installments over a period longer than four years from the date of the filing of the federal estate tax return, the exception described in section 2011(c)(2) of the Code is applicable. State death taxes paid by the estate more than four years after the filing of the federal estate tax return are not eligible for the credit described in section 2011 when none of the exceptions described in sections 2011(c)(1) through (3) are applicable.

ESTATE AND GIFT TAXES

Rev. Rul. 86-39, page 23.

Recapitalization; shift in value of trust assets; release of general power of appointment. Acquiescence in a recapitalization of closely held stock in a trust is a transfer by the trust beneficiary subject to the gift tax, where the recapitalization results in a shift in the beneficiary's interest by decreasing the value of the remainder interest over which the beneficiary has a general power of appointment.

EXCISE TAXES

Notice 86-4, page 26.

Windfall profit tax; inflation adjustment factor. For purposes of computing the windfall profit tax, the inflation adjustment for the quarter ending June 30, 1986, is 0.4524 for tier 1 or tier 2 oil and 0.6535 for tier 3 oil.

ADMINISTRATIVE

Rev. Proc. 86-15, page 26.

Publication standards; revenue rulings and revenue procedures. The objectives of, and standards for, publication of revenue rulings and revenue procedures in the Internal Revenue Bulletin are revised to reflect the reorganization of the Internal Revenue Service in accordance with Treasury Department Order No. 150-95, effective March 21, 1982, under Delegation Order No. 190, the establishment of the office of the Associate Chief Counsel (International), and the responsibility of the Assistant Commissioner (Support and Services) for publishing the Internal Revenue Bulletin. Rev. Proc. 78-24 superseded.

Announcement 86-30, page 29.

The instructions to Form 8308 are clarified.

Finding Lists begin on page 33.
Announcement of Suspensions on page 31.
Announcement of Notice of Proposed Rulemaking on page 32.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 166.—Bad Debts

26 CFR 1.166-1: Bad debts.
(Also Section 381: 1.381(c)(4)-1.)

T.D. 8071

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Reserve for Certain Guaranteed Debt Obligations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the treatment of reserves for certain guaranteed debt obligations. Changes in the applicable tax law were made by the Act of November 2, 1966 [Pub. L. 89-722, 1966-2 C.B. 645]. The regulations provide the public with the guidance needed to comply with that Act and affect taxpayers who have a reserve for guaranteed debt obligations or intend to set up such a reserve.

DATES: The amendments are generally effective for taxable years ending after October 21, 1965.

FOR FURTHER INFORMATION CONTACT: Bruce H. Jurist of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3238, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On July 11, 1980, proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 166(f) of the Internal Revenue Code of 1954 were published in the FEDERAL REGISTER (45 FR 46815). The amendments were proposed to conform the regulations to changes made by the Act of November 2, 1966 (Pub. L. 89-722, 80 Stat. 1151) (the Act) [1966-2 C.B. 645], which added section 166(g) to the Internal Revenue Code of 1954. Section 166(g) was redesignated as section 166(f) by section 605 of the Tax Reform Act of 1976 (90 Stat. 1575) [Pub. L. 94-455, 1976-3 C.B. (Vol. 1), 51]. No public hearing was requested and accordingly none was held. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision.

DISCUSSION

Section 166(f)(1) provides that a taxpayer who is a dealer in property may take an income tax deduction for reasonable additions to a reserve for bad debts which may arise from the dealer's contingent liability as a guarantor, endorser, or indemnitor of debt obligations arising out of the sale by the dealer of real property or tangible personal property (including related services) in the ordinary course of the dealer's trade or business.

Section 166(f)(2) makes section 166(f)(1) the exclusive section under which a deduction is allowable for an addition to a reserve for guaranteed debt obligations.

Section 166(f)(3) provides that a taxpayer shall establish an opening balance for a reserve for section 166(f)(1)(A) guaranteed obligations as if the taxpayer had maintained the reserve in prior years.

To prevent a doubling up of deductions in the period of transition from the specific charge-off method of treating these obligations to the new method, sections 81 and 166(f)(1)(B) mandate an addition to or a deduction from income based upon a required annual adjustment to the suspense account.

In addition, section 1(c) of the Act allows taxpayers a grace period in which to adopt such a reserve method without obtaining the permission of the Service. This Treasury decision extends that grace period until April 17, 1986.

Nothing in the new law or these regulations would affect the longstanding principle that additions to a reserve for bad debts previously deducted in computing taxable income must be included in taxable income when and to the extent that the reserve is longer necessary.

PUBLIC COMMENTS

The sole comment received requested that §1.166-10(d) be made prospective and apply only to returns filed after July 10, 1980, because a literal reading of §1.166-10(d) as set forth in the notice of proposed rulemaking seemed to require the filing of amended returns for any open year in which the taxpayer claimed deductions for additions to reserves for guaranteed debt obligations. Therefore, the Treasury decision makes it clear that the filing requirement set forth in §1.166-10(d) applies only to returns filed after April 17, 1986.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. Although a notice of proposed rulemaking soliciting public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these regulations are not subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these proposed regulations is Bruce H. Jurist of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

* * * * *

Proposed amendments to the regulations.

Accordingly 26 CFR Part 1 and Part 602 are amended as follows:

INCOME TAX REGULATIONS
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.166-10 also issued under 26 U.S.C. 166(f).

Par. 2. Section 1.166-1 is amended by adding a new paragraph (b)(4) to read as follows:

§1.166-1 Bad debts.

* * * * *

(b) *Manner of selection method.* * * *

(4) Notwithstanding paragraph (b)(1), (2), and (3) of this section, a dealer in property currently employing the accrual method of accounting and currently maintaining a reserve for bad debts under section 166(c) (which may have included guaranteed debt obligations described in section 166(f)(1)(A)) may establish a reserve for section 166(f)(1)(A) guaranteed debt obligations for a taxable year ending after October 21, 1965 under section 166(f) and §1.166-10 by filing on or before April 17, 1986, an amended return indicating that such a reserve has been established. The establishment of such a reserve will not be considered a change in method of accounting for purposes of section 446(e). However, an election by a taxpayer to establish a reserve for bad debts under section 166(c) shall be treated as a change in method of accounting. See also §1.166-4, relating to reserve for bad debts, and §1.166-10, relating to reserve for guaranteed debt obligations.

* * * * *

Par. 3. Paragraph (a) of §1.166-4 is amended by adding at the end thereof the following:

§1.166-4 Reserve for bad debts.

(a) *Allowance of deduction.* * * *

This paragraph applies both to bad debts owed to the taxpayer and to bad debts arising out of section 166(f)(1)(A) guarantees debt obligations. If a reserve is maintained for bad debts arising out of section 166(f)(1)(A) guaranteed debt obligations, then a separate reserve must also be maintained for all other debt obligations of the taxpayer in the same trade or business, if any. A taxpayer may not maintain a reserve for bad debts arising out of section 166(f)(1)(A) guaranteed debt obligations if with respect to direct debt obligations in the same trade or business the taxpayer takes deductions when the debts become worthless in whole or in part rather than maintaining a reserve for such obligations. See §1.166-10 for rules concerning section 166(f)(1)(A) guaranteed debt obligations.

* * * * *

Par. 4. The following new section is inserted immediately after §1.166-9:

§1.166-10 Reserve for guaranteed debt obligations.

(a) *Definitions.* The following provisions apply for purposes of this section and section 166(f);

(1) *Dealer in property.* A dealer in property is a person who regularly sells property in the ordinary course of the person's trade or business.

(2) *Guaranteed debt obligation.* A guaranteed debt obligation is a legal duty of one person as a guarantor, endorser or indemnitor of a second person to pay a third person. It does not include duties based solely on moral or good public relations considerations that are not legally binding. A guaranteed debt obligation typically arises where a seller receives in payment for property or services the debt obligation of a purchaser and sells that obligation to a third party with recourse. However, a guaranteed debt obligation also may arise out of a sale in respect of which there is no direct debtor-creditor relationship between the debtor purchaser and the seller. For example, it arises where a purchaser borrows money from a third party to make payment to the seller and the seller guarantees the payment of the purchaser's debt. Generally, debt obligations which are sold without recourse do not result in any obligation of the seller as a guarantor, endorser, or indemnitor. However, there are certain without-recourse transactions which may give rise to a seller's liability as a guarantor or indemnitor. For example, such a liability may arise where a holder of a debt obligation holds money or other property of a seller which the holder may apply, without seeking permission of the seller, against any uncollectible debt obligations transferred to the holder by the seller without recourse, or where the seller is under a legal obligation to require the real or tangible personal property from the holder of the debt obligation who repossessed property in satisfaction of the debt obligations.

(3) *Real or tangible personal property.* Real or tangible personal property generally does not include other forms of property, such as securities. However, if the sale of other property is related to the sale of actual real or tangible personal property, the other property will be considered to be real or tangible personal property. In order for the sale of other property to be related, it must be—

(i) Incidental to the sale of the actual real or tangible personal property; and

(ii) Made under an agreement, entered into at the same time as the sale of actual real or tangible personal property, between the dealer in that property and the customer with respect to that property.

The other property may be charged for as a part of, or in addition to, the sales price of the actual real or tangible personal property. If the value of the other property is not greater than 20 percent of the total sales price, including the value of all related services other than financing services, the sale of the other property is related to the sale of actual real or tangible personal property.

(4) *Related services.* In the case of a sale of both property and services a determination must be made as to whether the services are related to the property. Related services include only those services which are—

(i) Incidental to the sale of the real or tangible personal property; and

(ii) To be performed under an agreement, entered into at the same time as the sale of the property, between the dealer in property and the customer with respect to the property.

Delivery, financing, installation, maintenance, repair, or instructional services, generally qualify as related services. The services may be charged for as a part of, or in addition to, the sales price of the property. Where the value of all services other than financing services is not greater than 20 percent of the total of the sales price of the property, including the value of all the services other than financing services, all of the services are considered to be incidental to the sale of the property. Where the value of the services is greater than 20 percent, the determination as to whether a service is a related service in a particular case is to be made on the basis of all relevant facts and circumstances.

(5) *Examples*. The following examples apply to paragraph (a)(4) of this section:

Example (1). A, a dealer in television sets, sells a television set to B, his customer. If at the time of the sale A, for a separate charge which is added to the sales price of the set and which is not greater than 20 percent of the total sales price, provides a 3-year service contract on only that television set, the service contract is a related service agreement. However, if A does not sell the service contract to B contemporaneously with the sale of the television set, as would be the case if the service agreement were entered into after the sale of the set were completed, or if the service contract includes services for a television set in addition to the one then sold by A to B, the service contract is not an agreement for a related service.

Example (2). C, an automobile dealer, at the time of the sale by C of an automobile to D, agrees to make available to D driving instructions furnished by the M driving school, the cost of which is included in the sale price of the automobile and is not greater than 20 percent of the total sales price. C also agrees to pay M for the driving instructions furnished to D. Since C's agreement with D to make available driving instructions is incidental to the sale of the automobile, is made contemporaneously with the sale, and is charged for as part of the sales price of the automobile, it is an agreement for a related service. In contrast, however, because M's agreement with C is not an agreement between the dealer in property and the customer, M's agreement with C to provide driving instructions to C's customers is not an agreement for a related service.

(b) ***Incorporation by reference of section 166(c) rules***. A reserve for section 166(f)(1)(A) guaranteed debt obligations must be established and maintained under the rules applicable to the reserve for bad debts under section 166(c) (with the exception of the statement requirement under §1.166-4(c)). For example, the rules in §1.166-4(b), relating to what constitutes a reasonable addition to a reserve for bad debts and to correction of errors in prior estimates, apply to a reserve for section 166(f)(1)(A) guaranteed debt obligations as well.

(c) *Special requirements*. Any reserve for section 166(f)(1)(A) guaranteed debt obligations must be established and maintained separately from any reserve for other debt obligations. In addition, a taxpayer who charges off direct debts when they become worthless in whole or in part rather than maintaining a reserve for such obligations may not maintain a reserve for section 166(f)(1)(A) guaranteed debt obligations in the same trade or business.

(d) *Requirement of statement*. A taxpayer who uses the reserve method of treating section 166(f)(1)(A) guaranteed debt obligations must attach to his return for each taxable year, returns for which are filed after April 17, 1986, and for each trade or business for which the reserve is maintained a statement showing—

(1) The total amount of these obligations at the beginning of the taxable year;

(2) The total amount of these obligations incurred during the taxable year;

(3) The amount of the initial balance of the suspense account, if any, established with respect to these obligations;

(4) The balance of the suspense account, if any, at the beginning of the taxable year;

(5) The adjustment, if any, to that account;

(6) The adjusted balance, if any, at the close of the taxable year;

(7) The reconciliation of the beginning and closing balances of the reserve for these obligations and the computation of the addition to the reserve; and

(8) The taxable year for which the reserve for these obligations was established.

(e) *Computation of opening balance*—(1) *In general*. The opening balance of a reserve for section 166(f)(1)(A) guaranteed debt obligations established for the first taxable year for which a taxpayer maintains such a reserve shall be determined as if the taxpayer had maintained such a reserve for the taxable years preceding that taxable year. The amount of the opening balance may be determined under the following formula:

$$OB = CG \times \frac{SNL}{SG}$$

where—

OB = the opening balance at the beginning of the first taxable year

CG = the amount of these obligations at the close of the last preceding taxable year

SG = the sum of the amounts of these obligations at the close of the five preceding taxable years

SNL = the sum of the amounts of net losses arising from these obligations for the five preceding taxable years

(2) ***Example***. The following example applies to paragraph (e)(1) of this section.

Example. For 1977, A, a dealer in automobiles who uses the calendar year as the taxable year, adopts in accordance with this section the reserve method of treating section 166(f)(1)(A) guaranteed debt obligations. A's first year in business as an automobile dealer is 1973. For 1972, 1973, and 1974, 1975, and 1976, A's records disclose the following information with respect to these obligations:

Year	Obligations outstanding at close of year	Gross losses from these obligations	Recoveries from these obligations	Net losses from these obligations
1972	$0	$0	$0	$0
1973	780,000	9,700	1,000	8,700
1974	795,000	8,900	1,050	7,850
1975	850,000	8,850	850	8,000
1976	820,000	9,300	1,400	7,900
Total	3,245,000	36,750	4,300	32,450

The opening balance for 1977 of A's reserve for these obligations is $8,200, determined as follows:

$$\$8,200 = \$820,000 \times \frac{\$32,450}{\$3,245,000}$$

(3) ***More appropriate balance***. A taxpayer may select a balance other than the one produced under paragraph (e)(1) of this section if it is more appropriate, based upon the taxpayer's actual experience, and in the event the taxpayer's return is examined, if the balance is approved by the district director.

(4) ***No losses in the five preceding taxable years***. If a taxpayer is in the

taxpayer's first taxable year of a particular trade or business, or if the taxpayer has no losses arising from section 166(f)(1)(A) guaranteed debt obligations in a particular trade or business for any other reason in the five preceding taxable years, then the taxpayer's opening balance is zero for that particular trade or business.

(5) *Where reserve method was used before October 22, 1965.* If for a taxable year ending before October 22, 1965, the taxpayer maintained a reserve for bad debts under section 166(c) which included guaranteed debt obligations described in section 166(f)(1)(A), and if the taxpyaer is allowed a deduction referred to in paragraph (g)(2) of this section on account of those obligations, the amount of the opening balance of the reserve for section 166(f)(1)(A) guaranteed debt obligations for the taxpayer's first taxable year ending after October 21, 1965, shall be an amount equal to that portion of the section 166(c) reserve at the close of the last taxable year which is attributable to those debt obligations. The amount of the balance of the section 166(c) reserve for the taxable year shall be reduced by the amount of the opening balance of the reserve for those guaranteed debt obligations.

(f) *Suspense account*—(1) *Zero opening balance cases.* No suspense account shall be maintained if the opening balance of the reserve for section 166(f)(1)(A) guaranteed debt obligations under section 166(f)(3) is zero.

(2) *Example.* The following example applies to section 166(f)(4)(B), relating to adjustments to the suspense account:

Example. In 1977, A, an individual who operates an appliance store and uses the calendar year as the taxable year, adopts the reserve method of treating section 166(f)(1)(A) guaranteed debt obligations. The initial balance of A's suspense account is $8,200. At the close of 1977, 1978, 1979, and 1980, the balance of A's reserve for these obligations is $8,400, $8,250, $8,150, and $8,175, respectively, after making the addition to the reserve for each year. The adjustments under section 166(f)(4)(B) to the suspense account at the close of each of the years involved are as follows:

(1) Taxable year	1977	1978	1979	1980
(2) Closing reserve account balance	$8,400	$8,250	$8,150	$8,175
(3) Opening suspense account balance	8,200	8.200	8,200	8,150
(4) Line (2) less line (3)	200	50	(50)	25
(5) Adjustment to suspense account balance	0	0	(50)	25
(6) Closing suspense account balance (line 3 plus line 5)	8,200	8,200	8,150	8,175

(g) *Effective date*—(1) *In general.* this section is generally effective for taxable years ending after October 21, 1965.

(2) *Transitional rule.* Section 2(b) of the Act of November 2, 1966 (Pub. L. 89-722, 80 Stat. 1151) allows additions to section 166(c) bad debt reserves in earlier taxable years on account of section 166(f)(1)(A) guaranteed debt obligations to be deducted for those earlier taxable years. Paragraphs (c), (d), (e), and (f) of this section do not apply in determining whether a deduction is allowed under section 2(b) of the Act. See Rev. Rul. 68-313 (1968-1 C.B. 75) for rules relating to that deduction.

Par. 5. Paragraph (a)(1)(ii) of §1.381(c)(4)-1 is amended by inserting a new sentence between the second and third sentences. The new sentence reads as follows:

§1.381(c)(4)-1 Method of accounting.

(a) *Carryover requirement*—(1) *General rule.* * * *

(ii) * * * The acquiring corporation shall also take into its accounts the dollar balance of that account of the distributor or transferor corporation which represents a suspense account established by the distributor or transferor corporation under section 166(f)(4) in taxable years ending on or before the date of distribution or transfer.* * *

OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

(26 CFR Part 602)

Par. 6. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 7. Section 602.101(c) is amended by inserting in the appropriate places in the table "§1.661-1(b)(4) . . 1545-0123" and "§1.166-10 . . 1545-0123."

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

Approved October 16, 1985.

RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury.

Section 338.—Certain Stock Purchases Treated as Asset Acquisitions

26 CFR 1.338-4T: Questions and answers relating to miscellaneous issues under section 338 (temporary).

TD. 8072

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Temporary Regulations Under Section 338(b) of the Internal Revenue Code of 1954

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to section 338(b) of the Internal Revenue Code of 1954 ("Code") as added by the Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") [Pub. L. 97-248, 1982-2 C.B. 462]. This document also contains amendments to other temporary regulations under section 338. The temporary regulations provide guidance to taxpayers concerning the application of section 338. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced * * *[on page 28, this Bulletin].

DATES: These regulations are effective January 29, 1986. These temporary regulations under section 338(b) and the amendments to the temporary regulations generally apply to stock acquisitions made after August 31, 1982.

FOR FURTHER INFORMATION CONTACT: Patricia Wendlandt or

Bennett C. Steinhauer of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3458, not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document adds new temporary regulations §§1.338(b)-1T through 1.338(b)-3T to Part 1 of Title 26 of the Code of Federal Regulations to implement section 338(b) of the Code. Section 338(b) was originally added by section 224 of TEFRA (Pub. L. No. 97-248; 96 Stat. 485) [1982-2 C.B. 462, 501] and was amended by section 712(k) of the Tax Reform Act of 1984 (TRA) (Pub. L. 98-369; 98 Stat. 948) [1984-3 C.B. (Vol. 1), 1 456].

EXPLANATION OF PROVISIONS

INTRODUCTION

Section 338, generally, provides that, if the stock of a corporation ("target") is acquired by another corporation ("purchasing corporation") in a qualified stock purchase, the purchasing corporation may elect (or may be deemed to elect under certain consistency rules) to have the target treated as if it had sold in a single transaction all of its assets (as "old target") and then purchased those assets (as "new target"). The deemed sale of assets by old target takes place at the close of the day on which the purchase occurred ("acquisition date") and generally is governed by the nonrecognition provisions of section 337. New target is deemed to purchase those assets ("acquisition date assets") at the beginning of the day after the acquisition date. Section 338(b) sets forth the framework for determining the aggregate amount of new target's deemed purchase price of old target's assets ("adjusted grossed-up basis") and allocating this amount among new target's acquisition date assets.

The temporary regulations implement section 338(b) in three sections. The first, §1.338(b)-1T, provides rules to determine adjusted grossed-up basis generally as of the beginning of the day after the acquisition date. Section 1.338(b)-2T provides rules for allocating adjusted grossed-up basis, as determined under §1.338(b)-1T, among the acquisition date assets of new target. Sections 1.338(b)-1T and 1.338 (b)-2T also apply to certain increases (or decreases) in adjusted grossed-up basis that are attributable to increases (or decreases) in amounts paid for old target's stock, to reductions in old target's liabilities that were into account in determining adjusted grossed-up basis, or to liabilities of old target that become fixed and determinable if such events (collectively referred to as "adjustment events") occur during new target's first taxable year. The third, §1.338(b)-3T, provides rules for determining and allocating adjusted grossed-up basis attributable to adjustment events occurring after new target's first taxable year.

ADJUSTED GROSSED-UP BASIS

Adjusted grossed-up basis is the sum of (1) the basis of target's recently purchased stock (grossed-up to account for minority interests by multiplying the basis by the fraction set forth in section 338(b)(4)), (2) the basis of target's nonrecently purchased stock, (3) the liabilities of new target as of the beginning of the day after the acquisition date (other than liabilities that were not liabilities of old target), and (4) other relevant items. As previously stated, adjusted grossed-up basis is ordinarily determined at the beginning of the day after the acquisition date. However, adjustment events occurring by the close of new target's first taxable year are taken into account in determining adjusted grossed-up basis as if they had occurred at the beginning of the day after the acquisition date.

The liabilities of target accounted for in adjusted grossed-up basis include the liabilities to which its assets are subject. Except in the case of a qualified stock purchase for which an election is made under section 338(h)(10), liabilities also include income tax liabilities of old target resulting from the deemed sale of its assets. For a liability to be included in adjusted grossed-up basis, it must be a bona fide liability of target at the beginning of the day after the acquisition date that is properly includible in basis under principles of tax law that would apply if target had acquired its assets as of the beginning of the day after the acquisition date from an unrelated party and, as part of the transaction, had assumed or taken property subject to the liability. Liabilities excluded under that rule, however, are taken into account under principles of tax law that would apply if target had acquired its assets from an unrelated person and, as part of the transaction, had assumed or taken property subject to those liabilities. See §1.338(b)-3T for application of these principles of tax law to certain contingent liabilities that are initially excluded from adjusted grossed-up basis.

Grossed-up basis is also adjusted for "other relevant items." For this purpose, "other relevant items" include adjustment events occuring after new target's first taxable year. The rules governing the timing and allocation of these adjustments are in §1.338(b)-3T. If the amount of adjusted grossed-up basis of a target allocated to the stock of its subsidiary that is also a target is subsequently increased (or decreased) by reason of an other relevant item, the grossed-up basis of the subsidiary's stock (and adjusted grossed-up basis) is also increased (or decreased) as if the increase (or decrease) in basis of the subsidiary's stock was an adjustment to the purchase price deemed paid by the target parent.

Upon the examination of a return the Internal Revenue Service also may increase (or decrease) adjusted grossed-up basis under the authority of section 338(b)(2) for other items and allocate such amounts to target assets under the authority of section 338(b)(5) so that adjusted grossed-up basis and the basis of target assets properly reflect the purchasing corporation's cost of those assets. Such items may include distributions from target to the purchasing corporation, capital contributions from the purchasing corporation to target during the 12-month acquisition period, or acquisitions of target stock by the purchasing corporation after the acquisition date from minority shareholders at an average price which is lower than the average cost of recently purchased stock. In determining whether an adjustment is appropriate when stock is purchased after the acquisition date from minority shareholders at an average price which is lower than the average cost of recently purchased stock, the Internal Revenue Service will take into account all the facts and circumstances, which may include the account of the price differential and the reason therefor, the number of shares purchased after the acquisition date, the timing of the purchase, and the source of the additional shares.

ALLOCATION OF ADJUSTED GROSSED-UP BASIS

Adjusted grossed-up basis is generally allocated among the target assets as of the beginning of the day after the acquisition date. Prior to any allocation, adjusted grossed-up basis is reduced by the amount of cash, deposits in banks and similar depository institutions, and any other similar cash items designed by the Internal Revenue Service ("Class I assets"). The balance is generally alocated among the remaining assets of target in proportion to their fair market values as of the beginning of the day after the acquisition date in the following order:

1. Certificates of deposit, U.S. government securities, certain readily marketable stocks and securities, foreign currency, and any other similar items designated by the Internal Revenue Service ("Class II assets");
2. All other assets of target except assets in the nature of goodwill and going concern value ("Class III assets"); and
3. Intangible assets in the nature of goodwill and going concern value ("Class IV assets").

Because of the difficulty in valuing goodwill and going concern value, it was decided to value and assign basis to other assets first, with the residual excess (*i.e.*, the amount of adjusted grossed-up basis over the amount allocated to those other assets), if any, being assigned to goodwill and going concern value.

Section 1.338(b)-2T(c)(3) prescribes a special rule (the pro rata rule) for allocation of adjusted grossed-up basis when the purchasing corporation holds nonrecently purchased stock with an average basis lower than the average basis of its recently purchased stock. This special rule is provided in order to prevent an insufficient allocation of basis to assets in the nature of goodwill or going concern value. Solely for the purpose of allocating adjusted grossed-up basis, the fair market value of goodwill or going concern value is deemed to be the excess, if any, of the hypothetical purchase price (determined in accordance with §1.338(b)-2T(c)(3)(ii)) over the sum of the amount of Class I assets and the fair market values of Class II and III assets. The hypothetical purchase price is the basis of recently purchased stock (grossed-up to account for minority interests and nonrecently purchased stock), plus target's liabilities and other relevant items that are taken into account in determining adjusted grossed-up basis. Finally, adjusted grossed-up basis is allocated (after reduction by the amount of Class I assets of target) among the Class II, III, and IV assets in proportion to their fair market values as of the beginning of the day after the acquisition date. Changes in the price paid for recently or nonrecently purchased stock after the close of new target's first taxable year are not taken into account in determining whether this special basis allocation rule applies.

The amount of adjusted grossed-up basis allocated to an asset, other than those in the future of goodwill and going concern value, cannot exceed its fair market value. The "fair market value" of an asset is its fair market value determined without regard to mortgages, liens, pledges, or other liabilities.

Under the foregoing allocation rules (and unlike the rules under pre-TEFRA section 334(b)(2)), liabilities to which an asset is subject are no longer to be specifically allocated to the asset. The so-called specific lien rule has not been followed for purposes of allocating basis because in certain circumstances the rule could inappropriately shift the allocation of basis from some assets to others.

In general, §1.1001-2(a)(3) provides that the discharge of a liability incurred by reason of the acquisition of property is not included in the amount realized from the sale or other disposition of the property to the extent the liability was not taken into account in determining the transferor's basis of such property. For purposes of applying §1.1001-2(a) in determining the amount realized on a sale or other disposition of property deemed purchased by new target, the amount of any liability included in adjusted grossed-up basis is considered to be an amount taken into account in determining new target's basis in the property which is secured by such liability. Thus, if a liability is included in adjusted grossed-up basis, §1.1001-2(a)(3) shall not prevent the amount of such liability from being treated as discharged within the meaning of §1.1001-2(a)(4).

If the amount of basis of an asset acquired in a sale or exchange is limited under a provision of the Internal Revenue Code or principles of tax law, then the amount of adjusted grossed-up basis allocated to the asset is so limited. Thus, for example, the amount of the adjusted grossed-up basis allocated a player contract described in section 1056 cannot exceed the limitation imposed by that section.

Amendments are made to §1.338-4T to require, in cases in which section 338(h)(10) is not elected, that the fair market value of an asset (other than goodwill or going concern value) used to determine the amount of any gain (or loss) recognized under section 338(a)(1) or (c)(1) to be the same as the fair market value used to allocate basis under these temporary regulations. Similarly, the allocation fraction described in §1.338-4T(h)(3) *Answer 2* (vi)(E) (relating to allocation of aggregate deemed sale price under the elective formula under section 338(h)(11)) must assign the same fair market value to a given asset that is assigned to such asset for purposes of the basis allocation rules. The amounts assigned as fair market values are subject to section 7701(h) (relating to fair market value in the case of nonrecourse indebtedness).

Section 1.338-4T is also amended to prescribe that aggregate deemed sale price calculated under the elective formula must be allocated in a manner consistent with the allocation of adjusted grossed-up basis. Thus, aggregate deemed sale price, after reduction for Class I assets, generally is allocated among Class II assets, then among Class III assets, with the residual excess, if any, allocated to Class IV assets.

SUBSEQUENT ADJUSTMENTS TO ADJUSTED GROSSED-UP BASIS

Section 1.338(b)-3T provides rules for adjustments to adjusted grossed-up basis for adjustment events occurring after the close of new target's first taxable year. It also provides rules for the allocation of those adjustments among target's acquisition date assets. These rules provide for the incorporation of general principles of tax law which are applicable to the determination of the basis of assets acquired in actual asset purchases. See the discussion in the following section for the application of similar principles with respect to adjustments of the aggregate deemed sale price of old target's assets.

Contingent amounts paid by the purchasing corporation for target stock held on the acquisition date and liabilities of old target that become fixed and determinable after the close of new target's first taxable year (basis increase amounts) are taken into account in adjusted grossed-up basis when the amount becomes fixed and determinable. Basis increase amounts are allocated among target's acquisition date assets in accordance with the general allocation rules set forth in §1.338(b)-2T, subject to the limitation rules contained in that section. Thus, in general, the aggregate amount of adjusted grossed-up basis allocated to an acquisition date asset may not exceed the asset's fair market value at the beginning of the day after the acquisition date, except for assets in the nature of goodwill or going concern value.

If an acquisition date asset has been disposed of (or depreciated, amortized, or depleted) before a basis increase amount is included in adjusted grossed-up basis, the amount of adjusted grossed-up basis that would otherwise be allocated to the asset under §1.338(b)-2T is treated under principles of tax law applicable when part of the cost of an asset is paid after the asset has been disposed of (or depreciated, etc.). Thus, for example, an amount of adjusted grossed-up basis otherwise allocable to a disposed of capital asset may be deducted by new target as a capital loss. See *Arrowsmith v. Commissioner*, 344 U.S. 6 (1952).

The rule for reductions (or rebates) in the amount paid for target stock held on the acquisition date and reductions in old target's liabilities that were taken into account in determining adjusted grossed-up basis (basis decrease amounts) is similar to the one for basis increase amounts, except that basis decrease amounts are allocated to target's acquisition date assets in the reverse of the order in which adjusted grossed-up basis is allocated under §1.338(b)-2T. Thus, as general rule, basis decrease amounts are allocated first among the acquisition date assets in the nature of goodwill and going concern value of the extent of their bases, and then as a reduction in the basis of target's other acquisition date assets.

The basis decrease amount is taken into account for purposes of calculating adjusted grossed-up basis and basis of target's assets when the reduction occurs. Similar principles of tax law apply to amounts that are allocable to acquisition date assets that have been disposed of (or depreciated, etc.) as those that apply to basis increase amounts.

If the pro rata rule was used to allocate basis, special rules apply to account for basis increase amounts (or basis decrease amounts).

The temporary regulations provide a special rule for allocating a basis increase amount (or basis decrease amount) resulting from adjustment events that directly relate to the income produced by a particular intangible asset, such as a patent, copyright, or secret process ("contingent income assets"), as long as the basis increase amount (or basis decrease amount) does not relate to other target assets. Subject to the limitations in §1.338(b)-2T(c)(1) and (2), the basis increase amount (or basis decrease amount) is first allocated to the contingent income asset and then to other target assets. Solely for purposes of applying the various limitation rules to a contingent income asset, its fair market value may be redetermined as of the time when the basis increase amount (or basis decrease amount) is taken into account. In appropriate cases, the Internal Revenue Service may apply the principles of this provision to reallocate a basis increase amount (or basis decrease amount) among some of target's assets to the extent such allocation is necessary to reflect properly the consideration that relates to each of those assets.

OLD TARGET'S DEEMED SALE

Section 1.338(b)-3T(h) provides that the price at which old target is deemed to have sold its assets must be adjusted to take into account events occurring after the acquisition date as required under general principles of tax law. In making this determination, the recognition of income, loss, or other amount shall not be precluded because old target is treated as a new corporation after the acquisition date. For example, if an elective formula under section 338(h)(11) is used to determine the aggregate deemed sale price, that price generally must be increased by the amount of any additional payments made to the seller for recently purchased stock. Accordingly, to the extent general tax law principles would require seller to account for adjustment events, target (or a member of the selling consolidated group in the event of an election under section 338(h)(10)) must make such an accounting, which may result in reporting income, loss, or other amount.

If no election is made under section 338(h)(10), any income, loss, or other amount resulting from such change is included in new target's income tax return for the taxable year in which the adjustment event occurs. Although included in new target's return, such income, loss, or other amount is separately accounted for as an item of income, loss, or other amount of old target. Therefore, such income, loss, or other amount may not be offset by income, loss, etc. of new target. Any increase (or decrease) in new target's income tax liability by reason of this rule is allocated among new target's acquisition date assets. Also, if no election is made under section 338(h)(10), net operating losses and net capital losses of old target may be carried forward to offset income items described above. Similarly, any ordinary or capital loss of old target accounted for as a separate item after the acquisition date may be carried back to taxable years of old target. For these purposes, new target's taxable years shall not be taken into account in applying the taxable-year limitation (generally 15 years for ordinary losses and 5 years for capital losses) or loss carryovers or the taxable-year limitation (generally 3 years) or loss carrybacks. Thus, if old target has an unexpired net operating loss at the close of its taxable year in which the deemed asset sale occurred which could have been carried forward to a subsequent taxable year, such loss may be carried forward until it is absorbed by old target's income. A similar rule allows tax credit carryovers of old target to offset any tax on the income items of old target described above.

If an election is made under section

338(h)(10), any income, loss, or other amount resulting from such change is accounted for and reported by the appropriate member of the selling consolidated group for the taxable year in which the adjustment event occurs. In applying carryover and carryback limitations in such cases, the special rules relating to the application of the taxable-year limitation for losses provided in the preceding paragraph are inapplicable.

AMENDMENTS TO §1.338(h)(10)-1T

Section 1.338(h)(10)-T is amended to provide rules for the adjustment of the selling consolidated group's basis in unacquired target stock when the MADSP formula election is made or revoked after disposition of the unacquired stock. The amendment provides that if such unacquired target stock has been disposed of before the adjustment to the basis of such stock is made, the adjustment shall be treated under principles of tax law applicable when part of the cost of an asset is paid after the asset has been disposed of.

COMMENTS REQUESTED

Comments are requested on the contingent payment, etc. rules of §1.338(b)-3T with a view toward simplifying the method of taking such payments, etc. into account and allocating them to target's assets. Such comments should address the concern that any simplified method should not distort the character of the gain (or loss) recognized by a taxpayer. For example, if the general rules of §1.338(b)-3T would treat a basis increase amount as a capital loss with respect to an acquisition date asset that had been disposed of, the simplified method should not transmute that capital loss into a reduction of ordinary income as might occur if the basis increase amount were merely allocated to other depreciable assets held by target when the adjustment event occurs.

Comments are also requested on the need for an adjustment to adjusted grossed-up basis when stock is purchased from minority shareholders after the acquisition date at an average price greater than the purchaser's average per share basis in recently purchased stock. If such adjustment is considered appropriate, commentators should recommend the appropriate mechanism for implementing such adjustment. In this regard, commentators should address the manner in which all other relevant adjustment (*e.g.*, depreciation) should be made.

The temporary regulations reject the specific lien rule by providing that liabilities to which an asset is subject are not specifically allocated to the asset. Comments are requested on under what circumstances, if any, it may be appropriate to follow the specific lien rule for purposes of allocating adjusted grossed-up basis.

REGULATORY FLEXIBILITY ACT; EXECUTIVE ORDER 12291

A general notice of proposed rulemaking is not required by 5 U.S.C. 553 for temporary regulations. Accordingly, these temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6). The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

DRAFTING INFORMATION

The principal authors of these temporary regulations are Bennett C. Steinhauer and Patricia Wendlandt of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly 26 CFR Part 1 is amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805; * * * §§1.338(b)-1T through 1.338(b)-3T, 1.338-1T, 1.338-4T, and 1.338(h)(10)-1T are also issued under 26 U.S.C. 338.

Par. 2. Section 1.338-1T is amended as follows:

1. The first sentence of paragraph (b)(8) is amended by inserting "for the taxable year ending at the close of the acquisition date" after "income tax return of old target."

2. Paragraph (f)(3)(i) is amended by inserting a new sentence at the end thereof, to read as set forth below.

3. Paragraph (f) is amended by adding a new subparagraph (9) at the end thereof, to read as set forth below.

§1.338-1T Elections under section 338(g) of the Internal Revenue Code of 1954 (temporary).

* * * * *

(f) *Certain consequences of section 338 election.* * * *

(3) *Old target's final taxable year otherwise included in consolitated return of selling group*—(i) *General rule.* * * * A "deemed sale return" includes a "combined return" as defined in §1.338-4T(k)(6).

* * * * *

(9) *Cross reference.* See §1.338(b)-3T(h) for certain rules relating to any change in the aggregate deemed sale price of old target's assets.

* * * * *

Par. 3. Paragraph (h) of §1.338-4T is amended as follows:

1. A new sentence is added at the end of paragraph (h)(1) to read as set forth below.

2. A new sentence is added at the end of paragraph (h)(2)(i) to read as set forth below.

3. The last two sentences of paragraph (h)(2)(iii) are revised to read as set forth below.

4. New subdivision (vi) is added at the end of paragraph (h)(2) to read as set forth below.

5. The last sentence of paragraph (h)(3) *Answer 1* (i) is removed and in its place two new sentences are added to read as set froth below.

6. The first two sentences of paragraph (h)(3) *Answer 2* (vi) are removed and in their place three new sentences are added to read as set forth below.

7. *Example (1)* (ii) in paragraph (h)(3) *Answer 2* (vi) is amended by removing the second sentence and by adding two new sentences at the end to read as set forth below.

8. In *Example (2)* in paragraph (h)(3) *Answer 2* (vi)—

a. The first word of the footnote is

removed and there is added in its place the words "For an item of section 1245 property, section".

b. Two new sentences are added at the end thereof to read as set forth below.

9. In *Example (3)* in paragraph (h)(3) *Answer 2* (vi)—

a. The first table is amended by removing the word "Goodwill" and adding in its place the word "Land".

b. Two new sentences are added immediately before the words "The following table breaks the ADSP of \$190,173 down". The new sentences read as set forth below.

10. New *Examples* (4) through (9) are added at the end of paragraph (h)(3) *Answer 2* (vi) to read as set forth below.

11. Paragraph (j)(1) is amended by adding after the second sentence a new sentence to read as set forth below.

12. A new sentence is added at the end of paragraph (j)(2) *Answer 6* to read as set forth below.

§1.338-4T Questions and answers relating to miscellaneous issues under 338 (temporary).

* * * * *

(h) *Determination of section 338(a)(1) deemed sale price*—(1) *Introduction.* * * * See §1.338(b)-3T(h) and (j) for certain rules and examples relating to any change in the aggregate deemed sale price of old target's assets.

(2) *Definitions*—(i) *ADSP.* * * * In the absence of a subscript, "ADSP" refers to ADSP for Class III assets only. See §1.338(b)-2T(b).

* * * * *

(iii) *Allocable ADSP amount.* * * * Except as provided in section 7701(g) (relating to fair market value in the case of nonrecourse indebtedness), the ADSP is allocated among T assets for this purpose in accordance with the rules of §1.338(b)-2T (without regard to §1.338(b)-2T(c)(2)). Recapture gain on a T asset under the elective ADSP formula is computed by reference to the allocable ADSP amount for that asset.

* * * * *

(vi) *Classes of assets.* The four classes of assets are defined in §1.338(b)-2T(b). Examples of each class are: Class I, cash; Class II, marketable securities; Class III, assets other than Classes I, II, and IV; and Class IV, goodwill and going concern value.

(3) *Determination of ADSP.*

Question 1: * * *

Answer 1: (i) *General rule.* * * * Except as provided in section 7701(g) (relating to fair market value in the case of nonrecourse indebtedness), for assets other than Class IV assets (*i.e.*, goodwill and going concern value), the same fair market values shall be used for purposes of this paragraph (h) (old T's aggregate deemed sale price) and for purposes of §1.338(b)-2T(b) and (c)(1) or (c)(3) (allocating new T's adjusted grossed-up basis to its assets). If the elective ADSP formula is not used, a proper appraisal of Class IV assets will be considered evidence of their fair market value.

* * * * *

Question 2: * * *

Answer 2: * * *

(vi) *Sample elective ADSP formula.* the sample ADSP formula shown below takes into account the existence of recapture gain arising under sections 1245 and 338(c)(1). For illustrative purposes, *Examples (1)* through *(3)* of this subdivision (vi) assume that the target has only Class III assets (*e.g.*, property other than certain cash items, certain securities, and goodwill, etc.). for examples illustrating the effect on the elective ADSP formula of Class I, II, or IV assets, see *Examples (4)* through *(9)* of this subdivision (vi). * * *

Example (1). * * *

(ii) * * * Since the ADSP for T (\$88,616) does not exceed the fair market value of T's one asset (\$100,000), a Class III asset, its entire ADSP is allocated to that asset. See §1.338(b;-2T(c)(1) (relating to fair market value limitation).

Example (2). * * * Since the ADSP for T (\$89,127.12) does not exceed the fair market value of T's one asset (\$100,000), a Class III asset, its entire ADSP is allocated to that asset. See §1.338(b)-2T(c)(1) (relating to fair market value limitation).

Example (3). * * * Since the ADSP for T (\$190,172.76) does not exceed the sum of the fair market values of all of T's assets (\$215,000), and those assets are all Class III assets, its entire ADSP is allocated to those assets. See §1.338(b)-2T(c)(1) (relating to fair market value limitation). * * *

Example (4). Assume the same facts as in *Example (1)*, except that P purchases all of the stock of T for \$85,000 and that T has \$10,000 of cash, a Class I asset. The sample elective ADSP formula as applied to these facts is modified by referring to the amount of the Class I assets as "I". This modified formula is as follows:

ADSP = G − I + L + t_R × [(Lesser of R or ADSP) − B]

ADSP = (\$85,000/1) − \$10,000 + \$0 + .46 × [(Lesser of \$80,000 or ADSP) − \$50,400]

ADSP = \$75,000 + 0 + .46 × [(Lesser of \$80,000 or ADSP) − \$50,400]

The remainder of the calculation and result are the same as in *Example (1)*.

Example (5). Assume the same facts as in *Example (2)*, except that P purchases the 80 shares for \$68,000 and that T has \$10,000 of cash, a Class I asset. the elective ADSP formula used in *Example (4)* as applied to these facts is as follows:

ADSP = G − I + L + t_R × [(Lesser of R or ADSP) − B] + C × t_R × (ADSP − Cb)

ADSP = (\$68,000/.8) − \$10,000 + 0 + .46 × [(Lesser of \$80,000 or ADSP) − \$50,400] + .20 × .28 × [ADSP − (Lesser of \$80,000 or ADSP)]

ADSP = \$85,000 − \$10,000 + .46 × [(Lesser of \$80,000 or ADSP) − \$50,400] + .20 × .28 × [ADSP − (Lesser of \$80,000 or ADSP)]

ADSP = \$75,000 + .46 [(Lesser of \$80,000 or ADSP) − \$50,400] + .20 × .28 × [ADSP − (Leser of \$80,000 or ADSP)]

The remainder of the calculation and result are the same as in *Example (2)*.

Example (6). Assume the same facts as in *Example (5)*, except that T does not hold any cash. Assume further that T holds marketable securities, a Class II asset, it acquired 10 years ago having a fair market value of \$10,000 and a basis of \$4,000. The sample elective ADSP formula as applied to these facts is modified by referring to the fair market value of the Class II asset as "II" and the basis of that asset as "B_{II}." This modified formula for calculating the ADSP of the section 1245 property is as follows:

ADSP = G − II + L + t_R × [(Lesser of R or ADSP) − B] + C × t_R × [(ADSP − Cb) + (II − B_{II})]

ADSP = (\$68,000/.8 − \$10,000 + 0 + .46 × [(Lesser of \$80,000 or ADSP) − \$50,400] + .20 × .28 × [(ADSP − (Lesser of \$80,000 or ADSP)) + (\$10,000 − \$4,000)]

In this case, assume that for the item of section 1245 property, the recomputed basis is less than the allocable ADSP amount for that item. The elective ADSP formula computation, as applied to this assumption, is as follows:

ADSP = \$85,000 − \$10,000 + .46 × (\$80,000 − \$50,400) + .056 × [(ADSP − \$80,000) + (\$6,000)]

ADSP = \$75,000 + (.46 × 29,600) + .056ADSP − \$4,480 + \$336

ADSP = \$75,000 + \$13,616 + .056ADSP − \$4,480 + \$336

ADSP − .056ADSP = \$84,472

.0944ADSP/.944 = \$84,472/.944

ADSP = \$89,483.05

Since the ADSP for T's Class III asset (\$89,483.05) does not exceed its fair market value, its entire ADSP for its Class III assets is allocated to its one asset in the class. See §1.338(b)-2T(b) and (c)(1). The deemed selling price for the marketable securities (Class II assets) is their fair market value ($10,000).

Summary of calculation

1. Grossed-up basis of P's recently purchased T stock	$85,000.00
2. Less: Deemed selling price of Class II assets	10,000.00
3. Subtotal	75,000.00
4. Tax on section 1245 depreciation recapture gain	13,616.00
5. Tax on section 338(c)(1) gain on all property (531.05* + $336)	867.05
6. ADSP for Class III property (Sum of lines 3 + 4 + 5)	89,483.05

* .056 × ($89,483.05 − $80,000)

Example (7). Assume the same facts as in *Example (1)*, except that T has goodwill with an appraised value of $10,000. The result is the same as in *Example (1)* when the elective ADSP formula is used because the appraised value of goodwill is not taken into account under the formula, and, so long as the ADSP for T's Class III asset does not exceed its fair market value, goodwill does not arise under the formula.

Example (8). Assume the same facts as in *Example (7)*, except that P purchases all of the stock of T for $100,000 and the recomputed basis of the section 1245 property is $210,000. The elective ADSP formula as applied to these facts is as follows:

$$\text{ADSP} = G + L + t_R \times [(\text{Lesser of } R \text{ or ADSP}) - B]$$

$$\text{ADSP} = (\$100{,}000/1) + \$0 + .46 \times [(\text{Lesser of } \$210{,}000 \text{ or ADSP}) - \$50{,}400]$$

ADSP—Recomputed basis measurement:

$$\text{ADSP} = \$100{,}000 + .46 \times (\$210{,}000 - \$50{,}400)$$

$$\text{ADSP} = \$173{,}416$$

ADSP—ADSP measurement:

$$\text{ADSP} = \$100{,}000 + .46 \times (\text{ADSP} - \$50{,}400)$$

$$\text{ADSP} = \$100{,}000 + (.46 \times \text{ADSP}) - \$23{,}184$$

$$\text{ADSP} = \$76{,}816 + .46\ \text{ADSP}$$

$$\text{ADSP} - .46\ \text{ADSP} = \$76{,}816$$

$$.54\text{ADSP}/.54 = \$76{,}816/.54$$

$$\text{ADSP} = \$142{,}251.85$$

Accordingly, under the elective ADSP formula, as initially applied, the ADSP of T would be $142,251.85, *i.e.*, the ADSP measurement ($142,251.85) which is less than the recomputed basis measurement ($173,416). Since this ADSP for T ($142,251.85) exceeds the fair market value of T's Class III asset ($100,000), ADSP allocated to that asset is limited to the asset's fair market value under §1.338(b)-2T(c)(1). Thus, the elective ADSP formula must be applied to compute the ADSP for T's Class IV property (*e.g.*, goodwill). The sample ADSP formula is applied to this computation is modified by using III to refer to the fair market value of the Class III asset (*i.e.*, the section 1245 property) and ADSP$_{IV}$ to refer to the ADSP for the Class IV property. This modified formula is as follows:

$$\text{ADSP}_{IV} = G - III + L + t_R \times [(\text{Lesser of } R \text{ or } III) - B]$$

$$\text{ADSP}_{IV} = \$100{,}000 - \$100{,}000 + 0 + .46 \times (\text{Lesser of } \$210{,}000 \text{ or } \$100{,}000) - \$50{,}400]$$

$$\text{ADSP}_{IV} = .46 \times (\$100{,}000 - \$50{,}400)$$

$$\text{ADSP}_{IV} = \$22{,}816$$

Thus, the ADSP for the Class IV property is $22,816. Note that the appraised value of the goodwill is irrelevant.

Summary of calculation:

1. Grossed-up basis of P's recently purchased stock	$100,000
2. Less: Deemed selling price of Class III property	100,000
3. Subtotal	0
4. Tax on section 1245 recapture gain	22,816
5. ADSP for Class IV property	22,816

Example (9). Assume the same facts as in *Example (8)*, except that P purchases only 80 of the 100 outstanding shares of T's only class of stock for $96,000. Assume further that T's assets, all of which have been held for more than one year, are as follows:

Class		*Basis*	*Fair market value*
I	1. Cash	—	$10,000 *
II	2. Marketable security	$ 4,000	10,000
III	3. Section 1245 property (recomputed basis $210,000)	50,400	100,000
IV	4. Goodwill	3,000	15,000 **

*Amount

**Appraised value

The elective ADSP formula as applied to these facts is modified by referring to items for a class of property by using Roman subscripts. (Since there is only one asset in each class, subscripts as used in *Example (3)* are not necessary.) The modified formula is as follows:

$$\text{ADSP} = G - I - II + L + t_R \times [(\text{Lesser } R \text{ or ADSP}) - B_{III}] + C\ t_R \times [(\text{ADSP} - {}^{Cb}III) + (II - B_{II})]$$

$$\text{ADSP} = (\$96{,}000/.8) - \$10{,}000 - \$10{,}000 + 0 + .46 \times [(\text{Lesser } \$210{,}000 \text{ or ADSP}) - \$50{,}400] + .20 \times .28 \times [(\text{ADSP} - (\text{Lesser of } \$210{,}000 \text{ or ADSP})) + (\$10{,}000 - \$4{,}000)]$$

In this case, the allocable ADSP amount for the one Class III asset is less than its recomputed basis. The modified elective ADSP formula, based on these assumptions, is applied as follows:

$$\text{ADSP} = \$120{,}000 - \$20{,}000 + .46 \times (\text{ADSP} - \$50{,}400) + .20 \times .28 \times (\$10{,}000 - \$4{,}000)^{***}$$

*** Section 338(c)(1) gain does not exist in this case since the measure of section 1245 depreciation recapture is the ADSP measure. See the footnote in *Example (2)*.

$$\text{ADSP} = \$100{,}000 + .46\text{ADSP} - \$23{,}184 + .056 \times (\$6{,}000)$$

$$\text{ADSP} = \$100{,}000 + .46\text{ADSP} - \$23{,}184 + \$336$$

$$\text{ADSP} - .46\text{ADSP} = \$77{,}152$$

$$.54\text{ADSP}/.54 = \$77{,}152/.54$$

$$\text{ADSP} = \$142{,}874.07$$

Accordingly, under the modified elective ADSP formula, as initially applied, the ADSP of T would be $142,874.07, an amount that exceeds the fair market value of T's one Class III asset ($100,000). Thus, ADSP allocated to that asset cannot exceed $100,000 under §1.338(b)-2T (c)(1). It follows that the elective ADSP formula must be applied to compute the ADSP for T's Class IV property (*e.g.*, goodwill). The modified ADSP formula, as used initially in this example, is further modified in the manner shown in *Example (8)*. In this example, the application of this further modified formula assumes that the measure of section 1245 depreciation recapture is fair market value so that section 338(c)(1) gain cannot exist. (See the preceding footnote.) This further modified formula is as follows:

$$\text{ADSP}_{IV} = G - I - II - III + L + t_R \times (III - B_{III}) + C \times t_R \times [(II - B_{II}) + (\text{ADSP}_{IV} - B_{IV})]$$

$$\text{ADSP}_{IV} = \$120{,}000 - \$10{,}000 - \$10{,}000 - \$100{,}000 + 0 + .46 \times (\$100{,}000 - \$50{,}400) + .20 \times .28 \times [(\$10{,}000 - \$4{,}000) + (\text{ADSP}_{IV} - \$3{,}000)]$$

$$\text{ADSP}_{IV} = .46 \times \$49{,}600 + .056 \times (\$6{,}000 + \text{ADSP}_{IV} - \$3{,}000)$$

$$\text{ADSP}_{IV} = \$22{,}816 + \$336 + .056\text{ADSP}_{IV} - \$168$$

$$\text{ADSP}_{IV} - .056\text{ADSP}_{IV} = \$22{,}984$$

$$.944\text{ADSP}_{IV}/.944 = \$22{,}984/.944$$

$$\text{ADSP}_{IV} = \$24{,}347.46$$

Thus, the ADSP for the Class IV property is $24.357.46. Note that the appraised value for the goodwill is irrelevant.

Summary of calculation:

1. Grossed-up basis of P's recently purchased stock		$120,000.00
2. Less: deemed selling price of—		
a. Class I property	$10,000.00	
b. Class II property	10,000.00	
c. Class III property	100,000.00	
d. Total	120,000.00	
3. Subtotal		0
4. Tax and section 1245 recapture gain		22,816.00
5. Tax on section 338(c)(1) gain on—		
a. Class II property	336.00	
b. Class IV property	1,195.46*	
c. Total		1,531.46
6. ADSP for Class IV property (Sum of lines 3 + 4 + 5)		24,347.46

* .056 × ($24,347.46 − $3,000)

(j) ***Determination of basis of target assets after section 338 election***—(1) *Introduction.* * * * Rules relating to allocation of adjusted grossed-up basis among T's assets are provided in §§1.338(b)-2T and 1.338(b)-3T. * * *

(2) *Determination of adjusted grossed-up basis.*

* * * * *

Question 6.: * * *

Answer 6: * * * See also §1.338(b)-1T(d)(2).

Par. 4. §1.338(h)(10)-1T is amended by adding a new sentence at the end of paragraph (f)(4) and by adding a new paragraph (f)(5). The added provisions read as follows:

§1.338(h)(10)-1T Elective recognition by selling consolidated group of deemed sale gain or loss on target's assets (temporary).

* * * * *

(f) *Deemed sale price.* * * *

(4) *Procedure for electing MADSP formula and revoking that election.* * * * If such unacquired T stock has been disposed of before the adjustment to its basis is made, the members of the S group shall treat the adjustment under principles of tax law that apply when the purchase price of an asset is changed after the asset has been disposed of.

(5) *Cross-reference.* See §1.338 (b)-3T(h) for adjustments to the aggregate deemed sale price of old target's assets because of events occuring after the acquisition date.

* * * * *

Par. 5. There are added in the appropriate place the following new sections to read as follows:

§1.338(b)-1T Adjusted grossed-up basis (temporary).

(a) *Scope.* This section provides rules under section 338(b) to determine the adjusted grossed-up basis of a target for which a section 338 election is made. Adjusted grossed-up basis is allocated among the assets of target in accordance with §1.338(b)-2T to determine the price at which the assets of the target are deemed to have been purchased. Subsequent adjustments to grossed-up basis and the allocation of such adjustments to target's assets may be made under §1.338(b)-3T. This section does not apply to transactions to which section 224(d)(5) of the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462] (as added by section 306(a)(8)(B)(i) of the Technical Corrections Act of 1982) [Pub. L. 97-448, 1983-1 C.B. 451, 470] applies. For rules relating to such transactions, see §1.338-2T.

(b) *Nomenclature and definitions*—(1) *Nomenclature.* The nomenclature set out in §1.338-4T(b)(1) also applies to this section.

(2) *Definitions*—(i) *In general.* The definitions in section 338 and §§1.338-1T and 1.338-4T also apply to this section.

(ii) *Adjustment events.* "Adjustment events" are increases (or decreases) in the consideration paid for recently or nonrecently purchased stock, reductions in target's liabilities included in adjusted grossed-up basis as of the beginning of the day after the acquisition date, and old target liabilities that become fixed and determinable.

(c) *General rule*—(1) *Adjusted grossed-up basis.* "Adjusted grossed-up basis" is the sum of (i) the grossed-up basis of recently purchased stock (as defined in paragraph (d) of this section), (ii) the basis of nonrecently purchased stock (as defined in paragraph (e) of this section, (iii) the disabilities of target (as defined in paragraph (f) of this section, and (iv) other relevant items (as defined in paragraph (g) of this section).

(2) *time when adjusted grossed-up basis determined.* Adjusted grossed-up basis is initially determined at the beginning of the day after the acquisition date of target. However, adjustment events that occur during new target's first taxable year are taken into account for purposes of determining adjusted grossed-up basis and basis of target's assets as if they had occurred at the beginning of the day after the acquisition date.

(d) *Grossed-up basis of recently purchased stock*—(1) *In general.* The term "grossed-up basis of recently purchased stock" means the product of (i) the basis of the recently purchased stock at the beginning of the day after the acquisition date, multiplied by (ii) the fraction set forth in section 338(b)(4). For further detail, see §1.338-4T(j)(2) *Answer* 1 (ii).

(2) *Target subsidiary.* If a target (T) owns stock in an affected target (T1), the grossed-up basis of the recently purchased T1 stock is the product of—

(i) the basis of the T1 stock in the hands of T as of the beginning of the day after T's acquisition date, multiplied by

(ii) the fraction set forth in section 338(b)(4).

Thus, for example, if T is deemed to purchase 80 percent (by value) of T1's stock by reason of section 338(h)(3)(B), the grossed-up basis of recently purchased T1 stock is determined by multiplying 100/80 times the amount of adjusted grossed-up basis of T's stock allocated to T1's stock under §1.338(b)-2T. See also §1.338-4T(j)(2) *Answer* 6.

(e) *Basis of nonrecently purchased stock.* In the absence of an election under section 338(b)(3) ("gain recognition election"), the basis of nonrecently purchased stock is the historic basis in that stock. See §1.338-4T(j)(2) for rules relating to the gain recognition election.

(f) *Liabilities of target*—(1) *In general.* The liabilities of target include its liabilities (and the liabilities to which the target's assets are subject) as of the beginning of the day after the acquisition date (other than liabilities that were neither liabilities of old target nor liabilities to which old target's assets were subject). Unless an election is made under section 338(h)(10), liabilities of target also include income tax liabilities resulting from the deemed sale of its assets under section 338(a)(1).

(2) *Excluded obligations*—(i) *In general.* In order to be included in adjusted grossed-up basis at the beginning of the day after the acquisition date, an obligation must be a bona fide liability of target as of that date which is properly includible in basis under principles of tax law that would apply if new target had acquired old target's assets from an unrelated person and, as part of the transaction, had assumed or taken property subject to the obligation. Thus, for example, if, as of the beginning of the day after the acquisition date, the amount of the contingent or speculative obligation of target is not properly includible in basis under the preceding sentence, the obligation is not initially included in adjusted grossed-up basis.

(ii) *Time when excluded obligations taken into account.* Obligations that, under this subparagraph (2), are initially excluded from adjusted grossed-up basis, shall be taken into account in redetermining adjusted grossed-up basis and the basis of target's assets under principles of tax law that would apply if new target had acquired old target's assets directly from an unrelated person and, as part of the transaction, had assumed or taken property subject to those obligations. For the application of these principles of tax law to certain contingent liabilities that are initially excluded from adjusted grossed-up basis under this subparagraph (2), see §1.338(b)-3T.

(3) *Liabilities taken into account in determining amount realized on subsequent disposition.* In determining the amount realized on a subsequent sale or other disposition of property deemed purchased by new target, the entire amount of any liability included in adjusted grossed-up basis is considered to be an amount taken into account in determining new target's basis in property which secures such liability for purposes of applying §1.1001-2(a). Thus, if a liability is included in adjusted grossed-up basis, §1.1001-2(a)(3) shall not prevent the amount of such liability from being treated as discharged within the meaning of §1.1001-2(a)(4) as a result of new target's sale or disposition of the property which secures such liability.

(g) *Other relevant items*—(1) *In general.* Adjusted grossed-up basis may be increased (or decreased) for "other relevant items." For this purpose, other relevant items may only arise from adjustment events that occur after the close of new target's first taxable year and adjustments under paragraph (g)(3) of this section. See §1.338(b)-3T (relating to the treatment of certain subsequent adjustments to adjusted grossed-up basis).

(2) *Flow-through of relevant item adjustment to target subsidiary.* If the amount of adjusted grossed-up basis of a target (T) allocated to the stock of an affected target (T1) is subsequently increased (or decreased) by reason of an other relevant item under this paragraph (g), the grossed-up basis of the T1 stock (and T1's adjusted grossed-up basis) is then also increased (or decreased) as if the increase (or decrease) in the basis of the stock was an adjustment to the purchase price deemed paid by T for such stock. The resulting increase (or decrease) in adjusted grossed-up basis of T1 is then allocated among T1's assets in accordance with §§1.338(b)-2T and 1.338(b)-3T.

(3) *Adjustments by the Internal Revenue Service*—(i) *In general.* In connection with the examination of a return, the District Director may increase (or decrease) adjusted grossed-up basis for items other than those described in paragraph (g)(1) and (2) of this section under the authority of section 338(b)(2) and allocate such amounts to target's assets under the authority of section 338(b)(5) so that adjusted grossed-up basis and the basis of target's assets properly reflect the cost of the purchasing corporation of its interest in target's assets. Such items may include distributions from target to the purchasing corporation, capital contributions from the purchasing corporation to target during the 12-month acquisition period, or acquisitions of target stock by purchasing corporation after the acquisition date from minority shareholders at an average price lower than the average cost of recently purchased stock. In determining whether an adjustment is appropriate when stock is purchased after the acquisition date from minority shareholders at a price lower than the cost of recently purchased stock, the District Director will take into account all the facts and circumstances of the particular case. Relevant facts and circumstances may include the amount of the price differential and the reason therefor, the number of shares purchased after the acquisition date, the timing of the purchase, and the source of the additional shares.

(ii) *Examples.* The principles of this subparagraph (3) may be illustrated by the following examples:

Example (1). (i) On January 1, 1988, P purchases one-third of the sole class of outstanding stock of T for $300,000. T has no liabilities. On March 1, 1988, T distributes a dividend to all its shareholders consisting of property with a fair market value of $210,000 of which P receives $70,000. On April 15, 1988, P purchases the remaining T stock for $480,000 and makes an express election for T.

(ii) In appropriate circumstances, the District Director may decrease the adjusted grossed-up basis ("AGUB") of T by $59,500 (the nontaxed portion of the dividend, as defined in section 1059 (b)) in order to properly reflect the cost of P of its interest in T's assets which P is deemed to have purchased.

Example (2). (i) T's sole asset is a building worth $100,000. It has no liabilities. T has 100 shares of a single class of stock outstanding. On August 1, 1988, P purchases 10 shares of T stock for $8,000. On June 1, 1989, P purchases 50 shares of T stock for $50,000. On June 14, 1989, P contributes a tract of land to the capital of T and receives 10 additional shares of T stock as a result of the contribution. Both the basis and fair market value of the land at that time are $10,800. On June 30, 1989, P purchases the remaining 40 shares of T stock for $40,000 and makes an express election for T.

(ii) In order to prevent the shifting of basis from the contributed property to other assets of T, the District Director may specifically allocate part of T's AGUB to the contributed property as shown in subdivisions (iii) and (iv) of this example.

(iii) The AGUB of T is $108,800.

(iv) $10,800 of the AGUB is allocated to the land, leaving $98,000 to be allocated among T's other assets, here, only the building.

§1.338(b)-2T Allocation of adjusted grossed-up basis among target assets (temporary).

(a) *Introduction*—(1) *In general.* This section prescribes rules under section 338(b)(5) for allocating adjusted grossed-up basis among the assets of a target for which a section 338 election is made.

(2) *Nomenclature and definitions*—(i) *In general.* The nomenclature set out in §1.338-4T(b)(1) also applies to this section. The definitions in section 338 and §§1.338-1T, 1.338-4T, and 1.338(b)-1T also apply to this section.

(ii) *Fair market value.* The "fair market value" of an asset is the gross fair market value of that asset (*i.e.*, fair market value determined without regard to mortgages, liens, pledges, or other liabilities).

(b) *General rule for allocating adjusted grossed-up basis*—(1) *Cash and other items designated by the Internal Revenue Service.* Adjusted grossed-up basis is first reduced by the amount of Class I assets. Class I assets are cash, demand deposits and similar accounts in banks, savings and loan associations (and other similar depository institutions), and other items designated in the Internal Revenue Bulletin by the Internal Revenue Service

(2) *Other assets*—(i) *In general.* Subject to the limitations and other special rules of paragraph (c) of this section, adjusted grossed-up basis (as reduced by Class I assets) is allocated among Class II assets of target held at the beginning of the day after the acquisition date in proportion to their fair market values at such time, then among Class III assets so held in such proportion, and finally to Class IV assets so held in such proportion.

(ii) *Class II assets.* Class II assets are certificates of deposit, U.S. Government securities, readily marketable stock or securities (within the meaning of §1.351-1(c)(3)), foreign currency, and other items designated in the Internal Revenue Bulletin by the Internal Revenue Service.

(iii) *Class III assets.* Class III assets are all assets of target (other than Class I, II, and IV assets), both tangible and intangible (whether or not depreciable, depletable, or amortizable).

(iv) *Class IV assets.* Class IV assets are intangible assets in the nature of goodwill and going concern value.

(c) *Certain limitations and special rules for basis allocable to an asset*—(1) *Basis not to exceed fair market value.* The amount of adjusted grossed-up basis allocated to an asset (other than Class IV assets) shall not exceed the fair market value of that asset at the beginning of the day after the acquisition date. In assigning fair market values to Class II or III assets for purposes of this paragraph (c), the fact that the target has assets in the nature of goodwill or going concern value (Class IV assets) must be taken into account. For modification of this fair market value limitation with respect to certain contingent income assets, see §1.338(b)-3T(g).

(2) *Assets subject to other limitations.* The amount of adjusted grossed-up basis allocated to an asset shall be subject to the limitations under the provisions of the Internal Revenue Code or principles of tax law in the same manner as if such asset were acquired from an unrelated person in a sale or exchange. For example, if the deemed sale (and purchase) of assets is a transaction described in section 1056 (a) (relating to basis limitation for player contracts transferred in connection with the sale of a franchise), the amount of adjusted grossed-up basis allocated to a contract for the services of an athlete shall not exceed the limitation imposed by that section. For another example, see §1.338(b)-1T(f)(2), relating to excluded obigations.

(3) *Special rule for allocating adjusted grossed-up basis when purchasing corporation has nonrecently purchased stock*—(i) *Scope.* This paragraph (c)(3) applies if at the beginning of the day after the acquisition date (A) the purchasing corporation holds nonrecently purchased stock for which a gain recognition election under section 338(b)(3) and §1.338-4T(j)(2) is not made and (B) the hypothetical purchase price determined under paragraph (c)(3)(ii) of this section excceeds the adjusted grossed-up basis determined under §1.338(b)-1T(c)(1). The determinations required under the preceding sentence shall be made without regard to adjustment events occurring after the close of new target's first taxable year.

(ii) *Determination of hypothetical purchase price.* Hypothetical purchase price is the sum of the grossed-up basis of recently purchased stock as determined under §1.338-4T(h)(3) *Answer* 2 (ii) and liabilities of target.

(iii) *Allocation of adjusted grossed-up basis.* Subject to the limitations in paragraph (c)(1) and (2) of this section, adjusted grossed-up basis (after reduction by the amount of Class I assets) is allocated among Class II, III, and IV assets of target held at the beginning of the day after the acquisition date in proportion to their fair market values at such time. For this purpose, the fair market value of Class IV assets is deemed to be the excess, if any, of the hypothetical purchase price over the sum of (A) the amount of the Class I assets and (B) the fair market values of Class II and III assets.

(d) *Examples.* The provisions of this section and §1.338(b)-1T may be illustrated by the following examples:

Example (1). (i) T owns 90% of the only class of outstanding stock of T1. P purchases 100% of the only class of outstanding stock of T for $2,000 and makes an express election for T. The express election for T causes a deemed election for T1 under section 338(f)(1). The grossed-up basis of the T stock is $2,000 *i.e.*, $2,000 × 1/1.

(ii) Assume that the liabilities of T as of the beginning of the day after the acquisition date (including income tax liabilities arising on the deemed sale of its assets) are as follows:

Liabilities (nonrecourse mortgage plus unsecured liabilities)	$ 700
Taxes payable	300
Total	1,000

(iii) The adjusted grossed-up basis ("AGUB") of T is determined as follows:

Grossed-up basis	$2,000
Total liabilities	1,000
AGUB	3,000

(iv) Assume that, at the beginning of the day after the acquisition date, T's cash and the fair market values of T's Class II and III assets are as follows:

Asset Class	*Asset*	*Fair market value*
I	Cash	$ 200*
II	Portfolio of marketable securities	300
III	Inventory	300
III	Accounts receivable	600
III	Building	800
III	Land	200
III	Investment in T1	450
	Total	2,850

*Amount

(v) Under paragraph (b)(2) of this section the amount of AGUB allocable to T's Class II and III assets is reduced by the amount of cash to $2,800, *i.e.*, $3,000-$200. $300 of AGUB is then allocated to marketable securities. Since the remaining amount of AGUB is $2,500 (*i.e.*, $3,000-($200 + $300)), an amount which exceeds the sum of the fair market values of T's Class III assets, the amount allocated to each Class III asset is its fair market value:

Inventory	$ 300
Accounts receivable	600
Building	800
Land	200
Investment in T1	450
Total	2,350

(vi) The amount allocated to T's Class IV assets (assets in the nature of goodwill and going concern value) is $150, *i.e.*, $2,500-$2,350.

(vii) The grossed-up basis of the T1 stock is $500, *i.e.*, $450 × 1/.9.

(viii) Assume that the liabilities of T1 as of the beginning of the day after the acquisition date (including income tax liabilities arising on the deemed sale of its assets) are as follows:

General liabilities	$100
Taxes payable	20
Total	120

(ix) The AGUB of T1 is determined as follows:

Grossed-up basis of T1 stock	$500
Liabilities	120
AGUB	620

(x) Assume that at the beginning of the day after the acquisition date, T1's cash and the fair market values of its Class III assets are as follows:

Asset class	*Asset*	*Fair market value*
I	Cash	$ 50*
III	Patent	350
III	Equipment	200

*Amount

(xi) The amount of AGUB allocable to T1's Class III assets is first reduced by the $50 of cash.

(xii) Since the remaining amount of AGUB ($570) is an amount which exceeds the sum of the fair market values of T1's Class III assets, the amount allocated to each Class III asset is its fair market value:

Patent	$350
Equipment	200
Total	500

(xiii) The amount allocated to T1's Class IV assets (assets in the nature of goodwill and going concern value) is $20, *i.e.*, $570-$550.

Example (2). (i) Assume that the facts are the same as in *Example (1)* except that P has, for five years, owned 20% of T's stock, which has a basis in P's hands at the beginning of the day after the acquisition date of $100, and P purchases the remaining 80% of T's stock for $1,600. P does not make a gain recognition election under section 338(b)(3).

(ii) Under paragraph (d) of §1.338(b)-1T, the grossed-up basis of recently purchased T stock is $1,600, *i.e.*, $1,600 × (1 − .2)/.8.

(iii) The AGUB of T is determined as follows:

Grossed-up basis of recently purchased stock	$1,600

Basic of nonrecently purchased stock	100
Liabilities	1,000
AGUB	2,700

(iv) Since P holds nonrecently purchased stock, the hypothetical purchase price of the T stock must be computed and is determined as follows:

Gross-up basis of recently purchased stock as determined under §1.338-4T(h) ($1,600/.8)	$2,000
Liabilities	1,000
Total	3,000

(v) Since the hypothetical purchase price ($3,000) exceeds the AGUB (and no gain recognition election is made under section 338(b)(3)), AGUB is allocated under paragraph (c)(3) of this section.

(vi) The amount of AGUB ($2,700) available to allocate to T's assets is reduced by the amount of cash to $2,500, *i.e.*, $2,700-$200. This $2,500 balance is then allocated among the Class II, III, and IV assets in proportion to, and not in excess of, their fair market values.

(vii) Under paragraph (c)(3) of this section, the fair market value of Class IV assets is deemed to be $150, *i.e.*, the $3,000 hypothetical purchase price minus $2,850 (the sum of T's cash, $200, and the fair market values of its Class II and III assets, $2,650). The allocation is as follows:

Portfolio of marketable securities	$ 268*
Inventory	268
Accounts receivable	536
Building	714
Land	178
Investment in T1	402
Goodwill (and going concern value)	134
Total	2,500

*All numbers rounded for convenience.

(viii) If the AGUB of T is increased (or decreased) as a result of a subsequent adjustment, the hypothetical purchase price and the deemed fair market value of the Class IV assets shall be redetermined and the increase (or decrease) in AGUB shall be allocated among T's acquisition date assets pursuant to §1.338(b)-3T(f). The increase (or decrease) in AGUB is allocated pursuant to §1.338(b)-3T(f) even if the hypothetical purchase price, as redetermined, no longer exceeds AGUB, as redetermined.

§1.338(b)-3T Subsequent adjustments to adjusted grossed-up basis (temporary).

(a) *Scope*—(1) *In general.* This section provides rules for redetermining adjusted grossed-up basis to account for adjustment events that occur after the close of new target's first taxable year. These adjustments must be made upon the payment of contingent amounts for recently or nonrecently purchased stock, the change in a contingent liability of old target to one which is fixed and determinable, reductions in the amounts paid for recently or nonrecently purchased stock, and reductions in liabilities of target (and the liabilities to which its assets are subject) that were taken into account in determining adjusted grossed-up basis. Adjusted grossed-up basis is redetermined under this section only if such an adjustment would be required, under general principles of tax law, in connection with an actual asset purchase by new target from an unrelated person. This section also provides rules for the allocation of such adjustments subsequent to the close of new target's first taxable year. For the treatment of adjustments prior to the close of new target's first taxable year, see §§1.338(b)-1T and 1.338(b)-2T.

(2) *Exceptions to applicability of section.* This section does not apply to a reduction in indebtedness that is (1) includible in gross income as discharge of indebtedness income (or would be includible but for section 108(a)), (2) due to a contribution to capital, (3) payment of a liability, or (4) the discharge of a liability within the meaning of §1.1001-2.

(3) *Adjustment of aggregate deemed sale price.* See paragraph (h) of this section for certain rules relating to a change in the aggregate deemed sale price of target's assets.

(b) *Nomenclature and definitions*—(1) *Nomenclature.* The nomenclature set out in §1.338-4T(b)(1) also applies to this section.

(2) *Definitions*—(i) *In general.* The defintions in section 338 and §§1.338-1T, 1.338-4T, 1.338(b)-1T, and 1.338(b)-2T also apply to this section.

(ii) *Contingent liability.* A contingent liability is a liability of target at the beginning of the day after the acquisition date that is not fixed and determinable by the close of new target's first taxable year.

(iii) *Contingent amount.* The term "contingent amount" means the amount of the consideration to be paid for recently or nonrecently purchased stock that is not fixed and determinable by the close of new target's first taxable year, plus contingent liabilities of target.

(iv) *Reduction amount.* The term "reduction amount" means a reduction after the close of new target's first taxable year in either (A) the consideration paid for recently or nonrecently purchased stock, or (B) a liability of target (or a liability to which one or more of its assets are subject) that has been taken into account in determining adjusted grossed-up basis.

(v) *Acquisition date asset.* The term "acquisition date asset" means any asset held by new target at the beginning of the day after the acquisition date (other than Class I assets).

(c) *General rule*—(1) *Time when increases in adjusted grossed-up basis taken into account.* A contingent amount that is taken into account for purposes of calculating adjusted grossed-up basis and the bases of assets of target is taken into account at the time at which such amount becomes fixed and determinable.

(2) *Time when decreases in adjusted grossed-up basis taken into account.* A reduction amount is taken into account for purposes of calculating adjusted grossed-up basis and the bases of assets of target when the reduction in the consideration paid or the reduction of the liability occurs.

(3) *Amount of increases and decreases in adjusted grossed-up basis.* The amount of an increase (or decrease) in adjusted grossed-up basis described in paragraph (c)(1) or (2) of this section is the difference between (i) adjusted grossed-up basis immediately before the increase (or decrease) and (ii) adjusted grossed-up basis recomputed by taking into account the increase (or decrease). For example, if an additional amount is paid for recently purchased stock of target, grossed-up basis of recently purchased stock and adjusted grossed-up basis are recomputed by applying the fraction in section 338(b)(4) to the basis of the recently purchased stock at the beginning of the day after the acquisition date, adjusted for additional amounts paid. Any other adjustments required by a change in grossed-up basis would also be taken into account in making the recomputation, such as a change in the basis of nonrecently purchased stock under section 338(b)(3) and, if there has not been a section 338(h)(10) election, any additional income tax liabilities of target resulting from the additional payment.

(d) *Allocation of increases in adjusted grossed-up basis*—(1) *In general.* An increase in adjusted grossed-up basis (as determined under paragraph (c)(3) of this section) is allocating among target's acquisition date assets under §1.338(b)-2T.

Amounts allocable to an acquisition date asset (or with respect to a disposed-of acquisition date asset) are subject to the fair market value limitation and other limitations in §1.338(b)-2T(c)(1) and (2). Except as provided in paragraph (g) of this section, for the purpose of applying §1.338(b)-2T(c)(1) and (2), the fair market value is determined at the beginning of the day after the acquisition date. If adjusted grossed-up basis was allocated among target's assets pursuant to §1.338(b)-2T(c)(3), an increase in adjusted grossed-up basis (as determined under paragraph (c)(3) of this section) is accounted for in accordance with the rules of paragraph (f) of this section.

(2) *Effect of disposition or depreciation of acquisition date assets.* If an acquisition date asset has been disposed of, depreciated, amortized or depleted by new target before a contingent amount is taken into account in redetermining adjusted grossed-up basis, the contingent amount otherwise allocable to such asset is treated under principles of tax law applicable when part of the cost of an asset (not previously reflected in its basis) is paid after the asset has been disposed of, depreciated, amortized or depleted.

(e) *Allocation of decreases in adjusted grossed-up basis*—(1) *In general.* If adjusted grossed-up basis was allocated in accordance with the rules of §1.338(b)-2T(b)(2), a decrease in adjusted grossed-up basis (as determined under paragraph (c)(3) of this section) is allocated in the following order: (i) first as a reduction in the bases of target's Class IV acquisition date assets, (ii) second, as a reduction of the bases of target's Class III acquisition date assets in proportion to their fair market values at the beginning of the day after the acquisition date, and (iii) finally, as a reduction of the bases of target's acquisition date assets that are Class II assets in proportion to their fair market values at the beginning of the day after the acquisition date. The decrease in adjusted grossed-up basis allocated to an asset shall not exceed the adjusted grossed-up basis of target previously allocated to that asset. If adjusted grossed-up basis was allocated among target's assets pursuant to §1.338(b)-2T(c)(3), a decrease in adjusted grossed-up basis (as determined under paragraph (c)(3) of this section) is accounted for in accordance with the rules of paragraph (f) of this section.

(2) *Effect of disposition of assets or reduction of basis below zero.* If an acquisition date asset has been disposed of, depreciated, amortized, or depleted by new target before a reduction amount is taken into account in adjusted grossed-up basis, the decrease in adjusted grossed-up basis attributable to such reduction amount otherwise allocable to such asset is treated under principles of tax law applicable when the cost of an asset (previously reflected in its basis) is reduced after the asset has been disposed of or depreciated, amortized, or depleted. For purposes of this subparagraph (2), an asset is considered to have been disposed of to the extent that its allocable portion of the decrease in adjusted grossed-up basis would reduce its basis below zero.

(3) *Section 38 property.* Section 1.47-2(c) applies to a reduction in basis of section 38 property under this section.

(f) *Special rule for allocation of increases (or decreases) in adjusted grossed-up basis when hypothetical purchase price was used in allocating adjusted grossed-up basis.* (1) *Scope.* This paragraph (f) applies if (i) adjusted grossed-up basis was allocated among new target's Class II, III, and IV assets in accordance with §1.338(b)-2T(c)(3) and (ii) an adjustment event occurs after the close of new target's first taxable year.

(2) *Allocation of increases (decreases) in adjusted grossed-up basis.* If an adjustment event after the close of new target's first taxable year increases (or decreases) adjusted grossed-up basis, the following items shall be redetermined, taking into account such adjustment event: (i) the hypothetical purchase price, (ii) the deemed fair market value of Class IV assets, and (iii) the adjusted grossed-up basis allocable to each acquisition date asset under §1.338(b)-2T(c)(3) (the redetermined (c)(3) amount). (The redetermination of the deemed fair market value of Class IV assets under this subparagraph (2) is made by taking into account the target's Class I assets and the fair market values of its Class II and III assets at the beginning of the day after the acquisition date.) If the redetermined (c)(3) amount for an acquisition date asset exceeds the amount of adjusted grossed-up basis previously allocated to such asset (taking into account prior adjustments under this paragraph (f)), an amount of adjusted grossed-up basis equal to such excess shall be allocated to such asset. If the amount of adjusted grossed-up basis previously allocated to an acquisition date asset (taking into account prior adjustments under this paragraph (f)) exceeds the redetermined (c)(3) amount for that asset, an amount equal to such excess shall be allocated as a reduction in the basis of such asset. The rules of paragraph (d)(2) (or (e)(2)) apply for the treatment of amounts allocable under this paragraph (f) to an acquisition date asset that has been disposed of, depreciated, amortized, or depleted.

(3) *Allocation to contingent income assets.* For modification of this rule with respect to certain assets, see paragraph (g) of this section.

(g) *Special rule for allocation of increases (or decreases) in adjusted gross-up basis to specific assets*—(1) *Patents and similar property*—(i) *Scope.* The rules of this paragraph (g)(1) apply for purposes of allocating an increase (or decrease) in adjusted grossed-up basis to the extent (A) the contingency that results in the increase (or decrease) directly relates to income produced by a particular intangible asset ("contingent income asset"), such as a patent, a secret process, or a copyright, and (B) the increase (or decrease) is related to such contingent income asset and not to other target assets. Adjusted grossed-up basis, as determined under §1.338(b)-1T at the beginning of the day after the acquisition date, and any increase (or decrease) to adjusted grossed-up basis to which this paragraph (g) does not apply, are allocated among target's acquisition date assets (including contingent income assets) in accordance with the provisions of §1.338(b)-2T and paragraph (d), (e), or (f) of this section.

(ii) *Specific allocation.* Subject to the fair market value limitation and other limitations in §1.338(b)-2T(c)(1) and (2), any increase (or decrease) to adjusted grossed-up basis to which this paragraph (f) applies is allocated (A) first, specifically to the contingent income asset to which the increase (or decrease) relates and, then, (B) in accordance with the provisions of paragraph (d), (e), or (f) of this section. Solely for purposes of applying the fair market value limitation and other limitations of §1.338(b)-2T(c)(1) and (2) to a contingent income asset, the fair market value of such asset may be redetermined as of the time when the contingent amount (or reduction amount) is taken into account under paragraph (c) of this section. However, the fair market value limitation and other limitations of §1.338(b)-2T(c)(1) and (2) as they apply to target's other acquisition date assets are not affected by such adjustments.

(2) *Internal Revenue Service authority.* In connection with the examination of a return, the District Director, in appropriate cases, may apply the principles of paragraph (g)(1) of this section to allocate an increase (or decrease) in adjusted grossed-up basis among particular of target's acquisition date assets to the extent such allocation is necessary to reflect properly the consideration that relates to each of those assets.

(h) *Changes in old target's aggregate deemed sale price of assets*—(1) *General rule*—(i) *In general.* Pursuant to general principles of tax law, the price at which old target is deemed to have sold its assets shall be adjusted to take into account adjustment events occurring after the acquisition date. In making such an adjustment, recognition of income (or loss) under this paragraph (h) with respect to the deemed sale of assets is not precluded because the target is treated as a new corporation after the acquisition date. To the extent general tax law principles require seller to account for adjustment events, target (or a member of the selling consolidated group in the event of an election under section 338(h)(10)) shall make such an accounting, which may result in reporting income, loss, or other amount.

(ii) *Redetermination of aggregate deemed sale price if the elective formula under section 338(h)(11) is used.* If the elective formula under section 338(h)(11) is used to determine the aggregate deemed sale price, that price generally shall be redetermined under §1.338-4T(h) (or §1.338(h) (10)-1T(f)(2) if an election under section 338(h)(10) is in effect) to take into account, to the extent required by general principles of tax law, adjustment events occurring after the acquisition date. For example, the aggregate deemed sale price generally shall be redetermined to take into account any additional payments made to the seller for recently purchased stock. If an increase (or decrease) in adjusted grossed-up basis is specifically allocated to a contingent income asset (or other asset) under paragraph (g) of this section, then any redetermination of the fair market value of the asset under that paragraph (g) is taken into account in making adjustments to the aggregate deemed sale price allocable to such asset.

(iii) *Redetermination of aggregate deemed sale price if the elective formula under section 338(h)(11) is not used.* If the elective formula under section 338(h)(11) is not used to determine the aggregate deemed sale price, an adjustment to aggregate deemed sale price may be required under this paragraph (h) only with respect to assets described in paragraph (g)(1)(i) and (2) of this section. In such a case, the adjustment to the portion of the aggregate deemed sale price allocable to such asset shall be the amount of the increase (or decrease) in adjusted grossed-up basis specifically allocated to the asset. However, the amount of the increase (or decrease) allocated to such asset shall not increase (or decrease) the portion of the aggregate deemed sale price allocable to the asset (taking into account all previous adjustments under this paragraph (h)) above or below the fair market value of such asset as of the date an adjustment under this paragraph (h) is required.

(2) *Procedure for transactions in which section 338(h)(10) is not elected*—(i) *Income or loss included in new target's return.* If an election under section 338(h)(10) is not made, any income loss, or other amount of old target resulting from a change in the aggregate deemed sale price of old target's assets pursuant to paragraph (h)(1) of this section shall be included in new target's income tax return for new target's taxable year in which such change occurs. The amount of such income, loss, or other amount is determined with reference to old target's deemed sale of assets on the acquisition date. Thus, for example, if after the acquisition date there is an increase in the allocable aggregate deemed sale price of section 1245 property for which the recomputed basis (but not the adjusted basis) exceeded the portion of the aggregate deemed sale price allocable to that particular asset on the acquisition date, the additional gain shall be treated as ordinary income to the extent it does not exceed such excess amount. See paragraph (h)(2)(ii) for the special treatment of old target's carryovers and carrybacks. Although included in new target's income tax return, such income, loss, or other amount is separately accounted for as an item of old target and may not be offset by income, loss, credit, or other amount of new target. The amount of tax on income of old target recognized pursuant to this paragraph (h) is determined as if such income had been recognized in old target's taxable year ending at the close of the acquisition date. Any increase (or decrease) in new target's income tax liability by reason of this paragraph (h)(2)(i) shall be allocated among new target's acquisition date assets in accordance with paragraph (d), (e), (f), or (g) of this section when such liability becomes fixed and determinable.

(ii) *Carryovers and carrybacks*—(A) *Loss carryovers to new target taxable years.* A net operating loss or net capital loss of old target may be carried forward to a taxable year of new target, under the principles of section 172 or 1212, as the case may be, but is allowed as a deduction only to the extent of any recognized income of old target for such taxable year, as described in paragraph (h)(2)(i) of this section. For this purpose, however, taxable years of new target shall not be taken into account in applying the 15-taxable-year limitation (or other similar limitation) in section 172(b)(1) or the 5-taxable-year limitation (or other similar limitation) in section 1212(a)(1)(B). In applying section 172(b) and 1212(a)(1), only income, deductions, and other amounts of old target shall be taken into account. Thus, if old target has an unexpired net operating loss at the close of its taxable year in which the deemed asset sale occurred that could be carried forward to a subsequent taxable year, such loss may be carried forward until it is absorbed by old target's income.

(B) *Loss carrybacks to taxable years of old target.* An ordinary loss or capital loss accounted for as a separate item of old target under paragraph (h)(2)(i) of this section may be carried back to a taxable year of old target under the principles of section 172 or 1212, as the case may be. For this purpose, taxable years of new target shall not be taken into account in applying the 3-taxable-year limitation (or other similar limitation) in section 172(b) or 1212(a).

(C) *Credit carryovers and carrybacks*. The principles described in paragraph (h)(2)(ii)(A) and (B) of this section apply to carryovers and carrybacks of amounts for purposes of determining the amount of a credit allowable under part IV, subchapter A, chapter 1 of the Code. Thus, for example, credit carryovers of old target may only offset income tax attributable to items described in paragraph (h)(2)(i) of this section.

(3) *Procedure for transactions in which section 338(h)(10) is elected*—If an election under section 338(h)(10) is made, any income, loss, or other amount resulting from a change in the aggregate deemed sale price of old target's assets pursuant to paragraph (h)(1) of this section shall be accounted for in determining the taxable income (or other amount) of the member of the selling consolidated group (or other person) to which such income, loss, or other amount is attributable for the taxable year in which such change occurs. The amount of such income, loss, or other amount is determined with reference to old target's deemed sale of assets on the acquisition date.

(i) [Reserved.]

(j) *Examples*. This section is illustrated by the following examples. Any contingent amount or reduction amount described in the following examples is exclusive of interest. For rules characterizing deferred contingent payments as principal or interest, see regulations under section 1274 and 1275(d) or 483.

Example (1). (i) T's assets and their fair market values at the beginning of the day after the acquisition date are as follows:

Asset Class	*Assets*	*Fair market value*
III	Building	$100
III	Stock of X (not a target)	200
IV	Goodwill (and going concern value)	35
	Total	335

T has no liabilities other than a contingent obligation and T does not use the elective formula under section 338(h)(11).

(ii) On January 1, 1989, P purchases all of the outstanding stock of T for $270 and makes an express election for T. The grossed-up basis of the T stock and T's adjusted grossed-up basis ("AGUB") are both $270. The AGUB is ratably allocated among T's Class III assets in proportion to their fair market values as follows:

Asset	*Basis*
Building ($270 × 100/300)	$ 90
Stock ($270 × 200/300)	180
Total	270

No amount is allocated to the Class IV assets. New T is a calendar year taxpayer. Assume that the X stock is a capital asset in the hands of new T.

(iii) On January 1, 1990, new T sells the X stock and uses the proceeds of the sale to purchase inventory.

(iv) On June 30, 1991, the contingent liability of old T becomes fixed and determinable. The amount of the liability is $60.

(v) T's AGUB increases by $60 from $270 to $330. This $60 increase in AGUB is first allocated among T's acquisition date assets in accordance with the provisions of §1.338(b)-2T. Since the redetermined AGUB for T ($330) exceeds the sum of the fair market values at the beginning of the day after the acquisition date of the Class III acquisition date assets ($300), AGUB allocated to those assets is limited to those fair market values under §1.338(b)-2T(c)(1). The remaining AGUB of $30 is allocated to goodwill and going concern value (Class IV assets). The amount of increase in AGUB allocated to each acquisition date asset is determined as follows:

Asset	*Original AGUB*	*Redetermined AGUB*	*Increase in AGUB*
Building	$ 90	$100	$10
X stock	180	200	20
Goodwill and going concern value	0	30	30
Total	270	330	60

(vi) Since the X stock was disposed of before the contingent liability became fixed and determinable, no amount of the increase in AGUB attributable to such stock may be allocated to any T asset. Rather, such amount, $20, is allowed as a capital loss to T for the taxable year 1991 under the principles of *Arrowsmith v. Commissioner*, 344 U.S. 6 (1952). In addition, the $10 increase in AGUB allocated to the building is treated as a basis redetermination in 1991. See paragraph (d)(2) of this section.

Example (2). (i) On January 1, 1988, P purchases all of the outstanding stock of T and makes an express election for T. T does not use the elective formula under section 338(h)(11). Assume that the AGUB of T is $500 and is allocated among T's acquisition date assets as follows:

Asset Class	*Asset*	*Basis*
III	Machinery	$150
III	Land	250
IV	Goodwill and going concern value	100
	Total	$500

(ii) On June 1, 1994, P filed a claim against the selling shareholders of T in a court of appropriate jurisdiction alleging fraud in the sale of the T stock.

(iii) On January 1, 1995, the former shareholders refund part of the purchase price to P in a settlement of the 1994 lawsuit. This refund results in a decrease of T's AGUB of $140.

(iv) Under paragraph (e)(1) of this section, the decrease in AGUB is allocated among T's acquisition data assets. First, assuming the basis of the goodwill and going concern value on January 1, 1995, is still $100, then $100 of the decrease in AGUB is allocated to that asset. The remaining decrease in AGUB ($40) is allocated to the Class III assets in proportion to their fair market values at the beginning of the day after the acquisition date. Thus, $15 is allocated to the machinery ($40 × $150/$400) and $25 to the land ($40 × $250/$400).

(v) Assume that, as a result of deductions under section 168, the adjusted basis of the machinery immediately before the decrease in AGUB is zero. The machinery, therefore, is treated as if it were disposed of before the decrease is taken into account. T recognizes ordinary income of $15 for the taxable year 1995 under the principles of *Arrowsmith v. Commissioner*, 344 U.S. 6 (1952), and the tax benefit rule. No adjustment to the basis of T's assets is made for any tax paid on this amount.

(vi) In summary, the basis of T's acquisition date assets, as of January 1, 1995, is as follows:

Asset	*Basis*
Machinery	$ 0
Land	225
Goodwill and going concern value	0

Example (3). (i) Assume that the facts are the same as in *Example* (2) of §1.338(b)-2T(d) except that the recently purchased stock is acquired for $1,600 plus certain additional payments which are contingent upon T's future earnings. Thus, T's AGUB, determined as of the beginning of the day after the acquisition date (after reduction by T's cash of $200), is $2,500 and is allocated among T's Class II, III, and IV acquisition date assets pursuant to §1.338(b)-2T(c)(3)(iii) as follows:

Portfolio of marketable securities	$ 268*
Inventory	268
Accounts receivable	536
Building	714
Land	178
Investment in T1	402
Goodwill (and going concern value)	134
Total	2,500

*All numbers rounded for convenience.

(ii) Subsequent to the close of new target's first taxable year, P pays an additional $200 for its recently purchased T stock.

(iii) T's AGUB increases by $200, from $2,700 to $2,900. This $200 increase in AGUB is accounted for in accordance with the provisions of §1.338(b)-2T(c)(3)(iii) and paragraph (f) of this section.

(iv) The hypothetical purchase price of the T stock is redetermined as follows:

Grossed-up basis of recently purchased stock as determined under §1.338-4T(h) ($1,800/.8)	$2,250
Liabilities	1,000
Total	3,250

(v) Under §1.338(b)-2T(c)(3) the redetermined fair market value of Class IV assets is deemed to be $400, *i.e.*, the hypothetical purchase price, as redetermined, of $3,250 minus $2,850 (the sum of T's cash, $200, and the fair market values of its Class II and III assets, $2,650).

(vi) The amount of AGUB available to allocate to T's Class II, III, and IV acquisition date assets is $2,700 (*i.e.* redetermined AGUB reduced by cash). AGUB allocable to each of T's acquisition date assets (*i.e.*, the redetermined (c)(3) amount) is redetermined using the deemed fair market value of the Class IV asset from subdivision (v) as follows:

Portfolio of marketable securities	$ 266*
Inventory	266
Accounts receivable	531
Building	708
Land	177
Investment in T1	398
Goodwill (and going concern value)	354
Total	2,700

*All numbers rounded for convenience.

(vii) As illustrated by this example, the application of paragraph (f) of this section results in a basis increase for some assets and a basis decrease for other assets. The amount of increase (or decrease) in AGUB allocated to each acquisition date asset is determined as follows:

Asset	*Original AGUB*	*Redetermined (c)(3) amount*	*Increase (or Decrease in AGUB*
Portfolio of marketable securities	$268	$266	$(2)
Inventory	268	266	(2)
Accounts receivable	536	531	(5)
Building	714	708	(6)
Land	178	177	(1)
Investment T1	402	398	(4)
Goodwill (and going concern value)	134	354	220
Total	2,500	2,700	220

(viii) If P made a gain recognition election under section 338(b)(3) with respect to its nonrecently purchased stock, paragraph (f) of this section would be inapplicable.

Example (4). (i) On January 1, 1987, P purchases all of the outstanding T stock and makes an express election for T. The fair market value of T's assets (other than goodwill and going concern value) as of the beginning of the following day is as follows:

Asset class	*Assets*	*Fair market value*
III	Equipment	$200
III	Accounts receivable	100
III	Building	500
	Total	800

(ii) T has elected the elective ADSP formula, in accordance with §1.338-4T(h)(3) *Answer 2* (ii)(B), to determine the aggregate deemed sale price of old T's assets. Assume that the ADSP as so determined is $700. Assume also that the AGUB is equal to $700. T has no liabilities.

(iii) The AGUB of $700 is ratably allocated among T's Class III acquisition date assets in proportion to their fair market values as follows:

Asset	*Basis*
Equipment ($700 × 200/800)	$175.00
Accounts receivable ($700 × 100/800)	87.50
Building ($700 × 500/800)	437.50
Total	700.00

No amount is allocated to goodwill (or going concern value).

(iv) P and T file a consolidated return for 1987 and each following year with P as the common parent of the affiliated group.

(v) In 1990, a contingent amount of $117 is paid by P for the stock of old T. As a result, additional income is recognized under section 1245 by old T for 1990 on the deemed sale of old T's assets. This income must be reported on the consolidated return of new T for 1990, but it is separately accounted for and may not be absorbed by losses or deductions of P or of new T. Assume that the tax on this income is $3.

(vi) In 1990, there is an increase in T's AGUB of $120, *i.e.*, $117 + $3. The amount of this increase allocated to each acquisition date asset is determined as follows:

Assets	*Original AGUB*	*Redetermined AGUB*	*Increase*
Equipment	$175.00	$200.00	$25.00
Accounts receivable	87.50	100.00	12.50
Building	437.50	500.00	62.50
Goodwill (and going concern value)	0.00	20.00	20.00
Total	700.00	820.00	120.00

Example (5). (i) On June 1, 1990, P purchases all of the stock of T and makes an express election for T. T has one item of section 38 property whose basis on June 2, 1990 is $100,000. An investment credit of $8,000 is allowed to new T for the equipment because of an election under section 48(q)(4).

(ii) In 1992, part of the purchase price of the T stock is refunded to P. Assume that the amount of the resulting decrease in AGUB allocated to the machinery is $7,000. Pursuant to §1.47-2(c), the machinery ceases to be section 38 property to the extent of $7,000 of its original basis.

(iii) The additional tax of $560 (8% × $7,000) resulting from the machine ceasing to be section 38 property is reported on T's return for 1992. Such amount is not an adjustment to AGUB.

Example (6). (i) T has three assets (other than goodwill and going concern value) whose fair market values as of the beginning of the day after the acquisition date are as follows:

Asset Class	*Assets*	*Fair market value*
III	Building	$100
III	Equipment	50
III	Secret process	50
	Total	200

T has no liabilities. Assume that no election under section 338(h)(10) or (h)(11) is in effect.

(ii) On January 1, 1989, P purchases all of the outstanding T stock for $225 plus 50 percent of the net profits generated by the secret process for each of the next three years, determinable and payable on January 1 of each following year.

(iii) As of the beginning of January 2, 1989, T's AGUB is $225, allocated as follows:

Asset Class	*Assets*	*Basis*
III	Building	$100
III	Equipment	50
III	Secret Process	50
IV	Goodwill and going concern value	25
	Total	225

(iv) On January 1, 1990, $5 is paid by P for the T stock by reason of the net profits from the secret process. The payments are not attributable in any respect to any of T's other acquisition date assets. As a result, T's AGUB on January 1, 1990, is increased by $5.

(v) Assume that as of January 1, 1990, the fair market value of the secret process is determined to be $52.

(vi) On January 1, 1990, only $2 of the $5 increase in AGUB is allocated to the secret process because the increase in AGUB so allocated cannot increase the basis of the secret process above its redetermined fair market value ($52). The balance of the increase is allocated to goodwill and going concern value because the fair market value limitation of §1.338(b)-2T(c)(1) precludes allocating additional AGUB to the Class III assets.

(vii) The price for which old target is deemed to have sold the secret process is increased to reflect the $2 allocated to its basis to new carget. See §1.338-4T(h)(3) and paragraph (h)(1) of this section.

(viii) If the fair market value of the secret process as of January 1, 1990, is unchanged from its fair market value as of the beginning of the day after the acquisition date, then the $5 increase in AGUB is allocated to T's goodwill and going concern value.

Example (7). (i) The facts are the same as in *Example (6)* except that—

(A) The secret process is valued at $75 as of the beginning of the day after the acquisition date, and,

(B) P pays $250 for the T stock and the former T shareholders agree to refund a portion of the purchase price to P for each of the three years that the net income from the secret process is less than $15 per year, determinable and payable on January 1 of the next year.

(ii) Assume the net income from the process is less than $15 for 1989, and on January 1, 1990, P receives a refund that reduces the stock purchase price by $3.

(iii) Assume that as of January 1, 1990, the fair market value of the secret process is redetermined to be $65.

(iv) As of January 1, 1990, the AGUB of T is decreased by $3. This decrease is allocated to the secret process, whose basis becomes $72, (*i.e.*, $75-$3, assuming no adjustments thereto other than the decrease in AGUB).

(v) The price for which old target is deemed to have sold the secret process is decreased to reflect the $3 decrease allocated to its basis to new target. See §1.338-4T(h)(3) and paragraph (h) of this section.

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

Approved January 18, 1986.

J. ROGER MENTZ,
Acting Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on January 23, 1986, 4:49 p.m., and published in the issue of the Federal Register for January 29, 1986, 51 F.R. 3583)

Section 381.—Carryovers in Certain Corporate Acquisitions

26 CFR 1.381(c)(4)-1: Method of accounting.

Treatment of reserves for certain guaranteed debt obligations. See T.D. 8071, page 4.

Section 2011.—Credit for State Death Taxes

26 CFR 20.2011-1: Credit for state death taxes.

State death tax paid in installments. When an estate elects to pay the federal estate tax in installments and also elects to pay state death taxes in annual installments over a period longer than four years from the date of the filing of the federal estate tax return, the exception described in section 2011(c)(2) of the Code is applicable. State death taxes paid by the estate more than four years after the filing of the federal estate tax return are not eligible for the credit described in section 2011 when none of the exceptions described in sections 2011(c)(1) through (3) are applicable.

Rev. Rul. 86-38

ISSUE

To what extent is a credit for state death tax allowable under section 2011 of the Internal Revenue Code if the state death tax is paid in installments over a period of more than four years where (1) the estate elects to pay the federal tax liability in ten annual installments, or (2) the estate does not elect to pay the federal estate tax liability in installments?

FACTS

A, a resident of State *S*, died in 1984 leaving a gross estate composed of stock of *X* Corporation and miscellaneous personal property. The value of *A*'s interest in *X* Corporation exceeded 35 percent of *A*'s adjusted gross estate. *A*'s interest in *X* qualified as an interest in a closely held business as defined in section 6166(b)(1) of the Code. The estate could, therefore, elect to pay in ten annual installments that portion of the federal estate tax attributable to the interest in a closely held business.

A similar provision under the law of *S* permited *A*'s estate to elect to pay in ten annual installments that portion of the state death tax attributable to an interest in a closely held business. Deferred payments and installment payments plus interest are required to be made under state law in the manner provided in section 6166 of the Code as in effect on *A*'s deate of death.

Situation 1.

In Situation 1, the representative of *A*'s estate made a timely election under section 6166 of the Code to pay part of the federal estate tax in ten equal annual installments and made a similar election under state law to pay part of the state death tax in ten annual installments. The representative of the estate timely paid in a single day the nondeferred portion of the federal estate tax, the first installment of the deferred estate tax, the nondeferred portion of the state death tax, and the first installment of the deferred state death tax. When the federal estate tax return was filed, the estate claimed as a credit under section 2011 of the Code the total amount of the state death tax liability, including the state death tax paid and the state death tax the estate expected to pay in installments over the next nine years.

Situation 2.

In Situation 2, the representative of the estate made a timely election under state law to pay part of the state death tax in ten annual installments. A similar election with respect to the federal estate tax was not made by the estate because the federal estate tax liability was substantially lower than the state death tax. Thus, the estate paid the federal estate tax in full.

When it filed the federal estate tax return, however, the estate claimed as a credit under section 2011 of the Code the total amount of the state death tax liability that the estate expected to pay.

LAW AND ANALYSIS

Section 6166(a)(1) of the Code provides that if the value of an interest in a closely held business that is included in determining the decedent's gross estate exceeds 35 percent of the adjusted gross estate, as defined in section 6166(b)(6), the executor may elect to pay part or all of the tax imposed by section 2001 in two or more (but not exceeding 10) equal installments.

Section 2011 of the Code provides that, within the limitations of section 2011(b), the tax imposed by section 2001 shall be credited with the amount of any estate, inheritance, legacy or succession taxes actually paid to any state.

Section 2011(c) generally provides that the credit allowed for state taxes described above shall include "only such taxes as were *actually* paid *and* credit therefor claimed within 4 years" after the filing of the estate tax return. (Emphasis added.)

Sections 2011(c)(1) through (3) contain exceptions to the four-year limitation on the period within which an estate may claim a credit for state taxes actually paid: (1) if a petition for redetermination of a deficiency has been filed with the Tax Court, before the expiration of 60 days after the decision of the Tax Court becomes final; (2) before the date of the expiration of the period of an extension granted under section 6161 or 6166 for payment of the tax shown on the return, or of a deficiency; or (3) if a claim for credit or refund of an overpayment of federal estate taxes has been filed within the time prescribed in section 6511 of the code, before the expiration of 60 days from the date of mailing by certified mail or registered mail by the Secretary to the taxpayer of a notice of the disallowance of any part of such claim, or before the expiration of 60 days after a decision by any court of competent jurisdiction becomes final with respect to a timely suit instituted upon such claim, whichever is later. According to section 2011(c), a refund based on the state death tax credit may (despite the provisions of sections 6511 and 6512) be made if the claim for the credit is filed within the prescribed period.

Section 6511(a) of the Code provides that a claim for credit or refund of an overpayment of any tax for which the taxpayer is required to file a return must be filed by the taxpayer within 3 years from the time the return was filed or 2 years from the time the tax was paid, whichever period expires later. The provisions of section 2011(c) provide a special 4-year period, or other extended period, as an alternative to the 2-year and 3-year periods described in section 6511(a) for credits and refunds.

In Rev. Proc. 81-27, 1981-2 C.B. 548, the Service set forth the procedure to be followed by an estate when installment payments due under section 6166 of the Code are recomputed because of a reduction in the estate tax liability caused by the deduction of interest paid on the estate tax due.

In Situation 1, the estate elected to pay the federal estate tax in ten annual installments. Accordingly, the exception described in section 2011(c)(2) is applicable, and the estate may qualify for the section 2011 credit for state death taxes paid for the period ending before the date of the expiration of the 10-year period elected for paying the federal estate tax. However, when the estate tax return is filed, only the state death taxes actually paid qualify for the section 2011 credit on the estate tax return. A recomputation procedure like the one described in Rev. Proc. 81-27 may be used to recompute the total remaining estate tax liability whenever the estate submits certification of payment of additional state death tax. The recomputation would take into account the section 2011 credit that may be allowed for any state death tax installment paid by the estate. After all state death taxes have been paid, a claim for refund may be made, if necessary, for an overpayment of tax but only after the federal estate tax liability has been paid in full.

In Situation 2, because the estate did not elect to extend the time to pay the federal estate tax, the extension of time within which to claim a refund based on the credit for state death taxes actually paid, described in section 2011(c)(2), is not applicable. Because none of the other extensions described in section 2011(c) apply, only installments *paid* to the state for death taxes within four years of the filing of the estate tax return can qualify for the credit described in section 2011 of the Code. Accordingly, when the estate files the estate tax return, only the state death taxes paid as of that time may be taken into account for a credit under section 2011. Certification of additional payments or installments made relating to the state death taxes during the four year period may be submitted for recomputation of the federal estate tax liability. A subsequent claim for a refund upon payment of each state installment may be made within the four-year period.

Any death tax installments paid to State *S* in Situation 2 after expiration of the four-year period described in section 2011(c) of the Code cannot be allowed as a credit against the federal estate tax liability of the estate. Because the tax was paid when the federal estate tax return was filed and none of the exceptions described in section 2011(c) are applicable, only state death taxes paid within four years of the filing of the federal estate tax return can qualify for the credit described in section 2011.

HOLDINGS

Situation 1.

When the estate elects the application of section 6166 of the Code to pay the federal estate tax, and also elects under state law to pay state death taxes in annual installments over a period longer than four years from the date of the filing of the federal estate tax return, the exception described in section 2011(c)(2) is applicable.

Situation 2.

State death taxes paid by the estate within four years of the filing of the federal estate tax return and the payment of the federal tax are eligible for the credit described in section 2011 of the Code. State death taxes paid by the estate more than four years after the filing of the federal estate tax return are not eligible for the credit described in section 2011 when none of the exceptions described in section 2011(c)(1) through (3) are applicable.

Section 2036.—Transfers with Retained Life Estate

26 CFR 20.2036-1(a): In general.

Whether property is includible in the decedent's gross estate under section 2041 of the Code where the decedent releases a general testamentary power of appointment over the property while retaining an income interest for life. See Rev. Rul. 86-39, below.

Section 2041.—Powers of Appointment

26 CFR 20.2041-3: Powers of appointment created after October 21, 1942.

Whether acquiescence in a recapitalization of closely held stock in a trust by the trust beneficiary, resulting in a shift in the beneficiary's interest by decreasing the value of the remainder interest over which the beneficiary has a general power of appointment, is a release of the power under section 2041 of the Code. See Rev. Rul. 86-39, below.

Section 2511.—Transfers in General

26 CFR 25.2511-1: Transfers in general. (Also Section 2036, 2041, 2514; 20.2036-1, 20.2041-3, 25.2514-1.)

Recapitalization; shift in value of trust assets; release of general power of appointment. Acquiescence in a recapitalization of closely held stock in a trust is a transfer by the trust beneficiary subject to the gift tax, where the recapitalization results in a shift in the beneficiary's interest by decreasing the value of the remainder interest over which the beneficiary has a general power of appointment.

Rev. Rul. 86-39

ISSUE

If the beneficiary of a trust possesses a general testamentary power of appointment over the trust corpus, if the trust holds stock of a closely held corporation, and if a recapitalization results in a shift in value from that trust to a second trust over which that beneficiary has no power of appointment, then for purposes of estate and gift taxation, is acquiescence in the recapitalization a release of the power of appointment?

FACTS

D owned 100 percent of the voting shares of *X* corporation. *D* died in 1980 and *D*'s will provided for the creation of two testamentary trusts. Trust *A* provided *D*'s spouse, *S*, with a lifetime income interest and a general testamentary power of appointment over the corpus. Trust *A* was funded with shares of *X* corporation common stock worth 120x dollars. Trust *B* provided *S* with a life income interest and *C*, *D*'s child, with the remainder interest. Trust *B* was funded with shares of *X* corporation common stock worth 80x dollars. The trustees of Trust *A* and Trust *B* were unrelated to the decedent or the trust beneficiaries.

In 1982, the stock of *X* corporation was recapitalized, resulting in two new classes of stock, voting common and nonvoting preferred. Preferred stock worth 50x dollars was allocated to Trust *A* and common stock worth 150x dollars was allocated to Trust *B*. The trustees of Trust *A* acquiesced in the recapitalization, and *S* executed a release, valid under local law, in which *S* agreed not to challenge the trustee's action with respect to the recapitalization. *S* died in 1985, when the fair market value of the preferred stock held by Trust *A* was 55x dollars and the fair market value of the common stock held by Trust *B* was 225x dollars.

LAW AND ANALYSIS

Section 2501 of the Internal Revenue Code imposes a tax on the transfer of property by gift.

Section 2511 of the Code applies the gift tax to transfers in trust or otherwise, whether the gift is direct or indirect, and whether the property is real or personal, tangible or intangible.

Section 2512(b) of the Code provides that where property is transferred for less than adequate and full consideration, the amount by which the value of the property transferred exceeds the value of the consideration received in a gift.

Section 2514(b) of the Code treats an exercise or release of a general power of appointment created after October 21, 1942, as a transfer of property by the individual possessing such power.

Section 25.2511-1 of the Gift Tax Regulations provides that all transactions whereby property or property rights or interests are gratuitously passed to, or conferred upon, another regardless of the means or device employed, constitute gifts subject to gift tax. However, the gift tax is not applicable to transfers for full and adequate consideration in money or money's worth, or to transactions at arm's length in the ordinary course of business.

Section 25.2511-2(b) of the regulations provides that a gift is complete if the donor parts with dominion and control so as to retain no power to change the disposition of property or any interest therein, whether for the donor's benefit or for the benefit of another.

Under section 2036(a) of the Code, for purposes of the estate tax, the value of the gross estate includes the value of any interest in property transferred, by trust or otherwise, by a decedent if the decedent had retained for life either the possession or enjoyment of, or the right to income from, the property, or the right to designate the persons who shall possess or enjoy the property or the income therefrom.

Section 2041(a)(2) of the Code provides, in part, that the gross estate shall include the value of property to the extent that the decedent had exercised or released a general power of appointment by a disposition which if it were a transfer of property owned by the decedent, would have been includible in the decedent's gross estate under section 2036 of the Code.

Section 20.2041–3 (d)(1) of the Estate Tax Regulations provides that a release of a power of appointment need not be formal or express in character. See section 25.2514-3(c)(4) for an identical rule under the Gift Tax Regulations.

Rev. Rul. 83-120, 1983-2 C.B. 170, sets forth factors to be considered in valuing the stock of a closely held corporation for gift tax purposes where a recapitalization of the corporation results in a stockholder receiving preferred and common stock in exchange for that individual's former common stock interest.

Rev. Rul. 84-105, 1984-2 C.B. 197, holds that if a surviving spouse acquiesces in an underfunding of a testamentary trust established for the spouse's benefit (by not appealing a local probate court's order), the acquiescence is treated as a gift by the spouse to the person or persons who receive the property that would otherwise have comprised the trust.

The recapitalization of the stock in *X* corporation resulted in a shift in the value of the interests between Trust *A* and Trust *B*.

Prior to the recapitalization, *S*, as beneficiary of Trust *A*, had an income interest in, and a general testamentary power of appointment over, the stock of *X* corporation worth 120x dollars and an income interest, as beneficiary of Trust *B*, in the remaining stock worth 80x dollars. As a result of the recapitalization, *S*, as beneficiary of Trust *A*, received an income interest in, and a general testamentary power of appointment over, a different class of stock worth 50x dollars and, as beneficiary of Trust *B*, received an income interest for life in stock worth 150x dollars. Although the total value of *S*'s income interest in the two trusts was unchanged as a result of the recapitalization, the value of the corpus of Trust *A* over which *S* retained a general testamentary power of appointment decreased by 70x dollars, the excess of 120x dollars over 50x dollars.

By consenting to the reallocation of stock, the trustee of Trust *A*, accepted stock with a lesser value than the value held prior to the recapitalization. *S*, as the beneficiary of Trust *A*, could have asserted the right of a trust beneficiary under local law to prevent the trustee from permitting a loss in value of the trust assets. The execution of the release in which *S* agreed not to raise an objection to the trustee's conduct with respect to the recapitalization constitutes a release of a general testamentary power of appointment by *S* over stock worth 70x dollars.

For purposes of the gift tax, the release by *S* is treated as a transfer of property to *C*, the owner of the remainder interest in Trust *B*, for which *S* did not receive adequate and full consideration. *See* Rev. Rul. 84-105. The value of the gift from *S* to *C* as as result of the recapitalization of *X* corporation is equal to the present value of the remainder interest in 70x dollars worth of stock that was shifted from Trust *A* to Trust *B*.

For purposes of the estate tax, the release of the general testamentary power of appointment over the remainder interest in the 70x dollars worth of stock is treated as a transfer under which *S*, as the income beneficiary of Trust *B*, retained an income interest for life in the transferred stock. An actual transfer of such an interest would have resulted, upon *S*'s death in 1985, in the portion of the Trust *B* corpus attributable to the value of the interest so transferred being includible in *S*'s gross estate under section 2036. Thus, in this case, *S*'s release of the power results in the inclusion of a portion of the corpus of Trust *B* in the gross estate under section 2041 of the Code to the same extent that the property would have been includible under section 2036 if there had been an actual transfer.

HOLDING

In the circumstances described above, if a recapitalization of a closely held corporation causes a shift in the value of the interests of the beneficiaries of trusts that own stock in the corporation, the shift is treated as a transfer for estate and gift tax purposes.

When the holder of a general testamentary power of appointment releases the power over property while retaining an income interest for life in that same property, the property is includible in the transferor's gross estate under section 2041 of the Code.

Section 2514.—Powers of Appointment

26 CFR 25.2514-1: Transfers under power of appointment.

Whether there is a transfer under a power of appointment for gift tax purposes where a recapitalization of a closely held corporation causes a shift in the value of the interest of a beneficiary of a trust that has a general power of appointment over the closely held stock. See Rev. Rul. 86-39, page 23.

Part III. Administrative, Procedural, and Miscellaneous

Inflation Adjustment for Computation of Windfall Profit Tax

Notice 86-4

Section 4989(b) of the Internal Revenue Code requires the determination of an inflation adjustment factor for use in computing the windfall profit tax.

The Service has determined that, for oil removed during the April-June quarter of 1986, the inflation adjustments are as follows:

Tier 1 or Tier 2 oil	0.4524
Tier 3 oil	0.6535

Worksheets for computation of the windfall profit tax are included in the Instructions for Form 6047, Windfall Profit Tax, and an explanation of the inflation adjustment may be found in the Specific Instructions for Line 4 of the worksheets.

---

26 CFR 601.601: Rules and regulations.

Rev. Proc. 86-15

SECTION 1. PURPOSE

The purpose of this revenue procedure is to supersede Rev. Proc. 78-24, 1978-2 C.B. 503, and to restate the objectives of, and set forth the standards for, the publication of revenue rulings and revenue procedures in the Internal Revenue Bulletin.

SEC. 2. CHANGES

Sections 7 and 8 of Rev. proc. 78-24 have been revised to reflect the reorganization of the Internal Revenue Service in accordance with Treasury Department Order No. 150-95, 1982-1 C.B. 510, effective March 21, 1982, under Delegation Order No. 190, 1982-1 C.B. 350, the establishment of the office of the Associate Chief Counsel (International), and the responsibility of the Assistant Commissioner (Support and Services) for publishing the Internal Revenue Bulletin.

SEC. 3. DEFINITIONS

.01 A "revenue ruling" is an official interpretation of the internal revenue laws, related statutes, tax treaties and regulations, by the Service that has been published in the Bulletin. Revenue rulings are issued only by the National Office and are published for the information and guidance of taxpayers, Service officials, and others concerned.

.02 A "revenue procedure" is an official statement of a procedure published in the Bulletin that either affects the rights or duties of taxpayers or other members of the public under the Internal Revenue Code and related statutes and regulations, or, although not necessarily affecting the rights and duties of the public, should be a matter of public knowledge.

SEC. 4. BACKGROUND

.01 The Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for the publication of official rulings and procedures of the Service, including all rulings and statements of procedure that supersede, revoke, modify, amend, or affect any previously published ruling or procedure. The Service also announces in the Bulletin the Commissioner's acquiescence or nonacquiescence in decisions of the United States Tax Court (other than decisions in memorandum opinions), and publishes Treasury Decisions, Executive Orders, tax conventions, legislation, court decisions, and other items considered to be of general interest.

.02 The Bulletin is published weekly. In order to provide a permanent reference source, the contents of the bulletin are consolidated semiannually into an indexed Cumulative Bulletin. These materials are sold by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

SEC. 5. OBJECTIVES

The purpose of publication of revenue rulings and revenue procedures in the Bulletin is to promote uniform application of the tax laws by Service employees and to assist taxpayers in attaining maximum voluntary compliance by informing Service personnel and the public of National Office interpretations of the internal revenue laws, related statutes, tax treaties, and regulations, and statements of Service procedures affecting the rights and duties of taxpayers.

SEC. 6. PUBLICATION STANDARDS

.01 It is the policy of the Service to publish in the Bulletin issues and answers involving substantive tax laws under the jurisdiction of the Service, except those involving—

(1) Issues answered by statute, tax treaties, or regulations;

(2) Issues answered by rulings, opinions, or court decisions previously published in the Bulletin;

(3) Issues that are of insufficient importance or interest to warrant publication;

(4) Determinations of fact rather than interpretations of law,

(5) Informers and informers' rewards; and

(6) Disclosure of secret formulas, processes, business practices, and similar information.

.02 It is the policy of the Service to publish in the bulletin procedures affecting taxpayers' rights or duties that relate to matters under the jurisdiction of the Service.

SEC. 7. FORM AND EFFECT OF PUBLICATION

.01 Revenue rulings.—(1) Rulings and other communications involving substantive tax law published in the Bulletin are published in the form of revenue rulings. The conclusions expressed in revenue rulings will be directly responsive to, and limited in scope by, the pivotal facts stated in the revenue ruling. Revenue rulings arise from various sources, including rulings to taxpayers, technical advice to district offices, court decisions, suggestions from tax practitioner groups, publications, etc.

(2) The Service publishes as much of the ruling or communication as is necessary for an understanding of the position stated. However, identifying details, including the names and addresses of persons involved, and information of a confidential nature are not included, to prevent unwarranted invasions of personal privacy and to comply with statutory provisions, such as 18 U.S.C. 1905 and 26 U.S.C. 6103 and 7213, dealing with disclosure of information obtained from members of the public.

(3) A revenue ruling, other than one relating to the qualification of pension, annuity, profit-sharing, stock bonus, and bond purchase plans, applies retroactively, unless it includes a specific statement indicating, under the authority of section 7805(b) of the Code, the extent to which it is to be applied without retroactive effect. When revenue rulings revoke or modify rulings previously published in the Bulletin, the authority of section 7805(b) ordinarily is invoked to provide that the new rulings will not be applied retroactively to the extent that the new rulings have adverse tax consequences to taxpayers. Section 7805(b) provides that the Secretary of the Treasury, or the Secretary's delegate, may prescribe the extent to which any ruling is to be applied without retroactive effect. That authority has been delegated to the Commissioner and has been redelegated to the Associate Chief Counsel (Technical), Associate Chief Counsel (International) and the Assistant Commissioner (Employee Plans and Exempt Organizations) and to each of their deputies. The exercise of this authority requires an affirmative action. For the effect of revenue rulings on determination letters and opinion letters issued with respect to the qualification of pension, annuity, profit-sharing, stock bonus, and bond purchase plans, see section 13 of Rev. Proc. 80-30, 1980-1 C.B. 685.

(4) Revenue rulings published in the Bulletin do not have the force and effect of Treasury Department Regulations (including Treasury Decisions), but are published to provide precedents to be used in the disposition of other cases, and may be cited and relied upon for that purpose. No unpublished ruling or decision will be relied on, used, or cited, by any officer or employee of the Service as a precedent in the disposition of other cases.

(5) Taxpayers generally may rely upon revenue rulings published in the Bulletin in determining the tax treatment of their own transactions and need not request specific rulings applying the principles of a published revenue ruling to the facts of their particular cases. However, since each revenue ruling represents the conclusion of the Service as to the application of the law to the entire statement of facts involved, the taxpayers, Service personnel, and others concerned are cautioned against reaching the same conclusion in other cases unless the facts and circumstances are substantially the same. They should consider the effect of subsequent legislation, regulations, court decisions, and revenue rulings.

(6) Comments and suggestions from taxpayers, taxpayer groups, or other interested parties, on revenue rulings being prepared for publication in the Bulletin may be solicited if justified by special circumstances. Conferences on revenue rulings being prepared for publication will not be granted except when the Service determines that such action is justified by special circumstances.

.02 Revenue procedures.—When revenue procedures reflect the contents of internal management documents, it is Service practice to publish as much of the internal management document as is necessary for an understanding of the procedure. When publication of the substance of a revenue procedure in the Federal Register is required pursuant to 5 U.S.C. 552, it will usually be accomplished by an amendment of the Statement of Procedural Rules (26 CFR Part 601).

SEC. 8. RESPONSIBILITIES

.01 The Chief Counsel is responsible for administering the Service's revenue ruling and revenue procedure publication program including the standards for style and format of revenue rulings and revenue procedures. The Assistant Commissioner (Support and Services) is responsible for publishing the Internal Revenue Bulletin weekly and for consolidating the contents of the Bulletin semiannually into an indexed Cumulative Bulletin.

.02 In accordance with the standards set forth in section 6 of this revenue procedure the Associate Chief Counsel (Technical), the Associate Chief Counsel (International) and the Assistant Commissioner (Employee Plans and Exempt Organizations) are responsible for the preparation and appropriate referral for publication of revenue rulings reflecting interpretations of substantive tax law made by their respective offices and communicated in writing to taxpayers or field offices.

.03 In accordance with the standards set forth in section 6 of this revenue procedure, all Assistant Commissioners and the Chief Counsel are responsible for determining whether procedures established by any office under their jurisdiction should be published as revenue procedures and for the initiation, content, and appropriate referral for publication of such revenue procedures.

SEC. 9. EFFECTS ON OTHER DOCUMENTS

Rev. Proc. 78-24 is superseded.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Section 338(b)—Basis of Target Corporation Assets

LR-191-82

SUMMARY: * * * [T]he Internal Revenue Service is issuing temporary regulations that add new §§1.338(b)-1T through 1.338(b)-3T, relating to the determination of the basis of assets of a target corporation, and that amend existing temporary regulations §1.338-4T, relating to miscellaneous matters under section 338. The text of the new and revised sections also serves as the comment document for this notice of proposed rulemaking.

DATES:

PROPOSED EFFECTIVE DATE

The final regulations under section 338(b) are proposed to be effective [upon publication in the FEDERAL REGISTER] and to apply generally to stock acquisitions made after August 31, 1982.

DATES FOR COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Written comments and requests for a public hearing must be delivered or mailed by March 31, 1986.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T [LR-191-82], Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Bennett C. Steinhauer or Patricia Wendlandt of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) or telephone 202-566-3458 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

Temporary regulations published * * *[on page 7, this Bulletin] add new temporary regulations §§1.338(b)-1T through 1.338(b)-3T to Part 1 of title 26 of the Code of the Federal Regulations ("CFR") and amend temporary regulations §§1.338-1T and 1.338-4T. The final regulations that are proposed to be based on the new and amended temporary regulations would be added to Part 1 of Title 26 of the CFR. Those final regulations would provide guidance on the determination of the basis of the assets of a target corporation for which an election is made under section 338 of the Internal Revenue Code. Section 338(b) was added by section 224 of the Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") (Pub. L. No. 97-248; 96 Stat. 485) [1982-2 C.B. 462, 501] and was amended by section 712(k) of the Tax Reform Act of 1984 (Pub. L. No. 98-369; 98 Stat. 948) [1984-3 C.B. (Vol. 1), 1, 456]. For the text of the new and amended temporary regulations, see T.D. 8072, published * * * [on page 7, this Bulletin]. The preamble to the temporary regulations explains the additions to the regulations.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6). The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis therefore is not required.

COMMENTS AND REQUEST FOR A PUBLIC HEARING

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal authors of these proposed regulations are Bennett C Steinhauer and Patricia Wendlandt of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both of matters on substance and style.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on January 23, 1986, 4:49 p.m., and published in the issue of the Federal Register for January 29, 1986, 51 F.R. 3634)

Foundations Status of Certain Organizations

Announcement 86-29

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings as designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does *not* indicate that the organizations have lost their status as organizations described in section 501(c)(3), eligible to receive deductible contributions.

Former Public Charities. The following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundations:

A.T.C. Research Foundation, San Diego, CA
American Multi-Cultural Women's & Children's Health & Community Ctr. Inc., Compton, CA
Assistance For Children Under Crisis, Inc., San Diego, CA

Assistance In Health Care, Inc., Zion, IL
Bonita Services, Inc., Berkeley, CA
Bonner General Hospital Foundation, Sandpoint, ID
Cedarburg Athletic Booster Club, Inc., Cedarburg, WI
Cherie and Eli Kaplan Foundation, The, Far Rockaway, NY
Company Theater, The, Minneapolis, MN
Council on Public Policy Education, Dayton, OH
Crowleys Booster Club, Oakdale, MN
Duluth Cathedral High School Teachers Scholarship Fund, Duluth, MN
Economic Growth Opportunity Ltd., Oakland, CA
Evangelisma International, Inc., Wilmington, DE
Festival of Light and Song, Inc., Cambridge, MA
Firefighters Annual Charitable Ski Race Corp., Staten Island, NY
Friends For Life, Inc., Chicago, IL
George P. Lockhart Foundation, Inc., Swansea, MA
Gyrphon Theatricals, Inc., New York, NY
Herr Foundation, Inc., Flushing, NY
Human Service Providers, Inc., Mansfield, PA
Idyllwild International Jazz Institute, Idyllwild, CA
Illinois Chamber Symphony, St. Charles, IL
Inglewood Philharmonic Association, Los Angeles, CA
Institute for Policy Development, Seattle, WA
Institute for Vico Studies, Inc., New York, NY
International Human Powered Vehicle Assoc., Claremont, CA
Iowa Mennonite Crowded Closet, Iowa City, IA

Wisconsin Tavern League Foundation, Inc., Madison, WI
Women Lawyers Scholarship Fund, St. Louis, MO

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classification as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)-7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

Clarification of Instructions to Form 8308

Announcement 86-30

This announcement concerns the information required to be provided on Form 8308 in certain situations which are not specifically addressed in the instructions accompanying that form. Form 8308 is to be used by partnerships as the return filed with the Internal Revenue Service and as the statement furnished to transferor and transferee partners in certain sales or exchanges of partnership interests under section 6050K of the Internal Revenue Code. Under section 6050K, partnerships generally must file returns and furnish statements with respect to each sale or exchange of a partnership interest where any portion of any money or property received in exchange for the partnership interest is attributable to unrealized receivables or substantially appreciated inventory items (hereinafter referred to as a "section 751(a) exchange"). Temporary regulations under section 6050K were published in the Federal Register on December 23, 1985 (50 Fed. Reg. 52,313). Announcement 86-8, 1986-5 I.R.B. 45, extended the due date for furnishing statements on Form 8308 for 1985 from January 31, 1986, to March 14, 1986.

A separate Form 8308 is required to be completed for each section 751(a) exchange. The form must contain the names, addresses, and taxpayer identification numbers of the transferor and transferee partners in the exchange and of the partnership filing the return, as well as the date of the exchange. Although this information is generally available to the partnership, in certain situations the partnership may not be able to include all of the information on Form 8308 with respect to a particular section 751(a) exchange. This announcement describes some of these situations and provides guidance to partnerships for completing Form 8308 for calendar year 1985 in order to avoid penalties under sections 6652(a) and 6678(a) of the Code. Generally, the penalty for failure to file a return or statement under section 6050K is $50 for each return or statement, with a maximum penalty for each partnership of $50,000 for all returns and $50,000 for all statements for any year. The penalty is not imposed if it is shown that the failure is due to reasonable cause.

Matching transferors and transferees. In certain situations partnerships may not be able to match the transferor and transferee partners in a particular section 751(a) exchange and are thus unable to complete all entries on Form 8308. For example, if a publicly traded limited partnership has notice that on July 1, 1985, partners A, B, and C sold their interests and partners D, E, and F purchased partnership interests in a section 751(a) exchange, the partnership may be unable to determine which interest was sold to whom (that is, whether A's interest was sold to D, E, or F, etc.).

Where a partnership is not able to match transferor and transferee partners in a particular section 751(a) exchange, the Service will not impose penalties under sections 6652(a) and 6678(a) for calendar year 1985 with respect to that exchange if the partnership: (1) Timely files a return on Form 8308 with respect to the exchange containing all information required to be provided except information relating to the transferee partner (Part II of Form 8308); and (2) timely furnishes a copy of that Form 8308 to the transferor partner. Similarly, no penalty will be imposed on transferor partners under section 6678(c) for calendar year 1985, with respect to a section 751(a) exchange, where the transferor partner does not know the identity of the transferee partner and timely notifies the partnership, in writing, of the section 751(a) exchange, if the written notification includes the name, address, and taxpayer identification number of the transferor partner and the date of the exchange.

Record interest holders. In certain situations partnerships may have notice that a section 751(a) exchange has occurred, but the identity of the transferor or transferee (the beneficial owner of the interest before or after the transfer) is unknown because the transferor or transferee may be a person other than the record holder of the partnership interest. This situation may arise, for example, where partnership interests are held in street name, or by a nominee, and the partnership is not notified of the sale or exchange directly by the transferor.

Where a partnership has notice that a section 751(a) exchange has occurred, the partnership may treat the record holder of the interest as the transferor or transferee for the purpose of completing Form 8308 for calendar year 1985, in the absence of knowledge of the identity of the beneficial holder of the partnership interest (even though the partnership has knowledge that the beneficial holder is not the record holder of the partnership interest). However, this rule does not relieve the transferor of his duty under section 6050K(c)(1) to notify the partnership of the section 751(a) exchange.

Multiple transfers between the same parties. Generally, a separate Form 8308 is required to be completed for each section 751(a) exchange occurring during 1985. However, for calendar year 1985 only, partnerships may use a single Form 8308 to report two or more section 751(a) exchanges *by a single transferor* if all exchanges reported on that form either: (1) Were with the same transferee; or (2) were exchanges in which the transferor and transferee cannot be matched (and therefore the transferee information is not required to be provided on the form).

The dates of all exchanges reported on the single Form 8308 must be included in the appropriate place on the form. The single Form 8308 may be used as the return required under section 6050K(a) for all exchanges included therein and a copy of the single Form 8308 may be used as the statement required to be furnished to the transferor and the transferee partners under section 6050K(b). If the single Form 8308 does not contain information with respect to the transferee partner, a copy must only be furnished to the transferor partner.

This announcement only applicable to calendar year 1985. The provisions of this announcement only apply with respect to returns and statements on Form 8308 for calendar year 1985.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Dal H. Felkel	Kingstree, SC	Certified Public Accountant	Indefinite from January 31, 1986
John J. Matonis	Walnut, CA	Attorney	Indefinite from January 24, 1986
Joel A. Shor	Baltimore, MD	Certified Public Accountant	Five Months from December 15, 1985
Patrick H. Diamond	New York, NY	Attorney & Certified Public Accountant	Indefinite from February 10, 1986
Folger P. Gifford	Cold Spring Harbor, NY	Certified Public Accountant	Indefinite from February 11, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Bulletin No. 1986-12

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

SPECIAL ANNOUNCEMENT

Announcement 86–34, page 26.

A public hearing will be held on June 4, 1986, on the $40 million limitation upon beneficiaries of certain tax-exempt bond issues and on the definition of the term "principal user" for purposes of section 103(b)(6) and (15) of the Code.

INCOME TAX

Rev. Rul. 86-40, page 5.

LIFO; price indexes; department stores. The December 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, December 31, 1985.

Rev. Proc. 86-14, page 11.

Depreciation; recovery period. Section 4.02 of Rev. Proc. 86-6, relating to the increase in the recovery period from 18 to 19 years, is modified and certain numbers in tables are corrected. Rev. Proc. 86-6 modified and superseded.

T.D. 8070, page 6.

Temporary regulations relating to the loss deferral, wash sale, and holding period rules for straddles are amended.

LR-157-84, page 22.

LR-59-74, page 19.

Amendments to the regulations under section 103(b) of the Code relate to the $40 million limitation on beneficiaries of certain tax-exempt bond issues and to the definition of the term "principal user."

Finding Lists begin on page 33.
Announcement of Suspensions on page 30.
Announcement of Notice of Proposed Rulemaking on page 31.

Announcement 86-31, page 25.

The time for making certain elections and for taking certain other actions under section 338 of the Code has been extended.

Announcement 86-32, page 26.

The Service is not appealing the decision of the Tax Court in *Woods Investment Co. v. Commissioner.* Although the Service disagrees with the result in that case, it will no longer advance the position that it advanced in that case, pending a change in the regulations.

Announcement 86-35, page 27.

Taxpayers will be allowed to aggregate certain partnership and S corporation activities for purposes of the at-risk rules under section 465 of the Code.

Announcement 86-36, page 27.

The "differential earnings rate" under section 809 of the Code is tentatively determined for taxable year 1985 together with the "recomputed differential earnings rate" for 1984.

GIFT TAX

Rev. Rul. 86-41, page 9.

Transfers; real property; adjustment to portion transferred based on Service's valuation. The value of a gift will be determined without regard to an adjustment clause that provides for the recharacterization of the transaction depending on the Service's valuation of the property.

ADMINISTRATIVE

Rev. Proc. 86-16, page 13.

Liquidation of corporation; revised checklist for ruling request. A revised checklist sets forth the information and representations to be included in a request for a ruling under sections 331 and 337 of the Code with respect to a liquidation of a corporation. Rev. Proc. 81-52 superseded.

Announcement 86-23, page 25.

Certain depreciation tables for 19-year real property placed in service after May 8, 1986, should be used instead of the tables in Publication 534, Depreciation.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

HIGHLIGHTS OF THIS ISSUE—Continued

ADMINISTRATIVE—Continued

Announcement 86-37, page 26.

Several 1985 tax forms were printed before enactment of legislation extending the recovery period for 18-year real property to 19 years. Taxpayers should include amounts attributable to 19-year real property wherever "15 or 18-year" appear on these forms.

Announcement 86-38, page 27.

Publication 519, U.S. Tax Guide for Aliens, contains errors in three examples.

Announcement 86-40, page 29.

Form 8264, Application for Registration of a Tax Shelter, and instructions, have been revised. The form and instructions should be available by the end of March 1986.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 168.—Accelerated Cost Recovery System

The cost recovery rates for real property set forth in Rev. Proc. 86-6, are hereby corrected. See Rev. Proc. 86-14, page 11.

Section 331.—Gain or Loss to Shareholders in Corporate Liquidations

26 CFR 1.331-1: Corporate liquidations.

Checklist concerning information to be included in a request for a ruling with regard to corporate liquidations under sections 331 and 337 of the Code. See Rev. Proc. 86-16, page 13.

Section 337.—Gain or Loss on Sales or Exchanges in Connection With Certain Liquidations

26 CFR 1.337-1: General.

Checklist concerning information to be included in a request for a ruling with regard to corporate liquidations under sections 331 and 337 of the Code. See Rev. Proc. 86-16, page 13.

Section 472.—Last-in, First-out Inventories

26 CFR 1.472-1: Last-in, first-out inventories.

LIFO; price indexes; department stores. The December 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, December 31, 1985.

Rev. Rul. 86-40

The following price indexes for December 1985 were issued by the Bureau of Labor Statistics on January 24, 1986, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472-1(k) of the Income Tax Regulations and Rev. Proc. 72-21, 1972-1 C.B. 745, for appropriate application to inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, December 31, 1985.

Indexes are prepared on a national basis for the store total, for 20 major groups of departments, and for two special combinations—soft and durable goods. The store total index covers all departments, including some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, paints, and wallpaper, as well as contract departments.

Section 1092.—Straddles

26 CFR 1.1092(b)-1T: Coordination of loss deferral rules and wash sale rules (temporary).

T.D. 8070

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Coordination of Loss Deferral and Wash sale Rules and Treatment of Holding Periods and Losses Under Section 1092

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document amends temporary regulations relating to the loss deferral, wash sale, and holding period rules for straddles. Changes in the applicable tax law were made by the Economic Recovery Tax Act of 1981 [Pub. L. 97-34, 1981-2 C.B. 256], the Technical Corrections Act of 1982 [Pub. L. 97-448, 1983-1 C.B. 451], and the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These regulations affect taxpayers holding straddles and provide Internal Revenue Service personnel who administer the Internal Revenue Code and members of the public with the guidance necessary to comply with the law.

DATES: The regulations under §1.1092(b)-1T, relating to the coordination of the loss deferral rules and wash sale rules, apply to dispositions of loss positions on or after January 24, 1985, and are effective on or after January 24, 1985. The regulations under §1.1092(b)-2T(d), relating to the treatment of holding periods and losses with respect to straddle positions, apply to positions established after June 23, 1981, and are effective after June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Timothy J. McKenna of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T). Telephone 202-566-3287 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains amendments to the Temporary Income Tax Regulations (26 CFR Part 1) under section 1092(b) of the Internal Revenue Code of 1954 which were published in the FEDERAL REGISTER on January 24, 1985 (50 FR 3317 [T.D. 8007, 1985-1 C.B. 269]. A notice of proposed rulemaking cross-referencing these temporary regulations was published in the same issue of the FEDERAL REGISTER (50 FR 3352) [LR-297-84, 1985-1 C.B. 662]. These amendments conform the regulations to section 501 of the Economic Recovery Tax Act of 1981 (Pub. L. 97-34, 95 Stat. 323) [1981-2 C.B. 256, 335], section 105 of the Technical Corrections Act of 1982 (Pub. L. 97-448, 96 Stat. 2384) [1983-1 C.B. 451, 460], and section 103 of the Tax Reform Act of 1984 (Pub. L. 98-369, 98 Stat. 627) [1984-3 C.B. (Vol. 1) 1, 135]. The temporary regulations provided by this document will remain in effect until superseded by final regulations on this subject.

SUMMARY OF CHANGES IN TEMPORARY REGULATION

This document amends §1.1092(b)-1T by adding rules relating to the coordination of the loss deferral rules under section 1092 and the wash sale rules under section 1091, and by revising and adding certain examples in §1.1092(b)-1T. This document also amends §1.1092(b)-2T(d), relating to the treatment of holding periods and losses with respect to straddle positions held by regulated investment companies, and §1.1092(b)-5T, relating to definitions for §§1.1092(b)-1T through 1.1092(b)-4T.

Under §1.1092(b)-1T(a) of the prior temporary regulations, a taxpayer disposing of a loss position of a straddle generally had to defer the loss to the extent of unrecognized gain in successor positions, offsetting positions to the loss position, or offsetting positions to the successor positions. The revised temporary regulations provide rules under paragraph (a)(1) of §1.1092(b)-1T that are to be applied (with respect to dispositions of loss positions on or after January 24, 1985) prior to the application of the rules provided under §1.1092(b)-1T(a) of the prior temporary regulations. The rules of §1.1092(b)-1T(a) of the prior temporary regulations are now contained in paragraph (a)(2) of §1.1092(b)-1T. Paragraph (a)(1) of revised regulation §1.1092(b)-1T generally provides for the deferral of any loss sustained by a taxpayer from the disposition of stock or securities that constitute positions in a straddle when the taxpayer acquires substantially identical stock or securities within 30 days of the disposition. Under the revised regulations, if the loss is not deferred under §1.1092(b)-1T(a)(1), then the rules under §1.1092(b)-1T(a)(2) apply.

Paragraph (n) of temporary regulation §1.1092(b)-5T has been revised, and new paragraphs (p) and (q) have been added. Paragraph (n) contains the definition of a "successor position". The revised temporary regulations narrow the definition of a successor position for purposes of applying the loss deferral rules under section 1092(a). Under the revised regulations, a position entered into after all positions of a straddle are disposed of will not be considered a successor position. Paragraphs (p) and (q) of revised temporary regulations §1.1092(b)-5T contain the definitions of "substantially identical" and "securities", respectively. "Substantially identical" is defined with reference to section 1091(a). "Securities" is defined with reference to section 1236(c).

The examples in temporary regulation §1.1092(b)-1T(g) (paragraph (f) of the prior temporary regulations) have been revised. Examples (4), (8), (9), and (16) of the prior temporary regulations are revised; examples (13), (14), and (15) are deleted; several examples are renumbered; and new examples (8), (14), and (17) through (27) are added to reflect the changes to the temporary regulations.

Revised §1.1092(b)-2T(d) provides that the rules of §1.1092(b)-4T(c), relating to the daily marking-to-market of positions in a mixed straddle account, will not apply for purposes of section 851(b)(3) (relating to the definition of a regulated investment company).

REGULATORY FLEXIBILITY ACT

A general notice of proposed rulemaking is not required by 5 U.S.C. 553 for temporary regulations. Accordingly, the temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive order 12291 and that a regulatory impact analysis therefore is not required.

DRAFTING INFORMATION

The principal author of these temporary regulations is Timothy J. McKenna of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority 26 U.S.C. 7805. * * * Sections 1.1092(b)-1T and 1.1092(b)-2T also issued under 26 U.S.C. 1092(b)(1). * * *

Par. 2. Section 1.1092(b)-1T is amended as follows:

(a) Paragraphs (a) through (d) are revised to read as set forth below.

(b) Paragraphs (e) and (f) are redesignated as paragraphs (f) and (g), respectively, and a new paragraph (e) is added to read as set forth below.

(c) The examples in paragraph (g) are revised as follows:

(1) *Example* (4) is amended by adding at the end of the third sentence the words "but is not substantially identical to the long position disposed of on November 10, 1985."

(2) *Examples* (13), (14), and (15) are deleted.

(3) *Examples* (10), (11), and (12) are renumbered "*Example* (11).", "*Example* (12).", and "*Example* (13).", respectively.

(4) *Example* (9) is renumbered "*Example* (10)." and is amended by adding at the end of the fourth sentence the words "but is not substantially identical to the short position disposed of on November 10, 1985."

(5) *Example* (8) is renumbered "*Example* (9)." and is amended by adding after the first sentence the sentence "neither the long nor the short position is stock or securities."

(6) *Example* (16) is renumbered "*Example* (15).", and is amended by adding at the end of the third sentence the words "that is offsetting to the long position, but is not substantially identical to the short position disposed of on December 4, 1985" and by adding at the end of the fifth sentence the words "that is offsetting to the new short position, but is not substantially identical to the long position disposed of on December 6, 1985."

(7) *Example* (17) is renumbered "*Example* (16).".

(8) New examples (8), (14), and (17) through (27) are added to read as set forth below.

(9) In the first sentence in redesignated *Examples (11), (12)* and *(13)*, the language "example (9)" is removed and the language "*example (10)*" is added in its place.

§1.1092(b)-1T Coordination of loss deferral rules and wash sale rules (temporary).

(a) *In general.* Except as otherwise provided, in the case of the disposition of a position or positions of a straddle, the rules of paragraph (a)(1) of this section apply before the application of the rules of paragraph (a)(2) of this section.

(1) Any loss sustained from the disposition of shares of stock or securities that constitute positions of a straddle shall not be taken into account for purposes of this subtitle if, within a period beginning 30 days before the date of such disposition and ending 30 days after such date, the taxpayer has acquired (by purchase or by an exchange on which the entire amount of gain or loss was recognized by law), or has entered into a contract or option so to acquire, substantially identical stock or securities.

(2) Except as otherwise provided, if a taxpayer disposes of less than all of the positions of a straddle, any loss sustained with respect to the disposition of that position or positions ((hereinafter referred to as "loss position") shall not be taken into account for purposes of this subtitle to the extent that the amount of unrecognized gain as of the close of the taxable year in one or more of the following positions—

(i) Successor positions,

(ii) Offsetting positions to the loss position, or

(iii) Offsetting positions to any successor position,

exceeds the amount of loss disallowed under paragraph (a)(1) of this section. See §1.1092(b)-5T relating to definitions.

(b) *Carryover of disallowed loss.* Any loss that is disallowed under paragraph (a) of this section shall, subject to any further application of paragraph (a)(1) of this section and the limitations under paragraph (a)(2) of this section, be treated as sustained in the succeeding taxable year. However, a loss disallowed in Year 1, for example, under paragraph (a)(1) of this section will not be allowed in Year 2 unless the substantially identical stock or securities, the acquisition of which caused the loss to be disallowed in Year 1, are disposed of during Year 2 and paragraphs (a)(1) and (a)(2) of this section do not apply in Year 2 to disallow the loss.

(c) *Treatment of disallowed loss*—(1) *Character.* If the disposition of a loss position would (but for the application of this section) result in a capital loss, the loss allowed under paragraph (b) of this section with respect to the disposition of the loss position shall be treated as a capital loss. In any other case, a loss allowed under paragraph (b) of this section shall be treated as an ordinary loss. For example, if the disposition of a loss position would, but for the application of paragraph (a) of this section, give rise to a capital loss, that loss when allowed pursuant to paragraph (b) of this section will be treated as a capital loss on the date the loss is allowed regardless of whether any gain or loss with respect to one or more successor positions would be treated as ordinary income or loss.

(2) *Section 1256 contracts.* If the disposition of a loss position would (but for the application of this section) result in 60 percent long-term capital loss and 40 percent short-term capital loss, the loss allowed under paragraph (b) of this section with respect to the

disposition of the loss position shall be treated as 60 percent long-term capital loss and 40 percent short-term capital loss regardless of whether any gain or loss with respect to one or more successor positions would be treated as 100 percent long-term or short-term capital gain or loss.

(d) *Exceptions.*—(1) This section shall not apply to losses sustained—

(i) With respect to the disposition of one or more positions that constitute part of a hedging transaction;

(ii) With respect to the disposition of a loss position included in a mixed straddle account (as defined in paragraph (b) of §1.1092(b)-4T); and

(iii) With respect to the disposition of a position that is part of a straddle consisting only of section 1256 contracts.

(2) Paragraph (a)(1) of this section shall not apply to losses sustained by a dealer in stock or securities if such losses are sustained in a transaction made in the ordinary course of such business.

(e) *Coordination with section 1091*. Section 1092(b) applies in lieu of section 1091 to losses sustained from the disposition of positions in a straddle. See example (18) of paragraph (g) of this section.

* * * * *

(g) *Examples*. * * *

Example (8). Assume the facts are the same as in example (4), except at year-end there is $8 of unrecognized gain in the successor long position and $8 of unrecognized loss in the offsetting short position. Under these circumstances, $8 of the total $10 realized loss will be disallowed because there is $8 of unrecognized gain in the successor long position.

* * * * *

Example (14). On January 2, 1986, A enters into offsetting long and short positions. Neither the long nor the short position is stock or securities. On March 3, 1986, A disposes of the long position at a $10 gain. On March 10, 1986 A disposes of the short position at a $10 loss. On March 14, 1986, A enters into a new short position. On April 10, 1986, A enters into a new short position. On April 10, 1986, A enters into an offsetting long position. A holds both positions to year-end, at which time there is $10 of unrecognized gain in the offsetting long position and no unrecognized gain or loss in the short position. Under these circumstances, the $10 loss will be allowed because (1) the rules of paragraph (a)(1) of this section are not applicable; and (2) the rules of paragraph (a)(2) of this section do not apply, since all positions of the straddle that contained the loss position were disposed of.

* * * * *

Example (17). On January 2, 1986, A, not a dealer in stock or securities, acquires stock in X Corporation (X stock) and an offsetting put option. On March 3, 1986, A disposes of the X stock at a $10 loss. On March 10, 1986, A disposes of the put option at a $10 gain. On March 14, 1986, A acquires new X stock that is substantially identical to the X stock disposed of on March 3, 1986. A holds the X stock to year-end. Under these circumstances, the $10 loss will be disallowed for 1986 under paragraph (a)(1) of this section because A, within a period beginning 30 days before March 3, 1986 and ending 30 days after such date, acquired stock substantially identical to the X stock disposed of.

Example (18). On June 2, 1986, A, not a dealer in stock or securities, acquires stock in X Corporation (X stock). On September 2, 1986, A disposes of the X stock at a $100 loss. On September 15, 1986, A acquires new X stock that is substantially identical to the X stock disposed of on September 2, 1986, and an offsetting put option. A holds these straddle positions to year-end. Under these circumstances, section 1091, rather than section 1092(b), will apply to disallow the $100 loss for 1986 because the loss was not sustained from the disposition of a position that was part of a straddle. See paragraph (e) of this section.

Example (19). On November 1, 1985, A, not a dealer in stock or securities, acquires stock in Y Corporation (Y stock) and an offsetting put option. On November 12, 1985, there is $20 of unrealized gain in the put option and A disposes of the Y stock at a $20 loss. By November 15, 1985, the value of the put option has declined eliminating all unrealized gain in the position. On November 15, 1985, A acquires a second Y stock position that is substantially identical to the Y stock disposed of on November 12, 1985. At year-end there is no unrecognized gain in the put option or in the Y stock. Under these circumstances, the $20 loss will be disallowed for 1985 under paragraph (a)(1) of this section because A, within a period beginning 30 days before November 12, 1985 and ending 30 days after such date, acquired stock substantially identical to the Y stock disposed of.

Example (20). Assume the facts are the same as in example (19), and that on December 31, 1986, A disposes of the put option at a $40 gain and there is $20 of unrecognized loss in the Y stock. Under these circumstances, the $20 loss which was disallowed in 1985 also will be disallowed for 1986 under the rules of paragraph (a)(1) of this section because A has not disposed of the stock substantially identical to the Y stock disposed of on November 12, 1985.

Example (21). Assume the facts are the same as in example (19), except that on December 31, 1986, A disposes of the Y stock at a $20 loss and there is $40 of unrecognized gain in the put option. Under these circumstances, A will not recognize in 1986 either the $20 loss disallowed in 1985 or the $20 loss sustained with respect to the December 31, 1986 disposition of Y stock. Paragraph (a)(1) of this section does not apply to disallow the losses in 1986 since the substantially identical Y stock was disposed of during the year (and no substantially identical stock or securities was acquired by A within the 61 day period). However, paragraph (a)(2) of this section applies to disallow for 1986 the $40 of losses sustained with respect to the dispositions of positions in the straddle because there is $40 of unrecognized gain in the put option, an offsetting position to the loss positions.

Example (22). On January 2, 1986, A, not a dealer in stock or securities, acquires stock in X Corporation (X stock) and an offsetting put option. On March 3, 1986, A disposes of the X stock at a $10 loss. On March 17, 1986, A acquires new X stock that is substantially identical to the X stock disposed of on March 3, 1986. On December 31, 1986, A disposes of the X stock at a $5 gain, at which time there is $5 of unrecognized gain in the put option. Under these circumstances, the $10 loss sustained with respect to the March 3, 1986, disposition of X stock will be allowed under paragraph (a)(1) of this section since the substantially identical X stock acquired on March 17, 1986, was disposed of by year-end (and no substantially identical stock or securities were acquired by A within the 61 day period). However, $5 of the $10 loss will be disallowed under paragraph (a)(2) of this section because there is $5 of unrecognized gain in the put option, an offsetting position to the loss position.

Example (23). Assume the facts are the same as in example (22), except that on December 31, 1986, A disposes of the offsetting put option at a $5 loss and there is $5 of unrecognized gain in the X stock acquired on March 17, 1986. Under these circumstances, the $10 loss sustained with respect to the X stock disposed of on March 3, 1986, will be disallowed for 1986 under paragraph (a)(1) of this section. The $5 loss sustained upon the disposition of the put option will be allowed because (1) the rules of paragraph (a)(1) of this section are not applicable; and (2) the rules of paragraph (a)(2) of this section allow the loss, since the unrecognized gain in the X stock ($5) is not in excess of the loss ($10) disallowed under paragraph (a)(1) of this section.

Example (24). On January 2, 1986, A, not a dealer in stock or securities, acquires 200 shares of Z Corporation stock (Z stock) and 2 put options on Z stock (giving A the right to sell 200 shares of Z stock). On September 2, 1986, there is $200 of unrealized gain in the put option positions and A disposes of the 200 shares of Z stock at a $200 loss. On September 10, 1986, A acquires 100 shares of Z stock (substantially identical to the Z stock disposed of on September 2, 1986), and a call option that is offsetting to the put options on Z stock and that is not an option to acquire property substantially identical to the Z stock disposed of on September 2, 1986. At year-end, there is $80 of unrecognized gain in the Z stock position, $80 of unrecognized gain in the call option position, and no unrecognized gain or loss in the offsetting put option positions. Under these circumstances, $40 of the $200 loss sustained with respect to the September 2, 1986 disposition of Z stock will be recognized by A in 1986 under paragraph (a) of this section, as set forth below. Paragraph (a)(1) of this section applies first to disallow $100 of the loss (1/2 of the loss), since 100 shares of substantially identical Z stock (1/2 of the stock) were acquired within the 61 day period. Paragraph (a)(2) of this section then applies to disallow that portion of the loss allowed under paragraph (a)(1) of this section ($200 – $100 = $100) equal to the excess of the total unrecognized gain in the Z stock and call option positions (successor positions to the loss position) ($80 + $80 = $160) over the $100 loss disallowed under paragraph (a)(1) of this section ($160 − $100 = $60; $100 − $60 = $40).

Example (25). Assume the facts are the same as in example (24), except that at year-end there is $110 of unrecognized gain in the Z stock position, $78 of unrecognized gain in the call option position, and $10 of unrecognized gain in the offsetting put option positions. Under these circumstances, $2 of the $200 loss sustained with respect to the September 2, 1986 disposition of Z stock will be allowed in 1986 under paragraph (a) of this section, as set forth below. Paragraph (a)(1) of this section, as set forth below. Paragraph (a)(1) of this section applies first to disallow $100 of the loss (1/2 of the loss) since 100 shares of substantially identical Z stock (1/2 of the stock) were acquired within the 61 day period. Paragraph (a)(2) of this section then applies to disallow that portion of the loss allowed under paragraph (a)(1) of this section ($200 − $100 = $100) equal to the excess of the total unrecognized gain in the Z stock and call option positions (successor positions to the loss position) and the put option positions (offsetting positions to the loss position) ($110 + $78 + $10 = $198) over the $100 loss disallowed under paragraph (a)(1) of this section ($198 − $100 = $98; $100 − $98 = $2).

Example (26). Assume the facts are the same as in example (24), except that at year-end there is $120 of unrecognized gain in the Z stock position, $88 of unrecognized gain in the call option position, and $10 of unrecognized loss in one of the offsetting put option positions. At year-end A disposes of the other put option position at a $10 loss. Under these circumstances, $2 of the $210 loss sustained with respect to the September 2, 1986 disposition of Z stock ($200) and the year-end disposition of a put option ($10) will be allowed in 1986 under paragraph (a) of this section, as set forth below. Paragraph (a)(1) of this section applies first to disallow $100 of the loss from the disposition of Z stock (1/2 of the loss), since 100 shares of substantially identical Z stock (1/2 of the stock) were acquired within the 61 day period. Paragraph (a)(2) of this section then applies to disallow that portion of the loss allowed under paragraph (a)(1) of this section ($210 − $100 = $110) equal to the excess of the total unrecognized gain in the Z stock and call option positions (successor positions to the Z stock loss position, and offsetting positions to the put option loss position) ($120 + $88 = $208) over the $100 loss disallowed under paragraph (a)(1) of this section ($208 − $100 = $108; $110 − $108 = $2).

Example (27). On January 27, 1986, A enters into offsetting long (L1) and short (S1) positions. Neither L1 nor S1 nor any other positions entered into by A in 1986 are stock or securities. On February 3, 1986, A disposes of L1 at a $10 loss. On February 5, 1986, A enters into a new long position (L2) that is offsetting to S1. On October 15, 1986, A disposes of S1 at an $11 loss. On October 17, 1986, A enters into a new short position (S2) that is offsetting to L2. On December 30, 1986, A disposes of L2 at a $12 loss. On December 31, 1986, A enters into a new long position (L3) that is offsetting to S2. At year-end, S2 has an unrecognized gain of $33. Paragraph (a)(1) of this section does not apply since none of the positions were shares of stock or securities. However, all $33 ($10 + $11 + $12) of the losses sustained with respect to L1, S1 and L2 will be disallowed under paragraph (a)(2) because there is $33 of unrecognized gain in S2 at year-end. The $10 loss from the disposition of L1 is disallowed because S2 is or was an offsetting position to a successor long position (L2 or L3). The $11 loss from the disposition of S1 is disallowed because S2 is a successor position to S1. The $12 loss from the disposition of L2 is disallowed because S2 was an offsetting position to L2.

Par. 3. Paragraph (d) of §1.1092(b)-2T is amended by adding after the last sentence the words "Similarly, the effect of daily marking-to-market provided under §1.1092(b)-4T(c) will be disregarded for purposes of section 851(b)(3)."

Par. 4. Paragraph (n) of §1.1092(b)-5T is revised, and new paragraphs (p) and (q) are added to read as set forth below:

§1.1092(b)-5T Definitions (temporary).

* * * * *

(n) *Successor position.* The term "successor position" means a position ("P") that is or was at any time offsetting to a second position if—

(1) The second position was offsetting to any loss position disposed of; and

(2) P is entered into during a period commencing 30 days prior to, and ending 30 days after, the disposition of the loss position referred to in paragraph (n)(1) of this section.

* * * * *

(p) *Substantially identical*. The term "substantially identical" has the same meaning as substantially identical in section 1091(a).

(q) *Securities*. The term "security" means a security as defined in section 1236(c).

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this season, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

Approved December 20, 1985.

RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on January 13, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 15, 1986, 51 F.R. 1785)

Section 2501.—Imposition of Tax [Gift]

26 CFR 25.2501-1: Imposition of tax.

Tax consequences of a transfer of real property and a subsequent adjustment based on the Service's valuation of the property. See Rev. Rul. 86-41, below.

Section 2503.—Taxable Gifts

26 CFR 25.2503-3: Future interest in property. (Also Sections 2501, 2511; 25.2501-1, 25.2511-2.)

Transfers; real property; adjustment to portion transferred based on Service's valuation. The value of a gift will be determined without regard to an adjustment clause that provides for the recharacterization of the transaction depending on the Service's valuation of the property.

Rev. Rul. 86-41

ISSUE

What are the federal gift tax consequences in the two situations described below where a donor transfers a specified portion of real property under terms that provide for an adjustment to the portion transferred depending on the determination by the Internal Revenue Service of the value of the property for federal gift tax purposes?

FACTS

Situation 1.

In 1982, *A* transferred an interest in a tract of income producing real property to *B*. Under the deed of transfer, *B* received a one-half undivided interest in the tract. However, the deed further provided that if the one-half interest received by *B* were ever determined by the Internal Revenue Service to have a value for federal gift tax purposes in excess of $10,000, then *B*'s fractional interest would be reduced so that its value equaled $10,000. Under local law the adjustment clause operated as a condition subsequent. Thus, if the Service determined that a gift was made in excess of $10,000, the adjustment clause would effectively reconvey to *A* a fractional share of the tract of real property sufficient to reduce the value of *B*'s interest to $10,000 as of the date of the gift.

On *A*'s federal gift tax return, *A* reported that the fair market value of the one-half interest transferred by gift to *B* was $10,000 (one-half the value of the entire tract), and applied the annual exclusion against the gift. On examination of *A*'s 1982 federal gift tax return, it was determined that the fair market value of a one-half interest in the tract subject to the transfer to *B* was $15,000 rather than $10,000.

Situation 2.

The facts are the same as in *Situation 1*, except that *B* was not required to reconvey any property to *A*. Rather, the transfer contained the condition that if the Internal Revenue Service determined that *B* received a gift in excess of $10,000, *B* would transfer to *A* consideration equal to the amount of the excess.

LAW AND ANALYSIS

Section 2501 of the Internal Revenue Code imposes a tax on the transfer of property by gift. Section 2511(a) provides that the gift tax applies whether the transfer is in trust or otherwise, whether the gift is direct or indirect, and whether the property is real or personal, tangible, or intangible. Section 25.2511-2(a) of the Gift Tax Regulations states that the gift tax is not imposed upon the receipt of the property by the donee but rather is an excise upon the donor's act of transfer.

Section 2503(b) of the Code provides that a donor may exclude from his or her taxable gifts the first $10,000 of gifts of present interest in property made to each donee during the calendar year. Under section 25.2503 of the regulations, a "present interest" in property is defined as an unrestricted right to the immediate use, possession, or enjoyment of property or the income from property.

Rev. Rul. 65-144, 1965-1 C.B. 442, holds that if the terms of a trust provide that the trust terms will be substantially modified to the extent necessary to qualify the transfer in trust for the gift tax charitable deduction under section 2522 of the Code, those terms providing for modification are considered ineffective for federal gift tax purposes. Gifts subject to conditions subsequent of the kind considered in Rev. Rul. 65-144 tend to discourage the enforcement of federal gift tax provisions, because operation of the provisions would either defeat the gift or otherwise render examination of the return ineffective. See also *Commissioner v. Procter*, 142 F.2d 824 (4th Cir. 1944), *cert. denied*, 323 U.S. 756 (1944). The Service, accordingly, will not give effect to such clauses and will consider the terms of the gift as unmodified for federal tax purposes.

In *Situations 1* and *2*, the facts demonstrate that *A* intended to make a gift to *B* of a present one-half interest in the property. In both cases, the purpose of the adjustment clause was not to preserve or implement the original, bona fide intent of the parties, as in the case of a clause requiring a purchase price adjustment based on an appraisal by an independent third party retained for that purpose. Rather, the purpose of the clause was to recharacterize the nature of the transaction in the event of a future adjustment to *A*'s gift tax return by the Service. As in Rev. Rul. 65-144, the terms of the deed of transfer to *B* providing for the reduction of the portion transferred would tend to discourage the examination of returns and the collections of tax and therefore are ineffective for federal gift tax purposes. Because the reduction provision is ineffective for federal gift tax purposes, *A* has made a gift of a present one-half interest in the property, the first $10,000 of which qualifies for the annual exclusion under section 2503 of the Code. The value of the gift is $15,000, the fair market value of a one-half interest in the tract as determined on examination. The fact that, in *Situation 2*, the adjustment of the gift was to be made by recharacterizing the transfer as a part-gift/part-sale is irrelevant.

HOLDING

In both *Situations 1* and *2*, if the donor transfers a specified portion of real property under terms that provide for a recharacterization of the transaction depending on the Service's valuation of the property for federal gift tax purposes, the adjustment clause will be disregarded for federal tax purposes. Consequently, in both cases the value of the gift will be determined without regard to the adjustment clause and the first $10,000 in the value of the gift, as so determined, will qualify for the annual exclusion from gift tax.

Section 2511.—Transfers in General

26 CFR 25.2511-2: Cessation of donor's dominion and control.

Tax consequences on a transfer of real property and a subsequent adjustment based on the Service's valuation of the property. See Rev. Rul. 86-41, page 9.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.105 Examination of returns and claims fo refund, credit, or abatement; determination of correct tax liability.

Rev. Proc. 86-14

This revenue procedure corrects Rev. Proc. 86-6, 1986-5 I.R.B. 36. Rev. Proc. 86-6 is modified and superseded. These corrections to Rev. Proc. 86-6 are effective as if they had originally appeared in Rev. Proc. 86-6. Rev. Proc. 86-6 should have read as follows:

[Sections 1 through 4.01 are unchanged.]

.02 The revised recovery rates for 19-year real property are presented by the tables in section 5. Except with respect to low-income housing, these tables adopt the mid-month convention, which is required by section 168(b)(2)(A) of the Code. Under the mid-month convention, real property placed in service by the taxpayer at any time during a particular month is treated as placed in service in the middle of that month. Thus, only one-half month's cost recovery is permitted for the month the property is placed in service. A similar convention is to be applied with respect to dispositions prior to the end of the recovery period. Thus, one-half month's cost recovery is also permitted for the month of disposition. For low-income housing, a full-month convention is used. *See* section 168(b)(4)(A). Under the full-month convention, real property placed in service by the taxpayer at any time during a particular month is treated as placed in service on the first day of that month. Thus, a full month's cost recovery is permitted for the month the property is placed in service. In the case of a disposition at any time during a particular month prior to the end of the recovery period, no cost recovery is permitted for the month of disposition.

[Sections 4.03 through 4.14 are unchanged. Section 5 is unchanged except for the italicized numbers in tables 6 and 7 as follows:]

5. 19-Year Real Property For Which an Optional 45-Year Straight Line Method is Elected (Assuming Mid-Month Convention)

If the Recovery Year is:	And the Month in the First Recovery Year the Property is Placed in Service is:											
	1	2	3	4	5	6	7	8	9	10	11	12
	The applicable recovery percentage is:											
7	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3
8	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3
9	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3
10	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3	2.3

Rev. Proc. 86-16

SECTIONS 331 AND 337 CHECKLIST QUESTIONNAIRE

CONTENTS

1. PURPOSE
2. BACKGROUND
3. CHANGES
4. INFORMATION TO BE INCLUDED IN REQUESTS FOR RULINGS UNDER SECTIONS 331 AND 337 OF THE CODE

.01 *Information regarding the liquidating corporation (Distributor)*

1 Identification
2 Jurisdiction
3 Business
4 Description of Distributor's capital structure and ownership of Distributor's stock
  (a) Description of capital structure
  (b) Ownership of stock
5 Filing status

.02 *Information regarding plan of liquidation*

1 The plan of liquidation
  (a) Formal plan
  (b) Prior informal plan
  (c) Rescission of a prior plan
2 Liquidation of Distributor's subsidiary
3 Sales or other dispositions of assets pursuant to the plan
  (a) Sales pursuant to the plan
    (1) General description
      (A) Stock in trade
      (B) Covenants not to compete
    (2) Method of payment
    (3) Information regarding each purchaser of Distributor's assets (Purchaser)
  (b) Other dispositions of assets pursuant to the plan
4 Distribution of assets
  (a) Assets distributed directly to shareholders
    (1) Description of assets
    (2) Dates
  (b) Assets distributed to an escrow or partnership on the liquidation of Distributor
    (1) Description of assets
    (2) Description of escrow or partnership
    (3) Dates
  (c) Assets distributed to a liquidating trust
    (1) Description of assets
    (2) The trust
    (3) Dates
    (4) Reasons
    (5) Classification of the trust
5 Assets retained
  (a) Description of assets
  (b) Reason for retention
  (c) Description of claims
  (d) Period of retention
6 Redemption and cancellation of Distributor's stock
  (a) Redemption of all stock
  (b) Non pro rata redemption

(c) Shareholder and Distributor in dual capacity

7 Status of liquidation

(a) Status

(b) Fair market value of assets

(c) Corporate charter

.03 *Recognition of gain or income to Distributor*

1 Unreported or anticipatory assignment of income

2 Reserve for bad debts

3 Installment obligations and recapture provisions

4 Partnership interests

5 Advance Payments

.04 *General*

1 Other transactions

2 Financial statements

3 Copy of plan

4 Collapsible corporation

5 Section 333 of the Code

6 Applicability of merger statutes

7 Additional statements

8 Requested rulings

9 Taxpayer's Memorandum

5. INQUIRIES

6. EFFECT ON OTHER DOCUMENTS

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 81-52, 1981-2 C.B. 625, which sets forth in a checklist questionnaire the information that must be included in a request for a ruling under section 337 of the Internal Revenue Code (and its related provision, section 331 of the Code) relating to the nonrecognition of gain or loss on sales or exchanges in connection with a complete liquidation of a corporation (Distributor). This checklist questionnaire does not deal with the special rules of section 337(e), relating to involuntary conversions, or of section 337(g), relating to cases under title 11 of the United States Code, or a receivership, foreclosure, or similar proceeding in a federal or state court.

SEC. 2. BACKGROUND

The Internal Revenue Service receives many requests for rulings in which the information relating to the proposed transaction is not sufficient to permit a determination to be made. In those cases, it is necessary to obtain additional facts from the taxpayer before the request for a letter ruling can be considered. Obtaining these additional facts is time consuming for both Service personnel and taxpayers and delays issuance of the ruling letter.

This checklist will facilitate the filing and processing of requests for rulings under sections 331 and 337 of the Code by showing specific information and representations to be included so that the requests will be as complete as possible when initially filed. Because the information and representations necessary to rule on a particular transaction depend upon all the facts and circumstances, information or representations in addition to those set forth in this revenue procedure may be required.

The authority and general procedures of the National Office of the Internal Revenue Service and of the Office of the District Directors of Internal Revenue with respect to the issuance of letter rulings and determination letters are outlined in Rev. Proc. 86-1, 1986-1 I.R.B. 6. See also, Rev. Proc. 86-3, 1986-1 I.R.B. 26, relating to areas in which advance rulings generally will not be issued. These revenue procedures, along with the present checklist revenue procedure, are subject to periodic updating by the Service. Therefore, careful attention should be given to ensure usage of the most current revenue procedures.

Careful attention to all requirements of these revenue procedures will aid in the timely processing of letter ruling requests.

SEC. 3. CHANGES

.01 Section 1 is modified to indicate that the purpose of the revenue procedure is to update Rev. Proc. 81-52.

.02 Section 2 is modified to state that representations are now required, and to update references to revenue procedures cited.

.03 Section 4 is substantially altered, with numerous sections being renumbered and relocated in the interest of simplification. The taxpayer must now submit standard representations using the precise language specified herein, or submit an explanation why the representations cannot be made in the requested form. Sections 4.021, 4.023, 4.025, 4.026, 4.027, 4.031, 4.032, 4.041 and 4.045 are modified accordingly. To properly reflect applicable changes, some citations to Code sections and to revenue rulings and procedures have been added or deleted. Changes include:

1 Section 4.012 now requires taxpayers to submit information concerning any prior ruling requests submitted by the taxpayer (or predecessor) that were withdrawn in which the identical or similar issue was present.

2 Section 4.022 is added to request information concerning the liquidation of a subsidiary formerly requested in section 4.037(a). Reference to Rev. Rul. 69-172, 1969-1 C.B. 99, is deleted.

3 Section 4.023(a)(1)(B) is added to request information concerning convenants not to compete.

4 Section 4.033 has been modified to show changes in the recapture provisions.

5 Section 4.035 has been added to request information regarding advance payments received by Distributor.

6 Section 4.046 requires taxpayers to state whether the liquidation of Distributor will be carried out by the use of a statutory merger.

7 Section 4.05 requires taxpayers to list the specific rulings being requested and the authorities supporting the rulings.

.04 Section 5 is modified to substitute Associate Chief Counsel (Technical) for Assistant Commissioner (Technical), and CC:C:R for T:C:R.

.05 Section 6 is modified to state that Rev. Proc. 81-52 is superseded.

SEC. 4. INFORMATION TO BE INCLUDED IN REQUESTS FOR RULINGS UNDER SECTIONS 331 AND 337 OF THE CODE

Each of the items in this section should be specifically dealt with in the letter ruling request. If an item is not applicable, so state and briefly explain why. Standard representations are set forth throughout this section and are highlighted by the word "representation" in boldface type. These representations are of equal importance with the other factual information requested herein. The representations function to ensure that specific statutory and judicial requirements and administrative ruling guidelines are satisfied. Each representation set forth in this section should be submitted precisely in the language requested. If a representation cannot be submitted as requested, an explanation must be given. Variations of the language of the representations may delay processing the ruling request and will not be accepted unless reasons satisfactory to the Service are submitted. Submission of the information and representations should follow the format of this revenue procedure as closely as possible, with appropriate descriptive headings. Care must be taken to ensure that all the facts relating to the transaction are submitted.

.01 *Information regarding the liquidating corporation (Distributor).*

1 Identification.—Name, taxpayer identification number, and place and date of incorporation of Distributor.

2 Jurisdiction.—Identify the District Office that will have audit jurisdiction over the return of Distributor (referred to below as "taxpayer"). State whether, to the best knowledge of the taxpayer and the taxpayer's representatives, if any, the identical issue is in a return of the taxpayer (or of a related taxpayer within the meaning of section 267 of the Code, or a member of an affiliated group of which the taxpayer is also a member within the meaning of section 1504) and, if so, whether the issue (1) is being examined by a District Director, (2) has been examined by a District Director and (a) the statutory period of limitation either on assessment or for filing a claim for refund or credit of tax has not expired and (b) a closing agreement covering the issue or liability has not been entered into by a District Director, (3) is being considered by an Appeals Office in connection with the taxpayer's return for an earlier period, (4) has been considered by an Appeals Office and (a) the statutory period of limitation either on assessment or for filing a claim for refund or credit of tax has not expired and (b) a closing agreement covering the issue or liability has not been entered into by an Appeals Office, or (5) is pending in litigation in a case involving the taxpayer or a related taxpayer. The request must contain a statement whether, to the best knowledge of the taxpayer and the taxpayer's representatives, the identical or a similar issue has been (i) submitted to the Service, but withdrawn before a ruling was issued, or (ii) ruled on by the Service to the taxpayer or the taxpayer's predecessor and, if so, when and with what result. If, after the request is filed but before a ruling is issued, the taxpayer knows that an examination of the issue by a District Director has been started, the taxpayer must notify the National Office of this action. If a return is filed before a ruling is received from the National Office concerning the issue that is the subject of the request for ruling, a copy of the request must be attached to the return. This alerts the District Office and avoids premature District action on the issue.

3 Business.—Provide the following information about the Distributor: (i) a brief description of its businesses, (ii) its overall method of accounting, and (iii) its tax year.

4 Description of Distributor's capital structure and ownership of Distributor's stock.

(a) Description of capital structure.—Furnish a complete description of each class of Distributor's outstanding stock (or other evidence of equity ownership) setting forth the rights and privileges of each class, including voting or nonvoting rights, dividend and liquidation preferences or limitations, and whether classified as common or preferred stock. Also describe all other outstanding interests (bonds, debentures, notes, warrants, options, etc.), and briefly explain why each of these items should or should not be considered a stock interest.

(b) Ownership of stock.—State the total number of shares outstanding for each class of stock (or other equity) in Distributor, and the number of shares and percentage of each class of stock (or other equity) owned by each shareholder. However, if there are more than 25 shareholders, the statement in the preceding sentence may be limited by listing only those shareholders owning, directly or indirectly (within the meaning of section 318 of the Code), 5 percent or more of any class of stock and then stating the total number of remaining shareholders together with the total number of shares and percentages which these remaining shareholders own of each class of stock. State whether 80 percent or more of the voting power and stock in Distributor (within the meaning of section 332(b)(1)) is held by a corporate shareholder (see section 337(c) of the Code and section 1.1502-34 of the Income Tax Regulations).

5 Filing status.—State whether Distributor is a member of an affiliated group of corporations making a consolidated return and, if so, identify the common parent of the group.

.02 *Information regarding plan of liquidation.*

1 The plan of liquidation.

(a) Formal plan.—State whether the plan has been, or will be, adopted by Distributor's directors and shareholders and give the date, or expected date, of approval or adoption. See Rev. Rul. 57-140, 1957-1 C.B. 118.

(b) Prior informal plan.—Furnish any information which indicates that a plan of liquidation may have been informally adopted prior to the date set forth in 4.021(a) above. The information is not restricted to, but might include, facts indicating an informal agreement to liquidate by a significant number of shareholders, or the sale or distribution of a substantial portion of Distributor's assets prior to the formal date of adoption of the plan. See section 1.337-2(b) of the regulations and Rev. Rul. 65-235, 1965-2 C.B. 88. Describe any distributions to Distributor's shareholders during the 2-year period prior to the adoption of the plan of liquidation. State whether Distributor sold or otherwise disposed of any assets at a loss for federal income tax purposes, other than in the ordinary course of business, within the 2-year period preceding the date of adoption of the plan of liquidation. If so, furnish details, including the cost basis of each item and the amount for which each item was sold. If no sale or distribution of Distributor's assets has occurred, submit the following REPRESENTATION: *During the 2-year period prior to the adoption of the plan of liquidation, Distributor will not have sold any of its property of the type defined in section 337(b) of the Code, except in the ordinary course of business.*

(c) Rescission of a prior plan.—State whether Distributor has ever adopted a plan of liquidation, and, if so, provide full particulars regarding the abandonment or rescission of the plan. In this regard, indicate when Form 966, *Corporate Dissolution or Liquidation,* was filed in connection with the adoption of the plan, and provide pertinent dates and reasons for abandoning or rescinding the prior plan. If no prior plans were adopted submit the following REPRESENTATION: *No formal or informal plan of liquidation has ever been adopted by Distributor, except for the present plan which was [or will be] adopted on [date].*

2 Liquidation of Distributor's subsidiary.—State whether any subsidiary of Distributor was, or will be, liquidated in connection with the liquidation of Distributor. If so, submit details. If a ruling is requested that such liquidation will qualify under section 332 of the Code, see Rev. Proc. 81-68, 1981-2 C.B. 723.

3 Sales or other dispositions of assets pursuant to the plan.

(a) Sales pursuant to the plan.

(1) General description.—Describe the assets to be sold pursuant to the plan of liquidation and the consideration to be received for the assets. If a sales agreement has not yet been entered into, approximate the assets to be sold and the consideration to be received (if reasonably possible to do so). For sales pursuant to the plan, submit copies of sales contracts (or agreements in principal regarding these sales). State whether sales contracts are executory, contingent, or consummated.

(A) Stock in trade.—Briefly describe the stock in trade or inventory (as defined in section 1.337-3(a) of the regulations) of Distributor, and state whether it will be sold. If substantially all the stock in trade or inventory of Distributor will be sold to one person in one transaction, furnish details concerning this sale. See section 337(b) of the Code and section 1.337-3 of the regulations.

(B) Covenants not to compete.—If consideration is being received by Distributor or its shareholders for an agreement not to compete, provide full details concerning the agreement and the reporting of proceeds.

(2) Method of payment.—State the expected method of payment for the assets being sold. Summarize all pertinent portions of existing sales contracts (or agreements in principal regarding sales) relating to the method of payment.

(3) Information regarding each purchaser of Distributor's assets (Purchaser).—Identify each Purchaser, if known, and indicate whether Purchaser is an individual, partnership, corporation, or other entity. State whether there was, or will be, any transfer or sale of Distributor's assets to an entity that is wholly or partly owned by Distributor or Distributor's shareholders. If so, furnish full details concerning the transaction, including the type and percentage of the ownership interests involved. In this regard, note that section 4.0117 of Rev. Proc. 86-3 indicates the Service will not ordinarily issue rulings on the application of section 337 of the Code to a corporation upon the sale of property (in connection with its liquidation) to another corporation, where more than a nominal amount of the stock (that is, more than 20 percent in value) of both the selling corporation and the purchasing corporation are owned by the same shareholders. Submit the following REPRESENTATION: *The liquidation of Distributor will not be preceded or followed by the reincorporation in, or transfer or sale to, a recipient corporation (Recipient) of any of the business or assets of Distributor, if persons holding more than 20 percent in value of the stock in Distributor also hold more than 20 percent in value of the stock in Recipient. For purposes of this representation, ownership has been determined by application of the constructive ownership rules of section 318, as modified by section 304(c)(3).* Compare Rev. Ruls. 84-2, 1984-1 C.B. 92, and 61-156, 1961-2 C.B. 62.

(b) Other dispositions of assets pursuant to the plan.—Describe any other disposition of assets (for example, involuntary conversions), which will occur during the prescribed liquidation period, which the Distributor intends to treat as sales or exchanges pursuant to section 337 of the Code. Furnish complete details concerning these items.

4 Distribution of assets.

(a) Assets distributed directly to shareholders.

(1) Description of assets.—Describe the assets to be distributed directly to Distributor's shareholders.

(2) Dates.—Indicate when this distribution will be made.

(b) Assets distributed to an escrow or partnership on the liquidation of Distributor.

(1) Description of assets.—Describe the assets to be distributed to the escrow or partnership.

(2) Description of escrow or partnership.—Fully describe any escrow or partnership, including its partners and operation, receiving assets on Distributor's liquidation.

(3) Dates.—Indicate when this distribution will be made.

(c) Assets distributed to a liquidating trust.—State whether the plan of liquidation requires the use of a liquidating trust, or if the use of a liquidating trust is otherwise contemplated. See Rev. Ruls. 80-150, 1980-1 C.B. 316, and 72-137, 1972-1 C.B. 101.

(1) Description of assets.—Describe the assets to be distributed to the liquidating trust.

(2) The trust.—Describe whether the use of the trust is permitted under applicable law, the powers and identity of the trustee, and the time period during which the trust will remain in existence.

(3) Dates.—Indicate when this distribution will be made.

(4) Reasons.—Give the reasons for using a liquidating trust.

(5) Classification of the trust.—In issuing a ruling under sections 331 and 337 of the Code in a situation where a liquidating trust is used, it is the practice of the Service to state in the ruling letter that the ruling is valid only if the trust is not an association taxable as a corporation under section 301.7701 of the Procedure and Administration Regulations. However, if Distributor desires a ruling concerning the classification of the trust under section 301.7701, the ruling request should so indicate and it should include an additional copy of the entire ruling request. See Rev. Proc. 82-58, 1982-2 C.B. 847.

5 Assets retained.

(a) Description of assets.—Fully describe any assets to be retained by Distributor subsequent to the 12-month period beginning on the date of adoption of the plan of liquidation. See section 1.337-2(b) of the regulations. If no assets will be retained, submit the following REPRESENTATION: *All assets of Distributor will be distributed in complete liquidation of Distributor within the 12-month period beginning on the date of adoption of the plan of liquidation.*

(b) Reason for retention.—If assets will be retained beyond the 12-month period, set forth the reasons for their retention. Specifically, state whether any assets will be retained to satisfy claims of any shareholders with respect to their stock.

(c) Description of claims.—Describe the claims to be satisfied with the retained assets.

(d) Period of retention.—State whether the balance of the assets retained will be distributed as soon as all claims are satisfied.

6 Redemption and cancellation of Distributor's stock.

(a) Redemption of all stock.—State whether all the outstanding stock of Distributor will be redeemed and cancelled.

(b) Non pro rata redemption.—If the property to be used in redemption of Distributor's stock will not be distributed in exact proportion with the percentage of shares owned by each shareholder, submit reasons and details. See Rev. Rul. 79-10, 1979-1 C.B. 140.

(c) Shareholder and Distributor in dual capacity.—Submit the following REPRESENTATION: *No part of the consideration to be received by any shareholder of Distributor will be received by the shareholder as a creditor, employee, or in some capacity other than that of a shareholder of Distributor.*

7 Status of liquidation.

(a) Status.—Submit the following REPRESENTATION: *Pursuant to the plan of complete liquidation, Distributor will cease to be a going concern and its activities will be limited to the winding up of its affairs, paying its debts, and distributing any balance of its assets to its shareholders.* (See Rev. Rul. 60-50, 1960-1 C.B. 150.) If there is more than one liquidating distribution, furnish the following REPRESENTATION: *The status of liquidation will exist at the time of the first liquidating distribution and will continue until the final liquidating distribution is made.*

(b) Fair market value of assets.—Submit the following REPRESENTATION: *The fair market value of Distributor's assets will exceed its liabilities both on the date of adoption of the plan of liquidation and at the time the first liquidating distribution is made.*

(c) Corporate charter.—State whether Distributor intends to abandon its corporate charter. See Rev. Ruls. 60-50, 1960-1 C.B. 150, and 54-518, 1954-2 C.B. 142.

.03 *Recognition of gain or income to Distributor.*

In order to determine whether gain or income will be recognized to Distributor upon the distribution of property, submit statements or representations with respect to the following:

1 Unreported or anticipatory assignment of income.—State whether Distributor has any assets which represent earned but unreported income to Distributor, such as receivables being reported on a cash basis, unfinished construction contracts, commissions due, or other similar assets. If Distributor has any assets representing earned but unreported income, state whether Distributor will distribute these assets to its shareholders or dispose of them in some other manner. If none of these assets are being distributed, submit the following REPRESENTATION: *No distribution of assets representing earned but unreported income will be made by Distributor to its shareholders in the liquidation.*

2 Reserve for bad debts.—Submit the following REPRESENTATION: *Distributor does [or does not] maintain a reserve for bad debts.* See Rev. Rul. 78-279, 1978-2 C.B. 135.

3 Installment obligations and recapture provisions.—State whether Distributor is selling, distributing to its shareholders, or otherwise disposing of (i) any installment obligations (section 453B of the Code), (ii) any property described in the recapture provisions of the Code including, but not limited to, sections 47, 291(a), 337(f), 341(f), 617(d), 897(d), 904(f), 1245(a), 1248(f), 1250(c), 1252(a), 1254, or 1255, (iii) any property for which the taxpayer obtained a deduction (See *Hillsboro National Bank v. Commissioner*, 460 U.S. 370 (1983); Rev. Rul. 74-396, 1974-2 C.B. 106; Rev. Rul. 61-214, 1961-2 C.B. 60), or (iv) any property described in sections 1256 or 1276.

If installment obligations will be distributed, describe the nature and terms of the obligations. State how the shareholders intend to treat payments received on the installment obligations. State the effect of sections 453(h) and 453B(d)(2) of the Code on Distributor's distribution.

4 Partnership interests.—State whether Distributor will distribute to the shareholders any partnership interests representing property specified in sections 4.031, 4.032, or 4.033, above. See section 386 of the Code.

5 Advance payments.—State whether Distributor has any items constituting prepaid subscription income, prepaid dues income, advance payments for goods, or payments received for services to be performed in the future. See sections 455 and 456 of the Code, section 1.451-5 of the regulations, and Rev. Proc. 71-21, 1971-2 C.B. 549.

.04 *General*

1 Other transactions.—Submit the following REPRESENTATION: *The liquidating distribution(s) described in this ruling request is an isolated transaction and is not related to any other past or future transaction.* Alternatively, state whether there have been, or will be, any related transactions, and, if so, briefly describe these other transactions and fully explain their relationship to, and impact on, the present transaction. See section 9.06 of Rev. Proc. 86-1.

2 Financial statements.—Submit a copy of the most recent balance sheet of Distributor.

3 Copy of plan.—Submit a copy of the plan of liquidation adopted, or to be adopted.

4 Collapsible corporation.—In issuing a ruling under sections 331 and 337 of the Code, it is the practice of the Service to state in the ruling letter that the ruling under section 331 is valid only if section 341(a) is not applicable and that the ruling under section 337 is valid only if Distributor is not a collapsible corporation as defined in section 341(b) (or is not considered a collapsible corporation pursuant to section 341(e)(4)). See Rev. Proc. 86-3, 1986-1 I.R.B. 26, section 4.0117.

5 Section 333 of the Code.—Submit the following REPRESENTATION: *The shareholders of Distributor will not elect to have section 333 of the Code apply to this liquidation.* See section 337(c)(1)(B).

6 Applicability of merger statutes.—State whether the liquidation of Distributor will be carried out by the use of a statutory merger.

7 Additional statements.—See Rev. Proc. 86-1 for additional information

and statements that must be submitted with all ruling requests, including statements required under sections 9.02 and 9.09 (relating to instructions to taxpayers).

8 Requested Rulings.—List the rulings being requested in the exact wording desired, and provide statutory, regulatory, or other authority for their issuance.

9 Taxpayer's memorandum.—Submit the information required by section 9.08 of Rev. Proc. 86-1 (relating to relevant authorities regarding the tax results of the transaction).

SEC. 5. INQUIRIES

Inquiries in regard to this revenue procedure should refer to its number and should be addressed to the Associate Chief Counsel (Technical), Attention: CC:C:R, Internal Revenue Service, Washington, D.C. 20224.

SEC. 6. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 81-52 is superseded.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Definition of the Term "Principal User"

LR-59-74

SUMMARY: This document contains proposed regulations which would define the term "principal user" for purposes of paragraphs (6) and (15) of section 103(b) of the Internal Revenue Code of 1954. The regulations would affect issuers, holders, and recipients of the proceeds of industrial development bonds issued under section 103(b)(6) of the Code.

DATES: Written comments must be delivered or mailed by April 22, 1986. The amendments are proposed to be effective after August 20, 1986 in determining the tax-exempt status of obligations issued after August 20, 1986.

ADDRESS: Send comments to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-59-74), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: John A. Tolleris of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (Telephone: 202-566-3590, not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed clarifying amendments to the Income Tax Regulations (26 CFR Part 1) under section 103(b)(6) of the Internal Revenue Code of 1954.

EXPLANATION OF PROVISIONS

The amendments clarify the term "principal user" for purposes of applying the provisions of Code section 103(b)(6) and (15) and the regulations thereunder with respect to small issues of industrial development bonds. Section 103(b)(6) provides, among other things, that an issue of $1 million or less of industrial development bonds financing the acquisition, construction, reconstruction, or improvement of land or property of a character subject to the depreciation allowance (or an issue to redeem such a prior issue) is not exempt from Federal taxation when the issue in question combined with the outstanding face amount of prior issues financing certain similar facilities exceeds $1 million; the facilities which are taken into account for this purpose are those the "principal user" of which is or will be the same or two or more related persons, and which are located within the same county or incorporated municipality.

Section 103(b)(6) also provides that, if an issuer makes the necessary election, the limit for an exempt small issue of industrial development bonds is increased from $1 million to $10 million. In such case, however, certain other amounts must also be aggregated with the issue of obligations in question for purposes of determining whether the $10 million limitation has been exceeded and whether the interest upon the issue of obligations in question is thus subject to Federal income taxation. The additional amounts to be taken into account are certain capital expenditures, made within a 6-year period beginning 3 years before the date of issue of the obligations in question and ending 3 years after the date of issue, with respect not only to the facility financed by the issue in question, but also with respect to other facilities within the same county or incorporated municipality of which the "principal user" is or will be the same person or a person related to the "principal user" of the facility financed with the issue of obligations in question.

The proposed regulations provide, in general, that the principal users are persons who for tax purposes currently hold more than a 10-percent ownership interest in a facility. In addition, lessees or subleasees who use a sufficiently valuable portion of the facility pursuant to a sufficiently long-term lease are also principal users. Persons with interests comparable to that of an owner or lessee who is a principal user and some purchasers of the output of certain facilities are also treated as principal users.

The proposed regulations provide that, when a facility has more than one principal user, certain issues of obligations with respect to all principal users must be aggregated with the issue of obligations in question for purposes of determining whether the $1 million or $10 million limitation has been exceeded. Similarly, if the $10 million limitation has been elected by the issuer, certain capital expenditures with respect to all principal users must also be aggregated to determine whether the $10 million limitation has been exceeded.

For purposes of aggregating issues of obligations or capital expenditures of persons who are principal users, only issues and capital expenditures with respect to persons who are principal users of the facility before the expiration of the test period described in section 103(b)(15)(D) are aggregated. Accordingly, if a person who is a principal user of a facility financed by an exempt small issue becomes the principal user of another facility financed by a second exempt small issue more than 3 years after the later of the date of the second issue or the date the facility financed by the second issue was placed in service, the two issues are not aggregated. Similarly, capital expenditures during the 6-year period described in section 103(b)(6)(D)(ii) with respect to a principal user are not taken into account if that person does not become a principal user of the facility until more than 3 years after the later of the date of the issue or the date the facility financed by the issue is first placed in service.

The test-period concept was adopted for purposes of section 103(b)(6) for reasons of administrative convenience. The statutory reference to a person who "is or will be" a principal user could be construed as referring to a person who at any time is a principal user; as referring only to a person who is or is about to be a principal user on the date of issuance; or as referring to a person who becomes a principal user within some intermediate time period. In adopting the test-period concept, the Service attempted to reach a result which gives effect to the statutory language while also being administrable. Adoption of the test period described in section 103(b)(15)(D) serves the additional function of limiting the period for determination of the principal user status to a single period for purposes of both paragraphs (6) and (15) of section 103(b).

The proposed regulations provide special rules of for exempt persons, *i.e.*, State and local governments and organizations that are tax-exempt under section 501(c)(3), that are principal users of facilities financed with exempt small issues of industrial development bonds. For purposes of determining whether the small-issue limitation has been exceeded with respect to any facility of which an exempt person is a principal user, certain industrial development bonds issued with respect to the exempt person and, for purposes of the $10 million limitation, certain capital expenditures must be aggregated with the issue in question. This does not include capital expenditures with respect to other facilities used by the exempt person in an activity other than an unrelated trade or business (as defined by section 513).

REGULATORY FLEXIBILITY ACT

The Secretary of the Treasury has certified that this proposed rule will not have a significant impact on a substantial number of small entities because the economic and any other secondary or incidental impact flows directly from the underlying statute. A regulatory flexibility analysis, therefore, is not required under the Regulatory Flexibility Act (5 U.S.C. chapter 6).

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

COMMENTS—PUBLIC HEARING

Before adoption of these proposed regulations, consideration will be given to any written comments that are submitted (preferably seven copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held * * * [on Wednesday, June 4, 1986].

DRAFTING INFORMATION

The principal author of these proposed regulations is John A. Tolleris of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 1.103-10 is amended by adding a new sentence after the second sentence of paragraph (b)(2)(i); by deleting "*(e)*" and adding "*(f)*" in lieu thereof in the first sentence of paragraph (b)(2)(iv) and by adding a new subdivision *(f)* at the end of subdivision (iv) thereof; by adding two new sentences after the first sentence of paragraph (d)(1); by revising paragraph (d)(2)(ii); by adding two new sentences at the end of paragraph (d)(2); by revising the first sentence of paragraph (g); and by adding a new paragraph (h). The revised and added provisions read as follows:

§1.103-10 Exemption for certain small issues of industrial development bonds.

* * * * *

(b) *Small issue exemption.* * * *

(2) *$10 million or less.* (i) * * * All capital expenditures described in paragraph (b)(2)(ii) with respect to each principal user and each related person must be aggregated with the issue of obligations in question for purposes of determining whether the $10 million limitation of section 103(b)(6)(D) is exceeded. * * *

(iv) * * *

(f) A capital expenditure with respect to a facility other than the bond-financed facility ("other facility") is an excluded expenditure of the principal user of the other facility does not become a principal user of the facility financed by the proceeds of the issue in question ("bond-financed facility") until after the last day of the test period described in paragraph (i)(3)(ii) of this section. In addition, a capital expenditure with respect to an "other facility" becomes an excluded expenditure on and after the date the principal user of the other facility ceases to use the bond-financed facility; if, however, the issue financing the bond-financed facility lost its tax-exempt status on or before that date, this sentence will not apply to restore its tax-exempt status. * * *

* * * * *

(d) *Certain prior issues taken into account*—(1) *In general.* * * * Thus, the outstanding face amount of all prior issues specified in paragraph (d)(2) with respect to each principal user and each related person and taken into account under this paragraph (d)(1) must be aggregated with the issue of obligations in question for purposes of determining whether the $1 million limitation of section 103(b)(6)(A) or the $10 million limitation of section 103(b)(6)(D) has been exceeded with respect to the issue in question. The outstanding face amount of the prior exempt small issue is the principal amount outstanding at the time of issuance of the subsequent exempt small issue. * * *

(2) *Prior issues specified.* * * *

(ii) The principal user of the facilities described in paragraph (d)(2)(i) of this section is the same person or two or more related persons (as defined in section 103(b)(6)(C) and in paragraph (e) of this section) at any time on or after the date of issue of the subsequent but before the expiration of the test period described in paragraph (i)(3)(ii) of this section with respect to the subsequent issue.

The loss of tax exemption with respect to the interest of the subsequent issue shall be effective on the date of issue of the subsequent issue. For purposes of this paragraph (d), when a person ceases to use a facility financed by either the prior issue or the subsequent issue, the prior issue will no longer be taken into account under paragraph (d)(1) with respect to the subsequent issue; if, however, the subsequent issue loses its tax-exempt status on or before the date the person ceases to use either of the facilities described in this subparagraph, this paragraph will not apply to restore the tax-exempt status of the subsequent issue. * * *

* * * *

(g) *Examples*. The application of the rules contained in section 103(b)(6) and in paragraphs (a) through (f) of this section are illustrated by the following examples: * * *

* * * * *

(h) *Rules relating to principal users*—(1) *Definition of principal user*. For purposes of section 103(b)(6) and §1.103-10, the term "principal user" means a person who is a principal owner, a principal lessee, a principal output purchaser, or an "other" principal user. The term "principal user" also includes a person who is related to another person who is a principal user under section 103(b)(6)(C) and paragraph (e) of this section, unless the other person ceased to use the facility before the two persons became related. For purposes of this paragraph (h)—

(i) *Principal owner*. A principal owner is a person who at any time holds more than a 10-percent ownership interest (by value) in the facility or, if no person holds more than a 10-percent ownership interest, then the person (or persons in the case of multiple equal owners) who holds the largest ownership interest in the facility. A person is treated as holding an ownership interest if such person is an owner for Federal income tax purposes generally. Thus, for example, where a facility constructed on land subject to a ground lease has an economic useful life less than the noncancellable portion of the term of the ground lease, the ground lessor shall not, merely by reason of that reversionary interest, be treated as the principal user of the facility before the ground lease expires.

(ii) *Principal lessee*. A principal lessee is a person who at any time leases more than 10 percent of the facility (disregarding portions used by the lessee under a short-term lease). The portion of a facility leased to a lessee is generally determined by reference to its fair rental value. A short-term lease is one which has a term of one year or less, taking into account all options to renew and reasonably anticipated renewals.

(iii) *Principal output purchaser*. A principal output purchaser is any person who purchases output of an electric or thermal energy, gas, water, or other similar facility, unless the total output purchased by such person during each one-year period beginning with the date the facility is placed in service is 10 percent or less of the facility's output during each such period.

(iv) *Other principal user*. An "other" principal user is a person who enjoys a use of the facility (other than a short-term use) in a degree comparable to the enjoyment of a principal owner or a principal lessee, taking into account all the relevant facts and circumstances, such as the person's participation in control over use of the facility or its remote or proximate geographic location. For example, a party to a contract who would be treated as a lessee using more than 10 percent of a facility on a long-term basis but for the special rules of section 7701(e)(3) and (5) (relating to service contracts for certain energy and water facilities and low-income housing) is an "other" principal user. A short-term use means use that is comparable to use under a short-term lease.

(2) *Operating rules*. (i) In determining whether a person is a principal user of a facility, it is irrelevant where in a chain of use such person's use occurs. For example, where a sublessee subleases more than 10 percent of a facility from a lessee, both the lessee and the sublessee are principal lessees.

(ii) In determining whether a person owns or uses more than 10 percent of a facility or whether he uses it for more than one year, the person is treated as owning or using the facility to the extent that any person related to such person under section 103(b)(6)(C) and paragraph (e) of this section owns or uses the facility. For purposes of the preceding sentence, the term "use" includes use pursuant to an output purchase arrangement.

(iii) Co-owners or co-lessees who are collectively treated as a partnership subject to subchapter K under section 761(a) are not treated as principal users merely by reason of their ownership of partnership interests; such ownership is, however, taken into account in determining whether persons are related under section 103(b)(6)(C) and paragraph (e) of this section.

(iv) For purposes of this section, a principal user of a facility is treated as ceasing to use the facility when he ceases to own, lease, purchase the output of, or otherwise use the facility, as the case may be. A person who is a principal user of a facility because he is related to another person who is a principal user is treated as ceasing to use the facility when the other person ceases to use the facility or when the two persons cease to be related. A principal user who ceases to use a facility continues to be a principal user. See, however, paragraph (b)(2)(iv)(*f*) of this section (relating to excluded expenditures), paragraph (d)(2) (relating to excluded expenditures), paragraph (d)(2) (relating to prior issues), and paragraph (h)(1) (defining principal user), which may apply when a principal user ceases to use a facility.

(3) *Special rule for exempt persons*. If an exempt person, as defined in section 103(b)(3) and §1.103-7(b)(2), is a principal user of a facility financed with an issue of obligations described in section 103(b)(6), the following amounts must be aggregated with the issue in determining whether the $1 million limit of section 103(b)(6)(A) or the $10 million limit of section 103(b)(6)(D) has been exceeded:

(i) The outstanding face amount of any prior exempt small issue of industrial development bonds described in paragraph (d) of this section that financed a facility of which the exempt person is a principal user,

(ii) For purposes of the $10 million limitation, capital expenditures described in paragraph (b)(2)(ii) of this section paid or incurred with respect to other facilities used by the exempt person in an unrelated trade or business (within the meaning of section 513 and §1.513-1) and of which the exempt person is a principal user, and

(iii) Any section 103(b)(6)(D) capital expenditures paid or incurred with respect to the facility financed by the issue in question.

(4) *Examples*. The application of the rules of section 103(b)(6) and this paragraph (h) is illustrated by the following examples:

Example (1). On September 1, 1986, City L, after making the section 103(b)(6)(D) election, issues $8 million of obligations to finance the costs of acquiring a newly constructed warehouse within City L, owned by Corporation Z, a non-exempt person, which thus is a principal user of the warehouse. Beginning on September 1, 1986, the entire warehouse is leased to Corporation Y, an unrelated non-exempt person, for a 2-year term; thus, Y is also a principal user of the warehouse. On June 30, 1988, Y ceases to lease the warehouse. On October 1, 1988, Y incurs $20 million of capital expenditures in connection with its purchase of an office building in City L. Although Y continues to be a principal user of the warehouse under paragraph (h)(2)(iv) of this section, Y's capital expenditures after the date it ceases to use the warehouse are excluded expenditures under paragraph (b)(2)(iv)(*f*) of this section. Accordingly, the $20 million Y incurred with respect to the office building is not taken into account for purposes of determining whether the $10 million limitation of section 103(b)(6)(D) has been exceeded.

Example (2). The facts are the same as in Example (1), except that on October 12, 1985, City L issued an exempt small issue to finance acquisition of a newly constructed office building in the amount of $5 million, of which $4 million is outstanding on September 1, 1986. On December 1, 1988, Corporation Z leases 15 percent (by fair rental value) of the office building financed by the 1985 issue for a 2-year term. Thus, beginning on December 1, 1988, Z is a principal user of the office building. On December 1, 1988, Z still owns the warehouse financed by the 1986 issue. Because Z became a principal user of the office building before the end of the 3-year test period described in paragraph (i)(3)(ii) of this section with respect to the 1986 issue, the $4 million outstanding amount of the 1985 issue must be aggregated with the $8 million 1986 issue for purposes of determining whether the 1986 issue has exceeded the $10 million limitation of section 103(b)(6)(D). Because the sum of the two issues ($4 million of the prior 1985 issue outstanding on September 1, 1986, and the $8 million subsequent issue issued on September 1, 1986) exceeds $10 million, the interest on the 1986 issue ceases to be tax-exempt on September 1, 1986. Had Z's lease begun after September 1, 1989, the two issues would not have to be aggregated.

Example (3). On June 1, 1985, City O issues $15 million of its obligations to finance an expansion of a hospital owned by H, an organization described in section 501(c)(3) exempt from taxation under section 501(a). None of the proceeds of the issue will be used by H in an unrelated trade or business or in the trade or business of non-exempt persons. On November 1, 1986, City O, after making the section 103(b)(6)(D) election, issues $5 million of its obligations to construct a medical office building which will be owned by H for Federal income tax purposes and which will be entirely leased (for terms in excess of one year) to physicians, none of whom will lease over 10 percent of the building by value. On July 1, 1987, H incurs a $500,000 capital expenditure for permanent improvements to the medical office building. In addition, on August 1, 1987, W, a non-exempt person related to H, incurs a $1 million capital expenditure with respect to a facility that W owns within City O and uses in its trade or business. For purposes of determining whether the $10 million limitation of section 103(b)(6)(D) has been exceeded with respect to the November 1, 1986, issue for the medical office building, H must take into account the $5 million issue, the $500,000 of capital expenditures made with respect to the medical office building, and W's $1 million capital expenditure. Because the sum of these amounts is less than $10 million, interest on the issue does not cease to be tax-exempt. H is not required to take into account the June 1, 1985, issue financing the hospital expansion because that issue is not an exempt small issue as defined in section 103(b)(6) (see paragraph (h)(3)(i) of this section) and because the cost of the facility financed by the June 1, 1985, issue is neither a section 103(b)(6)(D) capital expenditure with respect to the medical office building owned by H (see paragraph (h)(3)(iii) of this section) nor a section 103(b)(6)(D) capital expenditure for a separate facility used by H in an unrelated trade or business (see paragraph (h)(3)(ii) of this section).

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on February 20, 1986, 8:45 a.m., and published in the issue of the Federal Register for February 21, 1986, 51 F.R. 6274)

Notice of Proposed Rulemaking

$40 Million Limitation Upon Beneficiaries of Certain Tax-Exempt Bond Issues

LR-157-84

SUMMARY: This document contains proposed regulations that relate to certain industrial development tax-exempt bonds and to certain beneficiaries of such bond issues. Changes to the applicable tax law were made by the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1] that generally deny Federal income tax exemption for a small issue of industrial development bonds if any of its test-period beneficiaries is allocated more than $40 million of outstanding industrial development bonds, including its allocated portion of the small issue in question. This provision restricts the amount of small issues of industrial development bonds that may be issued for a beneficiary when that person already benefits from a significant amount of tax-exempt industrial development bonds.

DATES: Written comments must be delivered or mailed by April 22, 1986. These regulations are proposed to be effective after August 20, 1986 in determining the tax-exempt status of obligations issued after August 20, 1986. However, these regulations would not apply to certain obligations described in section 631(f) of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 445] and to certain obligations with respect to facilities described in section 631(c)(3) of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 444]. The provisions of §1.103-10(i)(4)(vi) are generally proposed to be effective after December 31, 1983, in determining the tax-exempt status of obligations issued after December 31, 1983.

ADDRESS: Please mail or deliver comments to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-157-84), 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: John A. Tolleris of the Legislation and Regulations Division, Office of Chief Counsel, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (Telephone: 202-566-3590, not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 103(b)(15) of the Internal Revenue Code of 1954. These proposed amendments provide needed guidance regarding the provisions of section 103(b)(15) concerning the $40 million limitation which were enacted by section 623 of the Tax Reform Act of 1984 (Pub. L. 98-369; 98 Stat. 921) [1984-3 C.B. (Vol. 1) 1, 429].

EXPLANATION OF PROVISIONS

The $40 million limitation applicable to small issues of tax-exempt industrial development bonds was enacted in the Tax Reform Act of 1984. This limitation generally denies Federal income tax exemption for a small issue of industrial development bonds if any test-period beneficiary is allocated more than $40 million of outstanding industrial development bonds, including its allocated portion of the issue in question. A person is a "test-period beneficiary" of the bond-financed facility, if he is an owner or a principal user of a facility financed by the issue at any time during the 3-year period after the issue is issued, or after the facility is placed in service, whichever occurs later. A person who is related to a principal user at any time during the test period is also a test-period beneficiary, unless the principal user ceased using the facility before the two persons became related.

These proposed regulations provide guidance on the allocation of the proceeds of an issue of industrial development bonds among test-period beneficiaries. In determining whether the $40 million limitation has been exceeded with respect to a test-period beneficiary, the portions of the outstanding amounts of all industrial development bonds (not just small issues) allocable to the beneficiary are aggregated.

NONAPPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

REGULATORY FLEXIBILITY ACT

The Secretary of the Treasury has certified that this proposed rule will not have a significant impact on a substantial number of small entities because the economic and any other secondary or incidental impact flows directly from the underlying statute. A regulatory flexibility analysis, therefore, is not required under the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of these proposed regulations is John A. Tolleris of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing the regulations, on matters of both substance and style.

COMMENTS—PUBLIC HEARING

Before adoption of these proposed regulations, consideration will be given to any written comments that are submitted (preferably seven copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held * * * [on Wednesday, June 3, 1986.]

* * * * *

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.103-10(i) also issued under 26 U.S.C. 103(b)(15).

Par. 2. Section 1.103-10 is revised by adding a new paragraph (i) immediately following paragraph (h) therein. The new paragraph reads as follows:

§1.103-10 Exemption for certain small issues of industrial development bonds.

* * * * *

(i) *$40 million limitation for beneficiaries of small issues of industrial development bonds*—(1) *General rule.* Section 103(b)(6) and §1.103-10(a) do not apply to an issue of obligations ("issue in question") if—

(i) The portion of the aggregate authorized face amount of the issue in question allocated to any test-period beneficiary, as defined in paragraph (i)(3) of this section, of the issue, plus

(ii) The portion of the outstanding principal amount of prior bonds, as defined in paragraph (i)(2) of this section, allocated—

(a) To the test-period beneficiary described in paragraph (i)(1)(i) of this section, or

(b) To a person who at any time during the test period of the issue in question is related to such beneficiary,

exceeds $40 million. If interest on the issue in question would, but for this paragraph and section 103(b)(15), be exempt from Federal income taxation solely because of section 103(b)(6), the issue is treated as an issue of obligations not described in section 103(a) on and after the date of issuance. For purposes of this paragraph (i), the aggregate authorized face amount of the issue in question and the outstanding principal amount of a prior bond shall be determined without regard to section 103(b)(6)(B) or (D) (requiring certain amounts of prior issues or capital expenditures to be taken into account in determining the aggregate face amount of the issue in question or of the prior bond).

(2) *Prior bonds.* For purposes of this paragraph (i), "prior bonds" means prior or simultaneous issues of industrial development bonds described in paragraph (4), (5), or (6) of section 103(b) the interest on which is exempt from tax pursuant to section 103(a), including such bonds issued before January 1, 1984. For purposes of paragraph (i)(1)(ii) of this section, "outstanding principal amount of prior bonds" means the principal amount that is outstanding at the time of issuance of the issue in question, not including the amount to be redeemed from the proceeds of the issue in question. Thus, the outstanding principal amount of prior bonds does not include the portion of the original face amount that has been discharged, nor does it include any amount to be issued in the future.

(3) *Test-period beneficiary*—(i) *In general.* For purposes of this paragraph (i), a "test-period beneficiary" of the issue in question or of an issue of prior bonds means any person who at any time during the test period for the issue is a principal user, as defined in paragraph (h)(1) of this section, of a facility financed by the proceeds of the issue, including a person who is related to a principal user. For purposes of the preceding sentence, a person shall be treated as related to a principal user only if that person is related to such user within the meaning of section 103(b)(6)(C) and paragraph (e) of this section at any time during the test period, and such user has not ceased to use the facility before the persons became related. See paragraph (h)(2)(iv) of this section for circumstances in which a person will be treated as ceasing to use a facility. A test-period beneficiary does not cease to be a test-period beneficiary if he ceases to use the facility; the portion of the issue allocated to the test-period beneficiary continues to be so allocated until the issue is no longer outstanding.

(ii) *Test period.* The "test period" for an issue means the 3-year period beginning on the later of the date the facility financed by the proceeds of the issue is placed in service or the date of issue of such issue. A facility shall be considered as being placed in service at the time the facility is placed in a condition or state of readiness and availability for a specifically assigned function. If separate facilities are financed by an issue and the facilities are placed in service at different times, there shall be separate test periods for the portions of the issue financing each separate facility. If a single facility (consisting of separately depreciable items of property) is placed in service in stages, then the entire facility will be deemed placed in service when its last portion is placed in service.

(4) *Allocation of issue*—(i) *In general.* The portion of the amount of an issue allocated to a test-period beneficiary is the highest percent of the facility financed by proceeds of the issue that the beneficiary owned or used on a regular basis during the test period. For example, a person that owns the entire facility shall be allocated 100 percent of the issue; a person that leases 90 percent of a facility for two years of the test period and leases 35 percent for the third year shall be allocated 90 percent of the issue.

(ii) *Portion allocable to lessee and output purchaser.* The portion of a facility used by a lessee is generally determined by reference to its fair rental value. The portion of a facility used by a principal output purchaser, as defined in paragraph (h)(1)(iii) of this section, is the highest portion of the facility's total output purchased by such purchaser during any of the three years of the test period.

(iii) *Portion allocable to related person.* The portion of an issue allocable to a person who is a test period beneficiary because he is related to a principal user is the same portion allocated to such principal user.

(iv) *Double allocation.* The total amount of an issue allocated to test-period beneficiaries may exceed 100 percent of its outstanding face amount, such as when one test-period beneficiary is an owner and another person leases the facility for over a year. However, if a beneficiary is the owner of all or a portion of a facility that is leased to or otherwise used by such beneficiary or by a related person, then the portion of the issue the proceeds of which were used to finance the facility is allocated only once to the beneficiary. For example, if Corporation X owns an undivided 50 percent of a facility while related Corporation Y is the lessee of 60 percent of the facility, the portion of the issue financing the facility allocable to X is 80 percent (50 percent plus 30 percent), because one-half of the 60-percent portion used by Y (30 percent) is considered attributable to the portion owned by X.

(v) *Allocation of remainder of issue to owners.* If the portion of an issue allocated to all test-period beneficiaries of the bond-financed facility (other than related persons) is less than 100 percent, the remainder shall be allocated to test-period beneficiaries who are owners of the facility in proportion to the amount of the issue otherwise allocable to such persons by reason of their ownership interests during the test period.

(vi) *Bond redeemed before person becomes principal user.* If all or some of the outstanding principal amount of the issue in question or of prior bonds is redeemed other than from the proceeds of a refunding issue described in section 103(a) either before or as soon as reasonably practicable after a person becomes a test-period beneficiary with respect to the issue in question, but in no event later than 180 days after the date such person becomes a test-period beneficiary, then the amount of the issue so redeemed will not be allocated to such person (or to a related person) in determining whether the issue in question exceeds the $40 million limitation. With respect to obligations that are issued after August 20, 1986, paragraph (i)(4)(vi) shall not apply if the terms of the issue provide for a delay in redemption a principal purpose of which is to benefit from the 180-day period referred to therein. In the case of a person who becomes a test-period beneficiary before February 21, 1986, bonds redeemed before August 20, 1986 shall be considered redeemed as soon as reasonably practicable for purposes of the first sentence of this paragraph (i)(4)(vi) and the 180-day limitation referred to therein shall not apply.

(5) *Treatment of certain successors as test-period beneficiaries.* If a corporation, partnership, or other entity which is a test-period beneficiary with respect to one or more issues transfers substantially all of its properties to another person (or to two or more related persons within the meaning of section 103(b)(6)(C)), or if a corporation acquires the assets of a test-period beneficiary in a transaction described in section 381(a), the transferee shall be treated as a test-period beneficiary with respect to such issues and shall be allocated the portion of such issues that were allocated to the transferor prior to the transfer. The preceding sentence shall not apply to the extent that it would result in double allocation of an issue, such as in the case of a transfer to a related person. This paragraph (i)(5) shall apply regardless of whether gain is required to be recognized by the transferor for Federal income tax purposes and regardless of whether the transferor remains in existence after the transfer. If the transferor remains in existence after the transfer, this paragraph (i)(5) shall not relieve the transferor of its allocation of any issue. This paragraph (i)(5) shall apply only for purposes of determining the tax exemption of issues of which the transferee becomes the test-period beneficiary after the transfer described herein.

(6) *Examples.* The application of section 103(b)(15) and this paragraph (i) may be illustrated by the following examples:

Example (1). On September 1, 1986, City M issues a $9 million obligation to finance acquisition of a newly constructed shopping center that is placed in service on September 1, 1986, and is owned and managed by Corporation X. Half of the shopping center (determined by fair rental value) is leased for a term exceeding 1 year to Corporation Y. X owns 60 percent of the shares of Y. The other half of the shopping center (also determined by fair rental value) is leased in equal shares for a term exceeding 1 year to A and B, two unrelated corporations. As of September 1, 1986, $30 million of prior issues of obligations are outstanding and are allocable to X as a test-period beneficiary under the rules of §1.103-10(i)(4). As of that date there is no prior issue of obligations outstanding and allocable to Y, A, or B as test-period beneficiaries. Because X owns 100 percent of the shopping center, 100 percent of the 1986 issue ($9 million) is allocated to X. Therefore, for purposes of determining whether the 1986 issue exceeds the $40 million limitation of section 103(b)(15), the $30 million of outstanding prior issues must be added to the $9 million 1986 issue. Because Y leases 50 percent of the shopping center, 50 percent of the 1986 issue ($4.5 million) is allocated to Y. Although Y is related to X under section 103(b)(15)(E), the $4.5 million of the 1986 issue that is allocated to Y is not added to the $39 million allocated to X under paragraph (i)(4)(iv) of this section since such amount has already been allocated to X as owner of the shopping center. Because A and B each leases 25 percent of the shopping center, each is allocated 25 percent ($2.25 million) of the 1986 issue.

Example (2). The facts are the same as in *Example (1)* except that A owns a 60-percent interest in an airport hotel described in §1.103-8(e)(2)(ii)*(d)* and, because of such ownership interest, is allocated $15 million of prior outstanding obligations described in section 103(b)(4)(D). In addition, County N issues $25 million of obligations described in section 103(b)(4)(E) on October 1, 1986, to finance construction of a solid-waste disposal facility that will be owned by C, A's wholly-owned subsidiary corporation. In this case, with respect to the September 1, 1986, issue, A is allocated the $15 million prior issue that is outstanding with respect to A's share of the airport hotel bond and the $2.25 million that is A's allocable share of the September 1, 1986, issue for a total of $17.25 million. Because the solid-waste disposal facility bonds had not yet been issued when the September 1, 1986, obligation was issued, no portion of the $25 million of obligations to finance C's solid-waste disposal facility will be treated as part of A's allocable obligations with respect to the September 1, 1986, issue even though A and C are related persons. In addition, even though A and C are related persons and even though on the date of issue of the solid-waste disposal bonds C will be allocated more than $40 million of outstanding obligations for purposes of section 103(b)(15) (including A's $17.25 million of outstanding prior obligations), the $40 million limitation of section 103(b)(15) does not render the interest on the October 1, 1986, bonds taxable since the October 1, 1986, issue qualifies for tax exemption under section 103(b)(4), and the $40 million limitation of section 103(b)(15) does not apply to render taxable bonds issued under section 103(b)(4).

Example (3). On October 1, 1986, City K issues an $8 million issue of obligations exempt under section 103(b)(6) to finance acquisition of a newly-constructed manufacturing plant owned by Corporation L. On October 1, 1986, Corporation M has $35 million of prior outstanding obligations allocable to it under section 103(b)(15). On October 1, 1986, L has no prior outstanding obligations allocable to itself. On April 1, 1988, M acquires 100 percent of the stock of L, which still owns the plant financed by the 1986 issue. Since M and L became related to each other during the 3-year test period of the 1986 issue and L had not ceased to use the facility, the $8 million issue is allocated to M under section 103(b)(15). This allocation causes the 1986 issue to exceed the $40 million limitation of section 103(b)(15) and the interest upon the issue to become taxable on and after October 1, 1986. However, if at least $3 million of the 1986 issue or of other issues allocated to M are redeemed as soon as reasonably practicable, and no later than 180 days after M's acquisition of L's stock, then the 1986 issue would not exceed the $40 million limitation.

Example (4). The facts are the same as in *Example (3)*, except the October 1, 1986, bonds were issued on January 1, 1985, the plant acquired with the proceeds of the issue was placed in service on January 1, 1985, and M had $39 million of prior outstanding obligations allocable to it on January 1, 1985. Because M and L became related to each other after the test period for the January 1, 1985, issue ended, M is not a test-period beneficiary, and the January 1, 1985, issue does not exceed the $40 million limitation of section 103(b)(15). However, if either M or L subsequently becomes a test-period beneficiary of an issue of obligations, then the outstanding principal amount of the January 1, 1985, issue and of the other issues allocable to M would be taken into account in applying the $40 million limitation to that issue.

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on February 20, 1986, 8:45 a.m., and published in the issue of the Federal Register for February 21, 1986, 51 F.R. 6270)

Tables for Publications 534 and 1985 Instructions for Form 4562

Announcement 86-23

Recently issued Revenue Procedure 86-6, 1986-5 I.R.B. 36, as modified and superseded by Rev. Proc. 86-14, page 11, this Bulletin, contains depreciation tables that apply to certain real property placed in service after May 8, 1985.

Three of the tables in Revenue Procedure 86-6, as modified and superseded by Rev. Proc. 86-14, should be used for property placed in service after May 8, 1985, instead of the tables published in Publication 534, *Depreciation*, (Rev. Dec. 85). Tables 6 and 9 of the revenue procedure must be used for this property instead of Publication 534 tables II (page 28) and X (page 30), which apply to low-income housing and to low-income housing for which the alternate ACRS method over a 35-year period is elected. Table 4 of the revenue procedure must be used for property placed in service after May 8, 1985, instead of table IX (page 30 of the publication), which applies to 19-year real property for which the alternate ACRS method over a 35-year period is elected.

A "Note" on page 13 of Publication 534 refers to a table dealing with low-income housing placed in service after May 8, 1985, for which a 19-year recovery period under the alternate ACRS method is elected. This is table 8 of the revenue procedure.

The revenue procedure includes tables for certain property used predominantly outside the U.S. which have not been published previously. These are tables 2 and 7 of the revenue procedure.

For purposes of line 4e of Form 4562, *Depreciation and Amortization*, use table 6 of the revenue procedure for property placed in service after May 8, 1986, instead of the table provided in the instructions to Form 4562.

A reprint of Revenue Procedure 86-6 as, modified and superseded by Rev. Proc. 86-14, will be distributed with copies of Publication 534.

Extension of Time for Making Elections Under Section 338

Announcement 86-31

The Temporary Income Tax Regulations will soon be amended to provide that no elections under section 338 of the Internal Revenue Code are required to be filed before July 15, 1986, if the acquisition date of the target for which the election would apply occurs after August 31, 1982. In accordance with Announcement 85-178, dated December 6, 1985, the temporary regulations now provide that no section 338 elections are required before March 15, 1986. The period for making an election under section 338 for an acquisition occurring before September 1982 is not extended. The extension applies to all other elections under section 338 of the Internal Revenue Code and the regulations thereunder.

This extension of time does not alter the fact that any election under section 338, once filed, is irrevocable.

The temporary regulations will also extend the time for taking certain other actions under section 338. Thus, in temporary regulations section 1.338-1T (as amended by T.D. 8068), section 1.338-4T (as amended by T.D. 8068), section 1.338-5T (as added by T.D. 8074), and section 1.338(h)(10)-1T (as added by T.D. 8068), all references to "March 15, 1986" with respect to the time for making elections or taking certain other actions under section 338 will be changed to "July 15, 1986." However, references to "March 15, 1986" will not be amended insofar as the applicability of certain rules depends on whether the acquisition occurs after March 15, 1986.

Amendments to the temporary regulations will be published soon to provide guidance relating to elections made in circumstances when the statute of limitations has expired or is about to expire for the target's taxable year that includes the acquisition date. The amendments to the temporary regulations will provide that any statement of election under section 338 filed on or after December 9, 1985, and on or before July 15, 1986, will be ineffective unless the target agrees to take certain steps relating to the statute of limitations on assessment regarding target's taxable year that includes the acquisition date. Specifically, when the statement of election is filed, target must either execute a consent to extend the statute of limitations until May 15, 1987 (Form 872) or a closing agreement waiving the expiration of the statute of limitations and agreeing to extend the period of assessment to June 15, 1988. The amendments will also provide rules for perfecting statements of election which are filed within the relevant time period but do not comply with the provisions of the amendments to the temporary regulations.

The requirement of a Form 872 or closing agreement will also apply to certain subsequent taxable years of target and to certain corporate transferees of target. The amendments will also give the District Director discretion to waive the Form 872 and closing agreement requirements.

Consolidated Return Investment Adjustments—Decision Not to Appeal *Woods Investment Co. v. Commissioner*

Announcement 86-32

The Internal Revenue Service is not appealing the decision of the Tax Court in *Woods Investment Co. v. Commissioner*, 85 T.C. No. 14 (August 15, 1985). Although the Service disagrees with the result in that a case, it will no longer advance the position that it advanced in that case, pending a change in the regulations.

The issue in *Woods* was the determination of the amount of gain on the sale of a subsidiary's stock by a group filing consolidated returns where the subsidiary computes its earnings and profits under section 312(k) of the Internal Revenue Code. Section 312(k) requires that straight-line depreciation be used in computing earnings and profits, even if a subsidiary uses accelerated depreciation in computing taxable income. Because consolidated return basis adjustments are measured by earnings and profits, if a subsidiary uses accelerated depreciation, the basis of the stock of the subsidiary is in most cases higher under these adjustments, if they are applied mechanically, than it would have been if section 312(k) had not been enacted.

In *Woods*, the Service reduced the basis of the stock of subsidiaries the group had sold. The grounds for the Service's action was that the reduction was necessary to achieve the purposes of the consolidated return basis adjustment system, and to prevent a double deduction. The Tax Court rejected this adjustment, holding in effect that the adjustments provided under consolidated return regulations preempt the area, and they have not been amended to take section 312(k) into account.

Although the Service will not appeal the *Woods* case, it remains convinced that the effect of section 312(k) on the basis adjustment system is to understate the gain on the sale of the stock of a subsidiary in this and similar cases, creating the effect of a double deduction.

The Service is considering revisions to the investment adjustment provisions of the consolidated return regulations that would provide for investment adjustments that do not result in this understatement of gain. The revisions will also address other issues that have arisen under the current investment adjustment regulations.

$40 Million Limitation Upon Beneficiaries of Certain Tax-Exempt Bond Issues and Definition of the Term "Principal User"—Public Hearing

Announcement 86-34[1]

SUMMARY: This document provides notice of a public hearing on two proposed regulations. One of the two proposed regulations (LR-157-84) relates to certain industrial development tax-exempt bonds and to certain beneficiaries of such bond issues. The other proposed regulations (LR-59-74) define the term "principal user" for purposes of paragraphs (6) and (15) of section 103(b) of the Internal Revenue Code of 1954.

DATES: The public hearing will be held on Wednesday, June 4, 1986, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by Wednesday, May 21, 1986.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. The requests to speak and outlines of oral comments should be submitted to the Commissioner of Internal Revenue, ATTN: CC:LR:T (LR-157-84 and LR-59-74), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Fay Easley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, telephone 202-566-3935 (not a toll-free call).

SUPPLEMENTARY INFORMATION: One of the two subjects of the public hearing is proposed regulations under section 103(b)(15) of the Internal Revenue Code of 1954. The proposed regulations appear * * * [on page 22, this Bulletin].

The second subject of the public hearing is proposed regulations under section 103(b)(6) of the Internal Revenue Code of 1954. The proposed regulations * * * [appear on page 19, this Bulletin].

The rules of §601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who submit written comments within the time prescribed in the notice of proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations should submit, not later than Wednesday, May 21, 1986, an outline of the oral comments to be presented at the hearing and the time they wish to devote to each subject.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of the time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

Revisions to Various 1985 Forms Due to a Change in the Recovery Period of Real Property

Announcement 86-37

Public Law 99-121, 1985-48 I.R.B. 11, extended the recovery period for 18-year real property to 19 years. This new provision applies, in general, to real property placed in service after May 8, 1985.

---

[1] Filed by the Office of the Federal Register on February 20, 1986, 8:45 a.m., and published in the issue of the Federal Register for February 21, 1986, 51 F.R. 6273.

Several 1985 tax forms were printed before the enactment of this legislation and therefore do not reflect the 19-year period. Consequently taxpayers should include amounts attributable to 19-year real property wherever "15 or 18-year property" appears on the following forms and in the related instructions for 1985:

Form 3468, Computation of Investment Credit

Form 4626, Computation of Minimum Tax-Corporations

Form 4797, Gains and Losses From Sales or Exchanges of Assets Used in a Trade or Business and Involuntary Conversions

Form 6251, Alternative Minimum Tax Computation

Schedule(s) K and K-1 (Form 1065), Partners' Shares of Income, Credits, Deductions, etc.

Schedule(s) K and K-1 (Form 1120S), Shareholders' Share of Income, Credits, Deductions, etc.

On Form 8038, Information Return for Private Activity Bond Issues, taxpayers should include 19-year real property on line 22g and attach a statement describing the property.

The 19-year ACRS tables were published in Rev. Rul. 86-6, 1986-5 I.R.B. 36.

Errors in Publication 519

Announcement 86-38

Publication 519, *U.S. Tax Guide for Aliens*, contains errors in three examples. Under the stated facts of each example, the taxpayers involved would be correctly classified as *resident* aliens (for pertinent parts of the year) rather than *nonresident* aliens as now incorrectly assumed. These examples are:

a) The comprehensive illustration of a dual-status tax year return beginning on page 7 and continuing with the filled-in forms on pages 9-12.

b) The example showing the treatment of salary payments received in a year in which the taxpayer is not engaged in a U.S. trade or a business, on page 13 of the publication.

c) The comprehensive example of how to fill in Form 1040NR, beginning on page 19 and including the filled in forms on pages 21 and 22.

The three examples can be corrected by making the changes set forth below in the facts of each one. If these revisions are made, no substantial changes to the entries in the filled-in forms will be necessary. The taxpayer in each case would be properly classified as a nonresident alien.

a) In the example of a dual-status return that begins on page 7, Hans Braun's date of initial arrival in the United States should be changed from January 15 to March 18 (or later). With this change, Braun's total presence in the United States would be less than 183 days during 1985 and he would not satisfy the substantial presence test for the year. His residency starting date under the green card test would be September 10 and the rest of the example would be correct.

b) Likewise, the example on page 13 related to the treatment of salary payments received in a tax year in which a nonresident alien is not engaged in a U.S. trade or business should be changed so that the taxpayer's date of arrival in the United States is July 3rd (or later). His stay in the United States would then be less than 183 days and he would not be treated as a resident alien under the substantial presence test.

c) The example beginning on page 19, illustrating the proper completion of Form 1040NR by a nonresident alien, should be changed so that the taxpayer, John Latter, is present in the United States for 9 1/2 months as an *exempt individual* for purposes of the substantial presence test. This would be the case if he were admitted to the United States under a "J" visa as a professor of engineering, rather than as a participating engineer as is now shown. Additionally, Latter's country of origin should be changed to Australia, rather than the United Kingdom, because the U.S.-U.K. income tax treaty exempts the salaries of teachers and professors from U.S. taxation for up to 2 years. The treaty with Australia does not contain such an exemption.

In the example, the taxpayer's bond interest income from Boston Transit Co. bonds is exempt from U.S. tax under the treaty with the United Kingdom. Under the treaty with Australia, this bond interest would be subject to a maximum U.S. tax of 10%. However, if the facts are clarified so that the bonds were issued after July 18, 1984, the interest could be portfolio interest that is exempt from tax under U.S. law when paid to a nonresident alien.

With these changes, the example is correct and no substantial changes are needed to the entries on the filled-in forms.

At Risk Rules—Aggregation of Partnership and S Corporation Activities

Announcement 86-35

Temporary regulations will be issued extending the aggregation rule contained in section 1.465-1T of the Income Tax Regulations to taxable years beginning during 1985. Thus, taxpayers will be allowed to aggregate certain partnership and S corporation activities for purposes of the at-risk rules under section 465 of the Internal Revenue Code for taxable years beginning during 1985 in the same manner as for taxable years beginning during 1984.

Under the temporary regulations, aggregation of partnership or S corporation activities will be allowed within each of four categories for taxable years beginning during 1985. Those categories are films and video tapes, farms, oil and gas properties, and geothermal properties. Thus, in applying the at-risk rules for 1985, partners and S corporation shareholders will be permitted to treat all of the partnership's or S corporation's films and video tapes as a single activity, and to treat all farms, all oil and gas properties, or all geothermal properties of the partnership or S corporation similarly.

Proposed regulations also will be issued concerning the aggregation of activities within the categories mentioned above for taxable years beginning after December 31, 1985. The proposed regulations will contain rules that would allow taxpayers to aggregate activities within those categories for purposes of applying the at-risk rules in taxable years beginning after December 31, 1985, only if certain conditions are satisfied.

Differential Earnings Rates for Mutual Life Insurance Companies

Announcement 86-36

This announcement concerns the determination under section 809 of the Internal Revenue Code of the "differential earnings rate" for taxable year 1985 and the rate that will be used to calculate the "recomputed differential earnings amount" for taxable year 1984. (The latter rate is referred to herein as the "recomputed differential earnings rate" for 1984.) These rates will be used by mutual life insurance companies to calculate their federal income tax liability for taxable year 1985.

BACKGROUND

Section 809(a) of the Code provides that, in the case of any mutual life insurance company, the amount of the deduction allowable under section 808 for policyholder dividends shall be reduced (but not below zero) by the "differential earnings amount." Any excess of the differential earnings amount over the amount of the deduction allowable under section 808 shall be taken into account as a reduction in the closing balance of reserves under subsections (a) and (b) of section 807. The "differential earnings amount" for any taxable year is an amount equal to the product of (a) the life insurance company's average equity base for the taxable year and (b) the "differential earnings rate" for such taxable year. The "differential earnings rate" for a taxable year is the excess of (a) the "imputed earnings rate" for the taxable year over (b) the "average mutual earnings rate" for the second calendar year preceding the calendar year in which the taxable year begins. The "imputed earnings rate" for any taxable year is an amount which bears the same ratio to 16.5 percent as the "current stock earnings rate" for the taxable years bears to the "base period stock earnings rate."

Section 809(f) of the Code provides that, in the case of any mutual life insurance company, if the "recomputed differential earnings amount" for any taxable year exceeds the differential earnings amount for such taxable year, such excess shall be included in life insurance gross income for the succeeding taxable year. If the differential earnings amount for nay taxable year exceeds the recomputed differential earnings amount for such taxable year, such excess shall be allowed as a life insurance deduction for the succeeding taxable year. The "recomputed differential earnings amount" for any taxable year is an amount calculated in the same manner as the differential earnings amount for such taxable year, but substituting the average mutual earnings rate for the calendar year in which the taxable year begins for the average mutual earnings rate for the second calendar year preceding the calendar year in which the taxable years begins. For example, while the differential earnings rate for 1985 is based on the average mutual earnings rate for 1983, the recomputed differential earnings rate for 1985 will be based on the average mutual earnings rate for 1985.

As described above, the differential earnings rate for 1985 and the recomputed differential earnings rate for 1984 will affect the income and deductions reported by mutual life insurance companies on their federal income tax returns for the 1985 taxable year. In addition, pending technical corrections legislation would permit mutual life insurance companies to use the most recently published differential earnings rate for purposes of calculating any additions to tax under section 6655 for underpayments of estimated tax.

Data necessary to determine the differential earnings rate for 1985 and the recomputed differential earnings rate for 1984 have been compiled from returns filed by mutual life insurance companies and certain stock life insurance companies. The Internal Revenue Service is currently examining these returns to verify the accuracy of the data reported on these returns. This examination will not be completed before the March 15, 1986 due date for filing 1985 calendar year returns. Moreover, there will not be an opportunity before March 15, 1986 to obtain public comment on forthcoming regulations that will address issues affecting the determination of the differential earnings rate for 1985 and the recomputed differential earnings rate for 1984.

ANNOUNCEMENT OF TENTATIVE RATES

This announcement publishes a tentative determination of the differential earnings rate for 1985 and recomputed differential earnings rate for 1984. This announcement also publishes a tentative determination of several rates on which the calculation of the differential earnings rate for 1985 and the recomputed differential earnings rate for 1984 are based. The final determination of these rates is expected to be published before September 1, 1986.

The tentative determination of the differential earnings rate for 1985 and recomputed differential earnings rate for 1984 that is published in this announcement should be used by mutual life insurance companies to calculate the amount of tax liability (in the case of companies that file returns before an announcement of the final determination of these rates) or to calculate the amount of properly estimated unpaid tax liability (in the case of companies that are allowed an extension of time to file returns) for taxable year 1985. Companies that file returns before an announcement of the final determination of these rates should file amended returns after the final determination of these rates is announced. Any failure to pay tax for the 1985 taxable year before September 15, 1986 that is attributable to a difference between the tentative determination of the differential earnings rate for 1985 and recomputed differential earnings rate for 1984 and the final determination of these rates will be treated as due to reasonable cause and will not give rise to any addition to tax under section 6651 of the Code.

The tentative determination of the differential earnings rate for 1985, recomputed differential earnings rate for 1984, and other relevant rates is as follows:

Differential earnings rate for 1985	6.754 percent
Recomputed differential earnings rate for 1984	12.302 percent
Imputed earnings rate for 1985	16.391 percent
Base period stock earnings rate	17.715 percent
Current stock earnings rate for 1985	17.598 percent
Stock earnings rate for 1981	17.112 percent
Stock earnings rate for 1982	17.411 percent
Stock earnings rate for 1983	18.622 percent
Stock earnings rate for 1984	16.760 percent
Average mutual earnings rate for 1983	9.637 percent
Average mutual earnings rate for 1984	4.198 percent

Revision of Form 8264 and Instructions

Announcement 86-40

Form 8264, Application for Registration of a Tax Shelter, and instructions, have been revised. Major changes include the following:

- The addition of the Tax Shelter Ratio Worksheet on page 2 of the form.
- The addition of space on page 2 for explanations of items from page 1 of the form.
- A change in the information requested by item 3b. Item 3b now asks whether the acquisition of the tax shelter's principal asset was from a related party. The previous version of the form asked whether the acquisition was from an unrelated party.

Amended Forms 8264 may now be filed if there is a material change in facts occurring after the initial registration.

The form and instructions (both carrying an August 1985 revision date) should be available in most Internal Revenue Service offices by the end of March. Previous versions of the form and instructions will be obsolete when the new form and instructions become available.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Dal H. Felkel	Kingstree, SC	Certified Public Accountant	Indefinite from January 31, 1986
John J. Matonis	Walnut, CA	Attorney	Indefinite from January 24, 1986
Joel A. Shor	Baltimore, MD	Certified Public Accountant	Five Months from December 15, 1985
Patrick H. Diamond	New York, NY	Attorney & Certified Public Accountant	Indefinite from February 10, 1986
Folger P. Gifford	Cold Spring Harbor, NY	Certified Public Accountant	Indefinite from February 11, 1986
Robert Allen Beamer	Wauwatosa, WI	Attorney	Indefinite from February 19, 1986
Robert L. Cummings	Springfield, MO	Certified Public Accountant	Indefinite from February 27, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.401(a)-4, 1.411(d)-4, added.	Limitations on alternative benefits under qualified plans	1986-9 I.R.B. 26	Mar. 31, 1986
26 CFR 1.904(f)-1 through 1.904(f)-6, 1.1502-9, added.	Recapture of foreign losses	1986-10 I.R.B. 14	Mar. 25, 1986
26 CFR 1.338-1T, 1.338-4T, 1.338(h)(10)-1T, amended; 1.338(b)-1T, 1.338(b)-2T, 1.338(b)-3T, added.	Basis of assets of a target corporation	1986-11 I.R.B. 28	Mar. 31, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

(*) Printed in one volume. (**) Out of print.

NOTICE

Prices shown were those in effect on July 30, 1984. Government documents prices are subject to change without prior notice. Therefore, prices in effect when your order is filled may differ from prices on this list. Since it is not feasible to change prices shown in Government documents in print, the price printed in a document may differ from the price in effect when your order is processed.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretation.

INCOME TAX

Rev. Rul. 86-42, page 33.
Interest; prepayment of Rule of 78's loan. An individual borrower who prepays a loan subject to the Rule of 78's, and who has been using the economic accrual method to account for interest expense, may deduct as interest the difference between the final payment based upon application of the Rule of 78's and the final payment based upon the economic accrual of interest. An individual borrower who uses the Rule of 78's to account for interest expense, in circumstances where it is still permitted, may deduct as interest the amount allocated to interest using the Rule of 78's when the loan is prepaid. The same rules apply to lenders.

Rev. Rul. 86-44, page 39.
Indian tribal governments; treatment as states or political subdivisions. Rev. Ruls. 58-610, 68-231 and 74-179 are declared obsolete.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, SUBCHAPTER B, SUBCHAPTER C, PART 1—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1984; PART 20—TEMPORARY ESTATE TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1984; PART 54—TEMPORARY PENSION EXCISE TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1984; PART 301—TEMPORARY PROCEDURE AND ADMINISTRATION REGULATIONS UNDER THE TAX REFORM ACT OF 1984; PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Effective Dates And Other Issues Arising Under The Employee Benefit Provisions of The Tax Reform Act of 1984

AGENCY: Internal Revenue Service, Treasury

ACTION: Temporary regulations

SUMMARY: This document provides temporary regulations relating to effective dates and certain other issues arising under sections 91, 223, and 511-561 of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 106, 283, 362-409]. This action is necessary because of changes to the applicable tax law made by the Tax Reform Act of 1984. The temporary regulations will affect qualified employee benefit plans, welfare benefit funds and employees receiving benefits through such plans.

DATES: As follows, the temporary regulations are to be effective on varying dates dependent upon the effective dates of the underlying provisions of the Internal Revenue Code of 1954. In general, the effective dates are as follows:

Regulations §	*Subject*	*Effective Date*
§1.72(e)-1T	Treatment of distributions	Amounts received or loans made after October 16, 1984.
§1.79-4T	Group-term life insurance	Generally, taxable years beginning after December 31, 1983.
§1.125-2T	Cafeteria plans	Cafeteria plan years beginning on or after January 1, 1985.
§1.133-1T	ESOP loan interest exclusion	Loans extended to an ESOP or sponsoring employer after July 18, 1984.
§1.402(a)(5)-1T	Rollover of partial distributions	Distributions made after July 18, 1984.
§1.404(a)-1T	Deduction of deferred compensation and benefits.	Generally, amounts paid or incurred after July 18, 1984.
§1.404(a)(8)-1T	Deductions for plan contributions	Taxable years beginning after December 31, 1983.
§1.404(b)-1T	Deduction of deferred compensation and benefits	Generally, amounts paid or incurred after July 18, 1984
§1.404(d)-1T	Deduction of deferred benefits to nonemployees	Generally, amounts paid or incurred after July 18, 1984.
§1.404(k)-1T	Deduction for dividends on stock held by ESOP	Dividends paid in employer taxable years beginning after July 18, 1984.
§1.419-1T	Funded welfare benefits plans	Generally, contributions paid or accrued after December 31, 1985.
§1.419A-1T	Qualified asset account, etc.	Generally, contributions paid or accrued after December 31, 1985.
§1.461(h)-3T	Economic performance requirement for certain employee benefits	Generally, contributions incurred in taxable years ending after July 18, 1984.
§1.463-1T	Transitional rule for vested accrued vacation benefits	First taxable year ended on or before July 18, 1984.
§1.505(c)-1T	Requirements for exemption	Taxable years beginning after July 18, 1984.

Regulations §	*Subject*	*Effective Date*
§1.512(a)-5T	Unrelated business income of exempt organizations	Generally, income earned after December 31, 1985.
§1.1042-1T	Sale of stock to ESOP	Taxable years beginning after July 18, 1984.
§20.2039-1T	Repeal of estate tax exclusion for qualified plans	Generally, estates of decendents dying after December 31, 1984.
§54.4976-1T	Taxes with respect to welfare benefit plans.	Generally, disqualified benefits provided after December 31, 1985.
§54.4978-1T	Tax on certain dispositions by the ESOP	Taxable years beginning after July 18, 1984.
§301.7701-17T	Collective bargaining plans and agreements	Generally, after March 31, 1984.

FOR FURTHER INFORMATION CONTACT: The attorneys indicated in the table below at the Employee Plans and Exempt Organizations Division or the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224 (Attention: CC:LR:T).

Regulation §	*Subject*	*Attorney/Telephone (not toll-free calls)*
§1.72(e)-1T	Treatment of distributions	Philip R. Bosco (202)566-3430
§1.79-4T	Group-term life insurance	Nancy J. Marks (202)566-3430
§1.125-2T	Cafeteria plans	Harry Beker (202)566-6212
§1.133-1T	ESOP loan interest exclusion	John T. Ricotta (202)566-3544
§1.402(a)(5)-1T	Rollover of partial distributions	Richard J. Wickersham (202)566-3430
§1.404(a)-1T	Deduction of deferred compensation and benefits	John T. Ricotta (202)566-3544
§1.404(a)(8)-1T	Deductions for plan contributions	Richard J. Wickersham (202)566-3430

§301.7701-17T	Collective bargaining plans and agreements	Philip R. Bosco (202)566-3430

SUPPLEMENTARY INFORMATION: BACKGROUND

This document contains temporary regulations relating to the economic performance requirement for certain employee benefits under section 461(h) of the Internal Revenue Code of 1954 (Code), as added by section 91 of the Tax Reform Act of 1984 (Act) (P.L. 98-369, 98 Stat. 598); the transitional rule for vested accrued vacation pay under section 463 of the Code, as amended by section 91(i) of the Act (P.L. 98-369, 98 Stat. 609); the treatment of the group-term life insurance purchased for employees under section 79 of the Code, as amended by section 223 of the Act (P.L. 98-369, 98 Stat. 775); the treatment of funded welfare benefit plans under sections 419 and 419A of the Code, as added by section 511 of the Act (P.L. 98-369, 98 Stat. 854); the treatment of unfunded deferred benefits under sections 404(b) and 162 of the Code, as amended by section 512 of the Act (P.L. 98-369, 98 Stat. 862); additional requirements for tax-exempt status of certain organizations under section 505 of the Code, as amended by section 513 of the Act (P.L. 98-369, 98 Stat. 863); rollovers of partial distributions under sections 402 and 403, as amended by section 522 of the Act (P.L. 98-369, 98 Stat. 868); distributions where substantially all contributions are employee contributions under section 72, as amended by section 523 of the Act (P.L. 98-369, 98 Stat. 871); repeal of the estate tax exclusion for qualified plan benefits under section 2039, as amended by section 525 of the Act (P.L. 98-369, 98 Stat. 873); determination of whether there is a collective bargaining agreement under section 7701(a)(46), as added by section 526(c) of the Act (P.L. 98-369, 98 Stat. 874); statutory nontaxable benefits under section 125, as amended by section 531(b) of the Act (P.L. 98-369, 98 Stat. 881); nonrecognition of gain on stock sold to an employee stock ownership plan (ESOP) under section 1042, as added by section 541 of the Act (P.L. 98-369, 98 Stat. 887); deductibility of dividends relating to ESOPs under sections 404 and 3405, as amended by section 542 of the Act (P.L. 98-369, 98 Stat. 890); exclusion of interest on ESOP loans under section 133, as added by section 543 of the Act (P.L. 98-369, 98 Stat. 891); excise tax on certain dispositions by ESOPs under section 4978, as added by section 545 of the Act (P.L. 98-369, 98 Stat. 894); treatment of an employer and an employee benefit association as related under section 1239, as amended by section 557 of the Act (P.L. 98-369, 98 Stat. 898); and technical corrections to the pension provisions of the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462] under sections 713 and 715 of the Act (P.L. 98-369, 98 Stat. 955, 966).

FORMAT

These temporary regulations are generally presented in the form of questions and answers. Taxpayers may rely on them for guidance pending the issuance of final regulations. The questions and answers are not, however, intended to address comprehensively the issues raised by sections 91, 223 and 511-561 of the Act and no inference should be drawn regarding questions not expressly raised and answered.

For purposes of developing a notice of proposed rule-making to provide comprehensive guidance under section 404(b) as amended by the Tax Reform Act of 1984, written comments are requested regarding whether, in place of the presumption established under Q&A-2 of §1.404(b)-1T, compensation or benefits should be considered unconditionally provided under a plan, or method or arrangement, deferring the receipt of compensation or providing for deferred benefits for purposes of section 404(a) and (d) and section 404(b) if paid beyond a 2½ month period following the close of the taxable year. In conjunction with the presumption and safe harbor rules of Q&A-2 of §1.404(b)-1T, consideration was given to providing additionally for a fixed period beyond the close of the taxable year (e.g., 8½ months) beyond which a payment would unconditionally be treated as deferred compensation or benefits for purposes of section 404. However, that approach was dismissed because of a concern that such a fixed period would inappropriately be regarded and utilized as an extended safe harbor within which a payment would be treated as not constituting deferred compensation or benefits for purposes of section 404.

Further, written comments are requested with respect to the treatment of an account as a "fund" for purposes of section 419(e)(3)(C). In particular, comments are requested regarding the application of Q&A-3 of §1.419-1T to experience-rated insurance arrangements between employers and insurance companies to provide welfare benefits to employees, and the application of §54.4976-1T to dividends and refunds under such arrangements. In addition, comments are requested regarding the inclusion of additional experience-rated arrangements in the definition of "welfare benefit fund" under section 419(e)(3)(C), particularly where there is a pooling or spreading of experience among different employers.

SPECIAL ANALYSES

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act does not apply and a Regulatory Impact Analysis is not required for this rule. The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this temporary regulation have been submitted to the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act of 1980. These requirements have been approved by OMB under control number 1545-0916.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1, 20, 54, 301, and 602 are amended as follows:

Par. 1. These amendments and additions to parts 1, 20, 54, and 301 are issued under the authority contained in 26 U.S.C. §7805. The authority citations for Parts 1, 20, 54 and 301 are unchanged.

INCOME TAX REGULATIONS
(26 CFR Part 1)

Par. 2. The following new sections are added after §1.72-18 to read as follows:

§1.72(e)-1T Treatment of distributions where substantially all contributions are employee contributions. (Temporary)

Q-1: How did the Tax Reform Act (TRA) of 1984 change the law with regard to the treatment of non-annuity distributions (i.e., amounts distributed prior to the annuity starting date and not received as annuities) from a qualified plan that is treated as a single contract under section 72 and under which substantially all of the contributions are employee contributions?

A-1: (a) Prior to the amendment to section 72(e) by the TRA of 1984, nonannuity distributions from such a qualified plan generally were allocable, first, to nondeductible employee contributions and thus were not includible in gross income. After distributions qualified the balance of nondeductible employee contributions, further nonannuity distributions generally were includible in gross income.

(b) Pursuant to section 72(e)(7), as added by the TRA of 1984, nonannuity distributions from such a qualified plan that are allocable to investment in the plan after August 13, 1982 (as determined in accordance with section 72(e)(5)(B)), generally will be treated, first, as allocable to income and, second, as allocable to nondeductible employee contributions. Distributions allocable to income are includible in gross income. Distributions allocable to nondeductible employee contributions are not includible in gross income.

Q-2: To which qualified plans and contracts does section 72(e)(7) apply?

A-2: Section 72(e)(7) applies to any plan or contract under which substantially all of the contributions are employee contributions if—

(a) Such plan is described in section 401(a) and the related trust or trusts are exempt from tax under section 501(a); or

(b) Such contract is—

(1) Purchased by a trust described in (a) above,

(2) Purchased as part of a plan described in section 403(a), or

(3) Described in section 403(b).

Q-3: What is the definition of a qualified plan or contract under which substantially all of the contributions are employee contributions?

A-3: (a) A qualified plan or contract under which substantially all of the contributions are employee contributions is a plan or contract with respect to which 85 percent or more of the total contributions during the "representative period" are employee contributions. The "representative period" means the five-plan-year period proceeding the plan year during which a distribution occurs. However, if less than 85 percent of the total contributions for all plan years during which the plan or contract is in existence prior to the plan year of distribution are employee contributions, then the plan or contract is not one with respect to which substantially all of the contributions are employee contributions.

(b) For purposes of the 85 percent test, contributions made to a predecessor plan or contract are aggregated with contributions made to the plan or contract to which the 85 percent test is being applied (the successor plan or contract). For purposes of the preceding sentence, a predecessor plan or contract is a plan or contract the terms of which are substantially the same as the successor plan or contract.

Q-4: What is the definition of employee contributions for purposes of section 72(e)(7)?

A-4: For purposes of section 72(e)(7), employee contributions are those amounts contributed by the employee and those amounts considered contributed by the employee under section 72(f). For example, amounts contributed to a section 401(k) qualified cash or deferred arrangements, pursuant to an employee's election to defer such amounts, are employer contributions to the extent that such amounts are not currently includible in gross income. In addition, deductible employee contributions under section 72(o) are disregarded in their entirety (i.e., treated as neither employee contributions nor employer contributions) in determining whether substantially all the contributions are employee contributions.

Q-5: How is the 85 percent test of section 72(e)(7) applied to a qualified plan or contract?

A-5: (a) Except as provided in paragraphs (b), (c), and (d), the 85 percent test is applied separately with respect to each contract under section 72.

(b) If a single qualified plan described in section 401(a) and section 403(a) comprises more than one contract under section 72, regardless of whether such plan includes multiple trusts or combinations of profit-sharing and pension features, these contracts are aggregated for purposes of applying the 85 percent test. Thus, if substantially all of the contributions under a qualified plan comprising two contracts under section 72 are employee contributions, section 72(e)(5)(D) shall not apply to non-annuity distributions under either of the contracts.

(c) With respect to the plans maintained by the Federal Government or by instrumentalities of the Federal Government, the 85 percent test shall be applied by aggregating all such plans. This aggregation rule applies only to those plans that are actively administered by the Federal Government or an instrumentality thereof. Thus, if a plan of the Federal government is administered by a commercial financial institution, it would not be aggregated with other plans of the Federal government and its instrumentalities for purposes of applying the 85 percent test.

(d) In the case of a contract described in section 403(b), the 85 percent test is applied separately to each such contract.

Q-6: Is a loan from a qualified plan or contract described in section 72(e)(7) treated as a distribution under section 72(e)(4)(A)?

A-6: Yes. Pursuant to section 72(e)(4)(A), if an employee receives, either directly or indirectly, any amount as a loan from a qualified plan or contract described in section 72(e)(7), such amount shall be treated as a distribution from the plan or contract of an amount not received as an annuity. Similarly, if an employee assigns or pledges, or agrees to assign or pledge, any portion of the value of any qualified plan or contract, such portion shall be treated as a distribution from the plan or contract of an amount not received as an annuity.

Q-7: Does the five percent penalty for premature distributions from annuity contracts, as described in section 72(q), apply to distributions from a qualified plan or contract described in section 72(e)(7)?

A-7: No.

Q-8: When is section 72(e)(7) effective?

A-8: Section 72(e)(7) is effective for amounts received or loans made on or after October 17, 1984. For purposes of this effective date provision, loan amounts outstanding on October 16, 1984, which are renegotiated, extended, renewed, or revised after that date generally are treated as loans made on a date of the renegotiation, etc.

Par. 3. There is added the following new section after §1.79-3:

§1.79-4T Questions and answers relating to the nondiscrimination requirements for group-term life insurance. (Temporary)

Q-1: When does section 79, as amended by the Tax Reform Act of 1984, become effective?

A-1: (a) Generally, section 79, as amended, applies to taxable years (of the employee receiving insurance coverage) beginning after December 31, 1983. There are, however, several exceptions to this effective date where there is coverage under a group-term life insurance plan of the employer that was in existence on January 1, 1984, or a comparable successor to such a plan maintained by the employer or a successor employer.

(b) First, the new rules of section 79(b) and (e), that require the inclusion in income of a retired employee of amounts attributable to the cost of group-term life insurnace in excess of $50,000 and that include former employees within the definition of the term "employee" will not apply to any employee who retired from employment on or before January 1, 1984.

(c) Second, in the case of an individual who retires after January 1, 1984, and before January 1, 1987, the new rules of section 79(b) and (e) do not apply if (1) and individual attained age 55 on or before January 1, 1984, and (2) the plan was maintained by the same employer who employed the individual during 1983, or by a successor employer.

(d) Third, in the case of an individual who retires after December 31, 1986, the new rules of section 79(b) and (e) do not apply if (1) the individual attained age 55 on or before January 1, 1984, (2) the plan was maintained by the same employer who employed the individual during 1983, or by a successor employer, and (3) the plan is not, after December 31, 1986, a discriminatory group-term life insurance plan (not taking into account any group-term life insurance coverage provided to employees who retired before January 1, 1987).

(e) For purposes of determining whether a plan is, after December 31, 1986, a discriminatory group-term life insurance plan, there shall be ignored any insurance coverage provided pursuant to a state law requirement that an insurer continue to provide insurance coverage for a period of time not in excess of two months following the termination of a policy.

Q-2: What is meant by a "group-term life insurance plan of the employer that was in existence on January 1, 1984"?

A-2: A group-term life insurance plan of the employer was in existence on January 1, 1984, only if the group policy or policies providing group-term life insurance benefits under the plan were executed on or before January 1, 1984, and were not terminated prior to such date. The applicability of section 79, as amended, to an employee will not be affected by the transfer of the employee between employers treated as a single employer under section 79(d)(7) if the employee continues, after the transfer, to be provided with group-term life insurance benefits under a plan that is comparable (determined under the principles set forth in Q&A 3) to the plan provided by the former employer.

Q-3: When is a plan of group-term life insurance a "comparable successor" to another such plan?

A-3: A plan of group-term life insurance will be a comparable successor to another plan of group-term life insurance (the first plan) only if the plan does not differ from the first plan in any significant aspect with respect to individuals who are potentially eligible for benefits provided under the grandfather provisions in Q&A 1. These individuals consist of those persons who are covered under a plan of group-term life insurance of the employer that was in existence on January 1, 1984, or a comprable successor to such a plan maintained by the employer or a successor employer, and who either retired on or before January 1, 1984, or who both attained age 55 on or before January 1, 1984, and were employed by the employer maintaining the plan (or a predecessor of that employer) during the year 1983. Accordingly, if significant additional or reduced benefits are provided only to individuals who are not described in the preceding sentence, the plan will be considered a comparable successor plan. A plan will not fail to be a comparable succesor plan merely because the employer purchases a policy or policies identical to the employer's first plan from a different insurance company. If the new plan provides significant additional or reduced benefits (either as to the type or amount available) to employees, or provides benefits to a category of employees that was formerly excluded from participating in the plan, the plan is generally not a comparable successor to the first plan. However, a plan will not be considered as providing significant additional or reduced benefits merely because a participant's coverage is based on a percentage of compensation and the participant's compensation for the taxable year has been increased or decreased. Furthermore, a plan will not be considered a non-comparable successor plan merely because it is amended, either to decrease benefits provided to key employees or to increase benefits provided to non-key employees, solely in order to comply with the nondiscrimination requirements of section 79(d). Finally, a plan will not be considered a noncomparable successor plan merely because a policy that is part of a discriminatory plan is terminated in order to end discriminatory coverage.

Q-4: For purposes of determining the effective date of section 79, as amended by the Tax Reform Act of 1984, what is a "successor employer"?

A-4: A successor employer is an employer who employs a group of individuals formerly employed by another employer as a result of a business merger, acquisition or division.

Q-5: Under what circumstances will separate policies of group-term life insurance of an employer be considered to be a single plan in determining whether the employer's plan of group-term life insurance is discriminatory?

A-5: All policies providing group-term life insurance to a common key employee or key employees (as defined in this Q&A) carried directly or indirectly by an employer (or by a group of employers described in section 79(d)(7)) will be considered as a single plan for purposes of determining whether an employer's group-term life insurance plan is discriminatory. For example, if a key employee receives $50,000 of group-term life insurance coverage under one policy and the same key employee receives an additional $250,000 of coverage under a separate group-term life insurance policy, the two policies will be treated as a single plan in determining whether the group-term life insurance provided by the employer is discriminatory. If it is discriminatory, the key employees covered by either policy will not receive the benefit of section 79(a)(1) or section 79(c) for either policy. The result is the same even if each policy, considered alone, would be nondiscriminatory. A policy that provides group-term life insurance to a key employee and a policy under which the same key employee is eligible to receive group-term life insurance upon separation from service will be considered to provide group-term life insurance to a common key employee. In addition, an employer may treat two or more policies that do not provide group-term life insurance to a common key employee as constituting a single plan for purposes of satisfying the nondiscrimination provisions of section 79(d). For example, if the employer provides group-term life insurance coverage for non-key employees under one policy and provides group-term life insurance coverge for key employees under a second policy, the two policies may be considered together in determining whether the requirements of section 79(d) are satisfied with regard to the second policy. For purposes of this section, the term "key employee" has the meaning given to such term by paragraph (1) of section 416(i), except that subparagraph (A)(iv) of such paragraph shall be applied by not taking into account employees described in section 79(d)(3)(B) who are not participants in the plan. For purposes of this section, all references to "plan year" or "plan years" in section 416(g)(4)(C) and seciton 416(i) shall be deleted and replaced with "taxable year of the employer" or "taxable years of the employer," respectively.

Q-6: In the case of a discriminatory group-term life insurance plan, what amounts should be included in the gross income of a key employee?

A-6: (a) In the case of a discriminatory group-term life insurance plan, each key employee must include in gross income for the taxable year the cost of his or her insurance benefit for that year provided by the employer under the plan.

(b) The cost of group-term life insurance coverage provided by an employer for a key employee during the employee's taxable year is determined by apportioning the net premium (group premium less policy dividends, premium refunds or experience rating credits) allocable to the group-term life insurance coverge during the key employee's taxable year, less the actual cost allocated to other key employees pursuant to the method described in the subparagraph (d) of this answer, if applicable, among the covered employees. In the event that the employer has other forms and types of coverage with the same insurer, the employer must make a reasonable allocation of the total premiums paid to the insurer. For example, where an employer has both health insurance coverage and a plan of group-term life insurance with the same insurer, and there is no volume discount, the net premium for the plan of group-term life insurance must include the excess, if any, of the payments the employer makes for the health insurance coverage over the payments the employer would make for such coverage if the plan of group-term life insurance for which this calculation is being made did not exist.

(c) In general, the portion of the net premium for group-term life insurance that should be apportioned to a key employee, other than a key employee to whom the method in subparagraph (d) of this answer is applicable, is determined by (1) calculating a "tabular" premium for the entire group (with the exception of all key employees to whom the method in subparagraph (d) of this answer is applicable), in the manner described below, (2) determining the ratio of the total actual net premium (less the actual cost allocated to key employees pursuant to the method of subparagraph (d) of this answer) to the total tabular premium and (3) multiplying the tabular premium for the key employee at his or her attained age by such ratio. Thus, if the total actual net premium is 125 percent of the total tabular premium for all covered employees and the tabular premium at the key employee's attained age is $2.00 per thousand per month, the cost of such employee would be $2.50 per thousand per month ($2.00 times 125 percent). For these purposes the table used to calculate tabular premiums will be determined as follows:

(i) If the group policy contains a reasonable table (based on recognized mortality assumptions) of premium rates on an attained age basis (which table may use age brackets not exceeding five years) with reference to which the group premium is determined, such table will be used;

(ii) If such table is not available, the 1960 Basic Group Table published by the Society of Actuaries will be used.

(d) In cases where the mortality charge for group-term life insurance coverage provided to a key employee is calculated separately by the insurer (for example, where the charge for the coverage provided to a key employee is based on a medical examination) and the amount of such mortality charge plus a proportionate share of the loading charge for the coverage provided to the group is higher than the amount that would be allocable to such employee under the allocation method in subparagraph (c) the cost of group-term life insurance coverage for the employee shall be that higher amount.

Q-7: Must all active and former employees be considered in applying the coverage tests in section 79(d)(3) to determine whether or not a plan of group-term life insurance is discriminatory with respect to coverage?

A-7: No. Generally, a plan of group-term life insurance which covers both active and former employees will not satisfy the nondiscrimination requirements of section 79(d) unless the coverage tests in section 79(d)(3) are satisfied with respect to both the active and the former employees of the employer, except to the extent they are excluded from tests for discrimination by application of the grandfather provisions set forth in Q&A 1. However, for purposes of determining whether a plan is discriminatory with respect to coverage, the coverage tests must be applied separately to active and former employees. In addition, if the plan limits participation by former employees to employees who retired from employment with the employer, then only retired employees must be considered in applying the coverage tests to former employees. Also, in applying the coverage tests in section 79(d)(3), the employer may make reasonable mortality assumptions regarding former employees who are not covered under the plan but must be considered in applying the coverage tests. Furthermore, only those former employees who terminated employment on or after the earliest date of termination from employment for any former employee covered by the plan must be considered. Finally, for purposes of determining whether a plan of group-term life insurance of the employer (or a successor employer) that was in existence on January 1, 1984 (or a comparable successor of such a plan) is discriminatory, after December 31, 1986, with respect to group-term life insurance coverage for former employees, coverge provided to employees who retired on or before December 31, 1986, shall not be taken into account.

Q-8: Will a group-term life insurance plan be considered discriminatory if active employees receive greater benefits as a percentage of compensation than former employees, or vice versa?

A-8: No. For purposes of determining whether a plan is discriminatory with respect to the type and amount of benefits available, insurance coverage for former employees must be tested separately from insurance coverage for active employees. For example, a group-term life insurance plan that provides group-term life insurance benefits equal to 200 percent of compensation for all active employees and 100 percent of final compensation (based on the average annual compensation for the final five years) for all former employees would satisfy the nondiscrimination requirements of section 79(d). However, a group-term life insurance plan that provides group-term life insurance benefits equal to 200 percent of compensation for all active employees and 100 percent of final compensation (based on the average annual compensation for the final five years) only for key employees who are no longer employed by the employer (or a successor employer) would not satisfy the nondiscrimnation requirement of section 79(d)(2)(A).

Q-9: Under what circumstances will the amount of benefits available under a plan of group-term life insurance be considered not to discriminate in favor of participants who are key employees?

A-9: A plan of group-term life insurance will be considered not to discriminate in favor of participants who are key employees, as to the amount of benefits available, if the plan provides a fixed amount of insurance which is the same for all covered employees. In other circumstances, the determination of whether a plan is nondiscriminatory will be based on all of the facts and circumstances. Such plans will be considered not to discriminate in favor of participants who are key employees, as to the amount of benefits available, if the plan contains no group of employees described in the following sentence that, if tested separately, would fail to satisfy the requirements of section 79(d)(2)(A). The group subject to separate testing under the preceding sentence consists of a key employee and all other participants (including other key employees) who receive, under the plan, an amount of insurance (as a multiple of compensation (either total compensation or the basic or regular rate of compensation)) that is equal to or greater than the amount of insurance received by such key employee. As described in Q&As 7&8, active and former employees are tested separately under section 79(d)(2)(A).

Example: Assume that a plan of group-term life insurance has 500 participants, 10 of whom are key employees. Under the plan, 400 of the non-key employees receive an amount of insurance equal to 100 percent of compensation, while all of the key employees and 90 of the non-key employees receive an amount of insurance equal to 200 percent of compensation. The plan will be considered not to discriminate in favor of the participants who are key employees because, tested separately, the group of participants receiving an amount of insurance equal to or greater than 200 percent of compensation would satisfy the requirements of section 79(d)(2)(A) (by reason of section 79(d)(3)(A)(ii)). If one of the key employees received an amount of insurance equal to 300 percent of compensation, the plan would be considered to discriminate in favor of participants who are key employees, because, tested separately, the group consisting of the single key employee receiving an amount of insurance equal to or greater than 300 percent of compensation would fail to satisfy the requirements of section 79(d)(2)(A).

In determining the groups of employees that are tested separately for this purpose, allowance shall be made for reasonable differences in amount of insurance (as a multiple of compensation) due to rounding, the use of compensation brackets or other similar factors. Thus, if a plan bases group-term life insurance coverage on "compensation brackets," it is not intended that any participants will be treated as receiving an amount of insurance (as a multiple of compensation) that is greater (or less) than that of any other participant merely because the first participant's compensation is at the lower (or higher) end of a compensation bracket while the second participant's compensation is at the higher (or lower) end of a compensation bracket. However, any compensation brackets utilized by a plan will be examined to determine if the brackets, or compensation groupings, result in discrimination in favor of key employees. In addition, a plan does not meet the requirements for nondiscrimination as to the type and amount of benefits available under the plan unless all types of benefits (including permanent benefits) and all terms and conditions with respect to such benefits which are available to any participant who is a key employee are also available on a nondiscriminatory basis to non-key employee participants.

Q-10: How is additional coverage

purchased by employees under a plan of group-term life insurance treated for purposes of determining whether a plan of group-term life insurance is discriminatory?

A-10: (a) The extent to which employees purchase additional coverage under a plan of group-term life insurance is not taken into account for purposes of determining whether a plan of group-term life insurance is discriminatory. For example, a plan providing insurance to all employees of 1 times annual compensation, which gives all employees the option to purchase additional insurance of 1 times annual compensation at their own expense, would not be considered discriminatory as to the type and amount of benefits available, even if the group (or groups) of participants who purchase additional insurance, if tested separately, would not satisfy the requirements of section 79(d)(2)(A). Solely for this purpose, the choice of an amount of group-term life insurance as a benefit under a cafeteria plan will be treated as the purchase of group-term life insurance by an employee. If additional insurance coverage is available to any key employee that is not available, on a nondiscriminatory basis, to non-key employees, the plan will be considered discriminatory, even if the full cost of such additional insurance coverage is paid by the employee(s) electing such benefits.

(b) If the employer bears a part of the expense of any additional coverage that is purchased by an employee under a plan of group-term life insurance, the additional insurance shall be treated, in part, as an amount of insurance provided by the employer under the plan and, in part, as an amount of insurance purchased by the employee. Except to the extent provided in subparagraph (a) above, the portion of insurance treated as an amount of insurance purchased by the employee is not taken into account for purposes of determining whether the plan is discriminatory. Whether such insurance (together with any other insurance provided by the employer under the plan) will cause the plan to be considered to discriminate in favor of participants who are key employees is determined under the rules of Q&A 9.

Q-11: What effect do the provisions of section 79(d)(1) have if a plan of group-term life insurance is discriminatory for only part of a year?

A-11: If a plan of group-term life insurance is discriminatory at any time during the key employee's taxable year, then it is a discriminatory group-term life insurance plan for that taxable year and the provisions of section 79(d)(1) will be applicable with respect to all group-term life insurance costs allocable to that employee for that year.

Q-12: Are the section 79(d) provisions independent from the requirements contained in Treas. Reg. §1.79-1?

A-12: Yes. Treas. Reg. §1.79-1(c)(1) provides that life insurance provided to a group of employees cannot qualify as group-term life insurance if it is provided to less than ten full-time employees unless certain requirements are satisfied. The satisfaction of these requirements does not guarantee that the plan will be nondiscriminatory, and vice versa. Treas. Reg. §1.79-1(a)(4) provides that life insurance is not group-term life insurance unless the amount of insurance provided to each employee is computed under a formula that precludes individual selection. The mere fact that a life insurance policy is nondiscriminatory is not determinative as to whether the policy precludes individual selection, and vice versa.

Par. 4. The following section is added immediately after §1.125-1:

§1.125-2T Question and answer relating to the benefits that may be offered under a cafeteria plan. (Temporary)

Q-1: What benefits may be offered to participants under a cafeteria plan?

A-1: (a) Generally, for cafeteria plan years beginning on or after January 1, 1985, a cafeteria plan is a written plan under which participants may choose among two or more benefits consisting of cash and certain other permissible benefits. In general, benefits that are excludable from the gross income of an employee under a specific section of the Internal Revenue Code may be offered under a cafeteria plan. However, scholarships and fellowships under section 117, vanpooling under section 124, educational assistance under section 127 and certain fringe benefits under section 132 may not be offered under a cafeteria plan. In addition, meals and lodging under section 119, because they are furnished for the convenience of the employer and thus are not elective in lieu of other benefits or compensation provided by the employer, may not be offered under a cafeteria plan. Thus, a cafeteria plan may offer coverage under a group-term life insurance plan of up to $50,000 (section 79), coverage under an accident or health plan (sections 105 and 106), coverage under a qualified group legal services plan (section 120), coverage under a dependent care assistance program (section 129), and participation is a qualified cash or deferred arrangement that is part of a profit-sharing or stock bonus plan (section 401(k)). In addition, a cafeteria plan may offer group-term life insurance coverage which is includible in gross income only because it is in excess of $50,000 or is on the lives of the participant's spouse and/or children. In addition, a cafeteria plan may offer participants the opportunity to purchase, with after-tax employee contributions, coverage under a group-term life insurance plan (section 79), coverage under an accident or health plan (section 105(e)), coverage under a qualified group legal services plan (section 120), or coverage under a dependent care assistance program (section 129). Finally, a cafeteria plan may offer paid vacation days if the plan precludes any participant from using, or receiving cash for, in a subsequent plan year, any of such paid vacation days remaining unused as of the end of the plan year. For purposes of the preceding sentence, elective vacation days provided under a cafeteria plan are not considered to be used until all nonelective paid vacation days have been used.

(b) Note that benefits that may be offered under a cafeteria plan may or may not be taxable depending upon whether such benefits qualify for an exclusion from gross income. However, a cafeteria plan may not offer a benefit that is taxable because such benefit fails to satisfy any applicable eligibility, coverage, or nondiscrimination requirement. Similiarly, a plan may not offer a benefit for purchase with after-tax employee contributions if such benefit would fail to satisfy any eligibility, coverage, or nondiscrimination requirement that would apply if such benefit were designed to be provided on a nontaxable basis with employer contributions. Also, note that section 125(d)(2) provides that a cafeteria plan may not offer a benefit that defers the receipt of compensation (other than the opportunity to make elective contributions under a qualified cash or deferred arrangement) and may not operate in a manner that enables participants to defer the receipt of compensation.

Par. 5. The following new section is added immediately after §1.132-1T:

§1.133-1T. Questions and answers relating to interest on certain loans used to acquire employer securities. (Temporary)

Q-1: What does section 133 provide?

A-1: In general, section 133 provides that certain commercial lenders may exclude from gross income fifty percent of the interest received with respect to securities acquisition loans. A securities acquisition loan is any loan to an employee stock ownership plan (ESOP) (as defined in section 4975(e)(7)) that qualifies as an exempt loan underr §54.4975-7 and 11 to the extent that the proceeds are used to acquire employer securities (within the meaning of section 409(l)) for the ESOP. A loan made to a corporation sponsoring an ESOP (or to a person related to such corporation under section 133(b)(2)) may also qualify as a securities acquisition loan to the extent and for the period that the proceeds are (a) loaned to the corporation's ESOP under a loan that qualifies as an exempt loan under §54.4975-7 and -11 and that has substantially similar terms as the loan from the commercial lender to the sponsoring corporation, and (b) used to acquire employer securities for the ESOP. The terms of the loan between the commercial lender and the sponsoring corporation (or a related corporation) and the loan between such corporation and the ESOP shall be treated as substantially similar only if the timing and rate at which employer securities would be released from encumbrance if the loan from the commercial lender were the exempt loan under the applicable rule of §54.4975-7(b)(8) are substantially similar to the timing and rate at which employer securities will actually be released from encumbrance in accordance with such rule. For this purpose, if the loan from the commercial lender to the sponsoring corporation states a variable rate of interest and the loan between the corporation and the ESOP states a fixed rate of interest, whether the terms of the loans are substantially similar shall be determined at the time the obligations are initially issued by taking into account the adjustment interval on the variable rate loan and the maturity of the fixed rate loan. For example, if the rate on the loan from the commercial lender to the sponsoring corporation adjusts each six months and the loan from the corporation to the ESOP has a ten year term, the initial interest rate on the variable rate loan could be compared to the rate on the fixed rate loan by comparing the yields on 6 month and ten year Treasury obligations. Similarly, if the rates on the two loans are based on different compounding assumptions, whether the terms of the loans are substantially similar shall be determined by taking into account the different compounding assumptions. A securities acquisition loan may be evidenced by any note, bond, debenture, or certificate. Also, section 133(b)(2) provides that certain loans between related persons are not securities acquisition loans. In addition, a loan from a commercial lender to an ESOP or sponsoring corporation to purchase employer securities will not be treated as a securities acquisition loan to the extent that such loan is used, either directly or indirectly, to purchase employer securities from any other qualified plan, including any other ESOP, maintained by the employer or any other corporation which is a member of the same controlled group (as defined in section 409(l)(4)).

Q-2: What lenders are eligible to receive the fifty percent interest exclusion?

A-2: Under section 133(a), a bank (within the meaning of section 581), an insurance company to which subchapter L applies, or a corporation (other than a subchapter S corporation) actively engaged in the business of lending money may exclude from gross income fifty percent of the interest received with respect to a securities acquisition loan (as defined in Q&A-1 of §1.133-1T). For purposes of section 133(a)(3), a corporation is actively engaged in the business of lending money if it lends money to the public on a regular and continuing basis (other than in connection with the purchase by the public of goods and services from the lender or a related party). A corporation is not actively engaged in the business of lending money if a predominant share of the original value of the loans it makes to unrelated parties (other than in connection with the purchase by the public of goods and services from the lender or a related party) are securities acquisition loans.

Q-3: May loans which qualify for the fifty percent interest exclusion under section 133 be syndicated to other lending institutions?

A-3: Securities acquisition loans under section 133 may be syndicated to other lending institutions provided that such lending institutions are described in section 133(a)(1), (2) or (3) and the loan was originated by a qualified holder. Subsequent holders of the debt instrument may qualify for the partial interest exclusion of section 133 if such holders satisfy the requirements of section 133 and such loan does not fail to be a securities acquisition loan under section 133(b)(2).

Q-4: When is section 133 effective?

A-4: Section 133 applies to securities acquisition loans made after July 18, 1984, and used to acquire employer securities after July 18, 1984. The provision does not apply to loans made after July 18, 1984, to the extent that such loans are renegotiations, directly or indirectly, of loans outstanding on such date. A loan extended to an ESOP or sponsoring corporation after July 18, 1984, will be treated as a renegotiation of an outstanding loan if the loan proceeds are used to refinance acquisitions of employer securities made prior to July 19, 1984. For example, if an ESOP borrowed money prior to July 19, 1984, to purchase employer securities and after July 18, 1984, borrows other funds from the same or a different commercial lender to repay the first loan, the second loan will be treated as a renegotiation of an outstanding loan to the extent of the repaid amount. Similarly, if, after July 18, 1984, an ESOP sells employer securities, uses the proceeds to retire a pre-July 19, 1984, loan and obtains a second loan to acquire replacement employer securities, the second loan will be treated as a renegotiation of an outstanding loan.

Par. 6. The following new section is added immediately after §1.162-10:

§1.162-10T Questions aand answers relating to the deduction of employee benefits under the Tax Reform Act of 1984; certain limits on amounts deductible. (Temporary)

Q-1: How does the amendment of section 404(b) by the Tax Reform Act of 1984 affect the deduction of employee benefits under section 162 of the Internal Revenue Code?

A-1: As amended by the Tax Reform Act of 1984, section 404(b) clarifies that section 404(a) and (d) (in the case of employees and nonemployees, respectively) shall govern the deduction of contributions paid or compensation paid or incurred under a plan, or method or arrangement, deferring the receipt of compensation or providing for deferred benefits. Section 404(a) and (d) requires that such a contribution or compensation be paid or incurred for purposes of section 162 or 212 and satisfy the requirements for deductibility under either of these sections. However, notwithstanding the above, section 404 does not apply to contributions paid or accrued with respect to a "welfare benefit fund" (as defined in section 419(e)) after July 18, 1984, in taxable years of employers (and payors) ending after that date. Also, section 463 shall govern the deduction of vacation pay by a taxpayer that has elected the application of such section. Section 404(b), as amended, generally applies to contributions paid and compensation paid or incurred after July 18, 1984, in taxable years of employers (and payors) ending after that date. See Q&A-3 of §1.404(b)-1T. For rules relating to the deduction of contributions attributable to the provision of deferred benefits, see section 404(a), (b) and (d) and §1.404(a)-1T, §1.404(b)-1T and §1.404(d)-1T. For rules relating to the deduction of contributions paid or accrued with respect to a welfare benefit fund, see section 419, §1.419-1T and §1.419A-2T. For rules relating to the deduction of vacation pay for which an election is made under section 463, see §10.2 of this chapter and §1.463-1T.

Q-2: How does the enactment of section 419 by the Tax Reform Act of 1984 affect the deduction of employee benefits under section 162?

A-2: As enacted by the Tax Reform Act of 1984, section 419 shall govern the deduction of contributions paid or accrued by an employer (or a person receiving services under section 419(g)) with respect to a "welfare benefit fund" (within the meaning of section 419(e)) after December 31, 1985, in taxable years of the employer (or person receiving the services) ending after that date. Section 419)(a) requires that such a contribution be paid or accrued for purposes of section 162 or 212 and satisfy the requirements for deductibility under either of those sections. Generally, subject to a binding contract exception (as described in section 511(e)(5) of the Tax Reform Act of 1984), section 419 shall also govern the deduction of the contribution of a facility (or other contribution used to acquire or improve a facility) to a welfare benefit fund after June 22, 1984. See Q&A-11 of §1.419-1T. In the case of a welfare benefit fund maintained pursuant to a collective bargaining agreement, section 419 applies to the extent provided under the special effective date rule described in Q&A-2 of §1.419-1T and the special rules of §1.419-2T. For rules relating to the deduction of contributions paid or accrued with respect to a welfare benefit fund, see section 419 and §1.419-1T.

Par. 7. The following new section is added after §1.402(a)-1 to read as follows:

§1.402(a)(5)-1T Rollovers of partial distributions from qualified trusts and annuities. (Temporary)

Q-1: Can an employee or the surviving spouse of a deceased employee roll over to an individual retirement account or annuity, described in section 408(a) or (b), the taxable portion of a partial distribution from a qualified trust described in section 401(a), a qualified plan described in section 403(a), or a tax-sheltered annuity contract under section 403(b)?

A-1: Yes. For distributions made after July 18, 1984, the taxable portion of a partial distribution may be rolled over within 60 days of the distribution to an individual retirement account or annuity.

Q-2: Are there special requirements applicable to roll-overs of partial distributions?

A-2: Yes. Section 402(a)(5)(D)(i) specifies that no part of a partial distribution may be rolled over unless the distribution is equal to at least 50 percent of the balance to the credit of the employee in the contract or plan immediately before the distribution, and the distribution is not one of a series of periodic payments. For purposes of this section, the balance to the credit of an employee does not include any accumulated deductible employee contributions (within the meaning of section 72(o)). In addition, in calculating the balance to the credit for purposes of the 50 percent test, qualified plans are not to be aggregated with other qualified plans and tax-sheltered annuity contracts are not to be aggregated with other tax-sheltered annuity contracts. Also, in applying the 50 percent test to a surviving spouse, the balance to the credit is the maximum amount the spouse is entitled to receive under the plan or contract, rather than the total balance to the credit of the employee. The rollover of a partial distribution may result in adverse tax consequences; see section 402(a)(5)(D)(iii) and (iv).

Q-3: Are there any other requirements applicable to rollovers of partial distribution?

A-3: Yes. Section 402(a)(5)(i)(III) requires the employee to elect, in conformance with Treasury regulations, to treat a contribution of a partial distribution to an IRA as a rollover contribution. An election is made by designating, in writing, to the trustee or issuer of the IRA at the time of the contribution that the contribution is to be treated as a rollover contribution. This requirement of a written designation to the trustee or issuer of the IRA is effective for contributions paid to the trustee or issuer of the IRA after March 20, 1986. For contributions paid to the trustee or issuer before March 21, 1986, an election is made by computing the individual's income tax liability on the income tax return for the taxable year in which the distribution occurs in a manner consistent with not including the distribution (or portion thereof) in gross income. Both such elections are irrevocable, except that an election made on an income tax return filed before March 21, 1986 is revocable.

Q-4: Does the election requirement apply to rollovers of qualified total distributions or rollover contributions described in section 402(a)(5) or (7), 403(a)(4), 403(b)(8), 405(d)(3), or 408(d)(3) to individual retirement accounts and annuities (IRAs)?

A-4: Yes. No amounts may be treated as a rollover contribution to an

IRA under section 402(a)(5), 402(a)(7), 403(a)(4), 403(b)(8), 405(d)(3) (as amended by section 491(c) of the TRA of 1984), or 408(d)(3) unless the requirements described in Q & A-3 of this section are satisfied. Thus, once any portion of a total distribution is irrevocably designated as a rollover contribution, such distribution is not taxable under section 402 or 403 and, therefore, is not eligible for the special capital gains and separate tax treatment under section 402(a) and (e). Election requirements for rollover contributions to IRAs described in this Q&A-4 are subject to the same effective date rules set forth in Q&A-3.

Par. 8. The following new section is added immediately after §1.404(a)-1:

§1.404(a)-1(T) Questions and answers relating to deductibility of deferred compensation and deferred benefits for employees. (Temporary)

Q-1: How does the amendment of section 404(b) by the Tax Reform Act of 1984 affect the deduction of contributions or compensation under section 404(a)?

A-1: As amended by the Tax Reform Act of 1984, section 404(b) clarifies that section 404(a) shall govern the deduction of contributions paid and compensation paid or incurred by the employer under a plan, or method or arrangement, deferring the receipt of compensation or providing for deferred benefits to employees, their spouses, or their dependents. See section 404(b) and §1.404(b)-1T. Section 404(a) and (d) requires that such a contribution or compensation be paid or incurred for purposes of section 162 or 212 and satisfy the requirements for deductibility under either of those sections. However, notwithstanding the above, section 404 does not apply to contributions paid or accrued with respect to a "welfare benefit fund" (as defined in section 419(e)) after July 18, 1984, in taxable years of employers (and payors) ending after that date. Also, section 463 shall govern the deduction of vacation pay by a taxpayer that has elected the application of such section. For rules relating to the deduction of contributions paid or accrued with respect to a welfare benefit fund, see section 419, §1.419-1T and §1.419A-2T. For rules relating to the deduction of vacation pay for which an election is made under section 463, see §10.2 of this chapter and §1.463-1T.

Par. 9. The following new section is added after §1.404(a)-8 to read as follows:

§1.404(a)(8)-1T Deductions for plan contributions on behalf of self-employed individuals. (Temporary)

Q: How does the amendment to section 404(a)(8)(D), made by section 713(d)(6) of the Tax Reform Act of 1984 (TRA of 1984), affect section 404(a)(8)(C)?

A: In applying the rules of section 404(a)(8)(C), the Service will treat the amendment to section 404(a)(8)(D) as also having been made to section 404(a)(8)(C), pending enactment of technical corrections to TRA of 1984. The effect of treating the amendments as having also been made to section 404(a)(8)(C) is to increase the amount of contributions on behalf of a self-employed individual that will be treated as satisfying section 162 or 212. Generally, therefore, a contribution on behalf of a self-employed individual is treated as satisfying section 162 or 212 if it is not in excess of the individual's earned income for the year, determined without regard to the deduction allowed by section 404 for the self-employed individual's contribution.

Par. 10. The following new section is added immediately after §1.404(b)-1:

§1.404(b)-1T Method or arrangement of contributions, etc., deferring the receipt of compensation or providing for deferred benefits. (Temporary)

Q-1: As amended by the Tax Reform Act of 1984, what does section 404(b) of the Internal Revenue Code provide?

A-1: As amended, section 404(b) clarifies that any plan, or method of arrangement, deferring the receipt of compensation or providing for deferred benefits (other than compensation) is to be treated as a plan deferring the receipt of compensation for purposes of section 404(a) and (d). Accordingly, section 404(a) and (d) (in the case of employees and nonemployees, respectively) shall govern the deduction of contributions paid or compensation paid or incurred with respect to such a plan, or method or arrangement. Section 404(a) and (d) requires that such a contribution or compensation be paid or incurred for purposes of section 162 or 212 and satisfy the requirements for deductibility under either of those sections. Thus, for example, under section 404(a)(5) and (b), if otherwise deductible under section 162 or 212, a contribution paid or incurred with respect to a nonqualified plan, or method or arrangement, providing for deferred benefits is deductible in the taxable year of the employer in which or with which ends the taxable year of the employee in which the amount attrributable to the contribution is includible in the gross income of the employee (without regard to any applicable exclusion under Chapter 1, Subtitle A, of the Internal Revenue Code). Section 404(a) and (d) applies to all compensation and benefit plans, or methods or arrangements, however denominated, which defer the receipt of any amount of compensation or benefit, including fees or other payments. Thus, a limited partnership (using the accrual method of accounting) may not accrue deductions for a fee owed to an unrelated person (using the cash method of accounting) who performs services for the partnership until the partnership taxable year in which or within which ends the taxable year of the service provider in which the fee is included in income. However, notwithstanding the above, section 404 does not apply to contributions paid or accrued with respect to a "welfare benefit fund" (as defined in section 419(e)) after July 18, 1984, in taxable years of employers (and payors) ending after that date. Also, section 463 shall govern the deduction of vacation pay by a taxpayer that has elected the application of such section. For rules relating to the deduction of contributions paid or accrued with respect to a welfare benefit fund, see section 419, §1.419-T and §1.419A-2T. For rules relating to the deduction of vacation pay for which an election is made under section 463, see §10.2 of this chapter and §1.463-1T.

Q-2: When does a plan, or method or arrangement, defer the receipt of compensation or benefits for purposes of section 404(a), (b), and (d)?

A-2: (a) For purposes of section 404(a), (b), and (d), a plan, or method or arrangement, defers the receipt of compensation or benefits to the extent it is one under which an employee receives compensation or benefits more than a brief period of time after the end of the employer's taxable year in which the services creating the right to such compensation or benefits are performed. The determination of whether a plan, or method or arrangement, defers the receipts of compensation or benefits is made separately with respect to each employee and each amount of compensation or benefit. Compensation or benefits received by an employee's spouse or dependent or any other person, but taxable to the employee, are treated as received by the employee for purposes of section 404. An employee is determined to receive compensation or benefits within or beyond a brief period of time after the end of the employer's taxable year under the rules provided in this Q&A. For the treatment of expenses with respect to transactions between related taxpayers, see section 267.

(b)(1) A plan, or method or arrangement, shall be presumed to be one deferring the receipt of compensation for more than a brief period of time after the end of an employer's taxable year to the extent that compensation is received after the 15th day of the 3rd calendar month after the end of the employer's taxable year in which the related services are rendered ("the 2½ month period"). Thus, for example, salary under an employment contract or a bonus under a year-end bonus declaration is presumed to be paid under a plan, or method or arrangement, deferring the receipt of compensation, to the extent that the salary or bonus is received beyond the applicable 2½ month period. Further, salary or a year-end bonus received beyond the applicable 2½ month period by one employee shall be presumed to constitute payment under a plan, or method or arrangement, deferring the receipt of compensation for such employee even though salary or bonus payments to all other employees are not similarly treated because they are received within the 2½ month period. Benefits are "deferred benefits" if, assuming the benefits were cash compensation, such benefits would be considered deferred compensation. Thus, a plan, or method or arrangement, shall be presumed to be one providing for deferred benefits to the extent benefits for services are received by an employee after the 2½ month period following the end of the employer's taxable year in which the related services are rendered.

(2) The taxpayer may rebut the presumption established under the previous subparagraph with respect to an amount of compensation or benefits only by setting forth facts and circumstances the preponderance of which demonstrates that it was impracticable, either administratively or economically, to avoid the deferral of the receipt by an employee of the amount of compensation or benefits beyond the applicable 2½ month period and that, as of the end of the employer's taxable year such impracticability was unforeseeable. For example, the presumption may be rebutted with respect to an amount of compensation to the extent that receipt of such amount is deferred beyond the applicable 2½ month period (i) either because the funds of the employer were not sufficient to make the payment within the 2½ month period without jeopardizing the solvency of the employer or because it was not reasonably possible to determine within the 2½ month period whether payment of such amount was to be made, and (ii) the circumstance causing the deferral described in (i) was unforeseeable as of the close of the employer's taxable year. Thus, the presumption with respect to the receipt of an amount of compensation or benefit is not rebutted to the extent it was foreseeable, as of the end of the employer's taxable year, that the amount would be received after the applicable 2½ month period. For example, if, as of the end of the employer's taxable year, it is foreseeable that calculation of a year-end bonus to be paid to an employee under a given formula will not be completed and thus the bonus will not be received (and is in fact not received) by the end of the applicable 2½ month period, the presumption that the bonus is deferred compensation is not rebutted.

(c) A plan, or method or arrangement, shall not be considered as deferring the receipt of compensation or benefits for more than a brief period of time after the end of the employer's taxable year to the extent that compensation or benefits are received by the employee on or before the end of the applicable 2½ month period. Thus, for example, salary under an employment contract or a bonus under a year-end bonus declaration is not considered paid under a plan, or method or arrangement, deferring the receipt of compensation to the extent that such salary or bonus is received by the employee on or before the end of the applicable 2½ month period.

(d) Solely for purposes of applying the rules of paragraphs (b) and (c) of this Q&A, in the case of an employer's taxable year ending on or after July 18, 1984, and on or before March 21, 1986, compensation or benefits that relate to services rendered in such taxable year shall be deemed to have been received within the applicable 2½ month period if such receipt actually occurs after such 2½ month period but on or before March 21, 1986.

Q-3: When does section 404(b), as amended by the Tax Reform Act of 1984, become effective?

A-3: With the exceptions discussed below, section 404(b), as amended, and the rules under Q&A-2 are effective with respect to amounts paid or incurred after July 18, 1984, in taxable years of employers (and payors) ending after that date. In the case of an extended vacation pay plan maintained pursuant to a collective bargaining agreement (i) between employee representatives and one or more employers, and (ii) in effect on June 22, 1984, section 404(b) is not effective before the date on which such collective bargaining agreement terminates (determined without regard to any extension thereof agreed to after June 22, 1984). For purposes of the preceding sentence, any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added under section 512 of the Tax Reform Act of 1984 shall not be treated as a termination of such collective bargaining agreement. For purposes of this section, an "extended vacation pay plan" is one under which covered employees gradually over a specified period of years earn the right to additional vacation benefits, no part of which, under the terms of the plan, can be taken until the end of the specified period.

Par. 11. Section 1.404(d)-1 is removed and the following new section is added in its place.

§1.404(d)-1T Questions and answers relating to deductibility of deferred compensation and deferred benefits for independent contractors. (Temporary)

Q-1: How does the amendment of section 404(b) by the Tax Reform Act of 1984 affect the deduction of contributions or compensation under section 404(d)?

A-1: As amended by the Tax Reform Act of 1984, section 404(b) clarifies that section 404(d) shall govern the deduction of contributions paid and compensation paid or incurred by a payor under a plan, or method or arrangement, deferring benefits for service providers with respect to which there is no employer-employee relationship. In such a case, section 404(a) and (b) and the regulations thereunder apply as if the person providing the services were the employee and the person to whom the services are provided were the employer. Section 404(a) requires that such a contribution or compensation be paid or incurred for purposes of section 162 or 212 and satisfy the requirements for deductibility under either of those sections. However, notwithstanding the above, section 404 does not apply to contributions paid or accrued with respect to a "welfare benefit fund" (as defined in section 419(e)) after June 18, 1984, in taxable years of employers (and payors) ending after the date. Also, section 463 shall govern the deduction of vacation pay by a taxpayer that has elected under such section. For rules relating to the deduction of contributions paid or accrued with respect to a welfare benefit fund, see section 419, §1.419-1T and §1.419A-2T. For rules relating to the deduction of vacation pay for which an election is made under section 463, see §10.2 of this chapter and §1.463-1T.

Par. 12. The following new section is added immediately after §1.404(e)-1A:

§1.404(k)-1T Questions and answers relating to the deductibility of certain dividend distributions. (Temporary)

Q-1: What does section 404(k) provide?

A-1: Section 404(k) allows a corporation a deduction for dividends actually paid in accordance with section 404(k)(2) with respect to stock of such corporation held by an employee stock ownership plan (as defined in section 4975(e)(7)) maintained by the corporation (or by any other corporation that is a member of a "controlled group of corporations" within the meaning of section 409(l)(4) that includes the corporation), but only if such dividends may be immediately distributed under the terms of the plan and all of the applicable qualification and distribution rules. The deduction is allowed under section 404(k) for the taxable year of the corporation during which the dividends are received by the participants.

Q-2: Is the deductibility of dividends paid to plan participants under section 404(k) affected by a plan provision which permits participants to elect to receive or not receive payment of dividends?

A-2: No. Dividends actually paid in cash to plan participants in accordance with section 404(k) are deductible under section 404(k) despite such an election provision.

Q-3: Are dividends paid in cash directly to plan participants by the corporation and dividends paid to the plan and then distributed in cash to plan participants under section 404(k) treated as distributions under the plan holding stock to which the dividends relate for purposes of sections 72, 401 and 402?

A-3 Generally, yes. However, a deductible dividend under section 404(k) is treated for purposes of section 72 as paid under a contract separate from any other contract that is part of the plan. Thus, a deductible dividend is treated as a plan distribution and as paid under a separate contract providing only for payment of deductible dividends. Therefore, a deductible dividend under section 404(k) is a taxable plan distribution even though an employee has unrecovered employee contributions or basis in the plan.

Par. 13. A new §1.419-1T is added immediately following §1.417(e)-1T to read as follows:

§1.419-1T Treatment of welfare benefit funds. (Temporary)

Q-1: What does section 419 of the Internal Revenue Code provide?

A-1: Section 419 prescribes limitations upon deductions for contributions paid or accrued with respect to a welfare benefit fund. Under section 419(a) and (b), an employer's contributions to a welfare benefit fund are not deductible under section 162 (relating to trade or business expenses) or section 212 (relating to expenses for production of income) but, if the requirements of section 162 or 212 are otherwise met, are deductible under section 419 for the taxable year of the employer in which paid to the extent of the welfare benefit fund's qualified cost (within the meaning of section 419(c)(1)) for the taxable year of the fund that relates to such taxable year of the employer. Under section 419(g), section 419 and this section shall also apply to the deduction by a taxpayer of contributions with respect to a fund that would be a welfare benefit fund but for the fact that there is no employer-employee relationship between the person providing the services and the person for whom the services are provided. Contributions paid to a welfare benefit fund after section 419 becomes effective with respect to such contributions are deemed to relate, first, to amounts accrued and deducted (but not paid) by the employer with respect to such fund before section 419 becomes effective with respect to such contributions and thus shall not be treated as satisfying the payment requirement of section 419. See paragraph (b) of Q&A-5 for special deduction limits applicable to employer contributions to welfare benefit funds with excess reserves.

Q-2: When do the deducton rules of section 419, as enacted by the Tax Reform Act of 1984, become effective?

A-2: (a) Section 419 generally applies to contributions paid or accrued with respect to a welfare benefit fund after December 31, 1985, in taxable years of employers ending after that date. See Q&A-9 of this regulation for special rules relating to the deduction limit for the first taxable year of a fiscal year employer ending after December 31, 1985.

(b) In the case of a welfare benefit fund which is part of a plan maintained pursuant to one or more collective bargaining agreements (a) between employee representatives and one or more employers, and (b) that are in effect on July 1, 1985 (or ratified on or before such date), section 419 shall not apply to contributions paid or accrued in taxable years beginning before the termination of the last of the collective bargaining agreements pursuant to which the plan is maintained (determined without regard to any extension thereof agreed to after July 1, 1985). For purposes of the preceding sentence, any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added under section 511 of the Tax Reform Act of 1984 (i.e., requirements under section 419, 419A, 512(a)(3)(E), and 4976) shall not be treated as a termination of such collective bargaining agreement. See §1.419A-2T for special rules relating to the application of section 419 to collectively bargained welfare benefit funds.

(c) Notwithstanding paragraphs (a) and (b), section 419 applies to any contribution of a facility to a welfare benefit fund (or other contribution, such as cash, which is used to acquire, construct, or improve such a facility) after June 22, 1984, unless such facility is placed in service by the fund before January 1, 1987, and either (a) is acquired or improved by the fund (or contributed to the fund) pursuant to a binding contract in effect on June 22, 1984, and at all times thereafter, or (b) the construction of which was begun by or for the welfare benefit fund before June 22, 1984. See Q&A-11 of this regulation for special rules relating to the application of section 419 to the contribution of a facility to a welfare benefit fund (and to the contribution of other amounts, such as cash, used to acquire, construct, or improve such a facility) before section 419 generally becomes effective with respect to contributions to the fund.

Q-3. What is a "welfare benefit fund" under section 419?

A-3. (a) A "welfare benefit fund" is any fund which is part of a plan, or method or arrangement, of an employer and through which the employer provides welfare benefits to employees or their beneficiaries. For purposes of this section, the term "welfare benefit" includes any benefit other than a benefit with respect to which the employer's deduction is governed by section 83(h), section 404 (determined without regard to section 404(b)(2)), section 404A, or secition 463.

(b) Under section 419(e)(3)(A) and (B), the term "fund" includes any organization described in section 501(c)(7), (9), (17) or (20), and any trust, corporation, or other organization not exempt from tax imposed by chapter 1, subtitle A, of the Internal Revenue Code. Thus, a taxable trust or taxable corporation that is maintained for the purpose of providing welfare benefits to an employer's employees is a "welfare benefit fund."

(c) Section 419 (e)(3)(C) also provides that the term "fund" includes, to the extent provided in regulations, any account held for an employer by any person. Pending the issuance of further guidance, only the following accounts, and arrangements that effectively constitute accounts, as described below, are "funds" within section 419(e)(3)(C). A retired lives reserve or a premium stabilization reserve maintained by an insurance company is a "fund," or part of a "fund," if it is maintained for a particular employer and the employer has the right to have any amount in the reserve applied against its future years' benefit costs or insurance premiums. Also, if an employer makes a payment to an insurance company under an "administrative services only" arrangement with respect to which the life insurance company maintains a separate account to provide benefits, then the arrangement would be considered to be a "fund." Finally, an insurance or premium arrangement between an employer and an insurance company is a "fund" if, under the arrangement, the employer has a right to a refund, credit, or additional benefits (including upon termination of the arrangement) based on the benefit or claims experience, administrative cost experience, or investment experience attributable to such employer for such year or years. However, an arrangement with an insurance company is not a "fund" under the previous sentence merely because the employer's premium for a renewal year reflects the employer's own experience for an earlier year if the arrangement is both cancellable by the insurance company and cancellable by the employer as of the end of any policy year and, upon cancellation by either of the parties, neither of the parties can receive a refund or additional amounts or benefits and neither of the parties can incur a residual liability beyond the end of the policy year (other than, in the case of the insurer, to provide benefits with respect to claims incurred before cancellation). The determination whether either of the parties can receive a refund or additional amounts or benefits or can incur a residual liability upon cancellation of an arrangement will be made by examining both the contractual rights and obligations of the parties under the arrangement and the actual practice of the insurance company (and other insurance companies) with respect to other employers upon cancellation of similar arrangements. Similarly, a disability income policy does not constitute a "fund" under the preceding provisions merely because, under the policy, an employer pays an annual premium so that employees who became disabled in such year may receive benefit payments for the duration of the disability.

Q-4: For purposes of determining the section 419 limit on the employer's deduction for contributions to the fund for a taxable year of the employer, which taxable year of the welfare benefit fund is related to the taxable year of the employer?

A-4: The amount of an employer's deduction for contributions to a welfare benefit fund for a taxable year of the employer is limited to the "qualified cost" of the welfare benefit fund for the taxable year of the fund that is related to such taxable year of the employer. The taxable year of the welfare benefit fund that ends with or within the taxable year of the employer is the taxable year of the fund that is related to the taxable year of the employer. Thus, for example, if an employer has a calendar taxable year and it makes contributions to a fund having a taxable year ending June 30, the "qualified cost" of the fund for the taxable year of the fund ending on June 30, 1986, applies to limit the employer's deduction for contributions to the fund in the employer's 1986 taxable year. In the case of employer contributions paid directly to an account or arrangement with an insurance company that is treated as a welfare benefit fund for the purposes of section 419, the policy year will be treated as the taxable year of the fund. See Q&A-7 of this regulation for special section 419 rules relating to the coordination of taxable years for the taxable year of the employer in which a welfare benefit fund is established and for the next following taxable year of the employer.

Q-5: What is the "qualified cost" of a welfare benefit fund for a taxable year under section 419?

A-5: (a) Under section 419(c), the

"qualified cost" of a welfare benefit fund for a taxable year of the fund is the sum of (1) the "qualified direct cost" of such fund for such taxable year of the fund, and (2) the amount that may be added to the qualified asset account for such taxable year of the fund to the extent that such addition does not result in a total amount in such account as of the end of such taxable year of the fund that exceeds the applicable account limit under section 419A(c). However, in calculating the qualified cost of a welfare benefit fund for a taxable year of the fund, this sum is reduced by the fund's "after-tax income" (as defined in section 419(c)(4)) for such taxable year of the fund. Also, the qualified cost of a welfare benefit fund is reduced further under the provisions of paragraph (b) of this Q&A.

(b)(1) Pursuant to section 419A(i), notwithstanding section 419 and §1.419-1T, contributions to a welfare benefit fund during any taxable year of the employer beginning after December 31, 1985, shall not be deductible for such taxable year to the extent that such contributions result in the total amount in the fund as of the end of the last taxable year of the fund ending with or within such taxable year of the employer exceeding the account limit applicable to such taxable year of the fund (as adjusted under section 419A(f)(7)). Solely for purposes of this subparagraph, (i) contributions paid to a welfare benefit fund during the taxable year of the employer but after the end of the last taxable year of the fund that relates to such taxable year of the employer, and (ii) contributions accrued with respect to a welfare benefit fund during the taxable year of the employer or during any prior taxable year of the employer (but not actually paid to such fund on or before the end of a taxable year of the employer) and deducted by the employer for such or any prior taxable year of the employer, shall be treated as an amount in the fund as of the end of the last taxable year of the fund that relates to the taxable year of the employer. Contributions that are not deductible under this subparagraph are in excess of the qualified cost of the welfare benefit fund for the taxable year of the fund that relates to the taxable year of the employer and thus are treated as contributed to the fund on the first day of the employer's next taxable year.

(2) Subparagraph (1) shall not apply to contributions with respect to a collectively bargained welfare benefit fund within the meaning of §1.419A-2T. In addition, subparagraph (1) shall not apply to any taxable year of an employer beginning after the end of the earlier of the following taxable years: (i) the first taxable year of the employer beginning after December 31, 1985, for which the employer's deduction limit under section 419 (after the application of subparagraph (1)) is at least equal to the qualified direct cost of the fund for the taxable year (or years) of the fund that relates to such first taxable year of the employer, or (ii) the first taxable year of the employer beginning after December 31, 1985, with or within which ends the first taxable year of the fund with respect to which the total amount in the fund as of the end of such taxable year of the fund does not exceed the account limit for such taxable year of the fund (as adjusted under section 419A(f)(7)).

(3) For example, assume an employer with a taxable year ending June 30 and a welfare benefit fund with a taxable year ending January 31. During its taxable year ending June 30, 1987, and on or before January 31, 1987, the employer contributes $250,000 to the fund, and during the remaining portion of its taxable year ending June 30, 1987, the employer contributes $200,000. The qualified direct cost of the fund for its taxable year ending January 31, 1987, is $500,000, the account limit applicable to such taxable year (after the adjustment under section 419A(f)(7)) is $750,000, and the total amount in the fund as of January 31, 1987, is $800,000. Before the application of this paragraph, the employer may deduct the entire $450,000 contribution for its taxable year ending June 30, 1987. However, under this paragraph, the excess of (i) the sum of the total amount in the fund as of January 31, 1987 ($800,000), and employer contributions to the fund after January 31, 1987, and on or before June 30, 1987 ($200,000), over (ii) the account limit applicable to the fund for its taxable year ending January 31, 1987 ($750,000), $250,000. Thus, under this paragraph, only $200,000 of the $450,000 contribution the employer made during its taxable year ending June 30, 1987, is deductible for such taxable year. If the excess were $450,000 or greater, no portion of the $450,000 contribution would be deductible by the employer for its taxable year ending June 30, 1987. Such nondeductible contributions are in excess of the fund's qualified cost for the taxable year related to the employer's taxable year and thus are deemed to be contributed on the first day of the employer's next taxable year.

(c) See Q&A-7 of this regulation for special rules relating to the calculation of the qualified cost of a welfare benefit fund for an Initial Fund Year and an Overlap Fund Year (as defined in Q&A-7). See Q&A-11 of this regulation for special rules relating to the application of section 419 to the contribution to a welfare benefit fund of a facility (and to the contribution of other amounts, such as cash, used to acquire, construct, or improve a facility) before section 419 generally becomes effective with respect to contributions to the fund. See §1.419A-2T for special rules relating to certain collectively bargained welfare benefit funds.

Q-6: What is the "qualified direct cost" of a welfare benefit fund under section 419(c)(3)?

A-6: (a) Under section 419(c)(3), the "qualified direct cost" of a welfare benefit fund for any taxable year of the fund is the aggregate amount which would have been allowable as a deduction to the employer for benefits provided by such fund during such year (including insurance coverage for such year) if (1) such benefits were provided directly by the employer and (2) the employer used the cash receipts and disbursements method of accounting and had the same taxable year as the fund. In this regard, a benefit is treated as provided when such benefit would be includible in the gross income of the employee if provided directly by the employer (or would be so includible but for a provision of chapter 1, subtitle A, of the Internal Revenue Code excluding it from gross income). Thus, for example, if a calendar year welfare benefit fund pays an insurance company in July 1986 the full premium for coverage of its current employees under a term health insurance policy for the twelve month period ending June 30, 1987, the insurance coverage will be treated as provided by the fund over such twelve month period. Accordingly, only the portion of the premium for coverage during 1986 will be treated as a "qualified direct cost" of the fund for 1986; the remaining portion of the premium will be treated as a "qualified direct cost" of the fund for 1987. The "qualified direct cost" for a taxable year of the fund includes the administrative expenses incurred by the welfare benefit fund in delivering the benefits for such year.

(b) If, in a taxable year of a welfare benefit fund, the fund holds an asset with useful life extending substantially beyond the end of the taxable year (e.g., buildings, vehicles, tangible assets, and licenses) and, for such taxable year of the fund, the asset is used in the provision of welfare benefits to employees, the "qualified direct cost" of the fund for such taxable year of the fund includes the amount that would have been allowable to the employer as a deduction under the applicable Code provisions (e.g., sections 168 and 179) with respect to the portion of the asset used in the provision of welfare benefits for such year if the employer had acquired and placed in service the asset at the same time the fund received and placed in service the asset, and the employer had the same taxable year as the fund. This rule applies regardless of whether the fund received the asset through a contribution of the asset by the employer or through an acquisition or the construction by the fund of the asset. For example, assume that in 1986 a calendar year employer contributes recovery property under section 168(c) to a welfare benefit fund with a calendar taxable year to be used in the provision of welfare benefits. The employer will be treated as having sold the property in such year and thus will recognize gain to the extent that the fair market value of the property exceeds the employer's adjusted basis in the property. In this regard, see section 1239(d). Also, the employer will be treated as having made a contribution to the fund in such year equal to the fair market value of the property. Finally, the qualified direct cost of the welfare benefit fund for 1986 will include the amount that the employer could have deducted in 1986 with respect to the portion of the property used in the provision of welfare benefits if the employer had acquired the property in 1986 and had placed the property in service when the fund actually placed the property in service. Similarly, for example, assume that in 1986 a welfare benefit fund purchases and places in service a facility to be used in the provision of welfare benefits. The qualified direct cost of the fund for 1986 will include the amount that the employer could have deducted with respect to such facility if the employer had purchased and placed in service the facility at the same time that the fund purchased and placed in service the facility.

(c) The qualified direct cost of a welfare benefit fund does not include expenditures by the fund that would not have been deductible if they had been made directly by the employer. For example, a fund's purchase of land in a year for an employee recreational facility will not be treated as a qualified direct cost because, if made directly by the employer, the purchase would not have been deductible under section 263. See also sections 264 and 274.

(d) Notwithstanding the preceding paragraphs, the qualified direct cost of a welfare benefit fund with respect to that portion of a child care facility used in the provision of welfare benefits for a year will include the amount that would have been allowable to the employer as a deduction for the year under a straight-line depreciation schedule for a period of 60 months beginning with the month in which the facility is placed in service under rules similar to those provided for section 188 property under §1.188-1(a). For purposes of this section, a "child care facility" is tangible property of a character subject to depreciation that is located in the United States and specifically used as an integral part of a "qualified child care center facility" within the meaning of §1.188-1(d)(4).

(e) See Q&A-7 of this regulation for special section 419 rules relating to the calculation of the qualified direct cost of a welfare benefit fund for an Initial Fund Year and an Overlap Fund Year (as defined in Q&A-7). See Q&A-11 of this regulation for special rules relating to the contribution to a welfare benefit fund of a facility (and to the contribution of other amounts, such as cash, used to acquire, construct, or improve a facility) before section 419 generally becomes effective with respect to contributions to the fund.

Q-7: What special rules apply for purposes of determining the section 419 limit on the employer's deduction for contributions to a welfare benefit fund for the taxable year of the employer in which the fund is established and for the next following taxable year of the employer?

A-7: (a) If the taxable year of a welfare benefit fund is the same as the taxable year of the employer, there are no special rules that apply for purposes of determining the section 419 limit on an employer's deduction for contributions to the fund for either the taxable year of the employer in which the fund is established or the next following taxable year of the employer. However, if the taxable year of a welfare benefit fund is different from the taxable year of the employer, the general section 419 rules are modified by the special rules set forth below for purposes of determining the section 419 deduction limit for the taxable year of the employer in which a fund is established and for the next following taxable year of the employer.

(b) If a welfare benefit fund is established after December 31, 1985, during a taxable year of an employer and either (i) the first taxable year of the fund ends after the close of such taxable year of the employer, or (ii) the first taxable year of the fund is six months or less and ends before the close of such taxable year of the employer and the second taxable year of the fund begins before and ends after the close of such taxable year of the employer, the taxable year of the fund that contains the closing day of such taxable year of the employer will be treated as an "Overlap Fund Year." For purposes of determining the limit on the employer's deduction for contributions to a welfare benefit fund for the taxable year of the employer in which the fund was established, the period between the beginning of the fund's Overlap Fund Year and the end of the employer's taxable year in which the Overlap Fund Year began will be treated as a taxable year of the fund ("Initial Fund Year").

(c) The qualified cost of a welfare benefit fund for its Initial Fund Year will be equal to the qualified direct cost of the fund for such Initial Fund Year. The qualified cost of a fund for its Overlap Fund Year will be determined under the general rules of Q&A-5 of this regulation and section 419(c), with the exception that such qualified cost will be reduced by the employer contributions made during the Initial Fund Year and deductible by the employer for the taxable year of the employer in which the Overlap Fund Year of the fund begins.

(d) Assume that an employer with a calendar taxable year establishes on July 1, 1986, a welfare benefit fund with a taxable year ending on June 30. The fund's first taxable year from July 1, 1986, to June 30, 1987, is an Overlap Fund Year. The employer contributes $1,000 to the fund during its taxable year ending December 31, 1986 (i.e., during the period between July 1, 1986, and December 31, 1986, which is also the Initial Fund Year) and another $1500 to the fund during its taxable year ending December 31, 1987. Assume further that the qualified direct cost of the fund for the Initial Fund Year is $900 and that the qualified cost for the Overlap Fund year is $2500 (prior to the reduction required by paragraph (c) of this Q&A). Under the special rules of paragraphs (b) and (c), the employer may deduct $900 for its taxable year ending on December 31, 1986, and $1600 for its taxable year ending on December 31, 1987. If the qualified direct cost of the fund for the Initial Fund year had been $1050 and the qualified cost for the Overlap Fund year had been $2500 (prior to the reduction required by paragraph (c) of this Q&A), the employer's deduction for its taxable year ending December 31, 1986, would have been $1000 and its deduction for its taxable year ending December 31, 1987, would have been $1500.

(e) Assume that an employer with a calendar taxable year establishes on March 1, 1986, a welfare benefit fund with a taxable year ending June 30. Thus, the fund has a short first taxable year ending June 3, 1986, an Overlap Fund Year from July 1, 1986, until June 30, 1987, and an ongoing June 30 taxable year. The employer contributes $1750 to the fund during the employer's taxable year ending December 31, 1986—$750 during the short first taxable year of the fund and $1000 during the Initial Fund Year (i.e., the period between July 1, 1986, and December 31, 1986)—and $1500 to the fund during its taxable year ending December 31, 1987. Assume that the qualified cost of the fund for the short first taxable year of the fund is $800, the qualified direct cost for the Initial Fund Year is $900, and the qualified cost for the Overlap Fund Year is $2500 (prior to the reduction required by paragraph (c) of this Q&A). Under the special rules of paragraphs (b) and (c), the employer may deduct $1700 for its taxable year ending December 31, 1986, and $1550 for its taxable year ending December 31, 1987.

Q-8: How does section 419 treat an employer's contribution with respect to a welfare benefit fund in excess of the applicable deduction limit for a taxable year of the employer?

A-8: (a) If an employer makes contributions to a welfare benefit fund in a taxable year of the employer and such contributions (when combined with prior contributions that are deemed under the rule of this Q&A and section 419(d) to have been made in such taxable year) exceed the section 419 deduction limit for such taxable year of the employer, the excess amounts are deemed to be contributed to the fund on the first day of the next taxable year of the employer. Such deemed contributions are combined with amounts actually contributed by the employer to the fund during the next taxable year and may be deductible for such year, subject to the otherwise applicable section 419 deduction limit for such year.

(b) Contributions to a welfare benefit fund on or before December 31, 1985, that were not deductible by the employer for any taxable year of the employer ending on or before December 31, 1985, or for the first taxable year of the employer ending after December 31, 1985, as pre-1986 contributions (see Q&A-9 of this regulation) are deemed to be contributed to the fund on January 1, 1986. However, see Q&A-11 of this regulation for special rules relating to the contribution to a welfare benefit fund of amounts (such as cash) used to acquire, construct, or improve a facility before section 419 generally becomes effective with respect to contributions to the fund. Generally, such contributions (to the extent that they were made after June 22, 1984 and on or before December 31, 1985) are treated as nondeductible pre-1986 contributions and are deemed to be contributed in the form of a facility at the same time as when the facility is placed in service by the fund.

Q-9: How does an employer with a fiscal taxable year calculate its deduction limit for contributions with respect to a welfare benefit fund for the first taxable year of the employer ending after December 31, 1985?

A-9: (a) If the first taxable year of an employer ending after December 31, 1985 (or, if applicable under paragraph (b) of Q&A-2 of this section, the first taxable year of an employer beginning after termination of the last of the collective bargaining agreements pursuant to which the fund is maintained) is a fiscal year, the employer's deduction for such taxable year for contributions to a welfare benefit fund that is not a collectively bargained welfare benefit fund under §1.419A-2T is limited to the greater of the following two amounts: (i) the contributions paid to the fund during such first taxable year up to the qualified cost of the welfare benefit fund for the taxable year of the fund that relates to such taxable year of the employer, and (ii) the contributions paid to the fund during the 1985 portion of such first taxable year of the employer ("the pre-1986 contributions") to the extent that such pre-1986 contributions are deductible under the rules governing the deduction of such contributions before section 419 generally becomes effective (including the rules set forth in Q&A-10 of this regulation, modifed for purposes of this Q&A-9 by substituting "December 31, 1986" for "December 31, 1985" in paragraph (c)). See Q&A-11 of this regulation for special rules relating to the contribution to a welfare benefit fund of a facility (and to the contribution of other amounts, such as cash, used to acquire, construct, or improve such a facility) before section 419 generally becomes effective with respect to contributions to such fund.

(b) For example, assume that an employer with a taxable year ending June 30, contributes to a welfare benefit fund with a taxable year ending January 31. This employer contributes $1000 to the fund between July 1, 1985, and December 31, 1985, and an additional $500 to the fund between January 1, 1986, and June 30, 1986. Assume further that the qualified direct cost of the fund for the taxable year of the fund ending January 31, 1986, is $500 and that the qualified cost for such taxable year is $800. Under the deduction rule set forth above, the employer's deduction for its taxable year ending June 30, 1986, is the greater of two amounts: (i) the contributions made during such full taxable year ($1500) up to the qualified cost of the fund with respect to such taxable year ($800), and (ii) the pre-1986 contributions ($1000) to the extent that such pre-1986 contributions are deductible under the pre-section 419 rules. In determining the extent to which the pre-1986 contributions are deductible under the pre-section 419 rules, the rules contained in Q&A-10 apply as though December 31, 1985, in paragraph (c) were December 31, 1986. Assuming that only $875 is deductible under the pre-section 419 rules, because $875 is greater than $800, this employer may deduct $875 for its first taxable year ending after December 31, 1985. This full $875 deduction for 1985 is deemed to consist entirely of pre-1986 contributions.

Q-10: How do the rules of sections 263, 446(b), 461(a), and 461(h) apply in determining whether contributions with respect to a welfare benefit fund are deductible for a taxable year?

A-10: (a) Both before and after the effective date of section 419 (see Q&A-2 of this regulation), an employer is allowed a deduction for a taxable year for contributions paid or accrued with respect to a "welfare benefit fund" (as defined in Q&A-3 of this regulation and section 419(e)) only to the extent that such contributions satisfy the requirements of section 162 or 212. These requirements must be satisfied after the effective date of section 419 because section 419 requires that (among other requirements) contributions to a welfare benefit fund satisfy the requirements of section 162 or 212.

(b) Except as provided in paragraphs (c) and (d), in determining the extent to which contributions paid or accrued with respect to a welfare benefit fund satisfy the requirements of section 162 or 212 for a taxable year (both before and after section 419 generally becomes effective with respect to such contributions), the rules of sections 263, 446(b), 461(a) (including the rules that relate to the creation of an asset with a useful life extending substantially beyond the close of the taxable year), and 461(h) (to the extent that such section is effective with respect to such contributions) are generally applicable.

(c) Notwithstanding paragraph (b), under the authority of section 7805(b), the rules of sections 263, 446(b), and 461(a) shall not be applied in determining the extent to which an employer's contribution with respect to a welfare benefit fund is deductible under section 162 or 212 with respect to any taxable year of the employer ending on or before December 31, 1985, to the extent that, for such taxable year, (1) the contribution was made pursuant to a bona fide collective bargaining agreement requiring fixed and determinable contributions to a collectively bargained welfare benefit fund (as defined in §1.419A-2T), or (2) the contribution was not in excess of the amount deductible under the principles of Revenue Rulings 69-382, 1969-2 C.B. 28; 69-478, 1969-2 C.B. 29; and 73-599, 1973-2 C.B. 40, modified as appropriate for benefits for active employees.

(d) Nowithstanding paragraph (b), in determining the extent to which contributions paid or accrued with respect to a welfare benefit fund are deductible under section 419, the rules of sections 263, 446(b), and 461(a) will be treated as having been satisfied to the extent that such contributions satisfy the otherwise applicable rules of section 419. Thus, for example, contributions to a welfare benefit fund will not fail to be deductible under section 419 merely because they create an asset with a useful life extending substantially beyond the close of the taxable year if such contributions satisfy the otherwise applicable requirements of section 419.

(e) In determining the extent to which contributions with respect to a welfare benefit fund satisfy the requirements of section 461(h) for any taxable year for which section 461(h) is effective, pursuant to the authority under section 461(h)(2), economic performance occurs as contributions to the welfare benefit fund are made. Solely for purposes of section 461(h), in the case of an employer's taxable year ending on or after July 18, 1984, and on or before March 21, 1986, contributions made to the welfare benefit fund after the end of such taxable year and on or before March 21, 1986 shall be deemed to have been made on the last day of such taxable year.

Q-11: What special section 419 rules apply to the payment or accrual with respect to a welfare benefit fund of a facility (and the payment or accrual of other amounts, such as cash, used to acquire, construct, or improve such a facility)?

A-11: (a)(1) In the case of an employer's payment or accrual with respect to a welfare benefit fund after June 22, 1984, and on or before December 31, 1985, (or, if applicable under paragraph (b) of Q&A-2 of this regulation, before section 419 generally becomes effective with respect to contributions to such fund) of a facility, the rules of section 419, §1.419-1T, and §1.419A-2T generally apply to determine the extent to which such contribution is deductible by the employer for its taxable year of contribution. For this purpose, however, the facility is to be treated as the only contribution made to the fund and the qualified cost of the fund for the taxable year of the fund in which the facility was contributed is to be equal to the qualified direct cost directly attributable to the facility (as determined under Q&A-6 of this regulation). Also, for this purpose, the welfare benefit fund to which the facility was contributed may not be aggregated with any other fund. For purposes of this Q&A, "facility" means any tangible asset with a useful life extending substantially beyond the end of the taxable year (e.g., vehicles, buildings) and any intangible asset (e.g., licenses) related to a tangible asset, whether or not such asset is used in the provision of welfare benefits. See, however, paragraph (c) of Q&A-2 of this regulation for a binding contract exception.

(2) For example, assume that an employer and a welfare benefit fund each has a calendar taxable year and that, during 1985, the employer contributes to the fund $200,000 in cash and a facility with a fair market value of $100,000. Such facility is used in the provision of welfare benefits under the fund. The employer is treated as having sold the facility in such year and thus will recognize gain to the extent that the fair market value of the facility exceeds the employer's adjusted basis in the facility. In this regard, see section 1239(d). The extent to which the facility contribution is deductible by the employer for its 1985 taxable year is

determined as though it were the only contribution made by the employer to the fund during such year and the qualified cost of the fund for the taxable year of the fund in which the contribution was made (i.e., the 1985 taxable year) were equal to the amount that would have been allowable to the employer as a deduction for such year under the applicable Code provisions with respect to the portion of the facility used in the provision of welfare benefits for such year if the employer had placed in service the facility at the time the fund placed in service the facility and if the employer had the same taxable year as the fund. If, under these assumptions, the employer would have been allowed a $10,000 deduction with respect to the facility for the 1985 taxable year, the fund's qualified cost for its 1985 taxable year would be only $10,000. Thus, only $10,000 of the $100,000 facility contribution would be deductible by the employer for its 1985 taxable year (i.e., the taxable year of the employer with or within which the applicable taxable year of the fund ends). However, in determining the extent to which the $200,000 in cash is deductible by the employer for its 1985 taxable year, the $100,000 facility is not to be disregarded. Thus, if under the applicable pre-section 419 rules the employer is allowed for 1985 a total deduction of only $175,000, the employer would be permitted a deduction for 1985 of $175,000 ($10,000 with respect to the facility and $165,000 of the cash contribution). The nondeductible portion of the cash contribution is to be treated as contributed to the fund on the first day of the next taxable year of the employer. If under the applicable pre-section 419 rules the employer were allowed a total deduction of $300,000 for 1985, the employer would be permitted a deduction for 1985 of only $210,000 ($10,000 with respect to the facility and the full $200,000 cash contribution).

(3) For example, assume that an employer has a June 30 taxable year and maintains a welfare benefit fund with a taxable year ending January 31. During the 1985 portion of its taxable year ending June 30, 1986, the employer contributes $50,000 in cash and a facility with a fair market value of $100,000; and during the 1986 portion of such taxable year, the employer contributes another $75,000 in cash to the fund. The facility is used in the provision of welfare benefits under the fund. Under the rules of Q&A-9 of this regulation, the employer's deduction for its June 30, 1986, taxable year is limited to the greater of the following two amounts: (i) the contributions paid to the fund during such taxable year ($225,000) up to the qualified cost of the fund for the taxable year of the fund ending January 31, 1986, and (ii) the contributions paid to the fund during the 1985 portion of the employer's taxable year ending June 30, 1986 ("the pre-1986 contributions") ($150,000) to the extent that such pre-1986 contributions are deductible under the rules governing the deduction of such contributions before section 419 is generally effective with respect to the fund. For purposes of this rule, the contribution of the facility on or before December 31, 1985, is to be treated as a pre-1986 contribution and the rules of section 419 and this Q&A are to be treated as rules governing the deduction of such contribution before section 419 generally becomes effective with respect to the fund. Thus, in determining the extent to which the facility is deductible as a pre-1986 contribution under the rules before section 419 generally becomes effective, the facility is treated as the only contribution to the welfare benefit fund and the qualified cost of such fund for the taxable year of the fund in which the facility was contributed is the amount that would have been allowable to the employer as a deduction with respect to the portion of the facility used in the provision of welfare benefits if the employer had placed in service the facility at the same time that the fund placed in service the facility and the employer's taxable year ended on January 31, 1986.

(b)(1) The preceding rules shall also apply for purposes of determining when and the extent to which an employer may deduct contributions or other items and amounts after June 22, 1984 and on or before December 31, 1985 (or, if applicable under paragraph (b) of Q&A-2 of this regulation, before section 419 generally becomes effective with respect to contributions to the fund) that are not facilities (e.g., cash contributions) to a welfare benefit fund that are used by the fund to acquire, construct, or improve a facility. The most recent non-facility contributions made to a welfare benefit fund before the facility in question is placed in service by the fund (up to the fair market value of the facility at such time) are to be treated as used by the fund for the acquisition, construction, or improvement (as the case may be) of such facility. To the extent that contributions before such a facility is placed in service are not at least equal to the value of the facility at such time, contributions after such date (up to the value of the facility at the time it is placed in service) are treated as used for acquisition, construction, or improvement of the facility. Such non-facility contributions, to the extent that they were made after June 22, 1984, and on or before December 31, 1985 (or, if applicable under paragraph (b) of Q&A-2 of this regulation, before section 419 generally becomes effective with respect to contributions to the fund), are not deductible by the employer as non-facility contributions for any year. Instead, the employer is permitted a deduction with respect to such contributions only under the rules of this Q&A as though the employer had contributed a facility to the fund at the same time that the fund placed in service the facility in question and, at such time, the facility had a fair market value equal to the total of such non-facility contributions.

(2) For example, assume that an employer and a welfare benefit fund each has a calendar taxable year and during 1985 the fund acquired and placed in service a facility with a fair market value of $100,000 to be used in the provision of welfare benefits. Further, during July 1984 the employer contributed $150,000 in cash to the fund and, during the portion of 1985, before the facility was placed in service by the fund, the employer contributed another $75,000 in cash to the fund; during the remaining portion of 1985, the employer contributed $125,000 in cash. The facility is used in the provision of welfare benefits under the fund. Because $25,000 of the employer's 1984 contribution is treated under this rule as used for the acquisition of a facility, such $25,000 is not deductible by the employer for 1984. For purposes of determining the employer's deduction for 1985, the employer will be treated as having contributed $125,000 in cash and a facility with a fair market value

of $100,000. The employer's deduction for its 1985 taxable year will be determined under the rules relating to the contribution of a facility after June 22, 1984, and on or before December 31, 1985.

(3) For example, assume that an employer and a welfare benefit fund each has a calendar taxable year and during 1986 the fund placed in service a facility with a fair market value of $100,000 to be used in the provision of welfare benefits. During 1985, the employer contributed $125,000 in cash to the fund. During the portion of 1986 before the facility was placed in service, the employer contributed $60,000 in cash, and during the remaining portion of 1986, the employer contributed another $75,000 in cash. The facility is used in the provision of welfare benefits under the fund. Because $40,000 of its 1986 cash contribution is treated under this rule as used for the acquisition of the facility, such $40,000 is not deductible by the employer for 1985. For purposes of determining the employer's deduction for 1986, the employer will be treated as though it had contributed a $40,000 facility to the fund at the time the fund placed the facility in service.

(c) For purposes of calculating the "existing excess reserve amount" under Q&A-1 of §1.419A-1T and the "existing reserves for post-retirement medical or life insurance benefits" under A&A-4 of §1.512(a)-5T (but not the exempt function income under Q&A-3 of §1.512(a)-5T), the amount set aside as of any applicable date is to be reduced to the extent that contributions originally included in such amount are subsequently treated under this Q&A as used for the acquisition, construction, or improvement of an asset excluded from the calculation of the total amount set aside under paragraph (b) of §1.512(a)-5(T) (or would be so treated under this Q&A if it applied to such asset). The reduction required under this paragraph applies for purposes of calculating the "existing excess reserve amount" and the "existing reserves for post-retirement medical or life insurance benefits" for all taxable years of the welfare benefit fund.

Par. 14 A new §1.419A-1T is added immediately following §1.419-1T to read as follows:

§1.419A-1T Qualified asset account limitation of additions to account. (Temporary)

Q-1: What does the transition rule under section 419A(f)(7) provide?

A-1: Section 419A(f)(7) provides that, in the case of a welfare benefit fund that was in existence on July 18, 1984, the account limit (as determined under section 419A(c)) for each of the first four taxable years of the fund that relate to taxable years of the employer ending after December 31, 1985 (or, if applicable under paragraph (b) of Q&A-2 of this regulation, taxable years of the employer beginning after the termination of the last of the collective bargaining agreements pursuant to which the plan is maintained) shall be increased by the following percentages of the "existing excess reserve amount":

First taxable year	80 percent
Second taxable year	60 percent
Third taxable year	40 percent
Fourth taxable year	20 percent

For purposes of this section, the "existing excess reserve amount" for any taxable year of a fund is the excess of (1) the assets actually set aside for purposes described in section 419A(a) at the close of the first taxable year of the fund ending after July 18, 1984 (calculated in the manner set forth in Q&A-3 of §1.512(a)-3T, and adjusted under paragraph (c) of Q&A-11 of §1.419-1T), reduced by employer contributions to the fund before the close of such first taxable year to the extent that such contributions are not deductible for the taxable year of the employer with or within which such taxable year of the fund ends and for any prior taxable year of the employer, over (2) the account limit which would have applied to the taxable year of the fund for which the excess is being computed (without regard to this transition rule). A welfare benefit fund is treated as in existence on July 18, 1984, for purposes of this transition rule only if amounts were actually set aside in such fund on such date to provide welfare benefits enumerated under section 419A.

Par. 15. The following new section is added immediately after §1.461-3T to read as follows:

§1.461(h)-4T Questions and answers relating to the economic performance requirement for certain employee benefits. (Temporary)

Q-1: What is the relationship between the economic performance requirement of section 461(h) and sections 404 and 419?

A-1: Section 404 provides that contributions paid and compensation paid or incurred with respect to a plan, or method or arrangement, deferring the receipt of compensation or providing for deferred benefits will be deductible only to the extent that they satisfy the requirements of seciton 162 or 212 Section 419 provides that contributions paid or accrued with respect to a "welfare benefit fund" (as defined in section 419(e) and Q&A-3 of §1.419-1T) will be deductible only to the extent that they satisfy the requirements of section 162 and 212. In the case of the accrual method taxpayer, a contribution or compensation satisfies the requirements of section 162 or 212 only to the extent that the all events test (as defined in section 416(b)(4)) and the economic performance requirement of section 461(h)(1) are satisfied. In the case of a contribution or compensation subject to section 404 or 419, pursuant to the authority under section 461(h)(2), economic performance occurs (i) in the case of a plan subject to section 404, either as the contribution is made under the plan or, if section 404(a)(5) is applicable, as an amount attributable to such contribution is includible in the gross income of an employee (or, if section 404(d) applies, a nonemployee); or (ii) in the case of a welfare benefit fund, as a contribution is made to the welfare benefit fund. Solely for purposes of section 461(h), in the case of an employer's taxable year ending on or after July 18, 1984, and on or before March 21, 1986 contributions made to a welfare benefit fund after the end of such taxable year and on or before March 21, 1986 shall be deemed to have been made on the last day of such taxable year.

Par. 16. The following new section is added immediately after §1.461(h)-4T:

§1.463-1T Transitional rule for vested accrued vacation pay. (Temporary)

(a) *Introduction*. Section 91(i) of the Tax Reform Act of 1984 provides a transitional rule for the election under section 463, relating to accrual of vacation pay. Section 91(i) applies only in the case of taxpayers with respect to which a deduction was allowable (other than under section 463) for vested accrued vacation pay for the last taxable year ending on or before July 18, 1984.

(b) *Election under transitional rule.* A taxpayer described in paragraph (a) of this section that makes an election under section 463 for the first taxable year ending after July 18, 1984, shall compute the opening balance of the account described in section 463(a)(1) ("accrual account") with respect to such vacation pay under the rules provided in paragraph (e)(3) of this section.

(c) *Multiple vacation pay accounts within a single trade or business.* (1) An election under section 463 must be made with respect to all vacation pay accounts maintained by the taxpayer within a single trade or business whether the liability is for vested accrued vacation pay or for vacation pay that is contingent.

(2) If a taxpayer has elected, in a taxable year ending on or before July 18, 1984, to treat contingent vacation pay with respect to a single trade or business under section 463, the taxpayer may elect, under the provisions of section 91(i) of the Tax Reform Act of 1984, to treat vested accrued vacation pay with respect to the same trade or business under section 463. However, no election may be made with respect to vacation pay for which a prior section 463 election was made and that is accounted for under section 463.

(d) *Time for making election.* A taxpayer described in paragraph (a) of this section that makes an election under section 463 for the first taxable year ending after July 18, 1984, must make the election on or before the due date (determined with regard to extensions) for filing the taxpayer's income tax return for such taxable year. However, if the taxpayer's income tax return was filed for the first taxable year ending after July 18, 1984, prior to March 6, 1986, the taxpayer must make the election by the later of the due date (determined with regard to extensions) for filing the taxpayer's income tax return, or May 5, 1986. In this case, the election must be made by filing an amended return (showing adjustments, if any) for such year and attaching the statement required by paragraph (e) of this section on or before the later of the due date (determined with regard to extensions) for filing the taxpayer's income tax return, or May 5, 1986.

(e) *Manner of making election.* A taxpayer must make the election described in paragraph (b) of this section by attaching a statement to the taxpayer's income tax return for the first taxable year ending after July 18, 1984. the statement must indicate that the taxpayer is elected to apply the provisions of section 463 with respect to vested accrued vacation pay for the taxpayer's first taxable year ending after July 18, 1984. The statement must contain the following information:

(1) The taxpayer's name and a description of the vacation pay plans to which the election applies.

(2) If a taxpayer has more than one trade or business and is not making the election with respect to all trades or businesses, a description of the trades or businesses to which the election applies.

(3) The opening balance in the taxpayer's accrual account. This balance equals the amount determined as if the taxpayer had maintained an account for the last taxable year ending on or before July 18, 1984, representing the taxpayer's liability for vested accrued vacation pay earned by employees before the close of the last taxable year ending on or before July 18, 1984, and payable during that taxable year or within 12 months following the close of that taxable year. If the taxpayer's liability for vacation pay includes both vested accrued vacation pay and vacation pay the liability for which is contingent, the amount in the opening balance of the accrual account that represents the taxpayer's liability for contingent vacation pay is to be determined under the rules provided in section 10.2(c)(ii)(B) of this chapter.

(4) The opening balance in the taxpayer's suspense account. This balance equals the amount determined under paragraph (e)(3) of this section less the portion allowed as deductions under section 162 for prior taxable years for vacation pay earned but not paid at the close of the last taxable year ending on or before July 18, 1984.

(f) *Vested accrued vacation pay.* For purposes of paragraphs (a) through (e) of this section, "vested accrued vacation pay" means any amount allowable as deductions under section 162(a) for a taxable year with respect to vacation pay of employees of the taxpayer (determined without regard to section 463). For purposes of this section, vacation pay will be considered vested accrued vacation pay even though there is a limit or ceiling on the amount of vacation pay an employee is entitled to as of the close of any plan year. For example, if under a vacation pay plan an employee may accumulate no more than 40 days of vacation leave by the end of any plan year and any unused days in excess of 40 days are forfeited, the taxpayer is considered to have vested accrued vacation pay (even though the plan is not fully vested) and may make an election under the transitional rule.

Par. 17. A new §1.505(c)-1T is added immediately after §1.503(f)-1 to read as set forth below.

§1.505(c)-1T. Questions and Answers Relating to the Notification Requirement for Recognition of Exemption Under Paragraphs (9), (17) and (20) of Section 501(c). (Temporary)

Q-1: What does section 505(c) of the Internal Revenue Code provide?

A-1: Section 505(c) provides that an organization will not be recognized as exempt under section 501(c)(9) as a voluntary employees' beneficiary association, under section 501(c)(17) as a trust forming part of a plan providing for the payment of supplemental unemployment compensation benefits, or under section 501(c)(20) as a trust forming part of a qualified group legal services plan unless notification is given to the Internal Revenue Service. The notification required of a trust created pursuant to section 501(c)(20) and forming part of a qualified group legal services plan is set forth in Q&A-2. The notification required of an organization organized after July 18, 1984, and applying for exempt status as an organization described in section 501(c)(9) or (17) is set forth in Q&A-3 through Q&A-8. The notification required of an organization organized on or before July 18, 1984, and claiming exemption as an organization described in section 501(c)(9) or (17) is set forth in Q&A-9 through Q&A-11. However, an organization that has previously notified the Internal Revenue Service of its claim of exemption under section 501(c)(9), (17) or (20) or its claim to exemption under those sections pursuant to another provision of the Code, is not required, under section 505(c), to submit a renotification (See Q&A-2 and Q&A-12).

SECTION 501(c)(20) TRUSTS

Q-2: What is the notice required of a trust created pursuant to section 501(c)(20) and forming part of a qualified group legal services plan under section 120?

A-2: (a) A trust claiming exemption as an organization described in section 501(c)(20) will be recognized as exempt if the exclusive function of the trust is to form part of a qualified group legal services plan or plans. Exemption of the trust under section 501(c)(20) will generally be dependent upon and coextensive with recognition of the plan as a qualified group legal services plan. Therefore, a trust organized pursuant to seciton 501(c)(20) after July 18, 1984, need not file a separate notice with the Internal Revenue Service of its claim to exemption because the notice required by section 120(c)(4) will suffice for purposes of section 505(c), provided a copy of the trust instrument is filed with the Form 1024 submitted by the group legal services plan. If the trust instrument has not been filed with the Form 1024 submitted by the group legal services plan, the trust must comply with (and exemption will be dependent upon) the filing applicable to a trust organized on or before July 18, 1984. For the notice required and effective dates of exemption of a qualified group legal services plan under section 120, see §1.120-3.

(b) A trust organized on or before July 18, 1984, that claims exempt status as a trust described in section 501(c)(20) and that forms part of a qualified group legal services plan which has been recognized as exempt under section 120, must file a copy of its trust instrument with the Internal Revenue Service before February 4, 1987. If a copy of the trust instrument is filed within the time provided, the trust's exemption will be recognized retroactively to the date the qualified group legal services plan was recognized as exempt under section 120. However, if a copy of the trust instrument is filed after the time provided, exemption will be recognized only for the period after the copy of the trust instrument is filed with the Internal Revenue Service. See Q&A 7 for a further discussion of "date of filing." A trust that has previously filed a copy of its trust instrument with the Service need not refile that document.

SECTION 501(c)(9) and (17) ORGANIZATIONS ORGANIZED AFTER JULY 18, 1984

Q-3: What is the notice required of an organization or trust, organized after July 18, 1984, that is applying for recognition of tax exempt status under section 501(c)(9) or (17)?

A-3: An organization or trust that is organized after July 18, 1984, will not be treated as described in paragraphs (9) or (17) of section 501(c), unless the organization notifies the Internal Revenue Service that it is applying for recognition of exemption. In addition, unless the required notice is given in the manner and within the time prescribed by these regulations, an organization will not be treated as exempt for any period before the giving of the required notice. The notice is filed by submitting a properly completed and executed Form 1024, "Application for Recognition of Exemption Under Section 501(a) or for Determination Under Section 120" together with the additional information required under Q&A-4 and Q&A-5. The notice is filed with the district director for the key district in which the organization's principal place of business or principal office is located. The notice may be filed by either the plan administrator (as defined in section 414(g)) or the trustee. The Internal Revenue Service will not accept a Form 1024 for any organization or trust before such entity has been organized.

Q-4: What information, in addition to the information required by Form 1024, must be submitted by an organization or trust seeking recognition of exemption under section 501(c)(9) or (17)?

A-4: A notice will not be considered complete unless, in addition to a properly completed and executed Form 1024, the organization or trust submits a full description of the benefits available to participants under section 501(c)(9) or (17). Moreover, both the terms and conditions of eligibility for membership and the terms and conditions of eligibility for benefits must be set forth. This information may be contained in a separate document, such as a "plan document," or it may be contained in the creating document of the entity (e.g., the articles of incorporation or association, or a trust indenture). For benefits provided through a policy or policies of insurance, all such policies must be included with the notice. Where individual policies of insurance are provided to the participants, single exemplar copies, typical of policies generally issued to participants, are acceptable, provided they adequately describe all forms of insurance available to participants. In providing a full description of the benefits available, the benefits provided must be sufficiently described so that each benefit is definitely determinable. A benefit is definitely determinable if the amount of the benefit, its duration, and the persons eligible to receive it are ascertainable from the plan document or other instrument. Thus, a benefit is not definitely determinable if the rules governing either its amount, its duration, or its recipients are not ascertainable from the plan document or other instrument but are instead subject to the discretion of a person or committee. Likewise, a benefit is not definitely determinable if the amount for any individual is based upon a percentage share of any item that is within the discretion of the employer. However, a disability benefit will not fail to be considered definitely determinable merely because the determination of whether an individual is disabled is made under established guidelines by an authorized person or committee.

Q-5: What is the notice required of collectively bargained plans?

A-5: If an organization or trust claiming exemption under section 501(c)(9) or (17) is organized and maintained pursuant to a collective bargaining agreement between employee representatives and one or more employer, only one Form 1024 is required to be filed for the organization or trust, regardless of the number of employers originally participating in the agreement. Moreover, once a Form 1024 is filed pursuant to a collective bargaining agreement, an additional Form 1024 is not required to be filed by an employer who thereafter participates in that agreement. When benefits are provided pursuant to a collective bargaining agreement, the notice will not be considered complete unless, in addition to a properly completed and executed Form 1024, a copy of the collective bargaining agreement is also submitted together with the additional information delineated in Q&A-4.

Q-6: When must the required notice be filed by an organization or trust, organized after July 18, 1984, that seeks recognition of exemption under section 501(c)(9) or (17)?

A-6: An organization or trust applying for exemption must file the required notice by the later of February 4, 1987 or 15 months from the end of the month in which the organization or trust was organized. An extension of time for filing the required notice may be granted by the district director if the request is submitted before the end of the applicable period and it is demonstrated that additional time is needed.

Q-7: What is the effective date of exemption for a new organization or trust, organized after July 18, 1984, that has submitted the required notice?

A-7: If the required notice is filed within the time provided by these regulations, the organization's exemption will be recognized retroactively to the date the organization was organized, provided its purpose, organization and operation (including compliance with the applicable nondiscrimination requirements) during the period prior to the date of the determination letter are in accordance with the applicable law. However, if the required notice is filed after the time provided by these regulations, exemption will be recognized only for the period after the application is filed with the Internal Revenue Service. The date of filing is the date of the United States postmark on the cover in which an exemption application is mailed or, if no postmark appears on the cover, the date the application is stamped as received by the Service. If an extension for filing the required notice has been granted to the organization, a notice filed on or before the last day specified in the extension will be considered timely and not the otherwise applicable date under Q&A-6.

Q-8: What is the effect on exemption of the filing of an incomplete notice?

A-8: Although a properly completed and executed Form 1024 together with the required additional information (See Q&A-4 and Q&A-5) must be submitted to satisfy the notice required by section 505(c), the failure to file, within the time specified, all of the information necessary to complete such notice will not alone be sufficient to deny recognition of exemption from the date of organization to the date the completed information is submitted to the Service. If the notice which is filed with the Service within the required time is substantially complete, and the organization supplies the necessary additional information requested by the Service within the additional time allowed, the original notice will be considered timely. However, if the notice is not substantially complete or the additional information is not provided within the additional time allowed, exemption will be recognized only from the date of filing of the additional information.

SECTION 501(c)(9) and (17) ORGANIZATIONS ORGANIZED ON OR BEFORE JULY 18, 1984

Q-9: What is the notice required of an organization or trust organized on or before July 18, 1984, that claims exempt status as an organization described in section 501(c)(9) or (17)?

A-9: Section 505(c) provides a special rule for existing organizations and trusts organized on or before July 18, 1984. Such an organization or trust will not be treated as described in paragraphs (9) or (17) of section 501(c) unless the organization or trust notifies the Internal Revenue Service in the manner and within the time prescribed in these regulations that it is claiming exemption under the particular section. The type of notice, the manner for filing that notice, and the additional information required is the same as that set forth in Q&A-3 through Q&A-5 for new organizations.

Q-10: When must the required notice be filed by an organization or trust organized on or before July 18, 1984?

A-10: An organization or trust organized on or before July 18, 1984, that claims exempt status as an organization described in section 501(c)(9) or (17), must file the required notice before February 4, 1987. An extension of time for filing the required notice may be granted by the district director if the request is submitted before the due date of the notice and it is demonstrated that additional time is needed.

Q-11: What is the effective date of exemption for an organization or trust organized on or before July 18, 1984, that has submitted the required notice?

A-11: If the required notice is filed within the time provided by these regulations, the organization's exemption will be recognized retroactively to the date the organization was organized, provided its purpose, organization and operation (including compliance with the applicable nondiscrimination requirements) during the period prior to the date of the determination letter are in accordance with the applicable law. If, on the other hand, the required notice is filed after the time provided by these regulations, exemption will be recognized only for the period after the notice is received by the Internal Revenue Service. See Q&A-7 for a further discussion of "date of filing." See also Q&A-8 for the effect on exemption of a notice that has been timely filed but is incomplete.

EXCEPTIONS TO NOTICE REQUIREMENT

Q-12: Are any organizations or trusts claiming recognition of exemption as an organization described in section 501(c)(9) or (17) excepted from the notice requirement of section 505(c)?

A-12: An organization or trust that has previously notified the Internal Revenue Service of its claim to exemption by filing Form 1024 is not required, under section 505(c), to renotify the Service. Thus, an organization that has filed a Form 1024 that is pending with the Service need not refile that form. Also, an organization that has received a ruling or determination letter from the Service recognizing its exemption from taxation need not submit the notification required by section 505(c).

Par. 18. There is added the following new section after §1.512(a)-4 to read as follows:

§1.512(a)-5T Questions and answers relating to the unrelated business taxable income of organizations described in paragraphs (9), (17) or (20) of section 501(c). (Temporary)

Q-1: What does section 512(a)(3), as amended by the Tax Reform Act of 1984 (Act), provide with respect to organizations described in paragraphs (9), (17) or (20) of section 501(c)?

A-1: In general, section 512(a)(3), as amended by section 511 of the Act, extends the rules for determining the unrelated business income tax of voluntary employees' beneficiary associations (VEBAs) to supplemental unemployment compensation benefit trusts (SUBs) and group legal service organizations (GLSOs). The section also restricts the amount of income that may be set aside by such organizations for exempt purposes.

Q-2: What is the effective date of the amendments to section 512(a)(3)?

A-2: The amendments to section 512(a)(3) will apply to income earned by VEBAs, SUBs or GLSOs after December 31, 1985, in the taxable years of such organizations ending after such date. For purposes of applying section 512(a)(3) to the first taxable year of such an organization ending after December 31, 1985, the income of the VEBA, SUB or GLSO earned after December 31, 1985, will be determined by allocating the total income earned for such taxable year on the basis of the calendar year 1985 and 1986 months in such taxable year. However, if a VEBA, SUB or GLSO is part of a plan that is maintained pursuant to one or more collective bargaining agreements (i) between employee representatives and one or more employers, and (ii) which are in effect on July 1, 1985 (or ratified on or before that date), the amendments do not apply to income earned in a taxable year of a VEBA, SUB or GLSO beginning before the termination of the last of the collective bargaining agreements pursuant to which the plan is maintained (determined without regard to any extension of the contract agreed to after July 1, 1985). For purposes of the preceding sentence, any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added under section 511 of the Tax Reform Act 1984 (i.e., requirements under sections 419, 419A, 512(a)(3)(E), and 4976) shall not be treated as a termination of such collective bargaining agreement.

Q-3: What amount of income may be VEBA, SUB or GLSO set aside for exempt purposes?

A-3: (a) Pursuant to section 512(a)(3)(E)(i), the amounts set aside in a VEBA, SUB, or GLSO (including a VEBA, SUB, or GLSO that is part of a 10 or more employer plan, as defined in section 419A(f)(6)(B)) as of the close of a taxable year of such VEBA, SUB, or GLSO to provide for the payment of life, sick, accident, or other benefits may not be taken into account for purposes of determining "exemption function income" to the extent that such amounts exceed the qualified asset account limit, determined under sections 419A(c) and 419A(f)(7), for such taxable year of the VEBA, SUB, or GLSO. In calculating the qualified asset account limit for this purpose, a reserve for post-retirement medical benefits under section 419A(c)(2)(A) is not to be taken into account.

(b) The exempt functions income of a VEBA, SUB, or GLSO for a taxable year of such an organization, under section 512(a)(3)(B), includes: (1) certain amounts paid by members of the VEBA, SUB, or GLSO within the meaning of the first sentence of section 512(a)(3)(B) ("member contributions"); and (2) other income of the VEBA, SUB, or GLSO (including earnings on member contributions) that is set aside for the payment of life, sick, accident, or other benefits to the extent that the total amount set aside in the VEBA, SUB or GLSO as of the close of the taxable year for any purpose (including member contributions and other income set aside in the VEBA, SUB, or GLSO as of the close of the year) does not exceed the qualified asset account limit for such taxable year of the organization. For purposes of section 512(c)(3)(B), member contributions include both employee contributions and employer contributions to the VEBA, SUB, or GLSO. In calculating the total amount set aside in a VEBA, SUB, or GLSO as of the close of a taxable year, certain assets with useful lives extending substantially beyond the end of the taxable year (e.g., buildings, and licenses) are not to be taken into account to the extent they are used in the provision of life, sick, accident, or other benefits. For example, cash and securities (and similar investments) held by a VEBA, SUB or GLSO are not disregarded in calculating the total amount set aside for this purpose because they are used to pay welfare benefits, rather than merely used in the provision of such benefits. Accordingly, the unrelated business taxable income of a VEBA, SUB, or GLSO for a taxable year of such an organization generally will equal the lesser of two amounts: (1) the income of the VEBA, SUB, or GLSO for the taxable year (excluding member contributions), or (2) the excess of the total amount set aside as of the close of the taxable year (including member contributions, and excluding certain assets with a useful life extending substantially beyond the end of the taxable year to the extent they are used in the provision of welfare benefits) over the qualified asset account limit (calculated without regard to the otherwise permitted reserve for post-retirement medical benefits) for the taxable year. See §1.419A-2T for special rules relating to collectively bargained welfare benefit funds.

(c) The income of a VEBA, SUB, or GLSO for any taxable year includes gain realized by the organization on the sale or disposition of any assset during such year. The gain realized by a VEBA, SUB, or GLSO on the sale or disposition of an asset is equal to the amount realized by the organization over the basis of such asset (in the hands of the organization), reduced by any qualified direct costs attributable to such asset (under paragraphs (b), (c) and (d) of Q&A-6 of §1.419-1T).

Q-4: What transition rules apply to "existing reserves for post-retirement medical or life insurance benefits"?

A-4: (a) Section 512(a)(3)(E)(iii)(I) provides that income that is either directly or indirectly attributable to "existing reserves for post-retirement medical or life insurance benefits" will not be treated as unrelated business taxable income. An "existing reserve for post-retirement medical or life insurance benefits" (as defined in section 512(a)(3)(E)(iii)(II)) is the total amount of assets actually set aside in a VEBA, SUB, or GLSO on July 18, 1984 (calculated in the manner set forth in Q&A-3 of this regulation, and adjusted under paragraph (c) of Q&A-11 of §1.419-1T), reduced by employer contributions to the fund on or before such date to the extent such contributions are not deductible for the taxable year of the employer containing July 18, 1984, and for any prior taxable year of the employer, for purposes of providing such post-retirement benefits. For purposes of the preceding sentence only, an amount that was not actually set aside on July 18, 1984, will be treated as having been actually set aside on such date if (1) such amount was incurred by the employer (without regard to section 461(h)) as of the close of the last taxable year of the VEBA, SUB, or GLSO ending before July 18, 1984, and (2) such amount was actually contributed to the VEBA, SUB, or GLSO within 8½ months following the close of such taxable year.

(b) In addition, section 512(a)(3)(E)(iii)(I) applies to existing reserves for such post-retirement benefits only to the extent that such "existing reserves" do not exceed the amount that could be accumulated under the principles set forth in Revenue Rulings 69-382, 1969-2 C.B. 28; 69-478, 1969-2 C.B. 29; and 73-599, 1973-2 C.B. 40. Thus, amounts attributable to such excess "existing reserves" are not within this transition rule even though they were actually set aside on July 18, 1984.

(c) All post-retirement medical or life insurance benefits (or other benefits to the extent paid with amounts set aside to provide post-retirement medical or life insurance benefits) provided after July 18, 1984 (whether or not the employer has maintained a reserve or fund for such benefits) are to be charged, first, against the "existing reserves" within this transition rule (including amounts attributable to "existing reserves" within this transition rule) for post-retirement medical benefits or for post-retirement life insurance benefits (as the case may be) and, second, against all other amounts. For this purpose, the qualified direct cost of an asset with a useful life extending substantially beyond the end of the taxable year (as determined under Q&A-6 of §1.419-1T) will be treated as a benefit provided and thus charged against the "existing reserve" based on the extent to which such asset is used in the provision of post-retirement medical benefits or post-retirement life insurance benefits (as the case may be). All plans of an employer providing post-retirement medical benefits are to be treated as one plan for purposes of section 512(a)(3)(E)(iii)(III), and all plans of an employer providing post-retirement life insurance benefits are to be treated as one plan for purposes of section 512(a)(3)(E)(iii)(III).

(d) In calculating the unrelated business taxable income of a VEBA, SUB, or GLSO for a taxable year of such organization, the total income of the VEBA, SUB, or GLSO for the taxable year is reduced by the income attributable to "existing reserves" within the transition rule before such income is compared to the excess of the total amount set aside as of the close of the taxable year over the qualified asset account limit for the taxable year. Thus, for example, assume that the total income of a VEBA for a taxable year is $1,000, and that the excess of the total amount of the VEBA set aside as of the close of the taxable year over the applicable qualified asset account limit is $600. Assume also that of the $1,000 of total income, $500 is attributable to "existing reserves" within the transition rule of section 512(a)(3)(E)(iii)(I). The unrelated business income of this VEBA for the taxable year is equal to the lesser of the following two amounts: (1) the total income of the VEBA for the taxable year ($1,000), reduced to the extent that such income is attributable to "existing reserves" within the transition rule ($500); or (2) the excess of the total amount set aside as of the close of the taxable year over the applicable qualified asset account limit ($600). Thus, the unrelated business income of this VEBA for the taxable year is $500.

Par. 19. The following new section is added immediately after §1.1041-1T:

§1.1042-1T Questions and answers relating to the sales of stock to employee stock ownership plans or certain cooperatives. (Temporary)

Q-1: What does section 1042 provide?

A-1: (a) Section 1042 provides rules under which a taxpayer may elect not to recognize gain in certain cases where "qualified securities" are sold to a qualifying employee stock ownership plan or worker-owned cooperative in taxable years of the seller beginning after July 18, 1984, and "qualified replacement property" is purchased by the taxpayer within the "replacement period." If the requirements of Q&A-2 of this section are met, and if the taxpayer makes an election under section 1042(a) in accordance with Q&A-3 of this section, the gain realized by the taxpayer on the sale of the qualified securities is recognized only to the extent that the amount realized on such sale exceeds the cost to the taxpayer of the qualified replacement property.

(b) Under section 1042, the term "qualified securities" means employer securities (as defined in section 409(l)) with respect to which each of the following requirements is satisfied: (1) the employer securities were issued by a domestic corporation; (2) for at least one year before and immediately after the sale, the domestic corporation that issued the employer securities (and each corporation that is a member of a "controlled group of corporations" with such corporation for purposes of section 409(l)) has no stock outstanding that is readily tradable on an established market; (3) as of the time of the sale, the employer securities have been held by the taxpayer for more than 1 year; and (4) the employer securities were not received by the taxpayer in a distribution from a plan described in section 401(a) or in a transfer pursuant to an option or other right to acquire stock to which section 83, 422, 422A, 423, or 424 applies.

(c) The term "replacement period" means the period which begins 3 months before the date on which the sale of qualified securities occurs and which ends 12 months after the date of such sale. A replacement period may include any period which occurs prior to July 19, 1984.

(d) The term "qualified replacement property" means any securities (as defined in section 165(g)(2)) issued by a domestic corporation which does not, for the taxable year of such corporation in which the securities are purchased by the taxpayer, have passive investment income (as defined in section 1362(d)(3)(D)) that exceeds 25 percent of the gross receipts of such corporation for the taxable year preceding the taxable year of purchase. In addition, securities of the domestic corporation that issued the employer securities qualifying under section 1042 (and of any corporation that is a member of a "controlled group of corporations" with such corporation for purposes of section 409(l)) will not qualify as "qualified replacement property."

(e) For purposes of section 1042(a), there is a "purchase" of qualified replacement property only if the basis of such property is determined by reference to its cost to the taxpayer. If the basis of the qualified replacement property is determined by reference to its basis in the hands of the transferor thereof or another person, or by reference to the basis of property (other than cash or its equivalent) exchanged for such property, then the basis of such property is not determined solely by reference to its cost to the taxpayer.

Q-2: What is a sale of qualified securities for purposes of section 1042(b)?

A-2: (a) Under section 1042(b), a sale of qualified securities is one under which all of the following requirements are met:

(1) The qualified securities are sold to an employee stock ownership plan (as defined in section 4975(e)(7)) maintained by the corporation that issued the qualified securities (or by a member of the "controlled group of corporations" with such corporation for purposes of section 409(l)) or to an eligible worker-owned cooperative (as defined in section 1042(c)(2));

(2) The employee stock ownership plan or eligible worker-owned cooperative owns, immediately after the sale, 30 percent or more of the total value of the employer securities (within the meaning of section 409(l)) outstanding as of such time;

(3) No portion of the assets of the employee stock ownership plan or eligible worker-owned cooperative attributable to qualified securities that are sold to the plan or cooperative by the taxpayer or by any other person in a sale with respect to which an election under section 1042(a) is made accrue under the plan or are allocated by the cooperative, either directly or indirectly and either concurrently with or at any time thereafter, for the benefit of (i) the taxpayer; (ii) any person who is a member of the family of the taxpayer (within the meaning of section 267(c)(4)); or (iii) any person who owns (after the application of section 318(a)), at any time after July 18, 1984, and until immediately after the sale, more than 25 percent of in value of the outstanding portion of any class of stock of the corporation that issued the qualified securities (or of any member of the "controlled group of corporations" with such corporation for purposes of section 409(l)). For purposes of this calculation, stock that is owned, directly or indirectly, by or for a qualified plan shall not be treated as outstanding.

(4) The taxpayer files with the Secretary (as part of the required election described in Q&A-3 of this section) a verified written statement of the domestic corporation (or corporations) whose employees are covered by the plan acquiring the qualified securities or of any authorized officer of the eligible worker-owned cooperative, consenting to the application of section 4978(a) with respect to such corporation or cooperative.

(b) For purposes of determining whether paragraph (a)(2) above is satisfied, sales of qualified securities by two or more taxpayers may be treated as a single sale if such sales are made as part of a single, integrated transaction under a prearranged agreement between the taxpayers.

(c) For purposes of determining whether paragraph (a)(3) above is satisfied with respect to the prohibition against an accrual or allocation of qualified securities, the accrual or allocation of any benefits or contributions or other assets that are not attributable to qualified securities sold to the employee stock ownership plan or eligible worker-cooperative in a sale with respect to which an election under section 1042(a) is made (including any accrual or allocation under any other plan or arrangement maintained by the corporation or any member of the "the controlled group of corporations" with such corporation for purposes of section 409(l)) must be made without regard to the allocation of such qualified securities. Paragraph (a)(3) above may be illustrated in part by the following example: Individuals A, B, and C own 50, 25, and 25, respectively, of the 100 outstanding shares of common stock of Corporation X. Such shares constitute qualified securities as defined in Q&A-1 of this section. A and B, but not C, are employees of Corporation X. For the benefit of all its employees, Corporation X establishes an employee stock ownership plan that obtains a loan meeting the exemption requirements of section 4975(d)(3). The loan proceeds are used by the plan to purchase the 100 shares of qualified securities from A, B, and C, all of whom elect nonrecognition treatment under section 1042(a) with respect to the gain realized on their sale of such securities. Under the requirements of paragraph (a)(3) above, no part of the assets of the plan attributable to the 100 shares of qualified securities may accrue under the plan (or under any other plan or arrangement maintained by Corporation X) for the benefit of A or B or any person who is a member of the family of A or B (as determined under section 267(c)(4)). Furthermore, no other assets of the plan or assets of the employer may accrue for the benefit of such individuals in lieu of the receipt of assets attributable to such qualified securities.

(d) A sale under section 1042(a) shall not include any sale of securities by a dealer or underwriter in the ordinary course of its trade or business as a dealer or underwriter, whether or not guaranteed.

Q-3: What is the time and manner for making the election under section 1042(a)?

A-3: (a) The election not to recognize the gain realized upon the sale of qualified securities to the extent provided under section 1042(a) shall be made in a "statement of election" attached to the taxpayer's income tax return filed on or before the due date (including extensions of time) for the taxable year in which the sale occurs. If a taxpayer does not make a timely election under this section to obtain section 1042(a) nonrecognition treatment with respect to the sale of qualified securities, it may not subsequently make an election on an amended return or otherwise. Also, an election once made is irrevocable.

(b) The statement of election shall provide that the taxpayer elects to treat the sale of securities as a sale of qualified securities under section 1042(a), and shall contain the following information:

(1) A description of the qualified securities sold, including the type and number of shares;

(2) The date of the sale of the qualified securities;

(3) The adjusted basis of the qualified securities;

(4) The amount realized upon the sale of the qualified securities;

(5) The identity of the employee stock ownership plan or eligible worker-owned cooperative to which the qualified securities were sold; and

(6) If the sale was part of a single, interrelated transaction under a prearranged agreement between taxpayers involving other sales of qualified securities, the names and taxpayer

identification numbers of the other taxpayers under the agreement and the number of shares sold by the other taxpayers. See Q&A-2 of this section.

If the taxpayer has purchased qualified replacement property at the time of the election, the taxpayer must attach as part of the statement of election a "statement of purchase" describing the qualified replacement property, the date of the purchase, and the cost of the property, and declaring such property to be the qualified replacement property with respect to the sale of qualified securities. Such statement of purchase must be notarized by the later of thirty days after the purchase or March 6, 1986. In addition, the statement of election must be accompanied by the verified written statement of consent required under Q&A-2 of this section with respect to the qualified securities sold.

(c) If the taxpayer has not purchased qualified replacement property at the time of the filing of the statement of election, a timely election under this Q&A shall not be considered to have been made unless the taxpayer attaches the notarized statement of purchase described above to the taxpayer's income tax return filed for the taxable year following the year for which the election under section 1042(a) was made. Such notarized statement of purchase shall be filed with the district director or the director of the regional service center with whom such election was originally filed, if the return is not filed with such director.

Q-4: What is the basis of qualified replacement property?

A-4: If a taxpayer makes an election under section 1042(a), the basis of the qualified replacement property purchased by the taxpayer during the replacement period shall be reduced by an amount equal to the amount of gain which was not recognized. If more than one item of qualified replacement property is purchased, the basis of each of such items shall be reduced by an amount determined by multiplying the total gain not recognized by reason of the application of section 1042(a) by a fraction, the numerator of which is the cost of such item of property and the denominator of which is the total cost of all such items of property. For the rule regarding the holding period of qualified replacement property, see section 1223(13).

Q-5: What is the statute of limitations for the assessment of a deficiency relating to the gain on the sale of qualified securities?

A-5: (a) If any gain is realized by the taxpayer on the sale of any qualified securities and such gain has not been recognized under section 1042(a) in accordance with the requirements of this section, the statutory period provided in section 6501(a) for the assessment of any deficiency with respect to such gain shall not expire prior to the expiration of 3 years from the date of receipt, by the district director or director of regional service center with whom the statement of election under 1042(a) was originally filed, of:

(1) a notarized statement of purchase as described in Q&A-3;

(2) a written statement of the taxpayer's intention not to purchase qualified replacement property within the replacement period; or

(3) a written statement of the taxpayer's failure to purchase qualified replacement property within the replacement period.

In those situations when a taxpayer is providing a written statement of an intention not to purchase or of a failure to purchase qualified replacement property, the statement shall be accompanied, where appropriate, by an amended return for the taxable year in which the gain from the sale of the qualified securities was realized, in order to reflect the inclusion in gross income from that year of gain required to be recognized in connection with such sale.

(b) Any gain from the sale of qualified securities which is required to be recognized in connection with such sale.

(b) Any gain from the sale of the qualified securities was realized, in order to reflect the inclusion in gross income for that year of gain required to be recognized in connection with such sale.

(b) Any gain from the sale of qualified securities which is required to be recognized due to a failure to meet the requirements under section 1042 shall be included in the gross income for the taxable year in which the gain was realized. If any gain from the sale of qualified securities is not recognized under section 1042(a) in accordance with the requirements of this section, any deficiency attributable to any portion of such gain may be assessed at any time before the expiration of the 3-year period described in this Q&A, notwithstanding the provision of any law or rule of law which would otherwise prevent such assessment.

Q-6: When does section 1042 become effective?

A-6: Section 1042 applies to sales of qualified securities in taxable years of sellers beginning after July 18, 1984.

ESTATE TAX REGULATIONS
(26 CFR Part 20)

Par. 20. The following new section is added after §20.2039-5 to read as follows:

§20.2039-1T Limitations and repeal of estate tax exclusion for qualified plans and individual retirement plans (IRAs). (Temporary)

Q-1: Are there any exceptions to the general effective dates of the $100,000 limitation and the repeal of the estate tax exclusion for the value of interests under qualified plans and IRAs described in section 2039(c) and (e)?

A-1: (a) Yes. Section 245 of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) [Pub. L. 97-248, 1982-2 C.B. 462, 522] limited the estate tax exclusion to $100,000 for estates of decedents dying after December 31, 1982. Section 525 of the Tax Reform Act of 1984 (TRA of 1984) repealed the exclusion for estates of decedents dying after December 31, 1984.

(b) Section 525(b)(3) of the TRA of 1984 amended section 245 of TEFRA to provide that the $100,000 limitation on the exclusion for the value of a decedent's interest in a plan or IRA will not apply to the estate of any decedent dying after December 31, 1982, to the extent that the decedent-participant was in pay status on December 31, 1982, with respect to such interest and irrevocably elected the form of benefit payable under the plan or IRA (including the form of any survivor benefits) with respect to such interest before January 1, 1983.

(c) Similarly, the TRA of 1984 provides that the repeal of the estate tax exclusion for the value of a decedent's interest in a plan or IRA will not apply to the estate of a decedent dying after December 31, 1984, to the extent that the decedent-participant was in pay status on December 31, 1984, with respect to such interest and irrevocably elected the form of benefit payable under the plan or IRA (including the form of any survivor benefits) with respect to such interest before July 18, 1984.

Q-2: What is the meaning of "in pay status" on the applicable date?

A-2: A participant was in pay status on the applicable date with respect to a portion of his or her interest in a plan or IRA if such portion is to be paid in a benefit form that has been elected on or before such date and the participant has received, on or before such date, at least one payment under such benefit form.

Q-3: What is required for an election of the form of benefit payable under the plan to have been irrevocable as of any applicable date?

A-3: As of any applicable date, an election of the form of benefit payable under a plan is irrevocable if, as of such date, it was a written irrevocable election that, with respect to all payments to be received after such date, specified the form of distribution (e.g., lump sum, level dollar annuity, formula annuity) and the period over which the distribution would be made (e.g., single life, joint and survivor, term certain). An election is not irrevocable as of any applicable date if, on or after such date, the form or period of the distribution could be determined or altered by any person or persons. an election does not fail to be irrevocable as of an applicable date merely because the beneficiaries were not designated as of such date or could be changed after such date. If any interest in any IRA may not, by law or contract, be subject to an irrevocable election described in this section, any election of the form of benefit payable under the IRA does not satisfy the requirement that an irrevocable election have been made.

PENSION EXCISE TAX REGULATIONS

(26 CFR Part 54)

Par. 21. There is added the following new section after §54.4975-15 to read as follows:

§54.4976-1T Questions and answers relating to taxes with respect to welfare benefit funds. (Temporary)

Q-1: What does section 4976 provide?

A-1: Section 4976 imposes a tax on employers who provide disqualified benefits through a welfare benefit fund. The tax imposed is equal to 100 percent of the disqualified benefit.

Q-2: What constitutes a disqualified benefit?

A-2: A disqualified benefit is (a) any post-retirement medical or life insurance benefit provided with respect to a key employee (as defined in section 419A(d)(3)) through a welfare benefit fund if a separate account is required to be established for such employee under section 419A(d) and the cost for such coverage is not charged against or paid from such separate account; (b) any post-retirement medical or life insurance benefit provided through a welfare benefit fund with respect to an individual in whose favor discrimination is prohibited unless the plan of which the fund is a part meets the requirements of section 505(b) with respect to that benefit; and (c) any portion of the fund which reverts to the benefit of the employer. A post-retirement medical or life insurance benefit provided with respect to a key employee will not constitute a disqualified benefit even though such benefit is not provided through a separate account if the cost of such benefit is paid by the employer in the taxable year in which the benefit is provided and there is not (and there is not required to be) a separate account with an outstanding credit balance maintained for the key employee.

Q-3: What is the effective date of section 4976?

A-3: (a) Generally, section 4976 applies to disqualified benefits provided by a welfare benefit fund after December 31, 1985. However, a disqualified benefit, as defined in section 4976(b)(1) or (2), is not subject to section 4976(a) if it is provided from "existing reserves for post-retirement medical or life insurance benefits" that are within the transition rule set forth in section 512(a)(3)(E)(iii) and Q&A-4 of §1.512(a)-5T (or would be if such transition rule applied to such welfare benefit fund). For example, if a welfare benefit fund in existence on July 18, 1984, provides an individual in whose favor discrimination is prohibited with a post-retirement life insurance benefit after December 31, 1985, that does not meet the requirements of section 505(b) and if the welfare benefit fund received no contributions after July 18, 1984, then the disqualified benefit provided by the fund is not subject to section 4976(a).

(b) A welfare benefit fund will be able to avoid the application of section 4976(b)(1) and (2) if the employer withdraws from such fund, before April 7, 1986, any amounts that are not attributable to "existing reserves for post-retirement medical or life insurance benefits" because they were neither actually set aside nor treated as actually set aside under Q&A-4 of §1.512(a)-5T, on July 18, 1984. The employer making such a withdrawal must include the amount in income for the first taxable year ending after July 18, 1984, or, to the extent that the withdrawn amount is attributable to the following taxable year, for such following taxable year. Such a withdrawal will not be treated as an impermissible distribution or reversion under section 501(c)(9), and will not be treated as a disqualified benefit under section 4976(b)(3). Of course, to the extent that the welfare benefit fund contains amounts that are attributable to "existing reserves" but are not within the transition rule set forth in Q&A-4 of §1.512(a)-5T (as applied to welfare benefit funds), for example, because such amounts exceed the amounts that could have been accumulated under the principles set forth in Revenue Rulings 69-382, 1969-2 C.B. 28; 69-478, 1969-2 C.B. 29; and 73-599, 1973-2 C.B. 40, the fund will not be able to avoid the application of section 4976(b)(1) and (2) under this paragraph.

(c) In the case of a plan which is maintained pursuant to one or more collective bargaining agreements (1) between employee representatives and one or more employers and (2) which are in effect on July 1, 1985 (or ratified on or before that date), the provision does not apply to disqualified benefits provided in years beginning before the termination of the last of the collective bargaining agreements pursuant to which the plan is maintained (determined without regard to any extension of the contract agreed to after July 1, 1985). For purposes of the preceding sentence, any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added under section 511 of the Tax Reform Act 1984 (i.e., requirements under sections 419, 419A, 512(a)(3)(E), and 4976) shall not be treated as a termination of such collective bargaining agreement.

Par. 22. The following new section is added immediately after §54.4976-1T:

§54.4978-1T Questions and answers relating to the tax on certain dispositions by employee stock ownership plans and certain cooperatives. (Temporary)

Q-1: What does section 4978 provide?

A-1: Section 4978 imposes a tax (as determined under section 4978(b) and Q&A-2 of this section) on the amount realized on the disposition of any qualified securities, if:

(a) An employee stock ownership plan or eligible worker-owned cooperative acquires any qualified securities in a sale to which section 1042 applies;

(b) Such plan or cooperative disposes of any qualified securities during the 3-year period after the date on which any qualified securities were acquired in the sale to which section 1042 applies; and

(c) Either (1) the percentage of the total outstanding shares of the class of employer securities of which the disposed qualified securities are a part held by such plan or cooperative after such disposition is less than the percentage of the total outstanding shares of such class of employer securities held immediately after the sale to which section 1042 applies, or (2) the value of the employer securities held by such plan or cooperative immediately after such disposition is less than 30 percent of the total value of all employer securities outstanding at that time. For purposes of this section, the following terms have the same meanings given to such terms by the identified provisions: "employee stock ownership plan" (section 4975(e)(7)); "qualified securities" (section 1042(b)(1)); "eligible worker-owned cooperative" (section 1042(b)(2)); "employer securities" (section 409(l)). For purposes of determining what constitutes a disposition to which section 4978 applies, see Q&A-3 of this section.

Q-2: What is the amount of tax imposed under section 4978?

A-2: Section 4978 imposes a tax of 10 percent of the amount realized on the disposition of qualified securities. The amount realized that is subject to tax under section 4978 shall not exceed that portion of the amount realized that is allocable to qualified securities acquired within the 3-year period prior to the date of disposition and to which section 1042 applied ("restricted qualified securities"). In determining the amount realized (except as otherwise provided in Q&A-3 of this section), any disposition of employer securities with respect to which the condition contained in provision (c) of Q&A-1 is met shall be treated, first, as a disposition of restricted qualified securities (on a first in, first out basis) and, thereafter, as a disposition of any other employer securities. Thus, for example, if a plan disposes of more employer securities than the number of restricted qualified securities held by the plan at that time and immediately after such disposition the value of the employer securities held by the plan is less than 30 percent of the total value of all outstanding employer securities, the portion of the total amount realized that is allocable to restricted qualified securities subject to tax under section 4978 is determined by multiplying the total amount realized on the disposition by a fraction, the numerator of which is the total value of restricted qualified securities included in the disposition and the denominator of which is the total value of employer securities in the disposition.

Q-3: What constitutes a "disposition" under section 4978?

A-3: (a) Under section 4978, the term "disposition" includes any sale, exchange, or distribution. However, in the case of any exchange of qualified securities for stock of another corporation in any reorganization described in section 368(a)(1), such exchange shall not be treated as a disposition for purposes of section 4978.

(b) Section 4978 shall not apply to any disposition of qualified securities which is made by reason of:

(1) The death of the employee;

(2) The retirement of the employee after the employee has attained 59½ years of age;

(3) The disability of the employee (within the meaning of section 72(m)(5)); or

(4) The separation of the employee from service for any period which results in a 1-year break in service (within the meaning of section 411(a)(6)(A)).

Any disposition of employer securities within this paragraph and any disposition of employer securities with respect to which the condition contained in provision (c) of Q&A-1 of this section is not met shall be treated, first, as a disposition of securities that are not restricted qualified securities and, thereafter, as a disposition of restricted qualified securities (on a first-in, first-out basis).

(c) If restricted qualified securities held by an employee stock ownership plan or eligible worker-owned cooperative no longer meet the definition of qualified securities ("old restricted qualified securities") as a result of a transaction changing (1) the status of a corporation as an employer, or as a member of a controlled group of corporations including the employer, or (2) the existence of employer securities of the type described in section 409(l)(1), the disposition of such securities shall not be treated as a disposition of restricted qualified securities to which the tax under section 4978 is imposed if, within 90 days after such disposition, securities meeting the requirements of section 409(l) ("new restricted qualified securities") that are of equal value to the old restricted qualified securities (that are of equal value to the old restricted qualified securities (at the time of the disposition of the old restricted qualified securities) are substituted for such old restricted qualified securities. However, for purposes of determining the tax imposed under section 4978, old restricted qualified securities shall not be treated as if they retained their status as restricted qualified securities and now restricted qualified securities derived from the disposition of old restricted qualified securities pursuant to the preceding sentence shall be treated as restricted qualified securities for the remaining portion of the period during which the disposition of the old restricted qualified securities would have been subject to tax under section 4978.

Q-4: To whom does the tax under section 4978 apply?

A-4: The tax under section 4978 is imposed on the domestic corporation (or corporations) or the eligible worker-owned cooperative that made the written statement of consent as described in section 1042(a)(2)(B) and Q&A-2 of §1.1042-1T with respect to the disposition of the restricted qualified securities.

Q-5: When does section 4978, as enacted by the Tax Reform Act of 1984, become effective?

A-5: Section 4978 applies to the disposition of qualified securities acquired in a sale to which section 1042 applies. See Q&A-6 of §1.1042-1T for the effective date of section 1042.

PROCEDURE AND ADMINISTRATION REGULATIONS

(26 CFR Part 301)

Par. 23. The following new section is added after §301.7701-16 to read as follows:

§301.7701-17T Collective-bargaining plans and agreements. (Temporary)

Q-1: How did the Tax Reform Act of 1984 (TRA of 1984) change the laws with respect to plans that are maintained pursuant to collective bargaining agreements?

A-1: (a) Many of the requirements and rules applicable to deferred compensation and welfare benefit plans are different for plans maintained pursuant to a collective bargaining agreement. Prior to the TRA of 1984, the Internal Revenue Code provided no clear definition of an employee representative or whether there is a collective bargaining agreement between such employee representative and one or more employers.

(b) Section 526(c) of the TRA of 1984 added a new condition under a new section 7701(a)(46) that must be satisfied in order for a plan to be considered to be a plan maintained pursuant to a collective bargaining agreement between employee representatives and one or more employers for purposes of the Code after March 31, 1984. If more than one-half of the membership of an organization is comprised of owners, officers, and executives of employers covered by the plan, then such organization is not an employee representative for purposes of determining whether a plan is to be treated as maintained pursuant to a collective bargaining agreement between employee representatives and one or more employers. Whether an individual is an owner, officer or executive is to be determined separately with respect to each employer. Additionally, section 7701(a)(46) provides that the Internal Revenue Service shall make the determination for purposes of the Code as to whether there is a collective bargaining agreement between employee representatives and one or more employers.

Q-2: If an organization does not fail to be an employee representative under the 50 percent or less test of section 7701(a)(46), is a plan maintained pursuant to an agreement between such organization and one or more employers necessarily treated, under the Code, as a plan maintained pursuant to a collective bargaining agreement between an employee representative and one or more employers?

A-2: (a) No.

(b) Specific Code provisions generally require other conditions than that in section 7701(a)(46) to be satisfied in order for a plan to be considered to be collectively-bargained. For example, in order for a plan to be described in section 413(a), the Secretary of Labor must find that the plan is maintained pursuant to a collective bargaining agreement between employee representatives and one or more employers.

(c) Even if (1) the finding in the example in the preceding paragraph (b) is made by the Secretary of Labor, (2) the union has been recognized as exempt under section 501(c)(5), and (3) the percentage condition in section 7701(a)(46) is satisfied, the Internal Revenue Service has the authority, pursuant to section 7701(a)(46), to determine whether there is a collective bargaining agreement under the Code.

Par. 24. The authority citation for part 602 reads as follows:

Authority: 26 U.S.C. 7805

Par. 25. Section 602.101(c) is amended by inserting the following items in the appropriate places in the table:

§1.463-1T	1545-0916
§1.505(c)-1T	1545-0916
§1.1042-1T	1545-0916

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved December 20, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on January 29, 1986, 4:04 p.m., and published in the issue of the Federal Register for February 4, 1986, 51 F.R. 4312)

Section 79.—Group-Term Life Insurance Purchased for Employees

26 CFR 1.79-4T: Questions and answers relating to the nondiscrimination requirements for group-term life insurance. (Temporary)

Effective dates and other issues arising under the employee benefit provisions of the Tax Reform Act of 1984. See T.D. 8073, page 4.

Section 125.—Cafeteria Plans

26 CFR 1.125-2T: Question and answer relating to the benefits that may be offered under a cafeteria plan. (Temporary)

Section 133.—Interest on Certain Loans to Acquire Employer Securities

26 CFR 1.133-1T: Questions and answers relating to interest on certain loans used to acquire employer securities. (Temporary)

Effective dates and other issues arising under the employee benefit provisions of the Tax Reform Act of 1984. See T.D. 8073, page 4.

Section 162.—Trade or Business Expenses

26 CFR 1.162-10T: Questions and answers relating to the deduction of employee benefits under the Tax Reform Act of 1984; certain limits on amounts deductible. (Temporary)

Effective dates and other issues arising under the employee benefit provisions of the Tax Reform Act of 1984. See T.D. 8073, page 4.

Section 163.—Interest

26 CFR 1.163-1: Interest deduction in general. (Also Sections 61, 451, 461; 1.61-7, 1.451-1, 1.461-1.)

Interest; prepayment of Rule of 78's loan. An individual borrower who prepays a loan subject to the Rule of 78's, and who has been using the economic accrual method to account for interest expense, may deduct as interest the difference between the final payment based upon application of the Rule of 78's and the final payment based upon the economic accrual of interest. An individual borrower who uses the Rule of 78's to account for interest expense, in circumstances where it is still permitted, may deduct as interest the amount allocated to interest using the Rule of 78's when the loan is prepaid. The same rules apply to lenders.

Rev. Rul. 86-42

ISSUE

If a loan agreement provides that interest is earned in accordance with the Rule of 78's method, what portion of the last payment may be deducted as interest if the loan is prepaid?

FACTS

Situation 1

On November 26, 1981, an individual, *A*, borrowed $10,000 from a bank to use for home improvements. The terms of the financing agreement provided for a self-amortizing loan with level monthly payments of $222.44 for five years. The amortization schedule implies an effective rate of interest of 12 percent. The agreement further stated that interest was to be earned and principal to be amortized in accordance with the Rule of 78's method.

On May 26, 1984, *A* prepaid the loan in full. In accordance with the loan agreement, the last payment totaled $6,045.53. This amount included the monthly payment of $222.44 and the loan balance of $5,823.09, which was determined by the application of the Rule of 78's.

If the loan had been amortized using the effective interest rate of 12 percent instead of the Rule of 78's, the last payment would have totaled $5,963.38. This amount includes the monthly payment of $222.44 and the loan balance of $5,740.94, determined using an amortization schedule based upon the effective interest rate for the loan. Using the Rule of 78's, *A*'s total payment to the lender is $82.15 greater ($6,045.53 − $5,963.38). See Table 1 for an annual summary of the loan.

Loan Amount : $10,000
Term : 5 years
Effective Interest Rate : 12 percent
Monthly Payment : $222.44

	Annual Amortization Using Economic Accrual of Interest			*Annual Amortization Using Rule of 78's*		
	Interest	Principal	Balance	Interest	Principal	Balance
Dec. 31, 1981	$ 100.00	122.44	9,877.56	109.73	112.71	9,887.29
Dec. 31, 1982	1,100.92	1,568.36	8,309.20	1,174.07	1,495.21	8,392.08
Dec. 31, 1983	901.99	1,767.29	6,541.91	912.44	1,756.84	6,635.24
May 26, 1984	311.23	800.97	5,740.94	300.05	812.15	5,823.09

Note: The final payment is determined by adding the monthly payment ($222.44) to the loan balance on May 26, 1984, based upon the application of the Rule of 78's.

During the time the loan was outstanding, *A* used the effective interest rate for the loan as the basis for determining interest expense for federal tax purposes.

Situation 2

The facts are the same as in *Situation 1* except that *B* was the borrower and, during the time the loan was outstanding, *B* used the Rule of 78's as the basis for determining interest expense for federal tax purposes.

LAW AND ANALYSIS

Section 163(a) of the Code provides that all interest paid or accrued within the taxable year on indebtedness shall be allowed as a deduction in computing taxable income. Interest has been defined as compensation for the use or forbearance of money. *Deputy v. duPont*, 308 U.S. 488, 498 (1940), 1940-1 C.B. 118, 122; *Old Colony Railroad v. Commissioner*, 284 U.S. 552, XI-1 C.B. 274 (1932).

In *General American Life Insurance Co. v. Commissioner*, 25 T.C. 1265 (1956), *acq*., 1956-2 C.B. 5, the Tax Court held that prepayment charges for a loan are an additional fee for the use of money. Similar conclusions are reached in Rev. Rul. 57-198, 1957-1 C.B. 94, which considers a mortgage prepayment penalty, and Rev. Rul. 73-137, 1973-1 C.B. 68, which considers a prepayment charge under a retail installment contract.

Rev. Rul. 83-84, 1983-1 C.B. 97, considers the use of the Rule of 78's as a method to allocate interest to periods during the term of a loan. The ruling concludes that the borrowers with loans subject to the Rule of 78's may not deduct interest that exceeds the amount economically accrued using the effective rate of interest for their loans.

Rev. Proc. 83-40, 1983-1 C.B. 774, provides an exception to Rev. Rul. 83-84. It states that the Internal Revenue Service will accept the Rule of 78's method for computing a borrower's interest deductions for certain consumer loans as a matter of administrative convenience. The exception applies only when (1) there is a self-amortizing loan that requires level payments, at regular intervals at least annually, over a period not in excess of five years (with no balloon payment at the end of the loan term), and (2) the loan agreement expressly provides that interest is earned, or upon prepayment interest is treated as earned, in accordance with the Rule of 78's method.

In *Situation 1*, when *A* prepaid the loan on May 26, 1984, the final payment ($6,045.53) included the regular monthly payment ($222.44) and the balance due ($5,740.94) based upon amortizing the loan at its effective interest rate. The final payment also included an "additional" amount ($82.15), which was the difference between the balance due based upon the Rule of 78's and the balance due based upon the economic accrual of interest ($5,823.09 − $5,740.94). This "additional" amount is similar to the prepayment charges for the loans in Rev. Rul. 57-198 and Rev. Rul. 73-137, because it is a fee for the use of money that became payable in the year of prepayment. Accordingly, *A* may deduct this sum ($82.15) as interest in 1984, as well as the amount of the regular monthly payment allocated to interest using the effective interest rate.

In *Situation 2*, Rev. Proc. 83-40 permits *B* to use the Rule of 78's. Thus, *B*'s interest deduction equals the amount of the regular monthly payment allocated to interest under the Rule of 78's. Using this allocation method, the final payment ($6,045.53) includes the regular monthly payment ($222.44) and the balance due ($5,823.09) based upon the application of the Rule of 78's. The "additional" amount described in *Situation 1* does not exist in *Situation 2*. In *Situation 2*, because *B* used the Rule of 78's method to allocate payments between principal and interest, the difference between the balance due based on the Rule of 78's and the balance due based on the economic accrual of interest had already been allocated to interest over the term of the loan prior to prepayment.

It should be noted that if a lender is using the economic accrual method to account for interest income for a loan subject to the Rule of 78's, the additional amount received upon prepayment, in excess of the loan balance computer using the economic accrual method, is interest income in the year of payment.

HOLDING

In *Situation 1*, *A* may deduct as interest for 1984 the difference between the final payment based upon application of the Rule of 78's and the final payment based upon the economic accrual of interest, in additional to the amount of each regular monthly payment allocated to interest using the economic accrual method (including the last such payment).

In *Situation 2*, *B* may deduct as interest for 1984 the sum of the amount of each monthly payment allocated to interest based upon the Rule of 78's.

Section 4051.—Imposition of Tax on Heavy Trucks and Trailers Sold at Retail

26 CFR 145.4051-1: Imposition of tax on heavy trucks and trailers sold at retail.
(Also Section 7805; 301.7805.1.)

Determination of gross vehicle weight; postponement of effective date of Rev. Rul. 85-196. Rev. Rul. 85-196 is modified to provide that its conclusion will not be applied to sales prior to October 1, 1986.

Rev. Rul. 86-43

Rev. Rul. 85-196, 1985-51 I.R.B. 5, holds that for purposes of computing the gross vehicle weight of a vehicle pursuant to section 145.4051-1(e)(3) of the Temporary Excise Tax Regulations, the seller may not take into account any readily attachable components of the vehicle and that gross vehicle weight must be determined solely on the basis of the strength of the chassis frame and the axle capacity and placement.

Rev. Rul. 85-196 is modified to provide that its conclusion will not be applied to sales prior to October 1, 1986.

Further, during the period April 1, 1986, through September 30, 1986, the seller at retail of a heavy truck or trailer may not, by replacing a readily attachable component of the vehicle, lower the gross vehicle weight rating assigned to the vehicle by its manufacturer.

26 CFR 51.4996-2: Severance tax adjustment.
(Also Sections 4986, 4988; 51.4986-1, 51.4988-1.)

Windfall profit tax; severance tax adjustment; Wyoming. The taxes imposed under Wyo. Stat. sections 39-6-302(g) and (h) are severance taxes within the meaning of section 4996(c) of the Code. The state portion of the tax imposed under Wyo. Stat. section 39-2-402 is also a severance tax within the meaning of section 4996(c). Rev. Rul. 82-87 amplified.

Rev. Rul. 86-45

ISSUE

Do the crude oil production taxes imposed by Wyoming Statutes sections 39-6-302(g) and (h) and 39-2-402 qualify as severance taxes for purposes of the crude oil windfall profit tax severance tax adjustment allowed by section 4988(a) of the Internal Revenue Code?

FACTS

Rev. Rul. 82-87, 1982-1 C.B. 189, holds, in part, that the tax imposed by Wyo. Stat. section 30-5-116 and two taxes imposed by Wyo. Stat. sections 39-6-302(a) and (b) (as in effect for removal years after 1980) on the production of crude oil are severance taxes for purposes of the crude oil windfall profit tax severance tax adjustment.

Wyo. Stat. section 39-6-302(g) (1985), added by 1981 Wyoming Session Laws Chapter 49, section 1, and amended by 1985 Wyoming Session Laws Chapter 182, section 1, imposes, except as otherwise provided in Wyo. Stat. section 39-6-302(h), an additional tax of 2 percent of the value of the gross product on the privilege of severing or extracting oil and gas.

Wyo. Stat. section 39-6-302(h), added by 1985 Wyoming Session Laws Chapter 182, Section 1, levies an excise tax of 1 1/2 percent of the value of the gross product on the privilege of severing or extracting oil and gas from collection wells prior to January 1, 1990. That section further provides that the taxes imposed by Wyo. Stat. sections 39-6-302(a), (b), and (g) do not apply to oil and gas subject to the tax imposed by section 39-6-302(h) but do apply to oil and gas extracted from collection wells on and after January 1, 1990. Wyo. Stat. section 39-6-301(a)(v) defines "collection wells" as meaning reservoir access holes drilled from underground shafts or tunnels from which oil or gas is produced.

Under Wyo. Stat. sections 39-6-301(a)(iv) and 39-6-304, the taxes imposed by section 39-6-302 for removal years after 1980 are computed based on actual production during each calendar quarter.

Wyo. Stat. section 39-2-402(a) authorizes the levy of property taxes for state purposes. Wyo. Stat. sections 39-2-402(b) through (f) authorize the levy of property taxes by counties, incorporated cities and towns, and other special districts. Under Wyo. Stat. sections 39-2-201 and 202, the State Board of Equalization is to value mines and mining claims for taxation based on the gross product for the preceding calendar year and certify the valuation to the county accessor.

Under Wyo. Stat. section 39-1-304(a), the State Board of Equalization is to annually certify the amount of the tax levy for state purposes to each County Board of Commissioners, and, under Wyo. Stat. section 39-2-403, the county board is to enter the requisite levy of record on or before the first Monday in August.

LAW AND ANALYSIS

Section 4986 of the Code imposes a tax on the windfall profit from taxable crude oil. It is to be paid by the producer of the crude oil.

Section 4988 of the Code allows a severance tax adjustment to be taken into account in determining the amount of the windfall profit.

Section 4996(c) of the Code provides that the severance tax adjustment on any barrel of crude oil is the amount by which (A) any severance tax imposed on the barrel exceeds (B) the severance tax that would have been imposed if the barrel had been valued at its adjusted base price. The term "severance tax" is defined as a tax (A) imposed by a state on the extraction of oil and (B) determined on the basis of the gross value of the extracted oil. Under section 4996(c)(3), a severance tax is not taken into account to the extent that its rate exceeds 15 percent.

Under section 51.4996-2(b) of the Excise Tax Regulations under the Crude Oil Windfall Profit Tax Act of 1980, the term "severance tax" does not include a tax levied on the value of reserves in the ground or a tax levied on the basis of net proceeds from production. Furthermore, a tax on the removal of crude oil from the ground levied as a fixed fee per barrel is not a severance tax within the meaning of section 4996(c) of the Code because the amount of that tax is not determined by reference to the gross value of the extracted oil.

The taxes imposed by Wyo. Stat. sections 39-6-302(g) and (h) are imposed by the state on the basis of the gross value of the extracted oil. Furthermore, when these taxes are added to the Wyoming severance taxes discussed in Rev. Rul. 82-87, the aggregate rate of tax does not exceed 15 percent.

The tax imposed under Wyo. Stat. section 39-2-402 is based on the gross value of the production of the calendar year preceding the year in which the tax is imposed. For example, the tax imposed in 1985 is based on 1984 production. For purposes of the windfall profit tax, therefore, producers may not deduct against 1985 production the section 39-2-402 tax that is imposed in 1985. The deduction is not allowed because there is no correspondence between the two amounts. Under section 4996(c) of the Code, the adjustment is the difference between the severance tax imposed and the severance tax that would have been imposed if the barrel had been valued at its adjusted base price. The difference between the tax actually imposed in any year by Wyo. Stat. section 39-2-402 and the tax that would have been imposed if the oil sold in that year and been valued at its adjusted base price will always be zero. The severance tax imposed in 1985 is based on the value of production in 1984 and will be the same regardless of the price of the oil or the number of barrels sold in 1985.

The severance tax offset is lost if it is not associated with the production of a particular period. In this case, if the severance tax is not associated with the production of the year preceding the imposition of the tax, a producer would be perpetually denied the effects of the severance tax adjustment with respect to Wyo. Stat. section 39-2-402, even though the rise in the price of oil due to decontrol raises the producer's severance tax liability. Further, a producer knows at the end of a calendar year the amount of production and the rate at which the tax will be assessed under Wyo. Stat. section 39-2-402. Therefore, to avoid the loss of the adjustment, the producer may take the severance tax adjustment in the current year in anticipation of the tax that will be assessed in the following year and that otherwise qualifies under section 4996(c) of the Code. This advance adjustment based on the following year's severance tax applies only for purposes of the windfall profit tax. For income tax purposes, a deduction for the severance tax may be taken only when the tax has been paid or accrued.

The tax imposed under Wyo. Stat. section 39-2-402 is not entirely a tax imposed by the state. Rather, it is a combination of taxes, some of which are imposed by the state and some of which are imposed by the counties (or other local governments). Although the tax is mandated by state statute and the rates for the state portion are set statewide, there is no requirement that any county have a tax for county purposes. Therefore, since section 4996(c) of the Code requires that a qualifying severance tax be a state tax, the adjustment must be limited to that portion of the tax imposed by the state, currently 4.3 percent. When this tax is added to the taxes discussed in Rev. Rul. 82-87 and the taxes imposed by Wyo. Stat. sections 39-6-302(g) and (h), the aggregate rate of tax does not exceed 15 percent. Therefore the state tax portion of the tax imposed by Wyo. Stat. section 39-2-402 may be taken into account for purposes of determining the severance tax adjustment.

HOLDING

The taxes imposed under Wyo. Stat. sections 39-6-302(g) and (h) are severance taxes within the meaning of section 4996(c) of the Code and may be taken into account in determining the severance tax adjustment.

The state portion of the tax imposed under Wyo. Stat. section 39-2-402 is a severance tax within the meaning of section 4996(c) of the Code and may be taken into account in determining the severance tax adjustment in the production year to which the tax relates.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 82-87 is amplified.

26 CFR 51.4996-2: Severance tax adjustment. (Also Sections 4986, 4988; 51.4986-1, 51.4988-1.)

Windfall profit tax; severance tax adjustment; New Mexico. The taxes imposed under N.M. Stat. Ann. sections 7-29-4, 7-30-4, and 7-31-4 are severance taxes within the meaning of section 4996(c) of the Code. The state portion of the tax imposed under N.M. Stat. Ann. 7-32-4 is also a severance tax within the meaning of section 4996(c). The portion of the tax imposed for purposes of other governmental units is not a severance tax.

Rev. Rul. 86-46

ISSUE

Are the taxes described below, imposed by the State of New Mexico on the production of oil, severance taxes for purposes of the crude oil windfall profit tax severance tax adjustment allowed by section 4988(a) of the Internal Revenue Code?

FACTS

New Mexico Statutes Annoted section 7-29-4 imposes, effective March 1, 1980, a tax of 3.75 percent of the taxable value of oil and of liquid hydrocarbons that are removed from natural gas at or near the wellhead and are severed and sold. Prior to March 1, 1980, the tax imposed by section 7-29-4 was a fixed fee per barrel.

N.M. Stat. Ann. section 7-30-4 imposes an Oil and Gas Conservation Tax of 0.19 percent of the taxable value of products sold.

N.M. Stat. Ann. section 7-31-4 imposes an Oil and Gas Emergency School Tax on the privilege of severing products in New Mexico. The tax is 3.15 percent of the taxable value of such products.

For purposes of these taxes (N.M. Stat. Ann. Sections 7-29-4, 7-30-4, and 7-31-4), taxable value generally is the value of the oil removed less royalties paid or due to exempt entities and the reasonable expense of trucking the oil from the property to the first place of market.

N.M. Stat. Ann. section 7-32-4 levies an Oil and Gas Ad Valorem Production Tax on the assessed value of products which are severed and sold from each production unit at the rate certified to the oil and gas accounting division of the taxation and revenue department by the department of finance and administration under N.M. Stat. Ann. section 7-37-7. The assessed value of products is determined under N.M. Stat. Ann. section 7-32-5 by applying the uniform assessment ratio (33 1/3 percent) to the taxable value of products (150 percent of the value of products less certain deductions).

Under N.M. Stat. Ann. sections 7-37-7 and 7-38-33 the secretary of finance and administration sets forth the tax rates for each of the governmental units that share in the tax levied under section 7-32-4 on a property. These rates are based on the budgets of each unit, legislative enactment of rates for state purposes, special levies, amounts needed to satisfy judgements, and debt service on general obligation bonds. The county treasurer prepares tax bills showing, among other things, the taxable value of the property, the allocation of net taxable value to the governmental units, the rate and amount of tax for each tax imposed for the governmental units sharing in the tax on the property under section 7-32-4. Any tax from a property is divided among those governmental units that have jurisdiction over the area in which the property is located. The governmental units that share in the tax include the state, counties, municipalities, and school districts.

LAW AND ANALYSIS

Section 4986 of the Code imposes a tax on the windfall profit from taxable crude oil. It is to be paid by the producer of the crude oil.

Section 4988 of the Code allows a severance tax adjustment to be taken into account in determining the amount of the windfall profit.

Section 4996(c) of the Code provides that the severance tax adjustment on any barrel of crude oil will be the amount by which (A) any severance tax imposed on the barrel exceeds (B) the severance tax that would have been imposed if the barrel had been valued at its adjusted base price. The term 'severance tax" is defined as a tax (A) imposed by a state on the extraction of oil and (B) determined on the basis of the gross value of the extracted oil. Under section 4996(c)(3), a severance tax is not taken into account to the extent that its rate exceeds 15 percent.

Under section 51.4996-2(b) of the Excise Tax Regulations under the Crude Oil Windfall Profit Tax Act of 1980, the term 'severance tax" does not include a tax levied on the value of reserves in the ground or a tax levied on the basis of net proceeds from production. Furthermore, a tax on the removal of crude oil from the ground levied as a fixed fee per barrel is not a severance tax within the meaning of section 4996(c) of the Code because the amount of that tax is not determined by reference to the gross value of the extracted oil.

Under section 51.4996-2(c)(2) of the regulations, the amount of a state's severance tax taken into account under section 51.4996-2(a) shall not exceed the amount which would have been imposed under that state's severance tax as in effect on March 31, 1979, unless that excess is attributable to an increase in the rate of the severance tax (or to the imposition of a severance tax) which applies equally to all portions of the gross value of each barrel of oil subject to that tax. For purposes of this subparagraph, the conversion of a tax levied at a fixed fee per barrel into a tax based on the gross value of oil removed constitutes an initial imposition of a severance tax.

The taxes imposed under N.M. Stat. Ann. sections 7-29-4, 7-30-4, and 7-31-4 are all imposed by the State on the basis of the gross value of each barrel of crude oil subject to the taxes. In addition, the tax imposed by section 7-29-4, which was converted from a fixed fee to a percentage of gross value after March 31, 1979, applies equally to all portions of the gross value of each barrel of oil subject to the tax.

The tax imposed under N.M. Stat. Ann. section 7-32-4 differs from the other taxes imposed by the State of New Mexico described above in several respects. Even though collected as a single tax it is made up of several taxes levied by the State for state purposes and levied on behalf of various local jurisdictions for local purposes. The rates of tax imposed for state purposes are uniform state wide and are set by the State. The rates of tax imposed for local purposes are based on various factors, such as budgets, special levies, and bond issues, which vary from one governmental unit to another. Under the statutory provisions for setting the rate of the Ad Valorem Production Tax, a change in the budget of a political subdivision of the State, or the approval of a special levy or general obligation bond issue by a political subdivision, will have the effect of changing the tax rate to be applied to oil produced from a property located within the jurisdiction of the political subdivision. Thus, even though the secretary of finance and administration formally sets the rates of tax for political subdivisions, those rates are indirectly, but significantly, determined by the political subdivisions of the State, and not by the State alone. This is not in substance a tax imposed by a state within the meaning of section 4996(c) of the Code.

HOLDINGS

The taxes imposed by N.M. Stat. Ann. sections 7-29-4, 7-30-4, and 7-31-4 are severance taxes within the meaning of section 4996(c) of the Code and may be taken into account in determining the severance tax adjustment to the extent that the aggregate amount of all severance taxes imposed by the

State of New Mexico does not exceed 15 percent.

The portion of the tax imposed under N.M. Stat. Ann. section 7-32-4 for state purposes is a severance tax for purposes of the windfall profit tax severance tax adjustment. The portion of the tax imposed for the purposes of other governmental units is not a severance tax for purpose of the windfall profit tax severance tax adjustment.

Section 7805.—Rules and Regulations

26 CFR 301.7805-1: Rules and regulations.

The effective date of Rev. Rul. 85-196, 1985-51 I.R.B. 5, is postponed until October 1, 1986. See Rev. Rul. 86-43, page 36.

Section 7871.—Indian Tribal Governments Treated As States for Certain Purposes

Indian tribal governments; treatment as states or political subdivisions. Rev. Ruls. 58-610, 68-231 and 74-179 are declared obsolete.

Rev. Rul. 86-44

The Indian Tribal Governmental Tax Status Act of 1982, 1983-1 C.B. 510, 511, added certain provisions to the Internal Revenue Code that pertained to the status of Indian tribal governments. For two years beginning in 1983, Indian tribal governments (or subdivisions thereof) are to be treated as states (or political subdivisions thereof) for specified federal tax purposes.

Before 1982, the Service had published several revenue rulings which either held or were based upon the assumption that an Indian tribe is neither a state nor a political subdivision. Rev. Rul. 58-610, 1958-2 C.B. 815, Rev. Rul. 68-231, 1968-1 C.B. 48, and Rev. Rul. 74-179, 1974-1 C.B. 279, applied variously to estate and gift taxes, charitable deductions, tax-exempt municipal bonds, and excise taxes and found Indian tribes to be communities rather than states or political subdivisions. As a result of the 1982 enactment, Rev. Rul. 84-93, 1984-1 C.B. 279, suspended Rev. Rul. 58-610, Rev. Rul. 68-231 and Rev. Rul. 74-179.

Section 7871 of the Code, added by the Indian Tribal Government Tax Status Act of 1982, describes the circumstances under which an Indian tribal government shall be treated as a state or a political subdivision. The term "Indian tribal government" is defined under section 7701(a)(40) to mean the governing body of any tribe, band, community, village, or group of Indians, or (if applicable) Alaska Natives, that is determined by the Secretary of the Treasury, after consultation with the Secretary of the Interior, to exercise governmental functions. Section 7871(d) provides that for purposes of section 7871, a subdivision of an Indian tribal government shall be treated as a political subdivision of a state if (and only if) the Secretary of the Treasury determines (after consultation with the Secretary of the Interior) that such subdivision has been delegated the right to exercise one or more of the substantial governmental functions of the Indian tribal government.

Rev. Proc. 83-87, 1983-2 C.B. 606, provides a list of Indian tribal governments that were to be treated as states for the two-year period. Rev. Proc. 84-36, 1984-1 C.B. 510, sets forth a list of subdivisions of Indian tribal governments that are to be treated as political subdivisions of states for the two-year period, and Rev. Proc. 84-37, 1984-1 C.B. 513, provides procedures under which a governmental unit of an Indian tribe or subdivision thereof may request a determination qualifying it for treatment as a state or political subdivision of a state for purposes of section 7871 of the Code.

Section 1065 of the Tax Reform Act of 1984, 1984-3 (Vol. 1) C.B. 556, made permanent the rules treating Indian tribal governments (or subdivisions thereof) as states (or political subdivisions thereof).

Rev. Proc. 86-17, page 40, this Bulletin, modifies Rev. Proc. 83-87, Rev. Proc. 84-36 and Rev. Proc. 84-37 to eliminate the two-year limitation period.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 58-610, Rev. Rul. 68-231, Rev. Rul. 74-179 and Rev. Rul. 84-93 are declared obsolete.

Certain revenue procedures suspended as to their respective applications to Indian tribes, or subdivisions thereof. See Rev. Proc. 86-17, page 40.

26 CFR 601.201: Rulings and determination letters.
(Also Section 7871.)

Rev. Proc. 86-17

SECTION 1. BACKGROUND

The Indian Tribal Governmental Tax Status Act of 1982, 1983-1 C.B. 510, 511, added certain provisions to the Internal Revenue Code that pertained to the status of Indian tribal governments. Forr two years beginning in 1983, Indian tribal governments (or subdivisions thereof) are to be treated as states (or political subdivisions thereof) for specified federal tax purposes.

Rev. Proc. 83-87, 1983-2 C.B. 606, provides a list of Indian tribal governments that were to be treated as states for the two-year period. Rev. Proc. 84-36, 1984-1 C.B. 510, sets forth a list of subdivisions of Indian tribal governments that are to be treated as political subdivisions of states for the two-year period, and Rev. Proc. 84-37, 1984-1 C.B. 513, provides procedures under which a governmental unit of an Indian tribe or subdivision thereof may request a determination qualifying it for treatment as a state or political subdivision of a state for purposes of section 7871 of the Code.

Section 1065 of the Tax Reform Act of 1984, 1984-3 (Vol. 1) C.B. 556, made permanent the rules treating Indian tribal governments (or subdivisions thereof) as states (or political subdivisions thereof).

SEC. 2. PROCEDURE

Rev. Proc. 83-87, Rev. Proc. 84-36 and Rev. Proc. 84-37 are modified by deleting the two-year limitation referred to therein.

SEC. 3. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 83-87, Rev. Proc. 84-36 and Rev. Proc. 84-37 are modified.

6. INQUIRIES

7. EFFECT ON OTHER DOCUMENTS

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 81-62, 1981-2 C.B. 684, which sets forth in a checklist questionnaire the information that must be included in a request for a ruling under sections 302 and 311 of the Internal Revenue Code, relating to distributions in redemption of stock.

SEC. 2. BACKGROUND

The Internal Revenue Service receives many requests for rulings in which the information relating to the proposed transaction is not sufficient to permit a determination to be made. In these cases, it is necessary to obtain additional facts from the taxpayer before the request for a letter ruling can be considered. Obtaining these additional facts is time consuming for both Service personnel and taxpayers and delays issuance of the ruling letter.

This checklist will facilitate the filing and processing of requests for rulings under sections 302 and 311 of the Code by showing specific information and representations to be included so that the requests will be as complete as possible when initially filed. Because the information and representations necessary to rule on a particular transaction depend upon all the facts and circumstances, information or representations in addition to those set forth in this revenue procedure may be required.

The authority and general procedures of the National Office of the Internal Revenue Service and of the office of the District Directors of Internal Revenue with respect to the issuance of letter rulings and determination letters are outlined in Rev. Proc. 86-1, 1986-1 I.R.B. 6. See also Rev. Proc. 86-3, 1986-1 I.R.B. 26, relating to areas in which advance rulings generally will not be issued. These revenue procedures, along with the present checklist revenue procedure, are subject to periodic updating by the Service. Therefore, careful attention should be given to ensure usage of the most current revenue procedures.

Careful attention to all requirements of these revenue procedures will aid in the timely processing of letter ruling requests.

SEC. 3. CHANGES

.01 Section 1 is modified to indicate that the purpose of the revenue procedure is to update Rev. Proc. 81-62.

.02 Section 2 is modified to state that representations are now required, and to update references to revenue procedures cited.

.03 Section 4 is modified to update references to Code sections.

.04 Section 5 is substantially altered. The taxpayer must now submit standard representations using the precise language specified herein, or submit an explanation why the representations cannot be made in the requested form. Sections 5.021, 5.032, 5.033, 5.041, 5.044, 5.051, and 5.052 are modified accordingly. To properly reflect applicable changes, some citations to Code sections and to revenue rulings and procedures have been added or deleted. Changes include:

1 Section 5.012 now requires taxpayers to submit information concerning any prior ruling requests submitted by the taxpayer (or predecessor) that were withdrawn in which the identical or similar issue was present.

2 Section 5.014 has been deleted.

3 Section 5.02 is modified to update references to revenue procedures cited.

4 Section 5.022(b) is modified to reflect the addition of section 318(a)(5)(E) to the Code.

5 Section 5.023 is amplified to request information concerning the acquisition by the Redeemed Shareholder of the redeemed stock.

6 Section 5.033(a) is modified to request information concerning changes in Corporation's outstanding equity in the past 5 years.

7 Section 5.033(b) is modified to request details of transactions involving any related corporation.

8 Section 5.033(c) is modified to include indirect sales or acquisitions of Corporation's stock by the Redeemed Shareholder.

9 Section 5.041(b)(2)(C) is modified to request supporting relevant authority for taxpayer's contention.

10 Section 5.041(c) is added and requests information and a representation if the Redeemed Shareholder is an entity.

11 Section 5.043 is modified to update reference to the partial liquidation section and to request supporting authority for taxpayer's contention.

12 Section 5.044(a)) is modified to request information if common stock is to be redeemed.

13 Section 5.062(b)(5) is modified to show changes in the recapture provisions.

14 Section 5.07 is modified to request general information, and requires taxpayers to list the specific rulings being requested and the authorities supporting the rulings.

.05 Section 6 is modified to substitute Associate Chief Counsel (Technical) for Assistant Commissioner (Technical), and CC:C:R for T:C:R.

.06 Section 7 is modified to state that Rev. Proc. 81-62 is superseded.

SEC. 4. TRANSACTIONS TO WHICH SECTION 303 OR 302(b)(4) OF THE CODE APPLIES

.01 *Section 303. Distribution in redemption to pay death taxes.*—To the extent the distribution is within the terms of section 303 of the Code, section 302(b)(1), (2) or (3) does not apply to the distribution. If the stock redeemed was included in a decedent's gross estate, see section 303 which treats these redemptions under certain circumstances as in full payment in exchange for the stock so redeemed.

.02 *Section 302(b)(4). Distribution in partial liquidation.*—If any part of the distribution will qualify as a partial liquidation under section 302(b)(4) of the Code, state the amount and the reason reasons why it qualifies under section 302(b)(4). See Rev. Proc. 81-42, 1981-2 C.B. 611.

SEC. 5. INFORMATION TO BE INCLUDED IN REQUESTS FOR RULINGS UNDER SECTIONS 302 AND 311 OF THE CODE

Each of the items in this section should be specifically dealt with in the letter ruling request. If an item is not applicable, so state, and breifly explain why. Standard representations are set forth throughout this section and are highlighted by the word "representation" in boldface type. These representations are of equal importance with the other factual information requested herein. The representations function to ensure that specific statutory and judicial requirements and administrative ruling guidelines are satisfied. Each representation set forth in this section should be submitted precisely in the languge requested. If a representation cannot be submitted as requested, an explanation must be given. Variations of the language of the representations may delay processing the ruling request and will not be accepted unless reasons satisfactory to the Service are submitted. Submission of the information and representations should follow the format of this revenue procedure as closely as possible, with appropriate descriptive headings. Care must be taken to ensure that all the facts relating to the transaction are submitted.

.01 *Information regarding the corporation that is redeeming its stock (Corporation).*

1 Identification.—Name, taxpayer identification number, and place and date of incorporation of Corporation.

2 Jurisdiction.—Identify the District Office that will have audit jurisdiction over the return of Corporation (referred to below as "taxpayer"). State whether, to the best knowledge of the taxpayer and the taxpayer's representatives, if any, the identical issue is in a return of the taxpayer (or of a related taxpayer within the meaning of section 267 of the Code, or a member of an affiliated group of which the taxpayer is also a member within the meaning of section 1504) and, if so, whether the issue (1) is being examined by a District Director, (2) has been examined by a District Director and (a) the statutory period of limitation either on assessment or for filing a claim for refund or credit of tax has not expired and (b) a closing agreement covering the issue or liability has not been entered into by a District Dirctor, (3) is being considered by an Appeals Office in connection with the taxpayer's return for an earlier period, (4) has been considered by an Appeals Office and (a) the statutory period of limitation either on assessment or for filing a claim for refund or credit of tax has not expired and (b) a closing agreement covering the issue or liability has not been entered into by an Appeals Office, or (5) is pending in litigation in a case involving the taxpayer or a related taxpayer. The request must contain a statement whether, to the best knowledge of the taxpayer and the taxpayer's representatives, the identical or a similar issue has been (i) submitted to the Service, but withdrawn before a ruling was issued, or (ii) ruled on by the Service to the taxpayer or the taxpayer's predecessor and, if so, when and with what result. If, after the request is filed but before a ruling is issued, the taxpayer knows that an examination of the issue by a District Director has been started, the taxpayer must notify the National Office of this action. If a return is filed before a ruling is received from the National Office concerning the issue that is the subject of the request for ruling, a copy of the request must be attached to the return. This alerts the District Office and avoids premature District action on the issue.

3. Business.—Provide the following information about Corporation: (i) a brief description of its businesses, (ii) its method of acounting, and (iii) its tax year.

.02 *Description of Corporation's capital structure and ownership of Corporation's stock.*

1 Description of capital structure.

(a) In general.—Furnish a complete description of each class of Corporation's outstanding stock (throughout this document the word "stock" includes all forms of equity ownership), setting forth the rights and privileges of each class, including voting or nonvoting rights, dividend and liquidation preferences or limitations, and whether classified as common or preferred stock. Also describe all other outstanding interests (bonds, debentures, notes, warrants, options, etc.), and briefly explain why each of these items should or should not be considered a stock interest. If Corporation has no outstanding interests convertible into stock, submit the following **REPRESENTATION:** *There are no outstanding options or warrants to purchase Corporation stock, nor are there any outstanding debentures or other obligations that are convertible into Corporation stock or would be considered Corporation stock.* Applying the constructive ownership rules of section 318(a) of the Code, state the relationship between the shareholders and the creditors of Corporation. In addition, describe any new debt or equity that Corporation anticipates issuing.

(b) Distribution of obligations of Corporation.—If applicable, submit the following **REPRESENTATION:** *No notes or other obligations of Corporation will be distributed to a redeemed shareholder.* Alternatively, if notes or other obligations of Corporation will be distributed to a shareholder whose stock is being redeemed (a Redeemed Shareholder), furnish the following:

(1) Copy.—Provide a copy or prototype of the instrument that sets forth its terms and limitations.

(2) Period of payments.—Give the beginning and ending payment dates. Submit the following **REPRESENTATION:** *In no event will the last payment on any note or other obligation be made more than 15 years after the date of issuance of the note or other obligation.* See section 4.0112 of Rev. Proc. 86-3.

(3) Payment of fixed amount.—State whether the amount to be paid, including interest, is a fixed amount payable at a fixed time, and whether the amount or the time of payment is subject to any change or adjustment. Submit the following **REPRESENTATION:** *None of the consideration from Corporation, including interest, consists entirely or partly of corporation's promise to pay an amount that is based on, or contingent on, future earnings of Corporation, an amount that is contingent on working capital being maintained at a certain level, or any other similar contingency.* See section 3.0117 of Rev. Proc. 86-3. Alternatively, furnish any

payments' terms and reasons why the right to the payments should not be considered an equity interest in Corporation.

(4) Financial statements.—Submit profit and loss statements and balance sheets for the latest 3 years.

(5) Subordination.—Submit the following REPRESENTATION: *Any note or other obligation to be issued to a redeemed shareholder will not be subordinated to the claims of general creditors of Corporation.*

(6) Default.—Submit the following REPRESENTATION: *In the event of default on any note or other obligation, no shares of stock will revert to or be received by a redeemed shareholder nor will any redeemed shareholder be permitted to purchase the stock at public or private sale.* See Section 3.0116 of Rev. Proc. 86-3.

2 Ownership of stock before the redemption.

(a) Shares owned directly.—State the total number of shares outstanding for each class of stock in Corporation immediately before the redemption. Also state the number of shares and percentage of each class of stock owned directly by each shareholder immediately before the redemption. However, if there are more than 25 shareholders, the statement in the preceding sentence may be limited to Redeemed Shareholders and those shareholders whose stock is attributed to them under section 318(a) of the Code.

(b) Shares constructively owned.—State the number of shares and percentage of each class of stock constructively owned by each Redeemed Shareholder, and the relationship under section 318(a) of the Code of any person or entity whose stock is attributed to a Redeemed Shareholder. In determining stock constructively owned by each Redeemed Shareholder under section 318(a), ownership may be attributed any number of times from one individual or entity to another, as provided in section 318(a)(5)(A). However, observe the exception in section 318(a)(5)(B) with respect to double attribution among members of the family (under section 318(a)(1)) and the exception in section 318(a)(5)(C) with respect to "sidewise" attribution to (under section 318(a)(3)) and from (under section 318(a)(2)) a partnership, estate, trust, or corporation.

Also, observe the following exceptions to constructive ownership: (i) to (under section 318(a)(3) of the Code) and from (under section 318(a)(2)) an employees' trust described in section 401(a) that is exempt from tax under section 501(a); and (ii) to a trust (under section 318(a)(3)) if the beneficiary's interest is a remote contingent interest. If it is contended that a trust is an employees' trust or that a beneficiary's interest is a remote contingent interest, submit information to support the contention.

In addition, observe that pursuant to section 318(a)(5)(E) of the Code, an S corporation is treated as a partnership and each of its shareholders as partners of the partnership for purposes of section 318(a). But note the limitation for purposes of constructive ownership provided by section 318(a)(5)(E).

(1) Section 318(a)(1) of the Code: family attribution.—If the Redeemed Shareholder is an individual, indicate the number of shares and percentage of each class of stock of Corporation owned actually and constructively under section 318(a) by members of the Redeemed Shareholder's family described in section 318(a)(1).

(2) Section 318(a)(2) of the Code: attribution from a partnership, estate trust, or corporation.—Indicate the number of shares and percentage of each class of stock of Corporation owned actually and constructively under section 318(a) by any partnership, estate, trust, or corporation in which the Redeemed Shareholder has an interest and the interest of the Redeemed Shareholder in each of these entitles.

(3) Section 318(a)(3) of the Code: attribution to a partnership, estate, trust, or corporation.—Indicate the number of shares and percentage of each class of stock of Corporation owned actually and constructively under section 318(a) as follows: (i) by any of the partners if the Redeemed Shareholder is a partnership; or (ii) by any of the beneficiaries if the Redeemed Shareholder is a trust or estate; or (iii) by any of the shareholders owning actually or constructively, under section 318(a), 50 percent or more in value of the stock of the Redeemed Shareholder, if the Redeemed Shareholder is a corporation.

(4) Section 318(a)(4) of the Code: options to acquire stock of Corporation.—Identify all holders of any rights or options (including those in the form of convertible debentures and stock rights or warrants) to acquire stock of Corporation and the relationship, direct or indirect under section 318(a), of the option holders to each of the Redeemed Shareholders.

(c) Percent of stock owned.—Indicate the total percentage of each class of stock of Corporation owned actually and constructively, as determined in section 5.022(a) and (b) above, by each shareholder of Corporation immediately before the redemption.

3 Stock to be redeemed.—State the number of shares of each class of stock to be redeemed from each shareholder of Corporation listed in section 5.022(a) above. Unless the stock is traded on an established securities market, also state when, from whom, and for what consideration each Redeemed Shareholder received the equity interest being redeemed.

4 Ownership of stock after the redemption.—Indicate the number of shares of each class of stock of Corporation owned actually and constructively by each shareholder, the total outstanding, and the percentage of each class of stock owned actually and constructively by each Redeemed Shareholder immediately after the redemption, determined in the same manner and including the same information as required in section 5.022 above.

.03 *Other relationships or transactions.*—Information showing the complete factual background relating to the redemption of each Redeemed Shareholder.

1 Other relationships between Corporation and any Redeemed Shareholder.—With regard to each Redeemed Shareholder, state whether the shareholder was, or will be, an employee of, an officer of, or in any way related to, Corporation. Describe fully all business and debtor-creditor relationships between each Redeemed Shareholder and Corporation. Describe all direct and indirect payments by Corporation to, or for the benefit of, each Redeemed Shareholder. (See e.g., Rev. Rul. 77-467, 1977-2 C.B. 92 and section 3.0118 of Rev. Proc. 86-3.) Give details of any agreements between a Redeemed Shareholder and Corporation, such as an employment contract, covenant not to compete, insurance,

pensions, deferred compensation, or other benefits, and state whether the agreements, payments, or benefits had an affect upon the amount of property to be distributed in the redemption. Describe any property a Redeemed Shareholder will transfer or surrender in the transaction other than stock of Corporation, and the consideration to be received in exchange therefor. State whether any part of the consideration from Corporation will be received by a Redeemed Shareholder, directly or indirectly, as a creditor, employee, or in some capacity other than as a Redeemed Shareholder. Describe whether the Redeemed Shareholder conducts or will conduct any business with, or leases or will lease any property to, Corporation.

2 Agreements between shareholders.—Submit the following REPRESENTATION: *No shareholder of Corporation has been or will be obligated to purchase any of the stock to be redeemed.* Alternatively, if there are, or within the 3-year period prior to the transaction have been, any agreements between a Redeemed Shareholder and other shareholders as to the acquisition or disposition of any equity interest, such as buy-sell agreements or options, describe the agreements or options in full. Submit copies of all pertinent agreements. See Rev. Rul. 69-608, 1969-2 C.B. 43.

3 Other transactions.—Submit the following REPRESENTATION: *The redemption described in this ruling request is an isolated transaction and is not related to any other past or future transaction.* Alternatively, state whether there have been, or will be, any related transactions, and, if so, briefly describe these other transactions and fully explain their relationship to, and impact on, the present transaction. See section 9.06 of Rev. Proc. 86-1.

(a) Transactions involving Corporation.—If there have been no changes in Corporation's outstanding equity in the past 5 years, submit the following REPRESENTATION: *There have been no redemptions, issuances, or exchanges by Corporation of its stock in the past 5 years.* Alternatively, describe all changes in Corporation's outstanding equity during this period, including every redemption, issuance, or exchange of stock by Corporation. State whether any of the shareholders involved in any of these prior transactions are Redeemed Shareholders, or related within the meaning of section 318 of the Code to a Redeemed Shareholder, in the present transaction.

If no future transactions are planned or intended, submit the following REPRESENTATION: *Corporation has no plan or intention to issue, redeem, or exchange additional shares of its stock.* Alternatively, if any issuances, redemptions, or exchanges are planned, describe the transaction, the number and type of shares, and the consideration to be paid or received in exchange for the stock, and state whether any of the shareholders involved in any future transaction are Redeemed Shareholders, or related within the meaning of section 318 of the Code to a Redeemed Shareholder, in the present transaction.

(b) Transactions involving any related corporation.—State whether there were, or will be, any distributions, redemptions, or issuances of stock of any related corporation, and if so, briefly describe the transactions and fully explain their relationship to the present transaction.

(c) Transactions involving any Redeemed Shareholder.—State whether any Redeemed Shareholder or a related party has sold or acquired, or intends to sell or acquire, any stock in Corporation or any related corporation either directly or constructively within five years of the redemption. If so, state the number of shares of each class, identify the parties to the transaction, the relationship of the parties and their relationship to any Redeemed Shareholder within the meaning of section 318(a) of the Code, and the consideration to be received in exchange therefor. State whether the sale or disposition of the stock has been considered consummated in computing the ownership of stock before and after the redemption in section 5.022 and 4 above. State whether Corporation will be liable, directly or indirectly, for any part of the buyer's obligation in the purchase of stock. See Rev. Rul. 69-608, *supra.*

4 In general.—Describe any relationship or transaction between Corporation and any Redeemed Shareholder, and describe any transaction by either Corporation or any Redeemed Shareholder, if the relationship or transaction affects the Redeemed Shareholder's percentage ownership of any class of Corporation's stock, regardless of whether the transaction or relationship is past, contemplated, or not considered related to the redemption.

.04 *Information to determine whether the redemption is an exchange or dividend.*

1 Termination of shareholder's interest.

(a) Complete termination of shareholder's stock interest.—

Submit the following REPRESENTATION: *None of the redeemed shareholders are related, within the meaning of section 318 of the Code, to any remaining shareholders of Corporation.*

(b) Termination of shareholder's interest except for constructive ownership under section 318(a)(1) of the Code.—If it is contended there has been a complete termination of a Redeemed Shareholder's interest except for constructive ownership from a family member under section 318(a)(1) so that section 302(b)(3) should apply pursuant to the application of section 302(c)(2), furnish the following with respect to the Redeemed Shareholders:

(1) Identity of the Redeemed Shareholders.

(2) Acquisitions or dispositions of stock of Corporation within the last 10 years by the Redeemed Shareholders. Do not include a change in interest resulting from partition of community property. See Rev. Rul. 82-129, 1982-2 C.B. 76.

(A) Acquisitions by Redeemed Shareholder within the last 10 years.—Submit the following REPRESENTATION: *None of the stock to be redeemed was acquired by the redeemed shareholder within the 10-year period preceding the redemption from a person whose stock would be attributed under section 318(a) of the Code to the redeemed shareholder at the time of redemption.* (Alternatively, see (C) below.)

(B) Dispositions by Redeemed Shareholder within the last 10 years.—Submit the following REPRESENTATION: *No person whose stock would be attributed to the redeemed shareholder under section 318(a) of the Code will own stock of Corporation after the redemption if the stock was acquired by that person from the redeemed shareholder within 10 years preceding the redemption.*

(Alternatively, see (C) below.)

(C) Avoidance of federal income tax.—If the representation in either (A) or (B) immediately above cannot be furnished because of an acquisition or disposition described therein, but it is contended that the acquisition or disposition did not have as one of its principal purposes the avoidance of federal income tax, give a full description of the acquisition or disposition and furnish an analysis of both the facts and supporting relevant authority for the contention. See section 3.0119 of Rev. Proc. 86-3.

(3) Interest in Corporation after the redemption.

(A) No interests other than creditor and constructive owner under section 318(a)(1) of the Code.—Describe whether Corporation will provide any compensation or economic benefit to any Redeemed Shareholder (regardless of whether the compensation or benefit is related to prior services) including termination bonuses, payments under covenants not to compete, free insurance, and future employment of any type whether directly as an officer or employee or indirectly as an independent contractor or consultant. Submit the following REPRESENTATION: *After the redemption, no redeemed shareholder will have any interest in Corporation, including an interest as officer, director, or employee (other than an interest as a creditor as described in section 1.302-4(d) of the Income Tax Regulations, and constructive ownership under section 318(a)(1) of the Code).* See Rev. Ruls. 84-135, 1984-2 C.B. 80, 81-233, 1981-2 C.B. 83, and 71-426, 1971-2 C.B. 173.

(B) Agreement as to future interests.—When attribution under section 318(a)(1) of the Code is to be waived pursuant to section 302(c)(2)(A), submit the following REPRESENTATION: *Each redeemed shareholder will execute and file the agreement required by section 302(c)(2)(A)(iii) of the Code with respect to the acquisition of any interest in Corporation within 10 years from the date of the redemption.*

(C) Termination of entity-shareholder's interest except for constructive ownership under section 318(a)(1) of the Code.—If a partnership, estate, trust, or corporation is a Redeemed Shareholder and stock is attributed to it under section 318(a)(3) of the Code from a "related person" (defined in section 302(c)(2)(C)(ii)), submit: (i) the name and relationship to the entity of each related person; (ii) the representations in section 5.041(b)(2)(A) for each Redeemed Shareholder and in section 5.041(b)(2)(B) for each Redeemed Shareholder and each related person (or the information in section 5.041(b)(2)(C)); (iii) the information and representations required by section 5.041(b)(3)(A) and (B) for each Redeemed Shareholder and each related person; and (iv) the following REPRESENTATION: *The Redeemed Shareholder and each related person will agree to be jointly and severally liable for any deficiency (including interest and additional tax) resulting from an acquisition of an interest in Corporation within 10 years from the date of the redemption.*

2 Substantially disproportionate redemption.—If it is contended the redemption is substantially disproportionate to one or more of the Redeemed Shareholders, furnish the information required in section 302(b)(2) of the Code with respect to each of those shareholders.

(a) Fifty-percent rule.—State the percent of the total combined voting power of all classes of stock entitled to vote owned actually and constructively by each Redeemed Shareholder (as determined in section 5.024 above) immediately after the redemption.

(b) Eighty-percent rule.—Submit computations to show that each Redeemed Shareholder owns actually and constructively immediately after the redemption (as determined under section 5.024 above) less than 80 percent of the percentage of the outstanding common stock (voting and nonvoting) owned immediately before the redemption, in accordance with the requirements in section 302(b)(2)(C) of the Code. If a Redeemed Shareholder holds no common stock, either directly or constructively, no computation for common stock is required (see Rev. Rul. 81-41, 1981-1 C.B. 121).

3 Redemption not essentially equivalent to a dividend.—If the redemption does not qualify as a partial liquidation under section 302(b)(4) of the Code, as an exchange under section 303, or under section 302(b)(2) or (3), and it is contended "the redemption is not essentially equivalent to a dividend" within the meaning of section 302(b)(1), submit whatever facts and analysis of supporting authority are relevant with respect to each Redeemed Shareholder (which have not been furnished above) to support this contention. Supply information to show that each Redeemed Shareholder will have a meaningful reduction in proportionate interest in vote, dividend rights, and right to receive assets on liquidation with regard to Corporation. See *United States v. Davis*, 397 U.S. 301 (1969), Ct. D. 1937, 1970-1 C.B. 62, section 1.302-2 of the regulations, and Rev. Rul. 81-289, 1981-2 C.B. 82.

4 Other information to determine whether the redemption is an exchange, a dividend, or other ordinary income transaction to the Redeemed Shareholder or any other person.

(a) "Section 306 stock".—If it is contended that none of the stock to be redeemed is "section 306 stock" within the meaning of section 306(c) of the Code, submit the following REPRESENTATION: *None of the stock to be redeemed is "section 306 stock" within the meaning of section 306(c) of the Code.* If the stock to be redeemed is common stock, state whether it was received in exchange for preferred stock. If the stock to be redeemed is preferred stock, furnish the following information:

(1) Issued for cash.—If issued for cash, furnish a statement to that effect and state whether the stock was paid for in full.

(2) Issued upon incorporation.—If the stock was issued upon incorporation in exchange for property, furnish a statement to that effect. (See section 306(c)(3) and (4) of the Code.)

(3) Issued under other circumstances.

(A) When issued.—Give the date or dates on which the stock was issued.

(B) Transaction.—Describe the transaction in which the stock was issued (whether a stock dividend, a reorganization, or other transaction).

(c) Consideration to Corporation.—Describe the kind of property, if any, Corporation received in exchange for the stock.

(b) Declared but unpaid dividends.—Submit the following REPRESENTATION: *There are no de-*

clared but unpaid dividends, or funds set apart for dividends, on any of the stock to be redeemed. (See Rev. Rul. 75-320, 1975-2 C.B. 105, and Rev. Rul. 69-130, 1969-1 C.B. 93.)

(c) Financing of redemption.—State the source of the cash or other property to be distributed in the redemption. If cash has been or will be borrowed for the redemption, give full particulars as to the parties to, and terms of, the loan agreement.

(d) Stock not to be cancelled, retired, or held as treasury stock.—If a party other than Corporation will hold the stock to be redeemed, give all facts concerning the arrangement and the conditions, if any, under which the stock may be returned to the Redeemed Shareholder or any person other than Corporation, and the relationship under section 318(a) of the Code of that person to the Redeemed Shareholder.

(e) Debt owed by Redeemed Shareholder to Corporation.—If a Redeemed Shareholder owes any amount to Corporation, state the circumstances under which the debt arose, the terms of the debt, and when and how it will be discharged.

(f) Redemption price and fair market value of the stock.—Submit the following REPRESENTATION:*At the time of the exchange, the fair market value of the consideration to be received by the redeemed shareholder will be approximately equal to the fair market value of Corporation's stock to be exchanged therefor.* Alternatively, if it will not be approximately equal, give a complete explanation, including the fair market value of both the stock redeemed and the assets distributed.

05 *Effect on Redeemed Shareholder when redemption is treated as an exchange.*

1 Loss to Redeemed Shareholder.—Submit the following REPRESENTATION: *The price to be paid for Corporation's stock to be redeemed will not result in a loss with respect to those shares of stock.* Alternatively, if any Redeemed Shareholder will realize a loss on the redemption, state reasons to establish why section 267 of the Code will not apply.

2 Installment method.—If a Redeemed Shareholder requests a ruling that the installment method under section 453 of the Code will apply to the redemption, furnish information to support the contention that the requirements in section 453(b) will be met with respect to the Redeemed Shareholder. Further, submit the following REPRESENTATION: *The redemption of Corporation stock (i) is not a disposition of personal property on the installment plan by a person who regularly sells or otherwise disposes of personal property on the installment plan and (ii) is not a disposition of personal property of a kind required to be included in the inventory of any redeemed shareholder at the close of the taxable year. Any note or other obligation to be issued to a redeemed shareholder will not be issued in any form designed to render it readily tradable on an established securities market.* See section 453(b), (f)(2), and (f)(5) of the Code.

06 *Property distributed in redemption of the stock.*—Describe in detail the property to be received by each Redeemed Shareholder.

1 United States cash.—Indicate the amount of United States cash (including cash equivalents within the meaning of Rev. Rul. 66-290, 1966-2 C.B. 112) to be distributed to each Redeemed Shareholder.

2 Property other than United States cash.

(a) Description.—Describe fully all types and categories of property, tangible and intangible, other than United States cash (including cash equivalents within the meaning of Rev. Rul. 66-290), to be distributed by Corporation to each Redeemed Shareholder.

(b) Recognition of gain or income to Corporation.—In order to determine whether gain or income will be recognized to Corporation upon the distribution of property, provide the following:

(1) Inventory (section 311(b)).—A statement whether any inventory will be distributed and, if distributed, whether Corporation is on the LIFO method of inventory.

(2) Liability in excess of basis (section 311(c)).—A statement as to the amount of any liabilities to be assumed by a Redeemed Shareholder, the amount of any liability to which the property distributed is subject, and the adjusted basis in the hands of Corporation of all property distributed.

(3) Appreciated property (section 311(d)).—A statement whether any appreciated property will be distributed by Corporation to a Redeemed Shareholder as part of the redemption. If so, state any exceptions or limitations which may be applicable to prevent recognition of gain to Corporation and give reasons for their applicability.

(4) Unreported and anticipatory assignment of income.—State whether Corporation will distribute to a Redeemed Shareholder any assets which represent earned but unreported income such as receivables being reported on a cash basis, unfinished construction contracts, commissions due, or other assets resulting in an anticipatory assignment of income.

(5) Installment obligations and recapture provisions.—State whether Corporation will distribute to a Redeemed Shareholder in the redemption (i) any installment obligations (section 453B of the Code), (ii) any property described in the recapture provisions of the Code including, but not limited to, sections 47, 291(a), 341(f), 617(d), 897(d), 904(f), 1245(a), 1248(f), 1250(c), 1252(a), 1254, or 1255, (iii) - any property for which the taxpayer obtained a deduction (See *Hillsboro National Bank v. Commissioner*, 460 U.S. 370 (1983); Rev. Rul. 74-396, 1974-2 C.B. 106; Rev. Rul. 61-214, 1961-2 C.B. 60), or (iv) any property described in sections 1256 or 1276.

(6) Reserve for bad debts.—A statement whether Corporation will distribute to a Redeemed Shareholder any receivables. If so, state the amount of any reserve for bad debts related to the receivables.

(7) Sale, lease, or other disposition of property.—State whether the Redeemed Shareholder will sell, lease, or otherwise dispose of any property received in the redemption, and give full particulars as to the circumstances and agreement with respect to the sale, lease, or other disposition. If property will be leased back to Corporation, submit a copy of the lease, and state whether: (i) the terms of the lease are the result of arm's-length negotiation; (ii) the payments to be made thereunder will be in an amount equal to the fair rental value of the property; (iii) the payments will be dependent on the future earnings of Corporation; and (iv) - the payments will be subordinated to the claims of general creditors. See Rev. Rul. 77-467, 1977-2 C.B. 92.

(8) Cross-redemption.—If the Redeemed Shareholder is a corporation and the property to be distributed by the Corporation is stock of the Redeemed Shareholder, submit a statement concerning treatment of the cross-redemption by each of the corporations, together with a statement of relevant authorities to support the treatment.

.07 *General*

1 Additional statements.—See Rev. Proc. 86-1 for additional information and statements that must be submitted with all ruling requests, including statements required under sections 9.02 and 9.09 (relating to instructions to taxpayers).

2 Requested rulings.—List the rulings being requested in the exact wording desired, and provide statutory, regulatory, or other authority for their issuance.

3 Taxpayer's memorandum.—Submit the information required by section 9.08 of Rev. Proc. 86-1 (relating to relevant authorities regarding the tax results of the transaction).

SEC. 6. INQUIRIES

Inquiries in regard to this revenue procedure should refer to its number and should be addressed to the Associate Chief Counsel (Technical), Attention: CC:C:R, Internal Revenue Service, Washington, D.C. 20224.

SEC. 7. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 81-62 is superseded.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Effective Dates and Other Issues Arising Under the Employee Benefit Provisions of The Tax Reform Act of 1984

EE-96-85

SUMMARY: * * * [T]he Internal Revenue Service is issuing temporary regulations relating to effective dates and certain other issues arising under the employee benefit provisions of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. The text of those temporary regulations also serves as the comment document for this notice of proposed rulemaking.

DATES: Written comments and requests for a public hearing must be delivered or mailed by April 7, 1986. The regulations are proposed to be effective on varying dates provided in the temporary regulations.

ADDRESS: Send comments and request for a public hearing to Commissioner of Internal Revenue, Attn: CC:LR:T (EE-96-85), 1111 Constitution Avenue N.W., Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: John T. Ricotta of the Employee Plans and Exempt Organizations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224, Attention: CC:LR:T (EE-96-85), telephone: 202-566-3544 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

The temporary regulations provide guidance concerning the economic performance requirement for certain employee benefits under section 461(h) of the Internal Revenue Code of 1954 (Code), as added by section 91 of the Tax Reform Act of 1984 (Act) (P.L. 98-369, 98 Stat. 598); the transitional rule for vested accrued vacation pay under section 463 of the Code, as amended by section 91(i) of the Act (P.L. 98-369, 98 Stat. 609); the treatment of group-term life insurance purchased for employees under section 79 of the Code, as amended by section 223 of the Act (P.L. 98-369, 98 Stat. 775); the treatment of funded welfare benefit plans under sections 419 and 419A of the Code, as added by section 511 of the Act (P.L. 98-369, 98 Stat. 854); the treatment of unfunded deferred benefits under sections 404(b) and 162 of the Code, as amended by section 512 of the Act (P.L. 98-369, 98b Stat. 862); additional requirements for tax-exempt status of certain organizations under section 505 of the Code, as added by section 513 of the Act (P.L. 98-369, 98 Stat. 863); rollovers of partial distributions under sections 402 and 403 of the Code, as amended by section 522 of the Act (P.L. 98-369, 98 Stat. 868); distributions where substantially all contributions are employee contributions under section 72 of the Code, as amended by section 523 of the Act (P.L. 98-369, 98 Stat. 871); repeal of the estate tax exclusion for qualified plan benefits under section 2039 of the Code, as amended by section 525 of the Act (P.L. 98-369, 98 Stat. 873); determination of whether there is a collective bargaining agreement under section 7701(a)(46) of the Code, as added by section 526(c) of the Act (P.L. 98-369, 98 Stat. 881); nonrecognition of gain on stock sold to an employee stock ownership plan (ESOP) under section 1042 of the Code, as added by section 541 of the Act (P.L. 98-369, 98 Stat. 887); deductibility of dividends relating to ESOPs under sections 404 and 3405 of the Code, as amended by section 542 of the Act (P.L. 98-369, 98 Stat. 890); exclusion of interest on ESOP loans under section 133 of the Code, as added by section 543 of the Act (P.L. 98-369, 98 Stat. 894); treatment of an employer and an employee benefit association as related under section 1239 of the Code, as amended by section 557 of the Act (P.L. 98-369, 98 Stat. 898); and technical corrections to the pension provisions of the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462] under sections 713 and 715 of the Act (P.L. 98-369, 98 Stat. 955, 966). The proposed regulations are issued under the authority contained in section 7805 of the Code (26 U.S.C. §7805). For the text of the temporary regulations, see * * * [T.D. 8073, page 4, this Bulletin].

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although this document is a notice of proposed rulemaking which solicits public comment. the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before the adoption of these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register. The collection of information requirements contained herein have been submitted to the Office of Management and Budget (OMB) for review under section 4504(h) of the Paperwork Reduction Act. Comments on the requirements should be sent to the Office of Information and Regulatory Affairs, of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests persons submitting comments to OMB also to send copies of the comments to the Service.

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on January 29, 1986, 4:06 p.m., and published in the issue of the Federal Register for February 4, 1986, 51 F.R. 4391)

Foundations Status of Certain Organizations

Announcement 86-39

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings or designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does *not* indicate that the organizations have lost their status as organizations described in section 501(c)(3), eligible to receive deductible contributions.

Former Public Charities. The following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundations:

Ann Mary Kelly Foundation for the Performing Arts, Sepulveda, CA

Wilson Park Council for Youth and Community Development, The, Philadelphia, PA
Wings of Eagles Ministries, Pitman, NJ
Women for International Aid, Bogota, NJ
Zeta Nu Lambda Scholarship and Education Fund, Inc., Plainfield, NJ

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classification as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)-7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

Correction of Error in Publication 572 Announcement 86-41

Publication 572, *Investment Credit*, (Rev. Nov. 85) contains an error in Example 4 in the third column on page 14. The years 1981, 1982 and 1983 in the second paragraph of that example should be 1980, 1981, and 1982, respectively.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Dal H. Felkel	Kingstree, SC	Certified Public Accountant	Indefinite from January 31, 1986
John J. Matonis	Walnut, CA	Attorney	Indefinite from January 24, 1986
Joel A. Shor	Baltimore, MD	Certified Public Accountant	Five Months from December 15, 1985
Patrick H. Diamond	New York, NY	Attorney & Certified Public Accountant	Indefinite from February 10, 1986
Folger P. Gifford	Cold Spring Harbor, NY	Certified Public Accountant	Indefinite from February 11, 1986
Robert Allen Beamer	Wauwatosa, WI	Attorney	Indefinite from February 19, 1986
Robert L. Cummings	Springfield, MO	Certified Public Accountant	Indefinite from February 27, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.103-10, amended.	Definition of "principal user"	1986-12 I.R.B. 19	Apr. 22, 1986
26 CFR 1.103-10, revised.	$40 million limitation on beneficiaries of certain tax-exempt bonds	1986-12 I.R.B. 22	Apr. 22, 1986

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

SPECIAL ANNOUNCEMENT

Announcement 86-42, page 13.
A public hearing will be held on April 29, 1986, on proposed regulations relating to the taxation of fringe benefits.

INCOME TAX

Rev. Rul. 86-50, page 9.
Federal short-term, mid-term, and long-term rates. For purposes of section 1274(d) of the Code, relating to certain transactions in which a debt instrument is issued for property, a table sets forth the applicable federal short-term, mid-term, and long-term rates for April 1986.

Announcement 86-47, page 44.
The Service is considering whether the rules of subchapter L of the Code (and, in the case of life insurance companies, section 1.817-4(d) of the regulations) and/or the "tax benefit" rule require the taxation of income from the release of certain reserves when an election is made under section 338 of the Code to treat the purchase of stock of an insurance company as an asset acquisition.

EMPLOYEE PLANS

Rev. Rul. 86-47, page 4.
Funding; adjustments to funding standard account for spinoff of a plan. Guidance is provided for adjustments to the minimum funding requirements when a single plan, having assets greater in value than the present value of plan benefits on a termination basis, spins off assets and liabilities, and when one of the resultant spunoff plans has an unfunded accrued liability and the other does not. Rev. Rul. 81-212 amplified.

Rev. Rul. 86-48, page 6.
Spinoff; transfer; benefits on a termination basis. A defined benefit plan may fail to satisfy the spinoff requirements under section 414(l) of the Code if plan benefits included under section 411(d)(6)(B) or required under section 417(c) are not included in the determination of "benefits on a termination basis" within the meaning of section 1.414(l)-1(b)(5) and (n)(1) of the regulations.

Rev. Rul. 86-51, page 4.
Integrated pension plan; joint employers; compensation. An integrated pension plan will not automatically fail to qualify under section 401(a) of the Code because all compensation received by each employee from the employers who jointly maintain the plan is considered as total compensation for the purposes of determining excess contributions and plan benefits. Rev. Rul. 55-276 superseded.

Announcement 86-43, page 13.
In accordance with Section 12 of Rev. Proc. 84-23, set forth is a list of master and prototype plans closed or disposed of by the National Office of the Internal Revenue Service between October 1, 1985, and December 31, 1985, and a list of plans erroneously omitted from Announcement 85-99.

EXEMPT ORGANIZATIONS

Rev. Rul. 86-49, page 7.
Qualification; organization for historic preservation. An organization formed for the purpose of preserving the historic or architectural character of a community through the acquisition and occasional restoration of historically or architecturally significant properties, subject to restrictive covenants and subsequent disposition of these properties qualifies for exemption under section 501(c)(3) of the Code.

ADMINISTRATIVE

Rev. Proc. 86-19, page 10.
Automatic data processing systems; guidelines. The basic requirements that the Service considers to be essential in cases where a taxpayer's records are maintained within an Automatic Data Processing System are specified. References to the Automatic Data Processing System include all accounting and/or financial systems that process all or part of a taxpayer's transactions, records, or data by other than manual records. Rev. Procs. 64-12 and 80-42 superseded.

Announcement 86-44, page 41.
New Form 8404, Computation of Interest Charge on DISC-Related Deferred Tax Liability, is now available at most Service offices.

Finding Lists begin on page 48.
Announcement of Suspensions on page 45.
Announcement of Notice of Proposed Rulemaking on page 46.
Quarterly Index for January, February, and March begins on page 50.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

READEX FICHE best copy available

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 401.—Qualified Pension, Profit-Sharing, and Stock Bonus Plans

26 CFR 1.401-1: Qualified pension, profit-sharing, and stock bonus plans.
(Also Section 414; 11.414(c)-1.)

Integrated pension plan; joint employers; compensation. An integrated pension plan will not automatically fail to qualify under section 401(a) of the Code because all compensation received by each employee from the employers who jointly maintain the plan is considered as total compensation for the purposes of determining excess contributions and plan benefits. Rev. Rul. 55-276 superseded.

Rev. Rul. 86-51

PURPOSE

The purpose of this revenue ruling is to restate the position in Rev. Rul. 55-276, 1955-1 C.B. 401, under current law.

ISSUE

The issue in Rev. Rul. 55-276 is whether an integrated retirement plan maintained jointly by more than one employer will fail to qualify under section 401(a) of the Internal Revenue Code if all compensation received by each employee from one or more of the participating employers is considered as the total compensation for the purpose of determining excess compensation and the benefits under the plan.

FACTS

The *X*, *Y*, and *Z* corporations jointly maintain a single retirement plan that is not a collectively bargained plan. The plan provides for an annual retirement benefit of 30 percent of annual compensation in excess of $7,200. Annual compensation includes compensation paid from *X*, *Y*, and *Z* corporations. Thus, for example, employee *A*, who is employed by all three corporations, receiving an annual salary of $6,000 from *X* corporation, $4,000 from *Y* corporation, and $2,000 from *Z* corporation is entitled to a benefit based on $4,800 of excess compensation ($12,000 minus $7,200). The *X*, *Y*, and *Z* corporations are not affiliated and are not considered as a single employer under section 414(b), (c), or (m) of the Code.

LAW AND ANALYSIS

Section 401(a)(4) of the Code provides that a plan will not qualify unless the contributions or the benefits provided under the plan do not discriminate in favor of employees who are officers, shareholders, or highly compensated.

Section 1.401-1(d) of the Income Tax Regulations provides that a plan maintained by several employers will qualify if all the qualification requirements are otherwise satisfied.

In this case, benefits are provided to the employees whose total compensation exceeds the applicable integration level of $7,200. The amount of compensation received by *A* from a single employer is less than the plan's applicable integration level. Therefore, such employee would accrue no benefit if the plan were maintained by any single employer. Because the plan's provisions take compensation received from all jointly participating employers into consideration as the employee's total compensation, such employee is eligible for benefits.

Similarly, an employee whose compensation from each employer exceeds $7,200 receives a greater benefit from each employer under the jointly maintained plan since the total compensation is reduced only once by the $7,200 integration level and not once by each employer.

Basing integrated plan benefits on amounts in addition to compensation received from an individual employer does not necessarily cause discrimination in favor of officers, shareholders, or highly compensated employees. However, in testing whether a multiple employer plan, such as the plan maintained by *X*, *Y*, and *Z*, satisfies section 401(a)(4), the contributions or benefits provided by each employer are examined separately. In undertaking this examination with respect to an employer, only the compensation from that employer will be taken into account. Thus, for example, if only a few of a particular employer's rank-and-file employees are employed by more than one of the participating employers, the use of total compensation paid by all participating employers to employees who are officers, shareholders, or highly compensated may, in operation, result in discrimination prohibited under section 401(a)(4) of the Code.

HOLDING

In the case, the plan will not fail to qualify under section 401(a) of the Code merely because all compensation received by each employee from the unaffiliated employers that jointly maintain the plan is considered as the total compensation for the purpose of determining excess compensation and the benefits under the plan. However, the basis under which plan benefits are provided may in operation result in failure to satisfy section 401(a)(4).

The principles described above also apply for purposes of testing discrimination under section 410(b) of the Code.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 55-276 is superseded.

Section 411.—Minimum Vesting Standards

26 CFR 1.411(d)-3: Other special rules.

Whether plan benefits that are (a) included in participants' acrued benefits under section 411(d)(6)(B) of the Code or (b) required under sections 401(a)(11)(A)(ii) and 417(c) must be included in the determination of "benefits on a termination basis" within the meaning of section 1.414(1)-1(b)(5) and (n)(1) of the regulations. See Rev. Rul. 86-48, page 6.

Section 412.—Minimum Funding Standards

(Also Section 414; 26 CFR 1.414(1)-1.)

Funding; adjustments to funding standard account for spinoff of a plan. Guidance is provided for adjustments to the minimum funding requirements when a single plan, having assets greater in value than the present value of plan benefits on a termination basis, spins off assets and liabilities, and when one of the resultant spunoff plans has an unfunded accrued liability and the other does not. Rev. Rul. 81-212 amplified.

Rev. Rul. 86-47

ISSUES

In the case of a spinoff of a defined benefit plan having plan assets with a fair market value in excess of the present value of all plan benefits on a termination basis (within the meaning of section 1.414(l)-1 of the Income Tax Regulations) into two separate defined benefit plans:

(1) How is the credit balance in the funding standard account (FSA) of the plan prior to the spinoff allocated to the resultant spunoff plans?

(2) How are the amortization bases of the FSA of the plan prior to the spinoff allocated to the resultant spunoff plans?

FACTS

Prior to January 1, 1983, W was a defined benefit pension plan for which costs were computed using the entry age normal funding method. As of January 1, 1983, the beginning of the calendar plan year, W was spun-off into two defined benefit plans, X and Y. The assets of W were allocated between X and Y by a method not inconsistent with section 1.414(l)-1 of the regulations. The spinoff did not satisfy the de minimis rule in section 1.414(l)-1(n)(2). The allocations were made as described below:

	Plan W	Plan X	Plan Y
FSA credit balance	$ 20,000		
Market value of assets	400,000	$ 80,000	$320,000
Actuarial value of assets	375,000		
Present value of plan benefits on a termination basis for Code section 414(l)	180,000	58,000	122,000
Entry age normal accrued liability	425,000	200,000	225,000
Outstanding balance and remaining period of amortization bases			
Base A (28 payments remaining)	100,000		
Base B (14 payments remaining)	(30,000)		

LAW, ANALYSIS AND HOLDINGS

Issue 1:

When a defined benefit plan subject to the minimum funding standards undergoes a spinoff, each of the resulting plans must begin maintaining a separate FSA. The credit of debit balance of the single plan prior to the spinoff must be allocated to the FSAs of the spunoff plans on a reasonable basis, taking into account the assets and liabilities allocated between the plans in accordance with section 1.414(l)-1 of the regulations. Thus, the sum of the credit balances of each of the spunoff plans must equal the credit balance of the plan immediately prior to the spinoff.

Rev. Rul. 81-212, 1981-2 C.B. 99, provides a satisfactory method of allocating the credit balance between two plans that resulted from the spinoff of a single plan. However, that revenue ruling considers only the situation where the fair market value of plan assets is not greater than the present value of plan benefits on a termination basis. In such case, the allocation of any credit balance between the two plans is uniquely determined in that there can be but one possible result. As specified in Rev. Rul. 81-212, the credit balance of the single plan before the spinoff should be allocated between the spunoff plans under the asset allocation rules of section 1.414(l)-1(n) of the regulations with the credit balance considered to be the last portion of the assets allocated. This revenue ruling, following the principles of Rev. Rul. 81-212, provides in the case of a spinoff of an overfunded plan, a uniquely determined allocation of acredit balance with respect to any given spinoff.

In the case where, immediately prior to the spinoff, the fair market value of plan assets is greater than the present value of plan benefits on a termination basis, the credit balance of the single defined benefit plan (W) immediately before the spinoff should be allocated between the two plans (X and Y) resulting from the spinoff in the following manner:

(a) Allocate an amount equal to the lesser of (i) the excess of the fair market value of W's assets over W's FSA credit balance, or (ii) the present value of W's plan benefits on a termination basis, between X and Y in accordance with the asset allocation rules in section 1.414(l)-1(n) of the regulations.

(b) Allocate the credit balance of W between X and Y in proportion to the excess, for each plan, of the fair market value of assets actually allocated to each spunoff plan over the amount determined for each plan in step (a).

In the situation presented in this revenue ruling, the fair market value of W's assets minus W's FSA credit balance is greater than the present value of W's plan benefits on a termination basis. Therefore, the amount to be allocated in step (a) between X and Y is equal to the present value of W's plan benefits on a termination basis (i.e., $180,000). The required allocation in step (a) of such $180,000 using the rules of section 1.414(l)-1(n) of the regulations is $58,000 to X and $122,000 to Y. The excess of the fair market value of W's assets over the present value of W's plan benefits on a termination basis is $220,000. The excess of the fair market value of assets actually allocated to X ($80,000) over the amount allocated to X under step (a) ($58,000) is $22,000. The corresponding excess for Y is $198,000 (i.e., $320,000 minus $122,000). Under step (b), W's credit balance ($20,000) is allocated between X and Y in proportion to such excess amounts. Thus, a credit balance of $2,000 ($20,000 times the ratio of $22,000 to $220,000) is allocated to X. The credit balance allocated to Y is $18,000 ($20,000 times the ratio of $198,000 to $220,000).

Issue 2:

The allocation of W's amortization bases between X and Y must reasonably reflect the assets and liabilities of the two plans. Thus, the sum of the outstanding balances of W's amortization bases with a particular amortization period must equal the sum of the outstanding balances of the amortization bases with the same amortization period allocated to X and Y.

Rev. Rul. 81-212 provides a satisfactory method of allocating the amortization bases of a single defined benefit plan between two plans that result from a spinoff. However, that revenue ruling considers only the situation where each spunoff plan has an unfunded accrued liability, i.e., where, for each spunoff plan, the accrued liability is greater than the actuarial value of assets. In such case, the outstanding portion of each amortization base of the single plan before the spinoff is allocated between the plans resulting from the spinoff in proportion to the excess, for each spunoff plan, of (i) the accrued liability of the spunoff plan over (ii) the actuarial value of assets of the spunoff plan decreased by the credit balance or increased by the funding definciency of such plan. Rev. Rul. 81-212 does not address the situation where one or both of the two spunoff plans do not have an unfunded accrued liability.

As stated in Rev. Rul. 81-212, the actuarial value of assets of W ($375,000) should be allocated between X and Y in proportion to the fair market value of assets allocated to the two plans. Therefore, the actuarial value of assets of X is $75,000 ($375,000 times the ratio of $80,000 to $400,000), and X's unfunded accrued liability is $125,000 ($200,000 minus $75,000). The actuarial value of assets of Y is $300,000 ($375,000 times the ratio of $320,000 to $400,000), and Y has no unfunded accrued liability ($300,000 is greater than Y's accrued liability of $225,000).

Because X has an unfunded accrued liability and Y has no unfunded accrued liability, all of W's amortization bases should be allocated to X, retaining the remaining amortization period of each base. In addition, a new amortization base must be established for X. The outstanding balance of the new base is (1) the unfunded accrued liability of X ($125,000), minus (2) the sum of the outstanding balances of all amortization bases (treating the outstanding balances of credit bases under section 412(b)(3)(B) of the Internal Revenue Code as negative numbers) allocated to X, plus (3) the $2,000 credit balance of X previously computed under Issue 1. The amortization period of the new base will be the greater of (a) the amortization period of the base that would result if all amortization bases in the FSA of X prior to the establishment of the new base were combined and offset in accordance with section 412(b)(4) of the Code, and (b) 15 years. (It is not necessary to combine and offset the bases of X. It is only necessary to determine the amortization period that would result from combining and offsetting the bases.)

The net sum of the outstanding balances of the bases in W's FSA allocated to X is $70,000 ($100,000 minus $30,000). Therefore, the outstanding balance of the new base established as a result of the spinoff is $57,000 ($125,000 − $70,000 + $2,000). If the two amortization bases of X prior to the establishment of the new base were offset, the resulting base would have an amortization period of 28 years. Thus, the amortization period of the new base is 28 years (i.e., the greater of 28 and 15 years).

For Y, the actuarial value of assets is greater than the accrued liability. No amortization bases of W are allocated to Y and none should be established as a result of the spinoff. Also, no amortization bases should be established in Y in subsequent years until the accrued liability of Y is greater than the actuarial value of assets.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 81-212 is amplified.

Section 414.—Definitions and Special Rules

26 CFR 11.414(c)-1: Commonly controlled trades or businesses.

Whether an integrated pension plan jointly maintained by employers who are not considered as a single employer under section 414(b), (c), or (m) of the Code will automatically fail to qualify under section 401(a) because all compensation received by each employee from the employers is considered as total compensation for the purpose of determining excess contributions and plan benefits. See Rev. Rul. 86-51, page 4.

---

26 CFR 1.414(l)-1: Mergers and consolidations of plans or transfers of plan assets.
(Also Section 411; 1.411(d)-3.)

Spinoff; transfers; benefits on a termination basis. A defined benefit plan may fail to satisfy the spinoff requirements under section 414(1) of the Code if plan benefits included under section 411(d)(6)(B) or required under section 417(c) are not included in the determination of "benefits on a termination basis" within the meaning of section 1.414(1)-1(b)(5) and (n)(1) of the regulations.

Rev. Rul. 86-48

ISSUE

Must plan benefits that are (a) included in participants' accrued benefits under section 411(d)(6)(B) of the Internal Revenue Code or (b) required under sections 401(a)(11)(A)(ii) and 417(c) be included in the determination of "benefits on a termination basis" within the meaning of section 1.414(1)-1(b)(5) and (n)(1) of the Income Tax Regulations?

FACTS

An employer mantained a nonmultiemployer defined benefit plan qualified under section 401(a) of the Code which was spunoff into two defined benefit plans as described in section 1.414(1)-1(b)(4) of the regulations. However, the benefits on a termination basis in the plan immediately prior to the spinoff was determined without regard to the benefits of participants that are (a) early retirement benefits, retirement-type subsidies and optional forms of benefits included in participants' accrued benefits under section 411(d)(6)(B) or (b) qualified preretirement survivor annuities required under sections 401(a)(11)(A)(ii) and 417(c).

LAW AND ANALYSIS

Section 414(1) of the Code provides that a plan will not qualify under section 401, in the case of any transfer of assets or liabilities of such plan to any other plan, unless each participant in the plan would (if the plan then terminated) receive a benefit immediately after the transfer that is equal to or greater than the benefit the participant would have been entitled to receive immediately before the transfer (if the plan had then terminated).

Section 1.414(1)-1(n)(1) of the regulations provides that the spinoff of a defined benefit plan will satisfy the requirements of section 414(1) of the Code if all the accrued benefits of each participant are allocated to only one of the spunoff plans and the value of the assets allocated to each spunoff plan is not less than the present value of the "benefits on a termination basis" in the plan prior to the spinoff for all participants in that spunoff plan.

Section 1.414(l)-1(b)(5) of the regulations defines the term "benefits on a termination basis" as the benefits that would be provided exclusively by the plan assets pursuant to section 4044 of the Employee Retirement Income Security Act of 1974 (ERISA), Pub. L. 93-406, 1974-3 C.B. 1, and the regulations thereunder if the plan had terminated.

Sections 403(d), 4021, and 4044(a) of ERISA provide that in the case of the termination of a nonmultiemployer defined benefit plan, the assets of the plan must be allocated to participants and beneficiaries of the plan in a specified order of six different categories of benefits. The six categories of benefits include all of the participants' benefits under the plan, whether forfeitable or nonforfeitable.

Section 401(a)(2) of the Code and section 1.401-2 of the regulations provide that, upon termination of a defined benefit plan, both the fixed and contingent liabilities of the plan to employees and beneficiaries (i.e., the vested and nonvested benefits of participants and beneficiaries) must be satisfied before the employer may recover any assets of the plan. Rev. Rul. 85-6, 1985-1 C.B. 133, provides guidance on the determination of the liabilities that must be satisfied upon plan termination prior to such a reversion.

Section 411(d)(6)(A) of the Code provides that a plan qualified under section 401 may not be amended (other than exceptions not relevant here) to reduce the accrued benefit of any participant. Section 411(d)(6)(B)(i) provides that a plan amendment that has the effect of eliminating or reducing an early retirement benefit, retirement-type subsidy or optional form of benefit (including any qualified joint and survivor annuity benefit required under sections 401(a)(11)(A)(i) and 417(b)) with respect to benefits attributable to service before the amendment will be treated as reducing accrued benefits. Rev. Rul. 85-6 provides that a defined benefit plan will fail to satisfy the requirements under section 411(d)(6) upon plan termination unless an early retirement subsidy that was provided prior to plan termination is provided for participants who satisfy the pretermination subsidy requirements after the termination of the plan.

Sections 401(a)(11)(A)(ii) and 417(c) of the Code provide that a qualified preretirement survivor annuity must be provided to the surviving spouse of a vested participant who dies before the annuity starting date.

To satisfy the requirements of section 1.414(l)-1(a)(1) of the regulations where a nonmultiemployer defined benefit plan is spunoff, each participant's total benefits that continue after the spinoff must be allocated to one of the spunoff plans and the value of the assets allocated to each of the spunoff plans must not be less than the value of such total benefits under each plan that would be provided by plan assets in accordance with section 4044 of ERISA. A participant's total benefits in the categories under section 4044 include (a) early retirement benefits, retirement-type subsidies and optional forms of benefits, described under section 411(d)(6)(B) of the Code that are part of the accrued benefit under section 411(d)(6) and (b) qualified preretirement survivor annuity benefits required under section 401(a)(11)(A)(ii), in each case, without regard to whether the participant has satisfied all of the conditions for such benefit as of the spinoff. These same benefits also must be taken into account under section 401(a)(2) and section 1.401-2 in determining the liabilities that must be satisfied upon plan termiantion before the employer may recover any plan assets.

In this case, the total benefits of participants were not taken into account to determine "benefits on a termination basis" with respect to the spinoff. Thus, the spinoff may fail to satisfy the requirements of section 1.414(l)-1(n)(1) of the regulations and section 414(l) of the Code.

HOLDING

The plan benefits that are (a) included in participants' accrued benefits under section 411(d)(6)(B) of the Code or (b) required under section 401(a)(11)(A)(ii) and 417(c) must be included in the determination of "benefits on a termination basis" within the meaning of section 1.414(l)-1(b)(5) and (n)(1) of the regulations.

26 CFR 1.501(c)(3)-1: Organizations organized and operated for religious, charitable, scientific, testing for public safety, literary, or educational purposes, or for the prevention of cruelty to children or animals.

Qualification; organization for historic preservation. An organization formed for the purpose of preserving the historic or architectural character of a community through the acquisition and occasional restoration of historically or architecturally significant properties, and subsequent disposition of these properties subject to restrictive covenants qualifies for exemption under section 501(c)(3) of the Code.

Rev. Rul. 86-49

ISSUE

Does an organization that is formed for the purpose of preserving the historic or architectural character of a community through the acquisition, occasional restoration of historically or architecturally significant properties, and subsequent disposition of those properties under the circumstances described below, qualify as an organization organized and operated exclusively for charitable or educational purposes under section 501(c)(3) of the Internal Revenue Code?

FACTS

The organization was formed exclusively for the purposes of preserving the historic and architectural character of its community through the acquisition, occasional restoration of historically or architecturally significant properties, and subsequent disposition of those properties subject to restrictive covenants. These covenants are designed exclusively to preserve the historical character or architectural significance of the properties and, through such activities, of educating the public on the importance of historic preservation. The organization is composed of interested members of the public and is governed by a representative group that includes community and preservation leaders, and prominent architects and historians.

The organization has set up a "revolving fund" to acquire and resell historically or architecturally significant properties. The fund may also be used to restore the historically or architecturally significant properties in some cases. The acquisitions and sales are made at fair market value on arm's length terms and any profits from sales are used to purchase other historically or architecturally significant properties or for other activities in keeping with the organization's tax exempt purposes. The organization sells the properties subject to restrictive covenants designed exclusively to preserve the historical character or architectural significance of the properties. These covenants generally restrict the use and enjoyment of the property by controlling its physical and/or visual aspects. The covenants are granted in perpetuity, bar any interior or exterior alterations without the consent of the organization, give the organization the right of first refusal in the event a purchaser should later desire to sell, and, in some cases, require restoration of the structure to its original appearance. Unlike covenants imposed by local associations of homeowners, these covenants preserve the designated properties in their historical state or character for the benefit of the public, rather than merely ensuring their conformity to locally imposed standards. since such covenants may decrease the value of the property, the organization may lose some money in its resale operations. Such losses, if any, would be considered by it as a cost of its program.

The buyers include private individuals. However, the organization will not resell property to the person who initially sold or contributed the property to the organization or any related person.

The acquired structures are generally visible from the public right of way. Where they are not so visible, the organization provides in the restrictive covenants that visual access to the property will be made available to the public on a regular basis and the terms of the restrictive covenants contain prescribed conditions for such access, under the requirements set forth in section 1.170A-14(d)(5)(iv) of the Income Tax Regulations.

In order to ensure that only historically or architecturally significant structures are acquired, the organization confines its acquisitions to structures that possess integrity of location, design, setting, materials, and workmanship and:

(1) are closely associated with significant events or developments in Amnerican history; or

(2) are closely associated with the lives of significant American historical figures; or,

(3) embody distinctive characteristics of a type, period, or method of construction, or that represent the works of a master, or that possess high artistic value; and are either:

(a) listed in the National Register of Historic Places; or,

(b) located in a registered historic district and are certified by the Secretary of the Interior as being of historic significance to the district.

A registered historic district is either any district listed in the National Register of Historic Places or any district that is designated under a statute of an appropirate State or local government that is certified by the Secretary of the Interior as containing criteria which will substantially achieve the purpose of preserving and rehabilitating buildings of historic significance to the district and that is certified by the Secretary of the Interior as meeting substantially all of the requirements for the listing of districts in the National Register.

LAW

Section 501(c)(3) of the Code provides for the exemption from federal income tax of organizations organized and operated exclusively for charitable or educational purposes.

Section 1.501(c)(3)-(d)(2) of the regulations states that the term "charitable" is used in its generally accepted legal sense, and includes the advancement of education, the erection or maintenance of public buildings, monuments, or works, and the promotion of social welfare by organizations designed to combat community deterioration.

Section 1.501(c)(3)-1(d)(3) of the regulations provides that the term "educational" includes the instruction of the public on subjects useful to the individual and beneficial to the community.

Section 1.501(c)(3)-1(d)(1)(ii) of the regulations provides that an organization is not organized or operated exclusively for charitable or educational purposes unless it serves a public rather than a private interest.

The Historic Preservation Act of 1966 (16 U.S.C. §§461, 470) provides that it is a national policy to preserve for public use historic sites, buildings, and objects of national significance for the inspiration and benefit of the people of the United States. The Act further states that the historical and cultural foundations of the nation should be preserved as a living part of our community life and development to give a sense of orientation to the American people.

Rev. Rul. 67-391, 1967-2 C.B. 190, holds that a nonprofit organization formed to develop and disseminate an urban land-use plan that is designed to improve the area, eliminate existing blight, and guard against future deterioration qualifies for exemption under section 501(c)(3) of the Code as being operated exclusively for educational and charitable purposes. The organization does not ordinarily engage in real estate transactions but does purchase and sell property of strategic value that is in danger of being exploited in a manner that might endanger the plan.

Rev. Rul. 75-470, 1975-2 C.B. 207, holds that a nonprofit organization formed to promote an appreciation of history through the acquisition, restoration, and preservation of homes, churches, and public buildings having special historical or architectural significance and to open the buildings for viewing by the general public qualifies for exemption under section 501(c)(3) of the Code as being organized and operated exclusively for educational and charitable purposes.

ANALYSIS

The purpose of the organization in this case is to educate and otherwise benefit the public by restoring and preserving historically or architecturally significant properties through the acquisition, occasional restoration, and disposition of such properties at fair market value on arm's length terms. The continued preservation of such properties after their sale by the organization is guaranteed by means of restrictive convenants that are reasonably suited to preserving the historic or architectural character of the structures and community involved.

The identification, restoration, and preservation of historically or architecturally significant properties serves to educate the public and operates to prevent community deterioration within the meaning of section 1.501(c)(3)-1(d)(2) of the regulations. Under such circumstances, historic and architectural preservation is a charitable purpose and activity within the meaning of section 501(c)(3) of the Code.

The organization's utilization of a revolving fund to facilitate the purchase and sale of properties is reasonably calculated to accomplish its charitable purposes. This method of historic and architectural preservation does not serve private interests within the meaning of section 1.501(c)(3)-1(d)(1)(ii) of the regulations because any private purchaser pays not less than fair market value for the property purchased, and purchases subject to appropriate restrictive covenants.

HOLDING

An organization that is formed for the purpose of preserving the historic or architectural character of a community through the acquisition and occasional restoration of historically or architecturally significant properties and subsequent disposition of those properties under the circumstances described above, qualifies as an organization organized and operated exclusively for charitable or educational purposes under section 501(c)(3) of the Code. Such an organization must also meet the other requirements of section 501(c)(3) in order to be exempt from federal income tax.

APPLICATION INSTRUCTIONS

Even though an organization considers itself within the scope of this revenue ruling, it must file an application on Form 1023. Application for Recognition of Exemption, in order to be recognized by the Service as exempt under section 501(c)(3) of the Code. See sections 1.501(a)-1 and 1.508-1(a) of the regulations. In accordance with the instructions to Form 1023, the application should be filed with the District Director of Internal Revenue for the key district indicated therein.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 468, 483, 7872.)

Rev. Rul. 86-50

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of April 1986 are as follows:

	Period of Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-Term				
AFR	7.60%	7.46%	7.39%	7.35%
110% AFR	8.38%	8.21%	8.13%	8.07%
120% AFR	9.15%	8.95%	8.85%	8.79%
Mid-Term				
AFR	8.08%	7.92%	7.84%	7.79%
110% AFR	8.90%	8.71%	8.62%	8.56%
120% AFR	9.73%	9.50%	9.39%	9.32%
Long-Term				
AFR	8.52%	8.35%	8.26%	8.21%
110% AFR	9.40%	9.19%	9.09%	9.02%
120% AFR	10.27%	10.02%	9.90%	9.82%

Section 6001.—Notice or Regulations Requiring Records, Statements, and Special Returns

26 CFR 1.6001-1: Records.

Guidance is provided concerning the basic requirements that the Service considers essential in cases where all or part of a taxpayer's books and records are maintained within an automatic data processing system. See Rev. Proc. 86-19, page 10.

Section 7872.—Treatment of Loans with Below-Market Interest Rates

Federal short-term, mid-term and long-term rates determined for purposes of section 1274(d) of the Code are set forth for the month of April 1986. See Rev. Rul. 86-50, above.

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability.
(Also Part I, Section 6001.)

Rev. Proc. 86-19

SECTION 1. PURPOSE

.01 The purpose of this revenue procedure is to update Rev. Proc. 64-12, 1964-1 (Part 1) C.B. 672, and Rev. Proc. 80-42, 1980-2 C.B. 776, and to specify the basic requirements that the Internal Revenue Service considers to be essential in cases where a taxpayer's records are maintained within an Automatic Data Processing (ADP) system. Rev. Proc. 64-12 provides guidelines for record requirements to be followed in cases where part or all of the accounting records are maintained within an ADP system, and Rev. Proc. 80-42 extended the ADP requirements to the windfall profit tax under section 4997 of the Internal Revenue Code. References here to ADP systems include all accounting and/or financial systems that process all or part of a taxpayer's transactions, records, or data by other than manual methods.

.02 The technology of automatic data processing has evolved rapidly, and new methods and techniques are constantly being devised and adopted. The requirements set forth in Section 5 of this revenue procedure are intended to ensure that all machine-sensible records generated by a taxpayer's automatic data processing system are retained so long as they may become material in the administration of any internal revenue law. These requirements will be modified and amended as the need indicates to keep pace with developments in automatic data processing systems.

.03 This revenue procedure pertains to taxpayers with assets of $10 million or more. For the purpose of this revenue procedure, a controlled group of corporations will be considered to be one corporation and the assets of all members of the group will be aggregated.

.04 The District director has the authority to enter into an agreement with the taxpayer to modify or waive any or all of the specific requirements of this revenue procedure. The taxpayer remains subject to all requirements of this procedure that are not specifically modified or waived by the agreement.

SEC. 2. BACKGROUND

.01 Section 6001 of the Code provides that every person liable for any tax imposed by the Code, or for the collection thereof, shall keep such records as the Secretary may from time to time prescribe.

.02 Rev. Rul. 71-20, 1971-1 C.B. 392, establishes that all machine-sensible data media used for recording, consolidating, and summarizing accounting transactions and records within a taxpayer's automatic data processing system are records within the meaning of section 6001 of the Code and section 1.6001-1 of the Income Tax Regulations and are required to be retained so long as the contents may be material in the administration of any internal revenue law. Accordingly, a taxpayer is required to retain all machine-sensible files generated by its automatic data processing system unless a retention agreement is reached with the District Director to limit the retention to certain specified records.

SEC. 3. SCOPE AND OBJECTIVE

.01 Modern data processing accounting systems are capable of recording business transactions much more rapidly and accurately than manual systems, and they are capable of retaining and producing vast amounts of data. The ability to produce in legible form data necessary to determine at a later date whether or not the correct tax liability has been reported must be carefully considered in designing and programming an ADP system. This factor may add to the complexity of the system and require additional cost, but this cost may be negligible in comparison to the expense that may be incurred at a later date if the system cannot practically and readily provide the information needed to support and substantiate the accuracy of the previously reported tax liability. This revenue procedure encompasses all types of data processing systems, including those using a Data Base Management System.

.02 The requirements of this revenue procedure pertain to income, windfall profit, excise, employment, and estate and gift taxes.

.03 The requirements of this revenue procedure are applicable to the machine-sensible records generated by a Controlled Foreign Corporation (CFC), since the definition of "records" in section 964(c) and 982(d) of the Code and the regulations thereunder has the same meaning as "records" as used in section 6001 and section 1.6001-1(a) of the regulations.

.04 Machine-sensible records used by an insurance company to determine its loss deduction under section 832(b)(5) of the Code must be retained in accordance with the requirements of this revenue procedure and Rev. Proc. 75-56, 1975-2 C.B. 596. The machine-sensible file(s) for a particular taxable year include(s) that year and the seven preceding years, all of which must be retained so long as they are material to the examination of the return. Normally that materiality continues until the expiration of the statute of limitations (including extensions) for the tax year under examination.

SEC. 4. MACHINE-SENSIBLE RECORDS EVALUATION

.01 A record evaluation may be conducted by the District Director to determine if a taxpayer may limit its retention of machine-sensible records. This evaluation of the data processing and accounting systems may be initiated by the District Director or requested by the taxpayer and is not an "examination," "investigation," or "inspection" within the meaning of section 7605(b) of the Code, since such an evaluation is not directly related to the determination of tax liability for a particular taxable period.

.02 The District Director may periodically initiate tests to establish the readability and completeness of the machine-sensible records retained under a retention agreement. Such test are not an examination of the books and records within the meaning of section 7605(b) of the Code, since they are not directly related to the determination of tax liability for a particular taxable period.

SEC. 5. REQUIREMENTS

.01 All machine-sensible records must be retained by the taxpayer. The retained records must be in a retrievable format that provides the information necessary to determine the correct tax liability. The utilization of a service bureau or time-sharing service does not relieve the taxpayer of its responsibilities as described in this revenue procedure.

.02 Documentation that provides a complete description of the ADP portion of the accounting system and those files that feed into the accounting system must be retained. The statements and illustrations as to the scope of operations should be sufficiently detailed to indicate: (a) the application being performed, (b) the procedures employed in each application, and (c) the controls used to insure accurate and reliable processing. The following specific documentation for all files must also be retained:

(1) record formats (including the meaning of all "codes" used to represent information);

(2) flowcharts (system and program);

(3) label descriptions;

(4) source program listings of programs that created the files retained; and

(5) detailed charts of accounts (for specific periods).

Major changes to the ADP system, together with their effective dates, should be noted in order to preserve an accurate chronological record. This record should include any changes to software or systems and any changes to the formats of files. Audit trails should be designed to insure that details underlying the summary accounting data, such as invoices and vouchers, may be easily identified and made available to the Service upon request.

.03 The records are required to be retained so long as their contents may become material in the administration of any internal revenue law. At a minimum, this materiality is possible until the expiration of the statute of limitations (including extensions) for each tax year. In certain situations, files should be retained for a longer period (for example, fixed assets and insurance loss reserve).

.04 The provisions of this revenue procedure do not relieve taxpayers of their responsibility for retaining hardcopy records. The hardcopy records may be retained in microfiche or microfilm format in accordance with the requirements outlined in Rev. Proc. 81-46, 1981-2 C.B. 621. These records are *not* a substitute for the machine-sensible records required to be retained as described in section 5.01 above.

.05 All retained records must be clearly labeled and stored in a secure environment. For example, supplemental labels with the statement, "Retain for IRS until ________" or "Retain for IRS, Consult Tax Manager Before Releasing" should be used and affixed to each tape reel, disk pack, or diskette being retained, with a retention date on the internal label. Back up machine-sensible files being retained for the Service should be stored at an off-site location.

.06 The taxpayer must have the capability to access the retained records at the time of a Service examination. When the data processing system that created the records is being replaced by a system in which the records would not be compatible, the taxpayer must convert them to a compatible system. Any changes in the accessibility of the retained records must be reported to the Service. The District Director has the authority to enter into an agreement with the taxpayer to modify or waive any or all of the requirements for conversion or to approve substitute procedures. The taxpayer remains subject to all requirements that the agreement does not specifically modify, waive, or replace.

.07 The limitation pursuant to a retention agreement on machine-sensible records to be retained does not apply to subsidiary companies acquired, or accounting and tax systems added, subsequent to the completion of the record evaluation or re-evaluation. All machine-sensible records produced by these companies or systems must be retained until such time as a reevaluation is conducted by the District Director. On disposition of a subsidiary the files being retained for the Service by, or for, the disposed subsidiary should be retained until a new evaluation can be made by the District Director. A reevaluation can be requested by the taxpayer.

.08 The taxpayer should make periodic checks on all files being retained for use by the Service. If any machine-sensible records required to be retained are subsequently lost, destroyed, damaged, or found to be incomplete or materially inaccurate, the taxpayer must report this to the District Director and re-create the files within a reasonable period of time.

.09 The use of Data Base Management Systems (DBMS) necessitates the implementation by the taxpayer of appropriate procedures to ensure that required records and other needed documentation are retained to comply with this revenue procedure. A taxpayer is in compliance if it creates, for Service use, a sequential file(s) that contains all detail transactions necessary to create an audit trail to trace back to the underlying source documents. All necessary fields must be identified and the file documentation must follow the rules in section 5.02 above. This process should be reviewed by the Service prior to creation. These sequential files must be processible by conventional means. As a minimum, the following documentation must be made available:

(1) Data Base Description (DBD);

(2) Record layout of each segment with respect to the fields in the segments;

(3) Systems Control Language;

(4) Program Specification Block (PSB);

(5) Program Communication Block (PCB).

Any taxpayer that has questions or is uncertain as to its responsibilities with respect to the retention of data when utilizing a DBMS should contact the District Director.

SEC. 6. PENALTIES

Failure to comply with the provisions of this revenue procedure may result in the assertion of the addition to tax under section 6653(a) of the Code, a civil penalty. The criminal penalty under section 7203 may also be applicable. *See* Rev. Rul. 81-205, 1981-2 C.B. 225. In addition, the District Director may issue a Notice of Inadequate Records if machine-sensible records were not properly retained as required by this revenue procedure.

SEC. 7. COMMENTS OR INQUIRIES

Comments or inquiries to this revenue procedure should be addressed to the Assistant Commissioner (Examination), Attention: OP:EX, Internal Revenue Service, 1111 Constitution Ave. N.W., Washington, D.C. 20224.

SEC. 8. EFFECTIVE DATE

This revenue procedure is effective April 7, 1986, the date of publication.

SEC. 9. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Proc. 64-12 and Rev. Proc. 80-42 are superseded.

Part IV. Items of General Interest

Taxation of Fringe Benefits and Exclusions from Gross Income for Certain Fringe Benefits—Public Hearing

Announcement 86-42[1]

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to the taxation of fringe benefits.

DATES: The public hearing will be held on Tuesday, April 29, 1986, beginning at 10:00 a.m. If necessary to accommodate all speakers, the public hearing will be reconvened on Wednesday, April 30, 1986, at 10:00 a.m. Outlines of oral comments must be delivered or mailed by Friday, April 11, 1986.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. The requests to speak and outlines of oral comments should be submitted to the Commissioner of Internal Revenue, ATT: CC:LR:T (LR-216-84), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Faye Easley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, telephone 202-566-3935 (not a toll-free call).

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under sections 61 and 132 of the Internal Revenue Code of 1954. The proposed regulations appeared in the FEDERAL REGISTER for Monday, December 23, 1985 (50 FR 52333) [LR-216-84, 1986-3 I.R.B. 40].

The rules of §601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations should submit, not later than Friday, April 11, 1986, an outline of the oral comments to be presented at the hearing and the time they wish to devote to each subject.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of the time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

Lists of Master and Prototype Plans Closed or Otherwise Disposed of by December 31, 1985, and Plans Erroneously Omitted from Announcement 85-99

Announcement 86-43

This Announcement contains two lists of master or prototype (M&P) pension, annuity or profit sharing plans submitted to the National Office of the Internal Revenue Service by sponsoring organizations and mass submitters.

The first list (List A) includes those M&P plans that were timely submitted under Revenue Procedure 84-23, 1984-1 C.B. 457, by December 31, 1984, and were closed or otherwise disposed of by the Service between October 1, 1985, and December 31, 1985.

List A contains the names and addresses of the plans' sponsoring organization or mass submitter, symbols indicating the type of plan, and file folder number. It also shows the date of disposition of the plan and the type of disposition as follows: (1) favorable opinion letter (F), (2) unfavorable/nonopinion letter (U), (3) withdrawal letter (W), or (4) other (O).

Employers that adopted an approved M&P plan and, if appropriate, requested a determination letter on or before March 19, 1984, and received a favorable determination letter, retained reliance on their favorable letter under the provisions of Section 12 of Rev. Proc. 84-23. However, if the approved plan is included in List A, the employer must take further action in order to have continued reliance.

If List A shows that the plan adopted by the employer received a favorable opinion letter, the employer must, within 12 months after the sponsor received the favorable letter, either (1) amend its existing plan by adopting the sponsor's M&P plan is approved by the Service, or (2) adopt an M&P plan of another sponsor on List A or a subsequent quarterly list, that has received a favorable letter (See Announcement 85-130, 1985-36 I.R.B. 58).

If List A shows that the plan was closed other than by issuance of a favorable opinion letter, such employer must either (1) make all amendments required by Section 5 of Rev. Proc. 84-23, including amendments to conform with the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) Pub. L. 97-248, 1982-2 C.B. 462, the Tax Reform Act of 1984 (TRA) Pub L. 98-369, 1984-3 (Vol. 1) C.B. 1, and the Retirement Equity Act of 1984 (REA) Pub. L. 98-397, 1984-2 C.B. 433, and submit a request for a determination letter to the appropriate key district office, or (2) adopt an M&P plan of a sponsor listed in Announcement 85-99, 1985-28 I.R.B. 4, or List B of Announcement 85-165, 1985-47 I.R.B. 4, or this Announcement, that has received a favorable opinion letter. In either case, in order to be afforded continued reliance, the employer must adopt the amended plan by October 31, 1986.

After amending its existing plan or adopting another M&P plan, an employer must request a determination letter from the appropriate key district office in order to rely on the plan's qualification unless the employer adopts a standardized plan or paired plans within the meaning of Section 6.01 of Rev. Proc. 84-23.

The second list in this Announcement (List B) includes those M&P plans that were inadvertently omitted from the list published in Announcement 85-99. See Announcement 85-99 regarding when these plans must be amended.

---

[1] Filed by the Office of the Federal Register on March 11, 1986, 8:45 a.m., and published in the issue of the Federal Register for March 12, 1986, 51 F.R. 8517.

If there are any questions regarding the publication of this list, please call (202) 566-6783 (not a toll free number). Written inquiries should be addressed to Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224. Attention: OP:E:EP:RQ:1.

Availability of Form 8404, Computation of Interest Charge on DISC-Related Deferred Tax Liability

Announcement 86-44

New Form 8404 has been developed for use by shareholders of interest charge domestic international sales corporations (IC-DISCs). IC-DISC shareholders will use Form 8404 to figure the interest charge on DISC-related deferred tax liability based on their share of the IC-DISC's deferred DISC income and to pay the interest charge to the Internal Revenue Service. A copy of Form 8404 and instructions is included with this announcement.

An IC-DISC would first report deferred DISC income to its shareholders at the end of its second tax year that begins after December 31, 1984. The shareholder then will use Form 8404 to determine any interest charge due for the shareholder's tax year for which the deferred DISC income is reported.

For example, an IC-DISC has a short first tax year beginning on January 1, 1985, and ending on January 31, 1985. Its second tax year begins on February 1, 1985, and ends on January 31, 1986, at which time it reports deferred DISC income to its shareholder for the tax year ending January 31, 1986. The tax year of the IC-DISC's principal shareholder also begins on February 1, 1985, and ends on January 31, 1986. Accordingly, the shareholder completes Form 8404 for the tax year ending January 31, 1986, to determine if any interest is due. If interest is due, the shareholder must file Form 8404 and pay the interest charge by the date the shareholder's Federal income tax is due for the tax year ending January 31, 1986. No payments of estimated tax under section 6654 (in the case of individuals) or 6154 (in the case of corporations) are required for the interest charge.

Form 8404 should be available in many Internal Revenue District Offices in early April 1986. If the forms are not available in your Internal Revenue Office at such time, they may be ordered by calling the tax information number in the phone book listed under "United States Government Internal Revenue Service."

General Instructions

(Section references are to the Internal Revenue Code unless otherwise noted.)

Paperwork Reduction Act Notice.—We ask for this information to carry out the Internal Revenue laws of the United States. We need it to ensure that taxpayers are complying with these laws and to allow us to figure and collect the right amount of interest. You are required to give us this information.

Purpose of Form.—Shareholders of Interest Charge Domestic International Sales Corporations (IC-DISCs) use Form 8404 to figure and report their interest on DISC-related deferred tax liability.

Who Must File.—You must file Form 8404 if you are a shareholder of an IC-DISC and the IC-DISC reports deferred DISC income to you on line 2, Part III of **Schedule K (Form 1120-IC-DISC)**, and the addition of this income would result in increased taxable income if it were included on your tax return for the tax year.

When to File.—File Form 8404 at the time you are required to file your Federal income tax return (excluding extensions) for your tax year which ends with or includes the IC-DISC's tax year end for which the deferred DISC income is reported.

For example, you are a fiscal year corporation with a July 1, 1985, to June 30, 1986, tax year and you are a shareholder in an IC-DISC with a July 1, 1985, to June 30, 1986, tax year that reports deferred DISC income to you for its year ending June 30, 1986. Because your tax year ends with the IC-DISC's tax year, you are required to file Form 8404 on September 15, 1986 (2½ months after your tax year ends).

Where to File.—File Form 8404 with the Internal Revenue Service Center where you are required to file your Federal income tax return. File the form in a separate envelope than that of your income tax return. You should keep a copy for your records.

Paying the Interest Charge.—You must pay the interest charge shown on line 9 by the date your Federal income tax for the tax year is required to be paid. If you are an individual, the interest is due on the 15th day of the fourth month following the close of your tax year. If you are a corporation, the interest is due on the 15th day of the third month following the close of your tax year.

Attach a check or money order for the full amount payable to "Internal Revenue Service." Do not combine the interest charge with any other tax or interest due. Write your identification number and "Form 8404—Interest Due" on it. (Do not use a Federal Tax Deposit Coupon (Form 8109).)

If the interest charge is not paid by the due date, interest, compounded daily, at the rate specified under section 6621, shall be imposed on the amount of unpaid interest from the due date until the date the interest is paid. Payment of estimated tax under section 6654 (individuals) or 6154 (corporations) are not required for the interest charge. See regulations section 1.995(f)-1(j)(3) for other details.

Amended Form 8404.—You are required to file an amended Form 8404 only if the amount of the DISC-related deferred tax liability (line 7) changes as a result of audit adjustments, changes you make by the filing of an amended return, or if estimates were used on your original Form 8404 and changes were made to these estimates when you filed your tax return. See regulations section 1.995(f)-1(j)(4) for details.

Specific Instructions

A. Type of Taxpayer.—Check the applicable box in the upper left portion of Form 8404 to indicate your status as a taxpayer. Shareholders that are partnerships, S corporations, estates or trusts, see regulations section 1.995(f)-1(h) for special rules.

Name and Address.—Enter the name and address as shown on your tax return from which the income or loss on line 1 of Form 8404 is obtained. If the return is a joint return, also enter your spouse's name as shown on Form 1040.

B. Identifying Number.—Individuals enter their social security number. Other filers must enter their employer identification number.

C. IC-DISC's Identifying Number.— Enter the identifying number of the IC-DISC from the Schedule K (Form 1120-IC-DISC) on which the line 2 deferred DISC income was reported to you. If income is reported to you from more than one IC-DISC, enter each IC-DISC's identifying number in item C, each IC-DISC's name in item E, and report the combined income on line 2.

D. Tax Year.—Enter in item D the calendar year or the beginning and ending dates of the tax year shown on your tax return for which the interest charge is figured.

Special Computation Rules

Carrybacks.—The determination of the shareholder's DISC-related deferred tax liability on lines 1 through 7 shall be made without taking into account any net operating loss (NOL) or capital loss carryback; or credit carryback to the tax year.

Carryovers.—The determination of the shareholder's tax liability (line 5) for the tax year is made by disregarding any loss, deduction, or credit to the extent that such loss, deduction, or credit may be carried (either back or forward) by the shareholder to any other tax year.

Note: *If the tax year is the last tax year to which the amount of carryforward (of loss, deduction, or credit) may be carried, the line 3 adjustments and line 5 tax shall be figured with regard to the full amount of such carryforward.*

For example, a shareholder had a NOL carryover to 1986 of $12,000; $10,000 income to which $10,000 of the NOL can be applied; $2,000 allowable NOL carryover to 1987; and $5,000 deferred DISC income for 1986. In this case, for purposes of figuring line 5, the allowed NOL is $10,000. Note: If 1986 were the last tax year to which the $12,000 NOL could be carried, the full $12,000 NOL would be allowed for purposes of figuring line 5 tax liability. The additional $2,000 loss would be entered on line 3.

Other Adjustments.—In figuring line 3 adjustments, take into account any income and expense adjustments that do not result in amounts that may be carried back or forward to other tax years. For example, in the case of an IC-DISC shareholder who is an individual, the amount of medical expenses allowable as a deduction under section 213 must be redetermined for purposes of line 3 adjustments. However, the amount allowable as a charitable deduction under section 170 is not redetermined because this adjustment could result in a carryback or carryover.

See regulations section 1.995(f)-1(d)(1) through (8) for other details regarding these and other special computation rules.

Line-by-Line Instructions

Line 1.—Enter on line 1 the taxable income or loss from your Federal income tax return for your tax year that ends with or includes the IC-DISC's tax year end for which deferred DISC income was reported to you. If you have not yet filed your tax return, estimate your income or loss based on all information available to you.

Line 2.—Enter the deferred DISC income from line 2, Part III of Schedule K (Form 1120-IC-DISC), for the IC-DISC tax year that ends with or within your tax year. If you are a shareholder in more than one IC-DISC that reports deferred DISC income to you, report on line 2 the sum of all deferred DISC income reported to you for the year.

Line 3.—Enter the net amount of all section 995(f)(2) adjustments to taxable income. See Special Computation Rules above for details on the income (loss) and expense adjustments to be made. If more than one adjustment is involved, attach a schedule listing each item and show the computation of the net amount.

Line 4.—Combine amounts on lines 1, 2, and 3. If the line 4 amount is zero or a loss, you do not have to file Form 8404.

Lines 5 and 6.—The tax liability on lines 5 and 6 (with and without the deferred DISC income) means the amount of tax imposed on the IC-DISC shareholder for the tax year by Chapter 1 of the Internal Revenue Code (other than taxes listed below) reduced by allowable credits (other than credits listed below).

The following taxes are not taken into account:

a Section 55 (alternative minimum tax).

b Section 56 (corporate minimum tax).

c Any other provisions described in section 26(b)(2) (relating to certain other taxes treated as not imposed by Chapter 1).

The following credits are not taken into account:

a Section 31 (taxes withheld on wages).

b Section 32 (earned income credit).

c Section 34 (fuels credit).

For individuals, the lines 5 and 6 tax liability is generally line 50 of the 1985 Form 1040 increased by any amount on line 53 and any advance earned income credit payments included in the total for line 56, and reduced by any credit on line 63 of the 1985 Form 1040.

For corporations, the lines 5 and 6 tax liability is generally line 6, Schedule J of the 1985 Form 1120, increased by any amount on line 8 and reduced by payments on line 32e, page 1 of Form 1120.

See Special Computation Rules on carrybacks and carryovers that may affect the line 5 tax computation.

If you have not yet filed your return, estimate the line 6 tax liability based on all information available to you.

Line 8.—The base period T-bill rate is defined in section 995(f)(4). The base period T-bill rate is compounded daily based on the number of days in the shareholder's tax year to determine the base period T-bill rate factor.

The base period T-bill rate for the one year period ending September 30, 1985, is 8.79%. This rate compounded daily for a 365 day tax year produces a factor of .09187, which only applies to tax years beginning in 1985.

Factors for tax years of less or more than 365 days will be published at a later date in the Internal Revenue Bulletin (IRB). If your tax year begins in 1985 and contains 365 days, enter .09187 on line 8. In all other cases, enter the base period T-bill rate factor that appears in the IRB. If you must file before the factor is available, compound 8.79% on a daily basis over the number of days in your tax year, and enter the result on line 8. See regulations sections 1.995(f)-1(b) and (c) for other details.

New base period T-bill rates and factors will be published in the future for tax years ending on or after December 31, 1986.

Line 9.—The interest charge for line 9 is line 7 times the factor on line 8.

See instruction on Paying the Interest Charge for details on when and how to pay the interest.

The annual interest charge is deductible as an interest expense for the tax year it is paid or accrued. See regulations section 1.995(f)-1(j)(2) for details on the tax year of deductibility.

Acquisitions of Insurance Companies to Which Section 338 Applies

Announcement 86-47

The Internal Revenue Service is considering whether the rules of subchapter L of the Internal Revenue Code (and, in the case of life insurance companies, section 1.817-4(d) of the Income Tax Regulations) and/or the "tax benefit" rule require the taxation of income from the release of certain reserves when an election is made under section 338 of the Code to treat the purchase of stock of an insurance company as an asset acquisition. For instance, if the parties to an insurance company acquisition allocate some of the value of the acquired company to an asset (other than goodwill) identified as, for example, "insurance contracts in force," then that allocation reflects the fact that the amount of the reserves of the acquired company exceeds the amount that an unrelated party would require as consideration for agreeing to assume the net liabilities underlying the insurance contracts of the acquired company. The Service is considering whether the acquired company's taxable income is properly increased by the amount of that excess.

Should the Service decide that income is properly increased in this situation, then as an exercise of the Commissioner's authority under section 7805(b) of the Code, the Service will not so increase the income of an acquired insurance company, provided that the acquisition date, as defined in section 338(h)(2) of the Code, occurred before April 7, 1986, the date of publication of this announcement. In addition, under the authority of section 7805(b), the Service will not so increase the income of an acquired insurance company in analogous situations in which former section 334(b)(2) applies to the liquidation of an acquired insurance company.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Patrick H. Diamond	New York, NY	Attorney & Certified Public Accountant	Indefinite from February 10, 1986
Folger P. Gifford	Cold Spring Harbor, NY	Certified Public Accountant	Indefinite from February 11, 1986
Robert Allen Beamer	Wauwatosa, WI	Attorney	Indefinite from February 19, 1986
Robert L. Cummings	Springfield, MO	Certified Public Accountant	Indefinite from February 27, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.103-10, amended.	Definition of "principal user"	1986-12 I.R.B. 19	Apr. 22, 1986
26 CFR 1.103-10, revised.	$40 million limitation on beneficiaries of certain tax-exempt bonds	1986-12 I.R.B. 22	Apr. 22, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.
C—Individual.
C.B.—Cumulative Bulletin.
CFR—Code of Federal Regulations.
CI—City.
COOP—Cooperative.
Ct.D.—Court Decision.
CY—County.
D—Decedent.
DC—Dummy Corporation.
DE—Donee.
Del. Order—Delegation Order.
DISC—Domestic International Sales Corporation.
DR—Donor.
E—Estate.
EE—Employee.
E.O.—Executive Order.
ER—Employer.
ERISA—Employee Retirement Income Security Act.
EX—Executor.
F—Fiduciary.
FC—Foreign Country.
FICA—Federal Insurance Contributions Act.
FISC—Foreign International Sales Company.
FPH—Foreign Personal Holding Company.
F.R.—Federal Register.
FUTA—Federal Unemployment Tax Act.
FX—Foreign Corporation.
G.C.M.—Chief Counsel's Memorandum.
GE—Grantee.
GP—General Partner.
GR—Grantor.
IC—Insurance Company.
I.R.B.—Internal Revenue Bulletin.
LE—Lessee.
LP—Limited Partner.
LR—Lessor.
M—Minor.
Nonacq.—Nonacquiescence.
O—Organization.
P—Parent Corporation.
PHC—Personal Holding Company.
PO—Possession of the U.S.
PR—Partner.
PRS—Partnership.
PTE—Prohibited Transaction Exemption.
Pub. L.—Public Law.
REIT—Real Estate Investment Trust.
Rev. Proc.—Revenue Procedure.
Rev. Rul.—Revenue Ruling.
S—Subsidiary.
S.P.R.—Statements of Procedural Rules.
Stat.—Statutes at Large.
T—Target Corporation.
T.C.—Tax Court.
T.D.—Treasury Decision.
TFE—Transferee.
TFR—Transferor.
T.I.R.—Technical Information Release.
TP—Taxpayer.
TR—Trust.
TT—Trustee.
U.S.C.—United States Code.
X—Corporation.
Y—Corporation.
Z—Corporation.

[1] A cumulative finding list for previously published rulings mentioned in Internal Revenue Bulletins 1985-26 through 1985-52 will be found in Internal Revenue Bulletin 1986-1, dated January 6, 1986.

Index

Internal Revenue Bulletins 1986-1 Through 1986-13

For index of items published during the last six months of 1985, see I.R.B, 1986-1, dated January 6, 1986.

The abbreviation and number in parentheses following the index entry refer to the specific item; numbers in roman and italic type following the parentheses refer to the Internal Revenue Bulletin in which the item may be found and the page number on which it appears.

Key to Abbreviations

RR	Revenue Ruling
RP	Revenue Procedure
TD	Treasury Decision
CD	Court Decision
PL	Public Law
EO	Executive Order
DO	Delegation Order
TDO	Treasury Department Order
TC	Tax Convention
SPR	State of Procedural Rules
PTE	Prohibited Transaction Exemption

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretation.

INCOME TAX

Rev. Rul. 86-52, page 42.

Carryover; reorganization; merger; controlled corporations. A loss corporation *X* formed a wholly owned subsidiary *P* which formed a wholly owned subsidiary *S*. *S* then merged into *X* in a reorganization under sections 368(a)(1)(A) and 368(a)(2)(E) of the Code, with the former *X* shareholders owning *P* stock with a fair market value exceeding 20 percent of the fair market value of the outstanding *X* stock. *X*'s net operating loss carryover is not reduced under section 382(b) before amendment by section 806(e) of the Tax Reform Act of 1976.

Rev. Rul. 86-55, page 47.

Return preparers; potential penalties; invalid assignment of refund checks. A person in a business other than tax return preparation who fills out or reviews income tax returns for its customers may be an income tax return preparer under section 7701(a)(36) of the Code and subject to potential penalties. The assignment of the customers' refund checks before the returns are processed by the Service is not a valid assignment and the Service may mail the checks directly to the taxpayers.

Rev. Proc. 86-20, page 50.

Accounting methods; change; vacation pay. The Tax Reform Act of 1984 amended section 404(b) of the Code to clarify that any plan, method, or arrangement providing deferred benefits (including deferred vacation pay) is a plan, method, or arrangement deferring the receipt of compensation. Rev. Proc. 82-32 obsoleted.

T.D. 8074, page 4.
LR-35-85, page 51.

Temporary and proposed amendments to the regulations relate to international aspects of section 338 of the Code.

Announcement 86-46, page 53.

The time is extended for employers with more than one line of business to combine lines of business under a provision that enables their employees to exclude certain fringe benefits from gross income.

Announcement 86-50, page 53.

This Bulletin contains a list of organizations that no longer qualify as organizations contributions to which are deductible under section 170(c)(2) of the Code.

EMPLOYEE PLANS

Announcement 86-45, page 52.

Final regulations under section 419 of the Code, relating to welfare benefit funds, will clarify the definition of "fund" with respect to certain arrangements between employers and insurance companies.

EXEMPT ORGANIZATIONS

Rev. Rul. 86-53, page 43.

Private foundations; self-dealing; sale to disqualified person. The sale to a disqualified person of stock by a private foundation owned by it continuously since May 26, 1969, but not constituting excess business holdings on that date, is excepted under section 53.4941(d)-4(b)(1) of the regulations from the prohibition against self-dealing under section 4941 of the Code.

ESTATE TAX

Rev. Rul. 86-54, page 44.

Installment method; closely-held business; stock redemption. An explanation is provided of the application of sections 303 and 6166 of the Code when shares of stock are redeemed and an election to pay the estate tax in installments is made. Rev. Rul. 72-188 modified.

Finding Lists begin on page 57.
Announcement of Suspensions & Disbarments begin on page 54.
Announcement of Notice of Proposed Rulemaking on page 56.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 162.—Trade or Business Expenses

26 CFR 1.162-10: Certain employee benefits.

Deductibility of deferred vacation benefits. See Rev. Proc. 86-20, page 50.

T.D. 8074

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Temporary Regulations—International Aspects of Section 338.

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to international aspects of section 338 of the Internal Revenue Code of 1954 ("Code"), as added by the Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") [Pub. L. 97-248, 1982-2 C.B. 462] and as amended by the Technical Corrections Act of 1982 ("TCA") [Pub. L. 97 448, 1983-1 C.B. 451] and the Tax Reform Act of 1984 ("TRA") [Pub. L. 98-369, 1984-3 C.B.(vol.1) 1]. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced * * * [on page 51, this Bulletin].

DATE: These regulations are effective upon publication in the FEDERAL REGISTER. These temporary regulations generally apply to stock acquisitions made after August 31, 1982.

FOR FURTHER INFORMATION CONTACT: Keith E. Stanley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20024 (Attention: CC:LR:T) (202-566-3458, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document adds new temporary regulations §1.338-5T to Part 1 of Title 26 of the Code of Federal Regulations ("CFR") and amends temporary regulations §§1.338-1T, 1.338-4T, and 1.338(h)(10)-1T. This document also amends the table of OMB control numbers in Part 602 of Title 26 of the CFR to reflect the OMB control number assigned to §1.338-5T.

Section 1.338-1T was published as T.D. 7942 in the FEDERAL REGISTER on February 8, 1984 (49 FR 4722) [1984-1 C.B. 93], and was amended and redesignated (as §1.338-1T) by temporary regulations published as T.D. 7975 in the FEDERAL REGISTER on September 6, 1984 (49 FR 35086) [1984-2 C.B. 81]. Section 1.338-1T also was amended by temporary regulations published as T.D. 8021 in the FEDERAL REGISTER on April 25, 1985 (50 FR 16402) [1985-1 C.B. 96]. The temporary regulations published on April 25, 1985, also added §1.338-4T. Sections 1.338-1T and 1.338-4T were amended by temporary regulations published as T.D. 8068 in the FEDERAL REGISTER on January 8, 1986 [1986-8 I.R.B. 9], and by temporary regulations published as T.D. 8072 in the FEDERAL REGISTER on January 29, 1986 [1986-11 I.R.B. 7]. The temporary regulations published on January 8, 1986, also added §1.338(h)(10)-1T.

New §1.338-5T provides guidance on international aspects of section 338 of the Code, as added by section 224 of TEFRA (Pub. L. No. 97-248; 96 Stat. 485) [1982-2 C.B. 462, 501] and as amended by section 306(a)(8) of the TCA (Pub. L. No. 97-448; 96 Stat. 2402) [1983-1 C.B. 451, 470] and section 712(k) of the TRA (Pub. L. No. 98-369; 98 Stat. 946) [1984-3 C.B. (Vol.1) 1, 456]. The temporary regulations added and amended by this document will remain in effect until superseded by later temporary or final regulations relating to these matters.

GENERAL OPERATION OF SECTION 338

Effect of election under section 338

Under section 338, a corporation ("purchasing corporation" or "P") that acquires the stock of another corporation ("target") in a qualified stock purchase (as defined in section 338(d)(3)) may elect (or may be deemed to elect under the consistency rules of section 338) to have the target treated as if it (1) sold all of its assets (as "old target") at fair market value at the close of the day on which the qualified stock purchase occurred ("acquisition date") and (2) purchased those assets as a new corporation ("new target") at the beginning of the following day for an amount generally equal to the price paid by P for target stock plus the liabilities of target and other relevant items. Section 338(a) and (b). The deemed sale of assets by old target generally is governed by the nonrecognition rule of section 337. The application of section 337 is limited by section 338(c)(1), however. if the maximum percentage (by value) of target stock held by P during a one-year period beginning on the acquisition date is less than 100 percent. In general, the attributes of old target, including old target's earnings and profits, are not available to new target. The net effect of a section 338 election is that P obtains a basis in target assets that generally reflects the price it paid for target stock.

Effect of consistency rules

Section 338 contains rules designed to ensure consistent treatment between stock and asset acquisitions. Consistency issues may involve a target or its target affiliate. A corporation is a "target affiliate" of a target if each of those corporations was a member of the same affiliated group at any time during so much of target's consistency period as ends on its acquisition date. Section 338(h)(6)(A). Section 338(h)(6)(B)(i), however, excludes foreign and certain domestic corporations from the status of target affiliates, except as otherwise provided in regulations (and subject to any conditions specified therein). Section 338 contains two sets of consistency rules: The asset consistency rule of section 338(e) and the stock consistency rules of section 338(f).

If a section 338 election is not made, then, under the asset consistency rule of section 338(e) (as implemented by §1.338-4T(f)), a member of the affiliated group that includes P ("P group") generally is required, pursuant to a protective carryover election actually filed by the P group or pursuant to an affirmative action carryover election deemed made by the P group, to take a carryover basis in an asset acquired from target or its target affiliate during target's consistency period if the asset is acquired in a tainted asset acquisition (as defined in §1.338-4T(f)(6)(i)(A)). For description of consistency period, see section 338(h)(4) and §1.338-4T(g)(1). If a carryover basis is required pursuant to an affirmative action carryover election, however, the District Director is empowered, upon audit, to cause a deemed election for target under section 338(e)(1) (in lieu of a carryover basis in the asset acquired from target or its target affiliate) if a deemed election is appropriate to carry out the purposes of the consistency rules of section 338(e), (f), or (i). See §1.338-4T(f)(1)(ii). The asset consistency rule reflects the view that the P group should not be permitted to obtain, from another affiliated group within the consistency period, both the stock of a corporation (with its historic inside asset basis and other tax attributes intact) and selected assets at a cost basis.

Under the stock consistency rule of section 338(f)(1), a section 338 selection for the first-acquired target ("original target") automatically applies to any target affiliate acquired by the P group in a qualified stock purchase during the consistency period. Under the stock consistency rule of section 338(f)(2), P's failure to make a section 338 election for the original target bars a section 338 election for any target affiliate acquired during the consistency period. The stock consistency rules reflect the view that the P group should not be permitted to selectively step-up the inside asset basis and eliminate the tax attributes of some but not all targets acquired during the consistency period from the same affiliated group.

STATUS OF CORPORATIONS DESCRIBED IN SECTION 338(h)(6)(B)(i) AS TARGET AFFILIATES

Introduction

The general rule prescribed in this document is that a corporation is not excluded from the status of a target affiliate by reason of section 338(h)(6)(B)(i) (relating to exclusion of foreign and certain domestic corporations from target affiliate status). There are exceptions. For purposes of the stock consistency rule of section 338(f)(1), the temporary regulations contain both a "transitional exclusion election" and a prospective "regular exclusion election" pursuant to which certain corporations described in section 338(h)(6)(B)(i) may be excluded from target affiliate status. For purposes of the asset consistency rule of section 338(e)(1), the temporary regulations contain a transitional rule that, in effect, automatically excludes certain corporations described in section 338(h)(6)(B)(i) from target affiliate status. (No prospective exclusion rule is provided for asset consistency purposes.)

The notice of proposed rulemaking published in conjunction with this document proposes that the regular exclusion election be eliminated in the final regulations. Under the proposal, the regular exclusion election generally would be available only if the acquisition date of the original target occured on or before the date of publication of the final regulations. The preamble to the notice contains a discussion of this matter.

Regular exclusion election

In general

If the original target for which an election under section 338(g) ("express election") is made is a domestic corporation, then §1.338-5T(c)(2), as added by this document, permits P in certain cases to make a "regular exclusion election" under which all excludible foreign target affiliates are excluded from the status of target affiliates for purposes of section 338(f)(1). As a consequence, the excludible foreign target affiliates are not subject to deemed elections under section 338(f)(1) by reason of the express election. A foreign corporation is an excludible foreign target affiliate if (1) absent section 338(h)(6)(B), it would be subject to a deemed election under section 338(f)(1) by reason of the express election for the domestic original target and (2) its acquisition date occurs after March 15, 1986 (and does not occur pursuant to a binding contract in effect on February 19, 1986).

Under a transitional exclusion election described below, foreign corporations acquired on or before March 15, 1986 (or after that date but pursuant to a binding contract in effect on February 19, 1986) may be excluded from the status of target affiliates for purposes of section 338(f)(1). Unlike the regular exclusion election, the transitional exclusion election also applies to domestic corporations described in section 338(h)(6)(B)(i) that are acquired during the prescribed period.

The regular exclusion election may be illustrated as follows. Assume that on June 1, 1986, P makes a qualified stock purchase of domestic target ("DT") and that DT directly holds all of the stock of controlled foreign corporations CFCT1, CFCT2, and CFCT3. The June 1, 1986, acquisition does not occur pursuant to a binding contract in effect on February 19, 1986. Each of the CFCs is an excludible foreign target affiliate. All of those excludible foreign target affiliates will be excluded from the status of a target affiliate for purposes of section 338(f)(1) if P makes a regular exclusion election in connection with an express election filed for DT. If the regular exclusion election is made, then the express election for DT will not cause deemed elections under section 338(f)(1) for CFCT1, CFCT2, and CFCT3. Because the normative rule under these temporary regulations is that corporations are not excluded from target affiliate status by reason of section 338(h)(6)(B)(i), each of the CFCs will be subject to a deemed election under section 338(f)(1) by reason of new DT's deemed purchase of their stock if a regular exclusion election is not made in connection with the express election for DT. See section 338(a)(2) and (h)(3)(B).

An elective exclusion from target affiliate status for purposes of section 338(f)(1) is permitted because of the asserted hardship to taxpayers of imposing full stock consistency with respect to foreign corporations. It is recognized that the elective exclusion permits some selectivity and is complex. However, the potential for selectivity is limited since all of the excludible foreign target affiliates automatically are subject to the regular exclusion election.

Special stock basis rules

New DT's basis in the stock of an excludible foreign target affiliate that is subject to a regular exclusion election is determined under a special basis rule if (1) old DT recognizes a section 1248(f) dividend as a result of its deemed sale of that stock (or would have recognized such a dividend if the excludible foreign target affiliate had earnings and profits), (2) the section 1248(f) dividend actually recognized (if any) is less than the gain relaized by DT on its deemed sale of that stock, and (3) any earnings and profits that would have arisen had the regular exclusion election not been made would have increased that section 1248(f) dividend. Under the special basis rule, new DT's basis in that stock is the lesser of two amounts. The first amount is the basis allocable to that stock under the normal basis allocation rules of section 338(b). The second amount is old DT's basis in that stock, increased by the section 1248(f) dividend (if any) recognized by old DT with respect to its deemed sale of that stock. Section 1.338-5T(c)(3). The special basis rule also applies to stock in an excludible foreign target affiliate that is held by any other domestic target that is subject to a deemed election under section 338(f)(1).

Under the rule discussed below, a foreign target that derives a substantial portion of its income from the conduct of a trade or business in the United States may be treated as a domestic target ("FDT") for purposes of the regular exclusion election. An FDT cannot qualify as an excludible foreign target affiliate. Under certain circumstances, however, the special basis rule of §1.338-5T(c)(3) will apply to an actual domestic target that holds stock in an FDT as if that FDT were an excludible foreign target affiliate subject to a regular exclusion election. Section 1.338-5T(c)(3)(iv). Assume, for example, that DT is deemed under section 338(a)(1) to sell all of the stock of FDT. As a result, FDT is subject to a deemed election under section 338(f)(1). If, on its acquisition date, FDT directly (or indirectly through another FDT) holds stock in an excludible foreign target affiliate that is subject to a regular exclusion election, then new DT's basis in FDT stock is determined as if FDT were an excludible foreign target affiliate. A similar basis rule applies to the excludible foreign target affiliate stock held by new FDT.

The purpose of the special basis rule of §1.338-5T(c)(3) is to preserve potential section 1248 dividend consequences with respect to the earnings and profits of the excludible foreign target affiliate that would have been triggered had it been subject to a section 338 election, *i.e.*, the earnings and profits that would have resulted from its deemed sale of assets under section 338(a)(1) ("deemed sale earnings and profits"). As explained more fully below in the discussion of section 1248, the earnings and profits of a controlled foreign corporation that is subject to a section 338 election generally are increased, for purposes of determining the amount of the section 1248 dividend to the transferor, by that controlled foreign corporation's deemed sale earnings and profits.

Assume, for example, that DT holds all of the stock of controlled foreign corporation CFCT1 and that P makes a regular exclusion election (applicable to CFCT1) in connection with an express election for DT. As a result of its deemed sale under section 338(a)(1) of the stock of CFCT1, DT will recognize a section 1248(f) dividend equal to the lesser of the gain realized in the deemed sale of CFCT1 stock or the earnings and profits of CFCT1 that are attributable to that stock under the rules of section 1248. by reason of the regular exclusion election, however, CFCT1's deemed sale earnings and profits will not be triggered since CFCT1 will not be subject to a deemed election under section 338(f)(1). Thus, DT's section 1248(f) dividend with respect to the CFCT1 stock will reflect only the earnings and profits that result from the normal operations of CFCT1.

In addition, absent the special basis rule, new DT's basis in the stock of CFCT1 would approximate, in the typical case, the current fair market value of that stock, so that the gain recognition limitation of section 1248 likely would prevent a section 1248 dividend in the event of new DT's prompt sale of that stock in a transaction with respect to which the purchaser made an election under section 338. Assume, for example, that an unrelated corporation purchases the stock of CFCT1 from DT shortly after DT's acquisition date and makes a section 338 election for CFCT1. CFCT1 presumably will have deemed sale earnings and profits as a result of the section 338 election but, by reason of the gain recognition limitation (and in the absence of the special basis rule), a section 1248 dividend likely will not accrue to DT. Thus, the special basis rule is intended to preserve the possibility of a section 1248 dividend on CFCT1's deemed sale earnings and profits in the event of a post-acquisition date sale of CFCT1 stock by DT.

Carryover basis in certain assets

A carryover basis may be imposed with respect to certain asset acquisitions when a regular exclusion election is made. This rule is discussed below in the section on asset consistency rules.

Invalidation events

A regular exclusion election is not available, or may be invalidated retroactively, if an invalidation event occurs. Each of the two invalidation events provided for in §1.338-5T(c)(2)(iii) involves a factual situation in which a deemed election under section 338(f)(1) for one or more of the excludible foreign target affiliates is considered desirable. In such cases, the "all or nothing" policy underlying the regular exclusion election dictates that *none* of the excludible foreign target affiliates be excluded from the status of a target affiliate pursuant to a regular exclusion election. An invalidation event will be disregarded if, upon the examination of a relevant return, the District Director makes certain determinations described in §1.338-5T(c)(2)(iii)(A). Unless and until those determinations are made, however, the invalidation event is given full effect.

The first invalidation event is a direct acquisition of the stock of an excludible foreign target affiliate by a P group member, provided that the excludible foreign target affiliate was a controlled foreign corporation at any time during so much of the taxable year within which its acquisition date occurs as ends on that acquisition date. (This rule also applies to the direct acquisition of stock in a domestic target described in section 1248(e) if that target holds stock in such an excludible foreign target affiliate.) Assume, for example, that P makes a qualified stock purchase of all of the stock of DT from S. Assume in addition that, during DT's consistency period, P makes a qualified stock purchase of all of the stock of FT, a target affiliate of DT, from S. All of these corporations but FT are domestic corporations. Thus, FT was a controlled foreign corporation during the relevant period. Accordingly, FT cannot be excluded from the status of a target affiliate pursuant to a regular exclusion election because, by reason of P's direct acquisition of the FT stock, a regular exclusion election cannot be made. Thus, FT will be subject to a deemed election under section 338(f)(1) if an express election is made for DT. As a result, the section 1248 dividend recognized by S will reflect FT's deemed sale earnings and profits. If FT were a subsidiary of DT, however, a regular exclusion election could be made so that FT would not be subject to a deemed election under section 338(f)(1). A potential section 1248 dividend reflecting the earnings and profits inherent in FT's asset (*i.e.*, the earnings and profits that would be triggered as deemed sale earnings and profits if FT were subject to a section 338 election) would be preserved, however, by reason of the special stock basis adjustment rule described above.

The purpose of the first invalidation event is to ensure that the section 1248 dividend (if any) recognized by S at the time it disposes of the FT stock reflects the deemed sale earnings and profits inherent in FT's assets. While it is considered appropriate to, in effect, transfer section 1248 dividend consequences associated with deemed sale earnings and profits from old DT to new DT by reason of the stock basis adjustment rule, it is not considered appropriate to transfer such a potential section 1248 dividend from S to P when S is a United States person that satisfies the stock ownership requirements of section 1248(a) with respect to FT. Nor is it practical to defer S's tax with respect to deemed sale earnings and profits until some event occurring after S disposes of the FT stock. The policy considerations underlying these determinations are examined in detail below in connection with the discussion of the "background" pertaining to the operation of section 1248 in the section 338 context.

The second invalidation event occurs if one or more excludible foreign target affiliates holds stock in a domestic corporation and that domestic corporation would be subject to a section 338 election only if the regular exclusion election did not apply. This rule ensures that all domestic targets are subject to the express election made for the domestic original target. Absent this rule, there would be an incentive, in a case in which section 338 treatment was desired for some but not all of the domestic corporations to be acquired, to attempt to shield one or more of those domestic corporations from section 338 treatment by causing a pre-acquisition date transfer of its stock to an excludible foreign target affiliate subject to a regular exclusion election. Since that excludible foreign target affiliate would not be deemed to purchase the stock of the domestic corporation under section 338(a)(2) and (h)(3)(B), section 338 treatment for that domestic corporation would be avoided. Section 367(a) would have discouraged such arrangements only in certain circumstances.

Notwithstanding the occurrence of an invalidation event after the regular exclusion election is filed, an excludible foreign target affiliate will not be made retroactively subject to a deemed election under section 338(f)(1) by reason of the section 338 election for the original target if such a deemed election would directly or indirectly increase the tax liability properly reportable in a return (of any person) with respect to which the time to make an assessment of tax has expired. Section 1.338-5T(c)(2)(iii)(D).

Original target is foreign

As noted above, the prerequisite for a regular exclusion election is a domestic original target. If the original target is a foreign corporation, a special rule may permit P to make an express election for a subsequently acquired domestic target affiliate of that foreign corporation while excluding that foreign corporation from the express election as if it were an excludible foreign target affiliate. Section 1.338-5T(c)(2)(iv). The special rule effectively operates as an exception to section 338(f)(2).

An express election may be made for the subsequently acquired domestic target pursuant to the special rule only if that express election includes a regular exclusion election, which will apply to the foreign original target as if it were an excludible foreign target affiliate. In addition, the special rule is applicable only if a regular exclusion election could have been made in an express election for the domestic target had it actually been the original target and had the foreign original target been a target affiliate of that domestic target. Thus, the special rule is not available if P's direct acquisition of the stock of the foreign original target would constitute an invalidation event under the hypothetical circumstances described in the preceding sentence, *e.g.*, if the original foreign target was a controlled foreign corporation during the relevant period. Absent this rule, the order in which domestic and non-CFC foreign targets are acquired would arbitrarily affect the availability of a regular exclusion election.

Foreign corporation treated as domestic

For purposes of applying the provisions relating to the regular exclusion election, a foreign corporation is treated as a domestic corporation if 50 percent or more of its gross income from all sources for the 3-year period ending with the close of its taxable year that precedes the taxable year in which its acquisition date occurs is effectively connected with the conduct by that corporation of a trade or business in the United States. Section 1.338-5T(c)(5). The 50 percent test is similar to the dividend source rule in section 861(a)(2)(B) with one proviso: The Commissioner may exclude any transactions of a foreign corporation during the last year of this 3-year period from gross income for purposes of this 50 percent test if he determines (on the basis of all the facts and circumstances) that the transactions were entered into pursuant to a plan to treat or avoid treating a foreign corporation as a domestic corporation.

A foreign corporation the stock of which is directly acquired by P will not be treated as a domestic corporation, however, if it was a controlled foreign corporation at any time during so much of the taxable year within which its acquisition date occurs as ends on that acquisition date and if it holds stock in a corporation that would be an excludible foreign target affiliate if FT were treated as a domestic corporation. The exception described in the preceding sentence, which operates to bar a regular exclusion election, is designed to ensure that the deemed sale earnings and profits of the corporation that is or would be an excludible foreign target affiliate (if FT were treated as a domestic corporation) are triggered under these circumstances and are taken into account for purposes of applying section 1248 to the domestic sellers of the foreign corporation since the foreign corporation itself does not generally bear United States tax on a sale or deemed sale of the excludible foreign target affiliate stock. The rationale for this exception is the same as for the first invalidation event, as discussed above.

Transitional exclusion election

In connection with an express election for an original target (whether foreign or domestic), P may make a "transitional exclusion election" under which some or all of the transitional target affiliates are excluded from the status of target affiliates for purposes of section 338(f)(1). A corporation is a transitional target affiliate if (1) it is described in section 338(h)(6)(B)(i), (2) absent section 338(h)(6)(B), it would be subject to a deemed election under section 338(f)(1) by reason of the express election for the original target, and (3) its acquisition date occurs on or before March 15, 1986 (or after that date but pursuant to a binding contract in effect on February 19, 1986). A corporation that is eligible for the more generous transitional exclusion election because it is a transitional target affiliate will not be treated as an excludible foreign target affiliate.

The transitional exclusion election is provided because taxpayers reasonably could have expected during the transitional period that corporations described in section 338(h)(6)(B)(i) would not be treated as target affiliates and therefore would not be made subject to deemed elections under section 338(f)(1) in the event of an express election for the original target. Detailed rules are provided in §1.338-5T(j)(5) for cases in which an overlap exists between the transitional exclusion election and the regular exclusion election.

The following table compares the transitional exclusion election to the regular exclusion election:

	Regular exclusion election (§1.338-5T(c))	*Transitional exclusion election §1.338-5T(j)(1)-(3)*
Targets eligible for election	Foreign targets acquired after 3-15-86	Foreign targets and domestic targets described in section 338(h)(6)(B)(i) acquired on or before 3-15-86
"All or nothing" election	Yes	No[1]
Invalidation events	Yes	No[1]
Special carryover basis rule for stock in targets subject to election	Yes	No
Special carryover basis rule for certain asset acquisitions when election made[2]	Yes	Yes (but more limited than for regular exclusion election)
Special rule for treating foreign corporation as domestic	Yes	No
Section 338 election permitted for corporation other than original target	Yes	Yes

Special asset consistency rules applicable to corporations described in section 338(h)(6)(B)(i)

General rule for target affiliate status

Subject to the transitional rule discussed herein, corporations described in section 338(h)(6)(B)(i) (*i.e.*, foreign and certain domestic corporations) are not excluded from the status of target affiliates for purposes of the asset consistency rule of section 338(e). Thus, an asset acquisition from such a corporation may be a tainted asset acquisition. (Note that if an exclusion election is made, whether regular or transitional, a carryover basis is imposed with respect to certain asset transfers even though those transfers technically do not constitute tainted asset acquisitions. The circumstances in which such a carryover basis is imposed are described in detail below.) The principal abuse against which the asset consistency rule of section 338(e)(1) is directed is the ability to selectively step-up the basis of directly acquired assets while preserving historic asset bases and tax attributes within the target. Because this abuse exists whether or not the transferor is described in section 338(h)(6)(B)(i), corporations described therein are not exempt, prospectively, from the asset consistency rule. The greatest potential hardship resulting from this rule is that a tainted asset acquisition from such a corporation may cause a deemed election under section 338(e) and §1.338-4T(f)(1)(ii). The purchasing corporation may avoid this hardship, however, by filing a protective carryover election.

Transitional rule

Under the transitional rule, an asset acquisition from a corporation described in section 338(h)(6)(B)(i) that occurs on or before March 15, 1986 (or after that date but pursuant to a binding contract in effect on February 19, 1986) will in no case be considered a tainted asset acquisition. Section 1.338-5T(j)(6)(i). Thus, the acquiring P group member does not take a carryover basis in that asset pursuant to the asset consistency rule and, in the absence of a protective carryover election, is not at risk for a deemed election under section 338(e) as a result of that acquisition. This transitional rule exception is provided because taxpayers reasonably could have expected that asset acquisitions during the transitional period from corporations described in section 338(h)(6)(B)(i) would not be subject to the asset consistency rule of section 338(e).

---

[1] It should be noted that, while P is permitted to make the transitional exclusion election for less than all of the transitional target affiliates, a transitional exclusion election for any one transitional target affiliate effectively applies automatically to any other corporation that would be a target but for that transitional exclusion election (*i.e.*, a corporation for which a qualified stock purchase would occur only if the transitional target affiliate were deemed under section 338(a)(2) to purchase its assets).

[2] These rules are discussed below in the section on asset consistency rules.

Carryover asset basis: Regular exclusion election

As a general rule, a carryover basis under the authority of section 338 is imposed with respect to asset transfers only when an express election is *not* made, since the requirement is directed toward cases in which P wishes to avoid section 338 treatment and therefore does not make an express election. The only two exceptions to the general rule arise when a regular or transitional exclusion election is made.

If a regular exclusion election is made in connection with an express election for DT, then a P group member that acquires an asset from an excludible foreign target affiliate (or from a non-target foreign target affiliate) during the consistency period must take a carryover basis in that asset as if the acquisition were subject to an affirmative action carryover election if, in the absence of the express election, the asset acquisition would be a tainted asset acquisition. Section 1.338-5T(c)(4). The District Director does not have authority, in this context, to cause a deemed election for an excludible foreign target affiliate in lieu of a carryover basis in the transferred asset. Absent this special asset consistency rule, the P group could make a regular exclusion election for excludible foreign target affiliates but selectively step-up the basis of some assets held by such corporations (or by non-target foreign target affiliates). Under the special asset consistency rule, a carryover basis is retained both with respect to assets that remain inside excludible foreign target affiliates and with respect to assets directly acquired by P group members during the consistency period from such corporations and from non-target foreign target affiliates. Thus, the foreign corporations are treated, in effect, as a separate subgroup with respect to which an express election is not made.

Carryover asset basis: Transitional exclusion election

A carryover basis rule similar to the one applicable in the regular exclusion election context applies to asset acquisitions from (1) a transitional target affiliate for which a transitional exclusion election is made or (2) any other corporation that would be subject to a deemed election under section 338(f)(1) but for a transitional exclusion election. Thus, asset acquisitions from non-target foreign target affiliates are not subject to the carryover basis rule in the transitional exclusion election context. Compare §1.338-5T(j)(6)(iii) with §1.338-5T(c)(4). For a special overlap rule, see §1.338-5T(j)(5)(iv).

TREATMENT OF STOCK DESCRIBED IN SECTION 338(h)(6)(B)(ii)

General rule for section 338(h)(6)(B)(ii) stock

Under section 338(h)(6)(B)(ii), stock held by a target affiliate of target in a foreign corporation, a DISC, or a section 1248(e) corporation is excluded from the operation of section 338 except as otherwise provided in regulations (and subject to any conditions specified therein). Except during a transitional period, the temporary regulations added by this document provide that such stock is *not* excluded from the operation of section 338. Section 1.338-5T(c)(1)(ii) and (j)(7).

The apparent purpose of section 338(h)(6)(B)(ii) is to approximate the treatment that was available under repealed section 334(b)(2). Thus, for example, assume that domestic target DT holds all of the stock of domestic corporation DT1, and that DT1 holds all of the stock of controlled foreign corporation CFCT2. Under repealed section 334(b)(2), in the event of a liquidation of DT, a section 1248(f) dividend would not be triggered to DT1 with respect to its CFCT2 stock unless P also chose to liquidate DT1. In the section 338 context, absent section 338(h)(6)(B)(ii), an express election for DT causes a deemed election for DT1 under section 338(f)(1), and section 1248(f) is triggered by DT1's deemed sale of CFCT2 stock. Section 338(h)(6)(B)(ii) could be applied to bar a section 1248(f) dividend at the DT1 level. By contrast section 338(h)(6)(B)(ii) does not bar a section 1248(f) dividend at the DT level if DT rather than DT1 holds the CFCT2 stock.

Section 338(h)(6)(B)(ii) thus creates an arbitrary distinction between stock in a foreign corporation that is directly held by an original target for which an express election is made (DT in the above example) and stock in a foreign corporation that is held by a domestic target affiliate of the original target (DT1 in the above example). Because there is no reason not to treat CFC2 stock in the above example like any other recapture asset of DT1, the temporary regulations provide that section 338(h)(6)(B)(ii) does not apply except during a transitional period. Thus section 1248(f) consequences with respect to CFCT2 stock will not turn on whether DT1 rather than DT holds the CFCT2 stock (except during the transitional period).

Transitional rule for section 338(h)(6)(B)(ii) stock

Under a transitional rule set out in §1.338-5T(j)(7), stock described in section 338(h)(6)(B)(ii) that is held by a target subject to a deemed election under section 338(f)(1) may be excluded from the operation of section 338 if the acquisition date of the target occurs on or before February 12, 1986 or pursuant to a binding contract in effect on that date ("eligible target"). In order to obtain this treatment, P must make a transitional stock exclusion election in connection with an express election made for the original target. The transitional stock exclusion election may be made for one or more of the eligible targets. The transitional stock exclusion election applies to all excluded stock held by the eligible target for which the election is made, *i.e,* all of the stock described in section 338(h)(6)(B)(ii) that is held by that eligible target at the close of its acquisition date, other than stock of a transitional target affiliate for which a transitional exclusion election is not made. Thus, excluded stock may include stock of a corporation that is not a target affiliate.

If a transitional stock exclusion election is made for an eligible target, then that eligible target is not deemed under section 338(a) to sell and purchase the excluded stock it holds at the close of its acquisition date. Thus, that eligible target will not recognize a section 1248(f) dividend with respect to excluded stock. In addition, that eligible target's basis (as new target) in excluded stock is the same as its basis in that stock as old target.

The transitional stock exclusion election is provided because taxpayers reasonably could have expected during the transitional period that stock described in section 338(h)(6)(B)(ii) would be excluded from the operation of section 338.

SPECIAL RULES FOR OPERATION OF OFFSET PROHIBITION ELECTION IN INTERNATIONAL CONTEXT

Offset prohibition election inapplicable if no U.S. tax to transferor

As noted above, the normative consequence of a tainted asset acquisition under the asset consistency rule of section 338(e) is a carryover basis to the acquiring P group member. If the trainted asset transfer occurs within a P group that does not file consolidated returns ("INA acquisition"), however, the acquiring P group member takes a basis in the transferred asset that is determined without regard to the carryover basis election if an offset prohibition election is made in connection with a protective carryover election. As a consequence of the offset prohibition election, the transferor in an INA acquisition may not offset the gain recognized on the transfer ("INA gain") by any deductions and the tax attributable to INA gain may not be offset by certain tax credits. See §1.338-4T(f)(6)(iv) *Answer 2* (ii). If the tainted asset transfer occurs within a P group that files consolidated returns ("ICA acquisition") and if deferred gain on that transfer if restored because the transferor ceases to be a member of the P group ("remaining ICA gain amount"), then the existence of an offset prohibition election prevents a reduction (by the remaining ICA gain amount) in the transferred asset's basis in the hands of the transferee. As in the case of INA gain, the remaining ICA gain amount may not be offset by deductions of the P group and the tax attributable to that gain may not be offset by certain tax credits available to the P group. See §1.338-4T(f)(6)(iv) *Answer 3* (iv). A carryover basis (or basis reduction) is not imposed when an offset prohibition election applies because, by reason of the limitations on deductions and credits, an appropriate tax on the transferor's gain will be collected.

Under the temporary regulations added by this document, an otherwise effective offset prohibition election does not apply to transfers by foreign and certain other corporations since, in many circumstances, an appropriate U.S. tax cannot be collected from the transferor. If, however, a foreign transferor corporation is required by pay U.S. tax on the transfer because income or gain on that transfer is effectively connected with the conduct by that transferor of a trade or business within the United States, then the offset prohibition election may apply to that asset. Section 1.338-5T(d)(1).

Special limitation on foreign tax credit when offset prohibition election made

The temporary regulations added by this document add a special section 904 limitation for offset prohibition gain. "Offset prohibition gain" is gain that is subject to limitations on deductions and credits by reason of an offset prohibition election. This special limitation ensures an appropriate foreign tax credit for foreign source offset prohibition gain. However, while foreign taxes on other income items and from other taxable years cannot be applied against any excess limitation for offset prohibition gain, foreign taxes attributable to offset prohibition gain ("offset prohibition foreign taxes") that exceed the separate limitation for offset prohibition gain may be credited in the current year to the extent that the otherwise applicable section 904 limitation exceeds the foreign taxes subject to that limitation that are paid or accrued during the current year. Any remaining offset prohibition foreign taxes carryover to other years as excess foreign taxes subject to the otherwise applicable limitation. Section 1.338-5T(d)(2).

SPECIAL EXCEPTIONS TO SECTION 338(e)(1) UNDER THE AUTHORITY OF SECTION 338(e)(2)(D)

The temporary regulations added by this document add two exceptions to the asset consistency rule of section 338(e)(1) under the authority of section 338(e)(2)(D). Asset acquisitions subject to one of these exceptions, accordingly, will not be considered tainted asset acquisitions. The first exception is for an asset transfer in which the transferee takes a stepped-up basis solely by reason of the transferor's recognition of gain under section 367(a). The second exception applies to the transfer of foreign currency in certain cases. Section 1.338-5T(e). For additional exceptions under the authority of section 338(e)(2)(D), see §1.338-4T(f)(5).

OPERATION OF SECTION 1248 IN SECTION 338 CONTEXT

Background

For a foreign target having solely trade or business income that is *not* effectively connected, the manner of taxing is deemed sale gain under section 338(a)(1) raises two questions: First, how should section 1248 be applied in the section 338 context? Second, do policy and administrative considerations regarding this foreign target outweigh policy and administrative considerations, developed in the context of domestic targets, that a purchaser's election under section 338 should not create a tax to a selling group filing consolidated returns?

In connection with the first question, in general, the United States directly taxes trade or business income of a foreign corporation that is effectively connected with its conduct of a trade or business within the United States. If a foreign corporation has neither effectively connected income nor U.S. source income but is a controlled foreign corporation ("CFC"), as defined in section 957, a principal mechanism since 1962 for exacting an indirect United States tax with respect to its income has been section 1248, under which a U.S. person holding at least 10 percent of the stock of the CFC (a "U.S. shareholder") is required to treat gain on the disposition of such stock as a dividend to the extent of the CFC's earnings and profits that are attributable to the transferred stock. If the foreign corporation is not a CFC, foreign personal holding company, foreign investment company, or, in the case of a foreign corporation that is a CFC, if the

U.S. person holds less than 10 percent of its stock, the United States traditionally has declined to exact either a direct or an indirect tax on the foreign corporation's noneffectively connected income unless and until it is actually distributed.

In connection with the second question, a basic policy of section 338 in the domestic context is that P should not be permitted to unilaterally affect the tax liability of the seller of domestic target stock by making a section 338 election. Thus, under section 338(h)(9), a target acquired from a consolidated selling group is disaffiliated for purposes of its deemed sale of assets. As a result, P cannot trigger income reportable in the seller's consolidated return by making a section 338 election for the domestic target. Because deemed sale gain therefore is reported in a return for which new target is liable, P indirectly bears the liability for that tax. (Although an election under 338(h)(10) causes deemed sale gain to be reported in the seller's consolidated return, both the seller and P must agree to that election.) Allowing P (the purchaser of all of the CFC's stock) to unilaterally elect section 338 and thereby affect the section 1248 dividend recognized by the U.S. sellers of the CFC is not consistent with this basic policy.

Allowing P to unilaterally affect the U.S. seller's section 1248 dividend would also create problems of administration. In order for the seller to properly calculate its section 1248 dividend, that seller would need to be notified of the section 338 election. Effective tax administration, moreover, would require that the Internal Revenue Service be notified of the identity of the U.S. sellers that may be affected under section 1248 by the section 338 election.

After reviewing the policy and administrative considerations, the Treasury Department has determined that the United States should indirectly tax under section 1248 the selling U.S. shareholders of CFC stock on the CFC's deemed sale gain under section 338(a)(1). This indirect tax is consistent with the traditional scope for exercising United States taxing jurisdiction of CFCs and would be imposed under the circumstances contemplated by existing law, principally section 1248.

Taxing a U.S. shareholder selling CFC stock on the CFC's deemed sale gain is appropriate. Section 338(a)(1) provides that the deemed sale is treated as if it were a transaction to which section 337 applies. Recapture items that are recognized notwithstanding section 337 increase section 1248 earnings and profits. *See Pielemier v. United States*, 543 F.2d 81 (9th Cir. 1976); *Brigham v. United States*, 539 F.2d 1312 (3d Cir. 1976). This increase in section 1248 earnings and profits reflects an adjustment to the depreciation deductions ordinarily reflected in those earnings and profits. Upon the actual liquidation of a CFC under section 337, the section 1248 dividend reported by a U.S. shareholder takes into account in the single transaction (and subject to a single limitation for the shareholder's recognized gain) both the unadjusted section 1248 earnings and profits and the recapture earnings and profits. The result should be the same when section 337 is treated as applying to the CFC by reason of section 338(a)(1). In contrast, a domestic corporation typically reports its depreciation deductions and any recapture of those deductions in different taxable years.

Taking deemed sale earnings and profits into account in determining the section 1248 dividend to U.S. sellers also increases the likelihood that an appropriate foreign tax credit will be allowed with respect to the deemed sale earnings and profits. The prior deduction of the recaptured item will have decreased the earnings and profits of a prior taxable year of the CFC. Foreign taxes paid with respect to prior years, however, will be deemed paid by the U.S. seller to the extent that the section 1248 dividend derives from earnings and profits from prior years. (If earnings and profits from prior years were previously distributed, foreign taxes may be carried forward five years.) If deemed sale earnings and profits were taxed to the purchaser instead of the U.S. seller, it is unlikely that an appropriate foreign tax credit would be allowed with respect to such income.

Taxing the selling U.S. shareholder on the deemed sale gain yeilds a result analogous to treatment of the deemed sale gain of a domestic target that was not included in a consolidated return of a selling group. That domestic target's deemed sale gain is included with its other income (or loss) in the final income tax return as old target for so much of its regular taxable year that was terminated at the close of its acquisition date. See §1.338-1T(f)(2)(i). Similarly, a CFC's deemed sale gain is taken into account with other income (or loss) in its section 1248 earnings and profits for so much of its regular taxable year that was so terminated.

It is impractical to tax the pruchaser ("P") on the recapture earnings and profits instead of the selling U.S. shareholder. In view of the manner in which the United States traditionally has taxed the earnings of such a foreign target, P (if it were to be taxed) idealy would be taxed on the section 1248 dividend that the U.S. sellers of target stock would have recognized that they been required to take into account the target's deemed sale earnings and profits. Thus, P would have to ascertain whether S was a U.S. shareholder. Moreover, in order to determine the amount of a section 1248 dividend, P would need detailed tax information relating to the holding period and basis of those selling U.S. shareholders in target stock. Even assuming that the correct dividend amount is calculated, taxing P would be a departure from the basic principle of section 1248 of indirectly taxing the shareholders of a CFC, especially since the actual tax effect to P of that dividend likely would differ from the tax effect of that dividend to the U.S. sellers due to differences in foreign tax credit positions and rates of U.S. tax as between P and such sellers. If P were a foreign corporation that did not file U.S. income tax returns, special procedures would be necessary in order to collect *any* tax measured by reference to deemed sale earnings and profits (*e.g.*, a toll charge in the amount of the tax as a condition for a valid section 338 election) which would have the indirect effect of S bearing the tax. Policy, considerations aside, it is certainly more practical to tax S than P on the deemed sale earnings and profits.

In conclusion, these policy and administrative considerations favor imposing an indirect tax on deemed sale gain only on the U.S. sellers of CFC stock and only through existing statutory mechanisms (with certain modifications), principally section 1248. An indirect tax should not be imposed on

P. These policy and administrative considerations outweigh the domestic section 338 policy that P should not be permitted to unilaterally affect the tax liability of the seller of target stock by making a section 338 election.

Application of Section 1248 to sellers of stock in foreign T

Temporary regulations §1.338-5T(g), as added by this document, provides rules for the operation of section 1248 in connection with a section 338 election for a target that is a controlled foreign corporation ("CFCT"). As noted above, the deemed sale of assets under section 338(a)(1) is governed by section 337. Had CFCT actually sold its assets in a sale described in section 337, amounts a domestic corporation would have recognized notwithstanding the operation of section 337 would have been taken into account as earnings and profits for purposes of applying section 1248. See §§1.1248-2(d)(2)(ii) and 1.1248-3(b)(2)(ii). Section 1.338-5T(g)(2)(i) and (3) makes clear that the deemed sale under section 337 also creates earnings and profits ("deemed sale earnings and profits") that must be taken into account by the U.S. persons subject to section 1248 that sell CFCT stock to P on CFCT's acquisition date. However, any gains (or losses) that a domestic corporation would have recognized in the deemed sale of assets by reason of the operation of section 338(c)(1) are disregarded. (As discussed in more detailed below, a tax on section 338(c)(1) gain may be collected from minority CFCT shareholders that do not transfer their CFCT stock to P.)

A special rule under section 1248 is provided for sales of CFCT stock to the P group by U.S. persons during CFCT's 12-month acquisition period but prior to CFCT's acquisition date ("staggered stock sale rule"). The stagged stock sale rule attributes to such CFCT stock the same share of deemed sale earnings and profits that would have been attributed to such stock had it been sold on CFCT's acquisition date, *i.e.*, on the last day of old CFCT's final taxable year. Absent this rule, only a pro rata portion of that share, based on the number of days in old CFCT's final taxable year during which the seller held the CFCT stock, would be attributed to that stock. Moreover, absent the staggered stock sale rule, *none* of the deemed sale earnings and profits would be attributed to that stock if it were sold during the prior taxable year. This staggered stock sale rule also applies to earnings and profits resulting from actual asset sales occurring on or after the first day of CFCT's taxable year in which the particular stock sale occurs and prior to the close of to CFCT's acquisition date. Such an actual asset sale creates earnings and profits for this purpose, however, only to the extent of the gain on the asset sale that would have been recognized by old CFCT had it been a domestic corporation, had it held that asset on its acquistion date, and had the deemed sale price of that asset been equal to the actual amount realized on the sale or exchange of that asset. Section 1.338-5T(g)(2)(i) and (4). The staggered stock sale rule does not apply to stock transfers occurring on or before February 12, 1986 or after that date but pursuant to a binding contract in effect on that date.

Carryover CFCT stock

A special rule under section 1248 also is provided for "carryover CFCT stock," *i.e.*, CFCT stock held by non-P group members on the close of CFCT's acquisition date ("minority stock") and nonrecently pruchased CFCT stock as defined in section 338(b)(6)(B) for which a gain recognition election under section 338(b)(3)(A) is not made. With respect to carryover CFCT stock, the earnings and profits of old CFCT (along with the foreign taxes attributable to such earnings and profits) carryover to new CFCT for purposes of (1) characterizing distributions with respect to carryover CFCT stock as dividends, (2) characterizing gain on the disposition of CFCT stock as a section 1248 dividend, and (3) determining the amount of the foreign tax credit resulting from such dividends. The amount of old CFCT's earnings and profits that may be taken into account with respect to a share of carryover CFCT stock, however, shall not exceed the amount of the section 1248 dividend that the holder of that share would have recognized had it sold that share at fair market value to a member of the P group on CFCT's acquisition date (or, with respect to nonrecently purchased stock, had such stock been subject to a gain recognition election) ("section 1248 amount"). Section 1.338-5T(g)(6).

The carryover CFCT stock rule ensures that appropriate section 1248 consequences will attend a post-acquisition date disposition of such stock. In addition, the rule eliminates the incentive for holders of minority stock to retain such stock until after CFCT's acquisition date, *i.e.*, until after its earnings and profits account is eliminated. Absent this rule, holders of minority stock could avoid a section 1248 dividend measured by older CFCT's earnings and profits simply by waiting until after CFCT's acquisition date to transfer such stock to P. Finally, the carryover CFCT stock rule serves as a mechanism whereby a tax on section 338(c)(1) gain is borne (if at all) only by the persons that caused that gain to exist. Thus, for purposes of determining the section 1248 amount, all of the earnings and profits of old CFCT resulting from gain (or loss) that a domestic corporation would have recognized by reason of the operation of section 338(c)(1) are allocated solely to the carryover CFCT stock that causes section 338(c)(1) to apply to the transaction, *e.g.*, carryover CFCT stock that is minority stock and that is not purchased by a member of the P group during the one-year period beginning on CFCT's acquistion date. The policies underlying the rules for carryover CFCT stock are generally similar to those underlying regulations promulgated under section 367(b).

Special CFC definition

A special definition is provided for determining whether a foreign target is a controlled foreign corporation. Under this definition, for purposes of determining whether a foreign target is a controlled foreign corporation for a relevant taxable year, all sales of its stock that are included in the qualified stock purchase of such stock are deemed to occur on that foreign target's acquisition date if that foreign target ceases to be a CFC solely by reason of the qualified stock purchase of its stock. For example, assume that foreign purchasing corporation FP purchases 60 of the 100 outstanding shares of CFCT stock from domestic corporation S on December 31, 1986, and purchases the remaining 40 shares on January 1, 1987. Absent the special definition, CFCT is not a controlled foreign corporation in 1987 and, therefore, the earnings and profits resulting from its deemed sale or assets are not properly reflected in S's section 1248 dividend. The special definition ensures that such earnings and profits are properly reflected in that dividend.

TREATMENT OF GAIN ON DEEMED SALE AS EFFECTIVELY CONNECTED INCOME AND AS INCOME FROM SOURCES WITHIN THE UNITED STATES

Under temporary regulations §1.338-5T(h)(1), as added by this document, a foreign target's gain on the deemed sale of an item of property under section 338(a)(1) is treated as income that is effectively connected with the conduct of a trade or business within the United States and as income from sources within the United States if, for the three-year period ending with the close of the taxable year preceding old foreign target's final taxable year (or for so much of that 3-year period as that target held the particular item of property), more than 50 percent of the gross income it derived from that item of property was effectively connected income. Similarly, under §1.338-5T(h)(2), a domestic target's gain on the deemed sale of an item of property is treated as income from sources within the United States if, for the three-year period ending with the close of the taxable year preceding old domestic target's final taxable year (or for so much of that 3-year period as that target held the particular item of property), more than 50 percent of the gross income it derived from that item of property was income from sources within the United States. No inference should be drawn regarding the United States tax treatment of gain amounts not described in §1.338-5T(h). These rules are designed to eliminate uncertainty as to the source of and the United States tax with respect to gain arising in the deemed sale of assets.

AMENDMENTS TO §1.338-1T

Special suspension of time eliminated

Prior to publication of this document, §1.338-1T(j) provided that the last day for making an election under section 338 was suspended until the date specified in a Treasury decision setting forth regulations under section 338(h)(6)(B) if (1) the target was a corporation described in section 338(h)(6)(B)(i) that had a target affiliate or (2) the target had a target affiliate that was described in section 338(h)(6)(B)(i) or that held stock in a foreign corporation, a DISC, or a corporation described in section 1248(e). In order to make a section 338 election notwithstanding the suspension, a special declaration was required in the statement of section 338 election.

Under §1.338-1T(c), as amended by T.D. 8068 [1986-8 I.R.B. 9], a section 338 election for any qualified stock purchase occurring after August 31, 1982, need not be filed before the later of the due date specified in section 338(g)(1) or March 15, 1986. Under §1.338-1T(j), as amended by this document, the March 15, 1986, date also applies to corporations described in §1.338-1T(j)(1), and no suspension of time after that date is provided for such corporations.

Under §1.338-1T(j), as amended by this document, the requirement of a special declaration in the statement of section 338 election is retained but applies only to statements of section 338 election that are filed on or before March 14, 1986 and that do not contain a transitional or regular exclusion election or a transitional stock exclusion election.

Prior to amendment by this document, a statement of section 338 election that omitted the special declaration could be perfected only by the timely filing of a perfecting declaration. As amended by this document, however, §1.338-1T(j) provides that such a statement of section 338 election may be perfected either by filing a perfecting declaration on or before March 15, 1986, or by making a timely regular exclusion election, transitional exclusion election, or transitional stock exclusion election. The making of such an election would be inconsistent with an intent *not* to perfect the statement of section 338 election.

The class of acquisitions subject to §1.338-1T(j) is broadened by this document to include targets described in section 338(h)(6)(B)(i) that do *not* have a target affiliate ("stand-alone targets"). Stand-alone targets are included because of the substantial uncertainty that existed, prior to publication of this document, as to the application of section 338 to corporations described in section 338(h)(6)(B)(i). The effect of this rule is that a statement of section 338 election filed for such a corporation on or before March 14, 1986 is valid only if it contains the special declaration (or one of the exclusion elections) or is perfected pursuant to the procedures described above.

Notice to U.S. persons required

As noted above, the section 1248 dividend for a U.S. person that sells stock of a target that is a controlled foreign corporation ("CFCT") to P may be affected by P's decision to file a section 338 election for CFCT. Minority shareholders that retain CFCT stock also may be affected by that election. Accordingly, a new §1.338-1T(k)(7) establishes a notice requirement for such persons. The penalty for failure to provide notices to certain U.S. persons is the invalidation of the section 338 election.

Schedule of corporations

Section 1.338-1T(e) provides that a schedule containing information relating to corporations subject to an election under section 338 must be attached to the statement of section 338 election and to certain returns of targets subject to that election. As amended by this document, §1.338-1T(e) also requires that the schedule contain information on excludible foreign target affiliates that are subject to a regular exclusion election. In addition, the schedule must contain information on the U.S. persons to whom P is required to provide notice under new §1.338-1T(k)(7).

New rules are provided regarding the returns to which the schedule and certain other "required items" must be attached under §1.338-1T(e)(2). If a U.S. person is required to report a section 1248 dividend in its income tax return by reason of its sale of foreign target stock to P, then the required items must be attached to that return. Section 1.338-1T(e)(2)(v)(B). Other U.S. persons that hold stock in foreign target on its acquisition date or on the first day thereafter must attach the required items to the Forms 5471 they are required to file with respect to foreign target for its taxable years that include those days. Section 1.338-1T(e)(2)(v)(C). (As part of the notice requirement, P must provide the required items to the U.S. persons described in the preceding two sentences.) If a foreign target's first return as new target is for a taxable year subsequent to its first taxable year, then the required items must be attached to that return (this is an existing requirement). Section 1.338-1T(e)(2)(v)(D). (Section 1.338-1T(e)(2)(v)(C) and (D) replaces §1.338-1T(k)(6) of the existing regulations, which is removed by this document.)

Under §1.338-1T(e)(3), the standard penalty for failure to comply with the requirements relating to the schedule of corporations is invalidation of the penalty waiver rule of §1.338-1T(h) (automatic waiver of certain penalties). (The penalty will not apply solely by reason of the failure to attach the required items to certain returns over which P may have no control.) Under §1.338-1T(e)(3), as amended by this document, the penalty also applies when amended returns required by reason of the retroactive invalidation of a regular exclusion election are not timely filed.

Miscellaneous amendments

A number of minor technical and clarifying amendments are made to §1.338-1T. (The enumeration in this paragraph is not inclusive.) Section 1.338-1T(d)(2) (relating to the treatment of a common parent as the agent of P for purposes of signing the statement of section 338 election) is amended to make clear that it serves merely as a cross-reference to the relevant consolidated return regulation and is not intended to alter the rules provided therein. A number of amendments are made to §1.338-1T(k). The meaning of "subject to United States tax" in §1.338-1T(k) is clarified. (This change is not intended to be substantive.) Section 1.338-1T(k)(1) is amended to apply to *any* election made under the authority of section 338, *e.g.*, the protective carryover election under §1.338-4T(f)(6). Similarly, section 1.338-1T(k)(5), which exempts certain foreign corporations from the requirement that an employer identification number be furnished, is made applicable to *any* election made under the authority of section 338.

AMENDMENTS TO §1.338-4T

Exception to section 338(e) for property subject to timely disposition

Section 1.338-4T(f)(5) *Answer* (vii) provides that an asset acquisition is subject to an exception to section 338 (e)(1) (and therefore will not be a tainted asset acquisition for purposes of the consistency rule of section 338(e)) if the P group disposes of that asset to an unrelated person (not including a target affiliate of target) on or before the date specified in §1.338-4T(f)(5) *Answer* (vii). This document amends that provision to also prohibit disposition to a target affiliate of an affected target. In addition, this document amends the provision to provide that the asset will be considered disposed of if the P group member holding the asset ceases to be a member of the P group (and ceases to be related to any member of the P group) on or before the specified date. A corporation is not treated as a ceasing to be a member of the P group, however, if it ceases to exist during the consistency period by reason of a transaction described in section 381(a) and if the acquiring corporation (within the meaning of section 381(a)(1)) is a member of the P group.

Amendment to rules relating to P group members that must sign the protective carryover election statement

Under §1.338-4T(f)(6)(ii) *Answer 1* (ii), each corporation included in the P group at any time during so much of the target's consistency period as ends on the day a protective carryover election is filed must join in making that protective carryover election. Under that provision, as amended by this document, a corporation that ceases to be a P group member prior to the day on which the protective carryover electon is filed ("former P group member") need not join in making the protective carryover election if it did not make aa tainted asset acquisition (as defined in §1.338-4T(f)(6)(i)(A)) while a member of the P group. Caution should be exercised when relying on the rule described in the preceding sentence, however, if the former P group member made *any* asset acquisitions during the consistency period from the original target, an affected target, or a target affiliate of one of those targets, since it is not always clear that an acquisition is not a tainted asset acquisition. See, *e.g.*, the exception in §1.338-4T(f)(3) for acquisitions in the ordinary course of trade or business. Note, however, that an asset acquisition that otherwise would be a tainted asset acquisition may be subject to the timely disposition exception of §1.338-4T(f)(5) *Answer* (vii) if the former P group member ceased to be a member within the time specified in §1.338-4T(f)(5) *Answer* (vii).

An additional exception to the requirement that all P group members must join in making the protective carryover election is made for certain foreign P group members, whether or not they are members on the day the protective carryover election is filed. Under this exception, a representative of a foreign P group member is not required to sign the protective carryover election unless that foreign P group member (1) is required to file a United States income tax return for its taxable year in which the protective carryover election is filed, (2) is, at any time during its taxable year in which the protective carryover election is filed, a controlled foreign corporation, a foreign investment company, or a foreign corporation the stock ownership of which is described in section 552(a)(2), (3) purchases any of the stock included in the qualified stock purchase of the target (or of an affected target), or (4) holds stock in a foreign P group member that satisfies one or more of the three preceding conditions. If a foreign P group member is a controlled foreign corporation, its United States shareholders may make the protective carryover election on its behalf.

A foreign P group member subject to the exception described in the preceding paragraph must be identified in the protective carryover election as if it were required to join in making the election. Tainted asset acquisitions made by such a corporation will be subject to the affirmative action carryover basis rules, however, unless the corporation joins in making the election, *i.e.*, unless a representative signs the protective carryover election. The District Director will not have authority under these circumstances to impose a deemed election under section 338 (e)(1) pursuant to §1.338-4T(f)(1)(ii).

Miscellaneous amendments

A number of minor technical and clarifying amendments are made to §1.338-4T. (The enumeration in this paragraph is not inclusive.) A more comprehensive definition of a "tainted asset acquisition" is provided in amended §1.338-4T(f)(6)(i)(A). As amended, that provision also clarifies that the protective carryover election is irrevocable. *Answer 2* (ii)(B) and *Answer 3* (iv)(D) of §1.338-4T(f)(6)(iv) (relating to restrictions on the use of certain credits when an offset prohibition election is made) are clarified. Finally, §1.338-4T(k)(1) *Answer 3* (relating to the operation of section 338(h)(12)) is amended to clarify that nonrecognition on actual asset sales pursuant to section 338(h)(12) is available notwithstanding that a liquidation of target immediately after the plan of complete liquidation was adopted would have been governed by section 332, provided that each corporation that would have been a distributee corporation in that hypothetical liquidation is liquidated under the circumstances described in section 337(c)(3).

A number of typographical errors in §1.338-4T are corrected by this document.

REGULATORY FLEXIBILITY ACT; EXECUTIVE ORDER 12291; AND PAPERWORK REDUCTION ACT OF 1980

A general notice of proposed rulemaking is not required by 5 U.S.C. for temporary regulations. Accordingly, these temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6). The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required. The collection of information contained in these regulations has been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements hae been approved by OMB (Control number 1545-0702).

DRAFTING INFORMATION

The principal author of these temporary regulations is Duane H. Pellervo of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * *

Adoption of amendments to the regulations

Accordingly, Parts 1 and 602 of Title 26 of the Code of Federal Regulations are amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * §§1.338-1T, 1.338-4T, 1.338-5T, and 1.338(h)(10)-1T also issued under 26 U.S.C. 338.

Par. 2. A new §1.338-5T is added immediately after §1.338-4T to read as follows:

§1.338-5T International aspects of section 338 (temporary).

(a) *Introduction*—(1) *Effective date.* Except as otherwise provided in this section, this section applies to stock acquisitions for which the acquisition date (determined without section 224(d)(5) of TEFRA) occurs after August 31, 1982.

(2) *Outline of topics.* In order to facilitate the use of this section, this subparagraph (2) lists the paragraphs, subparagraphs, and subdivisions contained in this section.

(a) Introduction.
(1) Effective date.
(2) Outline of topics.
(3) Application of §1.338-4T to foreign persons and certain domestic corporations.
(4) Procedural rules.
(b) Nomenclature and definitions.
(1) Nomenclature.
(i) Corporations.
(ii) Individuals.
(2) Definitions.
(c) Application of section 338 to corporations and stock described in section 338(h)(6)(B).
(1) General rule.
(2) Elective exclusion of foreign corporations from target affiliate status.
(i) General rule.
(ii) Excludible foreign target affiliate.
(iii) Regular exclusion election not available in certain cases.
(A) General rule.
(B) Controlled foreign corporation directly acquired.
(C) Excludible foreign target affiliate holds stock in domestic corporation.
(D) Exception when statute of limitations has expired.
(iv) Special rule if original target is a foreign corporation.
(A) General rule.
(B) Foreign target as original target.
(C) Qualifying domestic target affiliate.
(D) Special rule inapplicable if express election for original foreign target filed.
(E) Effect of invalidation event.
(F) Coordination with protective carryover election.
(v) Procedure for making regular exclusion election.
(A) General rule.
(B) Contents of regular exclusion statement.
(C) Transitional rule.
(vi) Annotation on required schedule.
(vii) Procedure if regular exclusion election invalidated subsequent to filing.
(A) Required schedule must be amended.
(B) Filing of amended returns.
(3) Effect of regular exclusion election on basis in excludible foreign target affiliate stock.
(i) General rule.
(ii) Excess basis amount eliminated.
(iii) Subject to section 1248(f)(1).
(iv) Special rules if foreign target treated as domestic.
(v) Cross-reference
(4) Special asset consistency rule if regular exclusion election made.
(i) General rule.
(ii) Deemed election not imposed.
(iii) Relevant target.
(5) Certain foreign corporations treated as domestic corporations.
(i) General rule.
(ii) Event year.
(iii) Exception.
(6) Examples.
(d) Special rules applicable to offset prohibition electon.
(1) Offset prohibition election inapplicable to certain transfers
(i) General rule.
(ii) Exception for certain foreign transferors

(2) Limit on crediting foreign tax against U.S. tax on offset prohibition gain.

(i) Defintiions.

(A) Offset prohibition gain.

(B) Offset prohibition foreign taxes.

(c) Otherwise applicable section 904 limitation.

(ii) One-way special foreign tax credit limitation for offset prohibition foreign taxes.

(iii) Excess special limitation disregarded for purposes of section 904(c).

(iv) Special rule for creditability of offset prohibition foreign taxes in excess of special limitation.

(v) Coordination with restricted credit provisions of §1.338-4T(f)(6)(iv).

(3) Examples.

(e) Certain transactions subject to an exception to section 338(e)(1) under the authority of section 338(e)(2)(D).

(1) Basis step-up attributable to gain recognized under section 367.

(2) Acquisition of foreign currency.

(i) General rule.

(ii) No inference regarding character of gain or loss

(f) Effect of section 338 on foreign target

(g) Operation of section 1248 if section 338 election made.

(1) Scope.

(2) General rules.

(i) Transfer of CFCT or before acquisition date.

(ii) Effect of gain recognition election.

(iii) Carryover CFCT stock.

(iv) Special rule for determining status as controlled foreign corporation

(v) Section 1248(c)(2) subsidiary

(vi) Special deemed stock sale rule

(3) Enhanced earnings and profits amount if stock transferred on CFCT's acquisition date.

(4) Enhanced earnings and profits amount if stock transferred before CFCT's acquisition date.

(1) General rule.

(ii) Affected taxable year of CFCT.

(iii) CFCT's recapture earnings and profits.

(iv) Recapture amount.

(v) Exception to enhancement rule of paragraph (g)(4)(i) for transitional period stock transfer.

(vi) Section 1248(c)(2) subsidiary with same taxable year as CFCT.

(A) Recapture amounts for subsidiaries.

(B) Earnings and profits of subsidiaries.

(C) Recapture earnings and profits for block.

(D) Application of general rule.

(vii) Section 1248(c)(2) subsidiary with taxable year different from CFCT's.

(5) Section 338(c)(1) inapplicable.

(6) Carryover of old CFCT earnings and profits for purposes of carryover CFCT stock.

(i) General rule.

(ii) Cap on carryover of earnings and profits.

(iii) Section 1248 amount for stock other than section 338(c)(1) stock.

(iv) Section 1248 amount for section 338(c)(1) stock.

(v) Section 338(c)(1) stock.

(vi) Section 338(c)(1) amount.

(vii) Old CFCT earnings and profits unaffected by post-acquisition date deficits.

(viii) Character of CFCT stock as carryover CFCT stock eliminated upon disposition.

(7) Application of principles of this paragraph to section 1246.

(8) Examples.

(h) Treatment of gain in deemed sale of assets as income effectively connected with the conduct of a trade or business within the United States and as from sources within the United States.

(1) Foreign target.

(2) Domestic target.

(3) Measurement period.

(4) No inference regarding transactions not described.

(i) Reserved

(j) Transitional rules for corporations and stock described in section 338(h)(6)(B).

(1) Transitional elective exclusion from target affiliate status.

92) Transitional target affiliate.

(i) General rule.

(ii) Acquired on or before March 15, 1986.

(iii) Hypothetical acquisition date of transitional target affiliate.

(3) Special rule for certain original targets described in section 338(h)(6)(B)(i).

(i) General rule.

(ii) Transitional excludible original target.

(iii) Qualifying target affiliate.

(A) General rule.

(B) Excepted target.

(iv) Coordination with protective carryover election.

(4) Examples.

(5) Relationship between transitional exclusion election and regular exclusion election.

(i) In general.

(ii) Special rule for application of regular exclusion election.

(iii) Limitation on application of paragraph (c)(3) of this section.

(iv) Limitation on application of paragraph (c)(4) of this section.

(v) Overlap between paragraphs (c)(2)(iv) and (j)(3) of this section.

(A) In general.

(B) Illustrative factual situation.

(C) Express election for transitional excludible original target or qualifying target affiliate.

(D) Express election for qualifying domestic target affiliate.

(E) Express election for FT3 bars regular exclusion election.

(F) FT3 is DT3.

(G) FT1 is DT1.

(H) FT2 is DT2.

(I) Effect of invalidation event after express election filed for DT5.

(vi) Examples.

(6) Transitional asset consistency rules for corporations described in section 338(h)(6)(B)(i).

(i) General rule.

(ii) Definitions.

(A) Transitional asset acquisition.

(B) Acquisition made on or before March 15, 1986.

(C) Excluded transferror.

(iii) Special asset consistency rule for acquisition from excluded transferor

(A) General rule.

(B) Deemed election not imposed.

(iv) Examples.

(7) Treatment of stock described in section 338(h)(6)(B)(ii).

(i) Transitional stock exclusion election.

(ii) Section 338(h)(6)(B)(ii) stock.

(iii) Eligible target.

(iv) Effect of exclusion from operation of section 338.

(v) Effect of difference between carryover basis amount and regular basis amount.

(vi) Tacking of old eligible target's holding period.

(vii) Examples.

(8) Transitional section 338(h)(6)(B)

election procedures.

(i) General rule.

(ii) Special procedure if express election filed on or before March 15, 1986.

(iii) Amendment procedure if transitional statement filed on or before March 15, 1986.

(iv) Acquisition date of transitional target affiliate or eligible target occurs after transitional section 338(h)(6)(B) statement filed.

(v) Contents of transitional section 338(h)(6)(B) statement.

(3) *Application of §1.338-4T to foreign persons and certain domestic corporations*. Except as otherwise provided in this section, the provisions of §1.338-4T apply to—

(i) Foreign corporations,

(ii) Domestic corporations described in section 338(h)(6)(B), and

(iii) Individuals that are not U.S. residents or citizens.

(4) *Procedural rules*. For additional procedural rules, see §1.338-1T.

(b) *Nomenclature and definitions*—(1) *Nomenclature*. The nomenclature in §1.338-4T(b)(1) also applies to this section except as follows:

(i) *Corporations*. Each term used in §1.338-4T(b)(1) to refer to a corporation (*e.g.*, "T") is preceded in this section either by the letter "D," connoting a domestic corporation, the letter "F," connoting a foreign corporation (as defined in section 7701(a)(5)), or the letters "CFC," connoting a controlled foreign corporation (as defined in section 957). ("CFC" is used rather than "F" only when the corporation's status as a controlled foreign corporation is significant.) However, the term "P" is used without a prefix when the purchasing corporation's status as a foreign or domestic corporation is not significant. (All terms used in §1.338-4T to refer to corporations are references to domestic corporations.)

(ii) *Individuals*. Each term used in §1.338-4T(b)(1) to refer to an individual (*i.e.*, "A" and "B") is preceded in this section either by the letter "D," connoting a U.S. resident or citizen, or "F," connoting an individual other than a U.S. resident or citizen. (All terms used in §1.338-4T to refer to individuals are references to U.S. residents or citizens.)

(2) *Definitions*. The definitions in §1.338-4T also apply to this section, except that the definition of a domestic corporation in §1.338-4T(b)(6) is applied without the exclusion therein for DISCs, corporations described in section 934(b) or 1248(e), and corporations to which an election under section 936 applies.

(c) *Application of section 338 to corporations and stock described in section 338(h)(6)(B)*—(1) *General rule*. Except as otherwise provided in this paragraph (c) and in paragraph (j) of this section (relating to transitional rules)—

(i) A corporation that would be a target affiliate within the meaning of section 338(h)(6)(A) but for section 338(h)(6)(B)(i) shall be considered a target affiliate for all purposes of section 338 and

(ii) Stock held by a target affiliate in a foreign corporation or in a domestic corporation that is a DISC or that is described in section 1248(e) shall not be excluded from the operation of section 338.

(2) *Elective exclusion of foreign corporations from target affiliate status*—(i) *General rule*. If P files an express election for DT, an original target, then, solely for purposes of the stock consistency rule of section 338(f)(1), P also may elect (in the manner prescribed in paragraph (c)(2)(v) of this section) to exclude all excludible foreign target affiliates from the status of target affiliate ("regular exclusion election"). If the regular exclusion election is not or cannot be made (*e.g.*, because DT is FT or because a section 338 election is not filed for DT), then none of the excludible foreign target affiliates may be excluded from the status of a target affiliate. A section 338 election cannot be made for any excludible foreign target affiliate that is subject to a regular exclusion election. For a special stock basis rule that applies when a regular exclusion election is made, see paragraph (c)(3) of this section. For a special asset consistency rule that applies when a regular exclusion election is made, see paragraph (c)(4) of this section. For treatment of certain foreign corporations as domestic corporations, see paragraph (c)(5) of this section. For transitional rules, see paragraph (j) of this section.

(ii) *Excludible foreign target affiliate*. An "excludible foreign target affiliate" is a foreign corporation that meets two conditions. The first condition is that, absent section 338(h)(6)(B), it would be subject to a deemed election under section 338(f)(1) by reason of the express election for DT. The second condition is that it must not be a transitional target affiliate within the meaning of paragraph (j)(2) of this section, *i.e.*, its acquisition date must not occur on or before March 15, 1986 (or after March 15, 1986, but pursuant to a binding contract in effect on February 19, 1986). See Examples (1) and (2) in paragraph (c)(6) of this section.

(iii) *Regular exclusion election not available in certain cases*—(A) *General rule*. Except as provided in paragraph (c)(2)(iii)(D) of this section (relating to effect of statute of limitations), a regular exclusion election cannot be made (or is retroactively invalidated) if an invalidation event described in this subdivision (iii) occurs and is not disregarded by the District Director. An invalidation event shall be disregarded only if the District Director determines, in connection with the examination of a return that would be affected by the invalidation event, that *(1)* a principal purpose for the transaction that constitutes the invalidation event is avoidance of the regular exclusion election and *(2)* the principles underlying this subdivision (iii) would not be significantly compromised by disregarding the invalidation event. The invalidation event shall be given full effect pursuant to the provisions of this subdivision (iii) unless and until these determinations are made by the District Director.

(B) *Controlled foreign corporation directly acquired*. An invalidation event occurs if, during the consistency period, P (or any other member of the P group) directly acquires (other than by reason of a deemed purchase under section 338(a)(2)) any stock in *(1)* an excludible foreign target affiliate that was a controlled foreign corporation at any time during so much of that excludible foreign target affiliate's taxable year within which its acquisition date occurs (or would occur if a valid regular exclusion election were not made in the express election) as ends on that acquisition date or *(2)* a domestic target described in section 1248(e) that is subject to a section 338 election and that holds stock in an excludible foreign target affiliate described in *(1)* of this subdivision (B). For purposes of determining whether the excludible foreign target affiliate is a controlled foreign corporation during the relevant period, the special rule of paragraph (g)(2)(iv) of this section applies. For purposes of determining whether P directly acquires any stock, the special deemed stock sale rule of paragraph (g)(2)(vi) of this section applies. See Examples (3), (5), and (8) in paragraph (c)(6) of this section.

(C) *Excludible foreign target affiliate holds stock in domestic corporation*. An invalidation event occurs if one or more excludible foreign target affiliates hold stock in a domestic corporation and that domestic corporation would be subject to a section 338 election only if the regular exclusion election did not apply. See Examples (9) through (13) in paragraph (c)(6) of this section.

(D) *Exception when statute of limitations has expired*. If a regular exclusion election is retroactively invalidated by reason of a subsequent invalidation event, and if, as of the day of the invalidation event, the period within which to make an assessment of tax has expired for any return (of any person) that would be affected by treating a particular excludible foreign target affiliate as not subject to the previously made regular exclusion election ("barred target"), then, notwithstanding the invalidation event, the barred target will continue to be treated as subject to a regular exclusion election. Because of the invalidation event, however, excludible foreign target affiliates (other than barred targets) will not be treated as subject to a regular exclusion election. For purposes of this subdivison (D), a return would be affected by treating an excludible foreign target affiliate as not subject to a previously made regular exclusion election if such treatment would have the effect, directly or indirectly, of increasing the tax liability reported in that return.

(iv) *Special rule if original target is a foreign corporation*—(A) *General rule*. This subdivision (iv) applies if the original target is a foreign corporation other than a transitional excludible original target within the meaning of paragraph (j)(3)(ii) of this section, *i.e.*, other than an original target with an acquisition date that occurs on or before March 15, 1986 (or after March 15, 1986, but pursuant to a binding contract in effect on February 19, 1986. If, subsequent to its qualified stock purchase of the stock of such a foreign original target, P (or another member of the P group) makes a qualified stock purchase of the stock of a qualifying domestic target affiliate, then an express election may be made for the qualifying domestic target affiliate as if it were the original target, provided that a regular exclusion election is made in that express election. If the express election and regular exclusion election are made, then the foreign original target and all other foreign corporations that would have been subject to a deemed election under section 338(f)(1) by reason of an express election for that foreign original target will be treated as excludible foreign target affiliates subject to a regular exclusion election. Caution should be exercised when applying this subdivision (iv), since a subsequently acquired domestic target affiliate will not be considered a qualifying domestic target affiliate under paragraph (c)(2)(iv)(C) of this section if, under the hypothetical circumstances described therein, an invalidation event occurs before an express election for that domestic target affiliate (as a deemed original target) is filed. In such a case, the express election may be made only for the foreign original target. If the time to make that express election has expired, then, by reason of section 338(f)(2), the subsequently acquired domestic target affiliate cannot be made subject to section 338. If, by contrast, the invalidation event occurs *after* the express election is filed for the subsequently acquired domestic target affiliate, then that express election will be valid but the otherwise excluded foreign targets also will be subject to that express election. See paragraph (c)(2)(iv)(E) of this section. See also examples (7), (8), and (13) in paragraph (c)(6) of this section. For a similar rule applicable to a transitional excludible original target, see paragraph (j)(3) of this section. For rules governing cases in which the provisions of this subdivision (iv) and paragraph (j)(3) of this section overlap, see paragraph (j)(5)(v) of this section.

(B) *foreign target as original target*. Pursuant to the definition in §1.338-4T(b)(4), a foreign target is an original target if there exists no previously acquired target as to which a section 338 election would cause a deemed election under section 338(f)(1) for the foreign target. For purposes of applying this definition, the section 338 election referred to therein should be considered one with respect to which a regular exclusion election is not made.

(C) *Qualifying domestic target affiliate*. A domestic target is a "qualifying domestic target affiliate" if four conditions are satisfied. The first condition is that the domestic target must be a corporation that would have been subject to a deemed election under section 338(f)(1) had an express election been made for the foreign original target. The second condition is that the qualified stock purchase of the domestic target's stock must not occur by reason of a deemed purchase under section 338(a)(2). The third condition is that a regular exclusion election could have been made in an express election filed for that domestic target had it been the original target, had the foreign original target been a target affiliate of that domestic target, and had the acquisition date of the foreign original target occurred during the consistency period of that domestic target. For purposes of the third condition, an invalidation event occurring after the express election is filed is disregarded. The fourth condition is that there must be no other domestic target that satisfies the first three conditions and that has an earlier acquisition date. If two or more domestic corporations with the same acquisition date satisfy the first three conditions, then P may select any one of them to be the qualifying domestic target affiliate. The selection is made by filing an express election that names one such domestic corporation as the original target. See Examples (7), (8), and (13) in paragraph (c)(6) of this section.

(D) *Special rule inapplicable if express election for original foreign target filed*. An express election for a qualifying domestic target affiliate cannot be made if an express election already has been made for the original foreign target.

(E) *Effect of invalidation event*. If an invalidation event occurs after the express election and regular exclusion election are filed, then, subject to the barred target rule of paragraph (c)(2)(iii)(D) of this section, the original foreign target will be treated as subject to a deemed election under section

338(f)(1) by reason of the express election and no corporation will be excluded from the status of a target affiliate pursuant to the previously filed regular exclusion election.

(F) *Coordination with protective carryover election.* If P wishes to make a protective carryover election under §1.338-4T(f)(6) in lieu of an express election and if an express election could have been made for a target other than the actual original target pursuant to this subdivision (iv) or paragraph (j)(3) of this section, then the protective carryover election need not be filed before the close of the period within which an express election could have been made for a target other than the original target. For all purposes of the protective carryover election other than the time for filing that election, the actual original target is treated as the original target (*e.g.*, for purposes of identifying the original target in the protective carryover election statement).

(v) *Procedure for making regular exclusion election*—(A) *General rule.* The regular exclusion election is made on the Form 8023 filed for DT in the manner shown on the form. If the revised Form 8023 showing the manner for making this election is not available, a statement ("regular exclusion statement") must be attached to the Form 8023. The regular exclusion election, once made, is treated as an integral part of the Form 8023, *e.g.*, for purposes of §1.338-1T(e)(2)(i) (requiring that the Form 8023 be attached to certain returns). The regular exclusion election is irrevocable.

(B) *Contents of regular exclusion statement.* The regular exclusion statement must be identified prominently as a regular exclusion election under §1.338-5T(c)(2) and must contain the following declaration (or a substantially similar declaration): "THE REGULAR EXCLUSION ELECTION IS HEREBY MADE FOR ALL EXCLUDIBLE FOREIGN TARGET AFFILIATES (AS DEFINED IN §1.338-5T(c)(2)(ii) and (iv))." The regular exclusion statement must be signed (in the manner prescribed in §1.338-1T(d)(1)(v)) by a person authorized to act on behalf of P.

(C) *Transitional rule.* If a regular exclusion election is not made in an express election filed on or before March 15, 1986, a regular exclusion election nonetheless may be made if, on or before March 15, 1986, a copy of the previously filed express election (generally Form 8023), with a copy of the regular exclusion statement attached, is filed with the Internal Revenue Service Center(s) with which the express election is required to be filed under §1.338-1T(c) and (d).

(vi) *Annotation on required schedule.* For additional information that must be included on the schedule required by §1.338-1T(e) if a regular exclusion election is made, see §1.338-1T(e)(1)(i)(F).

(vii) *Procedure if regular exclusion election invalidated subsequent to filing*—(A) *Required schedule must be amended.* If, subsequent to the making of a regular exclusion election, that exclusion election is invalidated by reason of an invalidation event described inparagraph (c)(2)(iii) of this section, then the schedule required by §1.338-1T(e) must be amended pursuant to §1.338-1T(e)(1)(ii)(B) and (e)(2)(ii)(B). See Examples (3) and (11) in paragraph (c)(6) of this section.

(B) *Filing of amended returns.* If any returns of P group members (determined as of the day of the invalidation event) need to be amended as a result of an invalidation event, then the penalty prescribed in §1.338-1T(e)(3)(i) (inapplicability of the waiver rule of §1.338-1T(h)) applies unless appropriate amended returns (with a copy of the previously filed Form 8023 and the revised schedule attached) are filed on or before the 120th day after the date of the invalidation event.

(3) *Effect of regular exclusion election on basis in excludible foreign target affiliate stock*—(i) *General rule.* If a domestic target (*i.e.*, DT or a domestic affected target) is subject to section 1248(f)(1) on its deemed sale under section 338(a)(1) of stock in an excludible foreign target affiliate to which a regular exclusion election applies ("EFTA stock"), then the basis of that EFTA stock in the hands of that domestic target, as new domestic target, shall be the lesser of—

(A) The basis amount that, absent this subparagraph (3), is allocable to that EFTA stock under section 338(b) ("regular basis amount") or

(B) Old domestic target's basis in that EPTA stock immediately before its deemed sale of assets under section 338(a)(1), increased by the dividend (if any) included in old domestic target's gross income under section 1248(f)(1) as a result of its deemed sale of that EFTA stock ("special basis amount").

(ii) *Excess basis amount eliminated.* If new domestic target's basis in EFTA stock is determined under this subparagraph (3), then the excess (if any) of the regular basis amount over the special basis amount is eliminated. For purposes of allocating new domestic target's adjusted grossed-up basis among the other assets of new domestic target, however, such excess is treated as if it were an amount allocated to the EFTA stock.

(iii) *Subject to section 1248(f)(1).* A domestic target is considered "subject to section 1248(f)(1)" on its deemed sale of EFTA stock if all of the following three requirements are satisfied:

(A) That target recognizes a section 1248(f) dividend as a result of such deemed sale (or would have recognized such a dividend if the excludible foreign target affiliate had earnings and profits).

(B) The section 1248(f) dividend (if any) actually recognized by that target is less than the gain it is deemed to realize on such deemed sale.

(C) If earnings and profits hypothetically would arise had the regular exclusion election not been made (whether or not they would actually arise), they would increase the section 1248(f) dividend recognized by that target on its deemed sale of that EFTA stock.

(iv) *Special rules if foreign target treated as domestic.* This subdivision (iv) applies if three conditions are satisfied. The first condition is that a domestic target (*i.e.*, DT or a domestic affected target) must be subject to section 1248(f)(1) on its deemed sale under section 338(a)(1) of stock in a foreign target that is treated as a domestic target under paragraph (c)(5) of this section (an "FDT"). (A domestic corporation described in section 1248(e) is considered an FDT for purposes of this subdivision (iv).) For purposes of applying the definition of paragraph (c)(3)(iii) of this section, stock in an FDT is considered EFTA stock. The second condition is that such FDT ("FDT1") must, at the close of its aquisition date, directly or indirectly (through one or more other FDTs ("intermediate FDTs")) hold EFTA stock. The third condition is that, if deemed sale earnings and profits of the excludible foreign target affiliate hypothetically would arise had the regular exclusion election not been made, they would increase the section 1248(f) dividend recognized by the domestic target on its deemed sale of FDT1 stock. If the three conditions are satisfied, then the following consequences apply:

(A) The basis of the domestic target, as new domestic target, in FDT1 stock shall be determined under paragraph (c)(3)(i) of this section as if FDT1 were an excludible foreign target affiliate.

(B) The basis of FDT1, as new FDT1, in directly held EFTA stock shall be the lesser of the following two amounts: The first amount is the regular basis amount (within the meaning of paragraph (c)(3)(i)(A) of this section). The second amount is the basis of old FDT1 in the EFTA stock, increased by an amount equal to the excess of the section 1248(f) dividend (if any) actually recognized by the domestic target on its deemed sale of FDT1 stock over the amount that dividend would have been had *(1)* FDT1 not held the stock of EFTA and *(2)* the gain realized on the deemed sale of the FDT1 stock were not affected by *(1)* of this subdivision (B).

(C) The basis of FDT1 in the stock of an intermediate FDT, and the basis of each intermediate FDT in the stock of another intermediate FDT or in EFTA stock, shall be determined in the same manner as under pararaph (c)(3)(iv)(B) of this section.

(v) *Cross-reference.* For nonapplication of this subparagraph (3) during a transitional period, see paragraph (j)(5)(iii) of this section. For examples of this subparagraph (3), see Examples (15) through (18) in paragraph (c)(6) of this section.

(4) *Special asset consistency rule if regular exclusion election made*—(i) *General rule.* A P group member must take a carryover basis in an asset acquired from an excludible foreign target affiliate or from a foreign target affiliate of a relevant target as if the asset acquisition were subject to an affirmative action carryover election if (A) a regular exclusion election is made and (B) in the absence of an express election, the asset acquisition would be considered a tainted asset acquisition (as defined in §1.338-4T(f)(6)(i)) with respect to any relevant target. See Examples (19) through (21) in paragraph (c)(6) of this section. For guidance on the affirmative action carryover election, see §1.338–4T(f)(6). For a limitation on the rule of this subparagraph (4) in the transitional context, see paragraph (j)(5)(iv) of this section. Except as provided in this subparagraph (4) or in paragraph (j)(6)(iii) of this section (relating to a transitional rule), no asset acquisition shall be treated as a tainted asset acquisition if an express election is made.

(ii) *Deemed election not imposed.* In no event shall the District Director impose a deemed election under section 338(e)(1) for any excludible foreign target affiliate as a result of an asset acquisition described in this subparagraph (4).

(iii) *Relevant target.* A "relevant target" is the actual original target (and not a target deemed to be the original target in the express election actually filed) or any other corporation that, absent section 338(h)(6)(B), would be subject to a deemed election under section 338(f)(1) by reason of an express election for that original target.

(5) *Certain foreign corporations treated as domestic corporations*—(i) *General rule.* A foreign original target is treated as a domestic corporation for purposes of this paragraph (c) if 50 percent or more of its gross income from all sources for the 3-year period ending with the close of its taxable year that precedes its event year (or for so much of that 3-year period as that foreign corporation has been in existence) is effectively connected with the conduct by that corporation of a trade or business in the United States. This 50 percent gross income test also applies to a foreign corporation that otherwise would be an excludible foreign target affiliate (including by reason of the treatment of a foreign original target as a domestic original target pursuant to the preceding sentence). The 50 percent test of this subdivision (i) shall be applied in the same manner as the 50 percent test of section 861(a)(2)(B) (relating to source of certain dividends) except that the Commissioner may exclude any transactions of a foreign corporation during the last year of this 3-year period from gross income for purposes of this 50 percent test if he determines (on the basis of all the facts and circumstances) that the transactions were entered into pursuant to a plan to treat or avoid treating a foreign corporation as a domestic corporation. See Examples (4), (6), and (9) through (13) in paragraph (c)(6) of this section.

(ii) *Event year.* The "event year" of a foreign corporation is the taxable year of that corporation in which its acquisition date occurs (or would occur, absent a regular exclusion election, in the event of an express election for the original target).

(iii) *Exception.* If, during the consistency period, P (or any other member of the P group) directly acquires (other than by reason of a deemed purchase under section 338(a)(2)) any stock in a foreign target (including a foreign corporation that would be a target only if a regular exclusion election were not made in the express election), then that foreign target will in no case be treated as a domestic corporation if (A) it was a controlled foreign corporation at any time during so much of the taxable year within which its acquisition date occurs (or would occur if a regular exclusion election were not made in the express election) as ends on that acquisition date and (B) it holds stock in a corporation that would be an excludible foreign target affiliate if the foreign corporation were treated as a domestic corporation. For purposes of determining whether the corporation is a controlled foreign corporation during the relevant period, the special rule of paragraph (g)(2)(iv) of this section applies. See Examples (4) through (6) and (18) in paragraph (c)(6) of this section.

(6) *Examples.* The provisions of this paragraph (c) may be illustrated by the following examples. In each example, assume unless otherwise expressly indicated that all of the corporations are calendar year corporations and that none of the foreign corporations are treated as domestic corporations under paragraph (c)(5) of this section. Assume also that DS (or FS) has held all of the stock of the corporations it sells to P since those corporations were organized. Finally, assume that none of the invalidation events described in the following examples are subsequently disregarded pursuant to paragraph (c)(2)(iii)(A) of this section.

Example (1). On July 31, 1986, P purchases from DS all of the stock of DT in a qualified stock purchase. DT holds all of the stock of FT1, FT1 holds all of the stock of FT2, and FT2 holds all of the stock of FT3. Because a section 338 election for DT would cause deemed elections under section 338(f)(1) for FT1, FT2, and FT3 in the absence of section 338(h)(6)(B), those foreign corporations are excludible foreign target affiliates under paragraph (c)(2)(ii) of this section. If P makes a regular exclusion election in an express election filed for DT, then that express election will not cause deemed elections under section 338(f)(1) for FT1, FT2, and FT3, since those corporations will not be considered target affiliates for purposes of the stock consistency rule of section 338(f)(1).

Example (2). Assume the same facts as in Example (1). Assume in addition that on August 31, 1986, P also purchases from DS all of the stock of DT4, a domestic corporation, in a qualified stock purchase. DT4 holds all of the stock of FT5. Because a section 338 election for DT would cause a deemed election under section 338(f)(1) for FT5 in the absence of section 338(h)(6)(B), FT5 is an excludible foreign target affiliate under paragraph (c)(2)(ii) of this section. If P makes a regular exclusion election in an express election filed for DT, then that express election will cause a deemed election under section 338(f)(1) for DT4 but not for FT1, FT2, FT3, and FT5. If a regular exclusion election is *not* made in the express election filed for DT, then that express election will cause deemed elections for FT1, FT2, FT34, and FT5, as well as for DT4.

Example (3). Assume the same facts as in Example (2), except that DT4 is FT4, a foreign corporation. Because a section 338 election for DT would cause a deemed election under section 338(f)(1) for FT4 in the absence of a regular exclusion election, FT4 is an excludible foreign target affiliate under paragraph (c)(2)(ii) of this section. Because DS is a domestic corporation, FT4 was a controlled foreign corporation during the period beginning on January 1, 1986, and ending on August 31, 1986. Accordingly, that acquisition is an invalidation event and a valid regular exclusion election cannot be made in an express election filed for DT. See paragraph (c)(2)(iii)(B) of this section. (If a Form 8023 purporting to make a regular exclusion election already has been filed, then that regular exclusion election is retroactively invalidated by the qualified stock purchase of FT4 and the procedures described in paragraph (c)(2)(vii) of this section apply.)

Example (4). (i) Assume the same facts an in Example (3), except that FT4 satisfies the 50 percent gross income test of paragraph (c)(5)(i) of this section for the 3-year period preceding 1986. None of the other foreign corporations satisfy the 50 percent gross income test.

(ii) FT4 is not treated as a domestic corporation even though the 50 percent gross income test is satisfied, however, since the exception of paragraph (c)(5)(iii) of this section applies, *i.e.*, FT4 was directly acquired by P (other than by reason of a deemed purchase under section 338(a)(2)), FT4 was a controlled foreign corporation during the period beginning on January 1, 1986, and ending on August 31, 1986, and FT4 holds the stock of a corporation, FT5, that would be an excludible foreign target affiliate if FT4 were treated as a domestic corporation. Accordingly, the result is the same as in Example (3).

Example (5). Assume the same facts as in Example (3), except that DS is FS. FS is not a controlled foreign corporation. Under these facts, FT4 is not a controlled foreign corporation at any time during the period beginning on January 1, 1986, and ending on August 31, 1986. Because the acquisition of FT4 therefore is not described in paragraph (c)(2)(iii) (B) of this section, P may make a regular exclusion election in an express election filed for DT, and that regular exclusion election will apply to FT1, FT2, FT3, FT4, and FT5.

Example (6). (i) Assume the same facts as in Example (1), except that DT is FT. FT satisfies the 50 percent gross income test of paragraph (c)(5)(i) of this section for the 3-year period preceding 1986. None of the other foreign corporations satisfy the 50 percent gross income test.

(ii) A regular exclusion election cannot be made in an express election filed for FT, since FT is not a domestic original target. See paragraph (c)(2)(i) or this section. FT cannot satisfy the requirements for domestic corporation status under paragraph (c)(5) of this section, since the exception of paragraph (c)(5)(iii) of this section applies, *i.e.*, FT was directly acquired by P (other than by reason of a deemed purchase under section 338(a)(2)), FT was a controlled foreign corporation during the period beginning on January 1, 1986, and ending on July 31, 1986, and FT holds the stock of a corporation, FT1, that would be an excludible foreign target affiliate if FT were treated as a domestic corporation. Because a regular exclusion election cannot be made in an express election for FT, such an express election will cause deemed elections under section 338(f)(1) for FT1, FT2, and FT3.

Example (7). (i) Assume the same facts as in Example (6). Assume in addition that on August 31, 1986, P also purchases the stock of DT4 from DS in a qualified stock purchase. DT4 holds all of the stock of FT5.

(ii) Because a regular exclusion election cannot be made in an express election for FT, such an express election will cause deemed elections under section 338(f)(1) for DT4 and FT5 as well as for FT1, FT2, and FT3.

(iii) An express election cannot be made for DT4 under paragraph (c)(2)(iv) of this section because DT4 is not a qualifying domestic target affiliate within the meaning of paragraph (c)(2)(iv)(C) of this section. DT4 is not a qualifying domestic target affiliate within the meaning of paragraph (c)(2)(iv)(C) of this section because a regular exclusion election could not have been made in an express election for DT4 had DT4 been the original target, had FT been a target affiliate of DT4, and had the acquisition date of FT occurred during the consistency period of DT4. (Under those hypothetical circumstances, P's direct acquisition of FT from DS is an invalidation event under paragraph (c)(2)(iii)(B) of this section, since FT is a controlled foreign corporation during the relevant period.)

Example (8). (i) Assume the same facts as in Example (6), except that DS is FS and FT does not satisfy the 50 percent gross income test of paragraph (c)(5)(i) of this section for the 3-year period preceding 1986. FS is not a controlled foreign corporation. Assume in addition that on August 31, 1986, P also purchases the stock of DT4 from FS in a qualified stock purchase. DT4 holds all of the stock of FT5.

(ii) FT is an original foreign target within the meaning of paragraph (c)(2)(iv)(B) of this section. In addition, DT4 is a qualifying domestic target affiliate within the meaning of paragraph (c)(2)(iv)(C) of this section. DT4 is a qualifying domestic target affiliate because it would be subject to a deemed election under section 338(f)(1) if an express election were made for FT and because a regular exclusion election could have been made in an express election for DT4 had DT4 been the original target, had FT been a target affiliate of DT4, and had the acquisition date of FT occurred during the consistency period of DT4. (Under those hypothetical circumstances, P's direct acquisition of FT is not an invalidation event under paragraph (c)(2)(iii)(B) of this section, since FT is not a controlled foreign corporation during the relevant period.) Accordingly, the special rule of paragraph (c)(2)(iv) of this section applies and an express election may be made for DT4 rather than for FT, provided that a regular exclusion election is made in that express election. If such an express election is made, FT, FT1, FT2, FT3, and FT5 will be treated as excludible target affiliates subject to that regular exclusion election.

Example (9). (i) Assume the same facts as in Example (1), except that FT2 satisfies the 50 percent gross income test of paragraph (c)(5) of this section for the 3-year period preceding 1986 and therefore is treated as a domestic corporation for purposes of this paragraph (c). (1986 is the taxable year of FT2 in which its acquisition date would occur, absent a regular exclusion election, in the event of an express election for DT. See paragraph (c)(5)(ii) of this section.) (The exception of paragraph (c)(5)(iii) of this section is inapplicable because P did not directly acquire any of the stock of FT2.) None of the other foreign corporations satisfy the 50 percent gross income test.

(ii) A valid regular exclusion election cannot be made in an express election filed for DT, since an excludible foreign target affiliate, FT1, holds stock in a "domestic" corporation, FT2, that would be subject to a section 338 election only if the regular exclusion election did not apply. See paragraph (c)(2)(iii)(C) of this section.

Example (10). (i) Assume the same facts as in Example (1), except that both FT1 and FT2 satisfy the 50 percent gross income test of paragraph (c)(5) of this section and therefore are treated as domestic corporations for purposes of this paragraph (c). None of the other foreign corporations satisfy the 50 percent gross income test.

(ii) A regular exclusion election (applicable to FT3 only) may be made in the express election filed for DT, since both FT1 and FT2 are considered domestic corporations under paragraph (c)(5) of this section (and therefore are not excludible foreign target affiliates). Accordingly, there exists no excludible foreign target affiliate that holds stock in a domestic corporation.

Example (11). (i) Assume the same facts as in Example (2), except that FT5 holds all of the stock of FT6 and that FT6 satisfies the 50 percent gross income test of paragraph (c)(5) of this section for the 3-year period preceding 1986 (and therefore is treated as a domestic corporation for purposes of this paragraph (c)). None of the other foreign corporations satisfy the 50 percent gross income test.

(ii) Since an excludible foreign target affiliate, FT5, holds stock in a "domestic" corporation, FT6, that would be subject to a section 338 election only if the regular exclusion election did not apply, the acquisition of DT4 is an invalidation event and a valid regular exclusion election cannot be made in the express election filed for DT. See paragraph (c)(2)(iii)(C) of this section. (If a Form 8023 purporting to make a regular exclusion election already has been filed, then that regular exclusion election is retroactively invalidated by the acquisition of DT4 and the procedures described in paragraph (c)(2)(vii) of this section apply.)

Example (12). Assume the same facts as in Example (9), except that FT1 holds only 10 percent of FT2's only class of outstanding stock while a wholly-owned domestic subsidiary of DT holds the remaining 90 percent. A regular exclusion election (applicable to FT1 and FT3) may be made in the section 338 election filed for DT, since FT2, a "domestic" corporation, will be subject to a section 338 election even though the regular exclusion election is made. See paragraph (c)(2)(iii)(C) of this section.

Example (13). (i) Assume the same facts as in Example (8), except that FT2 satisfies the 50 percent gross income test of paragraph (c)(5) of this section for the 3-year period preceding 1986 and therefore is treated as a domestic corporation for purposes of this paragraph (c). None of the other foreign corporations satisfy the 50 percent gross income test.

(ii) An express election cannot be made for DT4 under the special rule of paragraph (c)(2)(iv) of this section, since a regular exclusion election could not have been made in an express election for DT4 had DT4 been the original target, had FT been a target affiliate of DT4, and had the acquisition date of FT occurred during the consistency period of DT4. Although P's direct acquisition of FT is not an invalidation event under those hypothetical circumstances, since FT is not a controlled foreign corporation for the relevant period, an invalidation event nonetheless occurs because FT1, an excludible foreign target affiliate, holds stock in a "domestic" corporation, FT2. See paragraph (c)(2)(iii)(C) of this section.

(iii) Because the invalidation event occurs before an express election for DT4 could be filed, DT4 is not a qualifying domestic target affiliate within the meaning of paragraph (c)(2)(iv)(C) of this section. Accordingly, the express election can be made only for FT, and a regular exclusion election cannot be made in that express election.

Example (14). Assume that P makes a regular exclusion election under the facts described in Example (2). Notwithstanding that, by reason of section 338(h)(3)(B), new DT and new DT4 are considered to have made qualified stock purchases of FT1 and FT5, respectively, a separate section 338 election cannot be made for either or both of those corporations. See paragraph (c)(2)(i) of this section.

Example (15). (i) Assume that P makes a regular exclusion election under the facts described in Example (1). Assume in addition that old DT's basis in FT1 stock immediately before old DT's deemed sale of assets is $20,000, that old DT realizes gain of $80,000 on the deemed sale of FT1 stock (at a deemed sale price of $100,000), and that old DT must include $55,000 in gross income as a dividend under section 1248(f)(1) as a result of that deemed sale. (That $55,000 does not include a $10,000 dividend under section 78.) Finally, assume that new DT's basis in FT1 absent this paragraph (c) would be $100,000.

(ii) The special stock basis rule of paragraph (c)(3)(i) of this section applies. Old DT is subject to section 1248(f)(1) (within the meaning of paragraph (c)(3)(iii) of this section) on its deemed sale of FT1 stock because (A) DT recognizes a section 1248(f) dividend on that deemed sale, (B) that dividend is less than the gain realized by DT in that deemed sale, and (C) earnings and profits that would have arisen had the regular exclusion election not been made would have increased the section 1248(f) dividend recognized by old DT. (Any earnings and profits that would have accrued to FT1, FT2, or FT3 had section 338 applied to those foreign corporations would have increased old DT's section 1248(f) dividend since each of those corporations is a controlled foreign corporation for the taxable year within which such earnings and profits would have been triggered. See paragraph (g) of this section.)

(iii) New DT's basis in FT1 stock is $75,000, the lesser of the regular basis amount of $100,000 or the special basis amount of $75,000, *i.e.*, $20,000 + $55,000. See paragraph (c)(3)(i) of this section. The $25,000 excess of the regular basis amount over the special basis amount is eliminated for income tax purposes except that, in allocating basis among the other assets of new DT, that $25,000 excess is treated as if it were an amount allocated to the FT1 stock. See paragraph (c)(3)(ii) of this section.

Example (16). (i) Assume the same facts as in Example (15), except that FT1 satisfies the 50 percent gross income test of paragraph (c)(5) of this section for the 3-year period preceding 1986 and therefore is treated as a domestic corporation for purposes of this paragraph (c). None of the other foreign corporations satisfy the 50 percent gross income test. Thus, DT and FT1 are subject to elections under section 338 while FT2 and FT3 are excludible foreign target affiliates subject to the regular exclusion election. Assume further the following: Old DT's section 1248(f)(1) dividend increases from $55,000 to $60,000 as a result of the deemed sale earnings and profits triggered by FT1's deemed sale of assets. Old FT1's basis in FT2 stock is $10,000. Absent paragraph (c)(3) of this section, new FT1's basis in FT2 stock would be $90,000. The earnings and profits of FT2 and FT3 that are attributable to the FT1 stock under section 1248(c)(2) are $15,000 and $20,000, respectively.

(ii) Under these circumstances, the special basis rule of paragraph (c)(3)(iv) of this section applies. Accordingly, DT's basis in FT1 stock is determined under paragraph (c)(3)(i) and (iv)(A) of this section even though FT1 is not an excludible foreign target affiliate. Thus, new DT's basis in FT1 is $80,000 (*i.e.*, $20,000 + $60,000), an amount less than the regular basis amount of $100,000. In addition, new FT1's basis in FT2 stock is the lesser of (A) the regular basis amount of $90,000 or (B) old FT1's $10,000 basis in the FT2 stock, increased by $35,000, *i.e.*, the excess of the section 1248(f) dividend actually recognized by DT, $60,000, over the amount that dividend would have been had FT1 not held the FT2 stock, $25,000 (i.e., $60,000 − ($15,000 + $20,000)). (Had FT1 not held the FT2 stock, the earnings and profits of both FT2 and FT3 would have been disregarded for purposes of calculating the amount of DT's section (f) dividend.)

Example (17). (i) Assume the same facts as in Example (16), except that FT2 also satisfies the 50 percent gross income test of paragraph (c)(5) of this section for the 3-year period preceding 1986 and therefore is treated as a domestic corporation for purposes of this paragraph (c). FT3 does not satisfy the 50 percent gross income test. Thus, DT, FT1, and FT2 are subject to election sunder section 338 while FT3 is an excludible foreign target affiliate subject to the regular exclusion election. Assume further that, as a result of FT2's deemed sale of assets, its earnings and profits that are attributable to the FT1 stock under section 1248(c)(2) increase by $2,000, *i.e.*, from $15,000 to $17,000. (FT3's attributable earnings and profits are the same as in Example (16).) Thus, old DT's section 1248(f)(1) dividend increases from $60,000 to $62,000. Finally, assume that old FT2's basis in FT3 stock is $5,000, and that, absent paragraph (c)(3) of this section, new FT2's basis in FT3 stock would be $30,000.

(ii) New DT's basis in fT1 stock is determined in the same manner as in Example (16). Thus, new DT's basis in FT1 is $82,000 (*i.e.*, $20,000 + $62,000), an amount less than the regular basis amount of $100,000.

(iii) New FT1's basis in FT2 stock is the lesser of (A) the regular basis amount of $90,000 or (B) old FT1's $10,000 basis in the FT2 stock, increased $37,000, *i.e.*, the excess of the section 1248(f) dividend actually recognized by DT, $62,000, over the amount that dividend would have been had FT1 not held the FT2 stock, $25,000 (*i.e.*, $62,000 − ($17,000 + $20,000)).

(iv) New FT2's basis in FT3 stock is the lesser of (A) the regular basis amount of $30,000 or (B) old FT2's $5,000 basis in the FT3 stock, increased by $20,000, *i.e.*, the excess of the section 1248(f) dividend actually recognized by DT ($62,000) over the amount that dividend would have been had FT2 not held the FT3 stock, $42,000 (*i.e.*, $62,000 − $20,000).

Example (18). (i) Assume the same facts as in Example (16), except that DT holds only 80 of the 100 outstanding shares of FT1's only class of stock and that on July 31, 1986, P purchases the remaining 20 shares of FT1 stock from DS.

(ii) FT1 cannot be treated as a domestic corporation since the exception of paragraph (c)(5)(iii) of this section applies, *i.e.*, 20 shares of FT1 stock were directly acquired by P (other than by reason of a deemed purchase under section 338(a)(2)), FT1 was a controlled foreign corporation for the relevant period, and FT1 holds the stock of a corporation, FT2, that would be an excludible foreign target affiliate if FT1 were treated as a domestic corporation. Thus, FT1 also is an excludible foreign target affiliate and P's direct acquisition of its stock is an invalidation event under paragraph (c)(2)(iii)(B) of this section. Accordingly, a valid regular exclusion election cannot be made in an express election for DT, and such an express election will cause deemed elections for FT1, FT2, and FT3.

Example (19). Assume that P makes a regular exclusion election under the facts described in Example (2). Assume in addition that on September 10, 1986, P purchases an asset from FT1 in an acquisition that, absent an express election for DT, would be considered a tainted asset acquisition (as defined in §1.338-4T(f)(6)(i)). Under paragraph (c)(4) of this section, P is required to take a carryover basis in the acquired asset as if the acquisition were subject to an affirmative action carryover election. The result is the same if the asset is acquired by DT, FT2, FT3, DT4, or FT5.

Example (20). Assume the same facts as in example (19), except that DS is FS, a foreign corporation, and that P purchases the asset from FS. The result is the same as in Example (19).

Example (21). Assume the same facts as in example (19), except that P purchases the asset from DT. Because paragraph (c)(4) of this section does not apply to asset acquisitions from targets that are subject to the express election, P's basis in the asset is determined under section 1012. The result is the same if P acquires the asset from DT4.

(d) *Special rules applicable to offset prohibition election*—(1) *Offset prohibition election inapplicable to certain transfers*—(i) *General rule*. The consequences of an offset prohibition election under §1.338-4T(f)(6)(iv) do not apply to a tainted asset acquisition if—

(A) The transferor is a foreign corporation, a corporation described in section 934(b), or a corporation to which an election under section 936 applies or

(B) The transfer is a transaction to which the pricing rules of section 994 (relating to DISC) or section 925 (relating to FSC) apply.

(ii) *Exception for certain foreign transferors*. Paragraph (d)(1)(i) of this section does not apply to an asset transfer by a foreign corporation if the gain recognized by that foreign corporation on the transfer is effectively connected with the conduct by that corporation of a trade or business within the United States.

(2) *Limit on crediting foreign tax against U.S. tax on offset prohibition gain*—(1) *Definitions*—(A) *Offset prohibition gain*. "Offset prohibition gain" is INA gain (or a remaining ICA gain amount) that is subject to an offset prohibition election under §1.338-4T(f)(6)(iv).

(B) *Offset prohibition foreign taxes*. "Offset prohibition foreign taxes" are foreign income taxes paid or accrued with respect to offset prohibition gain, as determined under the principles of §1.904-4(d)(2).

(C) *Otherwise applicable section 904 limitation*. The "otherwise applicable section 904 limitation" is the limitation described in section 904(d)(1) or 907(b)(prior to amendment by section 211(c)(1) of TEFRA) that would have applied to the offset prohibition gain but for this subparagraph (2).

(ii) *One-way special foreign tax credit limitation for offset prohibition foreign taxes*. A special foreign tax credit limitation applies to offset prohibition gain ("special limitation") in lieu of the otherwise applicable section 904 limitation. The special limitation is the limitation in section 904(a), computed by taking into account as foreign source income only offset prohibition gain from sources without the United States.

(iii) *Excess special limitation disregarded for purposes of section 904(c)*. For purposes of carryback or carryover of excess foreign taxes under section 904(c) to the taxable year in which there is offset prohibition gain, any excess special limitation for that taxable year is disregarded. "Excess special limitation" is the special limitation for a taxable year in excess of offset prohibition foreign taxes paid or accrued in that year.

(iv) *Special rule for creditability of offset prohibition foreign taxes in excess of the special limitation*. Offset prohibition foreign taxes in excess of the special limitation for the taxable year in which those taxes are paid or accrued nonetheless are creditable in that year if the otherwise applicable section 904 limitation (determined without regard to offset prohibition gain) exceeds the foreign taxes (not including offset prohibition foreign taxes) that are paid or accrued in that year and that are creditable under the otherwise applicable section 904 limitation in that year. Any remaining offset prohibition foreign taxes carry back or carry over to other taxable years as foreign taxes subject to the otherwise applicable section 904 limitation.

(v) *Coordination with restricted credit provisions of §1.338-4T(f)(6)(iv)*. *Answer 2* (ii) (B) and *Answer 3* (iv)(D) of §1.338-4T(f)(6)(iv) each impose a special limitation on the amount of a restricted credit (as defined therein) allowable as a credit against the tax liability of a corporation (or of an affiliated group filing consolidated returns) for the taxable year in which that corporation (or group) recognizes offset prohibition gain. (The foreign tax credit is not defined as a restricted credit.) The tax liability taken into account for purposes of determining the amount off certain restricted credits (*e.g.*, the investment credit under section 46) is required by statute to be reduced by the foreign tax credit allowed for the year. See section 38(c)(2). Solely for purposes of that reduction, the portion of the foreign tax credit allowed for the year that is creditable under the special limitation of paragraph (d)(2)(ii) of this section is disregarded.

(3) *Examples*. The provisions of paragraph (d)(2) of this section may be illustrated by the following examples.

Example (1). (i) On December 31, 1984, P acquires all of the stock of DT in a qualified stock purchase and timely files a protective carryover election pursuant to §1.338-4T(f)(6)(ii). P makes an offset prohibition election in the protective carryover election. P and DT file separate calendar year returns. On June 1, 1985, P purchases an asset from DT's foreign branch in a tainted asset acquisition subject to the offset prohibition election. See §1.338-4T(f)(6)(iv) *Answer 2* (ii). For 1985, DT recognizes a foreign source offset prohibition gain of $40,000 as a result of the asset transfer and also recognizes $60,000 of other foreign source income. It is assumed for the sake of simplicity that T has no deductions allocable to foreign source income. Absent paragraph (d)(2) of this section, all $100,000 of DT's foreign source income would be subject to the section 904 limitation for income described in section 904(d)(1)(E). A foreign income tax of $20,000 is specifically allocable to the $40,000 offset prohibition gain, and a foreign income tax of $24,000 is specifically allocable to the remaining $60,000 of foreign source income. DT's total taxable income for 1985 from all sources is $200,000, all of which is ordinary income. The United States income tax (before the foreign tax credit) is $81,875. (This tax reflects an equal division of the taxable income bracket amounts between P and DT.) DT has no excess foreign taxes available as a carryover to 1985 under section 904(c).

(ii) DT makes the following foreign tax credit calculations for 1985:

	(A) *Offset prohibition gain* *($40,000)*	*(B)* *Other income* *($60,000)*
(1) Foreign tax	$ 20,000	$ 24,000
(2) Limitation on credit	16,375[1]	24,563[2]
(3) Preliminary amount of foreign tax creditable (lower of line (1) or line (2))	16,375	24,000
(4) Excess foreign tax (line (1) − line (2))	3,625	N/A
(5) Preliminary excess limitation (line (2) − line (1))	N/A	563
(6) Foreign tax in line (4) creditable in current year (lower of line (4) and line (5))	N/A	563
(7) Final creditable foreign tax: (i) By income class (line (3) + line (6)) (ii) Total: $40,938	16,375	24,563
(8) Unused foreign tax available as carryover or carryback to other taxable years (line (4) − line (6))	N/A	3,062

---

[1] $81,875 × $40,000/$200,000.

[2] $81,875 × $60,000/$200,000.

The remaining offset prohibition foreign tax, $3,062, will carryback or carryover to other taxable years as a foreign tax allocable to income described in section 904(d)(1)(E). Had the offset prohibition foreign tax been less than the separate limitation for offset prohibition gain, the excess limitation would have been disregarded for purposes of carrying unused foreign taxes to 1985.

Example (2). (i) Assume the same facts as in Example (1), except that a foreign income tax of $15,375 is specifically allocable to the $40,000 offset prohibition gain and a foreign income tax of $25,563 is specifically allocable to the remaining $60,000 of foreign source income.

(ii) DT makes the following foreign tax credit calculations for 1985:

		(A) *Offset prohibition gain* *($40,000)*	*(B)* *Other income* *($60,000)*
(1)	Foreign tax	$15,375	$25,563
(2)	Limitation on credit (same as Example (1))	16,375	24,563
(3)	Preliminary amount of foreign tax creditable (lower of line (1) or line (2))	15,375	24,563
(4)	Excess foreign tax (line (1) − line (2))	N/A	1,000
(5)	Preliminary excess limitation (line (2) − line (1))	N/A[1]	N/A
(6)	Foreign tax in line (4) creditable in current year (lower of line (4) and line (5))	N/A	N/A
(7)	Final creditable foreign tax:		
	(i) By income class (line (3) + line (6))	15,375	24,563
	(ii) Total: $39,938		
(8)	Unused foreign tax available as carryover or carryback to other taxable years (line (4) − line (6))	N/A	1,000

---

[1] Note that although the special limitation actually exceeds offset prohibition foreign taxes by $1,000, that excess special limitation is disregarded for all purposes.

Example (3). (i) Assume the same facts as in Example (1), except that foreign taxes paid in 1985 ($44,000) cannot be specifically allocated between the offset prohibition gain and other foreign source income.

(ii) Under the principles of §1.904-4(d)(2)(ii), $17,600 of the total foreign income tax of $44,000 is allocated to offset prohibition gain (*i.e.*, $44,000 × $40,000/$100,000) and the remainder, $26,400, is allocated to the other foreign source income (*i.e.*, $44,000 × $60,000/$100,000). DT makes the following foreign tax credit calculations for 1985:

		(A) Offset prohibition gain ($40,000)	*(B)* Other income ($60,000)
(1)	Foreign tax	$17,600	$26,400
(2)	Limitation on credit (same as Example (1))	16,375	24,563
(3)	Preliminary amount of foreign tax creditable (lower of line (1) or line (2))	16,375	24,563
(4)	Excess foreign tax:		
	(i) By income class (line (1) − line (2))	1,225	1,837
	(ii) Total: $3,062		
(5)[1]	Final creditable foreign tax—		
	(i) By income class (line (3))	16,375	24,563
	(ii) Total: $40,938		
(6)	Unused foreign tax available as carryover or carryback to other taxable years (line (4)(ii))	N/A	3,062

---

[1] Note that lines (5) and (6) of the table used in Example (1) are eliminated here. Those lines are unnecessary because there is no excess limitation.

Example (4). (i) Assume the same facts as in Example (1). Assume in addition that for 1985 DT's current year investment credit earned (as calculated before application of the limitation based on amount of tax under section 38(c), is $24,000. Assume also that DT's pre-credit tax liability would be $63,475 if the offset prohibition gain of $40,000 were disregarded.

(ii) DT's investment credit is a restricted credit. Accordingly, for purposes of determining the amount of that credit allowable as a credit against DT's tax in 1985, DT's pre-credit tax liability is calculated as if the offset prohibition gain were not income to DT. See §1.338-4T(f)(6)(iv) *Answer 2* (ii)(B). Because the tax liability taken into account for purposes of determining the amount of the investment credit is required under section 38(c) to be reduced by the foreign tax credit, the special rule of paragraph (d)(2)(v) of this section applies. Accordingly DT must make the following computations:

(1)	Investment credit earned in 1985	$24,000
(2)	Pre-credit U.S. tax liability (disregarding offset prohibition gain)	63,475
(3)	Foreign tax credit as adjusted under paragraph (d)(2)(v) of this section	24,563[1]
(4)	Net tax liability under section 38(c)(2) (line (2) minus line (3))	38,912
(5)	Investment credit allowable as credit against tax for 1985 (lesser of line (1) or line (4)[2])	24,000

---

[1] Note that the portion of the foreign tax credit allowed for the year that is creditable under the special limitation of paragraph (d)(2)(ii) of this section, $16,375 (line (7)(i), Col. (A) of table in Example (1)) is disregarded for purposes of the reduction required by section 38(c)(2).

[2] If the investment credit earned in 1985 exceeded $25,000, the maximum amount of that excess that would be allowable as an investment credit for 1985 would be $11,825, *i.e.*, 85 percent of the net tax liability in excess of $25,000. See section 38(c)(1)(B).

(e) *Certain transactions subject to an exception to section 338(e)(1) under the authority of section 338(e)(2)(D)*—(1) *Basis step-up attributable to gain recognized under section 367*. The acquisition of property is subject to an exception to section 338(e)(2)(D) if, solely by reason of the transferor's recognition of gain under section 367(a), the transferee's basis in the transferred asset exceeds the transferor's basis in that asset immediately before the transfer.

(2) *Acquisition of foreign currency*—(i) *General rule*. The acquisition of foreign currency is subject to an exception to section 338(e)(1) under the authority of section 338(e)(2)(D) if the acquisition occurs in the ordinary course of the transferor's trade or business (as determined under principles similar to those in §1.338-4T(f)(3)). Solely for purposes of this subparagraph (2), a transferor is considered to act in the ordinary course of its trade or business when it—

(A) Pays interest or principal on an obligation denominated in foreign currency,

(B) Makes a loan denominated in foreign currency, or

(C) Pays a dividend denominated in foreign currency.

(ii) *No inference regarding character of gain or loss*. No inference should be drawn regarding the character of exchange gain or loss realized on transactions described in this paragraph (e)(2).

(f) *Effect of section 338 on foreign target*. If, for its taxable year that includes its acquisition date and for any other relevant taxable year, a foreign target for which a section 338 election is made has no items of income for which it is taxable under chapter 1 of the Code (including an item of income resulting from the section 338 election), then, in general, the section 338 election results in potential United States tax consequences only for domestic shareholders of that foreign target. Thus, for example, the adjustment to the foreign target's earnings and profits that results from the section 338 election may affect the amount of a distribution that is treated as a dividend for the domestic shareholders. Similarly, if the foreign target is a controlled foreign corporation, section 338 may affect the amount included in the gross income of certain domestic shareholders under section 951 or 1248.

(g) *Operation of section 1248 if section 338 election made*—(1) *Scope*. This paragraph (g) applies section 1248 to the shareholders of a target that is controlled foreign corporation and that is subject to a section 338 election ("CFCT"). The principles of this paragraph (g) also apply if a domestic corporation described in section 1248(e) is involved.

(2) *General rules*—(i) *Transfer of CFCT stock on or before acquisition date*. If a person transfers a block of CFCT stock on or before CFCT's acquisition date but during CFCT's 12-month acquisition period, then, for purposes of determining the amount (if any) treated as a dividend to the transferor under section 1248, old CFCT's earnings and profits attributable to the block is the enhanced earnings and profits amount as determined under paragraph (g)(3) or (4) of this section (as the case may be).

(ii) *Effect of gain recognition election*. If P makes a gain recognition election under §1.338-4T(j)(2) for the nonrecently purchased CFCT stock, then paragraph (g)(2)(i) of this section shall apply to the gain recognized by P under section 338(b)(3)(A) as if the nonrecently purchased CFCT stock were actually sold at the close of CFCT's acquisition date.

(iii) *Carryover CFCT stock*. If on the close of CFCT's acquisition date a non-P group member holds CFCT stock (or if a P group member holds nonrecently purchased CFCT stock that is not subject to a gain recognition election under §1.338-4T(j)(2)) ("carryover CFCT stock"), then, solely for purposes of that carryover CFCT stock, old CFCT's earnings and profits (adjusted to reflect deemed sale of assets under section 338) and the foreign taxes attributable to those earnings and profits shall carry over (in their annual layers) to new CFCT, subject to the special rules and limitations prescribed in paragraph (g)(6) of this section.

(iv) *Special rule for determining status as controlled foreign corporation*. If a foreign target ceases to be a controlled foreign corporation solely by reason of one or more purchases of its stock that constitutes a qualified stock purchase, then all of its stock that is included in that qualified stock purchase is deemed to have been acquired by the purchasing corporation on that foreign target's acquisition date for purposes of determining under this paragraph (g) the period during which that foreign target (and all of its section 1248(c)(2) subsidiaries) are controlled foreign corporations.

(v) *Section 1248(c)(2) subsidiary*. For purposes of this paragraph (g), a "section 1248(c)(2) subsidiary" with respect to a foreign target is any corporation whose earnings and profits may be deemed under section 1248(c)(2) to be included with the earnings and profits of that foreign target.

(vi) *Special deemed stock sale rule*. For all purposes of the Code, a transferor of stock in a controlled foreign corporation is deemed to sell the stock directly to P or a P group member on the transferee's acquisition date if (A) a member of the S group transfers the stock to a domestic member of the S group that becomes a target for which a section 338 election applies, (B) the transfer takes place on or before the transferee's acquisition date and during the consistency period of the original target or an affected target, and (C) the controlled foreign corporation becomes an affected target. The transferor shall not be deemed to sell stock under this subdivision (vi) if it is demonstrated that the transfer was not in anticipation of, or pursuant to a plan to make, a direct or indirect transfer of the transferee's stock to P or a P group member. Thus, for example, there will not be a deemed sale of the stock of a controlled foreign corporation to P or a P group member if, prior to the time the controlled foreign corporation becomes an affected target, section 351(a) applies to the transfer by an S group member of the stock of the controlled foreign corporation to a domestic member of the S group. The Internal Revenue Service may treat a transfer to a foreign member as subject to this subdivision (vi) if such treatment is appropriate to carry out the purposes of this subdivision (vi).

(3) *Enhanced earnings and profits amount if stock transferred on CFCT's acquisition date.* For a block of CFCT stock actually or deemed transferred on CFCT's acquisition date, the enhanced earnings and profit amount is the earnings and profits of CFCT (and any section 1248(c)(2) subsidiary) attributable to the block under the applicable section 1248 regulations. For purposes of this subparagraph (3), earnings and profits of CFCT (and of each section 1248(c)(2) subsidiary) shall be deemed to include the gains and other income amounts that each would have recognized in the deemed sale of assets under section 338(a)(1) had each been a domestic corporation.

(4) *Enhanced earnings and parts amount if stock transferred before CFCT's acquisition date*—(i) *General rule.* For a block of CFCT stock actually or deemed transferred before CFCT's acquisition date, the enhanced earnings and profits amount is the sum of the following amounts:

(A) Old CFCT's earnings and profits attributable to the block under the applicable section 1248 regulations, applied however by not including in CFCT's earnings and profits (accumulated for the taxable year of CFCT in which the stock transfer occurs) the recapture earnings and profits for that year, and

(B) CFCT's recapture earnings and profits for each affected taxable year of CFCT that would have been attributable to the block under the applicable section 1248 regulations had that block been transferred on CFCT's acquisition date.

(ii) *Affected taxable year of CFCT.* An affected taxable year of CFCT is the taxable year of CFCT in which the CFCT stock is transferred and each subsequent taxable year of CFCT up to and including its taxable year that includes CFCT's acquisition date.

(iii) *CFCT's recapture earnings and profits.* CFCT's recapture earnings and profits for an affected taxable year are an amount (not less than zero) equal to (A) CFCT's earnings and profits accumulated for that taxable year, minus (B) such earnings and profits as redetermined by disregarding recapture amounts for that taxable year. The recapture earnings and profits for a taxable year may not, however, exceed the earnings and profits of CFCT accumulated for that taxable year.

(iv) *Recapture amount.* A "recapture amount" for an affected taxable year is—

(A) The amount of gain realized as a result of an actual sale or exchange of an asset during that year, to the extent that such amount would have been recognized by CFCT in the deemed sale of assets under section 338(a)(1) had CFCT been a domestic corporation that held that asset on its acquisition date and had the deemed sale price of that asset been equal to the actual amount realized on the sale or exchange of that asset, and

(B) For the affected taxable year in which the deemed sale of assets under section 338(a)(1) occurs, the gains and other income amounts that would have been recognized by CFCT in the deemed sale of assets had CFCT been a domestic corporation.

(v) *Exception to enhancement rule of paragraph (g)(4)(i) for transitional period stock transfer.* Paragraph (g)(4)(i) of this section does not apply to a stock transfer occurring on or before February 12, 1986 or after that date but pursuant to a contract of sale that is binding on both the acquiring P group member and the seller as of that date. Nevertheless, if such a transfer occurs during old CFCT's final taxable year, then the transferor's ratable share of old CFCT's earnings and profits accumulated for that year under the applicable section 1248 regulations will reflect the earnings and profits resulting from the deemed sale of assets under section 338(a)(1) (pro-rated on a daily basis for the period during which the transferor held the CFCT stock).

(vi) *Section 1248(c)(2) subsidiary with same taxable year as CFCT.* For a block of CFCT stock with respect to which there are one or more section 1248(c)(2) subsidiaries, all of which have the same taxable year as CFCT, the provisions of paragraph (g)(4)(i)(iv) of this section shall apply in the following manner:

(A) *Recapture amounts for subsidiaries.* First, for each affected taxable year, *(1)* determine separately the recapture amounts of CFCT and of each section 1248(c)(2) subsidiary, *(2)* under the applicable section 1248 regulations attribute to the block the amount for CFCT, *(3)* under the principles of section 1248(c)(2) attribute to block the amounts for each such subsidiary, and *(4)* determine for the block the sum of the amount attributed from CFCT and the amounts attributed from the subsidiaries.

(B) *Earnings and profits of subsidiaries.* Second, the earnings and profits accumulated for each affected taxable year of CFCT and of each section 1248(c)(2) subsidiary shall be determined and, under the applicable principles, attributed for that year to the block.

(C) *Recapture earnings and profits for block.* Third, compute the recapture earnings and profits for each affected taxable year for the block as an amount (not less than zero) equal to *(1)* the sum of earnings and profits accumulated for that year of CFCT attributed to the block and of each section 1248(c)(2) subsidiary attributed under (B) of this subdivision (vi) to the block, minus *(2)* such sum as redetermined by disregarding recapture amounts for that year of CFCT and its section 1248(c)(2) subsidiaries. Recapture earnings and profits for a taxable year for the block may not, however, exceed the amount in *(1)* of this subdivision (C).

(D) *Application of general rule*. Fourth, apply the general rule in paragraph (g)(4)(i) of this section by using amounts attributed to the block under paragraph (g)(4)(vi)(B) and (C) of this section instead of the amounts determined solely for CFCT.

(vii) *Section 1248(c)(2) subsidiary with taxable year different from CFCT's*. The principles of paragraph (g)(4)(vi) of this section shall apply if one or more section 1248(c)(2) subsidiaries have a different taxable year than CFCT.

(5) *Section 338(c)(1) inapplicable*. The enhanced earnings and profits amounts under paragraph (g)(3) and (4) of this section are determined without regard to section 338(c)(1) (relating to surrogate tax). For an exception applicable to certain carryover CFCT stock, see paragraph (g)(6)(iv) of this section.

(6) *Carryover of old CFCT earnings and profits for purposes of carryover CFCT stock*—(i) *General rule*. The earnings and profits (and attributable foreign taxes) attributable to old CFCT stock carry over to new CFCT stock under paragraph (g)(2)(iii) of this section solely for purposes of (A) characterizing an actual distribution with respect to a share of carryover CFCT stock as a dividend, (B) characterizing gain on a post-acquisition date transfer of a share of carryover CFCT stock as a dividend under section 1248, and (C) determining the foreign taxes deemed paid under section 902 with respect to the amount thereby treated as a dividend.

(ii) *Cap on carryover of earnings and profits*. The earnings and profits of old CFCT are taken into account with respect to a share of carryover CFCT stock only to the extent of the section 1248 amount for that share.

(iii) *Section 1248 amount for stock other than section 338(c)(1) stock*. The section 1248 amount for a share of carryover CFCT stock other than section 338(c)(1) stock is the amount (if any) of the gain that, under the enhanced earnings and profits provisions of paragraph (g)(3) of this section, would have been included in the shareholder's gross income as a dividend under section 1248 had the shareholder transferred that share to P on CFCT's acquisition date for a consideration equal to the fair market value of that share on that date (or, with respect to nonrecently purchased CFCT stock treated as carryover CFCT stock, had a gain recognition election under section 338(b)(3)(A) applied to that share).

(iv) *Section 1248 amount for section 338(c)(1) stock*. The section 1248 amount for a share of section 338(c)(1) stock is determined in the same manner as for other carryover CFCT stock, except that the earnings and profits attributable to a share of section 338(c)(1) stock for each taxable year of old CFCT under the principles of paragraph (g)(3) of this section (*i.e.*, without regard to section 338(c)(1)) are increased or deceased by the section 338(c)(1) amount for that share for that year.

(v) *Section 338(c)(1) stock*. For purposes of this paragraph (g)(6), "section 338(c)(1) stock" is carryover CFCT stock (other than nonrecently purchased CFCT stock) that is neither—

(A) Purchased by a P group member at any time during the one-year period beginning on CFCT's acquisition date nor

(B) Redeemed by CFCT in a transaction described in section 338(h)(7)(B) during that 1-year period.

(vi) *Section 338(c)(1) amount*. The "section 338(c)(1) amount" for a share of section 338(c)(1) stock is a positive (or negative) amount equal to the net section 338(c)(1) gain or loss of old CFCT for its taxable year, divided by the total number of shares of section 338(c)(1) stock. For purposes of this subparagraph (6), the net section 338(c)(1) amount for a share takes into account the net section 338(c)(1) gain or loss for each section 1248(c)(2) subsidiary that is attributed under the principles of section 1248(c)(2) to the share. (If convenient, the section 338(c)(1) amount may be computed with respect to a block of stock.) Section 338(c)(1) gains or losses are gains or losses that, had CFCT (or the section 1248(c)(2) subsidiary) been a domestic corporation, would have been recognized by it under section 388(c)(1)—

(A) As a result of its deemed sale of assets under section 338(a)(1) or

(B) As a result of its actual sale of assets under the circumstances described in section 338(h)(12) and §1.338-4T(k)(1) *Answer 3* (ii).

(vii) *Old CFCT earnings and profits unaffected by post-acquisition date deficits*. Notwithstanding that new CFCT incurs deficits in earnings and profits, a post-acquisition date distribution with respect to a share of carryover CFCT stock (or gain recognized in a post-acquisition date transfer of a share of carryover CFCT stock when that transfer is governed by section 1248) shall be treated as a dividend at least to the extent of the section 1248 amount for that share, reduced by prior post-acquisition date distributions with respect to that share out of the earnings and profits of old CFCT. Thus, for example, the first distribution by new CFCT with respect to a share of carryover CFCT stock is treated as a dividend by the distributee to the extent of the section 1248 amount for that share, notwithstanding that new CFCT's losses exceed old CFCT's earnings and profits at the close of the acquisition date. A distribution considered made out of old CFCT's earnings and profits pursuant to this subparagraph (6) has no effect on the earnings and profits of new CFCT.

(viii) *Character of CFCT stock as carryover CFCT stock eliminated upon disposition*. A share of CFCT stock is not considered carryover CFCT stock after it is disposed of in a transaction described in section 1248(a)(1) or (f)(1)(B) by the person holding such stock on the close of CFCT's acquisition date, provided that all gain realized on the transfer is recognized at the time of the transfer, or that, if less than all of the realized gain is recognized, the recognized amount equals or exceeds the remaining section 1248 amount for that share.

(7) *Application of principles of this paragraph to section 1246*. The principles of this paragraph (g) also apply to shareholders of a foreign target that are subject to section 1246.

(8) *Examples*. The provisions of this paragraph (g) may be illustrated by the following examples.

Example (1). (i) CFCT is a calendar year foreign corporation. DA, a United States person, has owned 90 of the 100 shares of CFCT's only class of outstanding stock since CFCT was organized on March 13, 1977. P has held the remaining 10 shares of CFCT since CFCT was organized. (Those 10 shares constitute nonrecently purchased CFCT stock in P's hands within the meaning of section 338(b)(6)(B).) On November 1, 1986, P purchases all 90 shares of CFCT stock held by DA for $90,000 in cash and makes an express election for CFCT. Thus, for United States tax purposes, CFCT has a short taxable year ending at the close of November 1, 1986. Assume

DA recognizes gain of $81,000 on the sale of the CFCT stock. All 90 shares of CFCT stock constitute a block of stock in DA's hands within the meaning of §1.1248-2(b) and the conditions of §1.1248-2(c) are satisfied with respect to that block of stock. CFCT has no earnings and profits accumulated (or deficit) for any taxable year prior to 1986. Assume that, if CFCT were a domestic corporation, it would recognize gain of $20,000 on November 1, 1986, by reason of its deemed sale of assets under section 338(a)(1). CFCT's earnings and profits accumulated for its short 1986 taxable year ending on November 1, 1986, without taking into account that $20,000 of gain, total $50,000. P also makes a gain recognition election for CFCT under section 338(b)(3)(A) and §1.338-4T(j)(2).

(ii) DA's sale of CFCT stock to P on November 1, 1986, is a transfer to which section 1248 and paragraph (g)(2)(i) and (3) of this section apply. For purpose of applying section 1248(a) to DA, the earnings and profits accumulated by CFCT for its short taxable year ending on November 1, 1986, are $70,000, *i.e.*, the earnings and profits accumulated for that taxable year as determined under §1.1248-2(b), taking into account the gain of $20,000 that CFCT would have recognized in the deemed sale of assets under section 338(a)(1) had CFCT been a domestic corporation ($50,000 + $20,000). See paragraph (g)(3) of this section. Pursuant to §1.1248-2(e), $63,000 of the $70,000 of earnings and profits accumulated for 1986 are attributable to the block of CFCT stock sold by DA on November 1, 1986 (*i.e.*, $70,000 × 90/100), since that block (A) was held for the entire taxable year ending on November 1, 1986, and (B) includes 90 of the 100 shares of outstanding CFCT stock. Accordingly, $63,000 of DA's gain of $81,000 on the sale of CFCT stock is included under section 1248(a) in DA's gross income as a dividend.

(iii) Assume that P recognizes a gain of $9,000 with respect to the 10 shares of nonrecently purchased CFCT stock by reason of the gain recognition election, which causes a hypothetical acquisition date sale of nonrecently purchased stock. Under paragraph (g)(2)(ii) and (3) of this section, that hypothetical sale is treated as a transfer of CFCT stock by a U.S. person to P on CFCT's acquisition date in a transfer to which section 1248 applies. Thus, under §1.1248-2(e), $7,000 of the $70,000 of earnings and profits accumulated for 1986 are attributable to the block of 10 shares of CFCT stock hypothetically sold by P at the close of November 1, 1986 (*i.e.*, $70,000 × 10/100), since that block (A) was held for the entire taxable year ending on November 1, 1986, and (B) includes 10 of the 100 shares of outstanding CFCT stock. Accordingly, $7,000 of P's gain of $9,000 on the hypothetical sale of 10 shares of CFCT stock is included under section 1248(a) in P's gross income as a dividend.

Example (2) (i) Assume the same facts as in Example (1), except that P does not make a gain recognition election.

(ii) The nonrecently purchased CFCT stock held by P (*i.e.*, the 10 shares owned by P since CFCT was organized) is carryover CFCT stock (and not section 338(c)(1) stock). See paragraph (g)(2)(iii) of this section. Accordingly, the earnings and profits (and attributable foreign taxes) of old CFCT carry over to new CFCT solely for purposes of that block of 10 shares. However, the amount of old CFCT's earnings and profits taken into account with respect to that block in the event of a distribution by new CFCT with respect that block (or in the event of P's sale of that block in a transaction governed by section 1248) may not exceed the section 1248 amount for that block. The section 1248 amount for that block is the amount of the section 1248 dividend P would have a recognized with respect to that block had it made a gain recognition election under section 338(b)(3)(A). Under the facts of Example (1)(iii), P would have recognized a gain of $9,000 with respect to that block, and $7,000 of that amount would have been a section 1248 dividend, *i.e.*, $70,000 × 10/100. Accordingly, the section 1248 amount for the block of 10 shares of nonrecently purchased CFCT stock is $7,000.

Example (3). (i) CFCT is a calendar year foreign corporation. DA, a United States person, has owned all 100 shares of CFCT's only class of outstanding stock since CFCT was organized on March 13, 1977. On August 7, 1986, P purchases 40 of the 100 shares of CFCT stock held by DA for cash. On May 26, 1987, P purchases the remaining 60 shares of CFCT stock from DA for cash and makes an express election for CFCT. Thus, for United States tax purposes, CFCT has a short taxable year ending on May 26, 1987. Assume that gain recognized by DA is $80,000 on the August 7, 1986 sale and $130,000 on the May 26, 1987, sale. The 40 shares and 60 shares of CFCT stock sold by DA constitute two blocks of stock in DA's hands within the meaning of §1.1248-2(b). The conditions of §1.1248-2(c) are satisfied with respect to each block. CFCT has no earnings and profits accumulated (or deficit) for any taxable year prior to 1986. In 1986, CFCT recognizes gain of $30,000 on the sale of used machinery. All of that gain would have been recognized by CFCT in the deemed sale of assets under section 338 as depreciation recapture under section 1245 had CFCT been a domestic corporation that held the machinery on the acquisition date. CFCT's earnings and profits accumulated for 1986 are $120,000 if that $30,000 gain is taken into account. (Accordingly, CFCT's earnings and profits accumulated for 1986, as determined without that $30,000, are $90,000.) If CFCT were a domestic corporation, it would recognize a gain of $20,000 on May 26, 1987, by reason of its deemed sale of assets under section 338(a)(1). CFCT's earnings and profits accumulated for its short 1987 taxable year ending on May 26, 1987, are $80,000 if that $20,000 gain is taken into account. (Accordingly, CFCT's earnings and profits accumulated for 1987, as determined without that $20,000, are $60,000.)

(ii) DA's sales of the blocks of CFCT stock to P are transfers to which section 1248 and paragraph (g)(2)(i), (3), and (4) of this section apply. Under paragraph (g)(4)(ii) of this section, CFCT's 1986 and 1987 taxable years are affected taxable years of CFCT for which CFCT's recapture earnings and profits must be determined. For 1986, CFCT has a recapture amount of $30,000, *i.e.*, the $30,000 of gain recognized by CFCT on the sale of machinery in 1986. See paragraph (g)(4)(iv)(A) of this section. Accordingly, under paragraph (g)(4)(iii) of this section, CFCT's recapture earning profits for 1986 are $30,000, *i.e.*, $120,000 − $90,000. For 1987, CFCT has a recapture amount of $20,000, *i.e.*, the $20,000 of gain hypothetically recognized by CFCT in its deemed sale of assets under section 338(a)(1)) and, accordingly, recapture earnings and profits of $20,000, *i.e.*, $80,000 − $60,000.

(iii) The enhanced earnings and profits of CFCT attributable to the block of 40 shares of CFCT stock sold on August 7, 1986 are determined under paragraph (g)(4) of this section and the applicable section 1248 regulations as follows:

Earnings and profits attributable to block for 1986 (determined without recapture earnings and profits), *i.e.*, $90,000 × 219/365 × 40/100	$21,600
Recapture earnings and profits attributable to block for 1986 *i.e.*, $30,000 × 40/100	12,000
Recapture earnings and profits attributable to block for 1987 under applicable section 1248 regulations, *i.e.*, $20,000 × 40/100	8,000
Total earnings and profits attributable to block	$41,600

Accordingly, $51,600 of DA's $80,000 gain on the sale of the 40 shares of CFCT stock is included under section 1248(a) in DA's gross income as a dividend.

(iv) The enhanced earnings and profits of CFCT attributable to block of 60 shares of CFCT stock sold on May 26, 1987, are determined as follows under paragraph (g)(3) of this section and the applicable section 1248 regulations:

Earnings and profits attributable to block for 1986, *i.e.*, $120,000 × 60/100	$ 72,000
Earnings and profits attributable to block for 1987, *i.e*, $80,000 × 60/100	48,000
Total earnings and profits attributable to block	$120,000

Accordingly, $120,000 of DA's $130,000 gain on the sale of 60 shares of CFCT stock on May 26, 1987, is included in DA's gross income as a dividend.

Example (4). (i) Assume the same facts as in Example (1), except that the 10 shares of CFCT stock not purchased by P from DA on November 1, 1986, are held by DB, a U.S. person, rather than by P. DB has held those shares, at an aggregate basis of $1,000 since CFCT was organized. New CFCT makes no actual distributions to DB. On December 15, 1987, P purchase those 10 shares of CFCT stock from DB for $12,000 in cash, and DB recognizes a gain of $11,000. Assume that the fair market value of those 10 shares on November 1, 1986, is $10,000. Assume in addition that, had CFCT been a domestic corporation, it would have recognized an additional $1,000 of gain in its deemed sale of assets under section 338(a)(1) on November 1, 1986, by reason of section 338(c)(1), for a total deemed sale gain of $21,000. Finally, assume that new CFCT incurs a $100,000 net operating loss for its short taxable year ending on December 31, 1986, and a $50,000 net operating loss for 1987.

(ii) The tax consequences to DA are the same as in Example (1), since deemed sale gain under section 338(c)(1) is disregarded for purposes of determining the earnings and profits attributable to CFCT stock sold during the 12-month acquisition period ending on CFCT's acquisition date. See paragraph (g)(5) of this section.

(iii) The CFCT stock held by DB, a non-P group member, on the close of CFCT's acquisition date is carryover CFCT stock. See paragraph (g)(2)(iii) and (6) of this section. Accordingly, the earnings and profits (and foreign taxes attributable to such earnings and profits) carryover to new CFCT solely for purposes of the CFCT stock held by DB. (Under these facts, DB holds all of the carryover CFCT stock.) In addition, DB's sale of the CFCT stock to P on December 15, 1987, is a transfer to which section 1248 applies. DB's shares of CFCT stock constitute a block of stock in DB's hands within the meaning of §1.1248-2(b) and the conditions of §1.1248-2(c) are satisfied with respect to that block.

(iv) Because of the deficits incurred by new CFCT, DB's gain of $11,000 on the sale of its CFCT stock to P on December 15, 1987, is characterized as a section 1248 dividend only to the extent of the section 1248 amount. See paragraph (g)(6)(vii) of this section. Because the 10 shares held by DB constitute section 338(c)(1) stock (as defined in paragraph (g)(6)(v) of this section), the section 1248 amount is determined under paragraph (g)(6)(iv) of this section. Since each of the 10 shares has the same basis and holding period in DB's hands, it is convenient to do the necessary calculations for the block of 10 shares rather than for each share.

(v) The first step in determining the section 1248 amount is to calculate the gain DB would have recognized had it sold its CFCT stock to P on CFCT's acquisition date for a consideration equal to the fair market value of the stock on that day ("hypothetical stock sale gain"). The fair market value of the 10 shares on that date is assumed to be $10,000. Thus, DB's hypothetical stock sale gain is $9,000, *i.e.*, $10,000 − $1,000.

(vi) The second step in determining the section 1248 amount is to calculate the portion of the hypothetical stock sale gain that would have been a section 1248 dividend. This calculation also involves two steps. First, the earnings and profits attributable to the block for each relevant taxable year of old CFCT must be determined under paragraph (g)(3) of this section. The only relevant year under these facts is the short taxable year ending on November 1, 1986. The earnings and profits attributable to the block for that short year under such paragraph (g)(3) are $7,000, *i.e.*, $70,000 × 10/100. Note that the earnings and profits taken into account under such paragraph (g)(3) do not reflect the $1,000 gain under section 338(c)(1). The second step, in calculating the portion of the hypothetical stock sale gain that would have been a section 1248 dividend, is to increase (or decrease) that $7,000 by the section 338(c)(1) amount attributable to the block. Under these facts, there is a single section 338(c)(1) gain of $1,000. Because the block of stock at issue constitutes the entire amount of section 338(c)(1) stock, the entire $1,000 is the section 338(c)(1) amount attributable to the block. The portion of the hypothetical stock sale gain that would have been a section 1248 dividend therefore is $8,000, *i.e.*, the lesser of the attributable earnings and profits of $8,000 (*i.e.*, $7,000 + $1,000) or the hypothetical stock sale gain of $9,000. Thus, the section 1248 amount for the block of stock sold by DB on December 15, 1987, is $8,000. Accordingly $8,000 of DB's $11,000 gain on the actual December 15, 1987, stock sale is a section 1248 dividend.

(vii) If DB were a corporation it would be eligible for an indirect foreign tax credit on the section 1248 dividend it receives, since foreign taxes attributable to old CFCT's earnings and profits also carryover to new CFCT for purposes of the carryover CFCT stock. (Such deemed paid taxes would be treated as a dividend under section 78.)

Example (5). On December 31, 1986, P purchases from DS all of the stock of DT in a qualified stock purchase. For many years, DT has held as one block all of the stock of CECT1 and CFCT1 has held all of the stock of CFCT2. All corporations use the calendar year as the taxable year and have no earnings and profits (or deficit) accumulated for any taxable year prior to 1986. P makes an express election for DT. A regular exclusion election under paragraph (c)(2) of this section is not made, so that CFCT1 and CFCT2 are subject to deemed elections under section 338(f)(1) as a result of the express election for DT. Pursuant to §1.338-4T(c)(3), the acquisition date of DT and of each of its two subsidiaries is December 31, 1986. For purposes of calculating the amount of the section 1248(f) dividend recognized by DT as a result of its deemed sale of the block of CFCT1 stock, the enhanced earnings and profits attributable to the block are calculated under paragraph (g)(3) of this section in the table below, based upon the facts assumed:

		(A) *CFCT1*	*(B)* *CFCT2*
1.	Earnings and profits accumulated for 1986 under §1.1248-2 attributable to the block	$100	($80)
2.	Deemed sale gain that would have been recognized if it were a domestic corporation	0	$15
3.	Sum of lines 1 and 2	100	(65)
4.	Enhanced earnings and profits attributable to the block (sum of line 3(A) and (B))	35	

Example (6). Assume the same facts as in *Example (5)* except that CFCT1 holds only 80 percent of the single class of outstanding stock of CFCT2. For purposes of calculating the amount of the section 1248(f) dividend recognized by DT as a result of its deemed sale of the block of CFCT1 stock, the enhanced earnings and profits attributable to the block are calculated under paragraph (g)(3) of this section in the table below:

		(A) *CFCT1*	*(B)* *CFCT2*
1.	Line 3 *Example (5)*	$100	($65)
2.	Multiply line 1 (B) by 80/100		(52)
3.	Enhanced earnings and profits attributable to the block (sum of lines 1(A) and 2(B)	48	

(h) *Treatment of gain in deemed sale of assets as income effectively connected with the conduct of a trade or business within the United States and as from sources within the United States*—(1) *Foreign target.* If, during the measurement period, more than 50 percent of the gross income derived by old FT from an item of property is effectively connected with the conduct of a trade or business within the United States, then the gain that old FT would recognize with respect to that item of property in the deemed sale of assets under section 338(a)(1) if it were a domestic target is treated—

(i) as income that is effectively connected with the conduct of a trade or business within the United States and

(ii) as income from sources within the United States.

(2) *Domestic target.* If, during the measurement period, more than 50 percent of the gross income derived by old DT from an item of property is treated as income from sources within the United States, then the gain that old DT recognizes with respect to that item of property in the deemed sale of assets under section 338(a)(1) is treated as income from sources within the United States.

(3) *Measurement period.* The "measurement period" is the 3-year period ending with the close of the taxable year that precedes old target's final taxable year (or so much of that 3-year period as that target held the particular item of property).

(4) *No inference regarding transactions not described.* No inference should be drawn regarding either the

source of or the United States tax with respect to gain arising in the deemed sale of property not described in paragraph (h)(1) or (2) of this section.

(i) Reserved

(j) *Transitional rules for corporations and stock described in section 338(h)(6)(B)*—(1) *Transitional elective exclusion from target affiliate status.* If P files an express election for any original target, then, solely for purposes of the stock consistency rule of section 338(f)(1), P also may elect (in the manner prescribed in paragraph (j)(8) of this section) to exclude some or all of the transitional target affiliates from the status of target affiliate ("transitional exclusion election"). If a transitional exclusion election is not made, then none of the transitional target affiliates may be excluded from the status of a target affiliate. A section 338 election cannot be made for any transitional target affiliate that is subject to a transitional exclusion election.

(2) *Transitional target affiliate*—(i) *General rule.* A "transitional target affiliate" is any corporation described in section 338(h)(6)(B)(i) that is acquired on or before March 15, 1986, and that, absent section 338(h)(6)(B), would be subject to a deemed election under section 338(f)(1) by reason of the express election for the original target. (Under the second condition of paragraph (c)(2)(ii) of this section, status as a transitional target affiliate precludes status as an excludible foreign target affiliate.)

(ii) *Acquired on or before March 15, 1986.* A corporation is considered acquired on or before March 15, 1986, if its acquisition date (or hypothetical acquisition date) occurs on or before March 15, 1986, or after that date but pursuant to a contract of sale that is binding on both the acquiring P group member and the seller as of February 19, 1986. A corporation that is not considered acquired on or before March 15, 1986, is considered acquired after that date.

(iii) *Hypothetical acquisition date of transitional target affiliate.* If the acquisition date of a transitional target affiliate actually would occur only if the transitional exclusion election were not made (*i.e.*, by reason of the operation of section 338(h)(3)(B) and (f)(1)), then that hypothetical acquisitioned ate is treated as the acquisition date for purposes of applying this subparagraph (2).

(3) *Special rules for certain original targets described in section 338(h)(6)(B)(i)*—(i) *General rule.* If the original target is a transitional excludible original target, then the following consequences apply:

(A) An express election may be made for the transitional excludible original target or for any qualifying target affiliate.

(B) Only the corporation for which the express election is made is deemed to be the original target.

(C) An express election for a qualifying target affiliate is valid only if a transitional exclusion election also is made for the following corporations, (which are treated as transitional target affiliates under these circumstances): *(1)* the transitional excludible original target and *(2)* each qualifying target affiliate with an acquisition date occurring before the acquisition date of the qualifying target affiliate for which the express election is made.

(ii) *Transitional excludible original target.* A "transitional excludible original target" is a corporation described in section 338(h)(6)(B)(i) that is an original target acquired on or before March 15, 1986 (within the meaning of paragraph (j)(2)(ii) of this section). For purposes of applying §1.338-4T(b)(4) (definition of original target) to this subdivision (ii), the section 338 election referred to therein is considered one with respect to which a transitional exclusion election is not made.

(iii) *Qualifying target affiliate*—(A) *General rule.* A corporation is a qualifying target affiliate if it is a potential qualifying target affiliate that is not an excepted target. A corporation is a potential qualifying target affiliate if *(1)* it is a target even in the absence of a section 338 election and *(2)* it would be subject to a deemed election under section 338(f)(1) if an express election (and no transitional exclusion election) were made for the transitional excludible original target.

(B) *Excepted target.* A potential qualifying target affiliate is an excepted target and thus is not a qualifying target affiliate if its acquisition date occurs after the acquisition date of a potential qualifying target affiliate that is not a transitional target affiliate. The determination of transitional target affiliate status is made without regard to the provisions of this subparagraph (3).

(iv) *Coordination with protective carryover election.* For guidance in a case in which P wishes to make a protective carryover election under §1.338-4T(f)(6) instead of an express election, see paragraph (c)(2)(iv)(F) of this section.

(4) *Examples.* The provisions of paragraph (j)(1) through (3) of this section may be illustrated by the following examples:

Example (1). On December 31, 1984, P purchases from DS all of the stock of DT in a qualified stock purchase. DT holds all of the stock of FT1, FT1 holds all of the stock of FT2, and FT2 holds all of the stock of FT3. FT1, FT2, and FT3 are transitional target affiliates, since an express election for DT would cause deemed elections under section 338(f)(1) for FT1, FT2, and FT3, and since each of those three corporations is acquired on or before March 15, 1986 (within the meaning of paragraph (j)(2)(ii) of this section). Accordingly, P may elect to exclude FT1, FT2, and/or FT3 from the status of a target affiliate in a transitional exclusion election filed in connection with an express election for DT. Note that a transitional exclusion election for FT1 need not also specify FT2 and FT3, since the benefit of excluding FT1 from the status of a target affiliate (avoidance of a section 338 election for FT1) automatically will apply to FT2 and FT3. (A qualified stock purchase and section 338 election cannot occur for FT2 unless FT1 is deemed to sell its FT2 stock pursuant to an election under section 338. Similarly, a qualified stock purchase and section 338 election cannot occur for FT3 unless FT2 is deemed to sell its FT3 stock pursuant to an election under section 338. See section 338(a)(1) and (h)(3)(B).)

Example (2). (i) Assume the same facts as in Example (1), except that DT is FT. Assume also that P acquires the stock of FT4, FT5, DT6 and FT7 from DS in qualified stock purchases on January 31, 1985, April 1, 1985, June 1, 1985, and July 1, 1985, respectively. Assume in addition that FT4, FT5, DT6, and FT7 were members of the DS group on December 31, 1984. Finally, assume that DT6 is a domestic corporation that is not described in section 338(h)(6)(B)(i).

(ii) FT is a transitional excludible original target within the meaning of paragraph (j)(3)(ii) of this section. FT1, FT2, and FT3 are not qualifying target affiliates because they are not targets in the absence of a section 338 election. See paragraph (j)(3)(iii)(A)*(1)* of this section. (Such corporations would be targets only by reason of the deemed purchase of stock under section 338(a)(1). See section 338(h)(3)(B).) FT4, FT5, and DT6 are qualifying target affiliates within the meaning of paragraph (j)(3)(iii) of this section, since (A) they are targets even in the absence of a section 338 election, (B) they would be subject to deemed elections under section 338(f)(1) if an express election (and no transitional exclusion election) were made for the transitional excludible original target, and (C) they are not excepted targets. FT7 is not a qualifying target affiliate because it is an excepted target, *i.e.*, its acquisition date occurs after the acquisition date of DT6, a qualifying target affiliate that would not be a transitional target affiliate if an express election were made for FT. See paragraph (j)(3)(iii)(B) of this section.

(iii) Under these facts, an express election may be made for FT or, pursuant to paragraph (j)(3) of this section, FT4, FT5, or DT6. The express election cannot be made for FT7, since it is not a qualifying target affiliate. If, for example, P wishes to make an express election for FT4, then that express election will be valid only if a transitional exclusion election is made for FT, the transitional excludible original target that is treated as a transitional target affiliate under these circumstances. If the express election is made, for FT4, then, at P's option, a transitional exclusion election may be made for FT4 and/or FT7. The transitional exclusion election cannot be made for DT6, since DT6 is not a transitional target affiliate. If P wishes to make an express election for FT5, then that express election will be valid only if transitional exclusion elections are made for FT and FT4. At P's option under these circumstances, a transitional exclusion election may be made for FT7.

(5) *Relationship between transitional exclusion election and regular exclusion election*—(i) *In general.* A transitional exclusion election applies only to transitional target affiliates. If a transitional exclusion election is or could be made in connection with an express election, then, in the absence of an invalidation event (within the meaning of paragraph (c)(2)(iii) of this section), a separate regular exclusion election also may be made for all of the exclusible foreign target affiliates.

(ii) *Special rule for application of regular exclusion election.* Under paragraph (c)(2)(i) of this section, a domestic original target is a prerequisite for a regular exclusion election. If the express election is made for a foreign original target with an acquisition date that occurs on or before March 15, 1986 (within the meaning of paragraph (j)(2)(ii) of this section), however, that foreign corporation will be treated as if it were a domestic original target for purposes of applying such paragraph (c)(2)(i).

(iii) *Limitation on application of paragraph (c)(3) of this section.* The special basis rules of paragraph (c)(3) of this section do not apply if the acquisition date of the domestic target occurs on or before March 15, 1986 (within the meaning of paragraph (j)(2)(ii) of this section).

(iv) *Limitation on application of paragraph (c)(4) of this section.* If the acquisition date of the actual (as opposed to a deemed) original target occurs on or before March 15, 1986 (within the meaning of paragraph (j)(2)(ii) of this section) and if a valid regular exclusion election is made, then paragraph (c)(4) of this section (relating to carryover basis in certain asset acquisitions) applies only to asset acquisitions from excludible foreign target affiliates and not from non-target foreign target affiliates. For transitional asset consistency rules, see paragraph (j)(6) of this section.

(v) *Overlap between paragraphs (c)(2)(iv) and (j)(3) of this section*—(A) *In general.* This subdivision (v) provides rules for cases in which there is an overlap between the provisions of paragraphs (c)(2)(iv) and (j)(3) of this section. Those provisions provide prospective and transitional rules, respectively, for making an express election for a corporation other than the original target. In a case in which there are both transitional target affiliates and excludible foreign target affiliates, an express election may be made for (A) the transitional excludible original target, (B) a qualifying target affiliate pursuant to paragraph (j)(3) of this section, or (C) the qualifying domestic target affiliate pursuant to paragraph (c)(2)(iv) of this section, as modified by this subdivision (v).

(B) *Illustrative factual situation.* The rules of this subdivision (v) are set out in the context of the following factual situation: Assume that on April 1, 1985, FS owns all of the stock of FT1, FT2, FT3, FT4, and DT5. Assume in addition that P acquires the stock of those corporations in qualified stock purchases from FS on the dates indicated in the following table (the post-March 15, 1986, acquisitions are not made pursuant to a binding contract in effect on February 19, 1986):

Table

4/1/85	10/1/85	4/1/86	7/1/86	8/1/86
FT1	FT2	FT3	FT4	DT5

(C) *Express election for transitional excludible original target or qualifying target affiliate.* Under paragraph (j)(3) of this section, an express election may be made for FT1, the transitional excludible original target, or for FT2 or FT3, both of which are qualifying target affiliates. An express election is not permitted under paragraph (j)(3) of this section for FT4 or DT5, since those corporations are excepted targets within the meaning of paragraph (j)(3)(iii)(B) of this section. FT4 and DT5 are excepted targets because their acquisition dates occur after the acquisition date of a potential qualifying target affiliate, FT3, that is not a transitional target affiliate. An express election for FT3, for example, is valid only if transitional exclusion elections also are made for FT1 and FT2, which are considered transitional target affiliates under these circumstances. See paragraph (j)(3)(i)(C) of this section.

(D) *Express election for qualifying domestic target affiliate.* Because one of the qualifying target affiliates for which an express election could be made under paragraph (j)(3) of this section (FT3), is a foreign target acquired after March 15, 1986 (within the meaning of paragraph (j)(2)(ii) of this section), this subdivision (v) also permits P to make the express election for DT5 (as the qualifying domestic target affiliate) rather than for FT1, FT2, or FT3 if three conditions are satisified. The first condition is that DT5 must be a corporation that would have been a qualifying domestic target affiliate under paragraph (c)(2)(iv)(C) of this section had FT3 (*i.e.*, a foreign corporation that is a qualifying target affiliate acquired after March 15, 1986) been the actual original target. The second condition is that a valid regular exclusion election under paragraph (c)(2)(iv) of this section must be made in connection with the express election for DT5 is the same manner as if FT3 were the actual original target. (Pursuant to paragraph (c)(2)(iv) of this section, that regular exclusion election applies to FT3 and FT4.) The third condition is that transitional exclusion elections must be made as if the express election had been made for FT3, *i.e.*, transitional exclusion elections must be made for FT1 and FT2. See paragraph (j)(3)(i)(C) of this section.

(E) *Express election for FT3 bars regular exclusion election.* An express election under paragraph (j)(3) of this section for FT3, a foreign corporation acquired after March 15, 1986, bars a regular exclusion election. (Subject to the transitional rule of paragraph (j)(5)(ii) of this section, which is inapplicable on these facts, a regular exclusion election cannot be made if the original target for which the express election is made is a foreign corporation.) Thus, FT4 could not be excluded from the status of a target affiliate if an express election were made for FT3. If, however, an express election under paragraph (j)(3) of this section is made for FT2, a foreign corporation acquired on or before March 15, 1986, then the transitional rule of paragraph (j)(5)(ii) of this section applies and a regular exclusion election may be made (and will not be invalidated retroactively) unless an invalidation event under paragraph (c)(2)(iii) of this section occurs with respect to one of the excludible foreign target affiliates, *i.e.*, FT3 or FT4.

(F) *FT3 is DT3.* If FT3 were DT3, then (whether or not DT3 was described in section 338(h)(6)(B)(i)) an express election could be made only for FT1 or, pursuant to paragraph (j)(3) of this section, FT2 or DT3. Aan express election could not be made for DT5 on these facts because none of the qualifying target affiliates is a foreign corporation acquired after March 15, 1986. See paragraph (j)(5)(V)(D) of this section.

(G) *FT1 is DT1.* If FT1 were DT1, a domestic corporation not described in section 338(h)(6)(B)(i), then the express election could be made only for DT1 since the original target would not be a transitional excludible original target under paragraph (j)(3)(ii) of this section.

(H) *FT2 is DT2.* If FT2 were DT2, a domestic corporation not described in section 338(h)(6)(B)(i), then the express election could be made only for FT1 or DT2, since no corporation acquired after the acquisition date of DT2 is a qualifying target affiliate. See paragraph (j)(3)(iii)(B) of this section.

(I) *Effect of invalidation event after express election filed for DT5.* If an invalidation event occurs after an express election is made for DT5 (*e.g.*, the P group acquires an excludible foreign target affiliate that holds stock in a domestic corporation under the circumstances described in paragraph (c)(2)(iii)(C) of this section), then, subject to the barred target rule of paragraph (c)(2)(iii)(D) of this section, FT3 and FT4 will be subject to deemed elections under section 338(f)(1) by reason of the express election for DT5. See paragraph (c)(2)(iv)(E) of this section. FT1 and FT2 will not be affected by the invalidation event since they are not excludible foreign target affiliates. Accordingly, FT1 and FT2 will not be subject to deemed elections under section 338(f)(1) by reason of the invalidation event.

(vi) *Examples.* The provisions of this subparagraph (5) may be illustrated by the following examples.

Example (1). (i) Assume the same facts as in Example (2) of paragraph (j)(4) of this section, except that the acquisition dates of FT5, DT6, and FT7 occur on June 1, 1985, April 1, 1986, and May 1, 1986, respectively. Assume in addition that a binding contract to acquire DT6 and FT7 is not in effect on February 19, 1986.

(ii) The result is the same as in Example (2) of paragraph (j)(4) of this section, except that FT7 is not a transitional target affiliate and therefore cannot be excluded from the status of a target affiliate pursuant to a transitional exclusion election. In addition, FT7 cannot be excluded from the status of a target affiliate pursant to a regular exclusion election made in connection with an express election for FT, FT4, FT5, or DT6. A regular exclusion election cannot be made (or is retroactively invalidated) because P's acquisition of FT7 is an invalidation event under paragraph (c)(2)(iii)(B) of this section. (That acquisition is an invalidation event because FT7 was a controlled foreign corporation during the relevant period.)

Example (2). Assume the same facts as in Example (1), except that DS is FS. Assume further that FS is not a controlled foreign corporation and that FT7 does not hold stock of a domestic corporation under the circumstances described in paragraph (c)(2)(iii)(C) of this section. Under these facts, FT7 is not a controlled foreign corporation during the relevant period and P's direct acquisition of its stock is not an invalidation event. Accordingly, the results are the same as in Example (1), except that a regular exclusion election (applicable to FT7) may be made in connection with the express election for FT, FT4, FT5, or DT6.

(6) *Transitional asset consistency rules for corporations described in section 338(h)(6)(B)(i)*—(i) *General rule.* A transitional asset acquisition from a corporation that is described in section 338(h)(6)(B)(i) and that is not an excluded transferor shall in no case be treated as a tainted asset acquisition (within the meaning of §1.338-4T(f)(6)(i)) with respect to any target. Accordingly, such an asset acquisition cannot cause an affirmative action carryover election and will not be subject to an otherwise applicable affirmative action or protective carryover election.

(ii) *Definitions*—(A) *Transitional asset acquisition.* A "transitional asset acquisition" is any asset acquisition made by P (or another member of the P group) on or before March 15, 1986, that is not subject to the special asset consistency rule of paragraph (c)(4)(i) of this section (applicable in the case of a regular exclusion election).

(B) *Acquisition made on or before March 15, 1986.* An asset acquisition is considered made on or before March 15, 1986, if the asset actually is acquired on or before March 15, 1986, or if it is acquired after that date but pursuant to a contract of sale that is binding on both the acquiring P group member and the transferor as of February 19, 1986.

(C) *Excluded transferor.* An "excluded transferor" is a corporation that is either *(1)* a transitional target affiliate subject to a transitional exclusion election made in connection with an express election or *(2)* any other corporation that, but for the transitional exclusion election, would be subject to a deemed election under section 338 (f)(1) by reason of the express election.

(iii) *Special asset consistency rule for acquisition from excluded transferor*—(A) *General rule.* A P group member must take a carryover basis in an asset acquired from an excluded transferor as if the asset acquisition were subject to an affirmative action carryover election if, in the absence of an express election, the asset acquisition would be considered a tainted asset acquisition (as defined in §1.338-4T(f)(6)(i)) with respect to any relevant target (as defined in paragraph (c)(4) (iii) of this section). For guidance on the affirmative action carryover election, see §1.338-4T(f)(6). Except as provided in this subdivision (iii) or in paragraph (c)(4) of this section (which contains a similar prospective rule), no asset acquisition shall be treated as a tainted asset acquisition if an express election is made.

(B) *Deemed election not imposed.* In no event shall the District Director impose a deemed election under section 338(e)(1) as a result of an asset acquisition from any excluded transferor.

(iv) *Examples.* The provisions of this subparagraph (6) may be illustrated by the following examples.

Example (1). Assume the same facts as in Example (1) of paragraph (j)(4) of this section. Assume in addition that P makes a protective carryover election for DT in lieu of an express election, and that on January 1, 1985, P purchases for cash an asset from FT1, DT's wholly owned subsidiary. Because the asset is acquired in a transitional asset acquisition, it will in no case be considered a tainted asset acquisition subject to the protective carryover election. Accordingly, P's basis in the asset will be determined under section 1012. (The result is the same if P does not make a protective carryover election.)

Example (2). Assume that P makes an express election for DT under the facts of Example (1) of paragraph (j)(4) of this section. Assume in addition that P makes a transitional exclusion election for FT2 in that express election, and that on January 1, 1985, P purchases an asset from FT2 in a transaction that would be a tainted asset acquisition if an express election were not made. Because FT2 is an excluded transferor within the meaning of paragraph (j)(6)(ii)(C) of this section, P must take a carryover basis in the acquired asset as if the acquisition were subject to an affirmative action carryover election.

Example (3). Assume the same facts as in Example (2), except that the asset is acquired from FT3. Although a transitional exclusion election was not made for FT3, FT3 is a corporation that would have been subject to a deemed election under section 338(f)(1) by reason of the express election for DT had the transitional exclusion election for FT2 not been made. Thus, FT3 is an excluded transferor and the result is the same as in Example (2).

Example (4). Assume the same facts as in Example (2), except that the asset is acquired from FT1. FT1, a transitional target affiliate that is not subject to the transitional exclusion election, is not an excluded transferor. (FT1 is subject to a deemed election under section 338(f)(1) by reason of the express election for DT.) Accordingly, P does not take a carryover basis in the asset under paragraph (j)(6)(iii) of this section but rather takes a basis determined under section 1012.

(7) *Treatment of stock described in section 338 (h)(6)(B)(ii)*—(i) *Transitional stock exclusion election.* If P makes a transitional stock exclusion election in the manner prescribed in paragraph (j)(8) of this section for one or more eligible targets, then the following stock held by such an eligible target at the close of its acquisition date ("affected stock") shall be excluded from the operation of section 338:

(A) All section 338(h)(6)(B)(ii) stock other than stock in a transitional target affiliate (as defined in paragraph (j)(2) of this section) and

(B) All section 338(h)(6)(B)(ii) stock that is stock in a transitional target affiliate for which a transitional exclusion election is made under paragraph (j)(1) of this section.

(ii) *Section 338(h)(6)(B)(ii) stock.* "Section 338(h)(6)(B)(ii) stock" is stock in a foreign corporation or a domestic corporation that is a DISC or that is described in section 1248(e), whether or not the corporation is a target or a target affiliate.

(iii) *Eligible target.* An "eligible target" is a target that is subject to a deemed election under section 338(f)(1) and which is acquired on or before February 12, 1986 or pursuant to a binding contract in effect on that date.

(iv) *Effect of exclusion from operation of section 338.* If a transitional stock exclusion election is made for an eligible target, then—

(A) that eligible target is not deemed under section 338(a) to sell and purchase the affected stock it holds at the close of its acquisition date and

(B) that eligible target's basis as new target in that affected stock is the same as its basis in that stock as old target immediately before its deemed sale of assets under section 338(a)(1) ("carryover basis amount").

(v) *Effect of difference between carryover basis amount and regular basis amount.* If the carryover basis amount for affected stock held by an eligible target (as new eligible target) is less than the basis amount that, absent paragraph (j)(7)(iv) of this section, would be allocable to that stock ("regular basis amount"), then the difference is eliminated. Whether or not the carryover basis amount is less than or exceeds the regular basis amount, however, that regular basis amount is treated as the total amount allocated to the affected stock for purposes of allocating new eligible target's adjusted grossed-up basis among the other asets of new eligible target.

(vi) *Tacking of old eligible target's holding period.* If a transitional stock exclusion election is made for an eligible target and if, subsequent to its acquisition date, that eligible target disposes of affected stock, then, for purposes of applying section 1248 to that disposition, the holding period of new eligible target for that affected stock includes the holding period of old eligible target for that stock.

(vii) *Examples.* The provisions of this paragraph (j)(7) may be illustrated by the following examples. In each example, assume that all of the corporations are calendar year corporations.

Example (1). On December 31, 1984, P purchases all of the stock of DT from DS in a qualified stock purchase and makes an express election for DT. DT holds 20 of the 100 shares of FX's only class of outstanding stock, and DS holds the remaining 80 shares. (Since all of the stock of FX is held by U.S. shareholders, FX is a controlled foreign corporation.) Although the stock of FX is affected stock within the meaning of paragraph (j)(7)(i) of this section and although the acquisition date of DT occurs on or before February 12, 1986, a transitional stock exclusion election applicable to DT cannot be made. An original target (*i.e.*, a target that is not subject to a deemed election under section 338(f)(1)) cannot be an eligible target. See paragraph (j)(7)(iii) of this section.

Example (2). (i) Assume the same facts as in Example (1), except that DT's wholly owned subsidiary, DT1, holds the 20 shares of FX stock. Assume in addition that old DT1's basis in that FX stock is $70 and that, absent paragraph (j)(7)(iv) of this section, new DT1's basis in the FX stock would be $100. Finally assume that DT1 sells the 20 shares of FX stock on January 15, 1985, for $90.

(ii) A transitional stock exclusion election applicable to DT1 (and thus to the FX stock held by DT1) may be made, since DT1 is an eligible target. DT1 is an eligible target because its acquisition date occurs on or before February 12, 1986, and it is subject to a deemed election under section 338(f)(1) by reason of P's express election for DT. If a transitional stock exclusion election is made for DT1, then old DT1 will not include in its gross income a section 1248(f) dividend as a result of its deemed sale of assets, since it will not be deemed to sell the FX stock it holds. See paragraph (j)(7)(iv)(A) of this section. In addition, new DT1's basis in FX stock (*e.g.*, for purposes of DT1's sale of that FX stock on January 15, 1985) shall be the same as old DT1's basis in such stock immediately before DT1's deemed sale of assets, *i.e.*, $70. See paragraph (j)(7)(iv)(B) of this section. For purposes of allocating new DT1's adjusted grossed-up basis among the other assets of new DT1, however, the amount that, absent this paragraph (j)(7), would have been allocated to the FX stock held by DT1 (*i.e.*, $100) shall be deemed to be the amount actually alocated to that stock.

(iii) Accordingly, DT1's gain on the January 15, 1985, sale of FX stock is $20, *i.e.*, the difference between the selling price ($90) and DT1's carryover basis in the FX stock ($70). For purposes of applying section 1248 to that sale, new DT1's holding period in the stock of FX includes old DT1's holding period. Thus, the earnings and profits of FX that accrued during the period while old DT1 held the FX stock must be taken into account under the principles of section 1248 in determining new DT1's section 1248 dividend (if any) on the January 15, 1985, sale.

Example (3). Assume the same facts as in Example (2), except that the 80 shares of FX stock are held by DT2, another wholly owned subsidiary of DT, rather than by DS. Thus, DT1 and DT2 are eligible targets and FX is a transitional target affiliate. Accordingly, a transitional stock exclusion election made for DT1 and/or DT2 will not apply to the stock of FX unless a transitional exclusion election is made for FX.

Example (4). Assume the same facts as in Example (2), except that the 80 shares of FX stock are held by an individual. Accordingly, FX is not a target affiliate of DT or DT1. The result is the same as in *Example (2)*, since affected stock need not be stock in a target affiliate.

(8) *Transitional section 338(h)(6)(B) election procedures*—(i) *General rule.* This subparagraph (8) prescribes procedures for making the transitional exclusion election and the transitional stock exclusion election under paragraph (j)(1) and (7) of this section, respectively ("transitional elections"). The transitional elections are made by attaching a transitional section 338(h)(6)(B) statement to the express election (Form 8023) filed for the original target (including a qualifying target affiliate treated as the original target

under paragraph (j)(3) of this section). The transitional section 338(h)(6)(B) statement, once filed, is treated as an integral part of the Form 8023 (*e.g.*, for purposes of §1.338-1T(e)(2)(i) (requiring that the Form 8023 be attached to certain returns)). The transitional elections are irrevocable.

(ii) *Special procedure if express election filed on or before March 15, 1986.* If a transitional section 338(h)(6)(B) statement is not attached to an express election filed on or before March 15, 1986, a transitional election(s) nonetheless may be made if, on or before that date, a copy of the previously filed express election, with a copy of the transitional section 338(h)(6)(B) statement attached, is filed with the Internal Revenue Service Center(s) with which the express election is required to be filed under §1.338-1T(c) and (d).

(iii) *Amendment procedure if transitional statement filed on or before March 15, 1986.* A transitional section 338(h)(6)(B) statement filed on or before March 15, 1986, may be amended on or before that date for two purposes. First, if only one transitional election was made in the previously filed statement, when an amended statement may be made to include both transitional elections. Second, the previously filed statement may be amended to make additional corporations subject to a transitional election already made. The amended statement is filed pursuant to the procedure described in paragraph (j)(8)(ii) of this section, and a copy of the previously filed section 338(h)(6)(B) statement must be attached.

(iv) *Acquisition date of transitional target affiliate or eligible target occurs after transitional section 338(h)(6)(B) statement filed.* A transitional target affiliate or an eligible target will be subject to a transitional exclusion election or transitional stock exclusion election, respectively, only if such a corporation is named in the transitional section 338(h)(6)(B) statement (including an amended statement), notwithstanding that the acquisition date of such a corpoation occurs after that statement is filed. The failure of the P group to actually acquire a corporation named in the transitional section 338(b)(6)(B) statement pursuant to this subdivision (iv) shall have no effect on the validity of that statement.

(v) *Contents of transitional section 338 (h)(6)(B) statement.* The transitional section 338 (h)(6)(B) statement must—

(A) Be identified prominently as a transitional exclusion election under §1.338-5T(j)(1), as a transitional stock exclusion election under §1.338-5T(j)(7), or both.

(B) Where applicable, indicate that it is an amended statement.

(C) Contain the following declaration (or a substantially similar declaration) if a transitional exclusion election is made: "THE TRANSITIONAL EXCLUSION ELECTION PERMITTED BY §1.338-5T(j)(1) IS HEREBY MADE FOR THE TRANSITIONAL TARGET AFFILIATES IDENTIFIED HEREIN".

(D) Contain the following declaration (or a substantially similar declaration) if a transitional stock exclusion election is made: "THE TRANSITIONAL STOCK EXCLUSION ELECTION PERMITTED BY §1.338-5T(j)(7) IS HEREBY MADE FOR THE ELIGIBLE TARGETS IDENTIFIED HEREIN".

(E) For each of the following corporations contain the name, address, employer identification number (if any), and, for a foreign corporation, the country (and, if relevant, the lesser political subdivision) under the laws of which it is organized. The following corporations are: *(1)* each transitional target affiliate for which a transitional exclusion election is made, with corporations included pursuant to paragraph (j)(8)(iv) of this section so identified (such as by a footnote system), *(2)* each eligible target for which a transitional stock exclusion election is made, with corporations included pursuant to paragraph (j)(8)(iv) of this section so identified, and *(3)* if determinable as of the day of filing, each other corporation that would be subject to the express election absent the transitional elections.

(F) Be signed (in the manner prescribed in §1.338-1T(d)(1)(v)) by a person authorized to act on behalf of P.

Par. 3. Section 1.338-1T is amended as follows—

1. Paragraph (b) is amended by adding a new paragraph (b)(9) to read as set forth below.

2. Paragraph (c) is revised to read as set forth below.

3. Paragraph (d) is amended by—

a. Revising the heading to read as set forth below.

b. Removing, from the first sentence of paragraph (d)(1), the words "statement of election under section 338" and by adding in their place the words "statement of section 338 election".

c. Removing, from the third sentence of paragraph (d)(1), the words "statement of election" and by adding in their place the words "statement of section 338 election".

d. Removing from paragraph (d)(1)(i) the word "target" and by adding in its place the words "original target".

e. Removing the word "and" from paragraph (d)(1)(iv), redesignating paragraph (d)(1)(v) as paragraph (d)(1)(vi), and adding a new paragraph (d)(1)(v) to read as set forth below.

f. Revising paragraph (d)(2) to read as set forth below.

g. Removing, from each place they appear in paragraph (d)(3), the words "statement of election" and by adding in their place the words "statement of section 338 election".

4. Paragraph (e) is amended by—

a. Revising paragraph (e)(1) to read as set forth below.

b. Revising paragraph (e)(2)(i), (ii), and (iii) to read as set forth below.

c. Removing, from the first sentence of paragraph (e)(2)(iv), the words "statement of election" and by adding in their place the words "statement of section 338 election".

d. Adding a new paragraph (e)(2)(v) to read as set forth below.

e. Revising paragraph (e)(3) to read as set forth below.

5. Paragraph (j) is revised to read as set forth below.

6. Paragraph (k) is amended by—

a. Revising paragraph (k)(1) to read as set forth below.

b. Removing from paragraph (k)(2)(i) the words "statement of election" and by adding in their place the words "statement of section 338 election".

c. Revising paragraph (k)(2)(v) to read as set forth below.

d. Removing paragraph (k)(3)(iii).

e. Revising the heading of paragraph (k)(4) to read as set forth below.

f. Removing, from each place they appear in paragraph (k)(4), the words "statement of election" and by adding in their place the words "statement of section 338 election".

g. Revising paragraph (k)(5) to read as set forth below.

h. Removing paragraph (k)(6) and by redesignating paragraph (k)(7) as paragraph (k)(6).

i. Revising subdivisions (i) and (ii) of redesignated paragraph (k)(6) to read as set forth below.

j. Adding a new paragraph (k)(7) to read as set forth below.

§1.338-1T Elections under section 338(g) of the Internal Revenue Code of 1954 (temporary).

* * * * *

(b) *Definitions*—(1) * * *

* * * * *

(9) *Cross-reference*. The definitions in §1.338-4T (as modified by §1.338-5T(b)(2)) also apply for purposes of this section.

(c) *Time and manner of making election*. The purchasing corporation makes an election under section 338(g) for the original target only by filing, not later than the 15th day of the 9th month beginning after the month in which the acquisition date occurs (or if later, March 15, 1986), a statement of section 338 election with the Internal Revenue Service Center with which it files its annual income tax return. If the statement of section 338 election for the original target will cause section 338(a) to apply to other corporations ("affected targets") by reason of section 338(f)(1), a separate statement of section 338 election need not be filed for those affected targets. See paragraph (e)(1) of this section for requirement to attach a schedule containing information relating to the orginal target and the affected targets. See paragraph (k)(7) of this section for a required notice to the domestic shareholders of foreign targets in certain cases. See also paragraph (k) of this section generally for other special rules applicable to certain foreign corporations and DISCs.

(d) *Statement of section 338 election*—(1) * * *

(v) For elections filed after February 19, 1986, specify (if the purchasing corporation or the original target is a foreign corporation) the country (and, if relevant, the lesser political subdivision) under the laws of which it is organized, and

(2) ***Signature requirement if common parent is the agent of purchasing corporation***. If the common parent of an affiliated group filing consolidated returns is the agent of the purchasing corporation under §1.1502-77, then the person authorized to sign the statement of section 338 election pursuant to paragraph (d)(1)(v) of this section is the person authorized to act on behalf of that common parent.

(e) *Schedule; attachments to target returns*—(1) Schedule of information relating to certain corporations and persons—(i) *Required data*. A schedule providing the information specified in the paragraph (e)(1)(i) ("required data") must be attached to the statement of section 338 election. That schedule must satisfy the following requirements:

(A) It must contain the name, address, and employer identification number each includible affected target, *i.e.*, each corporation that, as of the day the statement of section 338 election is filed ("day of filing"), is an affected target subject to that election by reason of section 338(f)(1). For each includible affected target that is a foreign corporation, it must also contain the country (and, if relevant, the lesser political subdivision) under the laws of which it is organized.

(B) It must disclose the fair market value of the consideration paid by the purchasing corporation for the stock of each directly acquired target, *i.e.*, *(1)* the original target, *(2)* each includible affected target, *(3)* each excludible foreign target affiliate identified under paragraph (e)(1)(i)(F) of this section, *(4)* each transitional target affiliate (that is identified in an attached transitional exclusion election pursuant to §1.338-5T(j)(8) and that is actually acquired on or before the day of filing), and *(5)* each other corporation that, as of the day of filing, would be a target but for the transitional exclusion election (if any). For purposes of this subdivision (i), a directly acquired target does not include a corporation the qualified stock purchase of which occurs solely by reason of section 338(a)(2) and (h)(3)(B) (or would so occur if a regular or transitional exclusion election were not made) ("indirectly acquired corporation").

(C) It must identify the portion of the consideration paid for the stock of each directly acquired target that is represented by the following components: *(1)* cash, *(2)* purchase money debt, and *(3)* other components of consideration (with each such other component separately stated).

(D) It must disclose the liabilities (with any tax liability resulting from the deemed sale of assets under section 338(a)(1) separately stated), as of the close of the acquisition date (or as of the close of the day that would be the acquisition date if a regular or transitional exclusion election were not made), of each of the corporations described in paragraph (e)(1)(i)(B) of this section and of each other corporation that would be so described but for the exception therein for indirectly acquired corporations.

(E) If an election under section 338(h)(10 is made, it must clearly identify (such as by a footnote system) each corporation listed on the schedule that is subject to that election, including corporations subject to deemed section 338(h)(10) elections under §1.338(h)(10)-1T(h).

(F) If a regular exclusion election under §1.338-5T(c)(2) is made, the schedule must contain the name, address, and employer identification number (if any) of, and country (and, if relevant, the lesser the political subdivision) under the laws of which is organized, each corporation that, as of the day the schedule is filed, is an excludible foreign target affiliate, with each such corporation clearly identified (such as by a footnote system) as an excludible foreign target affiliate subject to a regular exclusion election.

(G) It must contain the name, address, and identifying number (if available) of each U.S. person to whom notice of the election must be sent as of the day the statement of section 338 election is filed (see paragraph (k)(7) of this section).

(ii) *Corrective statements*—(A) *Transitional rule*. If a statement of section 338 election filed on or before March 15, 1986, does not include the schedule with all of the required data, the requirements of paragraph (e)(1)(i) of this section will be satisified if, on or before March 15, 1986, a corrective statement in the form of the schedule (containing all of the required data, and with a copy of the previously filed statement of section 338 election attached) is filed with the Internal Revenue Service Center(s) with which the statement of section 338 election is required to be filed under paragraphs (c) and (d) of this section.

(B) *Regular exclusion election invalidated.* If, subsequent to the making of a regular exclusion election, that exclusion election is invalidated by reason of an invalidation event described in §1.338-5T(c)(2)(iii) and if, by reason of the invalidation event, a previously filed schedule under this subparagraph (1) incorrectly identifies certain corporations as excludible foreign target affiliates subject to a regular exclusion election, then the requirements of paragraph (e)(1)(i) of this section will be satisfied if, on or before the later of March 15, 1986, or the 120th day after the date of the invalidation event, a corrective statement in the form of an amended schedule (along with a copy of the previously filed statement of section 338 election) is filed with the Internal Revenue Service Center(s) with which the statement of section 338 election is required to be filed under paragraphs (c) and (d) of this section. (The invalidated regular exclusion statement need not be attached.) The revised schedule must clearly identify (such as by a footnote system) the corporations that are no longer treated as excludible foreign target affiliates subject to a regular exclusion election. The following declaration (or a substantially similar declaration) must be set forth on the amended schedule: "THIS SCHEDULE IS AMENDED BY REASON OF THE INVALIDATION UNDER §1.338-5T(c)(2)(iii) OF A REGULAR EXCLUSION ELECTION."

(C) *Schedule must be updated.* The schedule filed as a corrective statement under this subdivision (ii) must contain the required data described in paragraph (e)(1)(i) of this section for each corporation subject to the statement of section 338 election as of the day the schedule is filed.

(2) *Attachments to target returns; additional filings with certain Service Centers*—(i) *Attachments.* The items described in this subdivision (i) ("required items") must be attached to old target's final return and to the first return of new target. For purposes of this subparagraph (2), the term "target" refers to the original target and each affected target subject to the express election for the original target. The required items are—

(A) A copy of the statement of section 338 election (including a copy of any election made by filing a separate statement in connection with the statement of section 338 election) and

(B) The schedule described in paragraph (e)(1)(i) of this section ("schedule").

(ii) *Corrective statements*—(A) *Transitional rule.* If all of the required items (containing all of the information required to be included in those items) are not attached to a final return of old target or a first return of new target that is filed on or before March 15, 1986, the requirements of paragraph (e)(2)(i) of this section will be satisfied if, on or before that date a corrective statement consisting of all of the required items (containing all of the information required to be included in those items) is filed with the Internal Revenue Service Center(s) with which the returns to which the required items should have been attached were filed.

(B) *Special rule if regular exclusion election invalidated.* If, under the circumstances described in paragraph (e)(1)(ii)(B) of this section (relating to invalidation of regular exclusion election), a previously filed schedule under this paragraph (e)(2) incorrectly identifies certain corporations as excludible foreign target affiliates subject to a regular exclusion election, then the requirements of paragraph (e)(2)(i) of this section will be satisfied only if, on or before the 120th day after the date of the invalidation event, a corrective statement in the form of an amended schedule (containing the information and attachment required by paragraph (e)(1)(ii)(B) of this section) is filed with the Internal Revenue Service Center(s) with which the previously filed schedule was required to be filed.

(iii) *Additional filings with certain Service Centers.* On or before the day on which any return or corrective statement described in paragraph (e)(2)(i) or (ii) of this section is filed, the required items also must be filed with the Internal Revenue Service Centers with which the statement of section 338 election is required to be filed under paragraphs (c) and (d) of this section. If a gain recognition election under section 338(b)(3) is made in connection with the statement of section 338 election (so that a copy of the gain recognition statement ("GRS") under §1.338-4T(j)(2) is a required item pursuant to paragraph (e)(2)(i)(A) of this section), then, on or before the day specified in the preceding sentence, the required items also must be filed with each other Service Center with which each affected P group member (determined as of the day of filing) files its annual income tax return. For the definition of "affected P group member," see §1.338-4T(j)(2) *Answer 5* (ii)(A). The required items need not, however, be filed with a Service Center that already has received the identical required items.

* * * * *

(v) *Special rules for returns to which required items must be attached*—(A) *Target subject to section 338(h)(10) election.* If a target is subject to an election under section 338(h)(10), then the required items specified in paragraph (e)(2)(i) of this section are considered filed with the last return of old target if they are attached to the return of the selling consolidated group for the taxable period that includes the acquisition date. For guidance under section 338(h)(10), see §1.338(h)(10)-1T(d).

(B) *Certain returns filed by U.S. persons.* Each U.S. person to whom the purchasing corporation must provide notice under paragraph (k)(7)(ii)(B) of this section (relating to notice of a section 338 election for a foreign target) must attach the required items specified in paragraph (e)(2)(i) of this section to its income tax return in which it is required to report a section 1248 dividend by reason of its sale of stock in the foreign target to the purcashing corporation. In addition, each other U.S. person that is required to file an information return (Form 5471) with respect to the foreign target for a relevant taxable year of that foreign target must attach the required items to that return if *(1)* the purchasing corporation must provide notice under paragraph (k)(7)(ii)(A) to that U.S. person or *(2)* that U.S. person is a member of the affiliated group that includes the purchasing corporation. A foreign target's relevant taxable years are its taxable year that includes its acquisition date and its taxable year that includes the first day thereafter. A

U.S. person that receives a notice pursuant to paragraph (k)(7)(ii) of this section may assume that the required items received from the purchasing corporation as part of that notice are accurate for purposes of the attachment requirement.

(C) *First return of new foreign target after acquisition date.* If a United States income tax return is not required to be filed for new foreign target's taxable period that includes the first day after its acquisition date, then the required items must be attached to the first United States income tax return filed by that target for a subsequent taxable year.

(3) *Consequence of failure to comply with requirements of paragraph (e)(1) and (2) of this section*—(i) *General rule.* If the requirements of paragraph (e)(1) and (2) of this section or of §1.338-5T(c)(2)(vii)(B) (requirement of amended returns if regular exclusion election invalidated) are not satisfied with respect to the original target or any affected target, then the waiver rule of paragraph (h)(1) of this section will not apply to any of those targets. Failure to comply with those requirements will not invalidate a statement of section 338 election or any other election under section 338.

(ii) *Exception for certain returns.* Failure to comply with the provisions of paragraph (e)(2)(v) of this section will not bar the application of the waiver rule of paragraph (h)(1) of this section.

* * * * *

(j) *Special rules for acquisitions affected by regulations under section 338(h)(6)(B)*—(1) *Target subject to special rules.* This paragraph (j) applies to a target—

(i) that is a foreign corporation, a DISC, a corporation described in section 934(b), or a corporation to which section 936 applies or

(ii) that has a target affiliate (as defined in paragraph (k)(3)(ii) of this section) that either (A) is described in paragraph (j)(1)(i) of this section or (B) owns stock in a foreign corporation or a domestic corporation that is a DISC or described in section 1248(e).

(2) *No additional suspension of time to make election for target described in this paragraph.* Pursuant to paragraph (c) this section, the time to make an express election (for an acquisition subject to this section) does not expire before March 15, 1986. Prior to amendment by T.D. 8074, this paragraph (j) provided for an indefinite suspension of time to make an express election for certain targets but permitted an option to make an express election notwithstanding that suspension. Rules applicable to this obsolete option are prescribed in paragraph (j)(3), (4), and (5) of this section.

(3) *Declaration required in statement of section 338 election.* If, on or before March 14, 1986, a statement of section 338 election is filed for a target described in paragraph (j)(1) of this section and if a regular exclusion election, transitional exclusion election, or transitional stock exclusion election (as defined in §1.338-5T(c)(2), (j)(1), and (j)(7), respectively) is not made in that statement of section 338 election, then that statement of section 338 election must include, in addition to the other requirements specified in this section, the following declaration (or a substantially similar declaration): "THIS ELECTION IS MADE PURSUANT TO THE OPTION IN §1.338-1T(j)(2) TO MAKE THE SECTION 338 ELECTION NOTWITHSTANDING THE SUSPENSION."

(4) *Perfecting procedure*—(i) *General rule.* If a statement of section 338 election is required to include the declaration described in paragraph (j)(3) of this section but does not, the election nonetheless shall be valid if—

(A) A timely regular exclusion election, transitional exclusion election, or transitional stock exclusion election is filed or

(B) A timely perfecting declaration is filed.

(ii) *Perfecting declaration.* A "perfecting declaration" is a statement that contains the declaration described in paragraph (j)(3) of this section and that is signed by a person who states under penalties of perjury that he or she is authorized to make the perfecting declaration on behalf of the purchasing corporation. The perfecting declaration must be filed on or before March 15, 1986, with the Internal Revenue Service Center(s) with which the statement of section 338 election is required to be filed under paragraphs (c) and (d) of this section, and a copy of the previously filed statement of section 338 election must be attached.

(5) *Statement of section 338 election filed pursuant to this paragraph (j) is binding.* An election under section 338(g) that is made pursuant to the option in paragraph (j)(2) of this section is subject to all of the provisions of section 338 as well as to the provision of regulations issued or to be issued thereunder, including the regulations under section 338(h)(6).

(k) *Special rules for foreign corporations or DISCs*—(1) *Elections by certain foreign purchasing corporations.* A foreign purchasing corporation that is not required under §1.6012-2(g) (other than subparagraph (2)(i)*(b)(2)* thereof) to file a United States income tax return for its taxable year that includes the acquisition date must file the statement of section 338 election (or any other election under section 338) with the Philadelphia Service Center, Philadelphia, Pennsylvania 19255.

(2) *Election not required until relevant*—(i) *General rule.** * *

* * * * *

(v) *Subject to United States tax.* For purposes of this paragraph (k)(2), a foreign corporation is considered "subject to United States tax"—

(A) For the taxable year for which that corporation is required under §1.6012-2(g) (other than subparagraph (2)(i)*(b)(2)* thereof) to file a United States income tax return and

(B) For the period during which that corporation is a controlled foreign corporation, a foreign investment company, or a foreign corporation the stock ownership of which is described in section 552(a)(2).

* * * * *

(4) *Statement of section 338 election may be filed by United States shareholders in certain cases.** * *

(5) *EIN not required for certain corporations.* If, without regard to section 338 or the requlations thereunder, a corporation is not required to have an employer identification number (EIN) and if such a corporation does not actually have an EIN, then the requirement that an EIN be provided in the statement of section 338 election (or in any other election under section 338) shall not apply to that corporation.

(6) *Special rules for due date of old target's final return.*—(i) *Old target a*

foreign corporation required to file U.S. return. The final return of old target is due on the 15th day of the sixth calendar month following the month in which the acquisition date occurs if old target is a foreign corporation that is required under §1.6012-2(g) (other than subparagraph (2)(i)*(b)(2)* thereof) to file a United States income tax return for its taxable year that includes its acquisition date but that does not have an office or fixed place of business in the United States during such period.

(ii) *Old target a foreign corporation not required to file U.S. return.* A final return of old target is not required if old target is a foreign corporation that is not required under §1.6012-2(g) (other than subparagraph (2)(i)*(b)(2)* thereof) to file a United States income tax return for its taxable year that includes its acquisition date.

(iii) *Old target a DISC.** * *

(7) *Notice requirement for U.S. persons holding stock in foreign target*—(i) *Scope.* This subparagraph (7) provides rules relating to notice to U.S. persons holding stock in a foreign target. For additional information that must be included on the schedule required by §1.338–1T(e) if the notice requirement of this subparagraph (7) applies, see paragraph (e)(1)(i)(G) of this section. For rules applicable to the recipient of the notice, see paragraph (e)(2)(v)(B) of this section.

(ii) *General rule.* If a target subject to an express election (either as the original target or as an affected target) is a foreign corporation, then the purchasing corporation must deliver written notice of the election (with a copy of the statement of section 338 election attached) to—

(A) Each U.S. person (other than a member of the affiliated group that includes the purchasing corporation ("P group")) that, on the acquisition date of the foreign target or at the beginning of the first day after that acquisition date, holds stock in the foreign target and

(B) Each U.S. person (other than a P group member) that sells stock in the foreign target to a P group member during so much of the foreign target's 12-month acquisition period as ends on its acquisition date, provided that the foreign target was a controlled foreign corporation at any time during so much of the taxable year within which its acquisition date occurs as ends on that acquisition date.

(iii) *Form of notice.* The notice to U.S. persons must be identified prominently as a notice of section 338 election and must satisfy all of the following:

(A) The notice must contain the name, address, and employer identification number (if any) of, and the country (and, if relevant, the lesser political subdivision) under the laws of which is organized, the purchasing corporation and the relevant target (*i.e,* the target the stock of which the particular U.S. person held or sold under the circumstances described in paragraph (k)(7)(ii) of this section).

(B) The notice must identify those corporations as the purchasing corporation and the foreign target corporation, respectively.

(C) The notice must contain the following declaration (or a substantially similar declaration): "THIS DOCUMENT SERVES AS NOTICE OF AN ELECTION UNDER SECTION 338 FOR THE ABOVE CITED FOREIGN TARGET THE STOCK OF WHICH YOU EITHER HELD OR SOLD UNDER THE CIRCUMSTANCES DESCRIBED IN TREASURY REGULATIONS §1.338-1T(k)(7)(ii). FOR POSSIBLE UNITED STATES FEDERAL INCOME TAX CONSEQUENCES UNDER SECTION 1248 OF THE INTERNAL REVENUE CODE OF 1954 THAT MAY APPLY TO YOU, SEE TREASURY REGULATIONS §1.338-5T(g). YOU MAY BE REQUIRED UNDER TREASURY REGULATIONS §1.338-1T(e)(2)(v) TO ATTACH THE INFORMATION ATTACHED TO THIS NOTICE TO CERTAIN RETURNS."

(D) The notice must contain (as an attachment) the required items specified in paragraph (e)(2)(i) of this section.

(iv) *Timing of notice.* The notice required by this subparagraph (7) must be delivered to the U.S. person on or before the latest of the dates specified in this subdivision (iv). If notice is delivered by United States mail, the date of the United States postmark is deemed to be the date of delivery. The dates are as follows:

(A) March 15, 1986,

(B) The 120th day after the acquisition date of the particular target, or

(C) The day on which the statement of section 338 election is filed.

(v) *Consequence of failure to comply.* If a statement of section 338 election is filed after March 15, 1986, and if notice under this subparagraph (7) must be given to one or more U.S. persons on or before the day on which the statement of section 338 election is filed, then that statement of section 338 election shall not be valid if timely notice is not given to any such U.S. person. Failure to give notice to U.S. persons under circumstances other than those described in the preceding sentence shall not invalidate the statement of section 338 election, but the waiver rule of paragraph (h)(1) of this section will not apply to the same extent as if the requirements of paragraph (e) of this section were not satisfied.

* * * * *

Par. 4. Section 1.338-4T is amended as follows—

1. Paragraph (a) is amended by—

a. Removing the last sentence of paragraph (a) and by adding in its place the following sentence: "For guidance on international aspects of section 338 and on the extent to which the provisions of this section apply in that context, see §1.338-5T."

b. Adding, immediately after item (f)(1)(ii) of paragraph (a)(3), a new item (f)(2) to read as follows: "(2) Asset acquisition by P (or another member of the P group) from T or T's target affiliate."

c. Removing, from item (f)(6)(iii) of paragraph (a)(3), the misspelled word "acquistions" and by adding in this place the word "acquisitions".

d. Removing, from item (k)(3) of paragraph (a)(3), the words "and 168(d)(92)(B)" and by adding in their place the words "and 168(d)(2)(B)".

e. Removing, from the beginning of item (k)(6) of paragraph (a)(3), the parenthetical "(".

2. Paragraph (b) is amended by—

a. Adding to the end of paragraph (b)(1)(ii) the following sentence: "Except as otherwise provided in this section, T is an original target if a qualified stock purchase is made of its stock."

b. Removing, from paragraph (b)(2), the words "section 338(h)" and by adding in their place the words "section 338".

3. Pararaph (c) is amended by—

a. Removing, from the second sentence of paragraph (c)(1) *Answer 2*, the words "section 338(h)(3)(A)(ii)" and by adding in their place the words "section 338(h)(3)(A)(ii)".

b. Removing, from the third sentence of paragraph (c)(1) *Answer 4* Ex. (4), the words "section 338(h)3)" and by adding in their place the words "section 338(h)(3)."

c. Removing, from paragraph (c)(2) *Question*, the words "section 388(d)(3)" and by adding in their place the words "section 338(d)(3)."

d. Removing, from the first sentence of paragraph (c)(2) *Answer*, the misspelled word "acquistion" and by adding in its place the word "acquisition".

e. Adding a comma immediately after the word "date" in the fourth sentence of paragraph (c)(4) *Answer* Ex. (3).

f. Removing, from the sixth sentence of paragraph (c)(4) *Answer* Ex. (3), the word "that" and by adding in its place the word "the".

g. Removing, from the eighth sentence of paragraph (c)(4) *Answer* Ex. (3), the word "as" and by adding in its place the word "a".

h. Removing, from the second sentence of paragraph (c)(4) *Answer* Ex. (7)(ii), the misspelled word "contitute" and by adding in its place the word "constitute".

i. Removing, from the first sentence of paragraph (c)(5) *Answer* (i)(A), the words "the other of those corporation" and by adding in their place the words "the other of those corporations".

4. Paragraph (f)(1) is amended by—

a. Removing, from paragraph (f)(1)(ii) *Question 2* (ii), the words "target affiliate" and by adding in their place the words "a target affiliate".

b. Removing the colon that follows the word "paragraph" in paragraph (f)(1)(ii) *Question 2* (iv).

5. Paragraph (f)(3) *Answer* Ex. (3) is amended by removing from the third sentence the words "trade of" and by adding in their place the words "trade or".

6. Paragraph (f)(4) *Question 4* (i) is amended by removing the words "exchange asset" and by adding in their place the words "exchanged asset".

7. Paragraph (f)(5) is amended by—

a. Removing, from the title of paragraph (f)(5) *Answer* (vi), the word "*Property*" and by adding in its place the words "*Property acquired*".

b. Removing, from the sixth sentence of paragraph (f)(5) *Answer* (vi) Ex. (2), the words "remaining $28,000" and by adding in their place the words "remaining $18,000".

c. Revising paragraph (f)(5) *Answer* (vii) to read as set forth below.

d. Removing, from paragraph (f)(5) *Answer* (viii), the word "exception" and by adding in its place the words "exception to section".

8. Paragraph (f)(6) is amended by—

a. Revising paragraph (f)(6)(i)(A) to read as set forth below.

b. Revising paragraph (f)(6)(ii) *Answer 1* (i) by adding the following sentence at the end thereof: "For place to file in certain cases if the purchasing corporation is a foreign corporation, see §1.338-1T(k)(1)."

c. Revising paragraph (f)(6)(ii) *Answer 1* (ii) to read as set forth below.

d. Revising paragraph (f)(6)(ii) *Answer 1* (iii)(C) to read as set forth below.

e. Removing, from the first entence of paragraph (f)(6)(ii) *Answer 2* (ii), the words "with the protective" and by adding in their place the words "with which the protective".

f. Removing, from the second sentence of paragraph (f)(6)(iv) *Answer 2* (ii)(A), the words "tax liability.)" and by adding in their place the words "tax liability)."

g. Revising paragraph (f)(6)(iv) *Answer 2* (ii)(B) to read as set forth below.

h. Removing, from the first sentence of paragraph (f)(6)(iv) *Answer 3* (i), the misspelled word "*Answere*" and by adding in its place the word "*Answer*".

i. Removing, from paragraph (f)(6)(iv) *Answer 3* (ii)(C)(*3*), the words "the acquiring" and by adding in their place the words "The acquiring".

j. Revising paragraph (f)(6)(iv) *Answer 3* (iv)(D) to read as set forth below.

k. Removing, from the end of paragraph (f)(6)(iv) *Answer 3* (vi)(B), the word "rule.)" and by adding in its place the word "rule)."

l. Removing, from the fourth sentence of paragraph (f)(6)(iv) *Answer 3* Ex. (1)(ii), the words "January 1, 1985" and by adding in their place the words "January 1, 1986."

m. Removing, from the first sentence of paragraph (f)(6)(iv) *Answer 3* Ex. (1)(iii), the words "§1.150-13(d)(1)" and by adding in their place the words "§1.1502-13(d)(1)".

n. Removing, from the fourth sentence of paragraph (f)(6)(iv) *Answer 3* Ex. (2)(ii), the word "According" and by adding in its place the word "Accordingly".

o. Revising the first three sentences of paragraph (f)(6)(iv) *Answer 3* Ex. (3)(iii) to read as set forth below.

9. Paragraph (g)(2) is amended by—

a. Removing the colon from the first sentence of paragraph (g)(2) *Answer* (i).

b. Removing, from the heading of paragraph (g)(2) *Answer* (ii), the words "*in t*" and by adding in their place the words "*in T*".

c. Removing the colon from the end of paragraph (g)(2) *Answer* (v) and by adding in its place a period.

d. Removing, from the first sentence of paragraph (g)(2) *Answer* Ex. (2)(ii), the misspelled word "satisified" and by adding in its place the word "satisfied".

e. Removing from the sixth sentence of paragraph (g)(2) *Answer* Ex. (2)(ii), the word "than" and by adding in its place the word "then".

f. Removing, from the fourth sentence of paragraph (g)(2) *Answer* Ex. (6), the word "Acquisition" and by adding in its place the word "acquisition".

g. Removing, from the parenthetical at the end of the second sentence of paragraph (g)(2) *Answer* Ex. (7)(ii), the misspelled word "hypotheticl" and by adding in its place the word "hypothetical".

10. Paragraph (h) is amended by—

a. Removing, from the first sentence of paragraph (h)(2)(iii), the word "ASDP" and by adding in its place the word "ADSP".

b. Removing, from the first answer of paragraph (h)(3) *Answer 1* (i), the words "of all old" and by adding in their place the words "of all of old".

c. Removing, from the second sentence of paragraph (h)(3) *Answer 2* (i), the words "of P" and by adding in their place the words "to P".

d. Removing, from the third sentence of paragraph (h)(3) *Answer 2* (i), the words "or T" and by adding in their place the words "for T".

e. Removing, from the second sentence of paragraph (h)(3) *Answer 2* (iii), the words "that fact" and by adding in their place the words "the fact".

f. Removing, from the first sentence of paragraph (h)(3) *Answer 2* (iv), the words "gain an" and by adding in their place the words "gain on".

g. Removing, from the second sentence of paragraph (h)(3) *Answer 2* (vi)(B), the misspelled word "assests" and by adding in its place the word "assets".

h. Removing, from paragraph (h)(3) *Answer 2* (vi)(D), the words "of (section 1245 property)" and by adding in their place the words "of section 1245 property".

i. Removing, from the first line of the formula set out in paragraph (h)(3) *Answer 2* Ex. (1)(ii), the word "ANSP" and by adding in its place the word "ADSP".

j. Removing, from the formula set out in paragraph (h)(3) *Answer 2* Ex. (1)(ii), the words "ADSP = −.46ADSP = $51,816" and by adding in their place the words "ADSP − .46ADSP = $51,816".

k. Removing, from the second sentence of paragraph (h)(3) *Answer 2* Ex. (2), the misspelled word "aquisition" and by adding in its place the word "acquisition".

(l) Removing from the first line of the formula set out in paragraph (h)(3) *Answer 3* Ex. (ii) the letters "x x" and by adding in their place the letter "x".

(m) Removing, from the second sentence of paragraph (h)(3) *Answer 3* Ex. (iii) the words "*i.e.*, $189,422.71 × 1395348" and by adding in their place the words "*i.e.*, $189,422.71 × .1395348".

11. Paragraph (j) is amended by—

a. Removing so much of the first sentence of paragraph (j)(1) as ends after the word "determination" and before the word "new" and by adding in place of the removed language the words "of the total sum ("adjusted grossed-up basis") to be allocated as basis to the assets of".

b. Removing, from the formula set out in paragraph (j)(2) *Answer 4* Ex. (i), the words "ADSP = $75,000 + × $13,616 + (.028 × ADSP − $2,240" and by adding in their place the words "ADSP = $75,000 + $13,616 + (.028 × ADSP) − $2,240".

c. Removing, from paragraph (j)(2) *Answer 5* (ii)(C), the words "§1.338-1T(d)(1)(v)" and by adding in their place the words "§1.338-1T(d)(1)(v))".

12. Paragraph (k) is amended by—

a. Removing, from paragraph (k)(1) *Question 1*, the word "liquidation" and by adding in its place the word "liquidations".

b. Removing, from the end of the third sentence of paragraph (k)(1) *Answer 3* (i), the words "("hypothetical distribution")".

c. Removing the fourth sentence of paragraph (k)(1) *Answer 3* (i) and by adding in its place the following sentence: "However, if section 332 would have applied to a distribution of all of T's assets in a hypothetical complete liquidation immediately after the plan of complete liquidation was adopted, then section 337(c)(2) will apply to bar the operation of section 337 through section 338(h)(12) unless each corporation that would have been a distributee corporation (within the meaning of section 337(c)(3)(B)(i)) with respect to that hypothetical liquidation also is completely liquidated under the circumstances described in section 337(c)(3)."

d. Removing, from the second sentence of paragraph (k)(1) *Answer 3* (ii), the word "applied"and by adding in its place the word "applies".

e. Removing, from paragraph (k)(1) *Question 4* (ii), the words "a causes T" and by adding in their place the words "A causes T".

13. Paragraph (l)(1) *Question* is amended by removing the words "new tax" and by adding in their place the word "tax".

§1.338-4T Questions and answers relating to miscellaneous issues under section 338 (temporary).

* * * * *

(f) ***Application of the asset consistency rule of section 338(e)***—(1) * * *

* * * * *

(5) ***Certain transactions excepted under section 338(e)(2)(D).***

Question: * * *

Answer: (i) * * *

* * * * *

(vii) *Property subject to timely disposition*— (A) *General rule*. The acquisition of property is subject to an exception to section 338(e)(1) under the authority of section 338(e)(2)(D) if, on or before the required disposition date, (*1*) the P group disposes of that property to an unrelated person that is not a target affiliate of T or of an affected target or (*2*) the P group member holding the property ceases to be a member of the P group and ceases to be related to any member of the P group. A P group member is not treated as ceasing to be a member of the P group for purposes of this subdivision (A) if it ceases to exist by reason of a transaction described in section 381(a) and if the acquiring corporation (within the meaning of section 381(a)) is a member of the P group.

(B) *Requiring disposition date*. The "required disposition date" is the latest of the following three dates: (*1*) March 15, 1986, (*2*) the 90th day after the date on which a P group member acquires the property, or (*3*) the 90th day after the acquisition date of T.

* * * * *

(6) *Carryover basis election exception under section 338(e)(2)(D) and (i)*—(i) *Introduction*—(A) *Overview*. If P makes a qualified stock purchase of T stock and, in lieu of an express election, makes a protective carryover basis election for T under this paragraph (f)(6) ("protective carryover election"), then a tainted asset acquisition with respect to T or any affected target will in no case cause a deemed election under section 338(e)(1) for T or any affected target. A "tainted asset acquisition" occurs with respect to T (or with respect to an affected target) if an express election is not made and if, during the consistency period of T (or of the affected target), P group member acquires an asset of T or its target affiliate (or of the affected target or its target affiliate) in an acquisition that is described in section 338(e)(1) and that is not subject to an exception (other than the carryover basis election exception of this paragraph (f)(6)) to section 338(e)(1). The protective carryover election is irrevocable and bars an express election for T and the affected targets. If the P group makes a tainted asset acquisition but does not make a protective carryover election for T, then the tainted asset acquisition will cause a carryover basis election by affirmative action ("affirmative action carryover election") as of the later of the day of the tainted asset acquisition

or the expiration of the period within which to make the protective carryover election for T. Pursuant to paragraph (f)(1)(ii) *Answer 1* of this section, however, the District Director in appropriate cases may cause a deemed election under section 338(e)(1) in lieu of the otherwise applicable affirmative action carryover election. Thus, the only certain way for the P group to avoid a deemed election under section 338(e)(1) in the event of the tainted asset acquisition is to make a timely protective carryover election. Apart from the District Director's authority to override an affirmative action carryover election and impose a deemed election under section 338(e)(1) in lieu thereof, the consequences of a protective carryover election and an affirmative action carryover election are identical, except that an offset prohibition election under this paragraph (f)(6) and the special increase in basis of transferee member stock under paragraph (f)(6)(iv) *Answer 1* (i)(B) of this section are available only if a *protective* carryover election is made. (For a special limitation on the application of the offset prohibition election, see §1.338-5T(d)(1).) Unless otherwise indicated, any reference in this section to the carryover basis election exception of this paragraph (f)(6) is a reference to either the protective carryover election or the affirmative action carryover election.

* * * * *

(ii) *Procedure for making protective carryover election and affirmative action carryover election.*

Question 1: * * *

Answer 1: (i) * * *

(ii) *Corporations required to join in making protective carryover election*—(A) *General rule.* Subject to two exceptions, each corporation included in the P group at any time during so much of T's consistency period as ends on the day the protective carryover election statement is filed is required to join in making the protective carryover election.

(B) *Exception for certain prior P group members.* A corporation that ceases to be a P group member prior to the day on which the protective carryover election statement is filed is not required to join in making the protective carryover election if it did not make a tainted asset acquisition while a member of the P group. (Caution should be exercised when relying on this exception, since it is not always clear whether an asset acquisition is a tainted asset acquisition.)

(C) *Certain foreign P group members.* A foreign P group member is not required to join in making the protective carryover election if (*1*) it is subject to United States tax (within the meaning of §1.338-1T(k)(2)(v)) for its taxable year in which the protective carryover election statement is filed or for any prior taxable year any day of which occurs during the consistency period, (*2*) it purchases any of the stock included in the qualified stock purchase of T or of an affected target, or (*3*) it directly or indirectly (in the manner described in section 958(a)) holds stock in a foreign P group member that satisfies one or both of the two preceding conditions. A foreign P group member that is not required to join in making the protective carryover election ("nonjoining member") nonetheless must be identified in that election as if it were so required (such as by a footnote system). In addition, tainted asset acquisitions by a nonjoining member shall be treated as asset acquisitions subject to an affirmative action carryover election unless that member actually joins in making the election, *i.e.*, unless a representative of that member signs the election on that member's behalf. The District Director shall not have authority, however, to impose a deemed election under section 338(e)(1) in the event of a tainted asset acquisition by a nonjoining member that is treated as subject to an affirmative action carryover basis election pursuant to the preceding sentence.

(D) *U.S. shareholders of CFC P group member may act on its behalf.* A P group member that is a controlled foreign corporation will be considered to have joined in making the protective carryover election if its U.S. shareholders sign the protective carryover election statement in its behalf. For purposes of this subdivision (D), the principles of §1.338-1T(k)(4) (section 338 election made by U.S. shareholders) apply.

(iii) *Contents of protective carryover election statement*—(A) * * *

* * * * *

(C) *Schedule of information relating to corporations subject to protective carryover election.* A schedule providing the information specified in this subdivision (C) ("required data") must be attached to the protective carryover election statement. Failure to attach the schedule, however, will not invalidate the protective carryover election. The schedule must satisfy the following requirements:

(*1*) It must contain the name, address, and employer identification number (if any) of, and (for a foreign corporation) the country (and further political subdivision, if relevant) under the laws of which is organized, each corporation that, as of the day the protective carryover election statement is filed, is an affected target ("includible affected target").

(*2*) It must disclose the fair market value of the consideration paid by the purchasing corporation for the stock of each directly acquired target, *i.e.*, the original target and each includible affected target (other than an includible affected target for which a qualified stock purchase would occur solely by reason of section 338(a)(2) and (h)(3)(B)).

(*3*) It must identify the portion of the consideration paid for the stock of each directly acquired target that is represented by cash, purchase money debt, and other components of consideration (with each such other component separately stated).

(*4*) It must be disclose the liabilities of the original target and each includible affected target (whether or not a directly acquired target) as of the close of the acquisition date (or as of the close of the day that would be the acquisition date if an express election were made).

* * * * *

(iv) *Consequences of protective or affirmative action carryover election.*

Question 1: * * *

* * * * *

Answer 2: (i) * * *

(ii) *Exception if INA acquisition is subject to offset prohibition election*—(A) * * *

(B) *Limitation on application of certain credits.* For purposes of determining the amount of a restricted credit permitted as a credit against N's tax liability for N's taxable year in which there is INA gain subject to the offset prohibition, N's pre-credit tax liability is calculated as if that INA gain were not income to N. "Restricted credits" are credits against tax described in part IV (other than subparts A and C thereof and section 27(a)) of subchapter A of chapter 1 of the Code (*i.e.*, sections 27(b), and 28-30, and 38-41). For a separate restriction applicable to the foreign tax credit and for a special rule coordinating that restriction with this subdivision (B), see §1.338-5T(d)(2).

Answer 3: (i) * * *

* * * * *

(iv) *Limitations if C ceases to be a member and offset prohibition election applies*—(A) *In general.* * * *

* * * * *

(D) *Liitation on application of certain credits.* For purposes of determining the amount of a restricted credit permitted as a credit against the P group's consolidated tax liability for a taxable year in which there is a remaining ICA gain amount subject to the offset prohibition, the P group's pre-credit consolidated tax liability is calculated as if that remaining ICA gain amount were not income to the P group. "Restricted credits" are credits against tax described in part IV (other than subparts A and C thereof and section 27(a)) of subchapter A of chapter 1 of the Code (*i.e.*, sections 27(b), 28-30, and 38-41). For a separate restriction applicable to the foreign tax credit and for a special rule coordinating that restriction with this subdivision (D), see §1.338-5T(d)(2).

* * * * *

Example (1). * * *

* * * * *

Example (3). (i) * * *

* * * * *

(iii) Second, for purposes of determining the amount of any restricted credit (as defined in subdivision (iv)(D) of this *Answer 3*) permitted as a credit against the P group's consolidated tax liability for 1987, the pre-credit consolidated tax liability is calculated as if the remaining ICA gain amount of $4,500 were not income to the P group for 1987. Under these facts, the P group has no income (and therefore no pre-credit tax liability) in 1987 absent the remaining ICA gain amount. Thus, the P group's 1987 tax liability may not be reduced by restricted credits.

Par. 5. Section 1.338(h)(10)-1T is amended as follows—

1. Paragraph (d)(3) is amended by removing "§1.338-1T(e)(1)(i)(D)" and by adding in its place "§1.338-1T(e)(1)(i)(E)".

2. Paragraph (d)(4) is amended by removing "§1.338-1T(e)(2)(i)" and by adding in its place "§1.338-1T(e)(2)(v)(A)".

PART 602 OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 6. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 7. Section 602.101(c) is amended by inserting in the appropriate place in the table "1.338-5T . . . 1545-0702".

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitations of subsection (d) of that section.

This Treasury decision is issued under the authority contained in sections 338 and 7805 of the Internal Revenue Code of 1954 (26 U.S.C. 338 and 7805, respectively).

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

Approved January 21, 1986.

J. ROGER MENTZ,
Acting Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on February 6, 1986, 4:57 p.m., and published in the issue of the Federal Register for February 12, 1986, 51 F.R. 5163. Corrected in the issues of the Federal Register for February 21, 1986, 51 F.R. 6219 and April 1, 1986, 51 F.R. 11016).

Section 382.—Special Limitations on Net Operating Loss Carryover

26 CFR 1.382(b)-1: Change of ownership as the result of a reorganization.

Carryover; reorganization; merger; controlled corporations. A loss corporation *X* formed a wholly owned subsidiary *P* which formed a wholly owned subsidiary *S*. *S* then merged into *X* in a reorganization under sections 368(a)(1)(A) and 368(a)(2)(E) of the Code, with the former *X* shareholders owning *P* stock with a fair market value exceeding 20 percent of the fair market value of the outstanding *X* stock. *X*'s net operating loss carryover is not reduced under section 382(b) before amendment by section 806(e) of the Tax Reform Act of 1976.

Rev. Rul. 86-52

ISSUE

Is the net operating loss carryover of the acquiring corporation reduced under section 382(b) of the Internal Revenue Code, before amendment by section 806(e) of the Tax Reform Act of 1976, 1976-3 (Vol. 1) C.B. 1, 75 (the Act), in the reverse triangular organization described below?

FACTS

X, a corporation engaged in an ongoing business, had common stock that was publicly traded. *X* had net operating loss carryovers. In order to form a holding company structure, *X* caused *P* corporation to be organized. Shortly thereafter, *P* organized a wholly owned subsidiary, *S*, which in 1977 merged into *X* in a transaction qualifying as a reorganization described in sections 368(a)(1)(A) and 368(a)(2)(E) of the Code. *X* acquired all of the assets of *S*. As a newly formed corporation, *S* had no liabilities to be assumed by *X*. Thereafter, the separate corporate existence of *S* ceased and *X* survived the merger. Except for dissenters to the merger, each share of the outstanding stock of *X* was converted into three shares of *P* common stock, and *X*'s outstanding stock certificates thereafter represented shares of *P* common stock. The shares of *S* stock outstanding immediately prior to the merger were cancelled in the merger. For each share of *S* stock held by *P* prior to the merger, 10 shares of new *X* common stock were issued to *P* in the merger. As a result of the reorganization, the former *X* shareholders owned all the outstanding *P* stock and *P* owned all the outstanding *X* stock. The fair market value of the *P* stock, immediately after the reorganization, was equal to the then fair market value of the *X* stock.

LAW AND ANALYSIS

Section 382(b)(1) of the Code, before amendment by the Act (old section 382), provided in part that if, in the case of a reorganization described in section 368(a)(1)(A), the transferor corporation or acquiring corporation has a net operating loss which is a net operating loss carryover to the first taxable year of the acquiring corporation ending after the date of the transfer, and the stockholders (immediately before the reorganization) of such corporation (loss corporation), as the result of owning stock of the loss corporation, own (immediately after the reorganization), less than 20 percent of the fair market value of the outstanding stock of the acquiring corporation, the total net operating loss carryover shall be reduced.

Old section 382(b)(6) of the Code provides in part that if the stockholders of the loss corporation (immediately before the reorganization) own, as a result of the reorganization, stock in a corporation controlling the acquiring corporation, such stock of the controlling corporation shall, for purposes of old section 382(b), be treated as stock of the acquiring corporation in an amount valued at an equivalent fair market value. *X* is the loss corporation and also, because it acquired *S*, the acquiring corporation.

Under old section 382(b)(1) of the Code, if the former stockholders of *X*, as a result of owning stock of *X*, own (immediately after the reorganization), less than 20 percent of the fair market value of the outstanding stock of *X*, the acquiring corporation, *X*'s net operating loss carryover would be reduced. The stockholders of *X* own none of the outstanding stock of *X* after the reorganization, because the former shareholders of *X*, as a result of the reorganization, own stock in *P*. However, because *P* controls *X*, the acquiring corporation, the former *X* shareholders will be treated under old section 382(b)(6) as owning, after the reorganization, stock of *X* in an amount equivalent to the fair market value of the stock of *P* that they hold.

HOLDING

Because the fair market value of the *P* stock the former *X* shareholders own as a result of the reorganization exceeds 20 percent of the fair market value of the outstanding *X* stock, *X*'s net operating loss carryover is not reduced by old section 382(b)(1) of the Code.

Section 404.—Deductions for Contributions of an Employer to an Employees' Trust or Annuity Plan and Compensation under a Deferred-Payment Plan

Deductibility of deferred vacation benefits. See Rev. Proc. 86-20, page 50.

Section 463.—Accrual of Vacation Pay

Deductibility of deferred vacation benefits. See Rev. Proc. 86-20, page 50.

Section 4941.—Taxes on Self-Dealing

26 CFR 53.4941(d)-4: Transitional rules.
(Also Section 4943, 53.4943-1.)

Private foundations; self-dealing, sale to disqualified person. The sale to a disqualified person of stock by a private foundation owned by it continuously since May 26, 1969, but not constituting excess business holdings on that date, is excepted under section 53.4941(d)-4(b)(1) of the regulations from the prohibition against self-dealing under section 4941 of the Code.

Rev. Rul. 86-53

ISSUE

Under the circumstances described below, would the sale to a disqualified person of stock owned by a private foundation continuously since May 26, 1969, but not constituting excess business holdings on that date, be excepted under section 53.4941(d)-4(b)(1) of the Foundation and Similar Excise Tax Regulations from the prohibition against self-dealing under section 4941 of the Internal Revenue Code?

FACTS

The foundation is exempt from federal income tax under section 501(c)(3) of the Code and is a private foundation within the meaning of section 509(a). Since May 26, 1969, the foundation and its disqualified persons, within the meaning of section 4946(a), have at all times owned 100% of the outstanding stock of *M*, a profit-making corporation. During this period of time, the number of shares of *M* stock actually owned by the foundation and the percentage interest of *M* represented by such shares have remained unchanged. *M* has been engaged primarily in the business of leasing real property to *N*, also a profit-making corporation, since May 26, 1969.

N is also a disqualified person with respect to the foundation.

In each of its taxable years prior to 1985, 95 percent or more of *M*'s income consisted of rents from real property as described in section 512(b)(3) of the Code, and during such years *M* was excepted from classification as a "business enterprise" by reason of section 4943(d)(3)(B) of the Code. In 1985, less than 95 percent of *M*'s gross income was derived from real property rentals. The remainder of *M*'s gross income was derived from the leasing of tangible personal property, consisting of commercial and industrial equipment, to unrelated third parties.

Accordingly, in 1985, *M* was no longer excluded from classification as a business enterprise for purposes of section 4943 of the Code. Therefore, the foundation's stock ownership in *M* became an excess business holding subject to tax under section 4943. In order not to be liable for such tax, the foundation proposes to sell all its stock to *N* for an amount equal to its fair market value in a transaction that will not constitute a prohibited transaction within the meaning of section 503(b).

LAW AND ANALYSIS

Section 4941 of the Code imposes a tax on each act of self-dealing between a disqualified person and a private foundation.

Section 4941(d)(1)(A) of the Code defines the term "self-dealing" to include any direct or indirect sale or exchange of property between a private foundation and a disqualified person.

Section 4943(a)(1) of the Code provides for a tax on the excess business holdings of a private foundation equal to 5 percent of the value of such holdings.

Section 4943(c)(1) of the Code provides that the term "excess business holdings" means the amount of stock or other interest in a business enterprise that the foundation would have to dispose of to a person other than a disqualified person for its remaining holdings to be "permitted holdings."

Section 4943(d)(3) of the Code provides that the term "business enterprise" does not include a trade or business at least 95 percent of the gross income of which is derived from "passive sources." Gross income from passive sources includes items excluded by section 512(b)(3).

Section 512(b)(3) of the Code excludes from the definition of the term "unrelated business taxable income" rents from real property. Section 512(b)(3) does not exclude rents from personal property unless leased with and incidental to real property such that less than 50 percent of the total rent is attributable to the personal property.

Section 101(l)(2)(B) of the Tax Reform Act of 1969, P.L. 91-172, 1969-3 C.B. 35, and section 53.4941(d)-4(b)(1) of the regulations provide that section 4941 of the code shall not apply to the sale, exchange, or other disposition of property owned by a private foundation on May 26, 1969, to a disqualified person if the private foundation is required to dispose of such property in order not to be liable for the excess business holdings tax under section 4943 and if the private foundation receives in return an amount which equals or exceeds the fair market value of the property in a transaction that is not a prohibited transaction within the meaning of section 503(b).

Section 53.4941(d)-4(b)(1) of the regulations provides that the determination of whether a private foundation is required to dispose of property in order not to be liable for tax under section 4943 of the Code is to be made without regard to section 4943(c)(2)(C) (relating to the 2 percent *de minimis* rule) and as if every disposition by the foundation were made to a disqualified person.

But for the exception of section 101(l)(2)(B) of the Tax Reform Act of 1969 and section 53.4941(d)-4(b)(1) of the regulations, a sale by the foundation to *N* would constitute self-dealing within the meaning of section 4941(d)(1)(A) of the Code since it would be a direct sale of property by a private foundation to a disqualified person.

The foundation's stock in *M* is clearly property owned by a private foundation on May 26, 1969. Such stock has been owned by the foundation at all times since May 26, 1969, and will be owned until its proposed sale to *N*. Moreover, the proposed disposition is being made in order to avoid liability for tax under section 4943, and the foundation is receiving in return an amount that is not less than the fair market value of the *M* stock being sold to *N*. Thus, the basic requirements for application of section 101(l)(2)(B) of the Tax Reform Act and section 53.4941(d)-4(b)(1) of the regulations appear to be present.

Under these circumstances, the issue is whether, for purposes of the exception to self-dealing provided by section 101(l)(2)(B) of the Tax Reform Act of 1969 and section 53.4941(d)-4(b)(1) of the regulations, the stock owned by the foundation on May 26, 1969, must have been in an entity that, as of such date, constituted a "business enterprise" within the meaning of section 4943(d)(3) of the Code. Sections 101(l)(2)(B) and 53.4941(d)-4(b)(1) do not specifically require that the property owned by a private foundation on May 26, 1969, must have been a holding in a "business enterprise" on that date. These provisions only require that the "property" being disposed of must have been held by a private foundation on May 26, 1969, and must be sold or otherwise disposed of in order not to be liable for tax under section 4943.

Therefore, in this case, the proposed sale of stock by the foundation to *N*, is disqualified person, would be excepted from the provisions of section 4941 of the Code and the disqualified person would not be subject to the self-dealing tax imposed by section 4941.

Since the holdings of the private foundation and its disqualified persons are aggregated in determining the private foundation's excess business holdings position, if any portion of the holdings is sold to its disqualified persons, it would remain in an excess business holdings position for purposes of section 53.4941(d)-4(b)(1) of the regulations until the last scintilla of such holdings is sold. Therefore, the entire holdings of the private foundation in *M* are treated as excess business holdings and may be disposed of under the exception to self-dealing under section 4941 of the Code provided under section 53.4941(d)-4(b)(1). See also Rev. Rul. 75-25, 1975-1 C.B. 359.

HOLDING

Under the circumstances described above, the sale to a disqualified person of stock owned by a private foundation continuously since May 26, 1969, but not constituting an interest in a business enterprise as of such date, is excepted under section 53.4941(d)-4(b)(1) of the regulations from the prohibition against self-dealing under section 4941 of the Code, if the disposition is made in order to avoid the presence of excess business holdings under section 4943.

Section 4943.—Taxes on Excess Business Holdings

26 CFR 53.4943-1: General rule; purpose.

Whether the sale to a disqualified person of stock owned by a private foundation continuously since May 26, 1969, but not constituting excess business holdings under section 4943 of the Code on that date, is excepted from the prohibition against self-dealing under section 4941, if the sale is made to avoid the presence of excess business holdings under section 4943. See Rev. Rul. 86-53, page 43.

Section 6107.—Income Tax Return Preparer Must Furnish Copy of Return to Taxpayer and Must Retain a Copy or List

26 CFR 1.6107-1: Income tax return preparer must furnish copy of return to taxpayer and must retain a copy or list.

Whether a person in a business other than tax return preparation who fills out or reviews income tax returns for its customers may be subject to the penalties imposed under section 6107 of the Code. See Rev. Rul. 86-55, page 47.

Section 6109.—Identifying Numbers

26 CFR 1.6109-2: Furnishing identifying number of income tax return preparer.

Whether a person in a business other than tax return preparation who fills out or reviews income tax returns for its customers may be subject to the penalties imposed under section 6109 of the Code. See Rev. Rul. 86-55, page 47.

Section 6166.—Extension of Time for Payment of Estate Tax Where Estate Consists Largely of Interest in Closely Held Business

26 CFR 20.6166-1: Election of alternate extension of time for payment of estate tax where estate consists largely of interest in closely held business.

(Also Section 303, 1.303-2.)

Installment method; closely-held business; stock redemption. An explanation is provided of the application of sections 303 and 6166 of the Code when shares of stock are redeemed and an election to pay the estate tax in installments is made. Rev. Rul. 72-188 modified.

Rev. Rul. 86-54

ISSUE

In the situation described below, do the redemptions of stock that qualify under section 303 of the Internal Revenue Code constitute distributions or withdrawals for purposes of the acceleration rule of section 6166(g)? Specifically, is section 6166(g)(1)(B), which excludes certain section 303 redemptions from the application of the acceleration rule, to be applied on a "redemption-by-redemption" basis (under which the amount of each section 303 redemption must not exceed the amount of federal estate taxes paid during the "permitted period") or on a "cumulative" basis (under which the total cumulative amount of the current redemption and all prior section 303 redemptions must not exceed the total cumulative amount of all federal estate taxes paid on or before the close of the "permitted period")?

FACTS

D, a citizen of the United States, died in April 1977. Under the terms of *D*'s will, the executors are required to pay the taxes and expenses described in section 303(a) of the Code. A Federal Estate Tax Return, Form 706, was timely filed on January 12, 1978. *D*'s gross estate included an interest in *X* corporation that comprised more than 65% of the adjusted gross estate. Under the then-applicable version of section 6166(a), the interest in *X* qualified as a closely held business interest. Pursuant to section 6166, *D*'s executors elected to pay $1,480*x* of the federal estate tax liability in installments, using the 5-year deferral permitted by section 6166(a)(3). The first installment payment became due on January 12, 1983.

D's executors filed the federal estate tax return and paid nondeferred estate tax of $460*x* on January 12, 1978, when the federal estate tax return was filed. On February 11, 1980, the estate paid state death tax of $320*x*. Beginning on January 12, 1979, and continuing throughout the deferral period, the estate made payments of interest in varying amounts with respect to the deferred federal estate tax. The estate made installment payments of deferred tax beginning on January 12, 1983.

X made a series of redemptions of stock from *D*'s estate as set forth below. Each of the redemptions qualified for treatment as a distribution in full payment in exchange for the stock so redeemed under section 303(a) of the Code.

The series of section 303 redemptions and tax payments are as follows:

Redemption		*Cumulative*	*Payments*			*Cumulative Federal*
Date	*Amount*	*Redemptions*	*Date*	*Nature of Payment*	*Amount*	*Estate Tax Payments*
			1/12/78	Federal Tax	$460x	$460x
1) 1/14/78	$460x	$ 460x	1/12/79	Interest	$ 8x	$468x
		$ 460x	1/12/80	Interest	$ 10x	$478x
2) 2/11/80	$320x	$ 780x	2/11/80	State Tax	$320x	$478x
		$ 780x	1/12/81	Interest	$ 16x	$494x
3) 1/12/82	$ 26x	$ 806x	1/12/82	Interest	$ 28x	$522x
4) 1/12/83	$150x	$ 956x	1/12/83	Installment	$150x	$672x
5) 1/11/84	$150x	$1106x	1/12/84	Installment	$150x	$822x
6) 1/11/85	$150x	$1256x	1/12/85	Installment	$150x	$972

LAW AND ANALYSIS

The Tax Reform Act of 1976, section 2004(a), 1976-3 (Vol. 1) C.B. 1, 338, enacted section 6166 of the Code effective for estates of decedents dying after 1976.

Section 6166(a)(1) of the Code provides that, if the value of an interest is a closely held business that is included in determining the gross estate of a decedent who was (at the date of his death) a citizen or resident of the United States exceeds 35 percent of the adjusted gross estate (65 percent for decedents dying before January 1, 1982), then the executor may elect to pay part or all of the estate tax in 2 or more (but not exceeding 10) equal installments. Generally, under section 6166(a)(2), only the amount of estate tax attributable to the value of the closely held business interest may be paid in installments.

For estates of decedents dying after December 31, 1981, section 6166(g)(1)(A) of the Code (the acceleration rule) provides that the privilege of paying the estate tax in installments ceases and the unpaid tax becomes due immediately, if the sum of (i) the amount of the decedent's closely held business interest that is distributed, sold, exchanged, or otherwise disposed of, and (ii) the amount of withdrawals from the trade or business, exceeds 50 percent of the value of the decedent's interest in the business. For estates of decedents dying on or before December 31, 1981, and after December 31, 1976, the installment privilege ceases to apply if (i) one-third or more in value of the decedent's closely held business interest is distributed, sold, exchanged, or otherwise disposed of, or (ii) the aggregate withdrawals of money and other property from the closely-held business with respect to the decedent's interest, equal or exceed one-third of the value of such trade or business.

Section 6166(g)(1)(B) of the Code, as in effect for estates of decedents dying after 1976 and before 1982, provided:

> (B) In the case of a distribution in redemption of stock to which section 303 (or so much of section 304 as relates to section 303) applies—
>
> > (i) [the acceleration of payment provision for dispositions] does not apply with respect to the stock redeemed; and for purposes of such subparagraph the interest in the closely held business shall be considered to be such interest re-

duced by the value of the stock redeemed, and

(ii) [the acceleration of payment provision for withdrawals] does not apply with respect to withdrawals of money and other property distributed; and for purposes of such subparagraph the value of the trade or business shall be considered to be such value reduced by the amount of money and other property distributed.

This subparagraph shall apply only if, on or before the date prescribed by section 6166(a)(3) for the payment of the first installment which becomes due after the date of the distribution (or, if earlier, on or before the day which is 1 year after the date of the distribution), there is paid an amount of the tax imposed by section 2001 not less than the amount of money and other property distributed.

The general rule under section 6166(g)(1)(A) of the Code is that the decedent's estate may continue paying the estate tax in installments if the aggregate of dispositions and withdrawals does not exceed a specified portion of the value of the decedent's closely held interest. If the aggregate of dispositions and withdrawals exceeds the limitation of section 6166(g)(1)(A), the unpaid tax is "accelerated" and becomes payable. However, section 6166(g)(1)(B) provides a limited exception to this acceleration rule for certain qualifying section 303 redemptions of stock. This exception only applies if by the date of the first installment payment of tax due after the distribution or, if earlier, one year from the date of the distribution, a payment of the estate tax is made that is at least equal to the total amount of money and other property distributed in the section 303 redemption. Payment of interest on the estate tax qualifies as a payment of estate tax for purposes of section 6166. *See* sections 6601(e)(1) and 6601(j). A state death tax payment that is creditable against the federal estate tax is not equivalent to the payment of federal estate tax for purposes of section 6166(g). *See* Rev. Rul. 85-43, 1985-1 C.B. 356.

The matching of the redemption amounts with the estate tax payments as required by section 6166(g)(1)(B) of the Code is discussed in Rev. Rul. 72-188, 1972-1 C.B. 383. That ruling adopts a "cumulative" method of applying section 6166(g)(1)(B). The cumulative method requires a comparison of the cumulative estate tax payments with the cumulative section 303 redemptions; only to the extent that cumulative redemptions exceed cumulative estate tax payments is there an amount not within the section 6166(g)(1)(B) exception to the acceleration rules.

An alternative approach to section 6166(g)(1)(B) of the Code is suggested by regulations interpreting language in now repealed section 6166A of the Code that was identical to the flush language in section 6166(g)(1)(B). Section 20.6166A-3(d)(2) of the Estate Tax Regulations provides, in part, that the exclusion for a section 303 redemption does not apply unless *after* the redemption, but on or before the date prescribed for payment of the first installment that becomes due after the redemption, there is paid an amount of estate tax not less than the amount of money or other property distributed. If there is a series of section 303 redemptions, each redemption is treated separately, and the failure of one redemption to qualify does not necessarily mean that another redemption does not qualify. This method can be characterized as a "redemption-by-redemption" approach.

Thus, under the section 6166A regulations a section 303 redemption qualifies for the exclusion from the acceleration rule if after the redemption and within the permitted period there is paid estate tax not less than the amount of the section 303 redemption. These regulations state that each redemption in a series of redemptions is to be treated separately. Because of the identity of the flush language in section 6166(g)(1)(B) of the Code and former section 6166A(g)(1)(B), the rule in section 20.6166A-3(d)(2) of the regulations is relevant to section 6166 as well as to former section 6166A.

Neither the redemption-by-redemption approach nor the cumulative approach is totally satisfactory to achieve the primary purpose of section 6166 of the Code making it possible to keep together a business enterprise after the death of one of the owners results in the imposition of estate tax. H.R. Rep. No. 2198, 85th Cong., 2d Sess. 7 (1958), 1959-2 C.B. 709, 713. Congress extended the period during which section 303 redemptions are permitted, in order to more closely correlate the rules of section 303 and section 6166 to allow the corporation to use earnings generated throughout the installment payment period for stock redemptions to pay the deferred federal estate tax. H.R. Rep. No. 94-1380, 94th Cong., 2d Sess. 34 (1976) 1976-3 (Vol. 3) C.B. 735, 769-770. Reliance solely on the cumulative method in applying section 6166(g)(1)(B) can produce a result inconsistent with the extension of the period for making redemptions under section 303. A redemption that qualifies under section 303 but does not satisfy the cumulative method may preclude applicability of section 6166(g)(1)(B) to later redemptions, even though such succeeding redemption is followed within the permitted period by the payment of federal estate tax not less than the amount of the redemption. Similarly, in the case of redemptions made on or before the fourth anniversary of the decedent's death, exclusive reliance on the redemption-by-redemption approach can cause acceleration of the deferred tax if nondeferred estate tax payments are made before any section 303 redemptions. In such a situation, one or more of the redemptions might exceed the amount of estate tax paid within the permitted period with the result that the redemption or redemptions in excess of estate tax paid within the permitted period would not be within the section 6166(g)(1)(B) exclusion and would count against the limitation of section 6166(g)(1)(A).

The Internal Revenue Service has reconsidered Rev. Rul. 72-188 and, in light of the Congressional intent behind sections 303 and 6166 of the Code, will permit the cumulative approach and the redemption-by-redemption approach to be used interchangeably. Estates, therefore, may qualify for the exclusion under section 6166(g)(1)(B) if a section 303 redemption (or each of a series of redemptions) qualifies under either approach.

HOLDING

The exclusion in section 6166(g)(1)(B) of the Code applies to a section 303 redemption (the redemption) if (1) the cumulative amount of section 303 redemptions, as of the date of the redemption, is less than or equal to the total amount of estate tax payments as of the due date of the following estate tax payment (or, if earlier, the date which is 1 year after the distribution pursuant to the redemption), or (2) the amount of the redemption is less than or equal to the amount of the estate tax payments made within the permitted period.

Thus, in the situation described above, all of the redemptions of stock under section 303 of the Code are entitled to the exclusion from treatment as a distribution or withdrawal provided by section 6166(g)(1)(B) except that with regard to redemption 2) (the $320x redemption made on 2/11/80), only $34x (the sum of the 1/12/79, 1/12/80, and 1/12/81 interest payments, which are all made on or before the close of the permitted period) is entitled to the exclusion. Redemption 1) qualifies under the cumulative method, redemption 2) qualifies, in part, under the cumulative method, and redemptions 3)-6) qualify under the redemption-by-redemption method.

Because the relevant parts of the acceleration rules have not been amended, this holding applies to all versions of section 6166 and 6166A since the original enactment in 1958.

EFFECT ON OTHER RULINGS

Rev. Rul. 72-188 is modified.

Section 6694.—Understatement of Taxpayer's Liability by Income Tax Return Preparer

26 CFR 1.6694-1: Understatement of taxpayer's liability by income tax return preparer.

Whether a person in a business other than tax return preparation who fills out or reviews income tax returns for its customers may be subject to the penalties imposed under section 6694 of the Code. See Rev. Rul. 86-55, this page.

Section 6695.—Other Assessable Penalties with Respect to the Preparation of Income Tax Returns

26 CFR 1.6695-1: Other assessable penalties with respect to the preparation of income tax returns.

Whether a person in a business other than tax return preparation who fills out or reviews income tax returns for its customers may be subject to the penalties imposed under section 6695 of the Code. See Rev. Rul. 86-55, this page.

Section 7216.—Disclosure or Use of Information by Preparers of Income Tax Returns

26 CFR 301.7216-1: Penalty for disclosure or use of information by preparers of income tax returns.

Whether a person in a business other than tax return preparation who fills out or reviews income tax returns for its customers may be subject to the criminal penalties imposed under section 7216 of the Code. See Rev. Rul. 86-55, below.

Section 7701.—Definitions

26 CFR 301.7701-15: Income tax return preparer.
(Also Sections 6107, 6109, 6694, 6695, 7216; 1.6107-1, 1.6109-2, 1.6694-1, 1.6695-1, 301.7216-1.)

Return preparers; potential penalties; invalid assignment of refund checks. A person in a business other than tax return preparation who fills out or reviews income tax returns for its customers may be an income tax return preparer under section 7701(a)(36) of the Code and subject to potential penalties. The assignment of the customers' refund checks before the returns are processed by the Service is not a valid assignment and the Service may mail the checks directly to the taxpayers.

Rev. Rul. 86-55

ISSUE 1

In the situations described below, if a person in a business other than tax return preparation fills out or reviews income tax returns for the person's customers without charging a separate fee, is the person an income tax return preparer under section 7701(a)(36) of the Internal Revenue Code?

ISSUE 2

If such person is an income tax preparer, then what requirements and potential penalties apply to that person under the Internal Revenue Code?

ISSUE 3

If, under state law, a taxpayer attempts to assign to another person an income tax refund that the taxpayer expects to receive and if the address of that other person is shown on the taxpayer's return as the taxpayer's address, must the Internal Revenue Service send any refund check to that address?

FACTS

Situation 1. X, a used car dealer, advertises that it will fill out and review income tax returns and that any resulting refund will be applied as a down payment on a used car. These services are available to those who purchase a vehicle. *X* or *X*'s employee then either fills out a complete return or reviews a return prepared by the customer for both substantive correctness and mechanical accuracy. *X* does not charge its customers a separate fee for these services. The customer executes a power of attorney authorizing *X* to receive and endorse or negotiate the refund check. The address of *X* is substituted for that of the customer on the return. When *X* receives the customer's refund check, *X* endorses it and applies it as a down payment.

Situation 2. Y is a firm that offers discounted cash payments for tax refunds. *Y* or *Y*'s employee either fills out a complete return or reviews a return prepared by the customer for both substantive correctness and mechanical accuracy. After the return is filled out or reviewed, *Y* pays the customer the amount of the refund requested on the return, less a discount typically equal to 20 to 40 percent of the refund amount requested. As in *situation 1*, the customer executes a power of attorney, and *Y*'s address is substituted on the return for that of the taxpayer. *Y* does not charge a separate fee for its services in filling out or reviewing the return. Upon receipt of the customer's refund check, *Y* endorses the customer's name on the back of the check and deposits it in *Y*'s account.

LAW AND ANALYSIS

ISSUE 1

Section 7701(a)(36)(A) of the Code defines an income tax return preparer as any person who prepares any return of tax, or any claim for refund of tax, imposed by subtitle A, for compensation, or any person who employs one or more persons to prepare such returns or claims for refund for compensation.

Section 301.7701-15(a) of the Regulations on Procedure and Administration provides the general rule that an income tax return preparer is any person who prepares for compensation, or who employs (or engages) one or more persons to prepare for compensation, other than for the person, all or a substantial portion of any return of tax under subtitle A of the Code or any claim for refund of tax under subtitle A.

Section 301.7701-15(a)(4) of the regulations provides that a person must prepare a return or claim for refund for compensation to be an income tax return preparer. A person who prepares a return or claim for refund for a taxpayer with no explicit or implicit statement for compensation is not a preparer.

In *Papermaster v. United States*, No. 79-C-710 (E.D. Wis., Apr. 21, 1980), *aff'd by unpublished order*, No. 80-1612 (7th Cir., June 25, 1982), an individual who was both an attorney and an accountant prepared a taxpayer's individual income tax return. He also prepared a return for a corporation in which the taxpayer was a shareholder. The attorney/accountant received compensation for preparing the corporation return, but was not separately compensated for preparing the taxpayer's individual return. The court held that he was an income tax return preparer under section 7701(a)(36) of the Code with respect to taxpayer's individual return. The court reasoned that he was offering the businessman a "package deal" for preparing the individual return; his compensation was included in the compensation for the corporate return.

In both *situations 1* and *2*, *X* and *Y* either fill out the entire return or review information on returns prepared by others. That action is preparation of the return for purposes of section 7701(a)(36) of the Code. *See* Rev. Rul. 84-3, 1984-1 C.B. 264.

In *situation 1*, although *X* does not charge the customers a separate fee for the preparation of their returns, *X* is offering its customers a "package deal." *X*'s compensation is included in the price of the cars required to be purchased by the customers. Similarly, in *situation 2*, *Y*'s compensation for filling out or reviewing the return is a part of, or is incident to, the various discount charges (ranging from 20 to 40 percent) that *Y* charges its customers for their refund checks.

ISSUE 2

Sections 6694(a) and 6694(b) of the Code provide that any person who is an income tax return preparer with respect to a return or claim for refund may be subject to a penalty if any part of an understatement of liability with respect to that return or claim is due to a negligent or intentional disregard of rules or regulations by that preparer, or if the understatement is due to a willful attempt by that preparer to understate the liability.

Under section 6107(a) of the Code, an income tax return preparer has an obligation to furnish a completed copy of the return to the taxpayer and may be penalized under section 6695(a) for failure to do so. Under section 6107(b), an income tax return preparer has an obligation to retain a copy of the return or a list of taxpayers for whom returns have been prepared and may be penalized under section 6695(d) for failure to do so. When one preparer employs or engages another, the responsibility for these acts falls on the employer. *See* section 1.6107-1(c)(1) of the Income Tax Regulations.

Section 6695(b) of the Code imposes an obligation to sign the return and imposes a penalty for failure to do so. Under section 1.6695-1(b)(2) of the regulations, this obligation falls on the individual preparer with primary responsibility for the overall substantive accuracy of the return.

Section 6109(a)(4) of the Code provides that any return or claim for refund prepared by an income tax return preparer shall bear such identifying number for securing proper identification of such preparer, such preparer's employer, or both, as may be prescribed.

Section 1.6109-2(a) of the regulations requires that a return prepared by an income tax return preparer shall bear the identifying number of the preparer required to sign the return or claim for refund. In addition, if there is a partnership or employment arrangement between two or more preparers the identifying number of the partnership or the person who employs (or engages) one or more other persons to prepare for compensation the return or claim for refund shall also appear on the return or claim for refund. In general, if the preparer is an individual, the preparer's social security number shall be affixed, but if the preparer is a person (whether an individual, corporation, or partnership) that employs (or engages) one or more persons to prepare the return or claim for refund, the preparer's employer identification number shall generally be used. Special rules apply to preparers that are not citizens or residents of the United States.

Under sections 6060 of the Code and 1.6060-1 of the regulations, any person who employs an income tax return preparer to prepare a return or claim for refund other than for that employer must retain a record concerning each preparer so employed and may be penalized under section 6695(e) for failure to do so.

Section 6695(f) of the Code imposes a penalty of $500 on income tax return preparers who endorse or otherwise negotiate refund checks that are issued to taxpayers. There is no reasonable cause exception.

Section 7216 of the Code imposes a criminal penalty for unlawful disclosure or use of return information by persons who prepare or provide services in connection with the preparation of returns.

ISSUE 3

Although *X* and *Y* require their customers to execute powers of attorney authorizing them to receive and endorse or negotiate the refund checks, in both *situation 1* and *situation 2* the assignment of the taxpayers' claims is not valid against the United States. The Anti-Assignment Act, 31 U.S.C. section 3727 (1982), nullifies assignments made *before* a claim is allowed by the Government, the correct amount of the payment is decided, and a warrant (refund check) for payment of the claim has been issued. A purpose of the statute is to protect the Government from having to deal with multiple persons with respect to a claim, in this case a preparer and the preparer's customers. *Patterson v. United States*, 354 F.2d 327 (Ct. Cl. 1965). The statute has been held to be specifically applicable to refunds of overpayments of taxes. *See Wooton v. United States*, 86 F. Supp. 143 (Ct. Cl.1960), *cert. denied*, 339 U.S. 903 (1960); *New York v. Hanley Milling Co.*, 41 F. Supp. 844 (N.D. Ohio, 1941), *aff'd*, 123 F.2d 819 (6th Cir. 1941). The assignment is therefore not valid against the United States. Accordingly, if the Internal Revenue Service determines that the address shown on the return is not the taxpayer's address, any refund checks may be mailed directly to the taxpayer and not to the preparer.

HOLDINGS

ISSUE 1

X and *Y* are income tax return preparers with respect to their customers' income tax returns.

ISSUE 2

As income tax return preparers, *X* and *Y* are subject to the various requirements and potential penalties applicable to preparers, as previously set forth in this ruling. *X* and *Y* are potentially subject to penalties under sections 6694(a) or 6695(b) of the Code if any part of an understatement of liability on a customer's return is due to a negligent or intentional disregard of rules or regulations by the preparer, or if the understatement is due to the preparer's attempt to willfully understate the liability.

X and *Y* are required to furnish copies of the returns to the customers and retain a list of taxpayers for whom returns have been prepared. They may be subject to penalties under sections 6695(a) or 6695(d) of the Code for failure to do so.

The individual preparer with primary responsibility for the overall substantive accuracy of the customer's return is required to sign the return as preparer and is subject to the penalty under section 6695(b) of the Code for failure to do so. *X* and *Y* are required to furnish their identifying numbers on the customers' returns and they may be subject to the penalty under section 6695(c) for failure to do so.

Under section 6060 of the Code, *X* and *Y* must keep records of all persons in their employ that meet the definition of income tax return preparer, and *X* and *Y* are subject to the penalty under section 6695(e) of the Code for failure to do so.

X and *Y* are subject to the penalty under section 6695(f) of the Code when they endorse or otherwise negotiate a customer's refund check.

X and *Y* may be subject to the criminal penalty under section 7216 of the Code if they make unlawful disclosure or use of return information.

ISSUE 3

The assignment of the customers' refund checks before the returns are processed by the Internal Revenue Service is not a valid assignment against the United States. Accordingly, the Service need not mail the checks to the preparers and may mail them directly to the taxpayers in question.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.204: Change in accounting periods and methods of accounting.
(Also Part I, Section 162, 404, 463; 1.162-10.)

Rev. Proc. 86-20

SECTION I. PURPOSE

The purpose of this revenue procedure is to declare that Rev. Proc. 82-32, 1982-1 C.B. 486 is obsolete. Rev. Proc. 82-32 sets forth a procedure for taxpayers that employ the accrual method as their overall method of accounting to obtain expeditious consent to change their method of accounting for deducting vacation pay attributable to fully vested plans.

SEC. 2. BACKGROUND

.01 Section 162(a) of the Internal Revenue Code allows as a deduction all the ordinary and necessary expenses paid or incurred during the tax year in carrying on any trade or business. Section 1.162-10 of the Income Tax Regulations provides that if amounts paid or accrued within the tax year for vacations or a sickness or similar employee benefit plan are ordinary and necessary expenses of the trade or business, they are deductible under section 162(a) unless the plans provide benefits under a deferred compensation plan of the type referred to in section 404 of the Code.

.02 Rev. Proc. 82-32 applies to taxpayers whose vacation benefit plan expenses are deductible under section 162(a) of the Code. In particular, Rev. Proc. 82-32 applies to taxpayers that: (1) employ an accrual method as their overall method of accounting; (2) provide paid vacations for their employees in accordance with fully vested vacation pay plans; (3) pay the amount accrued no later than the close of the tax year succeeding the year of accrual; and (4) desire to change their method of accounting for vacation pay from deducting the vacation pay for the year in which it is paid to deducting the vacation pay for the year in which it becomes fully vested and accrues.

.03 Section 512 of the Tax Reform Act of 1984, 1984-3 (Vol. 1) C.B. 370, amended section 404(b) of the Code to clarify that any plan, method, or arrangement providing deferred benefits (including deferred vacation pay) is a plan, method or arrangement deferring the receipt of compensation. The amendment is effective for amounts paid or incurred for deferred compensation arrangements after July 18, 1984, except for certain extended vacation pay plans in effect on June 22, 1984. Under section 404(b), section 404 does not apply to any vacation benefit to which an election applies under section 463. Thus, in general, unless one of the above exceptions applies, deferred vacation benefits are considered provided under a deferred compensation plan under section 404 of the Code irrespective of whether the taxpayer employs the accrual or the cash method of accounting. Under section 1.404(b)-1T Q&A-2 of the Temporary Income Tax Regulations under the Tax Reform Act of 1984, if vacation benefits are paid on or before the 15th day of the 3rd calendar month after the end of the employer's tax year in which significant services required for payment are performed, the benefits generally are not treated as provided under a deferred compensation plan. Rather, in the case of a taxpayer that uses the accrual method of accounting for vacation pay, the benefits are deductible under section 162(a) of the Code for the tax year preceding payment, if they are otherwise accruable in that year. A taxpayer employing the cash method for vacation pay must deduct its vacation benefits in its tax year of payment.

.04 Section 463 of the Code provides that an accrual basis taxpayer may elect, without the consent of the Commissioner of Internal Revenue, to deduct certain amounts with respect to vacation pay that would not otherwise be deductible.

SEC. 3. INQUIRIES

Inquiries regarding this revenue procedure may be addressed to the Commissioner of Internal Revenue, Attention CC:C:C:1, 1111 Constitution Avenue, N.W., Washington, D.C., 20224.

SEC. 4. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 82-32 is obsolete.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

International Aspects of Section 338

LR-35-84

SUMMARY: * * * [T]he Internal Revenue Service is issuing temporary regulations that add a new §1.338-5T, relating to international aspects of section 338, and that amend existing temporary regulations §§1.338-1T, 1.338-4T, and 1.338(h)(10)-1T. Section 1.338-1T contains procedural rules and §1.338-4T provides guidance on miscellaneous substantive matters under section 338, primarily in the domestic context. Section 1.338(h)(10)-1T provides guidance on the operation of section 338(h)(10). Subject to the modifications specifically identified in this document, the text of new §1.338-5T and of the amendments to §§1.338-1T, 1.338-4T, and 1.338(h)(10)-1T also serves as the comment document for this notice of proposed rulemaking.

DATES:

PROPOSED EFFECTIVE DATE

The regulations are proposed to apply generally to stock acquisitions made after August 31, 1982. The regular exclusion election permitted by the temporary regulations that serve as the comment document for this notice of proposed rulemaking would be eliminated for stock acquisitions that occur subsequent to the date of publication of the final regulations (and that do not occur pursuant to a binding contract in effect on or before that date).

DATE FOR COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Written comments and requests for a public hearing must be delivered or mailed by April 14, 1986.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-35-84), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Keith E. Stanley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3458, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

Temporary regulations published * * * [on page 4, this Bulletin] add new temporary regulations §1.338-5T to Part 1 of Title 26 of the Code of Federal Regulations ("CFR") and amend temporary regulations §§1.338-1T, 1.338-4T, and 1.338(h)(10)-1T. The new temporary regulations also amend the table of OMB control numbers in Part 602 of Title 26 of the CFR to reflect the OMB control number assigned to §1.338-5T.

Section 1.338-1T was published as T.D. 7942 in the FEDERAL REGISTER on February 8, 1984 (49 FR 4722) [1984-1 C.B. 93], and was amended and redesignated (as §1.338-1T) by temporary regulations published as T.D. 7975 in the FEDERAL REGISTER on September 6, 1984 (49 FR 35086) [1984-2 C.B. 81]. Section 1.338-1T also was amended by temporary regulations published as T.D. 8021 in the FEDERAL REGISTER on April 25, 1985 (50 FR 16402) [1985-1 C.B. 96]. The temporary regulations published on April 25, 1985, also added §1.338-4T. Sections 1.338-1T and 1.338-4T were amended by temporary regulations published as T.D. 8068 in the FEDERAL REGISTER on January 8, 1986 [1986-8 I.R.B. 9], and by temporary regulations published as T.D. 8072 in the FEDERAL REGISTER on January 29, 1986 [1986-11 I.R.B. 7]. The temporary regulations published on January 8, 1986 also added §1.338(h)(10)-1T.

The final regulations are proposed to be based on the new and amended temporary regulations with certain modifications specifically identified herein. They would be added to Part 1 of Title 26 of the CFR. Those final regulations would provide guidance primarily on international aspects of section 338 of the Code, as added by section 224 of the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. No. 97-248; 96 Stat. 485) [1982-2 C.B. 462, 501] and as amended by section 306(a)(8) of the Technical Corrections Act of 1982 (Pub. L. No. 97-448; 96 Stat. 2402) [1983-1 C.B. 451, 470] and section 712(k) of the Tax Reform Act of 1984 (Pub. L. No. 98-369; 98 Stat. 946) [1984-3 C.B. (Vol. 1) 1, 456]. For the text of the new and amended temporary regulations, see T.D. 8074, published * ** [on page 4, this Bulletin]. The preamble to the temporary regulations, as supplemented by this preamble, explains the additions to the regulations.

REGULATION EXCLUSION ELECTION ELIMINATED

It is proposed that the regular exclusion election permitted by §1.338-5T(c)(2) of the temporary regulations published * * * [on page 4, this Bulletin] be eliminated in the final regulations. If this position is adopted in the final regulations, the regular exclusion election will not be available if (1) the acquisition date of the actual original target (as opposed to a deemed original target under §1.338-5T(c)(2)(iv)) occurs subsequent to the date of publication of the final regulations and (2) that acquisition does not occur pursuant to a binding contract in effect on or before that date.

The regular exclusion election under the temporary regulations permits the purchasing corporation to elect, in certain cases, to exclude all foreign corporations (other than foreign corporations treated as domestic corporations under those regulations) from the status of target affiliates for purposes of the stock consistency rule of section 338(f)(1). As a result, such corporations are not subject to a deemed election under section 338(f)(1) when an express election is made for the original target. The preamble to the temporary regulations contains a detailed explanation of the regular exclusion election and of the ancillary consequences of such an election. The temporary regulations provide for a similar exclusion election ("transitional exclusion election") during a transitional period. See §1.338-5T(j). (The provisions of the temporary regulations relating to the transitional exclusion election would be retained in the final regulations.)

The regular exclusion election is a response to the asserted hardship of imposing full stock consistency in the foreign context. It has been claimed, for example, that full stock consistency would create difficult valuation problems, since a valuation of all of the assets of all foreign subsidiaries subject to deemed elections under section 338(f)(1) would be required. It also has been claimed that full stock consistency would exacerbate the mismatch between asset basis as recognized by the Untied States and asset basis as recognized by the foreign taxing jurisdiction, since new foreign target's assets generally would have a stepped-up basis for United States tax purposes as a result of the section 338 election but a carryover basis for foreign tax purposes. (Even if the foreign target is not required to file a United States income tax return, the basis adjustment nevertheless is significant for purposes of calculating that target's earnings and profits in the event of actual or deemed distributions to U.S. persons).

It is not clear, however, that full stock consistency would cause a significant hardship. The assets of foreign subsidiaries presumably would be valued for general accounting purposes in any case. As for the mismatch in asset basis, such a mismatch is not unique to section 338 and in some cases actually may be beneficial to taxpayers. (Increased depreciation deductions by new foreign target as a result of an asset basis step-up would decrease its earnings and profits and correspondingly increase the effective rate of foreign tax on its earnings and profits as calculated for U.S. tax purposes.)

Although the application of section 338 to the foreign branch of a domestic target corporation creates problems similar to those encountered by applying section 338 to a foreign subsidiary, the statute does not contemplate an exclusion of foreign branch operations from section 338 consequences. Thus, the regular exclusion election would result in differing tax consequences depending upon whether a U.S. corporation operated abroad through a foreign subsidiary or through a foreign branch. As a matter of general policy, it is believed that tax considerations should be a neutral factor in determinations regarding the form of foreign operations. See, *e.g.*, the deemed paid foreign tax credit under section 902. The regular exclusion election conflicts with that general policy.

The regular exclusion election also conflicts with the general policy of the consistency rules by permitting the purchasing corporation to exclude all foreign corporations from an express election.

The regular exclusion election adds significantly to the complexity of the temporary regulations. The complexity is necessary in order to preserve appropriate section 1248 consequences and to ensure the proper operation of the consistency rules. See §1.338-5T(c)(2)(iii)(B) and (c)(3)) (provisions related to the consistency rules).

For the foregoing reasons it is proposed that the regular exclusion election be eliminated in the final regulations. Comments on this issue would be particularly helpful.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6). The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis therefore is not required.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER. The collection of information requirements contained herein have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on the requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests person submitting comments to OMB to also send copies of the comments to the Service.

DRAFTING INFORMATION

The principal author of these proposed regulations is Duane H. Pellervo of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

These regulations are proposed to be issued under the authority contained in sections 338 and 7805 of the Internal Revenue Code of 1954 (26 U.S.C. 338 and 7805, respectively).

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on February 6, 1986, 4:57 p.m., and published in the issue of the Federal Register for February 12, 1986, 51 F.R. 5208)

Clarification of Q&A-3 of Temporary Regulations Section 1.419-1T With Regard to the Definition of a "Fund"

Announcement 86-45

On February 4, 1986, proposed and temporary regulations were issued under section 419 of the Internal Revenue Code relating to welfare benefit funds. 51 FR 4312 (1986), 51 FR 4391 (1986). Q&A-3 of section 1.419-1T of the Temporary Income Tax Regulations contains a definition of the term "fund" under section 419 of the Code and deals with certain arrangements between employers and insurance companies. Questions have been raised about the interpretation of paragraph (c) of Q&A-3, particularly with regard to its application to experience-rated arrangements (including premium stabilization reserves that are part of such arrangements). In view of these questions, the Internal Revenue Service will modify paragraph (c) of Q&A-3 of section 1.419-1T of the temporary regulations to clarify its intended scope. This modification will be effective as if it had been included in the temporary regulations published on February 4, 1986.

Paragraph (c) of Q&A-3 of section 1.419-1T of the temporary regulations was intended, and will be modified, to treat as "funds" under section 419(e)(3)(C) only the following classes of arrangements between employers and insurance companies: (i) certain retired lives reserves, (ii) certain "administrative services only" arrangements, and (iii) certain arrangements between employers and insurance companies (including premium stabilization reserves that are part of such arrangements) under which the employer makes deductible contributions and the employer has, on or before the later of the end of the policy year to which such contributions relate or the time such contributions are made, a contractual right under the arrangement to a dividend, refund, credit, or additional benefit based on the benefit or claims experience, administrative cost experience, or investment experience, administrative cost experience, or investment experience attributable solely to such employer. The temporary regulation was not intended to include and, as modified, will not include within the definition of "fund" those arrangements (including premium stabilization reserves that are part of such arrangements) that are not included within any of the above classes.

Future regulations including additional arrangements between employers and insurance companies within the definition of "fund" under section 419(e)(3)(C) of the Code will be applied only on a prospective basis. The Internal Revenue Service continues to invite comments on the proposed regulations issued February 4, 1986, defining a "fund." The proposed regulations will not be modified pursuant to this announcement.

Fringe Benefits—Extension of Time

Announcement 86-46[1]

The Service has announced a further extension of the deadline for employers with more than one line of business to combine lines of business under a provision which enables their employees to exclude certain fringe benefits from gross income. The election applies to certain qualified employee discounts and certain services provided to employees at no extra cost.

The new deadline will be 60 days after publication of revised regulations under section 4977 of the Code. The Service anticipates publication of regulations under section 4977 in the near future. These regulations will provide additional guidance including details on how to make the election.

In News Release IR-85-120, dated Dec. 19, 1985, the Service extended the time for making this election to March 31, 1986.

---

Deletions from Cumulative List of Organizations Contributions to Which Are Deductible Under Section 170 of the Code

Announcement 86-50

The names of organizations that no longer qualify as organizations described in section 170(c)(2) of the Internal Revenue Code of 1954 are listed below.

Generally, the Service will not disallow deductions for contributions made to a listed organization on or before the date of announcement in the Internal Revenue Bulletin that an organization no longer qualifies. However, the Service is not precluded from disallowing a deduction for any contributions made after an organization ceases to qualify under section 170(c)(2) if the organization has not timely filed a suit for declaratory judgment under section 7428 and if the contributor (1) had knowledge of the revocation of the ruling or determination letter, (2) was aware that such revocation was imminent, or (3) was in part responsibile for or was aware of the activities or omissions of the organization that brought about this revocation.

If on the other hand a suit for declaratory judgement has been timely filed, contributions from individuals and organizations described in section 170(c)(2) that are otherwise allowable will continue to be deductible. Protection under section 7428(c) would begin on April 14, 1986, (the date of publication of this announcement) and would end on the date the court first determines that the organization is not described in section 170(c)(2) as more particularly set forth in section 7428(c)(1). For individual contributors, the maximum deduction protected is $1,000, with a husband and wife treated as one contributor. This benefit is not extended to any individual who was responsible, in whole or in part, for the acts or omissions of the organization that were the basis for revocation.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Robert Allen Beamer	Wauwatosa, WI	Attorney	Indefinite from February 19, 1986
Robert L. Cummings	Springfield, MO	Certified Public Accountant	Indefinite from February 27, 1986
Louis Crown	Bayside, NY	Certified Public Accountant	Indefinite from March 14, 1986
David H. Heilman	Council Grove, KS	Attorney	Indefinite from March 14, 1986
Beryl W. Markwell	Elmhurst, IL	Certified Public Accountant	Twenty-four Months from March 20, 1986
Marc Pozner	Tenafly, NJ	Certified Public Accountant	Indefinite from March 14, 1986

Under Section 330, Title 31 of the United States Code (1970 ed.), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before their Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individual has been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
Thomas G. Abernethy, Jr.	Jackson, MS	Attorney	March 7, 1986

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.103-10, amended.	Definition of "principal user"	1986-12 I.R.B. 19	Apr. 22, 1986
26 CFR 1.103-10, revised.	$40 million limitation on beneficiaries of certain tax-exempt bonds	1986-12 I.R.B. 22	Apr. 22, 1986

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

SPECIAL ANNOUNCEMENTS

Announcement 86-49, page 55.

A public hearing will be held on May 21, 1986, on proposed regulations relating to the annuity tables used to compute the portion of the amount received as an annuity that is includible in gross income.

Announcement 86-55, page 56.

The Service invites written comments and suggestions for improving its tax return forms, instructions, and related schedules.

INCOME TAX

Rev. Rul. 86-56, page 4.

LIFO; price indexes; department stores. The January 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, January 31, 1986.

Rev. Rul. 86-57, page 4.

Claims; joint returns; credit against separate tax liability; net operating loss adjustment. A divorced taxpayer is entitled to a refund of tax for the taxpayer's interest in a joint overpayment created by a net operating loss on a former spouse's separately filed return. Rev. Ruls. 75-368 and 80-8 amplified.

Rev. Rul. 86-58, page 7.

Penalties; underpayment; amended return; corporations. In applying the exception to the addition to tax for underpayment of estimated tax, it is the tax shown on the original tax return and not the tax shown on an amended return filed after the due date of the original return that is the basis for the computation. Rev. Rul. 64-138 revoked.

LR-19-80, page 9.

Proposed amendments to the regulations relate to the annuity tables used to compute the portion of the amount received as an annuity that is includible in gross income, and to defined benefit plans.

Announcement 86-48, page 55.

An automatic extension of time to pay the first installment of estimated tax is granted to any U.S. citizen or resident alien individual outside the U.S. and Puerto Rico on April 15, 1986.

Announcement 86-51, page 56.

The temporary regulations under section 338(b) of the Code will be amended to provide a special transitional allocation election relating to the allocation of basis among the assets of a target corporation for stock acquisitions occurring before January 29, 1986, or pursuant to a binding contract entered into on or before that date.

EMPLOYEE PLANS

LR-19-80, page 9.

Proposed amendments to the regulations relate to the annuity tables used to compute the portion of the amount received as an annuity that is includible in gross income, and to defined benefit plans.

ADMINISTRATIVE

Rev. Rul. 86-59, page 6.

Adjusted interest rate; underpayments and overpayments. The adjusted rate of interest on underpayments and overpayments, as determined under section 6621(b) of the Code, will decrease from 10 to 9 percent on July 1, 1986.

Announcement 86-52, page 56.

Form 5330, Return of Excise Taxes Related to Employee Benefit Plans, has been revised to reflect new provisions in the law.

Announcement 86-53, page 56.

Publication 721, Comprehensive Guide to U.S. Civil Service Benefits, has been updated and is now available at most Service offices.

Finding Lists begin on page 60.
Announcement of Disbarments and Suspension begin on page 57.
Announcement of Notice of Proposed Rulemaking on page 59.
Disposition of Declaratory Judgement Proceedings Under Section 7428 on page 56.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 472.—Last-in, First-out Inventories

26 CFR 1.472-1: Last-in, first-out inventories.

LIFO; price indexes; department stores. The January 1986 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, January 31, 1986.

Rev. Rul. 86-56

The following price indexes for January 1986 were issued by the Bureau of Labor Statistics on February 27, 1986 for use by department stores and are accepted by the Internal Revenue Service under section 1.472-1(k) of the Income Tax Regulations and Rev. Proc. 72-21 1972-1 C.B. 745 for appropriate application to inventories of department stores employing the retail inventory and last-in first-out inventory methods for tax years ended on, or with reference to, January 31, 1986.

Indexes are prepared on a national basis for the store total for 20 major groups of departments, and for two special combinations—soft and durable goods. The store total index covers all departments, including some not listed separately, with the following exceptions; candy, foods, liquor, tobacco, paints, and wallpaper, as well as contract departments.

Section 6013.—Joint Returns of Income Tax by Husband and Wife

26 CFR 1.6013-1: Joint returns.

Whether a divorced spouse is entitled to a refund of tax for his/her interest in a joint overpayment attributable to the recomputation of a joint tax liability. See Rev. Rul. 86-57, below.

Section 6402.—Authority to Make Credits or Refunds

26 CFR 301.6402-1: Authority to make credits or refunds.

(Also Sections 6013, 6511; 1.6013-1, 301.6511(a)-1.)

Claims; joint returns; credit against separate tax liability; net operating loss adjustment. A divorced taxpayer

is entitled to a refund of tax for the taxpayer's interest in a joint overpayment created by a net operating loss on a former spouse's separately filed return. Rev. Ruls. 75-368 and 80-8 amplified.

Rev. Rul. 86-57

ISSUE

(1) Is a divorced taxpayer entitled to a refund of tax for the taxpayer's interest in a joint overpayment attributable to the recomputation of a joint tax liability as a result of the carryback of a separate net operating loss of a former spouse to a year in which a joint return was filed?

(2) If so, what is the applicable period of limitations for filing a claim for refund?

FACTS

A and *B*, a married couple residing in a noncommunity property state, filed a joint federal income tax return for calendar year 1981 reporting a tax liability of $3,191. *A* reported $15,000 in taxable income and withholding tax credits of $2,500. *B* reported $5,000 in taxable income and withholding tax credits of $1,000. They received a refund of $309. In 1984 *A* and *B* were divorced. *A* timely filed a separate return for that year claiming a net operating loss of $5,000. No extension was obtained by *A* for filing that return. *A* carried the loss back to 1981 and filed a claim for refund or credit. *B* also filed a claim refund or credit of a portion of the joint overpayment as a result of the recomputation of the joint tax liability. The recomputed liability was $2,034.

LAW AND ANALYSIS

Section 6013 of the Internal Revenue Code provides for the filing of a joint return by a husband and a wife and imposes joint and several liability upon them for the tax computed on their aggregate income.

Section 6402(a) of the Code provides that in the case of an overpayment, the Secretary, within the applicable period of limitations, may credit the amount of the overpayment, including any allowable interest, against any liability in respect of an internal revenue tax on the part of the person who made the overpayment and, subject to certain exceptions, must refund the balance to the person.

Section 6511(a) of the Code provides that a claim for credit or refund of an overpayment of any tax for which the taxpayer is required to file a return must generally be filed by the taxpayer within 3 years from the time the return was filed or 2 years from the time the tax was paid, whichever period expires later, or if no return was filed by the taxpayer, 2 years from the time the tax was paid.

Section 6511(d)(2) of the Code provides a special period of limitations if the claim for credit or refund relates to an overpayment attributable to a net operating loss carryback. In lieu of the 3-year period prescribed in section 6511(a), the period after which a claim may not be filed for the taxable year to which the loss is carried back (the carryback year) is the period ending 3 years after the time prescribed by law for filing the return (including extensions) for the taxable year of the operating loss that results in the carryback (the loss year).

Rev. Rul. 74-611, 1974-2 C.B. 399, holds that when a husband and wife file a joint return each spouse has a separate interest in the jointly reported income and a separate interest in any overpayment.

Rev. Rul. 75-368, 1975-2 C.B. 480, holds that when a net operating loss of an unmarried taxpayer is carried back or carried over to a year in which the taxpayer is married and files a joint return, the net operating loss deduction is carried back or carried over only to reduce the taxpayer's portion of the income shown on the joint return.

Rev. Rul. 80-6, 1980-1 C.B. 296, modifies Rev. Rul. 75-368 by providing that the rules set out in Rev. Rul. 80-7, described below, will be used in calculating the amount of the refund to be paid to the spouse who incurred the net operating loss.

Rev. Rul. 80-7, 1980-1 C.B. 296, provides a formula (the separate tax formula) for determining one spouse's share of a joint tax liability. Under the separate tax formula, a spouse's share is an amount that bears the same ratio to the joint liability as the amount of tax for which the spouse would have been liable if the spouse had filed a separate return bears to the sum of the taxes for which both spouses would have been liable had they filed separately. The ruling also holds that a spouse's share of a joint overpayment is determined by subtracting the spouse's share of the joint liability for the spouse's contribution toward the payment of the joint liability.

In addition, Rev. Rul. 80-7 provides rules for determining each spouse's contribution toward the payment of the joint liability in the absence of agreement or clear evidence as to each spouse's actual contribution. An analogue to the separate tax formula is used to allocate both estimated tax payments and payments with the return. The amount of the overpayment credited or paid to either spouse cannot exceed the amount of the joint overpayment.

Rev. Rul. 80-8, 1980-1 C.B. 298, holds that the Internal Revenue Service will accept a claim for credit or refund filed by a divorced taxpayer with respect to a joint return if the claim form is signed by only one taxpayer and that the Service will issue a refund check in that taxpayer's name alone. The amount of the refund or credit will be computed according to the rules for determining each spouse's share of the joint overpayment set out in Rev. Rul. 80-7.

Rev. Rul. 75-368, as modified by Rev. Rul. 80-6, does not address the question of whether the spouse not suffering the net operating loss is entitled to a refund for a share of the joint overpayment that results when a net operating loss deduction is carried back to a joint return year and the joint tax liability is recomputed. However, Rev. Rul. 80-8 recognizes that each spouse has an interest in any overpayment, and that ruling provides that the allocation rules set out in Rev. Rul. 80-7 must be used to determine the individual refund of each spouse. Thus, the net operating loss is applied only against A's income, as required by Rev. Rul. 75-368 but since application of the rules provided in Rev. Rul. 80-7 and used in Rev. Rul. 80-8 results in allocation of a share of the overpayment to *B*, that amount should be refunded to *B* in the manner described in Rev. Rul. 80-8.

In order to compute *A*'s and *B*'s contributions toward payment, the original refund of $309 must also be allocated under the rules provided in Rev. Rul. 80-7. In allocating this original refund, the separate tax formula is applied using *A*'s and *B*'s income as originally reported on the joint return before the application of the net operating loss. When the separate tax formula is applied to the original 1981 figures, *A*'s share of the joint liability is $2,724; *B*'s share is $467. Because *A*'s share of the joint liability is greater than *A*'s withholding credits of $2,500, the entire refund of $309 is allocated to *B*.

A's and *B*'s respective portions of the overpayment would, thus, be computed as follows:

A's and *B*'s joint liability as originally reported was $3,191. After application of the net operating loss to *A*'s income the joint recomputed liability was $2,034. The total joint refund was $1,157 ($3,191 − $2,034).

A's recomputed separate tax liability is $1598;
B's separate tax liability (which is not affected by the carryback) is $529.
A's recomputed individual liability is:

$$\frac{\underline{\$1{,}598 \text{ (A's separate liability)}}}{\$1{,}598 + \$529 \text{ (A's + B's separate liabilities}} \times \$2{,}034 \text{ (recomputed joint liability)} = \$1{,}528.13$$

B's recomputed individual liability is:

$$\frac{\$529 \text{ (B's separate liability)}}{\$1{,}598 + \$529} \times \$2{,}034 = \$\ 505.87$$

A's contribution toward payment of the joint liability is $2,500—*A*'s withholding credits.

B's contribution toward payment of the joint liability is $691. ($1,000 (withholding credits) — $309 (refund)).

A's individual refund is $971.87 ($2,500 − $1,528.13).
B's individual refund is $185.13 ($691 − $505.87).

Even though *A*'s net operating loss may only be applied against *A*'s portion of the joint income, *B*'s overpayment is directly attributable to *A*'s net operating loss carryback. Therefore, the extended period of limitations provided under section 6511(d)(2) of the Code applies to any claim for refund made by *B*.

HOLDING

Issue (1): Under the facts as presented, a divorced taxpayer is entitled to a refund of tax for the taxpayer's interest in a joint overpayment. *B* is entitled to a refund of $185.13.

Issue (2): the applicable period of limitations is that provided by section 6511(d)(2) of the Code. *B* has until April 15, 1988, to file a claim for refund or credit.

EFFECT ON OTHER
REVENUE RULINGS

Rev. Rul. 75-368 and Rev. Rul. 80-8 are amplified.

Section 6511.—Limitations on Credit or Refund

26 CFR 301.6511(d)-2: Overpayment of income tax on account of net operating loss or capital loss carrybacks.

Whether a divorced spouse is entitled to a refund of tax for his/her interest in a joint overpayment attributable to the recomputation of a joint tax liability. See Rev. Rul. 86-57, page 4.

Section 6621.—Determination of Rate of Interest

26 CFR 301.6621-1: Interest rate.

Adjusted interest rate; underpayments and overpayments. The adjusted rate of interest on underpayments and overpayments, as determined under section 6621(b) of the Code, will decrease from 10 to 9 percent on July 1, 1986

Rev. Rul. 86-59

Section 6621(b) of the Internal Revenue Code provides for semiannual adjustment of the interest rate established under that section. Section 6621(b)(1) requires that these adjustments in the rate be established by October 15 and April 15, and be based on the average prime interest rate for the six-month period ending the previous September 30 or March 31, respectively.

The Board of Governors of the Federal Reserve System has determined that the average prime interest rate for the six-month period ending March 31, 1986, was 9.43 percent. That rate, rounded to the nearest full percent, is 9 percent, a change of 1 percent from the rate of 10 percent in effect under the last determination made by the Internal Revenue Service. *See* Rev. Rul. 85-169, 1985-44 I.R.B. 15. Accordingly, an adjusted rate of interest of 9 percent is established under section 6621(b). The adjusted rate will take effect on July 1, 1986 and will apply to amounts outstanding on that date or arising thereafter.

Daily rates for compound interest for 9 percent were published in Table 15 of Rev. Proc. 83-7, 1983-1 C.B. 583, 598.

Compound interest rates for prior periods are set forth in the following table:

PERIOD	RATE	DAILY RATE TABLE IN 1983-1 C.B.
January 1, 1983–June 30, 1983	16%	Table 22, pg. 605
July 1, 1983–December 31, 1983	11%	Table 17, pg. 600
January 1, 1984–June 30, 1984	11%	Table 41, pg. 625
July 1, 1984–December 31, 1984	11%	Table 41, pg. 625
January 1, 1985–June 30, 1985	13%	Table 19, pg. 602
July 1, 1985–December 31, 1985	11%	Table 17, pg. 600
January 1, 1986–June 30, 1986	10%	Table 16, pg. 599

Section 6655.—Failure by Corporation to Pay Estimated Income Tax

26 CFR 1.6655-1: Addition to the tax in the case of a corporation.

Penalties; underpayment; amended return; corporations. In applying the exception to the addition to tax for underpayment of estimated tax, it is the tax shown on the original tax return and not the tax shown on an amended return filed after the due date of the original return that is the basis for the computation. Rev. Rul. 64-138 revoked.

Rev. Rul. 86-58

ISSUE

For purposes of determining any underpayment of estimated tax by a corporation under section 6655 of the Internal Revenue Code, does the term "tax shown on the return for the taxable year" in section 6655(b) mean only the tax shown on the original tax return filed by the taxpayer or does the term include the tax shown on an amended return filed after the due date of the return, including any extensions?

FACTS

Situation 1

X, a corporation, files its federal income tax return on a calendar year basis. *X* made estimated tax payments of $6,000 during 1984. On March 15, 1985, *X* filed its 1984 tax return showing a tax liability of $20,000 and paid the balance of $14,000. Subsequently, *X* discovered an error and on April 30, 1985, filed an amended return for 1984 showing a reduced tax liability of $8,000.

Situation 2

The facts are the same as in *Situation 1*. In addition, on April 15, 1985 *X* made its first estimated tax payment for 1985. The amount of this payment was $5,000, which is one fourth of what then appeared to be *X*'s 1984 tax liability of $20,000. *X* paid a total of $3,000 as its other 1985 estimated tax payments due in 1985. As a result, the total paid was equal to the reduced tax liability shown on *X*'s 1984 amended return filed April 30, 1985. On March 15, 1986, *X* filed its 1985 return showing a tax liability of $25,000.

LAW AND ANALYSIS

Under section 6154(a) of the Code, every corporation subject to taxation under section 11 or 1201(a), or subchapter L of chapter 1, is required to make payments of estimated tax if it reasonably expects to have an estimated tax liability for the taxable year of $40 or more.

A corporation is subject to an addition to tax under section 6655(a) of the Code on the amount of the underpayment of any estimated tax for the period of the underpayment if the corporation fails to make an estimated tax payment when due. The addition to tax will not be imposed, however, if the corporation comes within an exception under section 6655(d).

Section 6655(b) of the Code provides that the amount of the underpayment is the excess of (1) the amount of the installment that would be required to be paid if the estimated tax were equal to 90 percent of the tax shown on the return for the taxable year or, if no return was filed, 90 percent (80 percent for taxable years beginning before January 1, 1983) of the tax for the year, over (2) the amount, if any, of the installment paid on or before the last date prescribed for payment.

Under section 6655(d) of the Code, the addition to tax with respect to any underpayment of any installment will not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for payment of the installment equals or exceeds the amount that would have been required to be paid on or before the date if the estimated tax were based on the lesser of (1) the tax shown on the return of the corporation for the preceding year if a return showing a tax liability was filed and was a taxable year of 12 months, (2) an amount equal to the tax computed at the rates applicable to the taxable year but otherwise on the basis of the facts shown on the return of the corporation for, and the law applicable to, the preceding taxable year, and (3) an amount equal to 90 percent of the tax for the taxable year computed by placing the taxable income for certain shorter periods on an analyzed basis by multiplying each period's taxable income by 12 and dividing the resulting amount by the number of months in the period.

In *Evans Cooperage Co., Inc. v. United States*, 712 F.2d 199 (5th Cir. 1983), through an error a corporation underpaid its estimated tax for 1977, which was based upon the tax shown on the corporation's original 1976 return. In 1979, the corporation amended its 1976 and 1977 tax returns to reflect less tax liability in each year, and argued that on the basis of the tax liability shown on its amended returns, its payment of estimated tax for 1977 was within the "safe harbor" minimum payment provisions of section 6655(d)(1). The appellate court affirmed the judgment of the district court, that dismissed the taxpayer's suit. The appellate opinion stated that "[t]he taxpayer's argument that the ultimate tax liability, rather than the amount reflected on the return, should trigger (or remove) the protection of the safe harbor provision is in the face of express statutory language to the contrary." *Evans Cooperage Co.*, 712 F.2d at 203.

Citing Rev. Rul. 78-256, 1978-1 C.B. 438, the court noted that as a matter of administrative discretion the Commissioner has ruled that an amended return filed on or before the due date of the return for the taxable year, including extensions, is the return for purposes of section 6655(b) of the Code. Similarly, Rev. Rul. 83-36, 1983-1 C.B. 358, holds that an amended return must be filed by the due date of the return for the taxable year to be considered the return for the year for purposes of computing the penalty for underpayment of estimated tax under section 6654(b).

HOLDING

In determining any underpayment of estimated tax by a corporation under section 6655 of the Code, the "tax shown on the return for the taxable year" is the tax shown on the corporation's original tax return for the taxable year, unless an amended return is filed on or before the due date of the original return, including extensions. Thus, in *Situation 1*, for purposes of determining the addition to tax on *X*'s 1984 tax return for underpayment of estimated tax, the underpayment is determined by reference to *X*'s original tax return showing a tax liability of $20,000.

This holding is equally applicable to section 6655(d) of the Code. Therefore, in *Situation 2*, if *X* chooses to rely on section 6655(d)(1) to avoid the addition to tax for an underpayment of estimated tax payments for 1985, *X* must make payments of at least $20,000.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 64-138, 1964-1 (Part 1) C.B. 509, held that the addition to tax on account of an underpayment of estimated tax by a corporation was computed on the corrected tax shown on an amended return. The ruling reasoned that the addition to tax for underpayment of estimated tax by a corporation is based on the corporation's tax liability for the year, as adjusted in the case there considered to take into account the investment credit claimed on an amended return. The amended return reflected a lowered tax liability because of the retroactive application of the investment credit allowed by section 38 of the Code for investment in certain depreciable property. Section 38, added to the Code by the Revenue Act of 1962, 1962-3 C.B. 111, was made retroactive with respect to taxable years ending after December 31, 1961. Because that reasoning is inconsistent with the reasoning set forth above, Rev. Rul. 64-138 is revoked.

Part IV. Items of General Interest

Notice of Proposed Rulemaking Unisex Annuity Tables

LR-19-80

SUMMARY: This document contains proposed regulations relating to the annuity tables used to compute the portion of the amount received as an annuity that is includible in gross income. Questions have arisen concerning the gender distinction in the existing tables and the outdated mortality experience upon which those tables are based. These regulations would affect taxpayers receiving amounts as annuities under annuity, endowment, or life insurance contracts for which they have paid premiums or other consideration and provide them with the guidance needed to determine the amount includible in gross income with respect to such contracts. This document also contains proposed regulations relating to the computations necessary to determine the amount excludable from an employee's gross income by allocation of contributions when the actual employer contributions are not known. This document also proposes to remove certain regulations relating to defined benefit plans that provided benefits for employees who were either self-employed or a shareholder-employee.

DATES: Written comments and requests for a public hearing must be delivered or mailed by May 8, 1986. The amendments to §§1.72-4, 1.72-5, 1.72-6, 1.72-7, 1.72-9, and 1.71-11 are proposed to be effective on July 1, 1986, and to apply to amounts received as an annuity after June 30, 1986. In addition, the proposed amendments to §1.72-6 include transitional rules applicable to amounts received under contracts in which an amount is invested before July 1, 1986. The amendments to §1.403(b)-1(d)(4)(iv) are proposed to be effective for taxable years beginning after July 1, 1986. The removal of §§1.401(a)-18 and 1.401(j)-1 through -6 is proposed to be effective for plan years beginning after December 31, 1983.

ADDRESS: Send comments and requests for a public hearing concerning the proposed amendments relating to the annuity tables to: Commissioner of Internal Revenue, Attention: CC:LR:T [LR-19-80], Washington, D.C. 20224.

ADDRESS: Send comments and requests for a public hearing concerning IRC section 403(b) to Commissioner of Internal Revenue, Attention: CC:LR:T:EE-114-82, Washington, D.C. 20224.

FOR FURTHER INFORMATION CONCERNING THE PROPOSED AMENDMENTS RELATING TO THE ANNUITY TABLES CONTACT: Annette J. Guarisco of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T). Telephone 202-566-3238 (not a toll-free call).

FOR FURTHER INFORMATION CONCERNING IRC sections 401(a)(18), 401(j) or 403(b) CONTACT: Monice Rosenbaum of the Employee Plans and Exempt Organizations Division, Office of Chief counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T:EE-114-82). Telephone 202-566-3422 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) and the Table of OMB Control Numbers (26 CFR Part 602). The proposed amendments would update and gender-neutralize the annuity tables used to determine the exclusion ratio applicable to amounts received as annuities under annuity, endowment, or life insurance contracts. Section 72 permits a taxpayer to exclude from gross income that part of any amount received as an annuity which bears the same ratio to such amount as the investment in the contract as of the annuity starting date bears to the expected return under the contract as of such date. If the expected return depends in whole or in part on the life expectancy of one or more individuals, the statute requires that the expected return be computed with reference to actuarial tables prescribed by the Secretary of the Treasury. Soon after section 72 was enacted in 1954, the Secretary published regulations containing tables based on 1937 individual annuitant mortality and distinguished by gender. The effect of this gender distinction is that women are not entitled to exclude from gross income as high a proportion of the amount received as an annuity as men of the same age.

REVISED ANNUITY TABLES

These proposed amendments provide new tables that eliminate the gender distinction and are based on more recent mortality experience. The proposed tables are based, as are the tables currently in effect, on individual annuitant mortality. The 1983 experience table used to produce the annuity tables proposed in this document was developed by the Society of Actuaries and reflects application of improvement factors to a 1973 individual-annuitant experience table. See Report of the Committee to Recommend a New Mortality Basis for Individual Annuity Valuation (Derivation of the 1983 Table a) Vol. XXXIII, Transactions of the Society of Actuaries 675, 708 (1981). In addition, the proposed unisex tables assume that the population mix of males and females at each age is the same as that of individual annuitants. The individual-annuitant gender mix reflected in the proposed tables is based on the same Society of Actuaries study.

The Service and Treasury would appreciate any comments on these proposed amendments that focus on whether the assumptions used to develop the tables are appropriate for determining life expectancies of taxpayers receiving amounts taxable under section 72, especially those taxpayers who can be expected to use the section 72 annuity tables (rather than, for example, the three-year recovery rule of section 72(d)) to compute an exclusion ratio under section 72(b) and 72(c). In particular, the Service and Treasury would be interested in data, undifferentiated by gender, on the mortality experience of taxpayers receiving amounts to which section 72 applies.

SECTION 72
TRANSITIONAL RULE

The exclusion ratio with respect to amounts received as an annuity after June 30, 1986, would generally be computed using the updated annuity tables proposed in this document. Two transitional rules are provided, however. The first applies to amounts received under a contract in which no amount was invested after June 30, 1986, and provides that the tables in the existing regulations would apply. The second transitional rule applies to contracts in which amounts were invested both before July 1, 1986, and after June 30, 1986. The second transitional rule is optional and would allow a taxpayer either to compute one exclusion ratio using the updated annuity tables, or to compute separate exclusion ratios with respect to the amounts invested in the contract before July 1, 1986, and the amounts invested after June 30, 1986. If the separate computation option were chosen, the tables in the existing regulations would be used to compute the exclusion ratio with respect to portions of the payments under the contract attributable to amounts invested in the contract before July 1, 1986, and the updated tables would be used to compute the exclusion ratio with respect to portions of payments under the contract attributable to amounts invested after June 30, 1986. The amount excludable from gross income would be the sum of the amounts determined by applying the two exclusion ratios to the amount received as an annuity.

The regulations provide that the transitional rules do not apply to an annuity contract with an annuity starting date occurring after June 30, 1986, if the contract provides, at the option of the annuitant or of any other person, for any form of payment or settlement that permits receipt of amounts under the contract in a form other than a life annuity. The transitional rules may not be used, for example, if the contract permits the taxpayer to withdraw the investment in the contract before the annuity starting date, to receive a lump sum in full discharge of the obligation under the contract, or to receive an annuity for a period certain (without regard to life expectancy) or its substantial equivalent. In effect, a contract that provides for these options is treated for purposes of the transitional rules as if the entire investment in the contract were made on the annuity starting date. Thus, the taxpayer must apply the updated, gender-neutral annuity tables proposed in this document to the entire investment in such a contract if the annuity starting date after July 30, 1986.

REMOVAL OF
SECTION 401(J) REGULATIONS

Sections 401(a)(18) and 401(j) provided requirements that applied to defined benefit plans that provided benefits for employees who were either self-employed, within the meaning of section 401(c)(1), or a shareholder-employee within the meaning of former section 1379(d). Sections 237(b) and 238(b) of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) [Pub. L. 97-248, 1982-2 C.B. 462] repealed these sections. Under section 241(a) of TEFRA these amendments were effective for plan years beginning after 1983. The regulation sections under these repealed Code sections (§§1.401(a)-18 and 1.401(j)-6) are, therefore, proposed to be removed from the Code of Federal Regulations. Thus, for plan years beginning after December 31, 1983, these defined benefit plans would no longer be subject to these benefit limitations. These sections, and the regulations would, however, continue to apply to determine whether plan benefits satisfied the requirements for plan years beginning prior to January 1, 1984.

AMENDMENT OF
SECTION 403(B) REGULATIONS

Section 1.403(b)-1(d)(4) provides the computations necessary to determine the amount excludable from an employee's gross income under section 403(b) when the actual employer contributions made on behalf of an employee to a defined benefit plan are not known. The tables in that section have been removed and gender-neutral tables inserted in lieu thereof. The new tables use an interest rate of 8 percent and the mortality table found in Treas. Reg. §20.2031-7 of the Estate Tax Regulations. Accordingly, Rev. Rul. 67-78, 1967-1 C.B. 94, which supplemented Table I at §1.403(b)-1(d)(4)(iv), is made obsolete. The new tables are proposed to be effective for taxable years beginning after May 23, 1986.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact analysis is not required. Although this document is a notice of proposed rulemaking that solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations are not subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

COMMENTS AND REQUESTS
FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act of 1980. Comments on those requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for the Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on these requirements to OMB also send copies to the Service.

DRAFTING INFORMATION

The principal author of the regulations under section 72 is Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. The principal author of the section 401 and 403 regulations is Monice Rosenbaum of the Employee Plans and Exempt Organizations Division, Office of Chief Counsel, Internal Revenue

Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

Proposed amendments to the regulations

The proposed amendments to 26 CFR Parts 1 and 602 are as follows:

INCOME TAX REGULATIONS
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Sections 1.72-4, 1.72-5, 1.72-6, 1.72-7, 1.72-9, and 1.72-11 also issued under 26 U.S.C. 72(c).

Par. 2. Section 1.72-4 is amended by revising paragraphs (a), (d), and (e) to read as follows:

§1.72-4 Exclusion ratio.

(a) *General rule.* (1)(i) To determine the proportionate part of the total amount received each year as an annuity which is excludable from the gross income of a recipient in the taxable year of receipt (other than amounts received under *(a)* certain employee annuities described in section 72(d) and §1.72-13, or *(b)* certain annuities described in section 72(o) and §1.122-1), an exclusion ratio is to be determined for each contract. In general, this ratio is determined by dividing the investment in the contract as found under §1.72-6 by the expected return under such contract as found under §1.72-5. Where a single consideration is given for a particular contract which provides for two or more annuity elements, an exclusion ratio shall be determined for the contract as a whole by dividing the investment in such contract by the aggregate of the expected returns under all the annuity elements provided thereunder. However, where the provisions of paragraph (b)(3) of §1.72-2 apply to payments received under such a contract, see paragraph (b)(3) of §1.72-6.

In the case of a contract to which §1.72-6(d) (relating to contracts in which amounts were invested both before July 1, 1986, and after June 30, 1986) applies, the exclusion ratio for purposes of this paragraph (a) is determined in accordance with §1.72-6(d) and, in particular, §1.72-6(d)(5)(i).

(ii) The exclusion ratio for the particular contract is then applied to the total amount received as an annuity during the taxable year by each recipient. See, however, paragraph (e)(3) of §1.72.5. Any excess of the total amount received as an annuity during the taxable year over the amount determined by the application of the exclusion ratio to such total amount shall be included in the gross income of the recipient for the taxable year of receipt.

(2) The principles of subparagraph (1) may be illustrated by the following example:

Example. Taxpayer A purchased an annuity contract providing for payments of $100 per month for a consideration of $12,650. Assuming that the expected return under this contract is $16,000, the exclusion ratio to be used by A is $12,650 ÷ $16,000; or 79.1 percent (79.06 rounded to the nearest tenth). If 12 such monthly payments are received by A during this taxable year, the total amount he may exclude from his gross income in such year is $949.20 ($1,200 × 79.1 percent). The balance of $250.80 ($1,200 less $949.20) is the amount to be included in gross income. If A instead received only five such payments during the year, he should exclude $395.50 ($500 × 79.1 percent) of the total amounts received.

For an example of the computation of the exclusion ratio in cases where two annuity elements are acquired for a single consideration, see paragraph (b)(1) of §1.72-6.

(3) The exclusion ratio shall be applied only to amounts received as an annuity within the meaning of that term under paragraph (b)(2) and (3) of §1.72-2. Where the periodic payments increase in amount after the annuity starting date in a manner not provided by the terms of the contract at such date, the portion of such payments representing the increase is not an amount received as an annuity. For the treatment of amounts not received as an annuity, see section 72(e) and §1.72-11. For special rules where paragraph (b)(3) of §1.72-2 applies to amounts received, see paragraph (d)(3) of this section.

(4) After an exclusion ratio has been determined for a particular contract, it shall be applied to any amounts received as an annuity thereunder unless or until one of the following occurs:

(i) The contract is assigned or transferred for a valuable consideration (see section 72(g) and paragraph (a) of §1.72-10);

(ii) The contract matures or is surrendered, redeemed, or discharged in accordance with the provisions of paragraph (c) or (d) of §1.72-11;

(iii) The contract is exchanged (or is considered to have been exchanged) in a manner described in paragraph (e) of §1.72-11.

* * * * *

(d) *Exceptions to the general rule.* (1) Where the provisions of section 72 would otherwise require an exclusion ratio to be determined, but the investment in the contract (determined under §1.72-6) is an amount of zero or less, no exclusion ratio shall be determined and all amounts received under such a contract shall be includible in the gross income of the recipient for the purposes of section 72.

(2) Where the investment in the contract is equal to or greater than the total expected return under such contract found under §1.72-5, the exclusion ratio shall be considered to be 100 percent and all amounts received as an annuity under such contract shall be excludable from the recipient's gross income. See, for example, paragraph (f)(1) of §1.72-5.

In the case of a contract to which §1.72-6(d) (relating to contracts in which amounts were invested both before July 1, 1986, and after June 30, 1986) applies, this paragraph (d)(2) is applied in the manner prescribed in §1.72-6(d) and, in particular, §1.72-6(d)(5)(ii).

(3) (i) If a contract provides for payments to be made to a taxpayer in the manner described in paragraph (b)(3) of §1.72-2, the investment in the contract shall be considered to be equal to the expected return under such contract and the resulting exclusion ratio (100%) shall be applied to all amounts received as an annuity under such contract. For any taxable year, payments received under such a contract shall be considered to be amounts received as an annuity only to the extent that they do not exceed the portion of the investment in the contract which is properly allocable to that year and hence excludable from gross income as a return of premiums or other consideration paid for the contract. The portion of the investment in the contract which is properly allocable to any taxable year shall be determined by dividing the investment in the con-

tract (adjusted for any refund feature in the manner described in paragraph (d) of §1.72-7) by the applicable multiple (whether for a term certain, life, or lives) which would otherwise be used in determining the expected return for such a contract under §1.72-5. The multiple shall be adjusted in accordance with the provisions of the table in paragraph (a)(2) of §1.72-5, if any adjustment is necessary, before making the above computation. If payments are to be made more frequently than annually and the number of payments to be made in the taxable year in which the annuity begins are less than the number of payments to be made each year thereafter, the amounts considered received as an annuity (as otherwise determined under the subdivision) shall not exceed, for such taxable year (including a short taxable year), an amount which bears the same ratio to the portion of the investment in the contract considered allocable to each taxable year as the number of payments to be made in the first year bears to the number of payments to be made in each succeeding year. Thus, if payments are to be made monthly, only seven payments will be made in the first taxable year, and the portion of the investment in the contract allocable to a full year of payments is $600, the amounts considered received as an annuity in the first taxable year cannot exceed $350 ($600 × 7/12). See subdivision (iii) of this subparagraph for an example illustrating the determination of the portion of the investment in the contract allocable to one taxable year of the taxpayer.

(ii) If subdivision (i) of this subparagraph applies to amounts received by a taxpayer and the total amount of payments he receives in a taxable year is less than the total amount excludable for such year under subdivision (i) of this subparagraph, the taxpayer may elect, in a suceeding taxable year in which he receives another payment, to redetermine the amounts to be received as an annuity during the current and succeeding taxable years. This shall be computed in accordance with the provisions of subdivision (i) of this subparagraph except that:

(a) The difference between the portion of the investment in the contract allocable to a taxable year, as found in accordance with subdivision (i) of this subparagraph, and the total payments actually received in the taxable year prior to the election shall be divided by the applicable life expectancy of the annuitant (or annuitants), found in accordance with the appropriate table in §1.72-9 (and adjusted in accordance with paragraph (a)(2) of §1.72-5), or by the remaining term of a term certain annuity, computed as of the first day of the first period for which an amount is received as an annuity in the taxable year of the election; and

(b) The amount determined under *(a)* of this subdivision shall be added to the portion of the investment in the contract allocable to each taxable year (as otherwise found). To the extent that the total periodic payments received under the contract in the taxable year of the election or any succeeding taxable year does not equal this total sum, such payments shall be excludable from the gross income of the recipient. To the extent such payments exceed the sum so found, they shall be fully includable in the recipient's gross income.

See subdivision (iii) of this subparagraph for an example illustrating the redetermination of amounts to be received as an annuity and subdivision (iv) of this subparagraph for the method of making the election provided by this subdivision.

(iii) The application of the principles of paragraph (d)(3)(i) and (ii) of this section may be illustrated by the following example:

Example. Taxpayer A, a 64 year old male, files his return on a calendar year basis and has a life expectancy of 15.6 years on June 30, 1954, the annuity starting date of a contract to which §1.72-2(b)(3) applies and which he purchased for $20,000. The contract provides for variable annual payments for his life. He receives a payment of $1,000 of June 30, 1955, but receives no other payment until June 30, 1957. He excludes the $1,000 payment from his gross income for the year 1955 since this amount is less than $1,324.50, the amount determined by dividing his investment in the contract ($20,000) by his life expectancy adjusted for annual payments, 15.1 (15.6 − 0.5), as of the original annuity starting date. Taxpayer A may elect, in his return for the taxable year 1957, to redetermine amounts to be received as an annuity under his contract as of June 30, 1956. For the purpose of determining the extent to which amounts received in 1957 or thereafter shall be considered amounts received as an annuity (to which a 100 percent exclusion ratio shall apply) he shall add $118.63 to the $1,324.50 originally determined to be receivable as an annuity under the contract, making a total of $1,443.13. This is determined by dividing the difference between what was excludable in 1955 and 1956, $2,649 (2 × $1,324.50) and what he actually received in those years ($1,000) by his life expectancy adjusted for annual payments, 13.9 (14.4 − 0.5), as of his age at his nearest birthday (66) on the first day of the first period for which he received an amount as an annuity in the taxable year of election (June 30, 1956). The result, $1,443.13, is excludable in that year and each year thereafter as an amount received as an annuity to which the 100% exclusion ratio applies. It will be noted that in this example the taxpayer received amounts less than the excludable amounts in two successive years and deferred making his election until the third year, and thus was able to accumulate the portion of the investment in the contract allocable to each taxable year to the extent he failed to receive such portion in both years. Assuming that he received $1,500 in the taxable year of his election, he would include $56.87 in his gross income and exclude $1,443.13 therefrom for that year.

(iv) If the taxpayer chooses to make the election described in subdivision (ii) of this subparagraph, he shall file with his return a statement that he elects to make a redetermination of the amounts excludable from gross income under his annuity contract in accordance with the provisions of paragraph (d)(3) of §1.72-4. This statement shall also contain the following information:

(a) The original annuity starting date and his age on that date,

(b) The date of the first day of the first period for which he received an amount in the current taxable year,

(c) The investment in the contract originally determined (as adjusted for any refund feature), and

(d) The aggregate of all amounts received under the contract between the date indicated in *(a)* of this subdivision and the day after the date indicated in *(b)* of this subdivision to the extent such amounts were excludable from gross income.

He shall include in gross income any amounts received during the taxable year for which the return is made in accordance with the redetermination made under this subparagraph.

(v) In the case of the contract to which §1.72-6(d) (relating to contracts in which amounts were invested both before July 1, 1986, and after June 30, 1986) applies, this paragraph (d)(3) is applied in the manner prescribed in §1.72-6(d) and, in particular, §1.72-6(d)(5)(iii). This application may be illustrated by the following example:

Example. B, a male calendar year taxpayer, purchases a contract which provides for variable annual payments for life and to which §1.72-2(b)(3) applies. The annuity starting date of the contract is June 30, 1990, when B is 64 years old. B receives a payment of $1,000 on June 30, 1991, but receives no other payment until June 30, 1993. B's total investment in the contract is $25,000. B's pre-July 1986 investment in the contract is $12,000. If B makes the election described in §1.72-6(d)(6), separate computations are required to determine the amounts received as an annuity and excludable from gross income with respect to the pre-July 1986 investment in the contract and the post-June 1986 investment in the contract. In the separate computations, B first determines the applicable portions of the total payment received which are allocable to the pre-July 1986 investment in the contract and the post-June 1986 investment in the contract. The portion of the payment received allocable to the pre-July 1986 investment in the contract is $480 ($12,000/$25,000 × $1,000). The portion of the payment received allocable to the post-June 1986 investment in the contract is $520 ($13,000/$25,000 × $1,000). Second, B determines the pre-July 1986 investment in the contract and the post-June 1986 investment in the contract allocable to the taxable year by dividing the pre-July 1986 and post-June 1986 investments in the contract by the applicable life expectancy multiple. The life expectancy multiple applicable to pre-July 1986 investment in the contract is B's life expectancy as of the original annuity starting date adjusted for annual payments and is determined under Table I of §1.72-9 (15.1 (15.6 − 0.5)). The life expectancy multiple applicable to post-June 1986 investment in the contract is determined under Table V of §1.72-9 (20.3 (20.8 − 0.5)). Thus, the pre-July 1986 investment in the contract allocable to each taxable year is $794.70 ($12,000 ÷ 15.1), and the post-June 1986 investment in the contract so allocable is $640.39 ($13,000 ÷ 20.3). Because the applicable portions of the total payment received in 1991 under the contract ($480 allocable to the pre-July 1986 investment in the contract and $520 allocable to the post-June 1986 investment in the contract) are treated as amounts received as an annuity and are excludable from gross income to the extent they do not exceed the portion of the corresponding investment in the contract allocable to 1991 ($794.70 pre-July 1986 investment in the contract and $640.39 post-June 1986 investment in the contract), the entire amount of each applicable portion of the total payment is excludable from gross income. B may elect, in the return filed for taxable year 1993, to redetermine amounts to be received as an annuity under the contract as of June 30, 1992. The extent to which the amounts received in 1993 or thereafter shall be considered amounts received as an annuity is determined as follows:

Pre-July 1986 investment in the contract allocable to taxable years 1991 and 1992 ($794.70 × 2) ..	$1,589.40
Less: Portion of total payments allocable to pre-July 1986 investment in the contract actually received as an annuity in taxable years 1991 and 1992	$ 480.00
	$1,109.40
Divided by: Life expectancy multiple applicable to pre-July 1986 investment in the contract for B, age 66 (14.4 − 0.5)	13.9
	79.81
Plus: Amount originally determined with respect to pre-July 1986 investment in the contract	$ 794.70
Pre-July 1986 amount	$ 874.51
Post-June 1986 investment in the contract allocable to taxable years 1991 and 1992 ($640.39 × 2) ..	$1,280.78
Less: Portion of total payments allocable to post-June 1986 investment in the contract actually received as an annuity in taxable years 1991 and 1992	$ 520.00
	$ 760.78
Divided by: Life expectancy multiple applicable to post-June 1986 investment in the contract for B, age 66 (19.2 − 0.5)	18.7
	40.68
Plus: Amount originally determined with respect to post-June 1986 investment in the contract	$ 640.39
Post-June 1986 amount	$ 681.07

(vi) The method of making an election to perform the separate computations illustrated in paragraph (d)(3)(v) of this section is described in §1.72-6(d)(6).

(e) *Exclusion ratio in the case of two or more annuity elements acquired for a single consideration.* (1)(i) Where two or more annuity elements are provided under a contract described in paragraph (a)(2) of §1.72-2, an exclusion ratio shall be detrmined for the contract as a whole and applied to all amounts received as an annuity under any of the annuity elements. To obtain this ratio, the investment in the contract determined in accordance with §1.72-6 shall be divided by the aggregate of the expected returns found with respect to each of the annuity elements in accordance with §1.72-5. For this purpose, it is immaterial that payments under one or more of the annuity elements involved have not commenced at the time when an amount is first received as an annuity under one or more of the other annuity elements.

(ii) The exclusion ratio found under subdivision (i) of this subparagraph does not apply to:

(*a*) An annuity element payable to a surviving annuitant under a joint and survivor annuity contract to which section 72(i) and paragraphs (b)(3) and (e)(3) of §1.72-5 apply, or to

(*b*) A contract under which one or more of the constituent annuity elements provides for payments described in paragraph (b)(3) of §1.72-2.

For rules with respect to a contract providing for annuity elements described in (*b*) of this subdivision, see subparagraph (2) of this paragraph.

(2) If one or more of the annuity elements under a contract described in paragraph (a)(2) of §1.72-2 provides for payments to which paragraph (b)(3) of §1.72-2 applies:

(i) With respect to the annuity elements to which paragraph (b)(3) of §1.72-2 does not apply, an exclusion ratio shall be determined by dividing the portion of the investment in the entire contract which is properly allocable to all such elements (in the manner provided in paragraph (b)(3)(ii) of §1.72-6) by the aggregate of the expected returns thereunder and such ratio shall be applied in the manner described in subdivision (i) of subparagraph (1); and

(ii) With respect to the annuity elements to which paragraph (b)(3) of §1.72-2 does apply, the investment in the entire contract shall be reduced by the portion thereof found in subdivision (i) of this subparagraph and the resulting amount shall be used to determine the extent to which the aggregate of the payments received during the taxable year under all such elements is excludable from gross income. The amount so excludable shall be allocated to each recipient under such elements in the same ratio that the total of the payments he receives each year bears to the total of the payments received by all such recipients during the year. The exclusion ratio with respect to the amounts so allocated shall be 100 percent. See paragraph (f)(2) of §1.72-5 and paragraph (b)(3) of §1.72-6.

(iii) In the case of a contract to which §1.72-6(d) (relating to contracts in which amounts were invested both before July 1, 1986, and after June 30, 1986) applies, this paragraph (e) is applied in the manner prescribed in §1.72-6(d) and, in particular, §1.72-6(d)(5)(iv).

Par. 3. Section 1.72-5 is amended by revising paragraphs (a), (b), and (e), and adding a new paragraph (g) to read as follows:

§1.72-5 Expected return

(a) *Expected return for but one life.* (1) If a contract to which section 72 applies provides that one annuitant is to receive a fixed monthly income for life, the expected return is determined by multiplying the total of the annuity payments to be received annually by the multiple shown in Table I or V (whichever is applicable) of §1.72-9 under the age (as a annuity starting date) and, if applicable, sex of the measuring life (usually the annuitant's). Thus, where a male purchases a contract before July 1, 1986, providing for an immediate annuity of $100 per month for his life and, as of the annuity starting date (in this case the date of purchase), the annuitant's age at his nearest birthday is 66, the expected return is computed as follows:

Monthly payment of $100 × 12 months equals annual payment of	$1,200
Multiple shown in Table I, male, age 66.	14.4
Expected return ($1,200 × 14.4) . . .	17,280

If, however, the taxpayer had purchased the contract after June 30, 1986, the expected return would be $23,040, determined by multiplying 19.2 (multiple shown in Table V, age 66) by $1,200.

(2)(i) If payments are to be made quarterly, semiannually, or annually, an adjustment of the applicable multiple shown in Table I or V (whichever is applicable) may be required. A further adjustment may be required where the interval between the annuity starting date and the date of the first payment is less than the interval between future payments. Neither adjustment shall be made, however, if the payments are to be made more frequently than quarterly. The amount of the adjustment, if any, is to be found in accordance with the following table:

If the number of whole months from the annuity starting date to the first payment date is—	0–1	2	3	4	5	6	7	8	9	10	11	12
And payments under the contract are to be made: Annually . . .	+0.5	+0.4	+0.3	+0.2	+0.1	0	0	−0.1	−0.2	−0.3	−0.4	−0.5
Semiannually	+.2	+.1	0	0	−.1	−.2	...	...	...	...	...	...
Quarterly . .	+.1	0	−.1	...	...	...	...	...	...	...	...	...

Thus, for a male, age 66, the multiple found in Table I, adjusted for quarterly payments the first of which is to be made one full month after the annuity starting date, is 14.5 (14.4 + 0.1); for semiannual payments the first of which is to be made six full months from the annuity starting date, the adjusted multiple is 14.2 (14.4 − 0.2); for annual payments the first of which is to be made one full month from the annuity starting date, the adjusted multiple is 14.9 (14.4 + 0.5). If the annuitant in the example shown in subparagraph (1) of this paragraph were to receive an annual payment of $1,200 commencing 12 full months after his annuity starting date, the amount of the expected return would be $16,680 ($1,200 × 13.9 [14.4 − 0.5]). Similarly for an annuitant, age 50, the multiple found in Table V, adjusted for quarterly payments the first of which is to be made one full month after the annuity starting date, is 33.2 (33.1 + 0.1); for semi-annual payments the first of which is to be made six full months from the annuity starting date, the adjusted multiple is 32.9 (33.1 − 0.2); for annual payments the first of which is to be made one full month from the annuity starting date, the adjusted multiple is 33.6 (33.1 + 0.5).

(ii) Notwithstanding the table in subdivision (i) of this subparagraph, adjustments of multiples for early or other than monthly payments determined prior to February 19, 1956, under the table prescribed in paragraph 1(b)(4) of T.D. 6118 (19 FR 9897, 1955-1 C.B. 699), approved December 30, 1954, need not be redetermined.

(3) If the contract provides for fixed payments to be made to an annuitant until death or until the expiration of a specified limited period, whichever occurs earlier, the expected return of such temporary life annuity is determined by multiplying the total of the annuity payments to be received annually by the multiple shown in Table IV or VIII (whichever is applicable) of §1.72-9 for the age (as of the annuity starting date) and, if applicable, sex of the annuitant and the nearest whole number of years in the specified period. For example, if a male annuitant, age 60 (at his nearest birthday), is to receive $60 per month for five years or until he dies, whichever is earlier, and there is no post-June 1986, investment in the contract, the expected return under such a contract is $3,456, computed as follows:

Monthly payments of $60 × 12 months equals annual payment of	$720
Multiple shown in Table IV for male, age 60, for term of 5 years	4.8
Expected return for 5 year temporary life annuity of $720 per year ($720 × 4.8)	$3,456

If the annuitant purchased the same contract after June 30, 1986, the expected return under the contract would be $3,528, computed as follows:

Monthly payments of $60 × 12 months equals annual payment of	$720.00
Multiple shown in Table VIII for annuitant, age 60, for term of 5 years	4.9
Expected return for 5-year temporary life annuity of $720 per year ($720 × 4.9)	$3,528.00

The adjustment provided by subparagraph (2) of this paragraph shall not be made with respect to the multiple found in Table IV or VIII (whichever is applicable).

(4) If the contract provides for payments to be made to an annuitant for the annuitant's lifetime, but the amount of the annual payments is to be decreased after the expiration of a specified limited period, the expected return is computed by considering the contract as a combination of a whole life annuity for the smaller amount plus a temporary life annuity for an amount equal to the difference between the larger and the smaller amount. For example, if a male annuitant, age 60, is to receive $150 per month for five years or until his earlier death, and is to receive $90 per month for the remainder of his lifetime after such five years, the expected return is computed as if the annuitant's contract consisted of a whole life annuity for $90 per month plus a five year temporary life annuity of $60 per month. In such circumstances, the expected return if there is no post-June 1986 investment in the contract is computed as follows:

Monthly payments of $90 × 12 months equals annual payment	$ 1,080
Multiple shown in Table I for male, age 60	18.2

Expected return for whole life annuity of $1,080 per year	$19,656
Expected return for 5-year temporary life annuity of $720 per year (as found in subparagraph (3) of this paragraph (a))	$ 3,456
Total expected return	$23,112

If the annuitant purchased the same contract after June 30, 1986, the expected return would be $29,664, computed as follows:

Monthly payments of $90 × 12 months equals annual payment of	$ 1,080
Multiple shown in Table V for annuitant, age 60	24.2
Expected return for whole life annuity of $1,080 per year	$26,136
Plus:	
Expected return for 5-year temporary life annuity of $720 per year (as found in subparagraph (3) of this paragraph (a))	$ 3,528
Total expected return	$29,664

If payments are to be made quarterly, semiannually, or annually, an appropriate adjustment of the multiple found in Table I or V (whichever is applicable) for the whole life annuity should be made in accordance with subparagraph (2) of this paragraph.

(5) If the contract described in subparagraph (4) of this paragraph provided that the amount of the annual payments to the annuitant were to be increased (instead of decreased) after the expiration of a specified limited period, the expected return would be computed as if the annuitant's contract consisted of a whole life annuity for the larger amount minus a temporary life annuity for an amount equal to the difference between the larger and smaller amount. Thus, if the annuitant described in subparagraph (4) of this paragraph were to receive $90 per month for five years or until his earlier death, and to receive $150 per month for the remainder of his lifetime after such five years, the expected return would be computed by subtracting the expected return under a five year temporary life annuity of $60 per month from the expected return under a whole life annuity of $150 per month. In such circumstances, the expected return if there is no post-June 1986 investment in the contract is computed as follows:

Monthly payments of $150 × 12 months equals annual payment of	$1,800
Multiple shown in Table 1 (male, age 60)	18.2
Expected return for annuity for whole life of $1,800 per year	$32,760
Less expected return for 5-year temporary life annuity of $720 per year (as found in subparagraph (3))	$3,456
Net expected return	$29,304

If the annuitant purchased the same contract after June 30, 1986, the expected return would be $40,032, computed as follows:

Monthly payments of $150 × 12 months equals annual payments of	$ 1,800
Multiple shown in Table V (age 60)	24.2
Expected return for annuity for whole life of $1,800 per year	$43,560
Less expected return for 5-year temporary life annuity of $720 per year (as found in subparagraph (3) of this paragraph (a))	$ 3,528
Net expected return	$40,032

If payments are to be made quarterly, semiannually, or annually, an appropriate adjustment of the multiple found in Table I or V (whichever is applicable) for the whole life annuity should be made in accordance with subparagraph (2) of this paragraph.

(b) *Expected return under joint and survivor and joint annuities.* (1) In the case of a joint and survivor annuity contract involving two annuitants which provides the first annuitant with a fixed monthly income for life and, after the death of the first annuitant, provides an identical monthly income for life to a second annuitant, the expected return shall be determined by multiplying the total amount of the payments to be received annually by the multiple obtained from Table II or V! (whichever is applicable) of §1.72-9 under the ages (as of the annuity starting date) and, if applicable, sexes of the living annuitants. For example, a husband purchases a joint and survivor annuity contract providing for payments of $100 per month for life and, after his death, for the same amount to his wife for the remainder of her life. As of the annuity starting date his age at his nearest birthday is 70 and that of his wife at her nearest birthday is 67. If there is no post-June 1986 investment in the contract, the expected return is computed as follows:

Monthly payments of $100 × 12 month equals annual payment of	$1,200
Multiple shown in Table II (male, age 70, female, age 67)	19.7
Expected return ($1,200 × 19.7)	$23,640

If the annuitants purchased the same contract after June 30, 1986, the expected return would be $26,400, computed as follows:

Monthly payments of $100 × 12 equals annual payment of	$ 1,200
Multiple shown in Table VI (ages 70, 67)	22.0
Expected return ($1,200 × 22.0)	$26,400

If payments are to be made quarterly, semiannually, or annually, an appropriate adjustment of the multiple found in Table II or VI (whichever is applicable) should be made in accordance with paragraph (a)(2) of this section.

(2) If a contract of the type described in subparagraph (1) of this paragraph provides that a different (rather than an identical) monthly income is payable to the second annuitant, the expected return is computed in the following manner. The applicable multiple in Table II or VI (whichever is applicable) is first found as in the example in subparagraph (1) of this paragraph. The multiple applicable to the first annuitant is then found in Table I or V (whichever is applicable) as though the contract were for a single life annuity. The multiple from Table I or V is then subtracted from the multiple obtained from Table II or VI and the resulting multiple is applied to the total payments to be received annually under the contract by the second annuitant. The result is the expected return with respect to the second annuitant. The portion of the expected return with respect to payments to be made during the first annuitant's life is then computed by applying the multiple found in Table I or V to the total annual payments to be received by such annuitant under the contract. The expected returns with respect to each of the annuitants separately are then aggregated to obtain the expected return under the entire contract.

Example (1). A husband purchases a joint and survivor annuity providing for payments of $100 per month for his life and, after his death, payments to his wife of $50 per month for her life. As of the annuity starting date his age at his nearest birthday is 70 and that of his wife at her nearest birthday is 67. There is no post-June 1986 investment in the contract.

Multiple from Table II (male, age 70; female, age 67)	19.7
Multiple from Table (male, age 70)	12.1
Difference (multiple applicable to second annuitant)	7.6

Portion of expected return, second annuitant ($600 × 7.6)	$4,560
Portion of expected return, first annuitant ($1,200 × 12.1)	$14,520
Expected return under the contract	$19,080

The expected return thus found, $19,080, is to be used in computing the amount to be excluded from gross income. Thus, if the investment in the contract in this example is $14,310, the exclusion ratio is $14,310 ÷ $19,080; or 75 percent. The amount excludable from each monthly payment made to the husband is 75 percent of $100, or $75, and the remaining $25 of each payment received by him shall be included in his gross income. After the husband's death, the amount excludable by the second annuitant (the surviving wife) would be 75 percent of each monthly payment of $50, or $37.50, and the remaining $12.50 of each payment shall be included in her gross income.

Example (2). If the same contract were purchased after June 30, 1986, the expected return would be $22,800, computed as follows:

Multiple from Table VI (ages 70, 67)	22.0
Multiple from Table V (age 70) ..	16.0
Difference (multiple applicable to second annuitant)	6.0
Portion of expected return, second annuitant ($600 × 6.0)	$ 3,600
Plus Portion of expected return, first annuitant ($1,200 × 16.0) .	19,200
Expected return under the contract	$22,800

If the investment in the contract is $14,310, the exclusion ratio is $14,310 ÷ $22,800, or 62.8 percent. Thus, the husband would exclude $62.80 of each $100 payment received by him. After his death, his wife would exclude 62.8 percent, or $31.40 of each $50 monthly payment.

Example (3). If amounts were invested in the same contract both before July 1, 1986, and after June 30, 1986, and the election described in §1.72-6(d)(6) were made, two exclusion ratios would be determined pursuant to §1.72-6(d). Assume that the husband's total investment in the contract is $14,310 and that $7,310 is the pre-July 1986 investment in the contract. The pre-July 1986 exclusion ratio would be $7,310 ÷ $19,080, or 38.3 percent. The post-June 1986 exclusion ratio would be $7,000 ÷ $22,800, or 30.7 percent. The husband would exclude $69.00 ($38.30 + $30.70) of the $100 monthly payment received by him. The remaining $31.00 would be included in his gross income. After the husband's death, the amount excludable by his wife would be $34.50 (38.3 percent of $50 plus 30.7 percent of $50). The remaining $15.50 would be included in gross income.

The same method is used if the payments are to be increased after the death of the first annuitant. Thus, if the payments to be made until the husband's death were $50 per month and his widow were to receive $100 per month thereafter until her death, the 7.6 multiple in example (1) above would be applied to the $100 payments, yielding an expected return with respect to this portion of the annuity contract of $9,120 ($1,200 × 7.6). An expected return of $7,260 ($600 × 12.1) would be obtained with respect to the payments to be made to the husband, yielding a total expected return under the contract of $16,380 ($9,120 plus $7,260). If payments are to be made quarterly, semiannually, or annually, an appropriate adjustment of the multiples found in Tables I and II or Tables V and VI (whichever is applicable) should be made in accordance with paragraph (a)(2) of this section.

(3) In the case of a joint and survivor annuity contract in respect of which the first annuitant died in 1951, 1952, or 1953, and the basis of the surviving annuitant's interest in the contract was determinable under section 113(a)(5) of the Internal Revenue Code of 1939, such basis shall be considered the "aggregate of premiums or other consideration paid" by the surviving annuitant for the contract. (For rules governing this determination, see 26 CFR (1939) 39.22(b)(2)-2 and 39.113(a)(5)-1 (Regulations 113).) In determining such an annuitant's investment in the contract, such aggregate shall be reduced by any amounts received under the contract by the surviving annuitant before the annuity starting date, to the extent such amounts were excludable from his gross income at the time of receipt. The expected return of the surviving annuitant in such cases shall be determined in the manner prescribed in paragraph (a) of this section, as though the surviving annuitant alone were involved. For this purpose, the appropriate multiple for the survivor shall be obtained from Table I as of the annuity starting date determined in accordance with paragraph (b)(2)(i) of §1.72-4.

(4) If a contract involving two annuitants provides for fixed monthly payments to be made as a joint life annuity until the death of the first annuitant to die (in other words, only as long as both remain alive), the expected return under such contract shall be determined by multiplying the total of the annuity payments to be received annually under the contract by the multiple obtained from Table IIA or VIA (whichever is applicable) of §1.72-9 under the ages (as of the annuity starting date) and, if applicable, sexes of the annuitants. If, however, payments are to be made under the contract quarterly, semiannually, or annually, an appropriate adjustment of the multiple found in Table IIA or VIA shall be made in accordance with paragraph (a)(2) of this section.

(5) If a joint and survivor annuity contract involving two annuitants provides that a specified amount shall be paid during their joint lives and a different specified amount shall be paid to the survivor upon the death of whichever of the annuitants is the first to die, the following preliminary computation shall be made in all cases preparatory to determining the expected return under the contract:

(i) From Table II or VI (whichever is applicable), obtain the multiple under both of the annuitants' ages (as of the annuity starting date) and, if applicable, their appropriate sexes;

(ii) From Table IIA, or VIA (whichever is applicable), obtain the multiple applicable to both annuitants' ages (as of the annuity starting date) and, if applicable, their appropriate sexes;

(iii) Apply the multiple found in subdivision (i) of this subparagraph to the total of the amounts to be received annually after the death of the first to die; and

(iv) Apply the multiple found in subdivision (ii) of this subparagraph to the difference between the total of the amounts to be received annually before and the total of the amounts to be received annually after the death of the first to die.

If the original annual payment is in excess of the annual payment to be made after the death of the first to die, the expected return is the sum of the amounts determined under subdivisions (iii) and (iv) of this subparagraph. This may be illustrated by the following examples:

Example (1). A husband purchases a joint and survivor annuity providing for payments of $100 a month for as long as both he and his wife live, and, after the death of the first to die, payments to the survivor of $75 a month for life. As of the annuity starting date, his age at his nearest birthday is 70 and that of his wife at her nearest birthday is 67. If there is no post-June 1986 investment in the contract, the expected return under the contract is computed as follows:

Multiple from Table II (male, age 70; female, age 67)	19.7
Multiple from Table IIA (male, age 70; female, age 67)	9.3
Portion of expected return ($900 × 19.7—sum per year after first death)	$17,730
Portion of expected return ($300 × 9.3—amount of change in sum at first death)	$ 2,790
Expected return under the contract	$20,520

The total expected return in this example, $20,520, is to be used in computing the amount to be excluded from gross income. Thus, if the investment in the contract is $17,887, the exclusion ratio is $17,887 ÷ $20,520, or 87.2 percent. The amount excludable from each monthly payment made while both are alive is 87.2 percent of $100, or $87.20, and the remaining $12.80 of each payment shall be included in gross income. After the death of the first to die, the amount excludable by the survivor shall be 87.2 percent of each monthly payment of $75, or $65.40, and the remaining $9.60 of each payment shall be included in gross income.

Example (2). Assume the same facts as in example (1), except that the contract is purchased after June 30, 1986.

The expected return under the contract is computed as follows:

Multiple from Table VI (ages 70, 67)	22.0
Multiple from Table VIA (ages 70, 67)	12.4
Portion of expected return ($900 × 22.0—sum per year after first death)	$19,800
Plus: Portion of expected return ($300 × 12.4—amount of change in sum at first death) ..	$ 3,720
Expected return under the contract	$23,520

Thus, if the investment in the contract is $17,887, the exclusion ratio is $17,887 ÷ $23,520, or 76.1 percent. The amount excludable from each monthly payment made while both are alive would be 76.1 percent of $100, or $76.10, and the remaining $23.90 of each payment would be included in gross income. After the death of the first to die, the amount excludable by the survivor would be 76.1 percent of each monthly payment of $75, or $57.08, and the remaining $17.92 of each payment would be included in gross income.

Example (3). Assume the same facts as in examples (1) and (2), except that the total investment in the contract is $17,887, and that the pre-July 1986 investment in the contract is $8,000. Assume also that one of the annuitants makes the election described in §1.72-6(d)(6). Separate computations shall be performed pursuant to §1.72-6(d) to determine the amount excludable from gross income. The pre-July 1986 exclusion ratio would be $8,000 ÷ $23,520, or 34 percent. The post-June 1986 exclusion ratio would be $9,887 ÷ $23,520, or 42 percent. The amount excludable from each monthly payment made while both are alive would be $76 ((.34 × 100) + (.42 × 100)), and the remaining $24 of each $100 payment would be included in gross income. After the death of the first to die, the amount excludable by the survivor would be $57.60 of each monthly payment of $75 ((.34 × 75) + (.42 × 75)), and the remaining $18.00 of each payment would be included in gross income.

If the original annual payment is less than the annual payment to be made after the death of the first to die, the expected return is the difference between the amounts determined under subdivisions (iii) and (iv) of this subparagraph. If, however, payments are to be made quarterly, semiannually, or annually under the contract, the multiples obtained from both Tables II and IIA or Tables VI and VIA (whichever are applicable) shall first be adjusted in a manner prescribed in paragraph (a)(2) of this section.

(6) If a contract provides for the payment of life annuities to two persons during their respective lives and, after the death of one (without regard to which one dies first), provides that the survivor shall receive for life both his own annuity payments and the payments made formerly to the deceased person, the expected return shall be determined in accordance with paragraph (e)(4) of this section.

(7) If paragraph (b)(3) of §1.72-2 applies to payments provided under a contract and this paragraph applies to such payments, the principles of this paragraph shall be used in making the computations described in paragraph (d)(3) of §1.72-4. This may be illustrated by the following examples, examples (1) through (3) of which assume that there is no post-June 1986 investment in the contract:

Example (1). Taxpayer A, a male age 63, pays $24,000 for a contract which provides that the proceeds (both income and return of capital) from eight units of an investment fund shall be paid monthly to him for his life and that after his death the proceeds from six such units shall be paid monthly to B, a female age 55, for her life. The portion of the investment in the contract allocable to each taxable year of A is $955.20 and that allocable to each taxable year of B is $716.40. This is determined in the following manner:

Multiple from Table II (male, age 63; and female, age 55)	28.1
Number of units to be paid, in effect, as a joint and survivor annuity ...	×6
Number of total annual unit payments anticipatable with respect to the joint and survivor annuity element	168.6
Multiple from Table I (male, age 63)	16.2
Number of units to be paid, in effect, as a single life annuity	× 2
Number of total annual unit payments anticipatable with respect to A alone	32.4
Total number of unit payments anticipatable	201
Portion of investment in the contract allocable to unit payments ($24,000 ÷ 201) on an annual basis	$119.40
Number of units payable to A while he continues to live	×8
Portion of the investment in the contract allocable to each taxable year of A	$955.20
Portion of investment in the contract allocable to unit payments ($24,000 ÷ 201) on an annual basis	$119.40
Number of units payable to B for her life after A's death	×6
Portion of the investment in the contract allocable to each taxable year of B	$716.40

For the purpose of the above computation it is immaterial whether or not A lives to or beyond the life expectancy shown for him in Table I.

Example (2). Assume that Taxpayer A in example (1) receives payments for five years which are at least as large as the portion of the investment in the contract allocable to such years, but in the sixth year he receives a total of only $626.40 rather than the $955.20 allocable to such year. A is 69 and B is 61 at the beginning of the first monthly period for which an amount is payable in the seventh taxable year. A makes the election in that year provided under paragraph (d)(3) of §1.72-4. The difference between the portion of the investment in the contract allocable to the sixth year and the amount actually received in that year is $328.80 ($955.20 less $626.40). In this case, 139.2 unit payments are anticipatable (on an annual basis), since the appropriate multiple from Table II of §172-9, 23.2, multiplied by the number of units payable, in effect, as a joint and survivor annuity yields this result (6 × 23.2). A's appropriate multiple from Table I of §1.72-9 for the two units which will cease to be paid at his death is 12.6, and the total number of unit payments anticipatable (on an annual basis) is, therefore, 164.4 (2 × 12.6 plus 139.2). Dividing the difference previously found ($328.80) by the total number of unit payments thus determined (164.4) indicates that A will have an additional allocation of the investment in the contract of $16 to the seventh and every succeeding full taxable year (8 units × $2), and B will have an additional allocation of the investment in the contract of $12 (6 units × $2) to each taxable year in which she receives 12 monthly payments subsequent to the death of A. The total allocable to each taxable year of A is therefore, $971.20, and that allocable to each taxable year of B will be $728.40.

Example (3). If, in example (2), A had died at the end of the fifth year, in the sixth year B would have received a payment of $469.80 (that portion of the $626.40 that A would have received which is in the same ratio that 6 units bear to 8 units) and would thus have received $246.60 less than the portion of the investment in the contract originally determined to be allocable to each of her taxable years. In these circumstances, B would be entitled to elect to redetermine the portion of the investment in the contract allocable to the taxable year of election and all subsequent years. The new amount allocable thereto would be found by dividing the $246.60 difference by her life expectancy as of the first day of the first period for which she received an amount as an annuity in the seventh year of the annuity contract, and adding the result to her originally determined allocation of $716.40.

Example (4). On July 1, 1986, Taxpayer C, age 60, pays $28,000 for a contract which provides that the proceeds (both income and return of capital) from 10 units of an investment fund shall be paid monthly to C for C's life and that after C's death the proceeds from 4 such units shall be paid monthly to D, age 57, for D's life. The portion of the investment in the contract allocable to each taxable year of C is $1,037.00 and that allocable to each taxable year of D is $414.80. This is determined as follows:

Multiple from Table VI (ages 60, 57)	31.2
Number of units to be paid, in effect, as a joint and survivor annuity ...	×4
Number of total annual unit payments anticipatable with respect to the joint and survivor annuity element	124.8
Multiple from Table V (age 60)	24.2
Number of units to be paid, in effect, as a single life annuity	×6
Number of total annual unit payments anticipatable with respect to C alone	145.2
Total number of unit payments anticipatable	270
Portion of investment in the contract allocable to unit payments ($28,000 ÷ 270) on an annual basis	103.70
Number of units payable to C while C continues to live	×10
Portion of the investment in the contract allocable to each taxable year of C	$1,037.00
Portion of investment in the contract allocable to unit payments ($28,000 ÷ 270) on an annual basis	$ 103.70
Number of units payable to D for D's life after C's death	×4
Portion of the investment in the contract allocable to each taxable year of D	$ 414.80

For purposes of the above computation it is immaterial whether or not C lives to or beyond the life expectancy shown in Table V.

Example (5). Assume the same facts as in example (4), except that C's total investment in the contract is $28,000, and C's pre-July 1986 investment in the contract is $16,000. If C makes the election described in §1.72-6(d)(6), separate computations are required to determine the amount excludable from gross income with respect to the pre-July 1986 investment in the contract and the post-June 1986 investment in the contract. The annuitant shall apply the appropriate pre-July 1986 and post-June 1986 life expectancy multiples to the applicable portions of the units to be paid as a joint and survivor annuity, and as a single life annuity.

Pre-July 1986 Computation (all references to unit payments are to the pre-July 1986 applicable portion of such payments):

Multiple from Table II (male, age 60, female, age 57)	27.6
Number of units to be paid, in effect, as a joint and survivor annuity ...	×4
Number of total annual unit payments anticipatable with respect to the joint and survivor annuity element	110.40
Multiple from Table I (male, age 60)	18.2
Number of units to be paid, in effect, as a single life annuity	×6
Number of total annual unit payments anticipatable with respect to C alone	109.20
Total number of unit payments anticipatable	219.6
Portion of pre-July 1986 investment in the contract allocable to unit payments ($16,000 ÷ 219.60) on an annual basis	$ 72.86
Number of units payable to C while C continues to live	×10
Portion of pre-July 1986 investment in the contract allocable to each taxable year of C	728.60
Portion of pre-July 1986 investment in the contract allocable to unit payments ($16,000 ÷ 219.60) on an annual basis	72.86
Number of units payable to D for D's life after C's death	×4
Portion of pre-July 1986 investment in the contract allocable to each taxable year of D	$291.44

Post-June 1986 Computation (all references to unit payments are to the post-June 1986 applicable portion of such payments):

Multiple from Table VI (ages 60, 57)	31.2
Number of units to be paid, in effect, as a joint and survivor annuity ...	×4
Number of total annual unit payments anticipatable with respect to the joint and survivor annuity element	124.80
Multiple from Table V (age 650) ...	24.2
Number of units to be paid, in effect, as a single life annuity	×6
Number of total annual unit payments anticipatable with respect to C alone	145.20
Total number of unit payments anticipatable	270
Portion of post-June 1986 investment in the contract allocable to unit payments ($12,000 ÷ 270) on an annual basis	$ 44.44
Number of units payable to C while C continues to live	×10
Portion of post-June 1986 investment in the contract allocable to each taxable year of C	$444.40
Portion of post-June 1986 investment in the contract allocable to unit payments ($12,000 ÷ 270) on an annual basis	44.44
Number of units payable to D for D's lie after C's death	×4
Portion of post-June 1986 investment in the contract allocable to each taxable year of D	$ 177.78

Total Computation:

Total portion of the investment in the contract allocable to each taxable year of C ($728.60 + $444.40) ..	$1,173.00
Total portion of the investment in the contract allocable to each taxable year of D ($291.44 + $177.78) ..	$ 469.22

Example (6). Assume that taxpayer C in example (4) receives payments for four years which are at least as large as the portion of the investment in the contract allocable to such years, but in the fifth year receives a total of only $600 rather than the $1,037 allocable to such year. C is 65 and D is 62 at the beginning of the first monthly period for which an amount is payable in the sixth taxable year. C makes the election in that year provided under paragraph (d)(3) of §1.72-4. The difference between the portion of the investment in the contract allocable to the fifth year and the amount actually received in that year is $437 ($1,037 − $600). In this case, 106.4 unit payments are anticipatable with respect to the joint and survivor annuity element, since the appropriate multiple from Table VI of §1.72-9, 26.6, multiplied by the number of units payable, in effect, as a joint and survivor annuity yields this result (4 × 26.6). C's appropriate multiple from Table V of §1.72-9 for the six units which will cease to be paid at C's death is 20.0, and the number of unit payments anticipatable with respect to C alone is 120 (6 × 20). The total number of unit payments anticipatable is, therefore, 226.4 (120 plus 106.4). Dividing the difference previously found ($437) by the total number of unit payments thus determined (226.4) indicates that C will have an additional allocation of the investment in the contract of $19.30 to the sixth and every succeeding full taxable year (10 units × $1.93), and D will have an additional allocation of the investment in the contract of $7.72 (4 units × $1.93) to each taxable year in which D receives 12 monthly payments subsequent to the death of C. The total allocable to each taxable year of C is, therefore, $1,056.30, and that allocable to each taxable year of D will be $422.52.

Example (7). If, in example (6), C had died at the end of the fourth year, in the fifth year D would have received a payment of $240 (that portion of the $600 that C would have received which is in the same ratio that 4 units bear to 10 units) and would thus have received $174.80 less than the portion of the investment in the contract allocable to each of D's taxable years. In these circumstances, D would be entitled to elect to redetermine the portion of the investment in the contract allocable to the taxable year of election and all subsequent years. The new amount allocable thereto would be found by dividing the $174.80 difference by D's life expectancy as of the first day of the first period for which D received an amount as an annuity in the sixth year of the annuity contract, and adding the result to D's originally determined allocation of $414.80.

(e) *Expected return where two or more annuity elements providing for fixed payments are acquired for a single consideration.* (1) In the case of a contract described in paragraph (a)(2) of §1.72-2, which provides for specified payments to be made under two or more annuity elements, the expected return shall be found for the contract as a whole by aggregating the expected returns found with respect to each annuity element. If individual life annuity elements are involved (including joint and survivor annuities where the primary annuitant died before January 1, 1954) expected return for each of them shall be determined in the manner prescribed in paragraph (a) of this section. If joint and survivor annuity elements are involved, the expected return for such elements shall be determined under the appropriate subparagraph of paragraph (b) of this section. If terms certain or amounts certain are involved, the expected returns for such elements shall be determined under paragraph (c) or (d) of this section, respectively.

(2) The aggregate expected return found in accordance with the rules set forth in subparagraph (1) of this paragraph shall constitute the expected return for the contract as a whole. The investment in the contract shall be divided by the amount thus determined to obtain the exclusion ratio for the contract as a whole. This exclusion ratio shall be applied to all amounts received as an annuity under the contract by any recipient (in accordance with the provisions of §1.72-4), except in the case of amounts received by a surviving annuitant under a joint and survivor annuity element to which the provisions of section 72(i) and paragraph (b)(3) of this section would apply if it were a separate contract. See subparagraph (3) of this paragraph.

(3) In the case of a contract providing two or more annuity elements, one of which is a joint and survivor annuity element of the type described in section 72(i) and paragraph (b)(3) of this section, the general exclusion ratio for the contract as a whole, for the purpose of computations with respect to all the other annuity elements, shall be determined in accordance with the principles of subparagraphs (1) and (2) of this paragraph. A special exclusion ratio shall thereafter be determined for the surviving annuitant receiving payments under the annuity element described in section 72(i) and paragraph (b)(3) of this section by using the investment in the contract and the expected return determined in accordance with the provisions of paragraph (b)(3) of this section.

(4) In the case of a contract providing for payments to be made to two persons in the manner described in paragraph (b)(6) of §1.72-5, the expected return is to be computed as though there were two joint and survivor annuities under the same contract, in the following manner. First, the multiple appropriate to the ages (as of the annuity starting date) and, if applicable sexes of the annuitants involved shall be found in Table II, or VI (whichever is applicable) of §1.72-9 and adjusted, if necessary, in the manner described in paragraph (a)(2) of this section. Second, the multiple so found shall be applied to the sum of the payments to be made each year to both annuitants. The result is the expected return for the contract as a whole.

(5) For rules relating to expected return where two or more annuity elements are acquired for a single consideration and one or more of such elements does not specify a fixed payment for each period, see paragraph (f) of this section.

* * * * *

(g) *Expected return with respect to contracts subject to §1.72-6(d).* In the case of a contract to which §1.72-6(d) (relating to contracts in which amounts were invested both before July 1, 1986, and after June 30, 1986) applies, an expected return is computed using the multiples in Table I through IV of §1.72-9 with respect to the pre-July 1986 investment in the contract and a second expected return is computed using the multiples in Tables V through VIII of §1.72-9 with respect to the post-June 1986 investment in the contract.

Par. 4. Section 1.72-6 is amended by revising paragraph (b) and adding a new paragraph (d) to read as follows:

§1.72-6 Investment in the contract.
